**INDEX**

XUM

This INDEX is a consolidation of contents entries appearing in the July-September issues of the FEDERAL REGISTER. It is published monthly quarterly, and annually.

A GENERAL INDEX to the entire Code of Federal Regulations is available as of July 1 each year.

Numerical Finding Aids. CUMULATIVE LIST OF CFR SECTIONS AFFECTED is published monthly and is cumulated each month, keyed to the revision dates of the various CFR volumes. A CUMULATIVE LIST OF PARTS AFFECTED by entries in this INDEX appears at the end of this INDEX, together with a table of FEDERAL REGISTER pages and dates.

All FEDERAL REGISTER publications are available for purchase from the Superintendent of Documents, U.S. Government Printing Office, Wash. D.C. 20402.

Users and subscribers are invited to send their comments and suggestions to the Director, Office of the Federal Register, National Archives and Records Service, Wash. D.C. 20408. Inquiries may be made to either Judith Craine or Laurence Davey at area code 202-523-5227.

## ANIMAL AND PLANT HEALTH INSPECTION SERVICE—Continued

## Rules—Continued

Meat and poultry inspection mandatory: Connecticut, special provisions..... 39847, 43916

Dressed poultry..... 42337

Labeling restrictions relieved for certain meat food products containing pork..... 42852

New York, special provisions..... 29549

Tennessee, special provisions..... 39846

Overtime services relating to imports and exports:

Animals, commuted traveltime allowances..... 27643, 30621, 43717

Plants, commuted traveltime allowances..... 30621, 41513, 43479, 44822

Plant quarantine, domestic:

Fire ant imported..... 33026

Viruses, serums, toxins, and analogous products:

Diluents..... 41995

Editorial changes..... 41088

Live rabies vaccine..... 31593

Tetanus antitoxin..... 41995

Wart vaccine in cattle as prophylactic..... 30802

## Proposed Rules

Animal and poultry import restrictions:

Poultry and eggs, extension of time..... 37225

Quarantine facilities for poultry, birds, egg hatching..... 28807, 29728

Meat and poultry inspection, mandatory:

Hams and pork shoulders; labeling standards..... 41139

Undenatured poultry; transportation..... 31616

Virus, serums, toxins, etc.:

Anthrax spore vaccine; purity testing, extension of time..... 41139

Definitions, redefined..... 32753

Distemper vaccine, mink, and measles vaccine for dogs..... 32754

Packaging and labeling, production requirements, bulk exports, etc..... 28621

Salmonella Typhimurium and Pasteurella Multocida bacterin; potency tests, extension of time..... 32754

Tetanus antitoxin..... 30126

Viral vaccines, retesting..... 36572

## Notices

Environmental statements; availability, etc.:

Boil Weevil; eradication trial program..... 32860

Planning Animal Import Center, Fla..... 28111, 41159

Soil samples; list of approved laboratories..... 31967

## ENVIRONMENTAL PROTECTION AGENCY

## Rules

Air pollution control, new motor vehicles and engines:	
Certification and test procedures; technical amendments	33973
Emission standards, national, for hazardous air pollution; delegation of authority, California	42195
Recall regulations; decal requirements	28066
Air pollution; standards of performance for new stationary sources:	
California; delegation of authority	42194
Phosphate fertilizer industry	33152
Steel industry, electric arc furnaces	43850
Air quality implementation plans:	
Alabama	39503
California	29712, 33034
Ferroalloy production facilities; prevention of air quality deterioration	42011
Georgia	42351
Idaho	33215
Iowa	33452, 43214
Kansas	30961, 42190, 43215
Kentucky	29540, 40158, 42357
Massachusetts	33973, 39863
Mississippi	42354
Montana	43216
National ambient air quality standards; maintenance	40160, 41942
Nebraska	41778
New Jersey	30962
New York	42542
North Carolina	41779
Oregon	33215
Parking supply and related facilities; suspension	28064, 29713
Pennsylvania	41787
Photochemical oxidants, harmful and emergency action level	36330
Puerto Rico	32329, 39863, 42191
Tennessee	36335
Virgin Islands	42012
Virginia	33450
Wyoming; correction	33034
Fuels and fuel additives; unleaded gasoline:	
Administrative procedures for challenging liability and civil penalty assessment	39962
Distributors, carriers, transporting; controls; correction	29292
General availability; correction	38156
Information and reports, requests	36635

ENVIRONMENTAL PROTECTION  
AGENCY—Continued

Rules—Continued	Page
Pesticide chemicals in or on raw agricultural commodities; tolerances and exemptions, etc.:	
4-Aminopyridine	31602
Carbofuran	30714
Carboxin	33659
Chlorothalonil	29714
2-(4-Chloro-6-(ethylamino)-s-triazin-2-yl amino)-2-methylpropanol	32746
Daminozide	42357
2,4-Dinitro-6-octylphenyl crotonate and 2,6-dinitro-4-octylphenyl crotonate	29715
Ethoprop; correction	29547
N-(1-Ethylpropyl)-3,4-dimethyl-1,2,6-Dinitrobenzenamine	29850
Hexakis (2-Methyl-2-Phenylpropyl) Distannoxane	33035
Inert ingredients, certain	28065, 40161
Naled	43727
Oxadiazon	33453
Paraquat	31237, 43727
Pine Oil	31236
Polymer, cross-linked nylon-type encapsulating	43727
Profluralin	31236
Propargite	32746
Tetraethyl pyrophosphate	34340
2-(Thiocyanomethylthio) benzole	33453
Trifluralin	28065
Zinc phosphide	31237
Pesticide registration; enforcement of Federal Insecticide, Fungicide, and Rodenticide Act	28242, 32329, 33974, 36571, 41788, 42746
Water pollution; effluent guidelines for certain point source categories; manufacturing, processing, etc.:	
Electroplating; extension of time	29075
Fertilizer; urea subcategory	36337
Grain mills, corn wet subcategory	37038
Ink	31726
Inorganic chemicals; extension of time	29850
Oil and gas extraction; offshore segment	42543
Paint	31724
Paving and roofing materials (tars and asphalt)	31190
Sugar; beet	36337
Water pollution control:	
Discharge of dredged or fill material; activities permits; agreements with Engineers Corps	41292
Discharge elimination system, National	29848
Ocean dumping, transportation of material; permits	30114
Proposed Rules	
Air pollution; standards of performance for new stationary sources; fossil fuel-fired steam generators; opacity provisions	42028
Air quality implementation plans:	
Alabama	30982, 40354
Arizona	36577, 42368, 42896
California	30982

Information; trade secrets and confidential business information; supplement and corrections	28814
Pesticide chemicals in or on raw agricultural commodities; tolerances and exemptions, etc.:	
Carbofuran	43924
Inert ingredients	30289, 41538
Methomyl	42757
Polymer, cross-linked nylon-type; encapsulating	32340
Pesticide programs; enforcement of Federal Insecticide, Fungicide, and Rodenticide Act:	
State issuance of experimental use permits	40545, 44162
State registration to meet special local needs	40538, 44162
Privacy Act; Implementation	40792
Radiation protection standards for nuclear power operations; extension of time	34417
Waste, solid; treatment, management, etc.:	
Grants, areawide planning agencies and state agencies	41044
Grants, procurement of personal and professional services for construction of treatment works; meeting	43231
Policies and procedures; designation of areas and regional planning agencies	41640
Source separation for materials recovery; guidelines	42986
Storage and collection	29404
Water pollution; effluent guidelines for certain point source categories; manufacturing and processing, etc.:	
Electroplating; extension of time	29076
Fertilizer (phosphate)	33052
Grain mills, corn wet subcategory	37052
Ink	31730
Inorganic chemicals; extension of time	29892
Iron and steel	36708
Oil and gas extraction, offshore segments	42572
Organic chemicals	34409
Paint	31729
Paving and roofing materials	31196
Poultry; extension of time	28633
Pulp, paper, and paperboard	41300

Water pollution control:	Page
Analysis of pollutants; test procedures; extension of time	32136
Secondary treatment information; domestic wastewater disinfection	34522
State continuing planning processes, policies and procedures	29082, 32133
State water quality management basin plans; preparation	29887, 32133
Water quality standards, implementing Safe Drinking Water Act:	
Grants, State public water system; supervision programs	33224, 40338
Primary standards, National	33228, 40538
Radioactivity; contaminant levels	34324
Water quality standards; State plans:	
New Jersey, New York, and Puerto Rico; withdrawn	30983
Ohio; withdrawn	33470
Notices	
Air pollution control, new motor vehicles and engines:	
California; waiver of Federal preemption	30311
Fuel economy labeling program, voluntary data, 1975 models	37250
Light duty vehicles; suspension of 1977 hydrocarbon and carbon monoxide emission standards	27904
Air pollution; standards of performance for stationary sources:	
Asphalt opacity provisions; response to comment	41834
California; authority delegations	42236, 42237, 42248
Generators, steam; fossil fuel-fired	42045
Sulfuric acid plants	39227
Air quality standards:	
Ambient air monitoring reference and equivalent methods; designations, sulfur dioxide	34024
Clear Air Act, administration; nonexempt Federal contracts, grants and loans; list of ineligible violating facilities	33284
Energy related authority; progress and impact report; Energy Supply and Environmental Coordination Act, implementation	33409
Air quality standards; ambient monitor applications:

FEDERAL COMMUNICATIONS  
COMMISSION—Continued

## Rules—Continued

	Page
Citizens radio service:	
Class D stations; operating rules for	33667
Experimental broadcast services; FM broadcast translator stations; polarization of transmitting antennas	29862
FM and UHF translator stations; slide and voice announcement	31604, 40810
Records of TV and FM translators and FM booster stations	28610
FM broadcast stations:	
Florida	33662, 37040
Idaho	36775
Illinois	36774
Louisiana	33218, 42882
Maine	43506
Michigan	43507
Missouri et al.	28457, 34341
New York	33665, 36344
Oregon	43028
Texas	28098, 29547
Freedom of Information	34115, 39506
Frequency allocations and radio treaty matters:	
Certificated equipment; identification requirements	32746, 40810
Editorial changes	31226
Emergency broadcast system; attention signal equipment	34116
Local government and manufacturers radio services; telemetry and remote control operations	33455
UHF-TV translator stations	34598
Industrial radio services:	
Hydrological and meteorological data transmission; frequency availability	32747
Local government and manufacturers radio services; telemetry and remote control operations	33455, 40169
Maritime services, land and shipboard:	
Coast station, class II, public; availability of assignment at Guam	30820
Editorial amendments	44142
Microwave radio service, private operational-fixed, establishment; effective date deferral	36345
Organization and functions:	
Chief, Common Carrier Bureau	34340
Chief Engineer	33217
Field office locations; address changes	28454
Practice and procedure:	
Commercial radio operator licenses; fee schedule	33218
Emergency broadcast system; attention signal equipment	34116
FM and noncommercial educational processing FM broadcast applications	28803
FM, TV, and standard broadcast processing applications	28454
Plan and Policy Office Chief et al.; listing as decision making personnel in Commission proceedings; correction	44327
Radio broadcast service; fee schedules	42882

Privacy Act; implementation	34512
Public safety radio services:	
Local government and manufacturers radio services; telemetry and remote control operations	33455
Radio broadcast services:	
See also FM broadcast stations.	
AM station assignment standards	29850, 31227
Emergency broadcast system; attention signal equipment	34116
Field strength, curves and measurements	27671
Frequency regulation, remote control operation, etc.; correction	27949
Television broadcast signal, video, vertical blanking interval; editorial changes	34157
Radio frequency devices; emergency broadcast system; attention signal equipment	4116
Proposed Rules	
Amateur radio service; operator classes, privileges and requirements; extension of time	39532
Cable television:	
Channel capacity and access channel requirements; extension of time	34155
Definition; classes of systems; inquiry	34155
Duplicative and excessive over regulation; inquiry	34608
Franchise fees; technical amendment	34613
Leap frogging provision; selection of television signals for carriage; extensions of time	28634, 34613
Multiple and cross-ownership	30291, 34614, 40172, 42028, 44849
Network program exclusivity protection; inquiry	34395, 43925
Relay service application, authorization form (CARS)	30986, 42028
Relay services; television translator relay stations; use of FM microwave, inquiry	30985, 36380
Signal strength contours; extension of time	34155
Specialty stations and specialty format programming; definitions	31807, 43038
Syndicated program exclusivity protection obligation; exemption of smaller systems and conglomerates	28816
Communication common carriers:	
International record carriers scope of operation in U.S.; authorization of new gateway cities; inquiry	33685
Records, preservation	28816
Telephone network; registration of equipment connected interstate and foreign message toll telephones services (MTS) and wide area telephone service (WATS); extension of time	29302
Domestic public radio services:	
Application processing, procedures, etc., extension of time	28816

Offshore radio telecommunications service; establishment; extension of time	31248
Experimental broadcast service:	
Television translator relay stations; use of FM microwave, inquiry	30985, 36380
Television translator stations; power limitations	37054
FM broadcast stations; table of assignments:	
Arizona	33243
Arkansas and Missouri	30985, 34614
Florida	28634, 29303
Georgia	30985
Idaho	39529
Minnesota	34391
Mississippi	32762
Montana	30290
New Hampshire	34393
Oklahoma	39530
Oregon	33686
Pennsylvania	34394
Vermont	34393
Wyoming	36383
Frequency allocation and radio treaty matters:	
Government earth stations for earth-to-space transmissions for tracking, telemetry and telecommand	42897, 43924
Local government and manufacturers radio services; telemetry and remote control operations	33471, 43037
Local government radio services; transmission of information to traveling public; extension of time	36778
Offshore radio telecommunications service; establishment; extension of time	31248
Industrial radio services:	
Local government and manufacturers radio services; telemetry and remote control operations	33471, 34155, 34613, 42028, 42577
Radiolocation service transmitters; type acceptance requirement	31809
Land transportation radio services; radiolocation service transmitters type acceptance requirement	31809
Practice and procedure:	
Corporate ownership, reporting and disclosure by broadcast licensees; extensions of time	32763, 42577, 43514
Noncommercial education broadcasting licenses; policies, forms, and license renewals	34382, 43038
Radio broadcast services; fee schedule	33242
Telephone companies and telegraph carriers ownership; annual report forms; extensions of time	33239, 33685
Privacy Act implementation	33239
Public safety radio services:	
Local government and manufacturers radio services; telemetry and remote control operations	33471, 34155, 42577

	Page
Local government radio services; transmission of information to traveling public; extension of time	36778
Police emergency communications channel, nationwide	34161
Radiolocation service; transmitters; type acceptance requirements	31809
Radio broadcast services:	
Audience ratings, distortion; prohibition; extension of time	37054
Billing practices, fraudulent; prohibition; extension of time	37054
Contest practices; extension of time	37054
Multiple and cross-ownership	30291, 31632, 31807, 34614, 40172, 44849
Nondiscrimination; broadcast licensees, inquiry	31625, 33243, 42578
Program logs; AM, FM and TV stations	44577
Promotional announcements; logging inquiry	43514
UHF television "taboo" table, re-evaluation; extension of time	40172
Safety and special radio services:	
Station transmissions systems, automatic identification; extension of time	37055
Television broadcast stations; table of assignments:	
Arkansas	42369, 43038
Puerto Rico	34396
Notices	
Authority delegations, Board of Commissioners; establishment	32783
Automatic frequency assignment model computer program report; availability	36422
Broadcast stations:	
Annual license fees; stations sold since previous payment	31036
Automatic transmission systems; extension of time	29923
Cable television:	
Annual fee, suspension pending judicial review	34189
Certificates of compliance; applications and petitions; service on broadcast stations	29336
Certificates of compliance and franchising; remainder to applicants	30742
Commission decisions, important to system operators and franchising, reminders	33285
License fee filing date; memorandum to owners and operators	31657
Sports events broadcasts, importation of distant signal; draft inquiry	27965
Canadian standard broadcast stations; list	30735, 31261, 34634, 39545
Canadian television channel allocations within 250 miles of U.S. border; table	31034, 33176
Committee, recognition; Southern California Marine Radio Council	43547
Communications common carriers:	
Domestic public radio services applications accepted for filing	28516, 29588, 30737, 31262, 32780, 33284, 34459, 36802, 40574, 41178, 43057, 43545, 44352
Tariffs, competitive filings	28135
Doppler radar; special frequency band requirements	28137
Election Campaign Act, Federal; interpretations to broadcast licensees	28664
Emergency broadcast system; National-level interconnecting closed circuit test	33286
FM and TV broadcast applications ready and available for processing	34634, 36805, 40200, 41182, 44539, 44602
Land mobile paging stations, use of television channels; optimum frequency spacing and sharing; termination of proceeding	31266, 34641
Meetings:	
Aeronautics Radio Technical Commission	29758, 29759, 33723, 37082, 44606
Domestic Land Mobile Radio Advisory Committee 1979	28135
Fixed Satellite Advisory Committee	42915
Industry Advisory Committee	42596
Marine Services Radio Technical Commission	27967, 31830, 40198, 44876
PBX Technical Standards Subcommittee	36805, 41179, 42050
Private Land Mobile Advisory Committee	34189, 36425, 42916, 43546
Ship Radar Special Committee	27718
Technical Standards Subcommittee	33286
Mexican broadcast station notification list	43761
Policy statement; objectionably loud commercials	34188
Privacy Act; records systems	40068
Program log analysis; 1976 composite week dates for AM and FM and commercial television licensees	28136
Public interest mailing list	34461, 34641
Radio common carriers and wireline telephone companies, interconnection; meetings	32781, 34194, 41182, 43947
Reports and new Index-Digests; issuance	43947
Ship station licensees; frequency authorization	42051
Sponsorship identification rules; applicability	41936
Standard broadcast applications; ready and available for processing	29924, 44354
Television broadcast stations, table of assignments VHF stations, inquiry petition	42775
Television renewal applications; contours, field intensity charts, etc.; extension of time	41182

## FEDERAL CONTRACT COMPLIANCE OFFICE

Rules	Page
State and local requirements for federally assisted construction contracts:	
Atlanta plan; extension	28009
Washington plan; extension	30963
<b>Proposed Rules</b>	
State and local requirements for federally assisted construction contracts:	
New York City	28472, 28530, 33680
Philadelphia	28477, 33680
Washington, D.C.	41149

<b>Notices</b>	
Nonconstruction contracts, Federal; institutions of higher education, nondiscrimination and affirmative action; hearing	30166, 37129

State and local requirements for federally assisted construction:	
Baltimore, Md. hearing	41206
Los Angeles, extension	28529
New York, extension	28530
Philadelphia plan, extension	28530

## FEDERAL CROP INSURANCE CORPORATION

<b>Rules</b>	
Crop insurance, designated counties in certain States:	
Cotton	44539
Grain sorghum	44540
Grapes	44540
Peaches; 1976 and after	44823
Sugar beets; all States except Calif	44822
Sugarcane; Louisiana	44540

<b>Notices</b>	
Crop applications; extension of closing dates:	
Sugar beets, Calif.	42227
Sugarcane; Louisiana	40869
Wheat, winter, N. Dak.	43044

## FEDERAL DEPOSIT INSURANCE CORPORATION

<b>Rules</b>	
Flood hazards, special; loans in areas with	27931, 43482
Forms, instructions and reports; State nonmember banks	36559
Interest on deposits; preauthorized payments or transfers from savings deposits	33198
Practice and procedure; examination of insured banks and affiliates	28048
<b>Proposed Rules</b>	
Interest on deposits:	
Individual retirement accounts; inquiry	28099
Subordinated debt obligations	28100
Privacy Act, implementation	39426
Transfer agents; registration	40856
Unsafe and unsound banking practices, insider transactions; recordkeeping requirements	40548, 41530
<b>Notices</b>	
Insured banks, joint call for report on condition	28851
Privacy Act; records systems	39079

## FEDERAL DISASTER ASSISTANCE ADMINISTRATION

Rules	Page
Disaster Relief Act; standards and procedures; correction	28609
<b>Notices</b>	
Disaster areas:	
Florida	39542
Illinois	32773
Louisiana	39920
Minnesota	29751, 31022, 31652, 36167, 41550
Montana	28504, 29752, 32774
New Jersey	31975, 43265
North Dakota	30305, 31652
Ohio	43048, 43943
Oklahoma	29916
Puerto Rico	44600
Tennessee	27962
West Virginia	43265
Wisconsin	43339

## FEDERAL ELECTION COMMISSION

<b>Rules</b>	
Complaint procedure; interim guidelines	28578
Conventions, public financing for; disbursement procedures; interim guidelines	40671
Debts and obligations; interim reporting guidelines	32950
New Hampshire Senate election interim guidelines	40668
Presidential primary matching funds; interim guidelines	33817, 41933
Tennessee special election; interim guidelines	42860
<b>Proposed Rules</b>	
Accounts, office and franking; excess campaign contributions; treatment of	32951, 36869, 37226, 41932

Campaign funds, Federal, disclosure:	
Campaign depositories	44698
Candidate status and designations	44698
Convention financing, reports	44698
Definitions and scope	44698
Political committees, organization of	44698
Political committee, registration of	44698
Reports by political committees and candidates to Commission	44698
Reports and statements, formal requirements	44698
Statements, filing copies, with state officers	44698
Document filing	33169, 43517
Federal Election Campaign Act; implementation; extension of time	28579
Reporting requirements, forms; inquiry	30581
Privacy Act, implementation	36872

<b>Notices</b>	
Advisory opinion requests	28044, 28944, 30258, 31878, 31934, 36530, 36534, 40675, 43166, 43664, 44041
Advisory opinions:	
Banks, corporations, and labor unions, contributions to defray constituent service expenses	34084
Campaign contributions from partnership	40673
Campaign debts, pre-1975	31316

Campaign debts from 1972, continuous reporting	42838
Constituent services of members of Congress, contributions and expenditures relating to	40673
Democratic Party telethon	29792
Dual candidates, funding limitations and separate committees	42839
Funds, internal transfer, by candidates or committees	40674
Honorariums and related benefits for members of Congress	36746
Incorporation of political committee	42303
Michigan Democratic Party	36092
National political party conventions	29792
National Republican Congressional Committee	36092
Principal campaign committee, reporting schedule, etc.	36242
Royalties, payment of, by campaign committee to candidate	44040
Travel expenses from corporations, legality of receipt by Presidential candidate	36746
Unopposed primary candidates, contribution and expenditure limits	36242
New Hampshire Senate election:	
Inquiry	40202
Reporting, ten day pre-election	40202
Policy statement; pre-1975 campaign debts	32952
Privacy Act; systems of records	36875
Records, public availability and inspection; fee schedules	28580
Report, quarterly, October 10, interim guidelines	44708

## FEDERAL ENERGY ADMINISTRATION

<b>Rules</b>	
Administrative procedures and sanctions:	
Consent orders	36760
Oil Import Appeals Board, abolishment	36554, 39495
Oil imports, vacating and reserving of Part	36554
Profit margin repurification	32734
Remedies	40141
Allocation and price rules, general:	
Definition; crude oil	40818
Stripper well lease exemption, extension	31925
Coal, allocation procedures under Energy Supply and Environmental Coordination Act	28420
Mandatory petroleum allocation regulations:	
Air passenger transportation services; access to refined petroleum products filing procedures	28446
Crude oil, buy/sell list	32136, 33832, 34162
Propane and butane imports; industrial use	40821
Mandatory petroleum price regulations:	
Definitions, crude oil	40818
Domestic crude petroleum; retroactive invoicing	28447
Landed costs; remedies	40142
Natural gas liquids, exemption	40824
Natural gas liquids and products	39850
Non-product costs, increased	39849

Old oil; price ceilings, phase-out	30030, 31741
Propane and butane imports; industrial use	40821
Oil imports regulations:	
Fee payments, license; reduction	40143
Fee payments, supplemental; deferral pending Congressional action	36302, 42578, 44308
Fee payments, supplemental; reduction, unfinished oils and finished products	44306
Oil Import Appeals Board, abolishment	36554, 39495
Presidential Proclamations, conforming amendments	39854
Records of oral communications with persons outside FEA	42338
<b>Rulings:</b>	
Early payment percentage discounts	40831
Non-product cost increases incurred by resellers, et al.; prices charged to reflect	40833
Non-product costs of resellers, et al.; carryforward of amount, prices charged, etc.	40834
Oil refiners' increased product cost, allocation; export sales transactions	30037
Property; definition, computing production control levels	40832
Storage tanks, rentals, new and higher cost	40827
Stripper well lease exemption, calculation; average daily production	40828
Petroleum wholesale purchaser-resellers, qualifications of certain consignees	30037
Storage costs	40826
Transportation costs where transportation is provided by firm concerned	40826
<b>Proposed Rules</b>	
Administrative procedures and sanctions:	
Air passenger transportation services; access to refined petroleum products	28446
Oil Import Appeals Board, abolishment	28481, 31036
Oil imports, vacating and reserving of Part	28481, 31036
Mandatory petroleum allocation regulations:	
Air passenger transportation services; access to refined petroleum products filing procedures	28446
Crude oil, buy/sell list	32136, 33832, 34162
Propane and butane imports; industrial use	30671
State set-aside program, termination	30500, 33724
Mandatory petroleum price regulations:	
California heavy crude oil, gravity price differential adjustments; hearing	28637
Crude oil, allocated, pricing	28448
Crude oil, buy/sell list	32136, 33832, 34162

Definitions; Research octane number (RON)	32348
Landed costs; disallowance remedies	36389
Old oil decontrol program; price ceilings, phaseout; Congressional disapproval	34161
Refiners' profit margin limitations; hearing	28634, 30674
Oil import regulations:	
Mandatory oil import program, facilitation	33474
Presidential Proclamation No. 4377; conforming amendments	28487
Privacy Act; implementation	42448
<b>Notices</b>	
Committees, establishment, etc.:	
Consumer Affairs/Special Impact Advisory Committee; charter amendments	34642
Food Industry Advisory Committee	34642
Transportation Advisory Committee	40202
Emergency Petroleum Allocation Act; reports	40877
Environmental statement, Electric Power Facility Construction Incentive Act of 1975	34025
Mandatory oil import program; evaluation; inquiry, extension of time	36619, 41184
Mandatory petroleum allocation regulations; State set-aside program	33724
Mandatory petroleum price regulations; imported crude oil, landed costs:	
Establishment, May, 1974 to Sept., 1974	39934
Representative and maximum prices; October, 1974 to May, 1975	39934
<b>Meetings:</b>	
Consumer Affairs/Special Impact Advisory Committee	31985, 40577
Electric Utilities Advisory Committee	29127
Environmental Advisory Committee	29338, 42596
Food Industry Advisory Committee	42240
LP-Gas Advisory Committee	40877, 42596
Natural Gas Transmission and Distribution Advisory Committee	37276
Retail Dealers Advisory Committee	30523
Transportation Advisory Committee	42779
Wholesale Petroleum Advisory Committee	33286, 36807
Motor vehicle goals beyond 1980, Interagency task force; Energy Research Council, hearing	28666, 30522, 39934
National utility residual fuel oil allocation, supplier percentage; various months:	
August	30768
September	36750

Natural gas:	
Form availability, intrastate suppliers to direct end-use customers; delivery curtailment and alternate fuel requirements	29339
Underground storage fields, report; availability of forms	44876
Synthetic, facility; allocation of feedstock; petition for assignment of base period volume and supplier	39933
Oil import supplemental fees, July and August; collection	43959
Old oil allocation program, 1975; entitlement notices:	
May	30745, 32378
June	36096
July	39935, 43943
August, intent to publish	39935
Old oil allocation program; small refiners, applications for exceptions filed by; proposed evaluation standards	33480
Old oil entitlement; hearing, application for exemption; New England Petroleum Corp.	30744
Petroleum company financial report questionnaire; form	43612, 44183
Powerplant energy sources; prohibition of burning	28430, 34194
Power plant productivity conference, meetings	31984, 34469, 43547
Privacy Act; records systems	39321
Refiners buy-sell list; crude oil allocation	39932
Report, product pricing; availability of form	36806
<b>FEDERAL HIGHWAY ADMINISTRATION</b>	
<b>Rules</b>	
Engineering and traffic operations; construction and maintenance; corrections	36319
Contract provisions, required; Federal-aid, construction; EPA requirements	42867
Railroad companies, reimbursements for construction work; billings	29712, 31211
Speed limit enforcement; certification	41774
Speed limit, national; enforcement of vehicle weight and size limitations	42186
Equal employment opportunity on Federal and Federal aid highway construction contracts	28053
Motor carrier safety regulations:	
Drivers' hours of service; substitution of form MCS-63A	44556
Drivers' hours of service; Hawaii, daily log; exemption	32335
Drivers' qualifications; Hawaii, exemptions	32335
Driving of motor vehicles; railroad grade crossings, stopping requirement	44555
Forfeiture claims, collection and compromise delegation of authority, Associate Administrator of Safety et al.	40810
General; locations for filing accident reports and notifications; changes of addresses	44555
Migrant workers, transportation of	44555

FEDERAL HIGHWAY ADMINISTRATION—  
Continued

Rules—Continued	Page
Motor carrier safety regulations—Continued	
Mobile structure trailers; lamps and reflectors	36125
Seats, seat belt assemblies, etc.; Hawaii, exemptions	32335
Sleeper berth exits; dimensional requirements; interpretations	29723
Sleeper berths, dual occupancy	31769
Tires; overloading and underinflation	29292, 44555
Noise emission standards, interim; interstate motor carriers	42432
Payment procedures:	
State; highway safety funds, transfer	29817
Railroad companies, reimbursements for construction work; billings	29712, 31211
Planning:	
Federal-aid highway systems, primary, secondary, and urban; realignment	42344
Metropolitan planning funds; transportation	38150
Safety funds, highway; public road mileage for apportionment	44322
Transportation Improvement Program	42979
Urban transportation planning	42976
Right-of-way and environment:	
Acquisition function	33445
Highway beautification; outdoor advertising control	42842
Reimbursement provisions; contract procedures; effective date	41523
Right-of-way general; real property acquisition report; editorial changes	30818, 29072
Proposed Rules	
Bridge tolls and escrow revenue increase, notice; inquiry	30081
Motor carrier safety regulations:	
Brake tubing, coiled nylon	37045
Hazardous materials; drivers transporting in intrastate commerce; exemptions	31806
Hazardous materials; occupational safety and health statutory enforcement and applicability	29729
Semitrailer and full trailer rear sidemarker lamps, location	31959
Tire chains; exemption, inquiry	36777
Notices	
Bridge tolls:	
Delaware River Port Authority	29018
New York and New Jersey Port Authority; informal conference	32152
Highway safety; program approval policy; joint with NHTSA	38185
Safety sanctions proceedings, motorcycle helmets, initiation against various States; agreement with NHTSA:	
California	32153
Illinois	32153
Utah	32154

## FEDERAL HOME LOAN BANK BOARD

Rules	Page
Federal home loan bank system:	
Flood disaster protection, insurance; members of banks	41996
Members of banks; liquid assets; correction	41755
Members of banks; liquidity	33029
Policy statements; liquidating dividends in mergers	29702
Federal Savings and Loan Insurance Corporation:	
Account insurance, settlement; deletions	33030
Definitions, scheduled items	29069
Flood disaster protection, insurance; operations	41996
Mortgage-backed bonds, issuance; collateralized borrowings; operations	29703
Recordkeeping, examinations and audits; appraisals; operations	29703
Federal savings and loan system:	
Charter and by-laws; communications among members	42853
Cooperative housing projects; operations	44125
Definitions; cooperative housing projects	44125
Flood disaster protection, insurance; operations	41996
Loans exceeding 90 percent in value; operations	41756
Merger, dissolution, reorganization, and conversion	36310
Operations; communications among members	42853
Operations; service corporations	36309
Rulings; deposit assurance of direct-deposit social security payments	32313
Privacy Act, implementation	30371
Savings and loan holding companies:	
Affiliates, transactions with	34585
Proposed Rules	
District of Columbia savings and loan associations and branch offices:	
Deletion of Subchapter	33055
Operations; investments and other transactions; withdrawn	33055
Federal Savings and Loan Insurance Corporation:	
Checking accounts; operations	42371
Conflict of interest; operations	43832
Definitions; checking accounts	42371
Definitions; conflict of interest	43832
Insurance settlement; checking accounts	42371
Merger, consolidation, or purchase of bulk assets; operations	27954, 20643
Mortgage insurance loans; operations	42898
Pension, retirement, and deferred compensation plans and contracts; operations	34614
Policy statements; checking accounts	42371
Policy statements; exclusive leases	29093

## RECEIVERS FOR INSURED INSTITUTIONS OTHER THAN FEDERAL SAVINGS AND LOAN ASSOCIATIONS;

Rules	Page
checking accounts	42371
Rulings, account insurance:	
Part rescinded	34614

FOOD AND DRUG ADMINISTRATION

Rules

Administrative practices and procedures, enforcement, authority delegations, etc. 29817, 31234, 31605, 31754, 32750, 33063, 40520

Animal drugs, feeds, and related products: Applications; sponsors, name changes. 29535, 37036, 43483

Bambermycins-monomensin and bambermycins - monomensin-roxarsone. 39857

Bambermycins premix. 32831, 39853

Benzathine penicillin G. 30639

n-Butyl chloride capsules. 39858

Clopidol-zinc bacitracin. 31934

Cloxacillin. 28792

Daminozide. 42343

N'-(2,4-dimethylphenyl)-N-[(2,4-dimethylphenyl)imino]methyl-N-methylmethanimidamide. 41773

O-ethyl S,S-diphenyl phosphorodithioate. 41773

Hexakis (2-Methyl-2-Phenylpropyl) Distannoxane. 33033, 33820

Lenperone hydrochloride injection. 36319

Lenperone tablets. 36319

Levamisole hydrochloride and piperazine dihydrochloride. 32831

Medroxyprogesterone acetate. 41085

Oxytocin injection. 28792

Paraquat. 31236

Poloxalene. 39857, 42866

Potassium hetacillin for intramammary infusion. 30941

Procaine penicillin G. 30639, 42007

Robenidine hydrochloride, bacitracin methylene disalicylate. 33444

Robenidine hydrochloride, zinc bacitracin. 39859

Ronnel. 34112

Roxarsone. 31933

Sponsors of approved applications; correction. 28791

Sulfadimethoxine injection. 34111, 42007

Sulfadimethoxine tablets and boluses. 43488

Sulfonamide-containing products; extension of time to submit data. 43213

Tetracycline tablets. 39858

Thiabendazole. 29706

Tylosin. 27651, 31235, 31934, 33443, 34111

Biological products: Hepatitis B surface antigen; test for safety. 29706, 33821

Radioactive drugs. 31298, 31311, 43488

Color additives: D &amp; C Green No. 6 for surgical sutures. 44542

F. D. &amp; C. Red No. 3, et al. 44812

Powdered silk. 29817

Color certification: F. D. &amp; C. yellow No. 5, et al. 44813

Corn, canned; identity standards. 30940

Cosmetic products; warning statements, packaging labels. 28451, 31606

Dietary foods; identity standards and labeling requirements; stay of effective date. 34586

Food additives: Acrylonitrile / butadiene / styrene/methyl methacrylate copolymer. 40799

Acrylonitrile / butadiene / styrene copolymer. 40799

Bambermycins-monomensin and bambermycins - monomensin-roxarsone. 39857

Medroxyprogesterone acetate. 41085

Menadione dimethylpyrimidinol bisulfite. 30108

Methyl esters of fatty acids. 30639

Nylon resins. 29073

Styrene block polymers. 29534

Fruits and fruit juices, canned; identity standards. 28791

Page

Human drugs:

Antibiotic drugs, certification and fees. 28052

Cephadrine; correction. 33204

Containers; blood and blood components collection. 33971

Erythromycin-neomycin sulfate ointment; confirmation of effective date. 41773

Good manufacturing practice, reorganization and recodification. 28610

Griseofulvin (ultramicrosize) tablets. 41522

Methadone maintenance of pregnant addicts. 34110

Radioactive drugs and biological products; reassignment of responsibility. 31311

Radioactive drugs and biologics; termination of exemptions. 31298, 43488, 44543

Jellies, preserves, fruit butters; identity standards. 39855, 42866

Packaging and labeling; food, drugs, cosmetics, and devices. 28582

Pesticide tolerances in food: Daminozide. 42343

Paraquat. 43720

Radiological health; laser products; performance standards. 32252, 40800

Sanitation, interstate conveyance; railroad waste discharge control. 30108

Sweeteners, nutritive; lactose; food identity standards. 33820

Proposed Rules

Administrative practices and procedures, enforcement, authority delegations, etc.; stay of regulations. 32750, 33063

Animal drugs: Depinar Vet; withdrawal of approval. 34181

Drugs no longer marketed; withdrawal of approval. 34180, 38179

Franklin Phenothiazine Drench Compound Powder. 29113

Intramammary infusion products for treating mastitis. 39540

Phenothiazine drench; withdrawal of approval. 37245

Phenothiazine drench with lead arsenate; withdrawal of approval. 33483

Phenothiazine drench powder; withdrawal of approval. 30859

Repromix; withdrawal of approval. 41160

Triverm capsules. 30859

Ultra-life super beef Y-Z "A"; withdrawal of approval. 44600

Biological products and radioactive drugs, interim enforcement policy. 31314

Cardiovascular Devices Review, Panel; panel report availability. 41829

Committees, advisory: Filing of annual reports. 40870

Request for nomination of members. 34623

Frozen desserts and dairy products; exemption from label requirements. 30978

Human drugs: Antibiotic drugs; certification; facsimile transmission service. 33680

Bioavailability and bioequivalence requirements. 30493, 34407

Contact lenses; marketing. 44844

Hypoglycemic drugs, oral; labeling. 28587, 33459, 43513

Information requirements in abbreviated new drug applications; extension of time. 34406

Intrauterine contraceptive devices; labeling. 27796

Marketing conditions for prescription drugs. 34406, 43531

New drug applications; procedures for filing over protest. 44335

Privacy Act, implementation. 39388

Radiological health: Electronic products; performance standards. 44846

X-ray procedures, diagnostic; guideline for gonad shielding use. 42749

X-ray systems, diagnostic; performance standards; extension of time. 33828

Shellfish safety program; correction. 29554

Notices

Administrative practices and procedures, enforcement, authority delegations, etc.; stay of regulations. 32750, 33063

Animal drugs: Depinar Vet; withdrawal of approval. 34181

Drugs no longer marketed; withdrawal of approval. 34180, 38179

Franklin Phenothiazine Drench Compound Powder. 29113

Intramammary infusion products for treating mastitis. 39540

Phenothiazine drench; withdrawal of approval. 37245

Phenothiazine drench with lead arsenate; withdrawal of approval. 33483

Pacific Far East Line, Inc.....	28832, 43750
Prudential Lines, Inc.....	38178, 39915
United States Lines, Inc.....	37244, 40191
Waterman Steamship Corp.....	29315
Bid invitations:	
SS United States.....	33696
Cuba, vessels arriving in; free world and Polish.....	44595
Environmental statements; availability, etc.:	
Tanker construction program.....	37063
Gantry cranes for containership reconstruction; foreign cost computation.....	43940
Meetings:	
U.S. Merchant Marine Academy Advisory Board.....	36161
Tanker construction program; standard specifications.....	31250
Time charters for coastwise operation, approval of.....	28832, 44857
U.S. Flag Merchant Vessel Locator Filing System; establishment.....	33480
War risk insurance values; interim binders as of January 1, 1975.....	30675

## MATERIALS TRANSPORTATION BUREAU

See also Hazardous Materials Operations Office.	
Pipeline Safety Operations Office.	
For prior documents see Hazardous Materials Regulations Board.	

Rules	Page
Establishment and rulemaking procedures.....	31767
Hazardous materials:	
Corrosive to aluminum; postponement of effective date.....	41527
Shipments by motor carriers; extension of effective date.....	44821
Shippers and shipping container specifications; correction.....	44327
Shippers and shipping by motor carriers; anhydrous ammonia in cargo tanks.....	44820
Incorporation by reference.....	37214
Organization and functions.....	30821, 31767

## Proposed Rules

Hazard information systems; evaluation criteria for various systems; extension of time.....	44336
Hazardous materials:	
Exemption procedures; hearings, etc.....	32758, 37247
Repairs to vehicles in closed buildings; withdrawal.....	44842
Incorporation by reference.....	40171

Notices	
Hazardous materials regulations exemptions; interim procedures.....	31976

## MINES BUREAU

Notices	
Environmental statements; availability, etc.:	
Surface subsidence control in mining regions.....	30294
Lead and zinc consumption and production; meetings.....	42910
Mineralogical services; policy statement.....	29308
Minerals data; availability of statistical information.....	42036, 43747

## MINING ENFORCEMENT AND SAFETY ADMINISTRATION

Rules	
Safety standards, mandatory; coal mines; refuse pile and impounding structure construction.....	41775, 44813

Proposed Rules	
Metal and nonmetal mine health and safety standards.....	44272

Notices	
Accident investigation, Caryville, Tenn., hearing.....	29101

## CUMULATIVE LIST OF CFR SECTIONS AFFECTED

The CUMULATIVE LIST OF CFR SECTIONS AFFECTED is designed to lead users of the Code of Federal Regulations (CFR) to amendatory actions published in the Federal Register. It should be shelved with current CFR volumes. Entries are by CFR title, chapter, part, and section. Proposed rules are listed at the end of appropriate titles, except for Title 41, in which proposed rules follow each chapter.

## HOW TO USE THIS FINDING AID

The CFR is revised annually according to the following schedule:

Titles 1-16—	as of Jan. 1
17-27—	as of April 1
28-41—	as of July 1
42-50—	as of Oct. 1

To bring these regulations up to date, consult this CUMULATIVE LIST OF CFR SECTIONS AFFECTED for any changes, additions, or deletions published after the revision date of the volume you are using. Then check the CUMULATIVE LIST OF PARTS AFFECTED appearing at the front of the latest Federal Register for less detailed but timely changes published after the final date included in this publication.

There is no longer a single annual issue of the CUMULATIVE LIST OF CFR SECTIONS AFFECTED. Four publications must be saved: the December issue is the annual for Titles 1-16; the March issue is the annual for Titles 17-27; the June issue is the annual for Titles 28-41; the September issue is the annual for Titles 42-50.

## PARALLEL TABLE OF STATUTORY AUTHORITIES AND RULES

A table is included after Title 50 which contains references to the U.S. Code sections cited as authority for CFR regulations added or revised during the calendar year.

## TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A table is included at the end of this publication which identifies the inclusive page numbers and corresponding dates for the period covered.

## INDEXES

An INDEX to the daily Federal Register is published monthly, quarterly, and annually for the calendar year. A separate volume, the GENERAL INDEX to the entire Code of Federal Regulations, is revised as of July 1 each year.

## INQUIRIES AND SUGGESTIONS

This publication was prepared under the editorial direction of Rose Steinman, with Uriel Schoenbach and Carol Blanchard as Chief Editors. INQUIRIES, telephone 202-523-5227.

SUGGESTIONS concerning this and other publications of the Office will be welcomed by Fred J. Emery, Director, Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

1803.3 (d) and (f) introductory text revised	16333
1803.4 (a), (b) (2), (e) and (f) revised	16334
1804.1—1804.5 (Subpart A) Appendix C added	32309
1804.2 (d) revised	32309
1804.3 (d) (1) and (2) and (f) (1) (ii) (a) revised	32309
1806.2 (b) (6) added; (g) (4) revised	2420
(b) (2) (iv) added	10953
1806.4 (a) (5) revised	10953
1807.1 (j) added	26257
1808 Revised	26258
1808.2 (a), (b), (d), (e), and (f) revised	33197
1813 Revised	21696
1813.4 (c) added	11707
1813.7 (c) (2) (iv) (C) corrected	27475
1813.9 (d) corrected	27475
1813.10 (b) (6) and (7) removed; new (b) (6) through (10) redesignated from (b) (8) through (12)	27475
1815 Revised	14296
1822.1—1822.18 (Subpart A) Exhibit D revised	28463
1822.3 (c) (3) (ii) and (c) (4) (ii) amended; (d) revised	42178
1822.4 (c) revised	42736
1822.21—1822.32 (Subpart B) Revised	1229
1822.23 Added	29263
1822.81—1822.98 (Subpart D) Revised	4278
Exhibit J amended	21024
1822.266 (c) revised	6951
1822.401—1822.408 (Subpart M) Removed	5531
1823.2 (a) (2) revised	24517

1823.3 (b) revised	24517
1823.6 (b) (4) revised; (c) (3) added	6951
(a) (3), (4), (5), and (6) redesignated as (a) (4), (5), (6), and (7); new (a) (7) amended; new (a) (3) added	30930
(b) (1) (iii) and (iv) redesignated as (b) (1) (iv) and (v); new (b) (1) (iii) added	30930
1823.29 (c) (8) revised	29264
1823.472 (d) (3) and (e) (1) revised	27475
(e) (2) (ii) and (iii) redesignated as (e) (2) (iii) and (iv); new (e) (2) (ii) added	27475
1832.1—1832.43 (Subpart A) Revised	42321
1832.81—1832.92 (Subpart E) Removed	42338
1832.87 (g) revised; (i) removed	4118
1842.14 (b) revised	22824
(e) revised	27476
1842.23 (e) added	22536
1842.31 (d) (5) (ii) revised; (d) (5) (iii) redesignated as (iv); new (d) (5) (iii) added	42179
1842.61 Revised	21700
1842.62 Added	21700
1843.3 (h) revised	6952, 27931
(5) (iii) redesignated as (iv);	
1843.41 (a) (2) revised; (a) (3) redesignated as (4); new (a) (3) added	42179
1845 Revised	30623
1861.82 (f) (4) revised	13202
1861.85 (c) (1) through (5) redesignated as (c) (3) (1) through (v); new (c) (1), (2), and (3) added	13202
(c) (3) revised	23286
1861.86 (a) (1) revised	13203
1861.87 (b) redesignated as (c); (a) redesignated as (b) and revised; new (a) added	13203
1861.93 (a) (2) and (3) revised	13203
1867 Revised	13203
1872.1—1872.27 (Subpart A) Revised	15066
1890b Removed	5752
1890d Removed	5753
1890e Removed	5753, 6639
1890j Removed	6197
1890k Removed	6197

## Title 14, Chapter I—Continued

	Page
103.25 Revised	5141
121.288 Time extended	7436
121.319 (a) (1) removed; (b) (5) (ii) and (iv) revised	42186
121.360 Revised	19638
Heading, (a) and (b) revised; (f) and (g) added	42185
121.538 (c) (2) and (3) amended; (c) (4) added	17552
(c) (2), (3), and (4) effective date postponed	25802
121.538a Added	10173
121.575 (b) revised	17552
(b) effective date postponed	25802
121.584 Added	17552
Effective date postponed	25802
121.585 Revised	17552
Effective date postponed	25802
121.697 (c) and (d) revised; (e) added	44541
121 Appendix A amended	1039
129.25 Added	29274
129.27 Added	29274
135.2 (a) amended; (d) revised	21705
139.1 (b) (4) and (5) added	11714
171.13 (b) amended	36110
171.33 (b) amended	36110
171.53 (b) amended	36110
171.117 (b) amended	36110
171.163 (b) amended	36110
171.213 (b) amended	36110
171.251—171.275 (Subpart I) Added	36110
171.265 (b) and (g) corrected	41093
(j) corrected	43719

## Chapter II—Civil Aeronautics Board

201.4 (d) added	37182
207.11 (b) (9) and (c) (7) added	34088
208.6 (b) (8) and (c) (7) added	34088
211.1 Revised	28077
211.2 Revised	28078
211.4 Revised	28078
211.5 (e) added	37182
212.8 (a) (9) and (b) (7) added	34088
214.7 (a) (6) and (b) (6) added	34088
216.4 (a) revised	23844
217.1 Amended	28078
217.2 Revised	28078
217.6 (a) revised	28078
(b) (1) through (9) added (reinstated)	33435
221.165 (b) (2) revised	37182
222.2 Revised	25585

223 Recodified to include the provisions of Parts 223, 224, and 233 as Subparts A, B, and C, respectively, and revised	18415
Corrected	18979
223.9 Redesignated from § 399.34 and revised	18419
224 Removed; provisions recodified as Subpart B of Part 223	18415
227 Removed	24998
228.1 Revised	43886
228.4 (h) revised	2797
228 Appendix note amended	26023
233 Removed; provisions recodified as Subpart C of Part 223	18419
239.1 Amended	1040
239.6 (j) revised	1040
239.7 (c), (d), (e), and (f) revised	1040
240.1 (a) and (c) revised	27017
240.2 Revised	27017
241 Sec. 22(a) table amended	16652
Sec. 23 amended	16654
Sec. 24 amended	16654
250 Technical correction	6347
250.2 Revised	4410
261.9 Added	37183
287.3a Revised; time extended	19639
288.7 (a) and (d) amended	1040
5757, 10174, 14894	
(a) and (d) revised	3583
(a) corrected	8073, 10663, 24518
Special temporary regulation	5758
Technical correction	6642
(b) table revised	18774, 28078
(a) and (d) amended	19639, 23845
Technical correction	20612
(a) (2) and (d) (2) amended	28450
288.8 Revised	3584
288.10 (b) revised	3584
(b) table corrected	5141
296 Revised	28080
296.83 (a) (4) corrected	30634
297 Removed	28087
298 Revised	42855
302.4 (a) revised	37184
302.1101 Revised	10968
302.1109 (a) and (b) revised; (c) added	10968
310.5 Revised	7241
310.7 Revised	10663
310.9 Revised	10663
310.10 Added	10664
310a Added	45104
311.43 (b) through (h) revised	10664
312 Added	37190
312.20 Appendix A corrected	43211

(CHANGES JANUARY 2 THROUGH SEPTEMBER 30, 1975)

	Page
372a.5 Removed	13205
372a.25 (a) revised	1233
(b) (2) (vii) revised	42742
373.20 (Subpart C) Subpart and Section headings and text revised	43719
373 Appendix B removed	43719
375.40 (a) revised	23070
377 Revised	24998
378.20 (Subpart C) Subpart and Section headings and text revised	43719
378 Appendix B removed	43719
378a Added	34100
378a.30 (j) corrected	41093
378a.31 (c) revised	36764
378a.102 Amended	41093
378a Appendix A added	36765
385 Technical correction	44128
385.12 (d) added	7241
(e) added	45106
385.13 (ff) corrected	4300
(v) introductory text, (v) (2), (cc) and (ff) revised; (ii) added	40816
(v) corrected	44128
385.22 (e) revised	27018
385.24 Added	45106
385.25 Added	45106
389.11 (a) revised	7242
389.14 Revised	7242
389.22 (b) revised	19810, 20613
(c) revised	20613
389.23 (b) revised	20613
389.25 (h) and (j) revised; (m) added	34106
399.2 Introductory text amended	6643
399.14 Revised	28087
399.16 (b) revised	3409
399.31 Revised	6643
399.32 Revised	6643
399.33 Revised	6643
399.34 Removed; provisions revised and redesignated as § 223.9	18419
399.84 Added	4907
399.110 (Subpart J) Removed	37184

## Chapter III—National Transportation Safety Board

Chapter removed; redesignated as 49 CFR Chapter VIII and revised	30106
400 Revised	14572
Removed; redesignated as 49 Part 800 and revised	30232
401 Appendix A added	7250

	Page
Revised	14574
Removed; redesignated as 49 Part 801 and revised	30232
405 Removed; redesignated as 49 Part 805 and revised	30239
421 Removed; redesignated as 49 Part 821 and revised	30243
425 Revised	14578
Removed; redesignated as 49 Part 825 and revised	30248
430 Removed; redesignated as 49 Part 830 and revised	30249
431 Removed; redesignated as 49 Part 831 and revised	30250
435 Removed; redesignated as 49 Part 835 and revised	30253
440 Removed; redesignated as 49 Part 845 and revised	30254

## Chapter V—National Aeronautics and Space Administration

1206 Revised	7244
1209.400—1209.405 (Subpart 4) Revised	30465
1212 Added	43668

## Title 14—Proposed Rules:

Revised	33966

1.11—1.16 (former Subpart B) Redesignated as 1.21—1.26 (Subpart C)	15232
1.12 Added	33967
1.14 Added	33968
1.17 Added	33968
1.18—1.20 Added	33969
1.21—1.26 (Subpart C) Added	15232
1.21 (former Subpart C) Redesignated as 1.91 (Subpart J)	15232
1.22 Redesignated from 1.12 and revised	15232
1.24 Redesignated from 1.14 and revised	15233
1.61 Revised	15233
1.81—1.85 (Subpart I) Technical correction	17008
1.81 (a) and (b) revised	15233
1.82 Revised	15233
1.83 (a) and (b) revised; (c) and (d) added	15233
1.84 (a) and (b) revised; (c) added	15234
1.85 Revised	15234
1.86 Added	15234
1.91 (Subpart J) Redesignated from 1.21 (Subpart C)	15233
2.1 Revised	760
2.7 Revised	760
(c) added	21708
2.11 Revised	761
(c) added	21708
2.12 Revised	761
(c) added	21708
2.14 (c) revised	761
(a) revised	15235
2.31—2.35 Revised	15235
3.2 Revised	33969
3.13 Revised	33969
3.21 (c) revised	15234
(a) (5) revised	33970
3.25 Added	15236
3.61 (c) revised	761
(f) revised	15234
4.1 (b) (4) revised	15235
4.2 (a) revised	761, 15235
(c) and (d) (1) revised	15235
4.4 (a) (1) and (b) revised; (a) (2) removed; (a) (3) redesignated as (a) (2)	21708
(c) (3) revised	22827
4.8 (b) and (c) revised	7251

Page

(CHANGES JANUARY 2 THROUGH SEPTEMBER 30, 1975)

4.9 (a) and (b) (1) and (4) revised; (c) (1) through (7) redesignated as (b) (17) through (23); (c) removed; (d) and (e) redesignated as (c) and (d)	7628
(b) (10), (12), and (14) revised	15236
(b) (5) revised	33970
4.10 (a) introductory text, (1), (4), and (5) revised	7629
(a) (1) revised	23278
4.11 Revised	7629
(b) revised	23278
4.13 Added	40780
13 Heading revised	761
14.11 Added	23845
113.533—13.533-70 (Subpart) Added	761
142.6-1—142.6-3 Revised	11714
255 Added	22128
256 Added	33436
256.4 Note corrected	36116
256.5 (b) corrected	36116
256.11 (e) corrected	36116
259 Added	42004
302.19 Heading revised; (d) redesignated as (g); new (b) (8), (d), (e), and (f) added	16660
(b) (8) introductory text revised; (b) (8) (i) and (ii) redesignated as (b) (8) (iii) and (iv); new (b) (8) (i) and (ii) added	27933

100a.10 (a) (33) added	21955
101 Heading revised; eff. 10-24-75	41795
101.1—101.4 (Subpart A) Heading removed; eff. 10-24-75	41795
101.10—101.13 (Subpart B) Removed; eff. 10-24-75	41795
102 Revised	8076
103 Appendix C added	4309
Appendix B revised	8556
Appendix A revised	14315
103.1 Revised	18787
103.3 Amended	18787
103.41—103.46 (Subpart E) Added	18787
103 Appendix D added	18788
112 Revised	16013
113 Revised	16015
114 Revised	16019
115 Revised	16032
121 Revised	7411
121.100—121.135 (Subpart B) Redesignated as Part 121a	7411
Removed	19000
121a Added (redesignated)	7411, 19000
121a.81 Added	27459
121b Added	7413
121c Added	7414
121d Added	7416
121e Added	7419
121f Added	7419
121g Added	7422
121h Added	7422
121i Added	7424
121j Added	7428
123.01 (b) revised	26516
123.02 Revised	26516
123.12 (a) (1) and (d) revised; (h) added	26517
123.12-1 Added	26518
123.13 (b) (11) and (c) added	26518
123.14 (a) and (b) revised; (c), (d), and (e) added	26519
123.15 (a) revised	26520
123.16 (a) and (c) revised	26521
126 Added	8177
Appendix added	23299
127 Added	41851
130 Revised	41711
130.4 (b) (1) (ii) and (iii) amended; (b) (1) (iv) added	25013
130.16 (a) (2) amended	25013
130.17 (c) and (d) amended; (e) added	25013
130.18a Added	25013
130 Appendix A amended	25013
131 Revised	40495
141 Revised	1018
142 Revised	6343
144.4a Added	37384
144.14 Added	22135
144.15 Added	22136
151.30—151.34 (Subpart C) Added	14762
151.40—151.43 (Subpart D) Added	20085
151.50—151.55 (Subpart E) Added	18552
153 Added; republished and redesignated from Part 60	11243
154.6 Revised	14918
155.7 Revised	14918
156 Added	32333
158 Revised	17713
166 Revised	17950

## PARALLEL TABLE OF STATUTORY AUTHORITIES AND RULES

(Additions to CFR Finding Aids Volume, Table I; January—September 1975)

This table lists the sections of the U.S. Code which were added to the CFR Finding Aids Volume, Table I as a result of new citations of authority carried in the Federal Register from January through September 1975. Recent legislation not yet assigned within the U.S. Code is carried by public law number at the end of the list.

In order to determine the Federal Register page numbers of the parallel CFR citations, users should consult the Cumulative List of CFR Sections Affected, above.

**federal register**

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20403, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The Federal Register will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the Federal Register.

FEDERAL REGISTER, VOL. 40, NO. 170—TUESDAY, SEPTEMBER 2, 1975

Windsfield defrost and defrost systems 6708; 2-22-75  
10856; 3-21-74; 11584; 3-12-75  
18411; 4-28-75; 12931; 4-21-75  
Windsfield defrost system 2447; 6-16-75

### Title 3—The President

Memorandum of August 17, 1975

Classification of National Security Information

Memorandum for the Secretary of Commerce; the Director, Office of Investigations and Security, Department of Commerce

THE WHITE HOUSE,  
Washington, August 17, 1975.

Pursuant to the provisions of paragraph (A), section 2 of Executive Order No. 11652, I hereby designate the following officials in the Department of Commerce to originally classify national security information or material as "Top Secret":

- (a) The Secretary of Commerce.
  - (b) The Director, Office of Investigations and Security.
- This designation shall be published in the FEDERAL REGISTER.

*Gerard R. Ford*

[FR Doc.75-23361 Filed 8-29-75;11:08 am]

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 1—General Provisions  
CHAPTER I—ADMINISTRATIVE COMMITTEE OF THE FEDERAL REGISTER  
CFR CHECKLIST  
1975 Issuances

This checklist, prepared by the Office of the Federal Register, is published in the first issue of each month. It is arranged in the order of CFR titles, and shows the revision date and price of the volumes of the Code of Federal Regulations issued to date for 1975. New units issued during the month are announced on the back cover of the daily FEDERAL REGISTER as they become available.

The rate for subscription service to all revised volumes issued for 1975 is \$350 domestic, \$75 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

In FR Doc. 75-19663 appearing at page 31739 in the issue for Tuesday, July 29, 1975, in the eighth line of § 989.110, the word "Zante" should read "Zante".

Title 10—Energy  
CHAPTER II—FEDERAL ENERGY ADMINISTRATION  
PART 205—ADMINISTRATIVE PROCEDURES AND SANCTIONS

Remedies  
The Federal Energy Administration hereby amends, effective immediately, § 205.195 of Chapter II, Title 10, Code of Federal Regulations with respect to remedies which may be incorporated in a remedial order, a remedial order for immediate compliance, an order of disallowance or a consent order. The purpose of this amendment is to provide a clarification, in the form of specific examples, of the exercise of the authority already contained in § 205.195.

Section 205.195 presently permits the FEA, among other things, to order a firm to refund amounts paid to such firm that

are in excess of the amount permitted under Part 212, or to "take such other action as the FEA determines is necessary to eliminate or to compensate for the effects of a violation or any cost disallowance pursuant to §§ 212.83 or 212.84."

Currently, and pursuant to § 205.195, FEA practice is to order firms to refund the amount of overcharges to their immediate customers. The amendment to the regulation clarifies the FEA's authority to order refunds not only to a firm's immediate customers, but to the ultimate customers who have purchased the covered product, subject to the overcharges, from a middle level distributor of the firm's products. In addition, the amendment clarifies the FEA's authority, in cases where it orders refunds to wholesalers and other middle level distributors, to require that those wholesalers and distributors pass through the refund amount to their purchasers of the covered products which were subject to the overcharge. Finally, the amendment clarifies the FEA's authority to require, as part of a rollback or refund, that the violator include appropriate interest and compensation to downstream distributors for the administrative expenses of passing through refunds to the ultimate victims of an overcharge.

The principal aim of these amendments is to make it clear that the FEA can and will continue to provide meaningful relief from the effects of price overcharges, even if price controls should expire. To allow the FEA to carry out its enforcement responsibilities effectively, it is necessary to utilize appropriate means to insure that refunds are channeled directly to the ultimate consumers who, in the end, bear the brunt of price overcharges. As an illustration, during the period of price controls, refunds by a refiner to a reseller have been treated by the FEA in some cases as a downward adjustment of the reseller's cost of product. The reseller's customers (i.e., the refiner's ultimate customers) benefit from the refund because the reseller is often compelled by the price regulations to adjust his own prices accordingly.

The termination of price controls will eliminate this use of price controls as one tool in assuring that the ultimate victims of an overcharge receive to the extent possible the benefits of a refund or rollback ordered by the FEA. However, under section 4(g) (1) and section 5 of the Emergency Petroleum Allocation Act of 1973 ("EPAA"), as amended, the FEA has authority to achieve appropriate remedies of price and allocation violations even after the expiration of the EPAA. In order to accomplish appropriate remedies after controls have expired, the FEA intends, as it has in the past, to require by order whatever action is necessary on the part of offenders and downstream resellers to assure, to the extent possible, that refunds and rollbacks flow to those persons who were the victims of the overcharge. Thus, section 205.195 is being amended to clarify the FEA's authority to require, for example, that refunds be paid directly to ultimate

consumers, that the recipients of refunds pass through such refunds to their customers, and that offenders and their intermediate customers hold their prices at designated levels until such time as a particular violation has been fully remedied.

Because of the expiration on August 31, 1975 of authority to promulgate regulations pursuant to section 4(a) of the EPAA, strict compliance with the provisions of section 7(4) (1) (B) of the Federal Energy Administration Act of 1974 (Pub. L. 93-275), regarding notice and opportunity to comment would not be possible prior to such expiration, and therefore compliance could result in serious injury to the public welfare. Thus, the FEA is hereby waiving notice and public comment.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159, as amended by Pub. L. 93-511; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790, 39 FR 23185.)

In consideration of the foregoing, Part 205 of Chapter II, Title 10 of the Code of Federal Regulations is amended, effective immediately, as set forth below.

Issued in Washington, D.C., August 28, 1975.

DAVID G. WILSON,  
Acting General Counsel,  
Federal Energy Administration.

Section 205.195 is revised to read as follows:

§ 205.195 Remedies.

(a) A remedial order, a remedial order for immediate compliance, an order of disallowance, or a consent order may require the person to whom it is directed to roll back prices, to make refunds equal to the amount (plus interest) charged in excess of those amounts permitted under Part 212, to make appropriate compensation to third persons for administrative expenses of effectuating appropriate remedies, and to take such other actions as the FEA determines is necessary to eliminate or to compensate for the effects of a violation or any cost disallowance pursuant to §§ 212.83 or 212.84. Such action may include a direction to the person to whom the order is issued to make refunds directly to any purchasers of the products involved, notwithstanding that those purchasers obtained such products from an intermediate distributor of such person's products, and may require as part of the remedy that the person to whom the order is issued maintain his prices at certain designated levels, notwithstanding the presence or absence of other regulatory controls on such person's prices.

(b) The FEA may, when it deems it appropriate, issue orders ancillary to a remedial order, remedial order for immediate compliance, order of disallowance, or consent order requiring that a direct or indirect recipient of a refund pass through, by such means as the FEA deems appropriate, including those described in paragraph (a) of this section, all or a portion of the refund, on a pro rata basis, to those customers of the re-

ipient who were adversely affected by the initial overcharge.

[FR Doc.75-23236 Filed 8-28-75; 10:59 am]

PART 212—MANDATORY PETROLEUM PRICE REGULATIONS

Landed Costs; Remedies

On August 18, 1975, the Federal Energy Administration (FEA) issued a proposed amendment in order to establish appropriate authority for making refunds pursuant to § 212.84 if FEA's authority to promulgate regulations under Section 4 of the Emergency Petroleum Allocation Act should expire. (40 FR 36389, August 20, 1975). The public comments received with respect to this proposal have now been evaluated. The public hearing, scheduled for August 28, was cancelled for lack of interest. The principal concern of the comments was the need to consider unrecouped or "banked" costs in ordering adjustments. Under the amended regulation, FEA retains considerable flexibility, in order that it may exercise its discretion in a manner that permits the fashioning of equitable remedies. This would include the recognition of refiners' "banks" of unrecouped prior costs, where appropriate.

As explained in the proposal, even if FEA's price control authority expires, FEA will continue to make whatever adjustments may be necessary to transfer prices for periods prior to the expiration of controls. Prior to this amendment, refiners notified of disallowed costs subtracted the net amount disallowed from the landed cost computed for the month of measurement in which the refiner received notice of disallowance. However, if general price control authority expires, this action would no longer have any significance since prices in the months in which the notice would be received would no longer be subject to control. In order to permit FEA to carry out its enforcement responsibilities after the expiration of control authority, it will be necessary to use other means to provide refunds to injured customers, to roll back prices, or to order such other action as may be necessary to compensate for the cost disallowance. Accordingly, § 212.84(d) (3) is amended to authorize the use of such other appropriate remedies if price control authority expires.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159, as amended by Pub. L. 93-511; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790, 39 FR 23185)

In consideration of the foregoing, Part 212 of Chapter II, Title 10 of the Code of Federal Regulations is amended as set forth below, effective immediately.

Issued in Washington, D.C., August 28, 1975.

DAVID G. WILSON,  
Acting General Counsel,  
Federal Energy Administration.

1. Section 212.84 is amended by revising paragraph (d) (3) to read as follows:

§ 212.84 Disallowance of costs.

(d) . . .

(3) Upon notification by the FEA that its costs have been disallowed, a refiner shall recalculate its costs for the month of measurement in which the disallowed costs were incurred, using the representative price for that month. The difference between the refiner's disallowed costs and its recalculated costs shall then be subtracted from the landed costs computed for the month of measurement in which the refiner receives an order of disallowance; provided, That if such action by the refiner would not be effective to remedy any overcharge attributable to the net amount disallowed because of the expiration of FEA's authority to control petroleum product prices pursuant to this part, FEA may require the refiner to roll back prices, refund to identifiable purchasers amounts paid to the refiner in excess of the amount permitted under Part 212 after adjustment for any disallowance, or to take such other action as FEA determines is necessary to eliminate or compensate for the effects of any cost overcharge which has been disallowed and which is authorized by § 205.195.

[FR Doc.75-23234 Filed 8-28-75; 10:57 am]

PART 213—OIL IMPORT REGULATIONS

Reduction of Import License Fee Payments

On August 5, 1975, the Federal Energy Administration (FEA) issued proposed technical amendments to the Oil Import Regulations (40 FR 33474, August 8, 1975). Twenty-three comments were received, and further presentations were made at public hearings held on August 20, 1975. FEA is now evaluating the various issues raised by the public with respect to each of its proposed amendments. However, in order that FEA may implement that portion of its proposal with respect to which there was general approval, without awaiting the evaluation of all proposed changes, FEA hereby adds § 213.35(a) (10), and amends § 213.35(e) (2) (i) and § 213.35(f) (2) (iii) as proposed, except for a technical clarification of § 213.35(a) (10).

Under these amended regulations § 213.35(a) (10) will now authorize importers holding a license not issued by prepayment to reduce payments of fees and supplemental fees, on a monthly basis, by an amount equal to the net duties paid less any applicable drawback attributable to imports made after February 1, received during that period. This procedure eliminates the necessity of applying for a refund of sums equivalent to tariffs paid, which has contributed to cash flow problems and was costly in terms of the time-value of money. In order to facilitate this procedure, FEA has changed the previous requirement of calculating duties in terms of those "found payable upon liquidation" to a calculation based on net duties (that is, estimated duties as adjusted). This is necessary because liquidation data would not,

ordinarily, be available in time to permit net-out of duties on a current basis. Importers pursuant to a license issued upon prepayment are not authorized to net out sums equivalent to the tariffs potentially payable. However, § 213.35(e) (2) (i) is amended so that such importers, in applying for refunds, may also calculate duties paid on a "net duty," rather than "liquidation" basis. This will maintain consistency between both groups of importers, and also increase the speed with which such refunds could be made available.

Also in this connection, FEA is amending § 213.35(f) (2) (iii) in order to permit bonded importers paying a tax to Puerto Rico pursuant to the Proclamation, to tender simultaneously their respective payments to the United States and Puerto Rico on a basis permitting the net-out of tariffs paid. Under this amendment, the necessity to furnish tax-paid receipts to FEA is eliminated. Instead, the importer may furnish certified documents prepared for the Government of Puerto Rico containing computations of the volumes of material subject to tax, and calculations based thereon of the amounts owing to Puerto Rico for payment of the tax.

It should be noted that implementation of this proposal with respect to the reduction of license fee payments by the amount of net tariffs paid, does not constitute any determination by FEA with respect to comments urging that refunds due for exports should receive the same treatment. This issue is still being evaluated.

(Federal Energy Administration Act of 1974, Pub. L. 93275; E.O. 11790, 39 FR 23185; Trade Expansion Act of 1962, P. L. 87794, as amended; Proclamation No. 3279, 24 FR 1781, as amended by Proclamation No. 4210, 38 FR 9645, Proclamation No. 4227, 38 FR 16195, Proclamation No. 4317, 38 FR 35103, Proclamation No. 4341, 40 FR 3956, Proclamation No. 4355, 40 FR 10437, Proclamation No. 4370, 40 FR 19421, and Proclamation No. 4377, 40 FR 23429)

In consideration of the foregoing, Part 213 of Chapter II, Title 10 of the Code of Federal Regulations is amended as set forth below, effective immediately.

Issued in Washington, D.C., August 27, 1975.

DAVID G. WILSON,  
Acting General Counsel,  
Federal Energy Administration.

Section 213.35 is amended by adding a new paragraph (a) (10) and by revising paragraphs (e) (2) (i) and (f) (2) (iii) to read as follows:

§ 213.35 Allocations and fee-paid licenses for imports of crude oil, unfinished oils, and finished products.

(a) . . .

(10) An importer of record who holds a license not issued upon prepayment, may reduce the payments made pursuant to paragraphs (c) and (d) of this section, on a monthly basis, by sums equal to the sums collected by way of net duties paid to the United States Customs Service, less any duty drawbacks of tariffs paid

on imports made on or after February 1, 1975 received during the same period, provided, That said importer certifies the amount of net duties paid and drawback received during that period. Where the duty drawback exceeds the net duty paid during that period, the net difference shall be applied to subsequent periods, provided, That when the duty less drawback exceeds the fee imposed, any excess duty may be used to reduce fees payable during the subsequent six months.

(e) . . .

(2) . . .

(i) In the case of licenses issued upon prepayment, for payment to the importer of record, on a monthly basis, of sums equal to the sums collected by way of net duties paid to the United States Customs Service, less any drawbacks of tariffs paid on imports made on or after February 1, 1975 received during the same period, provided, That said importer certifies the amount of net duties paid and drawback received during that period. Where the duty drawback exceeds the net duty paid during that period, the net difference shall be applied to subsequent periods, provided, That when the duty less drawback exceeds the fee imposed, any excess duty may be used to reduce fees payable during the subsequent six months;

(f) . . .

(2) . . .

(iii) Certified copies of documents prepared for the Government of Puerto Rico containing computations of the volumes of material subject to a tax or other levy in effect after January 31, 1975 on crude oil, unfinished oils, or finished products not shipped to Districts I-V, and calculations based thereon of the amounts owing to Puerto Rico for payment of said tax or other levy, provided, That such computations and calculations shall be subject to adjustment based on a determination of their accuracy by the Federal Energy Administration and the Government of Puerto Rico.

Title 16—Commercial Practices  
CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. C-2705]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Allora, Ltd., et al.

Subpart—Corrective actions and/or requirements: § 13.533 Corrective actions and/or requirements; § 13.533-20 Disclosures. Subpart—Importing, Manufacturing, selling or transporting flammable wear, and/or other merchandise: § 13.1060 Importing, manufacturing, selling or transporting flammable wear, and/or other merchandise. Subpart—Misbranding or mislabeling: § 13.1185 Composition; § 13.1185-90 Wool Products Labeling Act; § 13.1212 Formal regula-

tory and statutory requirements; 13.1212-90 Wool Products Labeling Act. Subpart—Misrepresenting oneself and goods—Goods: § 13.1590 Composition; 13.1590-90 Wool Products Labeling Act; § 13.1623 Formal regulatory and statutory requirements; 13.1623-90 Wool Products Labeling Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1845 Composition; 13.1845-80 Wool Products Labeling Act; § 13.1852 Formal regulatory and statutory requirements; 13.1852-80 Wool Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 82 Stat. 146, 147; 15 U.S.C. 45, 1601, et seq.)

*In the Matter of Allora Ltd., a corporation, trading under its own name or as Allora-Tex, and Oscar Bobis, individually and as officer of said corporation.*

Consent order requiring a New York City importer of wool fabrics, among other things to discontinue false and deceptive labeling; to notify those who purchased the misbranded wool products of the fact that they were misbranded; and prohibiting the importation of wool products into the United States except upon filing bond with the Secretary of the Treasury in a sum double the value of the wool products and any duty thereon conditioned upon compliance with the Wool Products Labeling Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:<sup>1</sup>

## ORDER

*It is ordered,* That respondents Allora Ltd., a corporation, trading under its own name or as Allora-Tex, its successors and assigns, and its officers, and Oscar Bobis, individually and as an officer of said corporation, and respondents' representatives, agents, and employees, directly or through any corporation, subsidiary, division, or any other device in connection with the introduction, or importing for introduction, into commerce, or the offering for sale, sale, transportation, distribution, delivery for shipment or shipment, in commerce, of wool products, as "commerce" and "wool product" are defined in the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding such products by:

1. Falsely and deceptively stamping, tagging, labeling, or otherwise identifying such products as to the character or amount of the constituent fibers contained therein.

2. Failing to securely affix to or place on, each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner each element of information required to be disclosed by Section 4(a)(2) of the Wool Products Labeling Act of 1939.

*It is further ordered,* That respondents Allora Ltd., a corporation, trading under its own name or as Allora-Tex, its successors and assigns, and its officers, and

<sup>1</sup> Copies of the Complaint, Decision and Order, filed with the original document.

Oscar Bobis, individually and as an officer of Allora Ltd., and respondents' representatives, agents, and employees, directly or through any corporation, subsidiary, division, or other device, do forthwith cease and desist from importing or participating in the importation of wool products into the United States except upon filing bond with the Secretary of the Treasury in a sum double the value of said wool products and any duty thereon, conditioned upon compliance with the provisions of the Wool Products Labeling Act of 1939.

*It is further ordered,* That respondents notify, by delivery of a copy of this order by registered mail, each of their customers that purchased the products which gave rise to this complaint of the fact that such products were misbranded.

*It is further ordered,* That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged, as well as a description of his duties and responsibilities.

*It is further ordered,* That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

*It is further ordered,* That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

*It is further ordered,* That respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist contained herein.

The Decision and Order was issued by the Commission, July 21, 1975.

CHARLES A. TOBIN,  
Secretary.

## PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Guthrie Construction Co., et al.

Subpart—Advertising falsely or misleadingly: § 13.73 Formal regulatory and statutory requirements; 13.73-92 Truth in Lending Act; § 13.155 Prices; 13.155-95 Terms and conditions; 13.155-95(a) Truth in Lending Act. Subpart—Misrepresenting oneself and goods—Prices: § 13.1823 Terms and conditions; 13.1823-20 Truth in Lending Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 Formal regulatory and statutory requirements; 13.1852-75 Truth in Lending Act; § 13.1905 Terms and conditions; 13.1905-60 Truth in Lending Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 82 Stat. 146, 147; 15 U.S.C. 45, 1601, et seq.)

In the Matter of Guthrie Construction Company, a Corporation, and Malcolm E. Guthrie, Individually and as an Officer of Said Corporation.

Consent order requiring an Englewood, Colo., mortgage loan broker, among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:<sup>1</sup>

<sup>1</sup> Copies of the Complaint, Decision, and Order filed with the original document.

## ORDER

It is ordered, That respondents Guthrie Construction Company, a corporation, its successors and assigns, its officers, and Malcolm E. Guthrie, individually and as an officer of said corporation, and respondents' agents, representatives, salesmen and employees, directly or through any corporation, subsidiary, division or other device, in connection with any advertisement to aid, promote or assist, directly or indirectly, any arrangement or extension of consumer credit as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR 226) of the Truth in Lending Act (P.L. 90-321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Representing in any such advertisement, directly or by implication that no downpayment is required, the amount of the downpayment or the amount of any installment payment, either in dollars or as a percentage, the dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit, unless all of the following items are clearly and conspicuously stated, in terminology prescribed under Section 226.8 of Regulation Z, as required by Section 226.10(d)(2) of Regulation Z:

(a) The cash price; [the amount of the loan;]

(b) The amount of the downpayment required or that no downpayment is required, as applicable;

(c) The number, amount and due dates or period of payments scheduled to repay the indebtedness if the credit is extended; and

(d) The amount of the finance charge expressed as an annual percentage rate.

2. Stating in any advertisement the simple annual rate of interest in conjunction with the "annual percentage rate" unless the "annual percentage rate" is printed as conspicuously as the simple annual rate as required by Section 226.10(d)(1) of Regulation Z.

3. Failing, in any advertisement, to make all disclosures as required by Section 226.10 in the manner prescribed by Sections 226.6, 226.8 and 226.10 of Regulation Z.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in any corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission July 21, 1975.

CHARLES A. TOBIN,  
Secretary.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 82 Stat. 146, 147; 15 U.S.C. 45, 1601, et seq.)

In the matter of *Moore Realty Co., a corporation, and William M. Moore, individually and as an officer of said corporation.*

Consent order requiring a Denver, Colo., mortgage loan broker, among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

**ORDER**

It is ordered, That respondents Moore Realty Co., a corporation, its successors and assigns, and its officers, and William M. Moore, individually and as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with any extension or arrangement for the extension of consumer credit, or any advertisement to aid, promote or assist directly or indirectly any extension of consumer credit, as "advertisement" and "consumer credit" are defined in Regulation Z (12 CFR 226) of the Truth in Lending Act (P.L. 90-321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Representing in any such advertisement, directly or by implication, that no downpayment is required, the amount of the downpayment or the amount of any installment payment, either in dollars or as a percentage, the dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit, unless all of the following items are clearly and

<sup>1</sup> Copies of the Complaint, Decision and Order are filed with the original document.

conspicuously stated, in terminology prescribed under Section 226.8 of Regulation Z, as required by Section 226.10(d)(2) of Regulation Z:

(a) The cash price; (the amount of the loan);

(b) The amount of the downpayment required or that no downpayment is required, as applicable;

(c) The number, amount and due dates or period of payments scheduled to repay the indebtedness if the credit is extended; and

(d) The amount of the finance charge expressed as an annual percentage rate.

2. Stating in any advertisement the rate of a finance charge unless said rate is expressed as an annual percentage rate, using the term "annual percentage rate", as "finance charge" and "annual percentage rate" are defined in Section 226.2 and as required by Section 226.10(d)(1) of Regulation Z.

3. Failing, in any consumer credit transaction, to print in the disclosures the terms "finance charge" and "annual percentage rate" more conspicuously than other required terminology as required by Section 226.6(a) of Regulation Z.

4. Failing, in any consumer credit transaction, to accurately disclose the amount financed as required by Section 226.8 of Regulation Z.

5. Failing, in any consumer credit transaction, to compute and disclose accurately the annual percentage rate to the nearest quarter of one percent as prescribed by Sections 226.5(b) and 226.8(b)(2) of Regulation Z.

6. Failing, in any consumer credit transaction, to accurately disclose the number, amount and due dates or periods of payments scheduled to repay the indebtedness as required by Section 226.8(b)(3) of Regulation Z.

7. Failing, in any consumer credit transaction, to accurately disclose the amount of a balloon payment and state the conditions, if any, under which that payment may be refinanced if not paid when due as required in Section 226.8(b)(3) of Regulation Z.

8. Failing, in any consumer credit transaction, to disclose whether a rebate of the unearned finance charges upon prepayment in full is available, and, if available, the method of computation as required by Section 226.8(b)(7) of Regulation Z.

9. Failing, in any consumer credit transaction, to disclose penalty charges for prepayment of the obligation, if any exist, as required by Section 226.8(b)(6) of Regulation Z.

10. Failing, in any consumer credit transaction, to provide information in addition to disclosures required by Regulation Z without contradicting, obscuring or detracting attention from the required disclosures or misleading or confusing the customer, as prescribed by Section 226.6(c) of Regulation Z.

11. Failing, in any consumer credit transaction, to make all required disclosures clearly, conspicuously and in meaningful sequence as required by Section 226.6(a) of Regulation Z.

12. Failing, in any consumer credit transaction subject to Section 226.9 of Regulation Z, to accurately state the date by which the customer must give notice of his desire to exercise his right of rescission, as prescribed by Section 226.9(b) of Regulation Z.

13. Failing, in any advertisement or consumer credit transaction, to make all disclosures determined in accordance with Sections 226.4 and 226.5 of Regulation Z, in the form, manner and amount prescribed by Sections 226.6, 226.7, 226.8, 226.9 and 226.10 of Regulation Z.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in any corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission July 21, 1975.

[Docket No. C-2707]

**PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS**

Morton-Norwich Products, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.10 Advertising falsely or misleadingly; § 13.205 Scientific or other relevant facts. Subpart—Misrepresenting oneself and goods—Goods: § 13.1740 Scientific or other relevant facts. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1895 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

In the matter of *Morton-Norwich Products, Inc., a corporation and Needham, Harper & Steers Advertising, Inc., a corporation.*

Consent order requiring a Chicago, Ill., salt manufacturer and its advertising agency, among other things to cease failing to disclose in all advertisements for Morton Lite Salt that the product is not to be used by persons on sodium or potassium restricted diets, and misrepresenting that there is a connection between sodium intake and water retention or high blood pressure or that a reduction in sodium intake will promote or maintain good health.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

**ORDER**

It is ordered, That respondent Morton-Norwich Products, Inc., a corporation, and respondent Needham, Harper & Steers Advertising, Inc., a corporation, their successors and assigns, either jointly or individually, and respondents' officers, agents, representatives, and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale or distribution in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, of Morton Lite Salt, or any product of similar composition, do forthwith cease and desist from disseminating any advertisement which:

1. Fails to clearly and conspicuously disclose, in the following words or in words of similar import, that such product is "Not To Be Used By Persons on Sodium Or Potassium Restricted Diets Unless Approved By A Physician"; or

2. Makes any representation, directly or indirectly, that medical researchers or doctors have established (a) a connection between sodium intake and high blood pressure or water retention, or (b) that a reduction in the level of sodium intake will promote or maintain good health.

Nothing in this order shall be construed to prohibit respondents from disseminating any advertisement of Morton Lite Salt which:

A. Indicates that Morton Lite Salt contains one-half the sodium of regular salt; or

B. Indicates that Morton Lite Salt is intended for persons (not including those on sodium or potassium restricted diets) who desire to reduce their intake of salt or sodium.

It is further ordered, That respondents shall forthwith distribute a copy of this order to each officer or employee having direct responsibility for either the marketing or advertising of Morton Lite Salt.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondents, such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution

<sup>1</sup> Copies of the Complaint, Decision and Order, filed with the original document.

of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That each respondent shall, within sixty (60) days after the effective date of the order served upon it, file with the Commission a report, in writing, signed by respondents, setting forth in detail the manner and form of their compliance with the order to cease and desist contained herein.

The Decision and Order was issued by the Commission July 21, 1975.

CHARLES A. TOBIN,

Secretary.

## RULES AND REGULATIONS

sumer credit as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR 226) of the Truth in Lending Act (P.L. 90-321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Representing in any such advertisement, directly or by implication, that no downpayment is required, the amount of the downpayment or the amount of any installment payment, either in dollars or as a percentage, the dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit, unless all of the following items are clearly and conspicuously stated in terminology prescribed under Section 226.8 of Regulation Z, as required by Section 226.10(d) (2) of Regulation Z:

(a) The cash price; [the amount of the loan];

(b) The amount of the downpayment required or that no downpayment is required, as applicable;

(c) The number, amount and due dates or period of payments scheduled to repay the indebtedness if the credit is extended; and

(d) The amount of the finance charge expressed as an annual percentage rate.

2. Stating in any advertisement the rate of a finance charge unless said rate is expressed as an annual percentage rate, using the term "annual percentage rate", as "finance charge" and "annual percentage rate" are defined in Section 226.2 and as required by Section 226.10(d) (1) of Regulation Z.

3. Stating in any advertisement the simple annual rate of interest in conjunction with the "annual percentage rate" unless the "annual percentage rate" is printed as conspicuously as the simple annual rate as required by Section 226.10(d) (1) of Regulation Z.

4. Failing, in any advertisement, to make all disclosures as required by Sections 226.6, 226.8 and 226.10 of Regulation Z.

*It is further ordered.* That respondents notify the Commission at least thirty (30) days prior to any proposed change in any corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

*It is further ordered.* That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged as well as a description of their duties and responsibilities.

*It is further ordered.* That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

*It is further ordered.* That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission July 21, 1975.

(c) The number, amount and due dates or period of payments scheduled to repay the indebtedness if the credit is extended; and

(d) The amount of the finance charge expressed as an annual percentage rate.

2. Failing, in any advertisement, to make all disclosures as required by Sections 226.6, 226.8 and 226.10 of Regulation Z.

*It is further ordered.* That respondents notify the Commission at least thirty (30) days prior to any proposed change in any corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

*It is further ordered.* That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

*It is further ordered.* That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

*It is further ordered.* That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission July 21, 1975.

CHARLES A. TOBIN,  
Secretary.

[Docket No. C-2704]

# PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Witkin Homes, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.73 Formal regulatory and statutory requirements; 13.73-92 Truth

in Lending Act; § 13.155 Prices; 13.155-95 Terms and conditions; 13.155-95(a) Truth in Lending Act. Subpart—Misrepresenting oneself and goods—Prices: § 13.1823 Terms and conditions; 13.1823-20 Truth in Lending Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 Formal regulatory and statutory requirements; 13.1852-75 Truth in Lending Act; § 13.1905 Terms and conditions; 13.1905-60 Truth in Lending Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 82 Stat. 146, 147; 15 U.S.C. 45, 1601, et seq.)

*In the Matter of Witkin Homes, Inc., a corporation, and Jack A. Witkin, and Philip D. Winn, individually and as officers of said corporation.*

Consent order requiring a Denver, Colo., mortgage loan broker, among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

## ORDER

*It is ordered.* That respondents Witkin Homes, Inc., a corporation, its successors and assigns, its officers, and Jack A. Witkin and Philip D. Winn, individually and as officers of said corporation, and respondents' agents, representatives, salesmen and employees, directly or through any corporation, subsidiary, division or other device, in connection with any advertisement to aid, promote or assist, directly or indirectly, any arrangement or extension of consumer credit as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR 226) of the Truth in Lending Act (P.L. 90-321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Representing in any such advertisement, directly or by implication, that no downpayment is required, the amount of the downpayment or the amount of any installment payment, either in dollars or as a percentage, the dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit, unless all of the following items are clearly and conspicuously stated, in terminology prescribed under Section 226.8 of Regulation Z, as required by Section 226.10(d) (2) of Regulation Z:

(a) The cash price or the amount of the loan, as applicable;

(b) The amount of the downpayment required or that no downpayment is required, as applicable;

(c) The number, amount and the due dates or period of payments scheduled to repay the indebtedness if the credit is extended; and

(d) The amount of the finance charge expressed as an annual percentage rate.

<sup>1</sup> Copies of the Complaint, Decision and Order filed with the original document.

## RULES AND REGULATIONS

2. Failing, in any advertisement, to make all disclosures as required by Section 226.10 in the manner prescribed by Sections 226.6, 226.8 and 226.10 of Regulation Z.

*It is further ordered.* That respondents notify the Commission at least thirty (30) days prior to any proposed change in any corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

*It is further ordered.* That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged as well as a description of their duties and responsibilities.

*It is further ordered.* That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

*It is further ordered.* That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission July 21, 1975.

### PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Zodiac Construction, Ltd., et al.

Subpart—Advertising falsely or misleadingly: § 13.73 Formal regulatory and statutory requirements; 13.73-92 Truth in Lending Act; § 13.155 Prices; 13.155-95 Terms and conditions; 13.155-95(a) Truth in Lending Act. Subpart—Misrepresenting oneself and goods—Prices: § 13.1823 Terms and conditions; 13.1823-20 Truth in Lending Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 Formal regulatory and statutory requirements; 13.1852-75 Truth in Lending Act; § 13.1905 Terms and conditions; 13.1905-60 Truth in Lending Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 82 Stat. 146, 147; 15 U.S.C. 45, 1601, et seq.)

*In the Matter of Zodiac Construction Ltd., a corporation, and Sol Dichter, individually and as an officer of said corporation.*

Consent order requiring an Aurora, Colo., mortgage loan company, among other things to cease violating the Truth in Lending Act by failing to disclose to

consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:<sup>1</sup>

#### ORDER

*It is ordered.* That respondents Zodiac Construction, Ltd., a corporation, its successors and assigns, its officers, and Sol Dichter, individually and as an officer of said corporation, and respondents' agents, representatives, salesmen and employees, directly or through any corporation, subsidiary, division or other device, in connection with any advertisement to aid, promote or assist, directly or indirectly, any arrangement or extension of consumer credit as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR 226) of the Truth in Lending Act (P.L. 90-321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Representing in any such advertisement, directly or by implication, that no downpayment is required, the amount of the downpayment or the amount of any installment payment, either in dollars or as a percentage, the dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit, unless all of the following items are clearly and conspicuously stated, in terminology prescribed under Section 226.8 of Regulation Z, as required by Section 226.10(d) (2) of Regulation Z:

(a) The cash price; (the amount of the loan);

(b) The amount of the downpayment required or that no downpayment is required, as applicable;

(c) The number, amount and due dates or period of payments scheduled to repay the indebtedness if the credit is extended; and

(d) The amount of the finance charge expressed as an annual percentage rate.

2. Stating in any advertisement the rate of a finance charge unless said rate is expressed as an annual percentage rate, using the term "annual percentage rate", as "finance charge" and "annual percentage rate" are defined in Section 226.2 and as required by Section 226.10 (d) (1) of Regulation Z.

3. Failing, in any advertisement, to make all disclosures as required by Section 226.10 in the manner prescribed by Sections 226.6, 226.8 and 226.10 of Regulation Z.

*It is further ordered.* That respondents notify the Commission at least thirty (30) days prior to any proposed change in any corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

*It is further ordered.* That the individual respondent named herein promptly

<sup>1</sup> Copies of the Complaint, Decision and Order filed with the original document.

notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

*It is further ordered.* That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

*It is further ordered.* That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission July 21, 1975.

### PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Beneficial Corp., et al.

Subpart—Misrepresenting oneself and goods—Business, status, advantages, or connections: § 13.1490 Nature; § 13.1520 Personnel or staff; § 13.1535 Qualifications. —Goods: § 13.1647 Guarantees; § 13.1725 Refunds; § 13.1740 Scientific or other relevant facts; § 13.1760 Terms and conditions. —Services: § 13.1843 Terms and conditions. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1895 Scientific or other relevant facts; § 13.1905 Terms and conditions. Subpart—Offering unfair, improper and deceptive inducements to purchase or deal: § 13.1980 Guarantee, in general; § 13.2040 Returns and reimbursements; § 13.2063 Scientific or other relevant facts. Subpart—Securing information by subterfuge: § 13.2168 Securing information by subterfuge.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

*In the Matter of Beneficial Corporation, a Corporation, and Beneficial Management Corporation, a Corporation*

Order requiring a Wilmington, Del., seller of personal income tax preparation services and its wholly-owned subsidiary located in Morristown, N.J., among other things to cease misrepresenting the terms and conditions of its guarantees, using the term "instant tax refund," and misusing confidential information obtained from taxpayer customers.

The Final Order, including further order requiring report of compliance therewith, is as follows:<sup>1</sup>

<sup>1</sup> Copies of the Complaint, Initial Decision, Opinion and Final Order, filed with the original document.

#### FINAL ORDER

This matter having been heard by the Commission upon respondents' appeal from the initial decision; and

The Commission having considered the oral arguments of counsel, their briefs, and the whole record; and

The Commission, for reasons stated in the accompanying Opinion, having denied in part and granted in part the appeal; accordingly

*It is ordered.* That, except to the extent that it is inconsistent with the Commission's Opinion, the Initial Decision of the Administrative Law Judge be, and it hereby is, adopted together with the Opinion accompanying this Order as the Commission's final findings of fact and conclusions of law in this matter:

*It is further ordered.* That the following cease and desist order be, and it hereby is, entered:

*It is ordered.* That respondents Beneficial Corporation and Beneficial Management Corporation, corporations, and their successors and assigns, and their officers, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the preparation of income tax returns or the extension of consumer credit in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the term "instant tax refund," or any other word or words of similar import or meaning.

2. Using any guarantee without clearly and conspicuously disclosing the terms, conditions and limitations of any such guarantee; or misrepresenting, in any manner, the terms and conditions of any guarantee.

3. Representing, directly or by implication, that respondents will reimburse their customers for any payments the customer may be required to make in addition to his initial tax payment, in instances where such additional payment results from an error by respondents in the preparation of the tax return, *provided, however*, That it shall be a defense in any enforcement proceeding for respondents to establish that they make such payments.

4. Failing to disclose, clearly and conspicuously, whenever respondents make any representation, directly or by implication, as to their responsibility for, or obligation resulting from, errors attributable to respondents in the preparation of tax returns, that respondents will not reimburse the taxpayer for any deficiency payment which results from said errors, *provided, however*, That it shall be a defense in any enforcement proceeding for respondents to establish that they make such payments.

5. Representing, directly or by implication, that the percentage of respondents' customers who receive tax refunds is demonstrably greater than the percentage of individual taxpayers at large who receive refunds; or misrepresenting, in any manner, the magnitude or frequency of refunds received by respondents' tax preparation customers.

## RULES AND REGULATIONS

6. Representing, directly or by implication, that respondents' tax preparing personnel are tax experts or unusually competent in the preparation of tax returns or the rendering of tax advice; or misrepresenting, in any manner, the competence or ability of respondents' tax preparing personnel.

7. Using information concerning any customers of respondents, including the name and or address of the customer, for any purpose which is not essential or necessary to the preparation of a tax return if such information was obtained by respondents as a result of the preparation of the customer's tax return which includes any information given by the customer after he has indicated, in any way, that he is interested in utilizing respondents' tax preparation services, unless prior to obtaining such information respondents have both (1) specifically requested from the customer the right to use the tax return information of the customer and (2) have executed a separate written consent signed by the customer which shall contain:

1. Respondent's name;

2. The name of the customer;

3. The specific purpose for which the consent is being signed;

4. The exact information which will be used;

5. The particular use which will be made of such information;

6. The parties or entities to whom the information will be made available;

7. The date on which such consent is signed;

8. A statement that the tax return information may not be used by the tax return preparer for any purpose other than that stated in the consent, and

9. A statement by the taxpayer that he consents to the use of such information for the specific purpose described in subparagraph (3) of this paragraph.

*Provided, however*, That nothing herein shall prohibit respondents from using names and addresses only of customers for the purpose of communication with such customers solely concerning respondents' income tax preparation business.

Nothing in the above provision is intended to relieve respondents of any further requirements imposed on them by the Revenue Act of 1971, Pub. L. 92-178, title III, § 316(a), December 10, 1971; 26 U.S.C. § 7216 or regulations issued pursuant to it.

*It is further ordered.* That respondents herein shall notify the Commission at least 30 days prior to any proposed change in the structure of the corporate respondents such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the respondent corporations which may affect compliance obligations arising out of this order.

*It is further ordered.* That respondents shall, within 60 days after service of this order, file with the Commission a written report, signed by the respondents, setting forth in detail the manner and form of their compliance with this order.

The final order was issued by the Commission July 15, 1975.

CHARLES A. TOBIN,  
Secretary.

Subpart—Using deceptive techniques in advertising: § 13.2275 Using deceptive techniques in advertising.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

*In the Matter of Marshall Cavendish Corporation, a corporation.* Consent order requiring a New York City seller and distributor of encyclopedia and other educational material, among other things to cease distributing any product through the use of a continuity program that provides for the delivery on approval any product at intervals with the balance being sent in one or more multi-unit shipments.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows.

#### ORDER

*It is ordered.* That respondent Marshall Cavendish Corporation, a corporation, its successors and assigns, and its officers, and its agents, representatives, employees, directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale or sale, inducing or collecting payments for, and distribution of any encyclopedia or educational series of books, or of any merchandise, hereinafter such books and merchandise sometimes collectively referred to as products, through the use of a continuity program that provides contrac-

<sup>1</sup> Copies of the complaint, decision and order filed with the original document

tually for the delivery, on an approval basis, of any of said products to any person at intervals, with the balance of the program sent in one or more multi-unit shipments, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that:

(a) Any person has the option to receive each product, separately and individually, and to accept or reject same, unless such representation is true.

(b) Any person will not receive any further products after the respondent has received and processed a properly identified notice of his cancellation of any such continuity program, unless such representation is true; or misrepresenting, in any manner, the consequences resulting from any person's cancellation of his participation in any such continuity program.

(c) Any person incurs no risk or obligation by joining any such continuity program unless such representation is true; or misrepresenting, in any manner, any condition, right, duty or obligation imposed on said person.

2. Disseminating, or causing the dissemination of, any advertisement for such continuity program by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which fails to disclose in a clear and conspicuous manner a description of the material conditions and terms of any such continuity program, and the material duties and obligations of any subscriber thereto, including:

(a) A description of each product, the billing charge to be made therefor, the anticipated total number of products included in any such continuity program, the number of products included in each shipment, except that as to the last two shipments, respondent may instead disclose the approximate number of volumes in the second to last shipment and the fact that the last shipment contains the balance of the products to be sent, and the number of and the approximate intervals between each such shipment.

(b) A description of the procedures, including any time limitations, for cancellation prior to delivery, and for rejecting after examination by returning any product, and the fact that the respondent will grant an allowance or credit against billing charges for any unwanted product that has been rejected or returned pursuant to the terms of the continuity program; and

(c) That in order for any communication, including any cancellation, to be processed by the respondent prior to the shipment of any product, such communication must be received by the respondent within the time period provided to the subscriber in accordance with paragraph 4, *infra*.

3. Failing to disclose, clearly and conspicuously, on any return coupon, order form or any other document used for responding to any such continuity program offered, and, in magazine or newspaper

advertising, in immediate and close conjunction with any return coupon, order form or any other document used for responding to any such continuity program offered, the following information:

(a) The anticipated total number of products included in any such continuity program;

(b) The number of products included in each shipment, except that as to the last two shipments, respondent may instead disclose the approximate number of volumes in the second to last shipment and the fact that the last shipment contains the balance of the products to be sent; and

(c) The number of and the approximate intervals between each such shipment.

4. Failing to notify the subscriber subsequent to enrollment, clearly and conspicuously, in conjunction with the delivery of products sent to any subscribers, of the time period or periods after which the respondent will initiate processing of any future shipment or shipments.

5. Failing to establish and implement adequate procedures so that the subscriber will be provided with any such notifications required by paragraph 4, *supra*, at least 15 days prior to the anticipated processing date of any subsequent shipment.

6. Failing to advise the subscriber, clearly and conspicuously, in close conjunction with the notification required in paragraph 4, *supra*, that the subscriber must advise the respondent prior to the anticipated processing date if any change is desired in the status of the subscriber's account.

7. Preparing shipping labels for any shipment of any product in such continuity program for which the recipient will incur a monetary obligation, until at least 4 days after the anticipated processing date established pursuant to paragraph 4, *supra*, in connection with that shipment.

8. Failing to establish and implement adequate procedures to credit, for the full invoiced amount thereof, any properly identified return of any product sent to a subscriber to any such continuity program, and to guarantee to the postal service or the subscriber postage adequate to return such product to the respondent, when:

(a) The product is sent to a subscriber after the respondent has received and processed such notice of cancellation prior to the anticipated processing date established in conjunction with the shipment of such product as required by paragraph 4, *supra*; or

(b) Such notice of cancellation is received by the respondent within 4 days of the anticipated processing date established pursuant to paragraph 4, *supra*, but has been mailed by the subscriber and postmarked at least three days prior to the date disclosed as aforesaid.

9. Failing to establish and implement adequate procedures to prevent the sending of any product to any subscriber to any such continuity program, or mailing any bill or invoice therefor, after the respondent has received and processed any

properly identified notice of cancellation from said subscriber prior to the date upon which the respondent may initiate the processing for the shipment of said product pursuant to paragraph 7, *supra*.

10. Failing to establish and implement adequate procedures to do the following, after receipt of any properly identified claim for adjustment in connection with any bill or invoice or any defense raised by any alleged debtor in connection with any such continuity program:

(a) Make any such adjustment within 14 days of receipt of such claim; or

(b) Acknowledge the receipt of the claim or defense within 14 days of receipt by the respondent and suspend all collection procedures with such alleged debtor until 25 days after complying with the procedures set forth in (c), below; and

(c) Make the requested adjustment within 60 days, or, within said period, inform the alleged debtor in writing of the respondent's understanding of the facts alleged in the claim or defense.

*It is further ordered*, That respondent shall forthwith distribute a copy of this order to each of its operating divisions.

*It is further ordered*, That respondent notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

*It is further ordered*, That the respondent herein shall within sixty (60) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order.

The Decision and Order was issued by the Commission July 14, 1975.

CHARLES A. TOBIN,  
Secretary.

[Docket No. C-2708]

#### PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Lumberjack Meats, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.10 Advertising falsely or misleadingly; § 13.20 Comparative data or merits; § 13.45 Content; § 13.135 Nature of product or service; § 13.155 Prices; § 13.155-15 Comparative; § 13.170 Qualities or properties of product or service; § 13.170-64 Nutritive; § 13.205 Scientific or other relevant facts. Subpart — Misrepresenting oneself and goods—Goods: § 13.1575 Comparative data or merits; § 13.1605 Content; § 13.1685 Nature; § 13.1710 Qualities or properties; § 13.1740 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

*In the Matter of Lumberjack Meats, Inc., a Corporation, and Harold Abroms, Individually and as an Officer of Said Corporation.*

Consent order requiring a Birmingham, Ala., manufacturer of packaged meat and meat soy protein concentrate products, among other things to cease misrepresenting that its product Bun Pals is all-meat or solely a meat product; exaggerating the products protein content in comparison with other food products; understating the products fat content in comparison with other food products; and making price comparisons between its products and other products only in equivalent units of quantity.

The order to cease and desist, including further order requiring reports of compliance therewith, is as follows:

#### ORDER

*It is ordered*, That respondents Lumberjack Meats, Inc., a corporation, its successors and assigns, and its officers, and Harold Abroms, individually and as an officer of said corporation, and respondents' representatives, agents, and employees, directly or through any corporation, subsidiary, division or other device in connection with the advertising, offering for sale or sale of the product "Bun Pals" or any other product in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing directly or indirectly that the product "Bun Pals" or any other soy protein concentrate product is all meat or solely a meat product.

2. Representing directly or indirectly, that the protein content of the product "Bun Pals" is equal to or higher than that of boneless round, canned ham, roast beef, pork chops, chuck roast and steak, or misrepresenting in any manner the protein content of respondents' products.

3. Representing directly or indirectly that the fat content of the product "Bun Pals" is equal to or less than that of boneless round, boneless chuck roast, and steak, or misrepresenting in any manner the fat content of respondents' products.

4. Comparing the price of any given quantity of the product "Bun Pals" or any other product with that of another product unless such price comparison is expressed in equal quantities using equivalent units whether the compared product be described in generic terms or as a particular brand.

*It is further ordered*, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

*It is further ordered*, That the individual respondent named herein shall promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to

<sup>1</sup> Copies of the Complaint, Decision and Order, filed with the original document.

the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

*It is further ordered*, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, partnership or other business entity, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

*It is further ordered*, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

Decision and order issued by the Commission July 21, 1975.

CHARLES A. TOBIN,  
Secretary.

#### Title 29—Labor

#### CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

#### PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

##### California Plan; Approval of Plan Supplements

1. *Background*. Part 1953 of Title 29, Code of Federal Regulations, provides procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for review of changes and progress in the development and implementation of State plans which have been approved in accordance with section 18(c) of the Act and Part 1902 of this chapter. On May 1, 1973, a notice was published in the FEDERAL REGISTER (38 FR 10717) of the approval of the California plan and of the adoption of Subpart K of Part 1952 containing the decision of approval. On September 11, 1974, and November 7, 1974, the State of California submitted supplements to its plan involving developmental changes and the completion and extension of developmental steps (see Subpart B of 29 CFR Part 1953), and State initiated changes (see Subpart E of 29 CFR Part 1953). Notices of the receipt of these supplements were published in the FEDERAL REGISTER on November 5, 1974, (39 FR 39045) and January 27, 1975, (40 FR 4022) respectively. In addition, on March 13, 1975, the State submitted a revised poster, and on May 21, 1975 the State submitted a change in the schedule for the completion of its compliance manual of which no notices of receipts have been published in the FEDERAL REGISTER.

2. *Description of the supplements*. The supplements submitted by the State on September 11, 1974, concerned the completion of 4 developmental steps. The

first of these is that the Occupational Safety and Health Standards Board has begun operations. The Board has adopted regulations pertaining to its responsibilities in the area of variances which are set forth in Title 8 of the California Administrative Code.

The Occupational Safety and Health Appeals Board, which is responsible for the review of contested citations, has also begun operations. The Board has adopted procedural regulations and has commenced adjudicating contested cases. The Board has adopted regulations, Articles 1 through 5 in Chapter 1.5, Title 8, California Administrative Code. The Board began receiving and hearing appeals and rendering decisions in early 1974.

The State has completed its major initial effort in education and training for employers, employees and the general public. This effort consisted, for the most part, of 23 one-day seminars covering the State Occupational Safety and Health Act, safety orders, recordkeeping requirements, and the role of the Department of Health in providing technical support for enforcement activities.

Recordkeeping and reporting requirements have been extended to State and local governments. Regulations for these requirements, which appear in sections 14700-14710 of Title 8 of the California Administrative Code, were adopted and became effective June 1, 1974. State and local public agencies were required to begin their recordkeeping on July 1, 1974.

The State also requested a change in the developmental schedule for the completion of a fully functioning inspection scheduling system which was initially set for one year following plan approval. Delays caused by difficulties in recruitment and a major computer conversion necessitated the postponement of the completion of the system until March 31, 1975.

The supplements submitted on November 7, 1974, concerned amendments to the California enabling legislation and the establishment of a Management Information System. The California enabling legislation was passed by the California Assembly on October 23, 1973. However, it was discerned by the State that there were certain errors and inconsistencies in that legislation which needed to be rectified. Accordingly, Assembly Bill 3335 was enacted by the California Legislature and was signed by the Governor on September 23, 1974, and became effective on January 1, 1975. Among other things, the Bill revises the jurisdiction of the Bureau of Investigations in the Division of Industrial Safety to those investigations for accidents involving serious injury to 5 or more employees rather than for any serious injury, as originally enacted, thus making it more consistent with section 5313 of the California Labor Code; extends citation and penalty provisions to recordkeeping violations, and clarifies the authority of the Occupational Safety and Health Appeals Board where an employer files an appeal but fails to appear at the hearing.

The second supplement involves the establishment of the Management Information System. The State has established a complete system for providing evaluation data required by the Assistant Secretary of Labor for Occupational Safety and Health on a timely basis.

The State poster was revised and resubmitted on March 13, 1975. The State originally submitted a poster in May 1974, but certain deficiencies were noted in our internal review. In response to those deficiencies, the State revised its poster augmenting it with an elaboration on the citation procedure, amplification of the walk-around provisions, a statement on complainant anonymity and a statement on where to file complaints alleging discrimination under Federal and State law. In addition to the above amplifications, the California poster, which is printed in both English and Spanish, informs employees of their rights and obligations under the California Act, their right to request inspections, their right to participate in the inspections and their right to file complaints about the administration of the State program with the Occupational Safety and Health Administration.

Finally, on May 21, 1975, the State requested a change in the developmental schedule for completion of its Policy and Procedure Manual (compliance manual) from October 1974, to September 30, 1975. Additional time was requested to allow for a revision in the organization and content of the manual in order to produce a comprehensive document relating to enforcement procedures.

3. *Issues.* No public comments were submitted concerning the supplements of September 11, and November 7, 1974. However, in-house review discerned an issue concerning the Rules of Procedure for the Occupational Safety and Health Appeals Board. The discovery rules of the Board, Rules 141 and 142, appear to be somewhat broader in providing for the disclosure of employee informants' names than is the practice under the Federal program. Pending resolution of this apparent conflict, approval of Rules 141 and 142 will be withheld at this time. However, all other Rules of the Appeals Board are approved.

4. *Location of the plan supplements for inspection and copying.* A copy of the plan and its supplements may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room N-3608, 200 Constitution Avenue, N.W., Washington, D.C. 20210; Office of the Assistant Regional Director, Occupational Safety and Health Administration, Room 9410, Federal Office Building, 450 Golden Gate Avenue, San Francisco, California 94102; California Occupational Safety and Health Administration, 1006 4th Street, Third Floor Sacramento, California 95814; California Occupational Safety and Health Administration, 455 Golden Gate Avenue, Room 2152, San Francisco, California 94102; and Division of

Industrial Safety, 3460 Wilshire Boulevard, Los Angeles, California 90010.

5. *Public participation.* Interested persons were given 30 days to submit written data, views and arguments concerning the September 11, and November 7, 1974, supplements. As to the March 13, and May 21, 1975, supplements, the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter referred to as the Assistant Secretary) may prescribe alternative procedures to expedite the review process or for any other good cause which may be consistent with applicable law. The Assistant Secretary finds that the California poster incorporates all of the provisions required under 29 CFR 1952.10(a)(5) and 29 CFR 1903.2(a)(3) (39 FR 39306) and that the change in the developmental schedule is minor in nature. Accordingly, it is determined that further public comment is unnecessary.

6. *Decision.* After careful consideration of the California plan supplements in relation to the requirements of the Act and 29 CFR Part 1902, they are hereby approved, except that approval of Rules 141 and 142 of the California Occupational Safety and Health Appeals Board are being withheld until a satisfactory resolution of the issue has been reached. The decision incorporates the requirements of the Act and implementing regulations applicable to State plans generally.

In accordance with this decision, Subpart K of 29 CFR Part 1952 is amended as set forth below, effective September 2, 1975.

Section 1952.173(h) is revised to read as follows:

§ 1952.173 Developmental schedule.

(h) The Inspection Scheduling System will be fully implemented and in operation March 31, 1975.

Section 1952.174(d)-(h) is revised to read as follows:

§ 1952.174 Completed developmental steps.

(d) In accordance with the requirements of § 1952.10, the California State poster was approved by the Assistant Secretary on August 27, 1975.

(e) The Occupational Safety and Health Standards Board began functioning in January 1974.

(f) The initial major training and education of employers, employees and the general public was completed by 1974.

(g) In accordance with § 1952.173(a), recordkeeping and reporting requirements were extended to State and local governments effective January 1, 1975.

(h) The Management Information System was established by November 1974.

(Secs. 8(g), 18, Pub. L. 91-596, 84 Stat. 1600, 1608 (29 U.S.C. 657(g), 667))

Signed at Washington, D.C. this 27th day of August 1975.

JOHN T. DUNLOP,  
Secretary of Labor.

[FR Doc.75-23152 Filed 8-29-75; 8:45 am]

#### PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

##### Iowa Plan; Approval of Supplements

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter called the Act, for review of changes and progress in the development and implementation of State plans which have been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On July 20, 1973, a notice was published in the FEDERAL REGISTER (38 FR 19368) of the approval of the Iowa Plan and the adoption of Subpart J of Part 1952 containing the decision and describing the plan. By a letter containing a notice dated June 16, 1975, from Jerry Addy, Commissioner of Labor for the State of Iowa, a State Plan Modification Package was transmitted to the Assistant Secretary for his determination as to whether these supplements should be approved.

2. *Description of the supplements.* (a) *Legislation.* In accordance with the commitment expressed in 29 CFR 1952.163 (b), the State submitted amendments to its enabling legislation (Iowa S.F. 1218—Chapter 88), which were designed to bring the plan into conformity with the requirements of 29 CFR Part 1902 and the Act. The enacted legislative amendments (Iowa S.E. 92, consisting of section 88.5, subsections 4 and 7, and section 88.14, subsection 3 of Iowa Code 1975) provide the following:

(1) The results of examinations or tests needed to monitor or measure hazards in the workplace shall be furnished to the Commissioner, and if released by the employee, shall be furnished to the employee's physician and the employer's physician.

(2) In case of conflicts with standards or rules promulgated by any Federal agency other than the United States Department of Labor, the Commissioner may issue a special variance until the conflict is resolved.

(3) Any employer who has received a citation for a non-serious violation may be assessed a civil penalty of up to one thousand dollars (\$1000) for each violation.

(b) *Plan change.* In accordance with item 2(a)(3) above, regarding the passage of legislation authorizing penalties for each non-serious violation, notice was given under the same transmittal mentioned in item 1 of this notice (*Background*) that "the section dealing with Non-Serious Violations found on pages 3 and 4 of Appendix A, Addendum A of the original plan should be deleted," thereby bringing the plan into conformity with the legislative amendment.

3. *Location of the plan and its supplement for inspection and copying.* A copy of these supplements, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, 200 Constitution Avenue, N.W., Room N-3608, Washington, D.C. 20210;

Office of the Assistant Regional Director, Occupational Safety and Health Administration, 911 Walnut Street, Room 3000, Kansas City, Missouri 64106; Iowa Bureau of Labor, State House, East 7th and Court Avenue, Des Moines, Iowa 50319.

4. *Public participation.* Under § 1953.2(c) of this chapter, the Assistant Secretary may prescribe alternative procedures to expedite the review process or for any other good cause which may be consistent with applicable law. The Assistant Secretary finds that the Iowa plan supplements described above are identical to parallel Federal provisions and procedures, and are consistent with Federal policy and practice. Further, they have been subject to formal State rulemaking procedures. Accordingly, it is found that further public comment is unnecessary.

5. *Decision.* After careful consideration, the Iowa plan supplements outlined above are approved under Part 1953. The decision incorporates the requirements of the Act and implementing regulations applicable to State plans generally. In addition, Subpart J of 29 CFR Part 1952 is amended to reflect the completion of a developmental step by redesignating the existing text of § 1952.164 as paragraph (a) and adding a new paragraph (b) to read as follows:

§ 1952.164 Completed developmental step.

(b) In accordance with the requirements of § 1952.163(b), the Iowa Occupational Safety and Health Act of 1972 (Iowa S.F. 1218—Chapter 88) is amended by Iowa Act S.F. 92, with an effective date of July 1, 1975.

(Secs. 8(g), 18, Pub. L. 91-596, 84 Stat. 1600, 1608 (29 U.S.C. 657(g), 667))

Signed at Washington, D.C. this 27th day of August 1975.

JOHN T. DUNLOP,  
Secretary of Labor.

[FR Doc.75-23154 Filed 8-29-75; 8:45 am]

#### PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

##### Iowa Plan Supplements; Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter called the Act) for review of changes and progress in the development and implementation of State plans which have been approved under section 18(c) of the Act and Part 1902 of this title. On July 20, 1973, a notice was published in the FEDERAL REGISTER (38 FR 19368) of the approval of the Iowa plan and of the adoption of Subpart J of Part 1952 describing the plan. On June 24, 1975, the State of Iowa submitted a supplement to the plan involving a State-initiated change (see Subpart E of 29 CFR Part 1953).

2. *Description of the supplement.* The supplement concerns the Iowa State

poster which is to be posted at all covered workplaces in the State. Among other things, the poster contains provisions notifying employees of their obligations and protections under the Iowa Act, their right to request workplace inspections and their right to remain anonymous as a result, their right to participate in inspections, their protection against discharge or discrimination under both Federal and State laws for the exercise of their rights under the Federal and State laws, and their right to file complaints with the Occupational Safety and Health Administration concerning the administration of the State program.

3. *Location of the plan and its supplement for inspection and copying.* A copy of the poster, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room N-3608, 200 Constitution Avenue, N.W., Washington, D.C. 20210; Office of the Assistant Regional Director, Occupational Safety and Health Administration, 911 Walnut Street, Room 3000, Kansas City, Missouri 64106; Bureau of Labor, State House, East and 7th Avenue, Des Moines, Iowa 50319.

4. *Public participation.* Under § 1953.2 of this chapter, the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter referred to as the Assistant Secretary) may prescribe alternative procedures to expedite the review process or for any other good cause which may be consistent with applicable law. The Assistant Secretary finds that the Iowa poster incorporates all of the provisions required under 29 CFR 1952.10(a)(5) and 29 CFR 1903.2(a)(3) (39 FR 39306, November 5, 1974). Accordingly, it is believed that further public comment is unnecessary.

5. *Decision.* After careful consideration, the Iowa plan supplement outlined above is approved under Part 1953. This decision incorporates the requirements of the Act and implementing regulations applicable to State plans generally. In addition, Subpart J of 29 CFR Part 1952 is amended to reflect the completion of a developmental step upon the approval of the State poster. Accordingly, Subpart J of Part 1952 is amended by adding a new section as follows:

§ 1952.164 Completed developmental steps.

In accordance with the requirements of § 1952.10, the Iowa State poster was approved by the Assistant Secretary on August 26, 1975.

(Secs. 8(g)(2), Pub. L. 91-596, 84 Stat. 1600, 1608 (29 U.S.C. 657(g)(2), 667))

Signed at Washington, D.C. this 26th day of August 1975.

JOHN T. DUNLOP,  
Secretary of Labor.

[FR Doc.75-23153 Filed 8-29-75; 8:45 am]

#### PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

##### Alaska Plan; Level of Federal Enforcement

1. *Background.* Part 1954 of Title 29, Code of Federal Regulations, sets out procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter called the Act) for the evaluation and monitoring of State plans which have been approved under section 18(c) of the Act and 29 CFR Part 1902. Section 1954.3 of this chapter provides guidelines and procedures for the exercise of discretionary Federal enforcement authority under section 18(e) of the Act with regard to Federal standards in issues covered under an approved State plan. In accordance with § 1954.3(b) of this chapter, Federal enforcement authority will not be exercised as to occupational safety and health issues covered under a State plan where a State is operational. A State is determined to be operational under § 1954.3(b) of this chapter when it has provided for the following requirements: enacted enabling legislation, approved State standards, a sufficient number of qualified enforcement personnel and provisions for review of enforcement actions. In determining whether and to what extent a State plan meets the operational guidelines, the results of evaluations conducted under 29 CFR Part 1954 are taken into consideration. Once this determination has been made, under § 1954.3(f) of this chapter, a notice of the determination of the operational status of a State plan as described in an agreement setting forth the Federal-State responsibilities is to be published in the FEDERAL REGISTER.

2. *Notice of Alaska operational agreement.* (a) In accordance with the provisions of § 1954.3(f) of this chapter, notice is hereby given that it has been determined that Alaska has met the following conditions for operational status:

(1) Enactment of amendments to Title 18, chapter 60 of Alaska Statutes (Senate Bill No. 46) effective July 24, 1973;

(2) Promulgation of State standards covering all issues as defined by Subparts B thru F; H thru Q; R-Sawmills, Pulpwood Logging, Agriculture and S of 29 CFR Part 1910 and by 29 CFR Part 1926, which were found in the professional judgment of the Assistant Regional Director for Occupational Safety and Health (hereinafter called the Assistant Regional Director) to provide overall protection equal to the comparable Federal standards in such issues;

(3) A sufficient number of qualified safety personnel who are enforcing State standards in accordance with the State's legislation; namely, fourteen (14) safety inspectors as of March 31, 1975;

(4) A review and appeals system before the Occupational Safety and Health Review Board of the Alaska Department of Labor (hereinafter called the Board), providing the mechanism for employers

and employees to contest enforcement actions and/or abatement dates, in operation since July 27, 1973. Prior to January 10, 1975, hearings before the Board were conducted in accordance with the provisions of the Alaska Administrative Procedures Act. Specific regulations covering Board procedures for handling contested cases filed pursuant to Title 18, Chapter 60 of Alaska Statutes became effective January 10, 1975 (8 Alaska Administrative Code, Sections 61.160-61.220).

(5) State enforcement since October 1, 1973, of the State standards, monitored under Subpart C of 29 CFR Part 1954, including three on-site evaluations, covering the period from October 1, 1973, to March 31, 1975.

(b) In addition, the State has provided under its plan for:

(1) Notification to employers and employees since January 10, 1975, of rights and responsibilities under Title 18, Chapter 60 of Alaska Statutes by requiring display in all work places covered by the plan of a State job safety poster which was recommended for approval by the Assistant Regional Director on November 27, 1974;

(2) Occupational accident and illness recordkeeping and reporting by employers covered under the plan, effective January 10, 1975 (8 Alaska Administrative Code, Sections 61.230 to 61.295);

(3) Responding to complaints filed with or referred to the Alaska Occupational Safety and Health Review Board for violation of the prohibition against employer discrimination against employees for exercising their rights under Title 18, Alaska Statutes (section 60.089);

(4) Assurance of the rights of employers and employees and their representatives consistent with the provisions of the Federal Act and its implementing regulations.

Pursuant to this finding, an agreement effective June 5, 1975, and incorporated as part of the Alaska plan has been entered into between Edmund N. Orbeck, Commissioner, Alaska Department of Labor, and James W. Lake, Assistant Regional Director for Occupational Safety and Health of the U.S. Department of Labor, providing that Federal enforcement authority under section 18(e) of the Act will not be initiated with regard to Federal occupational safety and health standards in the issues covered by Subparts B thru F; H thru Q; R-Sawmills, Pulpwood Logging, Agriculture and S of 29 CFR Part 1910, including 29 CFR Parts 1915 through 1918 and part 1926, where State standards are in effect and operational, except those areas listed below retained and/or exercised by the Federal Government under the Act.

Under the agreement, Federal responsibility under the Act will continue to be exercised, among other things, with regard to: complaints about violations of the discrimination provisions of section 11(c) of the Act (29 U.S.C. 660(c)); enforcement of standards promulgated under the Act subsequent to the agreement where necessary to protect employees as in the case of temporary

emergency standards promulgated under section 6(c) of the Act (29 U.S.C. 655 (c)), until such time as the State shall have adopted equivalent standards in accordance with Subpart C of 29 CFR Part 1953; enforcement of Federal standards contained in the issue covered by 29 CFR Part 1910 Subpart G until a total of two (2) qualified industrial hygienists have been hired to enforce the State standards comprising this issue; enforcement of Federal standards contained in the issues covered by 29 CFR Part 1910 Subpart R—Pulp, Paper and Paperboard Mills, Textiles, Bakery Equipment and Laundry Machinery and Operations until the State shall have adopted equivalent standards; enforcement of Federal standards contained in the issues covered by Subpart B—Ship repairing, Shipbuilding, Shipbreaking, and Longshoring, 29 CFR 1910.13 through 1910.16, as they relate to employment under the exclusive jurisdiction of the Federal Government on the navigable waters of the United States, including dry docks and marine railways, further defined by memorandum attached to agreement dated December 18, 1972; and investigations and inspections for the purpose of evaluation of the State plan under sections 18 (e) and (f) of the Act (29 U.S.C. 667 (e) and (f)).

The agreement is subject to revision or termination by the Assistant Secretary of Labor for Occupational Safety and Health upon substantial failure by the State to comply with any of its provisions, or when the results of evaluation under 29 CFR Part 1954 reveal that State operations covered by the agreement fall in a substantial manner to be at least as effective as the Federal program.

In accordance with this agreement and effective as of June 5, 1975, Subpart R of 29 CFR Part 1952 is hereby amended, as set forth below:

Section 1952.242 is revised to read as follows:

§ 1952.242 Level of Federal enforcement.

(a) Pursuant to § 1902.20(b)(1)(III) and § 1954.3 of this chapter under which an agreement has been entered into with Alaska effective June 5, 1975, and based on a determination that Alaska is operational in the issues covered by the Alaska occupational safety and health plan, the U.S. Department of Labor will continue to exercise authority, among other things, with regard to: Federal standards promulgated subsequent to the agreement where necessary to protect employees as in the case of temporary emergency standards promulgated under section 6(c) of the Act (29 U.S.C. 655(c)) in issues covered under 29 CFR Part 1910 and 29 CFR Part 1926, until such time as Alaska shall have adopted equivalent standards in accordance with 29 CFR Part 1953, Subpart C; Federal standards in the issue covered under 29 CFR Part 1910 Subpart G until a total of two (2) qualified industrial hygienists have been hired; Federal standards in issues covered under 29 CFR Part 1910 Subpart R—Pulp, Paper

and Paperboard Mills, Textiles, Bakery Equipment and Laundry Machinery and Operations until such time as Alaska shall adopt equivalent standards; complaints about violations of the discrimination provisions of section 11(c) of the Act (29 U.S.C. 660(c)); Federal standards contained in the issues covered by Subpart B—Ship repairing, Shipbuilding, Shipbreaking, and Longshoring, 29 CFR 1910.13 through 1910.16, as they relate to employment under the exclusive jurisdiction of the Federal Government on the navigable waters of the United States, including dry docks and marine railways, further defined by memorandum attached to agreement dated December 18, 1972 and investigation and inspection for the purpose of evaluation of the Alaska plan under sections 18 (e) and (f) of the Act (29 U.S.C. 667 (e) and (f)).

(b) The Assistant Regional Director for Occupational Safety and Health will make a prompt recommendation for resumption of exercise of Federal enforcement authority under section 18(e) of the Act (29 U.S.C. 667(e)) whenever, and to the degree, necessary to assure occupational safety and health protection to employees in the State of Alaska. (Secs. 8(g)(2), 18, Pub. L. 91-596, 84 Stat. 1600, 1608; (29 U.S.C. 657(g), 667)).

Signed at Washington, D.C. this 27th day of August 1975.

JOHN T. DUNLOP,  
Secretary of Labor.

[FR Doc. 75-23156 Filed 8-28-75; 8:45 am]

#### Title 40—Protection of Environment [FRL 406-6]

#### CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

#### SUBCHAPTER C—AIR PROGRAMS

#### PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

#### Kentucky; Category Compliance Schedules

On August 15, 1974 (39 FR 29357), the Administrator announced his approval of most of the Kentucky "Implementation Plan for the Attainment and Maintenance of the National and State Ambient Air Quality Standards." Except for its newly added indirect source provisions, this plan was virtually identical to the one which the Administrator had previously approved for Kentucky on May 31, 1972 (73 FR 10842). The original approval action had been vacated on June 28, 1973, by a decision of the U.S. Circuit Court of Appeals for the Sixth Circuit. The Court held that the Agency had not complied with section 553 of the Administrative Procedure Act in its original approval.

Prior to this decision, the Administrator had announced, on June 20, 1973 (38 FR 16144), his disapproval of the compliance schedule portion of the Kentucky plan in that it did not provide for increments of progress for all sources as required by 40 CFR 51.15(c). In particular, compliance schedules with adequate in-

crements of progress had not been submitted for every sulfur dioxide source affected by Kentucky Air Pollution Control Regulation AP-4, section 1, Emissions from Indirect Heat Exchangers. In accordance with section 110(c) of the Clean Air Act, the Administrator at the same time proposed (38 FR 16171) a regulation to correct this deficiency.

On January 22, 1975 (40 CFR 3417), the Administrator approved a number of individual compliance schedules which had been submitted with the resubmitted plan. The Administrator has determined that neither those schedules nor those which have been submitted subsequently suffice to remedy the deficiency just mentioned. Consequently, the Administrator repropose, on December 5, 1974 (39 FR 42377), a categorical compliance schedule for indirect heat exchangers. Written comments have been received, and statements regarding the schedules were heard at a public hearing held in Frankfort, Kentucky, on February 25, 1975.

#### DISCUSSION OF COMMENTS

Pertinent comments addressed five basic points.

The first of these is the short time provided for compliance. The final compliance dates specified in the regulation set forth below were established on the basis of Kentucky Air Pollution Control Regulation AP-4. These dates have been approved by EPA as part of the Kentucky implementation plan, and they reflect a two-year extension for the attainment of the standards for sulfur oxides. The final date is July 1, 1977. This is consistent with the air pollution regulations now in effect in the Commonwealth of Kentucky. The regulation further established March 15, 1975 as the initial response date by which a source should notify the Regional Administrator of his intent to utilize either low-sulfur fuel or flue gas desulfurization (FGD). By virtue of the June 20, 1973, proposal of this regulation (38 FR 16176), sources have been on notice for about two years that compliance schedules for indirect heat exchangers would eventually be required, and have known what control techniques would be approvable under those schedules.

Although the time required for the installation of FGD equipment is longer than that needed to switch to low-sulfur fuel, the Administrator feels that the early initial response date for the latter allows adequate time for alternative action. A facility electing to control sulfur oxides by switching to a low-sulfur fuel and subsequently failing to secure a contract for such fuel would have sufficient time for alternative action within the regulatory time constraints.

Some utilities have indicated that scheduling of off-line time for equipment modification or installation of FGD equipment within the time constraints imposed by the regulation set forth below could result in a total facility shutdown. Where this problem or other problems which may be unique to a particular facility may exist, the Administrator strongly urges that affected facilities contact EPA's Regional Office so that a

reasonable individual schedule can be developed.

The other points raised did not relate directly to the promulgation of this regulation; consequently, they are not addressed in as much detail as the first.

Two of the sources affected by the proposal requested a full-scale adjudicatory hearing on its adoption. They objected to the fact that hearing testimony was not taken under oath and the hearing was of a non-adversary type, thus, they claimed, depriving them of constitutional due process.

The issue of whether the Administrator is required by the Clean Air Act and the Administrative Procedure Act to afford a full-scale evidentiary hearing on proposed regulations such as this has been judicially settled in the U.S. Court of Appeals for the Sixth Circuit, which directed the Administrator only to give interested persons an opportunity to participate in rulemaking through the submission of written data, views, or arguments, with or without opportunity for oral presentation (see *Buckeye Power v. EPA*, 481 F.2d 162 (6th Cir. 1973)). This had been done. Therefore, there will be no adjudicatory hearing in this matter.

A third point raised was the use of an alternate control strategy. On August 15, 1974, the Administrator specifically disapproved the Kentucky plan's provision (AP 1-1(b)) pertaining to the use of alternate controls. It was the Administrator's opinion that this provision of the Kentucky plan could be construed to improperly allow intermittent control measures and/or tall stacks under circumstances where constant emission controls were available. Although the merits of that disapproval action were challenged in petitions for review filed with and still pending before the Sixth Circuit Court of Appeals, AP-1-1(b) no longer exists as part of the Kentucky regulations, its operative life having terminated as a matter of Kentucky law on July 1, 1975. Accordingly, the propriety (or lack thereof) of utilizing the pre-July 1, 1975 alternative control provisions of that section is no longer a live issue.

One comment referred to an agreement between the Administrator and the Chairman of the Energy Resources Council. The agreement, which bears the Agency's endorsement and which has been proposed as a revision to the Clean Air Act, moves toward the formulation of an Administration policy on use of alternate control strategies under certain specified conditions. Consideration of the agreement in the present context, however, would be premature at this time.

The next point raised by the comments is the availability of low-sulfur fuels. One utility provided a report on the results of its attempt to obtain low-sulfur coal for consumption at electrical generating facilities located in Western Kentucky. This report contained the following conclusions:

1. The majority of the currently developed supplies of low-sulfur coal are either committed or semi-committed (not under

contract but bound by a tacit agreement).

2. Undeveloped supplies are available through the following mechanisms:

a. Arrangements which include the purchase of mining rights by the utility.

b. Advancement by the utility of initial development capital required by owners of undeveloped reserves.

3. Contract quantities smaller than 0.5 million tons per year appear more readily available.

4. The logistics involved in transporting the fuel coal are a significant factor.

The above noted factors tend to strengthen the case for establishing an early response time for a facility electing to utilize low-sulfur fuel as a control technique. To obtain supplies that are committed or semi-committed, one must make it known that such supplies are needed and that bids would be submitted once the supplies were freed for distribution.

In short, while the acquisition of low-sulfur coal will not be easy, supplies are nevertheless competitively available.

Finally, many facilities affected by the categorical regulation on December 5, 1974, have concluded that its provisions specifically preclude the use of any control techniques except the use of low-sulfur fuel or FGD. As in his proposal of December 5, 1974, the Administrator encourages both the Commonwealth of Kentucky and sources affected by the proposal to continue the development of individual compliance schedules. These individually negotiated compliance plans may include any control technique (e.g., coal washing, blending, etc., but not an "alternate control strategy" such as tall stacks or intermittent control systems) which can be shown to satisfy the requirements of Kentucky air pollution control regulation. If the Administrator approves such schedules, the sources involved will automatically be exempt from the compliance schedule set forth below.

#### IMPLEMENTATION

The compliance schedule set forth herein requires that sources not now in compliance with Kentucky Air Pollution Control Regulation AP-4, section 1.2(2), 1.3(3), or 1.4(4), take specific action to achieve compliance by the dates specified in the State regulation. A source that is in compliance, or believes itself to be in compliance, may be exempted from this regulation and the attendant actions only by certifying compliance to the Regional Administrator by October 2, 1975. The Commonwealth of Kentucky has recently adopted, and will soon submit to EPA, a new regulatory package which, among other things, changes sulfur dioxide emission limitations. These regulations are available from the Kentucky Division of Air Pollution. For those sources which wish to certify compliance with, or submit a compliance schedule to obtain compliance with, these new regulations, the Regional Administrator will conditionally accept such certification or schedule pending approval/disapproval action on the regulatory revision. These schedules should comply with

the July 1, 1977, compliance date specified in the new regulations. Sources should, however, be aware that disapproval of the regulations would negate the certification or schedule. The Regional Administrator will, should such disapproval occur, negotiate revised compliance schedules with those sources whose certification or schedule is so voided.

For this certification, OMB Forms 159-TT5, APER forms, are to be used. These may be obtained by writing to Jesse Baskerville, Air Enforcement Branch, EPA, Region IV, 1421 Peachtree Street, Atlanta, Georgia 30309. As noted earlier, development of individual compliance schedules is encouraged. These may be submitted to EPA at any time, and, if approved by the Administrator, will exempt the source(s) involved from the schedule set forth below. Additionally, of course, all sources on schedules approved by EPA are so exempted.

In the opinion of the Administrator, this regulation will enhance the attainment and maintenance of the national ambient air quality standards in the Commonwealth of Kentucky, and it is hereby promulgated.

This action is effective October 2, 1975.

Dated: August 27, 1975.

RUSSELL E. TRAIN,  
Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

#### Subpart S—Kentucky

1. Section 52.927 is amended by adding a new paragraph (b), as follows:

§ 52.927 Compliance schedules.

(b) Federal compliance schedules.

(1) Except as provided in paragraph (b) (5) of this section, the owner or operator of any fuel-burning facility subject to the requirements of the Kentucky Air Pollution Control Regulations as they apply to sulfur dioxide sources, shall notify the Regional Administrator, by no later than November 3, 1975, of his intent to utilize either low-sulfur fuel or stack gas desulfurization to meet these requirements.

(2) Any owner or operator of a stationary source subject to paragraph (b) (1) of this section who elects to utilize low-sulfur fuel shall be subject to the following compliance schedule:

(i) December 1, 1975—Submit to the Regional Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with the applicable regulation on July 1, 1977, and for at least one year thereafter, as well as a statement as to whether boiler modifications will be required. If so, final plans for such modifications must be submitted simultaneously.

(ii) December 31, 1975—Sign contracts with fuel suppliers for projected fuel requirements as projected above.

(iii) December 31, 1975—Let contracts for necessary boiler modifications, if applicable.

(iv) January 30, 1976—Initiate onsite modifications, if applicable.

(v) May 1, 1977—Complete onsite modifications, if applicable.

(vi) July 1, 1977—Achieve compliance with the applicable regulations, and certify such compliance to the Regional Administrator.

(3) Any owner or operator subject to subparagraph (1) of this paragraph who elects to utilize stack gas desulfurization shall be subject to the following compliance schedule:

(i) December 1, 1975—Submit to the Regional Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) December 31, 1975—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modifications.

(iii) January 30, 1976—Initiate onsite construction or installation of emission control equipment or process modification.

(iv) May 1, 1977—Complete onsite construction or installation or emission control equipment or process modification.

(v) July 1, 1977—Complete shutdown operations and performance tests for the applicable unit(s); achieve compliance with Kentucky Division of Air Pollution Regulation for sulfur dioxide sources and certify such compliance to the Regional Administrator. Ten days prior to any performance testing, notice must be given to the Regional Administrator to afford him the opportunity to have an observer present.

(4) Five days after the deadline for completing increments in paragraphs (b) (2) (i) through (b) (2) (v) and (b) (3) (i) through (b) (3) (iv) of this section, certify to the Regional Administrator whether the increment has been met.

(5) (i) None of the above subparagraphs shall apply to a source which is presently in compliance with applicable regulations. The owner or operator of any fuel-burning facility with an aggregate heat input of more than 250 million BTU per hour which is presently in compliance, shall certify such compliance to the Regional Administrator by November 3, 1975. The Regional Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to a compliance schedule in this paragraph may submit to the Regional Administrator no later than December 1, 1975, a proposed alternative compliance sched-

ule. No such compliance schedule may provide for final compliance after the final compliance date in the applicable compliance schedule of this paragraph. If approved by the Administrator, such schedule shall satisfy the requirements of this paragraph for the affected source.

(6) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of a compliance schedule in this paragraph fails to satisfy the requirements of § 51.15 (b) and (c) of this chapter.

(Sec. 110(c), Clean Air Act, as amended (42 U.S.C. 1857c-5(c)))

[FRL 423-5]

#### PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

##### Maintenance of National Ambient Air Quality Standards; Correction

In the FEDERAL REGISTER of June 19, 1975 (40 FR 25814), EPA amended 40 CFR 51.12 regarding the maintenance of national ambient air quality standards (NAAQSs). The action rescinded the June 18, 1975, date for submission of analyses and plans required to ensure maintenance of the NAAQSs in air quality maintenance areas (AQMA) identified under 40 CFR 51.12. The regulations as amended required submission of the AQMA analyses and plans on individual schedules to be established by the Administrator for each AQMA. The reader can consult that FEDERAL REGISTER notice for more background information on this matter. After that action was published, EPA learned that it had overlooked the fact that 40 CFR 52.22(a) (the disapproval of all implementation plans for failing to provide adequately for maintenance of the NAAQSs) refers to the June 18, 1975, date for submission of the AQMA analyses and plans. EPA had neglected to delete reference to this date in the June 19, 1975, action. The action herein corrects the June 19, 1975 action by the publishing of a conforming amendment that deletes this reference.

In the FEDERAL REGISTER of Thursday, June 19, 1975, the following should be added on page 25815 after the amendment to 40 CFR 51.12:

#### PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

##### Maintenance of National Ambient Air Quality Standards

§ 52.22 Amended.

40 CFR Part 52, Chapter I is amended by deleting the last sentence of § 52.22(a).

Dated: August 25, 1975.

EDWARD F. TUERKE,  
Acting Assistant Administrator  
for Air and Waste Management.

[FR Doc. 75-23070 Filed 8-29-75; 8:45 am]

#### SUBCHAPTER E—PESTICIDE PROGRAMS

[OPP-300005A; FRL 422-3]

#### PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

##### Exemptions from Requirement of a Tolerance for Certain Inert Ingredients in Pesticide Formulations

On July 18, 1975, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (40 FR 30289) notice of proposed rulemaking to amend 40 CFR 180.1001 to exempt certain pesticide chemicals which are additional inert (or occasionally active) ingredients in pesticide formulations from tolerance requirements under the provisions of section 408(e) of the Federal Food, Drug, and Cosmetic Act. No comments or requests for referral to an advisory committee were received with regard to this notice, and it has, therefore, been concluded that the amendment to the regulations (40 CFR 180.1001) be adopted as proposed with editorial changes as noted.

Any person adversely affected by this regulation may, on or before October 2, 1975, file written objections with the Hearing Clerk, Environmental Protection Agency, Room 1019, East Tower, 401 M St. SW., Washington, D.C. 20460. Such objections should be submitted in triplicate and should specify both the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on September 2, 1975, Part 180, Subpart D, § 180.1001, is amended as set forth below.

Dated: August 26, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

(Section 408(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a (e)).

Part 180, § 180.1001 is amended by (1) revising the item "Castor oil . . ." in paragraphs (c) and (e), the item "Dodecylphenol . . ." in paragraph (d), and the item "Sodium monoalkyl . . ." in paragraph (c); (2) deleting the items "Calcium chloride . . ." and "Octyl and decyl . . ." from paragraph (d); (3) alphabetically inserting new items in paragraphs (c), (d), and (e); and (4) making the consequent editorial changes. The proposed regulation as published is editorially revised by inserting five asterisks between the words "Castor oil . . ." and "dodecylbenzenesulfonic acid . . ." in paragraph (e), and replacing the abbreviation "Do." in the "Uses" column opposite the words "Dodecylbenzenesulfonic acid . . ." in paragraph (e) with the words "Surfactants, related adjuvants of surfactants" to read as follows:

#### § 180.1001 Exemptions from the requirement of a tolerance.

(c) . . .

Inert Ingredients	Limits	Uses
Calcium chloride . . . . .		Stabilizer.
Calcium citrate . . . . .		Solid diluent, carrier.
Castor oil, polyoxyethylated; the poly(oxyethylene) content averages 5-54 moles. . . . .		Surfactants, related adjuvants of surfactants.
Dodecylbenzenesulfonic acid, amine salts . . . . .		Surfactants, related adjuvants of surfactants.
Hexamethylenetetramine . . . . .	For use in citrus washing solutions only at not more than 1 percent.	Preservative.
Octyl and decyl glucosides mixture with a mixture of octyl and decyl oligosaccharides and related reaction products (primarily n-decanol) produced as an aqueous-based liquid (68-72 percent solids) from the reaction of straight chain alcohols (C <sub>12</sub> (45 percent), C <sub>16</sub> (55 percent)) with anhydrous glucose. . . . .		Surfactants, related adjuvants of surfactants.
Polyglycerol esters of fatty acids conforming to title 21, sec. 121.120. . . . .		Surfactants, related adjuvants of surfactants.
Poly(vinylpyrrolidone); molecular weight 40,000 or over . . . . .		Surfactants, related adjuvants of surfactants.
Sodium monoalkyl and dialkyl (C <sub>8</sub> -C <sub>16</sub> ) phenoxylbenzene disulfonate mixtures containing not less than 70 percent of monoalkylated product. . . . .		Surfactants, related adjuvants of surfactants.
Sodium mono- and dimethyl naphthalene sulfonates, molecular weight 245-260. . . . .		Surfactants, related adjuvants of surfactants.
Zinc stearate (basic and monohydrate) . . . . .		Solid diluent, carrier.

(d) . . .

Inert Ingredients	Limits	Uses
Acrylamide-acrylic acid resins . . . . .		Thickeners.
Acrylamide-sodium acrylate resins . . . . .		Do.
Barium sulfate . . . . .		Carrier.
Coffee . . . . .		Attractant.
Dodecylphenol . . . . .		Coupling agent in emulsifier.
Isobutylene-butene copolymers . . . . .	For soil application only	Binder.

(e) . . .

Inert Ingredients	Limits	Uses
Acetylated lanolin alcohol . . . . .		Moisturizer.
Calcium chloride . . . . .		Stabilizer.
Castor oil, polyoxyethylated; the poly(oxyethylene) content averages 5-54 moles. . . . .		Surfactants, related adjuvants of surfactants.
Dodecylbenzenesulfonic acid, amine salts . . . . .		Surfactants, and related adjuvants of surfactants.
Octyl and decyl glucosides mixture with a mixture of octyl and decyl oligosaccharides and related reaction products (primarily n-decanol) produced as an aqueous-based liquid (68-72 percent solids) from the reaction of straight chain alcohols (C <sub>12</sub> (45 percent), C <sub>16</sub> (55 percent)) with anhydrous glucose. . . . .		Surfactants, related adjuvants of surfactants.

## Department of the Interior

## Title 43—Public Lands: Interior

## CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF INTERIOR

## APPENDIX—PUBLIC LAND ORDERS

[P.L.O. 5512; Colorado 8840]

## COLORADO

## Partial Revocation of Powersite Reserve No. 27, Powersite Restoration No. 678

By virtue of the authority vested in the President by section 1 of the Act of June 25, 1910, 36 Stat. 847; 43 U.S.C. 141, and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), and the determination of the Federal Power Commission in DA-493-Colorado, it is ordered as follows:

1. The departmental order of July 7, 1909, creating temporary Powersite Withdrawal No. 27, as confirmed by Executive Order of July 2, 1910, is hereby revoked so far as it affects the following described lands:

New Mexico Principal Meridian

T. 51 N., R. 1 E.,  
Sec. 11, SE $\frac{1}{4}$ SE $\frac{1}{4}$ ;  
Sec. 13, lot 3, S $\frac{1}{2}$ SW $\frac{1}{4}$ ;  
Sec. 22, NE $\frac{1}{4}$ SE $\frac{1}{4}$ , S $\frac{1}{2}$ SE $\frac{1}{4}$ ;  
Sec. 27, NW $\frac{1}{4}$ NE $\frac{1}{4}$ .

The areas described aggregate approximately 319.75 acres in Gunnison County.

2. All of the above described lands were restored to entry, location or selection, and subsequently patented, subject to section 24 of the Federal Power Act of June 10, 1920, 41 Stat. 1063, 1075.

JACK O. HORTON,

Assistant Secretary of the Interior.

August 26, 1975.

[P.L.O. 5511; New Mexico 10953]

## NEW MEXICO

## Withdrawal for National Forest Recreation Area; Partial Revocation of Public Land Order No. 4643

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the mining laws, 30 U.S.C., Ch. 2, but not from leasing under the mineral leasing laws, in aid of programs of the Department of Agriculture:

GILA NATIONAL FOREST

Principal Meridian

Lake Roberts Recreation Area

T. 15 S., R. 13 W.,  
Sec. 2, S $\frac{1}{2}$ NE $\frac{1}{4}$ .

The area described contains 80 acres in Grant County.

2. The withdrawal made by this order does not alter the applicability of those

public land laws governing the use of the national forest lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

3. Public Land Order No. 4643 of April 18, 1969, reserving lands within the Gila National Forest for use of the Forest Service as a recreation area is hereby revoked so far as it affects the following described land:

PRINCIPLE MERIDIAN

Lake Roberts Recreation Area

T. 15 S., R. 13 W., Sec. 2, SE $\frac{1}{4}$ SW $\frac{1}{4}$ .

Containing 40 acres in Grant County.  
4. At 10 a.m. on October 1, 1975, the land described in paragraph 3 of this order shall be open to such forms of disposition as may by law be made of national forest land.

JACK O. HORTON,

Assistant Secretary of the Interior.

August 26, 1975.

[FR Doc. 75-23145 Filed 8-29-75; 8:45 am]

[P.L.O. 5513; NM-12720]

## NEW MEXICO

## Withdrawal of National Forest Lands for Bird Habitat and Research Natural Area

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the mining laws, 30 U.S.C., Ch. 2, but not from leasing under the mineral leasing laws in aid of programs of the Department of Agriculture:

GILA NATIONAL FOREST

Principal Meridian

Gila River Bird Habitat and Natural Area

T. 17 S., R. 17 W.,  
Sec. 9, N $\frac{1}{2}$ NE $\frac{1}{4}$ , SE $\frac{1}{4}$ NE $\frac{1}{4}$ , SE $\frac{1}{4}$ SW $\frac{1}{4}$ ,  
N $\frac{1}{2}$ SE $\frac{1}{4}$ , SW $\frac{1}{4}$ SE $\frac{1}{4}$ ;  
Sec. 10, W $\frac{1}{2}$ NW $\frac{1}{4}$ ;  
Sec. 16, W $\frac{1}{2}$ E $\frac{1}{4}$ , W $\frac{1}{2}$ ;  
Sec. 17, NE $\frac{1}{4}$ SE $\frac{1}{4}$ ;  
Sec. 21, W $\frac{1}{2}$ E $\frac{1}{4}$ , W $\frac{1}{2}$ ;  
Sec. 27, W $\frac{1}{2}$ W $\frac{1}{2}$ ;  
Sec. 28, E $\frac{1}{2}$ , N $\frac{1}{2}$ NW $\frac{1}{4}$ ;  
Sec. 32, E $\frac{1}{2}$ E $\frac{1}{4}$ ;  
Sec. 33, N $\frac{1}{2}$ , W $\frac{1}{2}$ SW $\frac{1}{4}$ .

The area described aggregates approximately 2,480 acres in Grant County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

JACK O. HORTON,

Assistant Secretary of the Interior.

## Title 45—Public Welfare

## SUBTITLE A—DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, GENERAL ADMINISTRATION

## PART 30—CLAIMS COLLECTION

## Delegation of Authority

In order to reflect the redelegation by the Department Claims Officer of additional authority to compromise, suspend, and terminate, pursuant to the Federal Claims Collection Act of 1966 as amended (31 U.S.C. 951-953) claims of less than \$800, as well as other redelegations which are in effect, § 30.3 of Title 45 of the Code of Federal Regulations, 33 FR 17292, November 22, 1968) is hereby amended. Since the amendment herein involves internal management, notice and public procedure thereon are impracticable, unnecessary, and contrary to the public interest under 5 U.S.C. (b) (5). The amendment herein is therefore made without a period for public comment. The amendment reads as follows:

## § 30.3 Delegation of Authority.

(a) The Secretary delegated to the Department Claims Officer the authority to perform the duties vested in him by the Federal Claims Collection Act of 1966 (31 U.S.C. 951-953) as amended, except with respect to erroneous payments under Titles II and XVIII of the Social Security Act.

(b) The Department Claims Officer shall compromise, suspend or terminate claims referred to him after administrative collection efforts have been exhausted in accordance with the provisions of this part.

(c) The appropriate office, local, regional or headquarters, shall take all necessary administrative action required under the Act and Joint Regulations, except that, with respect to claims of \$800 or more, no compromise of a claim shall be effected, nor collection action suspended or terminated without the prior approval of the Department Claims Officer, or the following specific delegates:

(1) The Deputy Assistant General Counsel, Business and Administrative Law Division, Office of General Counsel;  
(2) The Chief, Litigation and Claims Branch, Business and Administrative Law Division, Office of General Counsel;  
(3) The Regional Attorneys except with respect to claims arising out of activities of the Public Health Service.

*Effective date.* This amendment is effective August 22, 1975.

Dated: August 22, 1975.

BERNARD FEINER,  
Department Claims Officer.

[FR Doc. 75-23124 Filed 8-29-75; 8:45 am]

## PART 46—PROTECTION OF HUMAN SUBJECTS

## Fetuses, Pregnant Women, in Vitro Fertilization

## Correction

In FR Doc. 75-20474, appearing at page 33526 in the issue for Friday, August 8, 1975, make the following changes:

1. On page 33526, in the third column, the second full paragraph, the ninth line from the bottom should read: "of this subpart by the Ethical Advisory".

2. On page 33527, in the second column, paragraph B, the third line, the word "on" should read "or".

## Title 46—Shipping

## CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

## SUBCHAPTER D—TANK VESSELS

## SUBCHAPTER F—MARINE ENGINEERING

[CGD 73-254]

## MARINE ENGINEERING SYSTEMS AND COMPONENTS

## Miscellaneous Amendments

On April 3, 1975, a document was published in the FEDERAL REGISTER (40 FR 14935) proposing to update Coast Guard marine engineering regulations to reflect revisions in the American National Standard Code for Pressure Piping (ANSI B31.1 Power Piping) and The American Society of Mechanical Engineers Boiler and Pressure Vessel Code.

A public hearing was held on April 30, 1975, and interested persons were given until May 15, 1975, to submit written comments. A total of nine comments were received. After full and careful consideration of each comment, the proposal was revised, as set forth below.

Four written comments questioned the need to specify, in § 56.97-30, the temperature for the material and test medium. In consideration of these comments and a pending change to ANSI B31.1, the requirements for a temperature of 70° F. or higher has been deleted.

One written comment questioned requiring water as the only test medium for the hydrostatic leak test in § 56.97-30. The comment indicated that under certain circumstances, such as low ambient temperatures, mediums other than water would be more suitable and the test results would be equally valid. This section has been revised to allow the use of other mediums, if they are specifically approved by the Commandant.

Another written comment questioned the need for galvanized or extra heavy pipe in § 56.60-3(a). This amendment relocates an already existing regulation in § 56.60-5(e) and makes no substantive change. However, the Coast Guard considers this comment to be a petition for the amendment or repeal of a rule under 5 U.S.C. 553(e), and will evaluate the need for galvanized or extra-heavy piping in future public rulemaking.

Three written comments questioned the prohibition, in § 56.50-60(g), on placing means for draining cargo pumps and

piping in pump rooms. A number of objections to the prohibition were also raised at the public hearing. The operational requirements of some types of tank vessels necessitate the removal of all traces of cargo from tanks, piping and pumps. The lowest points in these piping systems are located in pump rooms; the location of drains in pump rooms would facilitate the required cleaning of these piping systems. Accordingly, the prohibition on drains in pump rooms has been removed from this amendment to the regulations, but this matter will be further evaluated and be made the subject of future public rulemaking.

In consideration of the foregoing, 46 CFR Chapter I is amended as set forth below.

(46 U.S.C. 375, 391a, 416; 49 U.S.C. 1655(b) (1), 49 CFR 1.46(b))

*Effective date.* These amendments become effective on September 29, 1975.

Dated: August 20, 1975.

O. W. SILER,

Admiral,

U.S. Coast Guard Commandant.

## PART 32—SPECIAL EQUIPMENT MACHINERY AND HULL REQUIREMENTS

1. In § 32.50-5, the heading has been revised and paragraph (a) is revoked and reserved to read as follows:

§ 32.50-5 Cargo pump gauges on tank vessels constructed on or after November 10, 1936—TB/ALL.

(a) [Reserved]

## PART 35—OPERATIONS

§ 35.25-10 [Amended]

2. In § 35.25-10(a), change the figure "150° F" to read "140° F".

## PART 50—GENERAL PROVISIONS

§ 50.25-30 [Amended]

3. In § 50.25-30, change the last word of the title from "pressures" to "pressure" and change the reference to § 56.35-10 in paragraph (a) to read "§ 56.35-15."

## PART 52—POWER BOILERS

§ 52.01-1 [Amended]

4. The table in § 52.01-1(a) is amended by striking lines 8 through 10 which refer to PG-63 through PG-65 and by revising the 37th line to read: "PR-30 through PR-40 modified by ----- 52.10-15".

§ 52.01-90 [Amended]

5. In § 52.01-90(d) change "(Modified PG-5.5.1)" to read "(Modifies PG-5.5)" and in paragraph (e) strike "(Modifies PG-5.5.2)", the entire first sentence and revise the remaining sentence to read:

"Non-ferrous materials are not permitted for pipes up to the first joint on all outlets but are permitted for instrument piping and may be used in blowoff

or drain service provided pressure is below 250 pounds per square-inch gage and temperature is below 400° F."

6. In § 52.01-100, by revising the title to read as follows:

§ 52.01-100 Openings and compensation (modifies PG-32 through PG-39, PG-43 through PG-55, replaces PG-42).

7. Add a new paragraph (h) to § 52.01-110 to read as follows:

§ 52.01-110 Water level indicators, water columns, gage glass connections, gage cocks, and pressure gages (modifies PG-60).

(h) (Modifies PG-60) Piping referred to in this section must meet the requirement of Part 56 of this subchapter.

§ 52.05-45 [Amended]

8. In § 52.05-45(b), revise the parenthetical phrase in the last line to read as follows: "(PW-41.1.1-PW-41.1.4)."

§ 52.10-15 [Amended]

9. In § 52.10-15, revise the parenthetical phrase in the heading to read as follows: "(modifies PR-30 through PR-40)".

10. Section 52.20-17 is added to read as follows:

§ 52.20-17 Opening between boiler and safety valve (Modifies PT-14).

(a) When a discharge pipe is used, it must be installed in accordance with the requirements of Part 56 of this chapter.

## PART 53—HEATING BOILERS

§ 53.10-3 [Amended]

11. In § 53.10-3(a), by revising the parenthetical phrase in the last line to read as follows: "(See HG-510 and HC-410 of the ASME Code.)"

## PART 54—PRESSURE VESSELS

§ 54.01-1 [Amended]

12. In Table 54.01-1(a), revise the third line to read as follows:

U-1(d) replaced by ----- 54.01-5(a) and 54.01-15 and insert the following new line between the present eighth and ninth lines: UG-28 modified by ----- 54.01-40.

13. Section 54.05-5(a) is amended by revising the sixth and seventh sentences to read as follows:

§ 54.05-5 Toughness test specimens.

(a) . . . Except where otherwise specified, transversely oriented specimens must be used. When longitudinal specimens are used, the required energy values may not be less than 1.5 times the values required for transversely oriented specimens. . . .

14. Section 54.05-10 is amended by replacing the fourth and fifth sentences of paragraph (a) with one new sentence and by making an addition to the last sentence of paragraph (d) to read as follows:

### § 54.05-10 Certification of material toughness tests.

(a) . . . The long axis of the Charpy specimen must be perpendicular to the final direction of rolling.

(d) . . . with the axis of the specimens parallel to the axis of the bar or shape.

15. In § 54.05-17, revise (a) (1), (2), and (3) to read as follows:

### § 54.05-17 Weld toughness test acceptance criteria.

(1) For weld metal specimens, not less than the transverse values required for the parent material.

(2) For heat affected zone specimens, when the specimens are transversely oriented, not less than the transverse values required for the parent material.

(3) For heat affected zone specimens, when the specimens are longitudinally oriented, not less than 1.5 times the transverse values required for the parent material.

16. Section 54.05-20 is revised to read as follows:

### § 54.05-20 Impact test properties for service of 0° F and below.

(a) *Test energy.* The impact energies of each set of transverse Charpy specimens may not be less than the values shown in Table 54.05-20(a). Only one specimen in a set may be below the required average and the value of that specimen must be above the minimum impact value permitted on one specimen only. See § 54.05-5(a) for retest requirements.

TABLE 54.05-20 (a)—Charpy impact test requirements

Specimen	Minimum impact value required for average of each set of 3 specimens, foot-pounds	Minimum impact value permitted on one specimen only of a set, foot-pounds
10 x 10 mm.....	20.0	13.5
10 x 7.5 mm.....	16.5	11.0
10 x 5 mm.....	13.5	9.0
10 x 2.5 mm.....	10.0	6.5

Interpolated values for intermediate sizes are permitted.

(b) Transversely oriented Charpy V-notch impact specimens of ASTM A-203 nickel steels must exhibit energies not less than the values shown in § 54.05-20 (a). Requirements for 9 percent nickel steels are contained in § 54.25-20. Other nickel alloy steels, when specially approved by the Commandant, must exhibit a no-break performance when tested in accordance with the drop weight procedure. If, for such materials, there are data indicating suitable correlation with drop-weight tests, Charpy V-notch tests may be specially considered by the Commandant in lieu of drop-weight tests. If the drop-weight test cannot be performed because of material

thickness limitations (less than one-half inch), or product shape, or is otherwise inapplicable (because of heat treatment, chemistry etc.) other tests or test criteria will be specified by the Commandant.

(c) Where sufficient data are available to warrant such waiver, the Commandant may waive the requirements for toughness testing austenitic stainless steel materials. Where required, austenitic stainless steels are to be tested using the drop-weight procedure and must exhibit a no-break performance. Where data are available indicating suitable correlation of Charpy V-notch results with drop-weight NDT or no-break performance, Charpy V-notch tests may be specially considered by the Commandant in lieu of drop-weight tests. If the drop-weight test cannot be performed because of material thickness limitations (less than one-half inch), or product shape, or is otherwise inapplicable (because of heat treatment, chemistry, etc.) other tests and/or test criteria will be specified by the Commandant.

17. Section 54.05-25 is revoked and reserved.

### § 54.10-17 [Amended]

18. In § 54.10-17, strike out the words "and (5) (d)" in the first sentence.

### § 54.20-10 [Amended]

19. In § 54.20-10(a), insert a semicolon between the words "radiograph" and "and".

20. Section 54.25-15(b) is amended by making an addition to the last sentence to read as follows:

§ 54.25-15 Low temperature operation—high alloy steels (modifies VIIA-23 (b) and UHA-51).

(b) . . . except that the Charpy V-notch testing acceptance criteria will be in accordance with UHT-6(a) (4) and (5) of the ASME Code."

## PART 56—PIPING SYSTEMS AND APPURTENANCES

21. A new § 56.01-3 is added to read as follows:

### § 56.01-3 Power boiler external piping (Replaces 100.1.1, 100.1.2, 102.1.7, 111.6, 122.1, 132 and 133).

(a) Piping system components associated with power boilers are covered by the requirements of this part and §§ 52.01-105, 52.01-110, 52.01-115, and 52.01-120.

(b) Specific requirements for power boiler external piping and appurtenances, as defined in §§ 100.1.1 and 100.1.2, appearing in the various paragraphs of ANSI-B31.1, are, therefore, not adopted unless otherwise specifically indicated elsewhere in this part.

### § 56.01-5 [Amended]

22. The table in § 56.01-5(a) is amended by revising the first line and re-

locating it between the present third and fourth line to read as follows:

101 through 104.7 modified by ----- 56.07-10

### § 56.04-2 [Amended]

23. In Table § 56.04-2, under "Class B and C poisons", amended by striking out the lines "II ----- not permitted; and "II-L ----- not permitted" and inserting the following two lines in place thereof: "II ----- not permitted except inside cargo tanks approved for Class B and C poisons," and "II-L ----- not permitted except inside cargo tanks approved for Class B and C poisons."

24. In § 56.07-10, the first and second sentence of paragraph (c) and the seventh sentence of paragraph (e) are amended as follows:

### § 56.07-10 Design conditions and criteria (modifies 101 through 104.7).

(c) . . . In Class I, I-L, II-L and nuclear piping systems, where the effect of . . . Where these factors are not considered for such systems, the maximum allowable stress will be 80 percent of the tabulated value for all materials.

(e) . . . For Class I, I-L, II-L and nuclear piping systems . . .

25. A new § 56.20-1(d) is added to read as follows:

### § 56.20-1 General.

(d) Where liquid trapped in a closed valve can be heated, and uncontrollable rise in pressure can result, means must be provided in the design, installation and operation of the valve to ensure that the pressure in the valve does not exceed that allowed by this part for the attained temperature (An example might be a flexible wedge gate valve, installed with the stem horizontal; should the valve be closed while liquid from testing, cleaning or condensation of fluid fills the valve this liquid would be trapped in the bonnet section of the closed valve). Any resulting penetration of the pressure wall of the valve must meet the requirements of this part and of drains in ANSI-B16.5.

### § 56.30-10 [Amended]

26. Section 56.30-10(b) (3) is amended by striking out the words "exceeding 4 inches nominal pipe size" in the first sentence.

(b) Revising the words "or Class II" in the first sentence to read "Class II, or Class II-L".

(c) And striking out the second sentence entirely.

### § 56.30-20 [Amended]

27. In table 56.30-20(c) the heading is revised and a second footnote is added to read as follows:

TABLE 56.30-20(c)—THREADED JOINTS<sup>1,2</sup>

28. In § 56.50-15, paragraph (e) is revised to read as follows:

<sup>1</sup>Size limits are not applicable to hydraulic systems.

### § 56.50-15 Steam and exhaust piping.

(e) Main and auxiliary steam stop valves must be readily accessible, operable by one person and arranged to seat against boiler pressure.

### § 56.50-40 [Amended]

29. Section 56.50-40(a) (1) is amended by striking out the words "and drain" in the first sentence.

30. In § 56.50-60, strike out the last sentence of paragraph (f) and add new paragraph (g) to read as follows:

### § 56.50-60 Cargo oil systems and fuel oil systems for boilers and internal combustion engines; transfer systems, and general arrangement.

(g) Test cocks must not be fitted to fuel oil or cargo oil tanks.

31. In § 56.50-97, paragraph (a) is revised to read as follows:

### § 56.50-97 Instrument, control and sampling piping (modifies 122.3).

(a) Instrument, control and sampling piping must comply with paragraph 122.3 of ANSI-B31.1 except that:

(1) Soldered type fittings may not be used

(2) The outside diameter of takeoff connections may not be less than 0.840 inches for service conditions up to 900 psi or 800° F, and 1.050 inches for conditions that exceed either of these limits.

### § 56.50-105 [Amended]

32. In § 56.50-105(b) (3), strike out the period at the end of the second sentence and add the words "where the weld thickness does not exceed that exempted by this table."

33. In Table 56.50-105, by revising the title to read as follows:

TABLE 56.50-105—ACCEPTABLE MATERIALS AND TOUGHNESS TEST CRITERIA<sup>1</sup>

### § 56.60-1 [Amended]

34. In Table 56.60-1(a):

(a) In the first item under "Casting, iron:" strike out "UCN-23" and insert "UCD-23" in place thereof;

(b) In Note 13 strike out "UCN-23" and insert "UCD-23" in place thereof;

(c) In Note 14 strike out "UCN3" and insert "UCD-3" in place thereof;

(d) In the second item under "Tubes, seamless and welded," revise the description of A334 to read as follows: "A334 Seamless and welded (no added filler metal) carbon and low alloy tubing for low temperature"; and

(e) In the final item, under "Castings, iron," strike out "UCN-23" and insert "UCD-23" in place thereof.

<sup>1</sup>Other material specifications for product forms acceptable under Part 54 for use at low temperatures may also be used for piping systems provided the applicable toughness requirements of this Table are also met.

35. In Table 56.60-1(b), by:

(a) Strike out the line "B16.2 C.I. Flanges and Fittings 250 lb." under ANSI Standards.

(b) Revise the line "B16.1 -----" under ANSI Standards to read: "B16.1 C.I. Flanges and Fittings—125 and 250 lbs."

(c) Under B16.3, B16.4 and B16.15, strike out "Sec." and insert "Threaded" in place thereof.

(d) Revise the address of the Fluid Controls Institute to read: "(Fluid Controls Institute, Inc., 12 Bank Street, Summit, New Jersey, 07901)"

(e) Strike out the following listed MSS Standards: SP-46, SP-48, SP-49, SP-50, SP-54, SP-59 and SP-63; and by

(f) Add the line "SP-69 Pipe Hangers and Supports—Selection and Application", under MSS Standards.

36. Section 56.60-2 (a) is amended by revising the second sentence to read as follows:

### § 56.60-2 Ferrrous materials.

(a) . . . Further limitations on allowable stress values are contained in paragraphs 56.07-10(c) and (e). . .

37. A new § 56.60-3 is added to read as follows:

### § 56.60-3 Ferrrous Materials.

(a) Ferrrous pipe used for salt water service must be protected against corrosion by hotdip galvanizing or by the use of extra heavy schedule material.

(b) (Reproduces 123.2.3(c)). Carbon or alloy steel having a carbon content of more than 0.35 percent may not be used in welded construction or be shaped by oxygen cutting process or other thermal cutting process.

38. In § 56.60-5 paragraphs (c) and (e) are revoked and reserved as follows:

### § 56.60-5 Steel (high temperature applications).

(c) [Reserved]

(e) [Reserved]

### § 56.60-10 [Amended]

39. In § 56.60-10(a), in the last sentences by striking out the words "and B16.2."

### § 56.60-15 [Amended]

40. In § 56.60-15(a) (1) is amended in the first sentence by striking out the words "B16.2."

### § 56.60-25 [Amended]

41. In § 56.60-25(e) is amended by inserting the following sentence before the present final sentence: "Joint movements may not exceed the limits set by the joint manufacturer."

42. Section 56.70-5(a) is revised to read as follows:

### § 56.70-5 Material.

(a) *Filler metal.* All filler metal, including consumable insert material, must comply with the requirements of

section IX, ASME Boiler and Pressure Vessel Code and § 57.02-4 of this subchapter.

43. A new § 56.70-3 is added to read as follows:

### § 56.70-3 Limitations.

(a) Backing rings. Backing strips used at longitudinal welded joints must be removed.

44. Section 56.70-10 is amended by inserting the words "or outside" after the word "inside" in the second sentence of (a) (1) (iii), by revising (a) (3) and by inserting an additional sentence in front of the first sentence of paragraph (b) to read as follows:

### § 56.70-10 Preparation (reproduces 127.3).

(a) . . .

(3) *Alignment.* The inside diameters of piping components to be joined must be aligned as accurately as practicable within existing commercial tolerances on diameters, wall thicknesses, and out of roundness. Alignment must be preserved during welding. Where ends are to be joined and the internal misalignment exceeds 1/16-inch, it is preferred that the component with the wall extending internally be internally trimmed (see Fig. 127.3.1) so that adjoining internal surfaces are approximately flush. However, this trimming must not reduce a piping component wall thickness below the minimum design thickness and the change in the contour may not exceed 30°.

(b) In making fillet welds, the weld metal must be deposited in such a way as to obtain adequate penetration into the base metal at the root of the weld. . . .

### § 56.70-15 [Amended]

45. Section 56.70-15 is amended as follows:

a. By revising § 56.70-15(b) (1) to read as follows:

(b) *Girth butt welds.* (1) (Reproduces 127.4.2(a)). Girth butt welds must be complete penetration welds and may be made with a single vee, double vee, or other suitable type of groove, with or without backing rings or consumable inserts."

b. In § 56.70-15(b) (2), by inserting: ". . . (note restrictions in subdivision (iv) of this subparagraph) . . ." between the words "ring" and "on" in the second sentence; and by inserting after the last sentence: "Ultrasonic testing may be utilized in lieu of radiographic examination if the procedures are approved."

c. In § 56.70-15(b) (3), by inserting the following sentence before the last sentence: "Their stopping and starting ends must be properly prepared by grinding or other suitable means so that they may be satisfactorily incorporated into the final weld."

d. By revising § 56.70-15 (b) (5), (b) (6), (c) (2) and (f) to read as follows:

## RULES AND REGULATIONS

(b) . . . .

(5) (Reproduces 127.4(c)). When components of different outside diameters are welded together, the weld joint must be filled to the outside surface of the component having the larger diameter. There must be a gradual transition, not exceeding a slope of 1:3, in the weld between the two surfaces. To avoid unnecessary weld deposit, the outside surface of the component having the larger diameter must be tapered at an angle not to exceed thirty degrees with the axis of the pipe. (See Fig. 127.4.2.)

(6) (Modifies 127.4.2(d)). As-welded surfaces are permitted, however, the surface of welds must be sufficiently free from coarse ripple, grooves, overlaps, abrupt ridges and valleys to meet the following:

(i) The surface condition of the finished welds must be suitable for the proper interpretation of radiographic and other nondestructive examinations when nondestructive examinations are required by § 56.95-10. In those cases where there is a question regarding the surface condition on the interpretation of a radiographic film, the film must be compared to the actual weld surface for interpretation and determination of acceptability.

(ii) Reinforcements are permitted in accordance with Table 56.70-15.

(iii) Undercuts must not exceed 1/32-inch and must not encroach on the minimum required section thickness.

(iv) If the surface of the weld requires grinding to meet the above criteria, care must be taken to avoid reducing the weld or base material below the minimum required thickness.

(e) Seal welds. . . . .

(2) The limitation on cracks and undercutting set forth in § 56.70-15(b) (8) for girth welds are also applicable to seal welds.

(f) Weld defect repairs (Reproduces 127.4.11q). (1) All defects in welds requiring repair must be removed by flame or arc gouging, grinding, chipping, or machining. Repair welds must be made in accordance with the same procedure used for original welds or by another welding process if it is a part of a qualified procedure, recognizing that the cavity to be repaired may differ in contour and dimensions from the original joint. The types, extent and method of examination and limits of imperfections of repair welds must be the same as for the original weld.

(2) Preheating may be required for flame-gouging or arc-gouging on certain alloy materials of the air hardening type in order to prevent surface checking or cracking adjacent to the flame or arc-gouged surface.

e. In § 56.70-15(g) (2), by inserting the words "and F" after the words "Fig. 127.4.8D" in the last sentence.

f. In § 56.70-15(g) (3), in the first sentence by inserting the words "and F"

after the words "Fig. 127.4.8D", and by inserting "t<sub>w</sub>=dimension of partial penetration weld, inches," as a separate line after "t<sub>min</sub>=the smaller of t<sub>1</sub> or t<sub>2</sub>."

g. In § 56.70-15(g) (4), by striking out the period at the end of the first sentence and inserting the words "except as otherwise permitted in subparagraph 56.70-15(g) (7) of this paragraph."

h. By adding a new § 56.70-15(g) (7) as follows:

TABLE 56.70-15.—Reinforcement of girth and longitudinal butt welds

Thickness of base metal (inch)	Maximum thickness of reinforcement for design temperature (inches) below 0° F. or above—		
	750° F.	350° to 750° F.	0° F. and above but less than 350° F.
Up to 1/8, inclusive	1/8	3/32	3/16
Over 1/8 to 1/4, inclusive	1/8	1/4	3/16
Over 1/4 to 3/8, inclusive	1/8	3/32	3/16
Over 3/8 to 1, inclusive	3/32	3/16	3/16
Over 1 to 2, inclusive	1/4	1/4	3/16
Over 2	3/8	(1)	(1)

1 The greater of 1/4 in. or 1/3 times the width of the weld in inches.

## NOTES

- For double welded butt joints, this limitation on reinforcement given above applies separately to both inside and outside surfaces of the joint.
- For single welded butt joints, the reinforcement limits given above apply to the outside surface of the joint only.
- The thickness of weld reinforcement is based on the thickness of the thinner of the materials being joined.
- The weld reinforcement thicknesses must be determined for the higher of the abutting surfaces involved.
- For boiler external piping use the column titled "Below 0° F. or above 750° F. for weld reinforcement thicknesses."

46. Section 56.80-15(e) is amended by inserting the word "heat" between the words "the" and "treatment" and by adding the following new paragraph (g) as follows:

§ 56.80-15 Heat treatment of heads and formed components.

(g) (Reproduces 129.3.6). Austenitic stainless steel pipe that has been heated for bending or other forming may be used in the "as-bent" condition unless the design specification requires post bending heat treatment.

47. Section 56.85-10 is amended by revising paragraphs (a) and (b) and Table 56.85-10 and by revoking and reserving paragraph (d) to read as follows:

(7) Branch connections 2 in. NPS and smaller that do not require reinforcement may be constructed as shown in Fig. 127.4.8F of ANSI B31.1. This construction is limited to use in Class I and II piping systems at a maximum design temperature of 750° F. or a maximum pressure of 1025 psi."

1. By adding a new Table 56.70-15 as follows:

TABLE 56.70-15.—Reinforcement of girth and longitudinal butt welds

Thickness of base metal (inch)	Maximum thickness of reinforcement for design temperature (inches) below 0° F. or above—		
	750° F.	350° to 750° F.	0° F. and above but less than 350° F.
Up to 1/8, inclusive	1/8	3/32	3/16
Over 1/8 to 1/4, inclusive	1/8	1/4	3/16
Over 1/4 to 3/8, inclusive	1/8	3/32	3/16
Over 3/8 to 1, inclusive	3/32	3/16	3/16
Over 1 to 2, inclusive	1/4	1/4	3/16
Over 2	3/8	(1)	(1)

1 The greater of 1/4 in. or 1/3 times the width of the weld in inches.

## NOTES

- For double welded butt joints, this limitation on reinforcement given above applies separately to both inside and outside surfaces of the joint.
- For single welded butt joints, the reinforcement limits given above apply to the outside surface of the joint only.
- The thickness of weld reinforcement is based on the thickness of the thinner of the materials being joined.
- The weld reinforcement thicknesses must be determined for the higher of the abutting surfaces involved.
- For boiler external piping use the column titled "Below 0° F. or above 750° F. for weld reinforcement thicknesses."

46. Section 56.80-15(e) is amended by inserting the word "heat" between the words "the" and "treatment" and by adding the following new paragraph (g) as follows:

§ 56.85-10 Preheating.

(a) The minimum preheat temperatures listed in Table 56.85-10 for P-number materials groupings are mandatory minimum pre-heat temperatures. Preheat is required for Class I, I-L, I-N, II-N and II-L piping when the ambient temperature is below 50° F.

(b) (Modifies 131.2.2) When welding dissimilar materials the minimum preheat temperature may not be lower than the highest temperature listed in Table 56.85-10 for any of the materials to be welded or the temperature established in the qualified welding procedure.

(d) [Reserved]

TABLE 56.85-10.—PREHEAT AND POSTHEAT TREATMENT OF WELDS

ASME Sec. IX Nos.	Preheat required		Post heat treatment requirement (1) (2)			
	Minimum wall (3) (4) (inch)	Minimum temperature (5) (6) (° F.)	Minimum wall and other (3) (4) (17) (inch)	Temperature (7) (8) (9) (10) (11) (° F.)	Hour per inch of wall (3) (4)	Minimum time within range (hour)
P-1 (16)	All	50 (for .30 C. maximum or less) (13).	Over 1/4 in.	1,100 to 1,200 (minimum) (maximum)		
P-1 (16)	All	175 minimum (for over .30 C.) (13) and wall thickness over 1 in.	do.	do.		
P-3 (15)	All walls	175 minimum	Over 1/2 in.	1,200 to 1,350 (minimum) (maximum)		
P-4 (15)	Up to 1/4 in. inclusive	300 minimum	Over 1/4 in. or over 1/2 in. nom. size or.	1,350 to 1,400 (minimum) (maximum)		
	Over 1/4 in.	400 minimum	Over 1/2 in. C. maximum.			
P-5 (15) (less than 5 cr.)	Up to 1/4 in.	300 minimum	Over 1/4 in. or over 1/2 in. nom. size or.	1,300 to 1,425 (minimum) (maximum)		
	Over 1/4 in.	400	Over 0.15 C. maximum			
P-5 (15) (5 cr. and higher)	Up to 1/4 in. inclusive	300 minimum	All walls	do.		
	Over 1/4 in.	400	Over 0.15 C. maximum			
P-6	All walls	300 minimum (14).	All walls	1,400 to 1,500 (minimum) (maximum)		
P-8	do.	None required	do.	None required		

## RULES AND REGULATIONS

For P-7, P-9A, P-9B, P-10C and other materials not listed the Preheat and Postheat Treatment is to be in accordance with the qualified procedure.

Notes Applicable to Table 56.85-10:

(1) Not applicable to dissimilar metal welds.

(2) When postheat treatment by annealing or normalizing is used, the postheat treatment temperatures must be in accordance with the qualified welding procedure.

(3) Wall thickness of a butt weld is defined as the thicker of the two abutting ends after end preparation including I.D. machining.

(4) The thickness of socket, fillet, and seal welds is defined as the throat thicknesses for pressure and nonpressure retaining welds.

(5) Preheat temperatures must be checked by use of temperature indicating crayons, thermocouple pyrometers, or other suitable method.

(6) For inert gas tungsten arc root pass welding lower preheat in accordance with the qualified procedure may be used.

(7) The maximum postheat treatment temperature listed for each P number is a recommended maximum temperature.

(8) Postheat treatment temperatures must be checked by use of thermocouple pyrometers or other suitable means.

(9) Heating rate for furnace, gas, electric resistance, and other surface heating methods must not exceed: (1) 600° F. per hour for thicknesses 2 inches and under.

(11) 600° F. per hour divided by 1/2 the thickness in inches for thickness over 2 inches.

(10) Heating route for induction heating must not exceed:

(1) 600° F. per hour for thickness less than 1 1/2 inches (60 and 400 cycles).

(11) 500° F. per hour when using 60 cycles and 400° F. per hour when using 400 cycles for thicknesses 1 1/2 inches and over.

(11) When local heating is used, the weld must be allowed to cool slowly from the postheat treatment temperature. A suggested method of retarding cooling is to wrap the weld with asbestos and allow to cool in still air. When furnace cooling is used, the pipe sections must be cooled in the furnace to 1000° F. and may then be cooled further in still air.

(12) Local postheat treatment of butt welded joints must be performed on a circumferential band of the pipe. The minimum width of this band, centered on the weld, must be the width of the weld plus 2 inches.

Local postheat treatment of welded branch connections must be performed by heating a circumferential band of the pipe to which the branch is welded. The width of the heated band must extend at least 1 inch beyond the weld joining the branch.

(13) 0.30 C. max applies to specified ladle analysis.

(14) 600° F. maximum interpass temperature.

(15) Welding on P-3, P-4, and P-5 with 3 Cr max may be interrupted only if—

(1) At least 3/4 inch thickness of weld is deposited or 25 percent of welding groove is filled, whichever is greater;

(11) The weld is allowed to cool slowly to room temperature; and

(11) The required preheat is resumed before welding is continued.

(16) When attaching welding carbon steel non-pressure parts to steel pressure parts and the throat thickness of the fillet or partial or full penetration weld is 1/2 in. or less, post heat treatment of the fillet weld is not required for Class I and II piping if preheat to a minimum temperature of 175° F. is applied when the thickness of the pressure part exceeds 3/4 in.

(17) For Class I-L and II-L piping systems, relief from postweld heat treatment may not be dependent upon wall thickness. See also

paragraphs 56.50-105(a) (3) and 56.50-105(b) (3) of this chapter.

§ 56.85-15 [Amended]

48. Section 56.85-15 is amended as follows:

(a) By striking the first sentence of paragraph (a), and by inserting the words "pressure retaining" after "Where" in the existing second sentence.

(b) By amending the last sentence of § 56.85-15(d) to read " . . . band heating of welded joints in accordance with § 56.85-15(j) (3) and note (12) of Table 56.85-10."

(c) By revoking and reserving § 56.85-15 (f), (g) and (h).

(d) In § 56.85-15(i), by revising the parenthetical expression to read "(Reproduces 131.3.4)" and by amending the last sentence to read " . . . wall thickness is 3/4 in. or less, postheat treatment is not required."

(e) By revoking and reserving § 56.85-15(j) (1) and 56.85-15(j) (2).

(f) By revising § 56.85-15(j) (3) to read as follows:

(j) . . . .

(3) In local postheat treatment the entire band must be brought up to uniform specified temperature over the complete circumference of the pipe section, with a gradual diminishing of the temperature outward from the edges of the band.

49. By revising § 56.97-1:

§ 56.97-1 General (replaces 137).

(a) Scope. The requirements in this subpart apply to pressure tests of piping in lieu of 137 of ANSI-B31.1. Those paragraphs reproduced are so noted.

(b) Leak tightness. It is mandatory that the design, fabrication and erection of piping constructed under the regulations in this subchapter demonstrate leak tightness. Except where otherwise permitted in this subpart, this requirement must be met by a hydrostatic leak test prior to initial operations. Where a hydrostatic test is not practicable, a pneumatic test (section 56.97-35) or initial service leak test (section 56.97-38) may be substituted if approved by the Commandant.

(1) At no time during the hydrostatic test may any part of the piping system be subjected to a stress greater than 90 percent of its yield strength (0.2 percent offset) at test temperature.

(2) Pneumatic tests may be used in lieu of the required hydrostatic test (except as permitted in subparagraph (3) below), only when—

(1) piping subassemblies or systems are so designed or supported that they cannot be safely filled with water; <sup>1</sup> or

(11) piping subassemblies or systems are to be used in services where traces of the testing medium cannot be tolerated and, whenever possible, the piping subassemblies or system have been previously hydrostatically tested to the pressure required in paragraph 56.97-30(e).

<sup>1</sup>These tests may be made with the item being tested partially filled with water, if desired.

(3) A pneumatic test at a pressure not to exceed 25 psig may be applied before a hydrostatic or a pneumatic test as a means of locating major leaks. The preliminary pneumatic test must be carried out in accordance with the requirements of section 56.97-35.

Note.—Compressed gas is hazardous when used as a testing medium. It is, therefore, recommended that special precautions for protection of personnel be taken whenever gas under pressure is used as the test medium.

(4) The hydrostatic test of the piping system, when conducted in accordance with the requirements of this part, is acceptable as the test for piping subassemblies and may also be used in lieu of any such test required by the material specification for material used in the piping subassembly or system provided the minimum test pressure required for the piping system is met, except where the installation would prevent performing any nondestructive examination required by the material specification to be performed subsequent to the hydrostatic or pneumatic test.

50. Section 56.97-25 is revised to read as follows:

§ 56.97-25 Preparation for testing (Reproduces 137.3).

(a) Exposure of joints. All joints including welds must be left uninsulated and exposed for examination during the test.

(b) Addition of temporary supports. Piping systems designed for vapor or gas may be provided with additional temporary supports, if necessary, to support the weight of the test liquid.

(c) Restraint or isolation of expansion joints. Expansion joints must be provided with temporary restraint, if required for the additional pressure load under test, or they must be isolated from the test.

(d) Isolation of equipment not subjected to pressure test. Equipment that is not to be subjected to the pressure test must be either disconnected from the piping subassembly or system or isolated by a blank flange or similar means. Valves may be used if the valve with its closure is suitable for the proposed test pressure.

(e) Treatment of flanged joints containing blinds. Flanged joints at which blinds are inserted to blank off other equipment during the test need not be tested.

(f) Precautions against test medium expansion. If a pressure test is to be maintained for a period of time and the test medium in the system is subject to thermal expansion, precautions must be taken to avoid excessive pressure. A small relief valve set to 1 1/2 times the test pressure is recommended during the pressure test.

51. Section 56.97-30 is revised to read as follows:

§ 56.97-30 Hydrostatic tests (Reproduces 137.4).

(a) Provision of air vents at high points. Vents must be provided at all

high points of the piping subassembly or system in the position in which the test is to be conducted to purge air pockets while the component or system is filling.

(b) *Test medium and test temperature.* (1) Water will be used for a hydrostatic leak test unless another medium is approved by the Commandant.

(2) The temperature of the test medium will be that of the available source unless otherwise approved by the Commandant upon review of the metallurgical aspects of the piping materials with respect to its brittle fracture properties.

(c) *Check of test equipment before applying pressure.* The test equipment must be examined before pressure is applied to ensure that it is tight and that all low-pressure filling lines and other items that should not be subjected to the test pressure have been disconnected or isolated by valves or other suitable means.

(d) *Examination for leakage after application of pressure.* Following the application of the hydrostatic test pressure for a minimum of 10 minutes (see § 56.97-30(g)), examination for leakage must be made of all joints, connections and of all regions of high stress, such as regions around openings and thickness-transition sections.

(e) *Minimum required hydrostatic test pressure.* Except as otherwise permitted in § 56.97-30(f) or § 56.97-40, piping systems must be subjected to a hydrostatic test pressure that at every point in the system is not less than 1.5 times the maximum allowable working pressure.

(f) *Maximum permissible hydrostatic test pressure.* (1) When a system is tested hydrostatically, the test pressure must not exceed the maximum test pressure of any component such as vessels, pumps, or valves in the system.

(2) At no time during the hydrostatic test may any part of the piping system be subjected to a stress greater than 90 percent of its yield strength (0.2 percent offset) at test temperature.

(g) *Hydrostatic test pressure holding time.* The hydrostatic test pressure must be maintained for a minimum total time of 10 minutes and for such additional time as may be necessary to conduct the examination for leakage required by paragraph 56.97-30(d).

52. Section 56.97-35 is revised to read as follows:

§ 56.97-35 *Pneumatic tests* (Replaces 137.5).

(a) *General Requirements.* When a pneumatic test is performed, it must be conducted in accordance with the requirements of this section.

(b) *Test medium and test temperature.* (1) The gas used as the test medium must not be flammable.

(2) The temperature of the test medium will be that of the available source unless otherwise approved by the Commandant upon review of the metallurgical aspects of the piping materials with respect to its brittle fracture properties.

(c) *Check of test equipment before applying pressure.* The test equipment must be examined before pressure is applied to ensure that it is tight and that

all items that should not be subjected to the test pressure have been disconnected or isolated by valves or other suitable means.

(d) *Procedure for applying pressure.* The pressure in the system must gradually be increased to not more than one-half of the test pressure, after which the pressure is increased in steps of approximately one-tenth of the test pressure until the required test pressure has been reached.

(e) *Examination for leakage after application of pressure.* Following the application of pressure for the time specified in § 56.97-35(h), examination for leakage in accordance with paragraph 56.97-30(d) must be conducted.

(f) *Minimum required pneumatic test pressure.* Except as provided in § 56.97-35(g) or § 56.97-40, the pneumatic test pressure may not be less than 1.20 nor more than 1.25 times the maximum allowable working pressure of the piping subassembly system.

(g) *Maximum permissible pneumatic test pressure.* When a system is tested pneumatically, the test pressure may not exceed the maximum test pressure of any component such as vessels, pumps or valves in the system.

(h) *Pneumatic test pressure holding time.* The pneumatic test pressure must be maintained for a minimum total time of 10 minutes and for such additional time as may be necessary to conduct the examination for leakage required in paragraph 56.97-30(d).

53. A new § 56.97-38 is added to read as follows:

§ 56.97-38 *Initial service leak test* (Replaces 137.7).

(a) An initial service leak test and inspection is acceptable when other types of test are not practical or when leak tightness is conveniently demonstrable due to the nature of the service. One example is turbine extraction piping where shut-off valves are not available for isolating a line and where temporary closures are impractical. Others may be systems for service water, low pressure condensate, plant and instrument air, etc., where checking out of pumps and compressors afford ample opportunity for leak tightness inspection prior to fullscale operation.

(b) The piping system must be gradually brought up to design pressure. After inspection of the piping system has proven that the installation is complete and all joints are leak-tight, the piping has met the requirements of section 56.97-1.

§ 56.97-40 [Amended]

54. In § 56.97-40(c), the end of the sentence is revised to read: "... test, § 56.97-38."

#### PART 58—MAIN AND AUXILIARY MACHINERY AND RELATED SYSTEMS

§ 58.01-15 [Amended]

55. Section 58.01-15 is amended by revising the figure "150° F" to read "140° F."

56. In § 58.30-1(a) a new subparagraph (14) is added to read as follows:

§ 58.30-1 *Scope.*

(a) ...  
(14) Any other hydraulic or pneumatic system on board that, in the judgment of the Commandant, constitutes a hazard to the seaworthiness of the ship or the safety of personnel either in normal operation or in case of failure.

57. In § 58.30-1(b) is revised to read as follows:

§ 58.30-1 *Scope.*

(b) Other fluid power and control systems do not have to comply with the detailed requirements of this Subpart but must meet the requirements of § 58.30-50.

58. In § 58.30-5(a); by revising the first sentence to read as follows:

§ 58.30-5 *Design requirements.*

(a) The requirements of Part 56 are also applicable, except as modified herein.

§ 58.30-15 [Amended]

59. Section 58.30-15(d) is amended by: Placing a period after "6" in the first sentence and deleting the remainder of the sentence and changing the second sentence to read: "... acceptable to the Commandant using the allowable stress values specified in paragraph 56.07-10(e) of this subchapter."

60. Section 58.30-40 is revised to read as follows:

§ 58.30-40 *Plans.*

(a) Diagrammatic plans and lists of materials must be submitted for each of the fluid power and control systems listed in paragraph 58.30-1(a) that is installed on the vessel. Plan submission must be in accordance with Subpart 50.20 of this Subchapter and must include the following:

- (1) The purpose of the system.
- (2) Its location on the vessel.
- (3) The maximum allowable working pressure.
- (4) The fluid used in the system.
- (5) The velocity of the fluid flow in the system.
- (6) Details of the system components in accordance with § 56.01-10(d) of this subchapter.

61. A new § 58.30-50 is added to read as follows:

§ 58.30-50 *Requirements for miscellaneous fluid power and control systems.*

(a) All fluid power and control systems installed on a vessel, except those listed in § 58.30-1(a), must meet the following requirements:

- (1) Diagrams of the system providing the information required by § 58.30-40 (a) (1) through (4) must be submitted. These are not approved but are needed for records and for evaluation of the system in accordance with § 58.30-1(a) (14).

(2) The hydraulic fluid used in the system must comply with § 58.30-10.

(3) The installed system must be tested in accordance with § 58.30-35(c) (2).

(4) All pneumatic cylinders must comply with § 48.30-30.

(5) Additional plans may be required for "fail-safe" equipment and for cargo hatch systems with alternate means of operation.

62. In § 58.50 the title is revised to read as follows:

§ 58.50 *Independent fuel tanks.*

63. Section 58.50-1(a) is revised to read as follows:

§ 58.50-1 *General requirements.*

(a) The regulations in this subpart contain requirements for independent fuel tanks.

64. A new § 58.30-50 is added to read as follows:

§ 58.30-50 *Requirements for miscellaneous fluid power and control systems.*

(a) All fluid power and control systems installed on a vessel, except those listed in paragraph 58.30-1(a), must meet the following requirements:

- (1) Diagrams of the system providing the information required by § 58.30-40 (a) (1) through (4) must be submitted. These are not approved but are needed for records and for evaluation of the system in accordance with § 58.30-1(a) (14).
- (2) The hydraulic fluid used in the system must comply with § 58.30-10.
- (3) The installed system must be tested in accordance with § 58.30-35(c) (2).
- (4) All pneumatic cylinders must comply with § 58.30-30.
- (5) Additional plans may be required for "fail-safe" equipment and for cargo hatch systems with alternate means of operation.

65. In § 58.50 the title is revised to read as follows:

§ 58.50 *Independent fuel tanks.*

66. Section 58.50-1(a) is revised to read as follows:

§ 58.50-1 *General requirements.*

(a) The regulations in this subpart contain requirements for independent fuel tanks.

67. In § 63.01-5 a new paragraph (f) is added to read as follows:

§ 63.01-5 *Adoption of standards and specifications.*

(f) *American National Standards Institute (ANSI).* The standards of the American National Standards Institute, referenced in this part are adopted and form a part of this subchapter.

68. Section 63.15-30 is revised to read as follows:

§ 63.15-30 *Temperature-pressure relief devices.*

(a) A suitable temperature-pressure relief valve must be provided which will operate to relieve the pressure in the water tank to prevent a pressure rise of more than 3 pounds per square inch above the maximum allowable working pressure and to prevent a temperature rise above 210°F with the heating elements operating continuously at the maximum rating.

(b) Temperature-pressure relief valves meeting the requirements of ANSI standard Z 21.22 must be utilized.

[FR Doc. 75-23028 Filed 8-29-75; 8:45 am]

Title 47—Telecommunications

#### CHAPTER 1—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20149]

#### PART 91—INDUSTRIAL RADIO SERVICES

Availability of Splitter Frequencies; Correction

In the matter of amendment of Parts 2, 89, and 91 of the Commission's rules and regulations to make available four 173 MHz splitter frequencies to the Local Government and Manufacturers Radio Services for telemetry and remote control operations.

The last page of the Appendix to the Commission's Report and Order (FCC 75-867) in Docket 20149 adopted July 22, 1975, 40 FR 33454, was inadvertently omitted. Consequently the material in § 91.730(b) (26) and (27) was dropped. That material should have read as follows:

§ 91.730 *Frequencies available.*

(b) ...  
(26) This frequency band is available on a shared basis with the Local Government and several Industrial Radio Services. Evidence of interservice coordination is required.

(27) Operational fixed stations must employ directional antennas having a front-to-back ratio of at least 20 db. Omnidirectional antennas having unity gain may be employed for stations communicating with at least three receiving locations separated by 160° of azimuth.

Released August 26, 1975.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] VINCENT J. MULLINS,  
Secretary.

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

### DEPARTMENT OF AGRICULTURE

#### Agricultural Marketing Service

##### [ 7 CFR Part 931 ]

#### FRESH BARTLETT PEARS GROWN IN OREGON AND WASHINGTON

##### Expenses and Fixing of Rate of Assessment and Carryover of Unexpended Funds for the 1975-76 Fiscal Period

This notice invites written comments relative to the proposed expenses of \$25,324.90, and rate of assessment of one cent per standard western pear box to support the activities of the Northwest Fresh Bartlett Pear Marketing Committee for the 1975-76 fiscal period under marketing Order No. 931. The committee also proposes to carry over unexpended assessment income as a committee reserve.

Consideration is being given to the following proposals submitted by the Northwest Fresh Bartlett Pear Marketing Committee, established pursuant to the marketing agreement and Order No. 931 (7 CFR Part 931), regulating the handling of fresh Bartlett pears grown in Oregon and Washington, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), as the agency to administer the terms and provisions thereof:

##### § 931.210 Expenses, rate of assessment, and carryover of unexpended funds.

(a) That expenses that are reasonable and likely to be incurred by the Northwest Fresh Bartlett Pear Marketing Committee, during the period July 1, 1975, through June 30, 1976, will amount to \$25,324.90.

(b) That the rate of assessment for such period, payable by each handler in accordance with § 931.41 be fixed at \$0.01 per standard western pear box of pears, or an equivalent quantity of pears in other containers or in bulk.

(c) That assessments in excess of expenses incurred during the 1974-75 fiscal period be carried over as a reserve.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112A, Administration Building, Washington, D.C. 20250, not later than September 30, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the office of the

Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: August 27, 1975.

CHARLES R. BRADER,  
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 75-23173 Filed 8-29-75; 8:45 am]

### DEPARTMENT OF LABOR

#### Occupational Safety and Health Administration

##### [ 29 CFR Parts 1910, 1926 ]

[Docket No. S-102]

#### GROUND-FAULT CIRCUIT PROTECTION

##### Notice of Hearing

On April 7, 1975, a notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 15390-15392; correction notice, 40 FR 18468) by the Occupational Safety and Health Administration (OSHA). It was proposed to amend Title 29, Code of Federal Regulations, §§ 1910.309 and 1926.400 by revoking the requirement for ground-fault circuit protection for personnel on construction sites. This requirement is contained in the last paragraph of section 210-7 of the National Electrical Code (NEC) (ANSI C1-1971, NFPA No. 70-1971), which is adopted by reference in the current §§ 1910.309 and 1926.400.

Interested persons were given until June 6, 1975, to submit written data, views, and arguments and to file objections to the proposal and request a hearing. In response to the notice, OSHA received 131 comments, including 6 requests for a public hearing. The major issues raised by the commenters are discussed separately as follows:

1. *Field experience.* Much of the evidence received related to actual field experience with ground-fault circuit interrupters (GFCI's). Fifty-eight comments were received from local authorities having experience with requiring GFCI's on construction sites. All but one assert that the devices can be used with little trouble, if certain procedures are followed. These include cleaning and repairing old and defective tools and extension cords, putting in more circuits to evenly and adequately handle the load, and keeping connectors out of water. There were also minor reports of tripping due to utility company switching and radio transmission, but sensi-

tivity to these sources varies with the make of the GFCI. Other commenters, one of which was a local enforcement authority, asserted that there was excessive nuisance tripping.

2. *Cost estimates.* There were many general estimates of the cost of installing ground-fault circuit protection. For the small residential contractors, the commenters assert that the extra cost is between \$25 and \$50 per jobsite, since there are few circuits to protect. Larger contractors with dozens of 15- and 20-ampere, 120-volt circuits claimed costs in the thousands of dollars. One association asserted GFCI's would cost over \$12 million for its member companies. None of the commenters provided specific supporting cost data for GFCI's or gave specifications for the temporary wiring on typical jobsites.

3. *Accidents.* Few of the commenters gave specific details of accidents which occurred without GFCI's. However, some data was obtained by OSHA in a continuing survey of states, which added 10 fatalities to the 31 fatalities listed in the notice of proposed revocation.

4. *Alternate methods.* Many commenters claimed that equipment grounding conductors provide the necessary protection from shock hazards, and that a GFCI requirement is therefore unnecessary. Other commenters claimed that their tool inspection programs ensure the use of safe equipment and contribute to their excellent safety records. However, one commenter pointed out that 25 percent of all electrical violations found by OSHA inspectors were for noncompliance with the grounding requirements, indicating a need for GFCI's.

The comments received have enhanced the body of knowledge on the subject of GFCI's, especially with respect to field experience. However, more information would still be helpful to evaluate the cost of a GFCI requirement, the number of deaths or serious injuries occurring, and the total effectiveness of alternate approaches to the problem. While some commenters point out that a significant number of fatalities are occurring and that many of these could be prevented by using GFCI's or by conforming with existing standards, other commenters suggest that a tool, cord, and wiring inspection program can adequately ensure that equipment is in safe operating condition.

On the basis of all the information received to date in this proceeding, it appears that there are several alternatives

available to OSHA with regard to ground fault circuit protection. These include, but are not necessarily limited to: (a) revocation of the existing requirement; (b) retention of the existing requirement; or (c) a requirement for GFCI's or an alternate grounding maintenance program.

Accordingly, pursuant to section 6(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1593, 29 U.S.C. 655), section 107 of the Contract Work Hours and Safety Standards Act (83 Stat. 96, 40 U.S.C. 333), and 29 CFR Part 1911, OSHA will hold an informal public hearing on the proposal. Oral and written data, views, and arguments may be presented at the informal public hearing to begin at 9:30 a.m. on December 9, 1975, in the U.S. Department of Labor Auditorium, Room C-1000, 200 Constitution Avenue, NW., Washington, D.C.

Comments to be presented at the hearing may address any of the issues raised in the proceeding, including the following:

(1) Actual field experience with ground-fault circuit interrupters, with specific details concerning the number of trips per GFCI and the exact cause of each trip;

(2) Cost of utilizing GFCI's per jobsite including a description of the circuits equipped and the types of GFCI's used;

(3) Specific details of ground fault electrical accidents, giving the approximate date, place, cause, name of the tool, if any, causing the injury, whether the tool was grounded and the means used to protect against ground fault electrical accidents, if any. This information should indicate, if possible, whether GFCI's would have prevented these accidents, and whether other means such as maintenance and inspection of equipment would have prevented these accidents;

(4) A possible requirement that employers provide either:

(a) ground-fault circuit protection for personnel on construction sites, or

(b) a scheduled and recorded equipment inspection and maintenance program, covering all tools, cords, and wiring on the jobsite;

(5) The appropriate trip level, if GFCI's are required; and

(6) Any other relevant information.

Persons desiring to appear at the hearing must file a notice of intention to appear, postmarked on or before October 17, 1975, with Nancy Huckle, OSHA Committee Management Office, Room N3633, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20210. (Telephone: 202-523-8024). The notice of intention to appear, which will be available for inspection and copying at the above address, must contain the following information:

(1) The name and address of the person to appear;

(2) The capacity in which the person will appear;

(3) The approximate amount of time requested for the presentation;

### PROPOSED RULES

(4) A detailed statement of the position that will be taken with respect to the issues raised by the proposal; and

(5) A detailed statement of the evidence to be adduced in support of the position or positions.

OSHA has determined that strict enforcement of its procedural rules contained in 29 CFR 1911.10 and 1911.11 is necessary for an expeditious and orderly proceeding. Therefore, the notices of intent to appear will be scrutinized closely for sufficiently detailed information concerning the position to be taken with regard to the issues raised by this proceeding and the evidence to be adduced in support of the position. Persons filing notices of intent to appear which are not sufficiently detailed will be so informed and given fifteen (15) days from the date they are so informed to file a proper notice of intent to appear. In addition, the amount of time requested for each presentation will be reviewed in light of the contents of the notice of intention to appear. In those cases where the information contained in the notice of intention to appear does not seem to warrant the amount of time requested, the participant will be allocated a more appropriate amount of time and notified of this fact. The participant will have fifteen (15) days from the date on which he is so informed to demonstrate why the allocated time is inappropriate.

The hearing will commence at 9:30 a.m. on December 9, 1975, with the establishment of the order for the presentation of statements and the resolution of any other procedural matters relating to the proceeding. The hearing will be conducted, and the decisions made, in accordance with 29 CFR Part 1911. The oral proceedings will be reported verbatim, and a transcript will be made available to interested persons. Prepared statements and documents that are intended to be submitted for the record at the hearing shall be submitted in quadruplicate before such testimony is presented.

The Administrative Law Judge who will be designated to preside at the hearing shall have all the powers necessary or appropriate to conduct a fair and full informal hearing, including the powers:

(1) To regulate the course of the proceedings;

(2) To dispose of procedural requests, objections, and comparable matters;

(3) To confine the presentations to the issues relevant to the proceedings;

(4) To regulate the conduct of those present at the hearing by appropriate means;

(5) In his discretion, to question and permit questioning of any witnesses; and

(6) In his discretion, to keep the record open for a reasonable, stated time to receive written information and additional data, views, and arguments from any person who has participated in the oral proceedings.

Following the close of the hearing, the presiding Administrative Law Judge shall certify the record thereof to the Secretary of Labor. The proposal will

be reviewed in the light of all oral and written submissions received as part of the record in this and related proceedings, and appropriate action will be taken.

(Sec. 6(b), Pub. L. 91-596, 84 Stat. 1593 (29 U.S.C. 655); sec. 107, Pub. L. 91-54, 83 Stat. 96 (40 U.S.C. 333); 29 CFR Part 1911)

Signed at Washington, D.C. this 22nd day of August 1975.

JOHN T. DUNLOP,  
Secretary of Labor.

#### MATTER INCORPORATED BY REFERENCE

##### Notice of Proposed Rule Making

The Materials Transportation Bureau of the Department of Transportation is considering amending § 171.7(d)(1) of the Hazardous Materials Regulations to update the reference to the addenda to sections VIII (Division I) and IX of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code.

The Compressed Gas Association, Inc., has petitioned this Office to effect this change.

In consideration of the foregoing, it is proposed to revise paragraph (d)(1) in § 171.7 to read as follows:

§ 171.7 Matter incorporated by reference.

(d) . . . . .

(1) ASME Code means sections VIII (Division I) and IX of the 1974 edition of the "American Society of Mechanical Engineers Boiler and Pressure Vessel Code," and addenda thereto through June 30, 1975.

Interested persons are invited to give their views on this proposal. Communications should identify the docket number and be submitted in duplicate to the

## ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 423-8]

### APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

#### Notice of Public Hearing

Notice is hereby given that a public hearing concerning a proposed revision to the State of Idaho Implementation Plan (SIP) will be held on September 25, 1975, at 7 p.m., at the Holiday Inn, Conference Room A, Pocatello, Idaho.

Section 110(c) of the Clean Air Act, as amended (42 U.S.C. 1857c-5(c)), directs the Administrator of the Environmental Protection Agency (EPA) to publish proposed regulations setting forth a portion of an Implementation Plan for a State if a portion of that plan is determined by the Administrator not to be in accordance with the requirements of Section 110 of the Act. On August 20, 1975 (40 CFR 36385), the Administrator proposed disapproval of Regulation R, Regulation for Control of Sulfur Oxides Emissions from Sulfuric Acid Plants, as the regulation applies to The J. R. Simplot Company in Pocatello, Idaho; Regulation R is part of the Idaho Implementation Plan. The Administrator also proposed a federal regulation to apply to that plant. The hearing is being held to receive public comment on the proposed EPA regulation. Please see the August 20 FEDERAL REGISTER for a detailed discussion of the proposed regulation.

Interested persons wishing to make a statement at the hearing will be afforded the opportunity to do so. The time for making a statement will be limited. Such persons are requested to file a notice of their intention to make a statement no later than 5 days prior to the hearing and, if practicable, submit 5 copies of the proposed statement to the Regional Administrator, Region X, Environmental Protection Agency, 1200 Sixth Avenue, Seattle, Washington 98101, Attention: Ms. L. Smith.

The Presiding Officer for the hearing will be designated at a later date. He will have the responsibility for maintaining order, excluding irrelevant or repetitious material and, to the extent possible, notifying participants of the time at which they may appear. The hearing will be conducted informally.

Copies of the proposed regulation may be reviewed at the following locations: Pocatello Public Library, 812 E. Clark, Pocatello, Idaho 83201.

Department of Health and Welfare, Statehouse, Boise, Idaho 83720.

Environmental Protection Agency, Idaho Operations Office, 422 W. Washington Street, Boise, Idaho 83720.

Public Affairs Office, Environmental Protection Agency, Region X, 1200 Sixth Avenue, Seattle, Washington 98101.

Freedom of Information Center, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

This notice is issued under section 110 of the Clean Air Act, as amended. (42 USC 1857c-5).

Dated: August 27, 1975.

EDWARD F. TUERK,  
Acting Assistant Administrator  
for Air and Waste Management.

## FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 20548]

### MULTIPLE OWNERSHIP OF STANDARD FM, AND TELEVISION BROADCAST STATIONS

#### Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of §§ 73.35, 73.240 and 73.636 of the Commission's rules relating to multiple ownership of standard, FM, and television broadcast stations (40 FR 31632).

1. On August 13, 1975, Brown County Broadcasting Company, Petzer Broadcasting Company, Midcontinent Broadcasting Co., Palmer Broadcasting Company, and Sigmor Corporation (hereafter "Brown, et al.") and on August 15, 1975, the law firm of McKenna, Wilkinson & Kittner, on behalf of various clients, separately filed motions for extension of time in which to file comments and reply comments in the above-captioned proceeding. The Notice of Proposed Rule Making was adopted on July 16, 1975, and publication was made in the FEDERAL REGISTER on July 28, 1975, 40 FR 31632. The dates for filing comments and reply comments are presently August 29, 1975, and September 9, 1975, respectively.

2. Brown, et al. requests that the time be extended to September 29, 1975, and October 9, 1975, for comments and reply comments. McKenna, Wilkinson, and Kittner request dates of September 29, 1975, and October 29, 1975, respectively, for comments and reply comments. Both parties base their request for additional time on the complex and highly important matter in this proceeding and the

fact that they are involved in several other rule making proceedings which have comment dates in this period.

3. We recognize that the proposals made in this docket require detailed study. We find that the public interest would be served by an extension of the comment and reply comments dates. However, we are granting the request of Brown, et al. for a reply comment date of October 9, 1975, in lieu of the request of McKenna, Wilkinson & Kittner, in view of the Commission's desire to proceed as expeditiously as possible in its resolution of this proceeding.

4. Therefore, it is ordered, That the request of Brown, et al. is granted and the request of McKenna, Wilkinson & Kittner is granted in part and is denied in part, and the dates for filing comments and reply comments are extended to and including September 29, 1975, and October 9, 1975, respectively.

5. This action is taken pursuant to authority found in Sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and §§ 0.281 and 1.46 of the Commission's rules.

Adopted: August 25, 1975.

Released: August 26, 1975.

FEDERAL COMMUNICATIONS COMMISSION,  
NEAL K. McNAUGHTEN,  
Acting Chief,  
Broadcast Bureau.

[Docket No. 20485]

### UHF TV "TABOO" TABLE

#### Order Extending Time To File Comments and Reply Comments

In the matter of re-evaluation and revision of the UHF TV "taboo" table (40 FR 23925).

1. The Electronics Industries Association's (EIA) Consumer Electronics Group has requested an extension of time within which comments and reply comments in this proceeding might be filed.

2. In view of the importance of this proceeding to the future of television broadcasting and because of the Commission's desire to have the most definitive response possible, an extension of time to October 31, 1975 for the filing of Original Comments and December 1, 1975 for the filing of Reply Comments is ordered, pursuant to § 0.251(b) of the Commission's Rules.

Adopted: August 25, 1975.

Released: August 26, 1975.

[SEAL] ASHTON R. HARDY,  
General Counsel.

[FR Doc. 75-23134 Filed 8-29-75; 8:45 am]

FR Doc. 75-14325, appearing at 40 FR 23925, June 3, 1975, was incorrectly published as a Notice document. It should have been carried in Proposed Rules section of that issue.

## INTERNATIONAL TRADE COMMISSION

[19 CFR Parts 201, 210]

### RULES OF PRACTICE AND PROCEDURE

#### Notice of Proposed Rulemaking

Notice is hereby given that the United States International Trade Commission is considering amendments and additions to its Rules of Practice and Procedure 19 CFR Chapter II.

This rule is proposed under the authority of sections 333 and 335 of the Tariff Act of 1930, 19 U.S.C. 1333 and 1335, and the Administrative Procedure Act, 5 U.S.C. 551 et seq. The proposed regulations implement section 337 and 337a of the Tariff Act of 1930, as amended by section 341 of the Trade Act of 1974, 88 Stat. 2053 (19 U.S.C. 1337 and 1337a).

Interested persons may participate in the rule making proceeding by submitting written comments in triplicate to:

Secretary, United States International Trade Commission, 701 E. Street NW., Washington, D.C. 20436.

All comments received on or before October 2, 1975, will be considered. Comments received after publication of this proposal will be available for public inspection during normal working hours at the Office of the Secretary, United States International Trade Commission. The relatively short time period for public participation results from the urgency of proceeding under section 337 in the investigation of complaints pending before the Commission.

Final regulations, modified as the Commission deems appropriate after consideration of comments, will be adopted as soon as practicable after such consideration. The Commission presently intends to make the final regulations effective immediately upon publication in the FEDERAL REGISTER on good cause found and published with the rule. It is anticipated that publication of the final regulations as effective will take place on or about the twentieth of October, 1975.

It is hereby proposed that:

(1) The provisions contained in Part 203 of the Commission's Rules be deleted;

(2) 19 CFR Chapter II be divided into three subchapters, as follows: Subchapter A—General, containing Part 201; Subchapter B—Nonadjudicative Investigations, beginning with Part 202; and Subchapter C—Adjudicative Investigations, to follow Part 208; and

(3) Sections 201.2, 201.8, 201.14, and 201.16 of Part 201 be amended, and new section 201.5 and new Part 210 be added, as follows:

### PART 201—RULES OF GENERAL APPLICATION

#### § 201.2 Definitions.

As used in this chapter—

(a) "Commission" means the United States International Trade Commission.

(b) "Tariff Act" means the Tariff Act of 1930, as amended (19 U.S.C. 1202, et seq.).

(c) "Trade Expansion Act" means the Trade Expansion Act of 1962, as amended (19 U.S.C. 1801, et seq.).

(d) "Antidumping Act" means the Antidumping Act, 1921, as amended (19 U.S.C. 160, et seq.).

(e) "Trade Act" means the Trade Act of 1974 (19 U.S.C. 2101, et seq.).

#### § 201.5 Attendance fees and mileage.

(a) *Deponents and witnesses.* Any person compelled to appear in person to depose or testify in response to a subpoena shall be paid the same fees and mileage as are paid witnesses in the courts of the United States: Provided, that salaried employees of the United States summoned to depose or testify as to matters related to their public employment, irrespective of at whose instance they are summoned, shall be paid in accordance with applicable government regulations.

(b) *Stenographers and officers.* Stenographers and officers before whom depositions are taken shall be entitled to the same fees as are paid for like services in the courts of the United States.

(c) *Responsibility.* The fees and mileage referred to in this section shall be paid by the party at whose instance deponents or witnesses appear: Provided, that where it is the Commission, or one or more Commissioners, or one of its employees, at whose instance deponents or witnesses appear, such fees and mileage shall be paid by the Commission.

#### § 201.8 Filing of documents.

(a) *Where to file; date of filing.* Documents shall be filed at the office of the Secretary of the Commission in Washington, D.C. Such documents, if properly filed, will be deemed to be filed on the date on which they are actually received in the Commission.

(b) *Conformity with rules.* Each document filed with the Commission for the purpose of initiating any investigation shall be considered properly filed only if it conforms with the pertinent rules prescribed in this chapter. Substantial compliance with the pertinent rules may be accepted by the Commission provided good and sufficient reason is stated in the document for inability to comply fully with the pertinent rules.

(c) *Specifications for documents.* Each document filed under this chapter shall be double-spaced, typed or printed on strong, durable paper not larger than 8½ by 11 inches in size, except that tables, charts, and similar materials may be larger but folded (if practicable) to the size of the document to which attached. The left margin shall be at least 1½ inches wide, and if the document is bound it shall be bound on the left side. Documents may be reproduced by printing or any other process, provided all copies are clear and legible. Any document filed under this chapter susceptible of being indexed shall contain a subject index (or table of contents) of the matter in such document, with page references.

(d) *Number of copies.* A signed original and 19 true copies of each document shall

be filed unless otherwise indicated. The name of the person signing the original shall be typewritten or otherwise reproduced on each copy.

(e) *Identification of party filing document.* Each document filed with the Commission for the purpose of initiating any investigation shall show on the first page thereof the name, address, and telephone number of the party or parties by whom, or on whose behalf the document is filed and shall be signed by the party filing the document or by a duly authorized officer, attorney, or agent of such party. (Also, any attorney or agent filing the document shall give his address and telephone number.) The signature of the person signing such a document constitutes a certification that he has read the document, that to the best of his knowledge and belief of the statements contained therein are true, and that the person signing the document was duly authorized to sign it.

§ 201.14 Computation of time, additional hearings, postponements, continuances, and extensions of time.

(a) *Time; computation.* Computation of any period of time prescribed or allowed by the rules in this chapter, by order of the Commission, or by order of the presiding officer under Part 210 of this chapter shall begin with the first business day following the day on which the act or event initiating such period of time shall have occurred. The last day of the period so computed is to be included, unless it is a Saturday, Sunday, or Federal legal holiday, in which event the period runs until the end of the next business day. When the period of time prescribed or allowed is less than seven days, intermediate Saturdays, Sundays, and Federal legal holidays shall be excluded from the computation. As used in this rule, a Federal legal holiday refers to any full calendar day designated as a legal holiday by the President or the Congress of the United States.

(b) *Additional hearings, postponements, continuances, and extensions of time.* Prior to its final determination in any investigation, the Commission may in its discretion for good cause shown grant additional hearings, postponements, or continuances of hearings, or extend the time for performing any act required by or pursuant to the rules contained in this chapter. Motions or requests for postponements or extensions of time must be filed at least 10 days in advance of the time otherwise prescribed. The Commission may on its own motion order such additional hearings, postponements, or continuances of hearings as it may deem necessary for a full presentation of the facts in any investigation.

§ 201.16 Service of process and other documents.

(a) *By the Commission.*—(1) *Certified or registered mail.* Except when service by another method shall be specifically ordered by the Commission, the service of a process or other document of the Commission shall be effected by the

210.51	Termination of investigation.
210.52	Proposed findings and conclusions.
210.53	Recommended determination.
210.54	Filing of exceptions to the recommended determination and alternative findings of fact and conclusions of law.
210.55	Commission determination and action.
210.56	Petition for reconsideration.
210.57	Disposition of petition for reconsideration.

## Subpart G—Appeals

210.60	Appeals of final determination to the United States Court of Customs and Patent Appeals.
210.61	Interlocutory Appeals.

Authority: Secs. 333, 335, 19 U.S.C. 1333, 1335; 5 U.S.C. 551 et seq.

## § 210.1 Applicability of part.

The rules in this part govern procedure relating to proceedings under § 337 of the Tariff Act of 1930, as amended, and Pub. L. 710, July 2, 1940 (88 Stat. 2053, 54 Stat. 724, respectively; 19 U.S.C. 1337 and 1337a, respectively).

For other applicable rules see Part 201 of subchapter A.

## § 210.2 General policy.

It is the policy of the Commission that, to the extent practicable and consistent with requirements of law, such proceedings shall be conducted expeditiously. In the conduct of such proceedings, the presiding officer and counsel or other representatives for each party shall make every effort at each stage of the proceedings to avoid delay.

## Subpart A—General Provisions

## § 210.4 Definitions.

For the purpose of this part—  
(a) "Complainant" means a person who has filed a complaint with the Commission under this part.

(b) "Party" means each complainant and respondent in the investigation, the Commission investigative attorney, and each person designated as a party pursuant to § 210.6 of these rules.

(c) "Commission investigative attorney" means, for purposes of a particular proceeding under § 337 of the Tariff Act, the attorney designated to engage in investigatory activities with respect to the proceeding, in his capacity as investigator in the proceeding.

(d) "Person" means an individual, partnership, corporation, association, or public or private organization.

(e) "Presiding officer" means the body or person presiding over the taking of evidence in an investigation under this part, and may include the Commission, one or more members of the Commission, or one or more hearing examiners appointed under § 3105 of title 5 of the U.S. Code.

(f) "Respondent" means any person named in a notice of investigation issued under this part as allegedly violating § 337 of the Tariff Act.

## § 210.5 Written submissions.

Form, number of copies, and service thereof.—

(a) *Caption; names of parties.* Every submission shall contain a caption setting forth the name of the Commission, the title of the action, the docket number assigned to the proceeding, and, in the case of a complaint and response, the names of all the parties to the proceeding.

(b) *Concise and direct pleading; numbered paragraphs.* All averments contained in a submission shall be simple, concise, and direct and shall be made in numbered paragraphs, the contents of each of which shall be limited as far as practicable to a statement of a single set of circumstances.

(c) *Number of copies.* Except as otherwise provided for in this part or by the Commission, the original and twenty-two (22) copies of each submission shall be filed with the Commission.

(d) *Service of submissions.* Except as otherwise provided for in this part or by

the Commission, each submission filed by a party with the Commission shall be served as provided for in § 201.16 of this chapter.

## § 210.6 Intervention.

Any person desiring to intervene in an investigation under this part shall make written application in the form of a motion setting forth the basis therefor. Such application shall have attached to it a certificate showing service thereof upon each party to the investigation in accordance with the provision of § 201.16 of this chapter. A similar certificate shall be attached to the answer filed by any party with respect to the application showing service of such answer upon the applicant. The presiding officer may by order permit the intervention of such person as a nonparty intervenor to such extent and upon such terms as are provided by law or as otherwise may be deemed proper. Upon a showing of good cause, any interested person may be designated as a party and shall be individually served with each submission filed in the investigation.

## Subpart B—Commencement of Proceedings

## § 210.10 Commencement of proceedings upon receipt of complaint.

A proceeding is commenced by filing with the Commission the original and twenty-two (22) copies of a complaint, plus one copy for each person named in the complaint as violating § 337 of the Tariff Act. Complaints alleging violation of § 337 may be filed by any interested person.

## § 210.11 Action of Commission upon receipt of complaint.

Upon receipt of a complaint filed pursuant to § 201.8 of this chapter and § 210.5, § 210.10, and § 210.20 of this part, the Commission shall take the following actions.

(a) *Examination of complaint.* The Commission shall examine the complaint for sufficiency and compliance with the applicable rules of this chapter.

(b) *Informal investigatory activity.* The Commission shall identify sources of relevant information, assure itself of the availability thereof, and, if deemed necessary, prepare subpoenas therefor, and give attention to other preliminary matters.

## § 210.12 Institution of investigation.

Within forty-five (45) days after receipt of a complaint or, in exceptional circumstances, as soon after such period as possible, the Commission shall determine whether the complaint is properly filed and, if so, shall determine whether an investigation should be instituted. If these determinations are in the affirmative, the investigation shall be instituted by notice published in the FEDERAL REGISTER, which notice will define the scope of the investigation. If the Commission determines an investigation is not warranted, the complaint shall be dismissed, and the Commission shall notify the

complainant in writing of its action with the reasons therefor.

## § 210.13 Service of complaint.

Each respondent named in the complaint, and other respondents as later discovered, shall be served by the Commission with a copy of the complaint and notice instituting the investigation upon institution of the investigation or as soon as possible after they are discovered.

## § 210.14 Commission action, public interest factor, and bonding.

(a) During the course of each proceeding under this part where an investigation has been instituted, the Commission shall, off the record—

(1) Consider what action (exclusion from entry, exclusion from entry except under bond, or cease and desist order), if any, it should take, and, where appropriate, take such action;

(2) Consult with, and seek advice and information from the Department of Health, Education, and Welfare, the Department of Justice, the Federal Trade Commission, and such other departments and agencies as it considers appropriate concerning the subject matter of the complaint and the effect its actions (exclusion from entry, exclusion from entry except under bond, or cease and desist order) under § 337 of the Tariff Act shall have upon the public health and welfare, competitive conditions in the U.S. economy, the production of like or directly competitive articles in the United States, and U.S. consumers;

(3) Determine the amount of the bonds applicable to § 337(e) and § 337(g) (3) of the Tariff Act, taking into consideration, among other things, the amount which would offset any competitive advantage resulting from the alleged unfair methods of competition and unfair acts enjoyed by persons benefiting from the importation of the article in question; and

(4) Receive submissions from the parties and other interested persons with respect to the subject matter of paragraphs (a) (1), (2), and (3) of this section.

(b) The presiding officer shall not take evidence or other information or hear arguments from the parties and other interested persons with respect to the subject matter of paragraph (a) (1), (2), and (3) of this section.

## § 210.15 Period for concluding Commission investigation.

Each investigation instituted under this part shall be concluded no later than twelve (12) months after the date of publication of the notice instituting the investigation in the FEDERAL REGISTER, except within five (5) months after the date of publication of the notice instituting the investigation, or at such later time as the Commission deems warranted, the Commission may designate the investigation as a "more complicated" investigation and require that it be concluded no later than eighteen (18) months after the date of publication of the notice institu-

ing the investigation in the FEDERAL REGISTER. The term "more complicated" investigation refers to investigations which are of an involved nature due to the subject matter, difficulty in obtaining information, or large number of parties involved. The Commission shall publish in the FEDERAL REGISTER its reasons for designating the investigation as a "more complicated" investigation. For purposes of the twelve (12) month and eighteen (18) month periods prescribed herein, there shall be excluded any period of time during which the Commission has suspended the investigation due to a proceeding in a court or agency of the United States involving similar questions concerning the subject matter of such investigation.

## Subpart C—Pleadings and Motions

## § 210.20 The complaint.

(a) *Contents of complaint.* In addition to conforming with the requirements of § 201.8 of this chapter and § 210.5(a), § 210.5(b) and § 210.5(c) of this part, the complaint shall—

(1) Be under oath and signed by the complainant or his duly authorized officer, attorney, or agent, with the name, address and phone number of the complainant and any such officer, attorney, or agent given on the first page of the complaint;

(2) Include a statement of the facts constituting the alleged unfair methods of competition and unfair acts;

(3) Describe specific instances of alleged unlawful importations or sales;

(4) State the name, address, and nature of the business of each person alleged to violate § 337 of the Tariff Act;

(5) Include a statement as to whether or not the alleged unfair methods of competition and unfair acts, or the subject matter thereof, is or has been the subject of any court or agency litigation, and, if so, include a brief summary of such litigation;

(6) Include a description of the domestic industry affected, where an element of the complaint is the effect or tendency to destroy or substantially injure, or to prevent the establishment of, such an industry; and a description of the trade and commerce affected, where an element of the complaint is the effect or tendency to restrain or monopolize such trade and commerce;

(7) Include a description of the complainant's business and his interests in the trade and commerce of domestic industry affected;

(8) Include (i) data concerning the volume and trend of production, sales, and inventories of the involved domestic article; (ii) a description of the facilities and number and type of workers, past, present, and anticipated, employed in the production of the involved domestic article; (iii) profit-and-loss information, past, present, and anticipated, of the complainant covering its overall operations and its operations concerning the involved domestic article; (iv) pricing information, past, present, and anticipated, of the involved domestic arti-

(v) where available, past, present, and anticipated volume and sales of imports; and (vi) other data pertinent to the subject matter of the complainant which would support the allegation.

(A) The importations or sales in question are having the effect or tendency to injure or substantially injure an efficiently and economically operated domestic industry;

(B) The importations or sales in question are having the effect or tendency to prevent the establishment of an efficiently and economically operated domestic industry; and

(C) The importations or sales in question are having the effect or tendency to restrain or monopolize trade and commerce in the United States;

(9) Include, where a complaint is based upon the alleged unauthorized importation or sale of an article covered by, or produced under a process covered by, the claims of a valid U.S. Letters Patent—

(A) The identification of each U.S. Letters Patent and a certified copy thereof (a legible copy of each such patent will suffice for each required copy of the complaint);

(B) The identification of the ownership of each involved U.S. patent and a certified copy of each assignment of each such patent (a legible copy thereof will suffice for each required copy of the complaint);

(C) The identification of each domestic licensee under each involved U.S. patent;

(D) A list of each foreign patent and each foreign patent application (not already issued as a patent) corresponding to each involved U.S. patent, with an indication of the prosecution status of each such foreign patent application;

(E) A list of each foreign licensee under each involved U.S. patent and under each corresponding foreign patent;

(F) A nontechnical description of the invention of each involved U.S. patent;

(G) A reference to the specific claims in each involved U.S. patent which allegedly cover the article imported or sold by each person named as violating § 337 of the Tariff Act, or the process under which such article was produced;

(H) A showing that there is domestic production of the involved article or domestic utilization of the involved process allegedly covered by the above specific claims of each involved U.S. patent, and that each person named as violating § 337 of the Tariff Act is importing and/or selling the article covered by, or produced under the involved process covered by, the above specific claims of each involved U.S. patent, which showing may be made by appropriate allegations, and, when practicable, by a chart which applies, for each involved U.S. patent, an exemplary claim of each such patent to a representative involved domestic article or process and to a representative involved article of each person named as violating § 337 of the Tariff Act or to the process under which such article was produced; and

(I) Drawings, photographs, or other visual representations of both the involved domestic article or process and the involved article of each person named as violating § 337 of the Tariff Act, or of the process utilized in producing such article, and, where a chart is furnished under paragraph (a) (9) (H) of this section, the parts of such drawings, photographs, or other visual representations should be labeled so that they can be read in conjunction with such chart; and

(10) Contain a request for relief sought.

(b) *Submissions of articles as exhibits.* At the time the complaint is filed, there shall be submitted, as exhibits, where practical and possible, the involved articles—both the involved domestic article and that of each person named as violating § 337 of the Tariff Act.

(c) *Additional material to accompany each patent based complaint.* There shall accompany the submission of the original of each complaint based upon the alleged unauthorized importation or sale of an article covered by, or produced under a process covered by, the claims of a valid U.S. Letters Patent the following—

(1) Two (2) copies of a detailed status report on all litigation mentioned in paragraph (a) (5) of this section, including summaries of all pleadings and motions entered in the litigation, and any decisions rendered thereon or in the litigation;

(2) Two (2) copies of each license agreement arising out of each involved U.S. patent, except that, to the extent that a standard license agreement is used, two (2) copies of the standard license agreement and a list of the licensees operating under such agreement will suffice;

(3) One (1) certified copy of the Patent and Trademark Office file wrapper for each involved U.S. patent, plus two (2) additional copies thereof; and

(4) Three (3) copies of each patent and applicable pages of each technical reference mentioned in the file wrapper of each involved U.S. patent.

(d) *Amendment of complaint.* The complaint may be amended at any time prior to the institution of the investigation, and, after institution, may be amended for good cause shown upon such conditions as are necessary to avoid prejudicing the public interest and the rights of the parties to the investigation by a change in the scopes of the investigation which results from such amendment.

#### § 210.21 The response.

(a) *Time for response.* Respondents shall have thirty (30) days (unless otherwise ordered in the notice of investigation or by the presiding officer) from the date of service of the complaint and notice of investigation within which to respond, in writing, to the complaint and the notice of investigation.

(b) *Contents of the response.* In addition to conforming with the requirements of § 201.8 of this chapter and § 210.5 of this part, each response shall be under

oath and signed by respondent or his duly authorized officer, attorney, or agent, with the name, address and phone number of the respondent and any such officer, attorney, or agent given on the first page of the response. Each respondent shall respond to each and every allegation in the complaint and in the notice of investigation, and shall set forth a concise statement of the facts constituting each ground of defense. There shall be a specific admission, denial, or explanation of each fact alleged in the complaint and notice, or, if the respondent is without knowledge of any such fact, a statement to that effect. Allegations of a complaint and notice not thus answered shall be deemed to have been admitted. Each response shall include, where available, statistical data on the past, present, and anticipated quantity and value of imports of the involved article. Where the alleged unfair methods of competition and unfair acts are based upon the claims of a valid U.S. Letters Patent, the following shall be part of the response, where appropriate—

(1) If it is asserted in defense that the article imported or sold by respondent is not covered by, or produced under a process covered by, the claims of each involved U.S. patent, a showing of such noncoverage for each involved claim in each U.S. patent in question shall be made, which showing may be made by appropriate allegations and, when practicable, by a chart which applies the involved claims of each U.S. patent in question to a representative involved imported article of respondent or to the process under which such article was produced;

(2) Drawings, photographs, or other visual representations of the involved imported article of respondent or the process utilized in producing such article, and, where a chart is furnished under paragraph (b) (1) of this section, the parts of such drawings, photographs, or other visual representations should be labeled so that they can be read in conjunction with such chart; and

(3) If the claims of any involved U.S. patent are asserted to be invalid or unenforceable, the basis for such assertion including, when prior art is relied on, a showing of how the prior art renders invalid or unenforceable each claim, and a copy of such prior art.

(c) *Submission of article as exhibit.* At the time the response is filed, there should be submitted, as an exhibit, where practical and possible, the involved imported article.

(d) *Default.* Failure of a respondent to file a response within the time provided for in paragraph (a) of this section may be deemed to constitute a waiver of its right to appear and contest the allegations of the complaint and of the notice of investigation, and to authorize the presiding officer, without further notice to that respondent, to find the facts to be as alleged in the complaint and notice of investigation and to enter a recommended determination (or a determination if the Commission is the presiding officer) containing such findings.

#### § 210.22 The reply.

Complainant shall have twenty (20) days (unless otherwise ordered by the presiding officer) after the receipt of each response to reply in writing under oath to new issues or contentions raised by each respondent in its response.

#### § 210.23 Amendments to pleadings and notice of investigation.

(a) *By leave.* If and whenever determination of the issues in an investigation on the merits will be facilitated thereby, the presiding officer, upon such conditions as are necessary to avoid prejudicing the public interest and the rights of the parties to an investigation, may allow appropriate amendments to pleadings: *Provided, however,* that a motion for amendment of a complaint after the institution of an investigation shall be made to the presiding officer, who shall certify such motion to the Commission with his recommendation; the Commission shall decide the motion according to the standards of § 210.20 (d) of this part.

A motion for amendment of a notice of investigation shall be dealt with as provided for with respect to motions for amendment of a complaint.

(b) *Conformance to evidence.* When issues not raised by the pleadings or notice of investigation, but reasonably within the scope of the pleadings and notice, are considered during the taking of evidence by express or implied consent of the parties, they shall be treated in all respects as if they had been raised in the pleadings and notice; and such amendments of the pleadings and notice as may be necessary to make them conform to the evidence and to raise such issues shall be allowed at any time, and shall be effective with respect to all parties who have expressly or impliedly consented.

(c) *Limitation on discovery.* The presiding officer shall place such limits upon the kind or amount of discovery to be had, or the period of time during which discovery may be carried out, as shall be consistent with the time limitations set forth in § 210.41 (e) of this part relating to hearings for the purpose of determining whether there is reason to believe there is, or whether there is, a violation of § 337 of the Tariff Act.

(d) *Protective orders.* Upon motion by a party or by the person from whom discovery is sought, and for good cause shown, the presiding officer may make any order which may appear necessary and appropriate for the protection of the public interest or which justice requires to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, including one or more of the following—

(1) That the discovery not be had;

(2) That the discovery may be had only on specified terms and conditions, including a designation of the time or place;

(3) That the discovery may be had only by a method of discovery other than selected by the party seeking discovery;

(4) That certain matters not be inquired into, or that the scope of the discovery be limited to certain matters;

(b) *Content.* All written motions shall state the particular order, ruling, or action desired and the grounds therefor.

(c) *Answers.* Within ten (10) days after service of any written motion, or within such longer or shorter time as may be designated by the presiding officer or the Commission, a nonmoving party shall answer or shall be deemed to have consented to the granting of the relief asked for in the motion. The moving party shall have no right to reply, except as permitted by the presiding officer or the Commission.

(d) *Motions for extensions.* As a matter of discretion, the presiding officer or the Commission may waive the requirements of this section as to motions for extension of time, and may rule upon such motions ex parte.

#### Subpart D—Discovery and Compulsory Process

#### § 210.30 General provisions governing discovery.

(a) *Discovery methods.* The parties to an investigation may obtain discovery by one or more of the following methods: depositions upon oral examination or written questions; interrogatories; production of documents or things for inspection and other purposes; and requests for admissions.

(b) *Scope of discovery.* Unless otherwise ordered by the presiding officer, a party may obtain discovery regarding any matter, not privileged, which is relevant to the subject matter involved in the investigation. It is not ground for objection that the information sought will be inadmissible at hearings if the information sought appears reasonably calculated to lead to the discovery of admissible evidence.

(c) *Limitation on discovery.* The presiding officer shall place such limits upon the kind or amount of discovery to be had, or the period of time during which discovery may be carried out, as shall be consistent with the time limitations set forth in § 210.41 (e) of this part relating to hearings for the purpose of determining whether there is reason to believe there is, or whether there is, a violation of § 337 of the Tariff Act.

(d) *Protective orders.* Upon motion by a party or by the person from whom discovery is sought, and for good cause shown, the presiding officer may make any order which may appear necessary and appropriate for the protection of the public interest or which justice requires to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, including one or more of the following—

(1) That the discovery not be had;

(2) That the discovery may be had only on specified terms and conditions, including a designation of the time or place;

(3) That the discovery may be had only by a method of discovery other than selected by the party seeking discovery;

(4) That certain matters not be inquired into, or that the scope of the discovery be limited to certain matters;

(5) That discovery be conducted with no one present except persons designated by the presiding officer;

(6) That a deposition, after being sealed, be opened only by order of the presiding officer;

(7) That a trade secret or other confidential research, development, or commercial information not be disclosed or be disclosed only in a designated way;

(8) That the parties simultaneously file specified documents or information enclosed in sealed envelopes to be opened as directed by the presiding officer.

If the motion for a protective order is denied, in whole or in part, the presiding officer may, on such terms and conditions as are just, order that any party or person provide or permit discovery.

(e) *Supplementation of responses.* A party who has responded to a request for discovery with a response that was complete when made is under no duty to supplement his response to include information thereafter acquired, except as follows—

(1) A party is under a duty seasonably to supplement his response with respect to any question directly addressed to;

(i) The identity and location of persons having knowledge of discoverable matters, and

(ii) The identity of each person expected to be called as an expert witness at a hearing, the subject matter on which he is expected to testify, and the substance of his testimony.

(2) A party is under a duty seasonably to amend a prior response if he obtains information upon the basis of which:

(i) he knows that the response was incorrect when made, or

(ii) he knows that the response, though correct when made, is no longer true and the circumstances are such that a failure to amend the response is in substance a knowing concealment.

(3) A duty to supplement responses may be imposed by order of the presiding officer, agreement of the parties, or at any time prior to hearing through new requests for supplementation of prior responses.

#### § 210.31 Depositions.

(a) *When depositions may be taken.* After the date of publication of the notice in the FEDERAL REGISTER instituting the investigation, any party may take the testimony of any person, including a party, by deposition upon oral examination or written questions. Leave of the presiding officer must be obtained only if the complainant seeks to take a deposition to the expiration of 30 days after the date of service of the complaint and notice instituting the investigation.

(b) *Before whom depositions may be taken.* Depositions may be taken before any officer having power to administer oaths by the laws of the United States or of the place where the examination is held.

(c) *Notice of examination.* A party desiring to take the deposition of a person shall give notice in writing to every other party to the investigation, which

notice shall be not less than ten (10) days when the deposition is to be taken within the United States, and not less than fifteen (15) days when the deposition is to be taken elsewhere, but the presiding officer may designate a shorter or longer time. The notice shall state the time and place for taking the deposition and the name and address of each person to be examined. If known, and, if the name is not known, a general description sufficient to identify him or the particular class or group to which he belongs. If a subpoena duces tecum is to be served on the person to be examined, the designation of the materials to be produced as set forth in the subpoena shall be attached to or included in the notice.

(d) *Taking of deposition.* Each deposition shall be duly sworn, and any adverse party shall have the right to cross examine. Objections to questions or documents shall be in short form, stating the grounds of objections relied upon. Evidence objected to shall be taken subject to the objections, except that confidential business data need not be disclosed. The questions propounded and the answers thereto, together with all objections made, shall be reduced to writing, after which the deposition shall be subscribed by the deponent (unless the parties by stipulation waive signing or the deponent is ill or cannot be found or refuses to sign) and certified by the officer before whom the deposition was taken. If the deposition is not subscribed to by the deponent, the officer shall state on the record such fact and the reasons therefor. Thereafter, the officer shall forward one (1) copy thereof to each party who was present or represented at the taking of the deposition.

(e) *Depositions of non-party officers or employees of the Commission or of other government agencies.* A party desiring to take the deposition of an officer or employee of the Commission other than the Commission investigative attorney, or of an officer or employee of another government agency, or to obtain documents or other physical exhibits in the custody, control and possession of such officer or employee, shall proceed by written motion to the presiding officer for leave to apply for a subpoena under § 210.35(c) of this part. Such a motion shall be granted only upon a showing that the information expected to be obtained thereby is within the scope of discovery permitted by § 210.30 (b) of this part and cannot be obtained without undue hardship by alternative means.

(f) *Filing of deposition.* The party taking the deposition shall file two (2) copies thereof with the Commission, and shall give prompt notice of such filing to all other parties.

(g) *Admissibility of depositions.* The fact that a deposition is taken and filed in an investigation as provided in this section does not constitute a determination that it is admissible in evidence or that it may be used in the investigation. Only such part or the whole of a deposi-

tion as is received in evidence at a hearing shall constitute a part of the record in such investigation upon which a determination may be based. Objections may be made at the hearing to receiving in evidence any deposition or part thereof for any reason which would require the exclusion of the evidence if the witness were then present and testifying.

(h) *Use of depositions.* A deposition may be used as evidence against any party who was present or represented at the taking of the deposition or who had reasonable notice thereof, in accordance with any of the following provisions—

(1) Any deposition may be used by any party for the purpose of contradicting or impeaching the testimony of a deponent as a witness;

(2) The deposition of a party may be used by an adverse party for any purpose;

(3) The deposition of a witness, whether or not a party, may be used by any party for any purpose if the presiding officer finds:

(i) That the witness is dead; or  
(ii) That the witness is out of the United States, unless it appears that the absence of the witness was procured by the party offering the deposition; or  
(iii) That the witness is unable to attend or testify because of age, illness, infirmity, or imprisonment; or  
(iv) That the party offering the deposition has been unable to procure the attendance of the witness by subpoena; or

(v) Upon application and notice, that such exceptional circumstances exist as to make it desirable, in the interest of justice and with due regard to the importance of presenting the testimony of witnesses orally at a hearing, to allow the deposition to be used.

(4) If only part of a deposition is offered in evidence by a party, an adverse party may require him to introduce any other part which ought in fairness to be considered with the part introduced, and any party may introduce any other parts.

#### § 210.32 Interrogatories.

(a) *Scope; use at hearing.* Any party may serve upon any other party written interrogatories to be answered by the party served. Interrogatories may relate to any matters which can be inquired into under § 210.30(b) of this part and the answers may be used to the extent permitted by the rules of evidence.

(b) *Procedure.* (1) The interrogatory may be served upon any party after the date of publication of the notice in the FEDERAL REGISTER instituting the investigation.

(2) Each interrogatory shall be answered separately and fully in writing under oath, unless it is objected to, in which event the reasons for objection shall be stated in lieu of an answer. The answers are to be signed by the person making them, and the objections signed by the attorney making them. The party upon whom the interrogatories have been served shall serve a copy of the answers, and objections if any, within ten (10)

days after the service of the interrogatories. The presiding officer may allow a shorter or longer time. The party submitting the interrogatories may move for an order under § 210.36(a) of this part with respect to any objection to or other failure to answer an interrogatory.

(3) An interrogatory otherwise proper is not necessarily objectionable merely because an answer to the interrogatory involves an opinion or contention that relates to fact or the application of law to fact, but the presiding officer may order that such an interrogatory need not be answered until after designated discovery has been completed or until a prehearing conference or other later time.

(c) *Option to Produce Records.* Where the answer to an interrogatory may be derived or ascertained from the records of the party upon whom the interrogatory has been served or from an examination, audit or inspection of such records, or from a compilation, abstract or summary based thereon, and the burden of deriving or ascertaining the answer is substantially the same for the party serving the interrogatory as for the party served, it is a sufficient answer to such interrogatory to specify the records from which the answer may be derived or ascertained and to afford to the party serving the interrogatory reasonable opportunity to examine, audit or inspect such records and to make copies, compilations, abstracts or summaries.

#### § 210.33 Request for production of documents.

(a) *Scope.* Any party may serve on any other party a request to produce and permit the party making the request, or someone acting on his behalf, to inspect and copy, any designated documents (including writings, drawings, graphs, charts, photographs, and other data compilations from which information can be obtained), or to inspect and copy, test, or sample any tangible things which are in the possession, custody or control of the party upon whom the request is served.

(b) *Procedure.* (1) The request may be served upon any party after the date of publication of the notice in the FEDERAL REGISTER instituting the investigation. The request shall set forth the items to be inspected, either by individual item or by category, and describe each item and category with reasonable particularity. The request shall specify a reasonable time, place, and manner of making the inspection and performing the related acts.

(2) The party upon whom the request is served shall serve a written response within ten (10) days after the service of the request. The presiding officer may allow a shorter or longer time. The response shall state, with respect to each item or category, that inspection and related activities will be permitted as requested, unless the request is objected to, in which event the reasons for objection shall be stated. If objection is made to part of an item or category, the part

shall be specified. The party submitting the request may move for an order under § 210.36(a) of this part with respect to any objection to or other failure to respond to the request or any part thereof, or any failure to permit inspection as requested.

#### § 210.34 Request for Admission.

(a) *Form, content, and service of request for admission.* Any party may serve on any other party a written request for admission of the truth of any matters, relevant to the investigation and set forth in the request, that relate to statements or opinions of fact or of the application of law to fact, including the genuineness of any documents described in the request. Copies of documents shall be served with the request unless they have been or are otherwise furnished or are known to be, and in the request are stated as being, in the possession of the other party. Each matter of which an admission is requested shall be separately set forth. The request may be served upon a party whose complaint is the basis for the investigation after the date of publication of the notice in the FEDERAL REGISTER instituting the investigation. The request may be served upon any other party at any time after thirty (30) days after the date of service of the complaint and notice instituting the investigation, unless leave of the presiding officer is obtained to serve the request at an earlier date.

(b) *Answers and objections to requests for admissions.* The matter is admitted unless, within ten (10) days after service of the request, or within such shorter or longer time as the presiding officer may allow, the party to whom the request is directed serves upon the party requesting the admission, a sworn written answer or objection addressed to the matter. If objection is made, the reasons therefor shall be stated. The answer shall specifically deny the matter or set forth in detail the reasons why the answering party cannot truthfully admit or deny the matter. A denial shall fairly meet the substance of the requested admission, and when good faith requires that a party qualify his answer or deny only a part of the matter of which an admission is requested, he shall specify so much of it as is true and qualify or deny the remainder. An answering party may not give lack of information or knowledge as a reason for failure to admit or deny unless he states that he has made reasonable inquiry and that the information known to, or readily obtainable by, him is sufficient to enable him to admit or deny.

A party who considers that a matter of which an admission has been requested presents a genuine issue for a hearing may not on that ground alone, object to the request; he may deny the matter or set forth reasons why he cannot admit or deny it.

(c) *Sufficiency of answers.* The party who has requested the admissions may move to determine the sufficiency of the answers or objections. Unless the objecting party sustains his burden of showing that the objection is justified, the presid-

ing officer shall order that an answer be served. If the presiding officer determines that an answer does not comply with the requirements of this section, he may order either that the matter is admitted or that an amended answer be served. The presiding officer may, in lieu of these orders, determine that final disposition of the request be made at a prehearing conference or at a designated time prior to a hearing under this part.

(d) *Effect of admission; withdrawal or amendment of admission.* Any matter admitted under this rule is conclusively established unless the presiding officer on motion permits withdrawal or amendment of the admission. The presiding officer may permit withdrawal or amendment when the presentation of the issues of the investigation will be subserved thereby and the party who obtained the admission fails to satisfy the presiding officer that withdrawal or amendment will prejudice him in maintaining his position on the issues of the investigation. Any admission made by a party under this rule is for the purpose of the pending investigation only and is not an admission by him for any other purpose nor may it be used against him in any other proceeding.

#### § 210.35 Subpoenas.

(a) *Application for issuance of a subpoena—(1) Subpoena ad testificandum.* An application for issuance of a subpoena requiring a person to appear and depose or testify at the taking of a deposition or at a hearing shall be made to the presiding officer.

(2) *Subpoena duces tecum.* An application for issuance of a subpoena requiring a person to appear and depose or testify and to produce specified documents, papers, books, or other physical exhibits at the taking of a deposition, or at a prehearing conference, or at a hearing shall be made in writing to the presiding officer and shall specify as exactly as possible the material to be produced, showing the general relevancy of the material and the reasonableness of the scope of the subpoena.

(b) *Use of subpoena for discovery.* Subpoenas may be used by any party for purposes of discovery or for obtaining documents, papers, books, or other physical exhibits for use in evidence, or for both purposes. When used for discovery purposes, a subpoena may require a person to produce and permit the inspection and copying of nonprivileged documents, papers, books, or other physical exhibits which constitute or contain evidence relevant to the subject matter involved and which are in the possession, custody, or control of such person.

(c) *Application for subpoenas for non-party Commission records or personnel or for records or personnel of other government agencies—(1) Procedure.* An application for issuance of a subpoena requiring the production of nonparty documents, papers, books, physical exhibits, or other material in the records of the Commission, or for the issuance of a subpoena requiring the appearance of an official or employee of the Commission,

(other than the Commission investigative attorney) or for records or personnel of other government agencies, shall specify as exactly as possible the material to be produced, the nature of the information to be disclosed, or the expected testimony of the official or employee, and shall contain a statement showing the general relevancy of the material, information, or testimony, and the reasonableness of the scope of the application, together with a showing that such material, information, or testimony or their substantial equivalent could not be obtained without undue hardship by alternative means.

(2) *Ruling.* Such applications shall be ruled upon by the presiding officer. To the extent that the motion is granted, the presiding officer shall provide such terms and conditions for the production of the material, the disclosure of the information, or the appearance of the official or employee as may appear necessary and appropriate for the protection of the public interest.

(3) *Application for subpoena grounded upon the Freedom of Information Act.* No application for a subpoena for production of documents grounded upon the Freedom of Information Act shall be entertained by the presiding officer.

(d) *Motion to limit or quash.* Any motion to limit or quash such subpoena shall be filed within ten (10) days after service thereof, or within such other time as the presiding officer may allow.

(e) *Ex parte rulings on applications for subpoenas.* Applications for the issuance of subpoenas pursuant to the provisions of this section may be made *ex parte*, and, if so made, such applications and rulings thereon shall remain *ex parte* unless otherwise ordered by the presiding officer.

#### § 210.36 Failure to make discovery; sanctions.

(a) *Motion for order compelling discovery.* A party, upon reasonable notice to other parties and all persons affected thereby, may apply to the presiding officer for an order compelling discovery.

(b) *Failure to comply with order compelling discovery.* If a party or an officer or agent of a party fails to comply with an order including, but not limited to, an order for the taking of a deposition or the production of documents, an order to answer interrogatories, an order issued pursuant to a request for admissions, or an order to comply with a subpoena, the presiding officer, for the purpose of permitting resolution of relevant issues and disposition of the investigation without unnecessary delay despite such failure, may take such action in regard thereto as is just, including but not limited to the following—

(1) Infer that the admission, testimony, documents or other evidence would have been adverse to the party;

(2) Rule that for the purposes of the investigation the matter or matters concerning which the order or subpoena was issued be taken as established adversely to the party;

(3) Rule that the party may not introduce into evidence or otherwise rely, in support of his position in the investigation, upon testimony by such party, officer, or agent, or the documents or other evidence.

(4) Rule that the party may not be heard to object to introduction and use of secondary evidence to show what the withheld admission, testimony, documents, or other evidence would have shown; or

(5) Rule that a motion or other submission by the party, concerning which the order or subpoena was issued, be stricken, or that a determination in the investigation be rendered against the party, or both.

Any such action may be taken by written or oral order issued in the course of the investigation or by inclusion in the recommended determination of the presiding officer, where the presiding officer is not the Commission. It shall be the duty of the parties to seek and the presiding officer to grant such of the foregoing means of relief or other appropriate relief as may be sufficient to compensate for the lack of withheld testimony, documents, or other evidence. If in the presiding officer's opinion such relief would not be sufficient, the presiding officer shall certify to the Commission a request that court enforcement of the subpoena or other discovery order be sought.

#### Subpart E—Prehearing Conferences and Hearings

##### § 210.40 Prehearing conferences.

(a) *When appropriate.* The presiding officer in any investigation may, and upon motion of any party or where it appears probable that the hearing will extend for more than five (5) days he shall, direct counsel or other representatives for all parties to meet with him for one or more conferences to consider any or all of the following—

(1) Simplification and clarification of the issues;

(2) Scope of the hearing;

(3) Necessity or desirability of amendments to pleadings, subject, however, to the provisions of § 210.23 of this part;

(4) Stipulations, admissions of fact and of the contents and authenticity of documents;

(5) Expedition in the discovery and presentation of evidence including, but not limited to, restriction of the number of expert, economic, or technical witnesses; or

(6) Such other matters as may aid in the orderly and expeditious disposition of the investigation, including disclosure of the names of witnesses and the exchange of documents or other physical exhibits which will be introduced in evidence in the course of the hearing.

(b) *Subpoenas.* Prehearing conferences may be convened for the purpose of accepting returns on subpoenas *duces tecum* issued pursuant to the provisions of § 210.35(a) (2) of this part.

(c) *Reporting.* Prehearing conferences, in the discretion of the presiding officer,

may or may not be stenographically reported, and whether reported or not shall not be public unless all parties attending said conferences so agree.

(d) *Order.* The presiding officer shall enter in the record an order which recites the results of the conference. Such order shall include the presiding officer's rulings upon matters considered at the conference, together with appropriate direction to the parties. The presiding officer's order shall control the subsequent course of the hearing, unless modified to prevent manifest injustice.

##### § 210.41 General provisions for hearings.

(a) *Purpose of hearings.* Unless otherwise ordered by the Commission—

(1) A hearing shall be held in each investigation under § 337 of the Tariff Act for the purpose of taking evidence and hearing argument as to whether there is a violation of § 337 of the Tariff Act;

(2) A hearing shall also be held, when requested by complainant, for the purpose of taking evidence and hearing argument as to whether there is reason to believe there is a violation of § 337 of the Tariff Act.

(b) *Public hearings.* All hearings in investigations under this part shall be public unless otherwise ordered by the presiding officer.

(c) *Expedition.* Hearings shall proceed with all reasonable expedition, and, insofar as practicable, shall be held at one place, and shall continue, unless otherwise ordered by the presiding officer, until completed.

(d) *Rights of parties.* Every party shall have the right of due notice, cross-examination, presentation of evidence, objection, motion, argument, and all other rights essential to a fair hearing.

(e) *Time limits for hearings.* Unless otherwise ordered by the Commission—

(1) The hearing to determine whether there is a violation of § 337 of the Tariff Act shall be completed within eight (8) months after the date of publication of a notice in the FEDERAL REGISTER instituting the investigation and within fourteen (14) months after the date of such notice when the investigation is designated to be a "more complicated" investigation by notice published in the FEDERAL REGISTER; and

(2) The hearing to determine whether there is reason to believe that there is a violation of § 337 of the Tariff Act shall be completed within three (3) months after publication of a notice in the FEDERAL REGISTER instituting the investigation.

(f) *Presiding officer.* A presiding officer shall preside over each hearing.

##### § 210.42 Evidence.

(a) *Burden of proof.* The complainant shall have the burden of proof, but the proponent of any factual proposition shall be required to sustain the burden of proof with respect thereto.

(b) *Admissibility.* Relevant, material, and reliable evidence shall be admitted. Irrelevant, immaterial, unreliable, and

unduly repetitious evidence shall be excluded. Immaterial or irrelevant parts of an admissible document shall be segregated and excluded so far as practicable.

(c) *Information obtained in investigations.* Any documents, papers, books, physical exhibits, or other materials or information obtained by the Commission under any of its powers may be disclosed by the Commission investigative attorney when necessary in connection with investigations and may be offered in evidence by the Commission investigative attorney.

(d) *Official notice.* When any decision of the presiding officer rests, in whole or in part, upon the taking of official notice of a material fact not appearing in evidence of record, opportunity to disprove such noticed fact shall be granted any party making timely motion therefor.

(e) *Objections.* Objections to evidence shall be timely made and briefly state the grounds relied upon, but the hearing transcript shall not include argument or debate thereon except as ordered by the presiding officer. Rulings on all objections shall appear in the record.

(f) *Exceptions.* Formal exception to an adverse ruling is not required.

(g) *Excluded evidence.* When an objection to a question propounded to a witness is sustained, the examining attorney may make a specific offer of what he expects to prove by the answer of the witness, or the presiding officer may, in his discretion, receive and report the evidence in full. Rejected exhibits, adequately marked for identification, shall be retained in the record so as to be available for consideration by any reviewing authority.

##### § 210.43 Record.

(a) *Reporting and transcription.* Hearings shall be reported and transcribed by the official reporter of the Commission under the supervision of the presiding officer, and the original transcript shall be a part of the record and the sole official transcript.

(b) *Corrections.* Corrections of the official transcript may be made only when they involve errors affecting substance and then only in the manner herein provided. Corrections ordered by the presiding officer or agreed to in a written stipulation signed by all counsel and parties not represented by counsel, and approved by the presiding officer, shall be included in the record, and such stipulations, except to the extent they are capricious or without substance, shall be approved by the presiding officer. Corrections shall not be ordered by the presiding officer except upon notice and opportunity for the hearing of objections. Such corrections shall be made by the official reporter by furnishing substitute typed pages, under the usual certificate of the reporter, for insertion in the official transcript. The original uncorrected pages shall be retained in the files of the Commission.

(c) *Certification of record.* The record will be certified to the Commission by the presiding officer upon his filing of a

recommended determination or at such earlier time as the Commission may order.

##### § 210.44 In camera orders.

(a) *Definition.* Except as hereinafter provided, documents and testimony made subject to *in camera* orders are not made a part of the public record, but are kept confidential in an *in camera* record, and only counsel before the Commission, authorized Commission personnel, and court personnel concerned with judicial review shall have access thereto. The right of the presiding officer, the Commission, and reviewing courts to disclose *in camera* data to the extent necessary for the proper disposition of the proceeding is specifically reserved.

(b) *In camera treatment of documents and testimony.* The presiding officer shall have authority, but only in those unusual and exceptional circumstances when good cause is found on the record, to order documents or oral testimony offered in evidence, whether admitted or rejected, to be placed *in camera*. The order shall specify the date on which *in camera* treatment expires and shall include—

(1) A description of the documents and testimony;

(2) A full statement of the reasons for granting *in camera* treatment; and

(3) A full statement of the reasons for the date on which *in camera* treatment expires.

Any party desiring, for the preparation and presentation of the case, to disclose *in camera* documents or testimony to experts, consultants, prospective witnesses, or witnesses, shall make application to the presiding officer setting forth the justification therefor. The presiding officer, in granting such application for good cause found, shall enter an order protecting the rights of the affected parties and preventing unnecessary disclosure of information. *In camera* documents and the transcript of testimony subject to an *in camera* order shall be segregated from the public record and filed in a sealed envelope, bearing the title and docket number of the investigation, the notation "*In camera* Record", and the date on which *in camera* treatment expires.

(c) *Part of confidential record.* *In camera* documents and testimony shall constitute a part of the confidential record of the Commission.

(d) *References to in camera information.* In the submittal of proposed findings, briefs, or other papers, counsel for all parties shall make a good faith attempt to refrain from disclosing the specific details of *in camera* documents and testimony. This shall not preclude references in such proposed findings, briefs, or other papers to such documents or testimony including generalized statements based on their contents. To the extent that counsel consider it necessary to include specific details of *in camera* data in their presentations, such data shall be incorporated in separate proposed findings, briefs, or other papers

marked "Business Confidential", which shall be placed *in camera* and become a part of the *in camera* record.

#### Subpart F—Determinations and Actions Taken

##### § 210.50 Summary determinations.

(a) *Motions for summary determinations.* Any party may move with any necessary supporting affidavits for a summary determination in his favor upon all or any part of the issues to be determined in the investigation. Counsel or other representatives in support of the complaint may so move at any time after thirty (30) days following the date of service of the complaint and notice instituting the investigation, and any other party or a respondent may so move at any time after the date of the notice in the FEDERAL REGISTER instituting the investigation. Any such motion by any party, however, must be filed at least thirty (30) days before the date fixed for any hearing herein provided.

(b) *Opposing affidavits; oral argument; time and basis for determination.* Any nonmoving party may, within ten (10) days after service of the motion, file opposing affidavits. The presiding officer may, in his discretion, set the matter for oral argument and call for the submission of briefs or memoranda. The determination sought by the moving party shall be rendered if the pleadings and any depositions, admissions on file, and affidavits show that there is no genuine issue as to any material fact and that the moving party is entitled to a summary determination as a matter of law.

(c) *Affidavits.* Affidavits shall set forth such facts as would be admissible in evidence and shall show affirmatively that the affiant is competent to testify to the matters stated therein. The presiding officer may permit affidavits to be supplemented or opposed by depositions or further affidavits. When a motion for summary determination is made and supported as provided in this rule, a party opposing the motion may not rest upon mere allegations or denials in his pleading; his response by affidavits or as otherwise provided in this rule, must set forth specific facts showing that there is a genuine issue of fact for hearing. If no such response is filed, a summary determination, if appropriate, shall be rendered.

(d) *Refusal of application for summary determination; continuances and other orders.* Should it appear from the affidavits of a party opposing the motion that he cannot, for reasons stated, present by affidavit facts essential to justify his opposition, the presiding officer may refuse the application for summary determination or may order a continuance to permit affidavits to be obtained or depositions or other discovery to be had or make such other order as is appropriate and a ruling to that effect shall be made a matter of record.

(e) *Order establishing facts.* If on motion under this rule a summary determination is not rendered upon all the allegations or for all the relief asked and a

hearing is necessary, the presiding officer shall make an order specifying the facts that appear without substantial controversy and directing further proceedings in the investigation. The facts so specified shall be deemed established.

(f) *Effect of summary determination.* An order of summary determination shall constitute a determination of the Commission under § 210.55 of this part where the Commission is the presiding officer. An order of summary determination under this section, where the presiding officer is not the Commission, shall constitute a recommended determination of the presiding officer under § 210.53 of this part.

##### § 210.51 Termination of investigation.

(a) *Motions for termination.* Any party may move at any time for an order to terminate an investigation before the Commission, to terminate the investigation of all issues in an investigation in regard to one or more, but not all, of the respondents, or to terminate the investigation as to any part of the issues in regard to any or all of the respondents.

(b) *Termination based upon licensing and other written agreements between the parties.* Where a motion for termination is based upon licensing and other written agreements entered into between the parties, a copy of such licensing and other agreements shall be included with the motion.

(c) *Default.* An investigation before the Commission, upon the occurrence of the condition of default set forth in § 210.21(d) of this part, may be terminated as to one or more of the respondents in the investigation.

(d) *Effect of termination.* An order of termination shall constitute a determination of the Commission under § 210.55 of this part where the Commission is the presiding officer. An order of termination under this section, when the presiding officer is not the Commission, shall constitute a recommended determination of the presiding officer under § 210.53 of this part.

##### § 210.52 Proposed findings and conclusions.

At the time a motion for summary determination under § 210.50 of this part or a motion for termination under § 210.51 (a) or § 210.51 (b) of this part is made, or where it is determined that a respondent is in default under § 210.21 (d) or § 210.51 (c) of this part, and at the close of the reception of evidence in any hearing under this part, or within a reasonable time thereafter fixed by the presiding officer, any party may file with the presiding officer for the consideration of the presiding officer proposed findings of fact and conclusions of law together with reasons therefor and, where appropriate, briefs in support thereof. Such proposals shall be in writing, shall be served upon all parties, and shall contain adequate references to the record and authorities relied on. The presiding officer shall rule, and the record shall show the presiding officer's ruling, on each proposed finding and conclusion.

## § 201.53 Recommended determination.

(a) *When filed.* When the presiding officer is not the Commission the presiding officer shall certify the record to and file with the Commission his recommended determination as to whether there is, or whether there is reason to believe there is a violation of § 337 of the Tariff Act. Such recommended determination shall be filed with the Commission within thirty (30) days from the date of filing of a motion for summary determination under § 210.50 of this part, a motion for termination under § 210.51 (a) or § 210.51 (b) of this part, or a determination that a respondent is in default under § 210.21 (d) or § 210.51 (c) of this part, and within sixty (60) days after completion of the reception of evidence at a hearing held with respect to whether there is a violation of § 337 of the Tariff Act. Upon written request from the presiding officer, the Commission may, by order, allow a longer time. When a hearing has been held with respect to whether there is reason to believe that there is a violation of § 337 of the Tariff Act, a recommended determination shall be made within thirty (30) days after the reception of evidence in such hearing. A copy of each recommended determination shall be served on all parties to the investigation.

(b) *Content.* The recommended determination shall include a statement of findings (with specific page references to principal supporting items of evidence in the record) and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record.

(c) *Recommended determination made by presiding officer.* The recommended determination shall be made and filed by the presiding officer who presided over the hearings except when he shall have become unavailable to the Commission.

(d) *Reopening of proceeding by the presiding officer.* At any time prior to the filing of his recommended determination, the presiding officer may reopen the proceeding for the reception of further evidence.

## § 210.54 Filing of exceptions to the recommended determination and alternative findings of fact and conclusions of law.

The parties shall be allowed ten (10) days after receipt of service of the recommended determination to file with the Commission exceptions to the recommended determination and alternative findings of fact and conclusions of law. All exceptions and alternative findings of fact and conclusions of law shall be concisely supported by references to the record and the law relied upon.

## § 210.55 Commission determination and action.

(a) *Review of recommended determination.* Subject to the provisions of § 210.54 of this part, upon receipt of a recommended determination under § 210.53 of this part and the record, the

Commission shall review the same and determine, as the case may be, whether there is a violation of § 337 of the Tariff Act or whether there is reason to believe there is such violation, and, where appropriate, the amount of any bond required and whether any action (exclusion of articles from entry, exclusion of articles from entry except under bond, and cease and desist order) should be ordered, and the form in which such action should be ordered.

(b) *Where the presiding officer is the Commission.* Where the Commission has presided at the taking of evidence, it shall determine, as the case may be, whether there is a violation of § 337 of the Tariff Act or whether there is reason to believe there is such a violation and, where appropriate, whether any action (exclusion of articles from entry, exclusion of articles from entry except under bond, and cease and desist order) should be ordered, and the form in which such action should be ordered, and the amount of any bond required.

(c) *Service of Commission determination upon the parties.* A Commission determination shall be served upon each party to the investigation.

## § 210.56 Petition for reconsideration.

Within fourteen (14) days after completion of service of a Commission determination, any party may file with the Commission a petition for reconsideration of such determination, or any action ordered to be taken thereunder, setting forth the relief desired and the grounds in support thereof. Any petition filed under this subsection must be confined to new questions raised by the determination or action ordered to be taken thereunder and upon which the petitioner had no opportunity to submit arguments. Any party desiring to oppose such a petition shall file an answer thereto within five (5) days after service upon such party of the petition. The filing of a petition for reconsideration shall not operate to stay the effective date of the determination or action ordered to be taken thereunder or to toll the running of any statutory time period affecting such determination or action ordered to be taken thereunder unless specifically so ordered by the Commission.

## § 210.57 Disposition of petition for reconsideration.

The Commission may affirm, set aside, or modify its determination, including any action ordered by it to be taken thereunder. Where appropriate, the Commission may order the presiding officer to take additional evidence.

## Subpart G—Appeals

## § 210.60 Appeals of final determination to the United States Court of Customs and Patent Appeals.

A final determination of the Commission pursuant to which the Commission has ordered the exclusion of articles from entry into the United States, or, where appropriate, has ordered the exclusion of articles from entry into the United

States except under bond, or has ordered a cease and desist order, or a final determination that there is no reason to believe that there is, or that there is not, a violation of § 337 of the Tariff Act, may be appealed by any party within sixty (60) days from the date such determination becomes final to the United States Court of Customs and Patent Appeals.

## § 210.61 Interlocutory appeals.

Rulings of the presiding officer on motions may not be appealed to the Commission prior to the presiding officer's issuance of his recommended determination except in the following circumstances—

(a) *Appeals without leave of the presiding officer.* The Commission may, in its discretion, entertain interlocutory appeals where a ruling of the presiding officer—

(1) Requires the disclosure of the Commission records or requires the appearance of government officials pursuant to § 210.35 (c) of this part, or

(2) Grants or denies an application for intervention pursuant to the provisions of § 210.6 of this part.

Appeals from such a ruling may be sought by filing with the Commission an application for review, not to exceed fifteen (15) pages, within five (5) days after notice of the presiding officer's ruling. Answer thereto may be filed within five (5) days after service of the application for review. The application for review should specify the person or party taking the appeal; should designate the ruling or part thereof from which appeal is being taken; and should specify the reasons and present arguments as to why review is being sought. The Commission upon its own motion may enter an order staying the return date of an order issued by the presiding officer pursuant to § 210.35 (c) of this part or placing the matter on the Commission's docket for review. Any order placing the matter on the Commission's docket for review will set forth the scope of the review and the issues which will be considered and will make provision for the filing of briefs if deemed appropriate by the Commission.

(b) *Appeals with leave of the presiding officer.* Except as hereinbefore provided in paragraph (a) of this section, applications for review of a ruling by the presiding officer may be allowed only upon request made to the presiding officer and a determination by the presiding officer in writing, with justification in support thereof, that the ruling involves a controlling question of law or policy as to which there is substantial ground for difference of opinion and that an immediate appeal from the ruling may materially advance the ultimate completion of the investigation or subsequent review will be an inadequate remedy. Applications for review in writing may be filed, not to exceed fifteen (15) pages, within five (5) days after notice of the presiding officer's determination. Answer thereto may be filed within five (5) days after service of the application for review. The Commission may

thereupon, in its discretion, permit an appeal. Commission review, if permitted, shall be confined to the application for review and answer thereto, without oral argument or further briefs, unless otherwise ordered by the Commission.

(c) *Investigation not stayed.* Application for review and appeal hereunder shall not stay the investigation before

the presiding officer unless the presiding officer or the Commission shall so order.

By order of the Commission.

Issued: August 27, 1975.

KENNETH R. MASON,  
Secretary.

# **notices**

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## **DEPARTMENT OF INTERIOR**

### **National Park Service NATIONAL REGISTER OF HISTORIC PLACES**

#### **Additions, Deletions, and Corrections**

By notice of the FEDERAL REGISTER of February 4, 1975, Part II, there was published a list of the properties included in the National Register of Historic Places. Further notice is hereby given that certain amendments or revisions in the nature of additions, deletions, or corrections to the previously published list are adopted as set out below.

It is the responsibility of all Federal agencies to take cognizance of the properties included in the National Register as herein amended and revised in accordance with section 106 of the National Historic Preservation Act of 1966, 80 Stat. 915, 16 U.S.C. 470 et seq. (1970 ed.), and the procedures of the Advisory Council on Historic Preservation, 36 CFR Part 800.

The following properties have been added to the National Register since August 5, 1975. National Historic Landmarks are designated by NHL; properties recorded by Historic American Buildings Survey are designated by HABS; properties recorded by Historic American Engineering Record are designated by HAER:

#### **CALIFORNIA**

##### *Riverside County*

Lake, Elsinore, Crescent Bathhouse, 201 W. Graham Ave. (7-30-75).

##### *Santa Cruz County*

Santa Cruz, Golden Gate Villa, 924 3rd St. (7-24-75).

Santa Cruz, Live Oak Ranch, 105 Mentel Ave. (7-10-75).

#### **CONNECTICUT**

##### *New London County*

New London, Thames Shipyard, Farnsworth St. (4-17-75).

#### **DISTRICT OF COLUMBIA**

Brooks Mansion, 301 Newton St., NE (7-17-75).

Mt. Zion United Methodist Church, 1334 29th St., NW (7-24-75).

#### **GEORGIA**

##### *Chatham County*

Port Wentworth vicinity, Mulberry Grove Site, N of Port Wentworth (7-17-75).

##### *Clarke County*

Athens, Comak House, 279 Melgs St., (7-7-75) HABS.

##### *Marion County*

Buena Vista vicinity, Fort Perry, N of Buena Vista off GA 41 (7-30-75).

#### **GUAM**

Asan, Asan Ridge Battle Area, between Asan and Nimitz Hill (7-18-75).

#### **INDIANA**

##### *Franklin County*

Brookville, Brookville Historic District, town of Brookville between Whitewater River and East Fork (7-25-75).

#### **IOWA**

##### *Dubuque County*

Dyersville, Allen House, 515 1st Ave. W. (7-10-75).

Farley vicinity, Lincoln School, about 4 mi. N of Farley (7-24-75).

#### **KANSAS**

##### *Shawnee County*

Topeka, Memorial Building, 120 W. 10th Ave. (7-17-75).

#### **KENTUCKY**

##### *Bourbon County*

Paris, Allen-Alexander House (Albemarle), off U.S. 68 near Jct. with U.S. 460 (7-24-75).

##### *Franklin County*

Frankfort vicinity, Valley Farm Ruins (Marshall-Smith-Scott Place), E of Frankfort (7-24-75).

##### *Greenup County*

Wurtland vicinity, McConnell House, Law Office, and Slave Quarters, W of Wurtland on U.S. 23 (7-30-75).

##### *Jefferson County*

Louisville, St. Therese Roman Catholic Church, School, and Rectory, 1010 Schiller Ave. (7-28-75).

Louisville, University of Louisville School of Medicine, 101 W. Chestnut St. (7-30-75) HABS.

##### *Johnson County*

Oil Springs vicinity, Blanton Archeological Site, N of Oil Springs (7-30-75).

Oil Springs vicinity, Sparks Shelter Archeological Site, NE of Oil Springs on W side of Paint Creek (7-30-75).

##### *Kenton County*

Ovington, Licking Riverside Historic District, roughly bounded by 4th, Scott, 8th Sts., and the Licking River (7-30-75).

##### *Morgan County*

Redbush vicinity, Ferguson, Gar, Site, NW of Redbush off KY 172 (6-30-75).

Redbush vicinity, Ray Burchwell Archeological Site, NW of Redbush (7-30-75).

Redbush vicinity, Ray Hill Archeological Site, W of Redbush off KY 172 (7-30-75).

Relief vicinity, Patoke Archeological Site, S of Relief (7-30-75).

Relief vicinity, Sherman Archeological Site, S of Relief (7-30-75).

##### *Nelson County*

Bardstown, Edgewood, 310 S. 5th St. (7-30-75).

#### **Oldham County**

Powee Valley, Locust, The, LaGrange Rd. off KY 146 (7-30-75).

#### **LOUISIANA**

##### *East Baton Rouge Parish*

Baton Rouge, Old Louisiana Governor's Mansion, 502 North Blvd. (7-24-75).

##### *Orleans Parish*

New Orleans, St. Louis Cemetery No. 1, bounded by Basin, St. Louis, Conti, and Tremé Sts. (7-30-75).

New Orleans, St. Louis Cemetery II, bounded by Claiborne, Robertson, St. Louis, and Iberville Sts. (7-30-75).

#### **MARYLAND**

##### *Baltimore (independent city)*

Seton Hill Historic District, bounded by Pennsylvania Ave., Franklin, Eutaw, McCulloh, and Orchard Sts. (7-30-75).

##### *Cecil County*

Crystal Beach vicinity, Grear Prehistoric Village Site, S of Crystal Beach (7-30-75).

#### **MASSACHUSETTS**

##### *Berkshire County*

Pittsfield, Park Square Historic District, at intersection of North, South, East, and West Sts. (7-24-75).

##### *Bristol County*

New Bedford, Fire Station No. 4, 79 S. 6th St. (7-24-75).

##### *Essex County*

Lawrence, North Canal, parallel to Canal St. (7-29-75).

##### *Franklin County*

Greenfield vicinity, Riverside Archeological District, NE of Greenfield on MA 2 (7-9-75).

#### **MICHIGAN**

##### *Bay County*

Bay City, City Hall, 301 Washington St. (7-18-75).

#### **MINNESOTA**

##### *Ramsey County*

St. Paul, Blair Flats (Albion Hotel), 165 Western Ave. (7-18-75).

#### **MISSISSIPPI**

##### *Lafayette County*

Oxford, St. Peter's Episcopal Church, 113 S. 9th St. (7-24-75) HABS.

#### **MISSOURI**

The following properties have been demolished and therefore removed from the National Register of Historic Places:

#### **ILLINOIS**

##### *Henry County*

Geneseo, Old South School.

#### **MISSOURI**

## NOTICES

This listing is not complete. Pursuant to the authorities discussed herein, an Agency Official shall refer any questionable actions to the Director, Office of Archeology and Historic Preservation, National Park Service, Department of the Interior, for an opinion respecting a property's eligibility for inclusion in the National Register.

Historical properties which are determined to be eligible for inclusion in the National Register of Historic Places are entitled to protection pursuant to the procedures of the Advisory Council on Historic Preservation, 36 CFR Part 800. Agencies are advised that in accord with the procedures of the Advisory Council on Historic Preservation, before an agency of the Federal Government may undertake any project which may have an effect on such a property, the Advisory Council on Historic Preservation shall be given an opportunity to comment on the proposal.

## ALABAMA

## Madison County

Huntsville, Lee House, Red Stone Arsenal.

## ALASKA

## Northwestern District

Little Diomed Island, Iyapana, John, House.

## ARIZONA

## Coconino County

Grand Canyon National Park, Old Post Office, Grand Canyon National Park, O'Neill, Buckley, Cabin.

Grand Canyon National Park, Ranger's Dormitory.

## Graham County

Foot Wash—No Name Wash Archeological District.

## Mohave County

Colorado City vicinity, Short Creek Reservoir No. 1, Site NA 13,337.

Colorado City vicinity, Short Creek Reservoir No. 1, Site NA 13,338.

## Maricopa County

Cave Creek Archeological District.

New River Dams Archeological District, Site T-46.

[INT DES 75-49]

**RIO GRANDE AND MIDDLE RIO GRANDE PROJECTS, NEW MEXICO**

**Availability of Draft Environmental Statement**

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental impact statement on a program to (1) more effectively meet New Mexico's water obligation under the Rio Grande Compact by providing efficient transport of water to Elephant Butte Reservoir, (2) conserve both surface and ground water, (3) reduce the rate of aggradation of the Rio Grande floodway, (4) provide effective flood control, and (5) provide increased safety for the public using Elephant Butte and Caballo Reservoirs in New Mexico. Written comments may be submitted to the Regional Director (address below) on or before October 17, 1975.

Copies are available for inspection at the following locations:

Office of Assistant to the Commissioner—Ecology, Room 7620, Bureau of Reclamation, Department of the Interior, Washington, D.C. 20240, telephone (202) 343-4991. Division of Engineering Support, Technical Services Branch, E&R Center, Denver Federal Center, Denver, Colorado 80225, telephone (303) 234-3007.

Office of the Regional Director, Bureau of Reclamation, Herring Plaza, Box H-4377, Amarillo-Texas 79101, telephone (806) 376-2404.  
Upper Rio Grande Basin Projects Office, Post Office Box 252, Albuquerque, New Mexico 87103, telephone (505) 768-3381.  
Rio Grande Project, Post Office Drawer P, El Paso, Texas 79958, telephone (915) 543-7741.

Single copies of the draft statement may be obtained on request to the Commissioner of Reclamation or the Regional Director. Please refer to the statement number above.

Dated: August 27, 1975.

STANLEY D. DOREMUS,  
Deputy Assistant Secretary  
of the Interior.

## DEPARTMENT OF THE TREASURY

### Customs Service

[041002]

### IMPORTATIONS OF CAB CHASSIS

#### Tariff Classification; Solicitation of Views

Under an established and uniform practice, importations of cab chassis (consisting of frame, suspension system, wheels, engine, steering mechanism, and cab) without bodies, having no cargo carrying capacity in their condition as imported, have been classified under the provision for chassis for automobile trucks, in item 692.20, Tariff Schedules of the United States (TSUS), and dutiable at the rate of 4 percent ad valorem.

The contention has been advanced that the described articles are unfinished trucks and, therefore, should be classified under the provision for automobile trucks valued at \$1,000 or more, in item 692.02, TSUS, and dutiable at the modified rate of 25 percent ad valorem under item 945.69, TSUS, following General Headnote 10(h), TSUS.

As a decision to this effect would result in the assessment of duties at a rate higher than that previously assessed, notice is hereby given pursuant to § 152.15, Customs Regulations (19 CFR 152.15), that the Customs Service is reviewing its practice of classifying cab chassis.

Consideration will be given to any relevant data, views, or arguments pertaining to the correct classification of this merchandise which are submitted in writing to the Commissioner of Customs, Washington, D.C. 20229, not later than October 2, 1975.

G. R. DICKERSON,  
Acting Commissioner of Customs.

Approved: August 22, 1975.

DAVID R. MACDONALD,  
Assistant Secretary  
of the Treasury.

## NOTICES

[T.D. 75-219]

### CLARKE O. WALKER Cancellation With Prejudice of Customhouse Broker's License

August 26, 1975.

Notice is hereby given that the Commissioner of Customs on August 26, 1975, pursuant to section 641, Tariff Act of 1930, as amended (19 U.S.C. 1641), and § 111.51(b), Customs Regulations (19 CFR 111.51(b)), upon the specific request of Clarke O. Walker canceled with prejudice customhouse broker's license No. 4949 issued to him on April 29, 1974, for the Customs District of Cleveland. The Commissioner's decision is effective as of August 26, 1975.

VERNON D. ACREE,  
Commissioner of Customs.

### Office of the Secretary PRESIDENT'S LABOR-MANAGEMENT COMMITTEE Meeting

Notice is hereby given that the President's Labor-Management Committee will meet in the Secretary's Conference Room in the Treasury Department on September 17, 1975, at 10 a.m.

The purpose of the meeting is to determine long term Federal policy options to encourage the creation of jobs.

A determination as required by section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) has been made that this meeting is for the purpose of considering matters falling within the exemption to public disclosure set forth in section 552(b)(5) of Title 5 of the United States Code, and that the public interest requires such meeting be closed to public participation.

Dated: August 28, 1975

[SEAL] WARREN F. BRECHT,  
Assistant Secretary  
(Administration).

### Forest Service

### SHAFFER BUTTE PLANNING UNIT

#### Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Shafer Butte Planning Unit, Boise National Forest, Idaho. The Forest Service report number is USDA-FS-FES (Adm) R4-75-15.

The environmental statement identifies and evaluates the probable effects of the land use plan for the Shafer Butte Planning Unit on the Boise National Forest, Idaho. The purpose of the plan is to allocate the 49,000 acres of National Forest lands within the unit to specific resource uses and activities; establish management objectives; document management direction, management decisions, and necessary coordination between resource uses and activities; and provide for the protection, use, and

## NOTICES

development of the various resources within the planning unit. The plan provides for minimization of adverse effects and maximization of desirable effects.

This final environmental statement was transmitted to CEQ on August 25, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St. and Independence Ave., SW., Washington, D.C. 20250.

Regional Planning Office, USDA, Forest Service, Federal Building, Room 4403, 324-25th Street, Ogden, Utah 84401.  
Forest Supervisor, Boise National Forest, 1075 Park Boulevard, Boise, Idaho 83706.  
District Forest Ranger, Boise Ranger District, 1075 Park Boulevard, Boise, Idaho 83706.

A limited number of single copies are available upon request from Forest Supervisor Edward C. Maw, Boise National Forest, 1075 Park Boulevard, Boise, Idaho 83706.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

Dated: August 25, 1975.

P. M. REES,  
Director, Regional  
Planning and Budget.

## DEPARTMENT OF COMMERCE

### Maritime Administration

[Docket No. S-463]

### UNITED STATES LINES, INC.

#### Corrected Notice of Application

Notice of Application for the above company was given in the Federal Register of August 26, 1975, (40 FR 37244), indicating that United States Lines, Inc., had filed an application with the Maritime Subsidy Board pursuant to Title VI (46 U.S.C. 1171-1183) of the Merchant Marine Act, 1936, as amended (the Act), for a long-term, operating-differential subsidy agreement.

Said notice erroneously gave the date of the application of United States Lines, Inc., as August 1, 1974. The date of the application is August 1, 1975.

Said notice also omitted essential Trade Route No. 6 from the listing of essential trade routes on which United States Lines, Inc., proposes to operate. The applicant proposes to provide services which include areas or ports on essential Trade Route Nos. 4, 6, 5-7-8-9, 10, 11, 12, 13, 17, 23, 25, 26, and 29.

As the corrections herein made would not prejudice the rights of any party having interest in such application and desiring a hearing on issues pertinent to section 605(c) of the Act (46 U.S.C. 1175), the date by which petitions of leave to intervene must be filed remains at the close of business on September 15, 1975.

(Catalog of Federal Domestic Assistance Program No. 11.504 Operating-Differential Subsidies (ODS))

By Order of the Maritime Subsidy Board/Maritime Administration.

Dated: August 28, 1975.

JAMES S. DAWSON, JR.,  
Secretary.

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Alcohol, Drug Abuse, and Mental Health Administration

### MINORITY ADVISORY COMMITTEE

#### Notice of Meeting

In accordance with Section 10(a) (2) of the Federal Advisory Committee Act (Public Law 92-463), announcement is made of the following National Advisory body scheduled to assemble the month of September 1975:

### MINORITY ADVISORY COMMITTEE, ADAMHA

September 19; 9:30 a.m.—Open.  
Conference Room 14-105, Parklawn Bldg., Rockville, Maryland.  
Contact Ernest F. Hurst, Parklawn Bldg., Rm. 13C-15, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-3838.

Purpose: The Minority Advisory Committee, ADAMHA, advises the Secretary, Department of Health, Education, and Welfare, and the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, on needs, programs, and activities regarding minority alcohol, drug abuse, and mental health matters, and makes recommendations for possible solutions which meet the needs and concerns of minority groups throughout the United States. The Committee functions in an advisory capacity to the Administrator, ADAMHA, on these matters which relate to the National Institute on Alcohol Abuse and Alcoholism, National Institute on Drug Abuse, and the National Institute of Mental Health.

Agenda: This meeting will be open to the public. The agenda will include (1) consideration of the FY 1976 Operating Plan, (2) a Report on Early and Periodic Screening, Diagnosis, and Treatment Program, and (3) discussion with the Administrator of ADAMHA plans, programs, and priorities. Agenda items are subject to change as priorities dictate. Attendance by the public will be limited to space available.

Substantive program information may be obtained from the contact person listed above.

Mr. James C. Helsing, Deputy Director, Office of Public Affairs, ADAMHA, will furnish, on request, summaries of the meeting and a roster of committee members. Mr. Helsing is located in Room 16-95, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852, telephone 301-443-3783.

Dated: August 26, 1975.

CAROLYN T. EVANS,  
Committee Management Officer,  
Alcohol, Drug Abuse, and  
Mental Health Administration.

[FR Doc. 75-23118 Filed 8-29-75; 8:45 am]

Food and Drug Administration  
[Docket No. 75N-0243]  
**FEDERAL-STATE COOPERATIVE PROGRAMS**

**Codification of Pasteurized Milk Ordinance and Interstate Milk Shippers Program**

On May 5, 1975, a notice was published in the FEDERAL REGISTER (40 FR 19513) announcing the availability of a draft of proposed regulations for pasteurized milk in interstate commerce to be issued as Parts 960 through 966 of Subchapter I—Federal-State Cooperative Programs, of Chapter I, Title 21 of the Code of Federal Regulations.

Copies of the draft were distributed to the Federal, State and industry groups that would be most directly affected if the proposed regulations were adopted, and copies were made available through the office of the Food and Drug Administration Hearing Clerk to any other interested person. A period of 90 days was provided, until August 4, 1975, for submitting comments on the draft to the office of the Hearing Clerk.

During the comment period, the chairman of the National Conference on Interstate Milk Shipments (NCIMS), which consists of State regulatory officials responsible for milk sanitation, met with Food and Drug Administration officials to discuss this matter and submitted a formal resolution in behalf of the NCIMS. The NCIMS opposes publication of the proposed regulations as Federal regulations. In addition, the NCIMS requested a 12-month extension of time to review the draft of the proposed regulations and prepare a response.

Similar requests were also received from the National Association of State Departments of Agriculture, the National Milk Producers Federation, the Milk Industry Foundation, and others.

Based on these discussions and written comments on the subject draft, the Commissioner of Food and Drugs has concluded that he would take no further formal action on the proposed codification of the Pasteurized Milk Ordinance and the Interstate Milk Shippers Program until at least 30 days after the next NCIMS meeting, which is expected to be held early in 1976. At that time and after considering any report that the NCIMS may submit, the Commissioner will determine what course of action is appropriate.

Pertinent views and information may continue to be submitted to the Bureau of Foods, Dairy and Lipid Products Branch (HFF-415), Food and Drug Administration, 200 C St. SW., Washington, DC 20204. All submissions will be considered prior to taking formal action.

Dated: August 25, 1975.

A. M. SCHMIDT,  
Commissioner of Food and Drugs.  
[FR Doc. 75-23114 Filed 8-29-75; 8:45 am]

## NOTICES

Office of Education  
**COLLEGE LIBRARY RESOURCES PROGRAM**

**Notice of Closing Date for Receipt of Applications**

Notice is hereby given that pursuant to the authority contained in Part A of Title II of the Higher Education Act of 1965 (20 U.S.C. 1021-1028), applications for basic grants are being accepted from institutions of higher education and other public and private nonprofit library agencies whose primary function is to provide library and information services to institutions of higher education on a formal cooperative basis. Processing of these applications will be subject to the availability of funds.

Applications must be received by the U.S. Office of Education Application Control Center on or before November 17, 1975.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue, S.W., Washington, D.C. 20202. Attention: 13-406. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than November 12, 1975, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail room in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets, S.W., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. *Program information and forms.* Information and application forms will be sent to all institutions which have previously participated in the program. This notice, however, is the official notification of the acceptance of basic grant applications under this program. Other institutions desiring to participate may obtain information and application forms from the Office of Libraries and Learning Resources, Division of Library Programs, Bureau of School Systems, Re-

gional Office Building Three, 7th and D Streets, S.W., Washington, D.C. 20202. Attention: 13-406.

D. *Applicable regulations.* The regulations applicable to this program include the Office of Education General Provisions Regulations (45 CFR Part 100a) and the College Library Resources regulations published in the FEDERAL REGISTER on November 18, 1974 at 40494.

(20 U.S.C. 1021-1023)

Dated: August 26, 1975.

(Catalog of Federal Domestic Assistance Number 13-406; College Library Resources Program)

T. H. BELL,  
U.S. Commissioner of Education.

[FR Doc. 75-23114 Filed 8-29-75; 8:45 am]

Office of the Secretary  
**FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED**  
**Periodic Interim Payments**

On July 16, 1975, there was published in the FEDERAL REGISTER (40 FR 29815) a final amendment to Subpart D of Regulations No. 5 (20 CFR Part 405), to become effective on August 15, 1975. This amendment requires that periodic interim payments (PIP) be made for no less than a 2 week period of services, with a payment interval of 2 weeks between the end of the period of services to which the payment applies and the date of payment, such interval creating an average lag of 3 weeks between delivery of an payment for services. These requirements change the payment interval and service period for those providers which as of the effective date of the regulations were receiving weekly PIP payments with no interval between the end of the weekly period of services and the payment applicable to it. In paragraph (1) of the Preamble to this amendment appeared the statement that intermediaries will be instructed to conform the reimbursement schedules of those providers receiving payment under already existing forms of the PIP mechanism to the revised payment schedule requirements and place all these providers in payment status under the revised schedule no later than September 15, 1975. Although the Department still believes the average 3 week lag is appropriate, strict adherence to the September 15, 1975, implementation date could result in the nonpayment of program reimbursement to over 800 hospitals on the PIP method for approximately four consecutive weeks. This effect is undesirable. It will create extraordinary cash flow problems for these hospitals, especially those located in the large urban centers, making it necessary for the hospitals to borrow equivalent funds from conventional lending sources.

Because it is realized that the time allowed by this amendment to place these

providers on the revised payment schedule will cause a severe fiscal problem for them, the Secretary has determined that additional time should be allowed to permit a phase-in of the revision of payment schedules for those providers receiving payment under pre-existing PIP mechanisms. Accordingly, this notice amends the Preamble to the final PIP regulations to provide for full implementation by May 31, 1976, rather than September 15, 1975. This change can be accomplished without affecting the objectives of the PIP regulations.

For the reasons given above, to alleviate fiscal problems which may occur for certain providers in the implementation of the final regulations, good cause exists to make this notice effective immediately. The date by which providers must be placed on the revised payment schedule is hereby changed to May 31, 1976, from September 15, 1975.

Dated: August 27, 1975.

DAVID MATTHEWS,  
Secretary of Health,  
Education, and Welfare.

[FR Doc. 75-23291 Filed 8-29-75; 8:45 am]

**DEPARTMENT OF TRANSPORTATION**

**National Highway Traffic Safety Administration**

[Docket No. EX75-22; Notice 2]

**MOTOR COACH INDUSTRIES, INC.**

**Petition for Modification of Temporary Exemption From Federal Motor Vehicle Safety Standard**

The National Highway Traffic Safety Administration has decided not to grant the petition by General Motors Corporation ("GM") to modify the temporary exemption from Federal Motor Vehicle Safety Standard No. 121, *Air Brake Systems*, granted Motor Coach Industries ("MCI").

Notice of the petition was published on July 7, 1975 (49 FR 28504), and an opportunity afforded for comments.

By an order published March 18, 1975 (40 FR 12307), the Administrator granted MCI and TMC (an allied corporation) "NHTSA Temporary Exemption Nos. 75-6A for MC5-B buses, expiring May 1, 1975, and 75-6B for MC-8 buses, expiring September 1, 1975, from Motor Vehicle Safety Standard No. 121 (paragraph S5.3.1 only)." GM asked that the scope of the exemption be narrowed and that the MC-8 buses be retrofitted to comply with Standard No. 121. Specifically, GM stated that MCI's problem concerned only the lightly loaded third axle and that "MCI should be required to meet all the requirements of FMVSS 121 including the majority of S5.3.1 except for the lightly loaded third axle which should be exempted only from the 'no-lockup' requirements of S5.3.1." In addition GM argued that "once the problem with the . . . computer on the third axle has been resolved, MCI should be able to retrofit each MC-8 bus manufactured during the exemption period and thus

## NOTICES

bring each of the buses into complete compliance with FMVSS 121." GM believed that "such a requirement would significantly alleviate the serious competitive disadvantages which non-exempt intercity bus manufacturers and their customers will experience during the exemption period," thus reducing "the substantial manufacturing cost and owner maintenance cost differences between exempt and non-exempt intercity buses." Finally it argued that retrofitting is in the public interest since the vehicles concerned are public conveyances that will be in continuous use over many years.

On July 7, 1975, the Administrator announced that he was considering granting GM's request in part. With respect to modifying the total exemption from S5.3.1, *Stopping distance-trucks and buses*, the NHTSA understood that MCI was, in fact, complying with all portions of S5.3.1 except the portion prohibiting lockup of the third axle. The NHTSA had also learned that MC-8 coaches produced by TMC and one-half of MCI's MC-8 production since the grant of the exemption had conformed with standard No. 121. NHTSA understood also that around July 1, 1975, MCI intended to install an anti-lock wiring harness as part of its production process. The Administrator therefore considered terminating Temporary Exemption No. 75-6B and issuing a new exemption that would expire September 1, 1975, conditioned upon retrofit by January 1, 1976, of all vehicles produced under the new exemption. The proposed effective date was the date of issuance of the new exemption.

Comments were received only from GM and MCI. GM again reiterated its original request that MCI be required to retrofit all non-conforming buses produced under the exemption. MCI advises that "they are phasing the anti-skid on all MC-8 coaches on the start of the assembly line as per June 25, 1975 with delivery to the customer scheduled for August 5, 1975." It therefore appears that MCI has acted in good faith to comply with Standard No. 121 in advance of the expiration of Exemption No. 75-6B, and that all its production will conform not later than August 5, 1975. The NHTSA therefore has determined that events have made unnecessary or impracticable the action proposed on July 7, 1975, and GM's petition is therefore denied.

(Sec. 3, Pub. L. 92-548; 86 Stat. 1159 (15 U.S.C. 1417); delegation of authority at 49 CFR 1.51.)

Issued on August 27, 1975.

ROBERT L. CARTER,  
Acting Administrator.

**ENVIRONMENTAL PROTECTION AGENCY**

[OPP-50028; FRL 423-1]

**HERCULITE PROTECTIVE FABRICS CORP.**

**Issuance of Experimental Use Permit**

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to Herculite Protective Fabrics Corporation, New York, N.Y. 10910. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 8730-EUP-2) allows the use of a total of 5.09 pounds of chlorpyrifos on cockroaches and waterbugs in residential, commercial, industrial, and institutional buildings. The program is authorized only in the States of California, Connecticut, Florida, Georgia, Indiana, Louisiana, Maryland, Michigan, New York, Oklahoma, Oregon, Tennessee, Texas, and Wisconsin. The experimental use permit is effective from August 3, 1975, to August 3, 1976.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: August 26, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

OPP 50030; FRL 423-3]

**MOBIL-CHEMICAL CO.****Issuance of Experimental Use Permit**

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to Mobil Chemical Company, Richmond, Virginia 23261. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172, Part 172 was published in the Federal Register on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 2224-EUP-8) allows the use of 1,000 pounds of ethopropion sugarcane to control nematodes and wireworms. A total of 250 acres is involved; the program is authorized only in Florida. The experimental use permit is effective from August 13, 1975, to August 13, 1976. A permanent tolerance for residues of the active ingredient in or on the raw agricultural commodity has been established.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: August 26, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

**NORTH DAKOTA STATE UNIVERSITY****Issuance of Experimental Use Permit**

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to North Dakota State University, Fargo, North Dakota 58102. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the Federal Register on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 25963-EUP-2) allows the use of 4 pounds of carbaryl (1-naphthyl methylcarbamate) on rangeland to control grasshoppers. A total of 50 acres is involved; the program is authorized only in North Dakota. This permit is being issued with the understanding that treated rangeland will not be used for grazing purposes. The experimental use permit is effective from August 11, 1975, to June 20, 1976.

**NOTICES**

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: August 26, 1975.

**PHOSTOXIN SALES, INC.****Issuance of Experimental Use Permit**

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to Phostoxin Sales, Inc., Minneapolis, Minnesota 55435. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the Federal Register on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 5857-EUP-2) allows the use of 196.04 pounds of aluminum phosphide on various insects on stored grain. The total amount of stored grain is approximately 300,000 bushels; the program is authorized only in the States of Louisiana, Oregon, and Texas. The experimental use permit is effective from August 9, 1975, to August 9, 1976. Tolerances have been established for residues of the pesticide chemical on the raw agricultural commodities to be treated.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: August 26, 1975.

**UNION CARBIDE CORP.****Issuance of Experimental Use Permit**

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973;

7 U.S.C. 136), an experimental use permit has been issued to Union Carbide Corporation, Washington, D.C. 20006. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the Federal Register on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 1016-EUP-32) allows the use of 600 pounds of carbaryl (1-Naphthyl methylcarbamate) on cotton. A total of 120 acres is involved; the program is authorized only in Texas. The experimental use permit is effective from August 13, 1975, to February 27, 1976. Permanent tolerances for residues of the pesticide chemical in or on cottonseed and forage have been established.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: August 26, 1975.

[OPP-180047; FRL 422-4]

**MINNESOTA DEPARTMENT OF AGRICULTURE****Issuance of Specific Exemption To Control Wild Rice Worm**

Pursuant to the provisions of section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), notice is hereby given that the Environmental Protection Agency (EPA) has granted a specific exemption to the Minnesota Department of Agriculture (hereafter referred to as the "Applicant") to use Malathion for the control of the wild rice worm (*Apamea apamiformis*) which is destroying the commercial wild rice crop in twenty (20) counties in Minnesota. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, issued December 3, 1973 (38 FR 33303), which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information set forth in the application. For more detailed information, interested parties are referred to the application on file in the Office of the Director, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Room E-347, Washington DC 20460.

**NOTICES**

40195

The State of Minnesota, through the Applicant, has requested permission from EPA to treat 25,000 acres of its wild rice crop infested with the wild rice worm with a Malathion formulation. No registered pesticides or alternative methods of control are presently available to control this pest. However, application of Malathion EC formulation on grain crops, including rice, is a registered use pattern. The recommended dosage rate for control of several insects on grains is 1.0 pound of actual Malathion per acre, which is the amount of actual ingredient the Applicant will use. A tolerance of 8.0 ppm has been established for Malathion on domestic rice.

The twenty counties to be treated are: Aitkin, Beltrami, Carlton, Cass, Clearwater, Crow Wing, East Polk, Hubbard, Isanti, Itasca, Kanabec, Koochiching, Lake of the Woods, Mill Lake, Morrison, Pennington, Pine, Red Lake, Saint Louis, and Wadena. The pesticide will be applied aerially in an emulsifiable concentrate spray. EPA Region V personnel will assist the Applicant in monitoring the program, which will begin in less than six weeks and will be completed within 10 days.

Economic statements provided by the Applicant have indicated that the 25,000 acre commercial wild rice crop is expected to yield a total of 4 to 5 million pounds of green rice valued at 4 to 5 million dollars. Without the use of Malathion, the economic loss to this crop attributable to the wild rice worm is estimated at 80 percent, i.e., as much as four (4) million dollars. A loss of this magnitude would constitute complete crop failure.

The proposed use of Malathion EC should not cause any irreversible short term or long term adverse effects on the environment. The Fish and Wildlife Service, U.S. Department of the Interior, has reported that one endangered species, the Timber Wolf (*Canis lupus lycaon*), is found occasionally in the counties listed. In addition, two endangered migratory avian species, the Whooping Crane (*Grus americana*) and the Arctic Peregrine Falcon (*Falco peregrinus tundrius*), pass through the area; however, both species will be located north of Minnesota during the rice growing season.

After reviewing the application and other available information, EPA has determined that (a) a pest outbreak of wild rice worms has occurred; (b) there is no pesticide presently registered and available for use to control the wild rice worm in Minnesota; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic problems may result if the wild rice worms are not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide listed above to the extent and in the manner set forth in the application. The exemption is also subject to the following restrictions:

(1) A Malathion EC product bearing labeling appropriate to aerial application will be used;

(2) A maximum of 35,000 pounds of actual Malathion will be used;

(3) The dosage rate shall not exceed one (1) pound of actual Malathion per acre per application;

(4) The counties to be treated are limited to the ones listed in this notice;

(5) Applications of Malathion are prohibited within seven (7) days of harvest;

(6) Wild rice grains with residue levels not exceeding 8.0 ppm may be offered in interstate commerce;

(7) Personnel of the Entomology Extension Service, University of Minnesota, will collect efficacy and residue data pursuant to seeking registration for this insect and use pattern under section 3 of the amended FIFRA; and

(8) The Applicant will avoid spraying over fish-bearing waters.

It should be noted that if the Administrator determines that the Applicant is not complying with the requirements set forth or if such action is necessary to protect man or the environment, the exemption shall be immediately withdrawn.

Dated: August 26, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

[FR Doc. 75-23078 Filed 8-29-75; 8:45 am]

[OPP-180048; FRL 422-5]

**SOUTH DAKOTA STATE UNIVERSITY****Issuance of Specific Exemption To Control Grasshoppers**

Pursuant to the provisions of section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), notice is hereby given that the Environmental Protection Agency (EPA) has granted a specific exemption to South Dakota State University (hereafter referred to as the "Applicant") to use toxaphene to treat 20,000 acres of the commercial sunflower crop in South Dakota to control grasshopper populations. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, issued December 3, 1973 (38 FR 33303), which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information set forth in the application. For more detailed information, interested parties are referred to the application on file in the Office of the Director, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Room E-347, Washington, D.C. 20460.

The State of South Dakota, through the Applicant, has requested permission from EPA to treat 20,000 acres of the commercial sunflower crop with toxaphene to control various species of grasshopper populations which are significantly reducing the stand density of the crop; twenty-five (25) counties are in-

volved. There appear to be no viable alternative efficacious registered pesticides nor alternative methods of control available to control this pest.

The counties in which treatment may occur are: Beadle, Brookings, Brown, Campbell, Clark, Codington, Davison, Day, Deuel, Edmunds, Faulk, Grant, Hamlin, Hand, Hughes, Hyde, Kingsbury, Marshall, McPherson, Perkins, Potter, Roberts, Sully, and Walworth. The pesticide is to be applied by air and ground equipment by spray operators licensed by the State. The spray application will occur under the direction of State Extension Service entomologists. Economic analyses based on projected figures from the U.S. Department of Agriculture indicate that, without the exemption, damage attributable to grasshopper feeding would constitute a complete crop failure on the affected 20,000 acres.

The proposed use of toxaphene, with the restriction against applications on or near water reservoirs, rivers, streams, or wetland areas, should not cause any irreversible short-term or long-term effects on the environment; the Office of Endangered Species, U.S. Department of the Interior (USDI), reports that no endangered species are known to be present in the proposed pesticide treatment area. However, it should be noted that, according to the Fish and Wildlife Service, USDI, the proposed treatment area contains 700,000 acres of wetlands which comprise a major breeding area for migratory waterfowl. The Fish and Wildlife Service (FWS) estimates that there are 1.5 million breeding ducks currently in the treatment area. There are also two National Waterfowl Sanctuaries (Waubesa in Day County and Sand Lake in Brown County) and an area where the FWS is attempting to establish a resident population of Canadian geese. Consultations with the Applicant have indicated that the restriction against spraying in or near wetland areas will be likely to minimize possible adverse impact on these waterfowl.

After reviewing the application and other available information, EPA has determined that (a) a pest outbreak of grasshoppers on sunflowers has occurred; (b) there is no pesticide presently registered and available for use to control the grasshopper populations in South Dakota; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic loss to the commercial sunflower crop is likely to occur if the grasshoppers are not controlled; and (e) the time available for action to mitigate the problem posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until September 1, 1975, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following restrictions:

(1) The dosage rate shall not exceed 2.0 pounds per acre actual toxaphene;

(2) The treated acreage shall not exceed 20,000 acres;

(3) The counties to be treated are limited to those listed in this notice;

(4) Leaves and stalks of the treated sunflower crops are not to be used for livestock feed;

(5) The Applicant must supervise any aerial application to avoid or minimize drift to non-target areas;

(6) The Applicant is responsible for collecting data on the efficacy of the toxaphene spray program and will submit a report of the results to the Registration Division by December 1, 1975;

(7) Personnel of EPA Region VIII shall be informed of the times and places of toxaphene applications so that monitoring activities of EPA can be coordinated with those of the Applicant; and

(8) A residue level not to exceed 7.0 ppm in or on sunflower seeds has been determined to be adequate to protect the public health. The Food and Drug Administration, U.S. Department of Health, Education and Welfare, has been advised of the action. Sunflower seeds not exceeding this level may be offered in interstate commerce.

It should be noted that if the Administrator determines that the Applicant is not complying with the requirements set forth or if such action is necessary to protect man or the environment, the exemption shall be immediately withdrawn.

Dated: August 26, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

[FR Doc. 75-23079 Filed 8-29-75; 8:45 am]

[OPP-180-49; FRL 422-6]

#### TEXAS PARKS AND WILDLIFE DEPARTMENT

##### Issuance of Specific Exemption To Control Water Hyacinths and Alligatorweed

Pursuant to the provisions of section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), notice is hereby given that the Environmental Protection Agency (EPA) has granted a specific exemption to the Texas Parks and Wildlife Department (hereafter referred to as the "Applicant") to use 2,4-D (2,4-Dichlorophenoxyacetic acid) herbicide to control water hyacinths and alligatorweed infesting nonmoving waters in the North Coastal area of Texas. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, issued December 3, 1973 (38 FR 33303), which prescribes requirements for exemption of Federal or State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information set forth in the application. For more detailed information, interested parties are referred to the application on file in the Office of the Director, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Room E-347, Washington, D.C. 20460.

Water hyacinth, *Eichhornia crassipes* (Mart) Solms, and alligatorweed, *Alternanthera philoxeroides* (Mart) Griesb, infestations adversely affect navigation, drainage, irrigation, recreation, and public health. Numerous complaints concerning these infestations have been brought to the attention of State representatives by local communities and individuals. The weed infestations result in the inaccessibility of boat docking facilities and fishing waters and introduce boating hazards. The weeds clog irrigation and drainage channels as well. There are indications that high densities of these aquatic weeds provide habitat for large populations of Anopheline mosquitoes which are potential disease vectors. Aquatic weeds in these waters are a problem because the warm climate provides for nearly continuous plant growth.

The herbicide 2,4-D appears to be the most efficient means of controlling water hyacinth; the *Agasicles* flea beetle has not effected control of alligatorweed when used alone, but exerts some control when integrated with a chemical control program. The butoxyethanol ester (B.E.E.) formulation of 2,4-D is the only chemical that will be used. The formulation does not require surfactants, anti-foam agents, or oil-based "spreader-sticker" additives.

The formulation will be applied by tank-equipped boats with the required amount of 2,4-D B.E.E. The material will be applied at low pressure and low volume to reduce the amount of rapidly biodegradable material of this 0.5-0.75% formulation getting into the water. Approximately 200 gallons (800 pounds acid equivalent) will be required to control some 266 acres of water hyacinths and 500 gallons (2,000 pounds acid equivalent) to treat 675 acres of alligatorweed. The alligatorweed suppression program will utilize the *Agasicles* flea beetle in an integrated chemical and biological control program. Areas to be treated are nonmoving waters of lakes, ponds, marsh areas, coastal bayous, and ox-bow lakes or sloughs in the North Coastal area of Texas. The principal areas proposed for treatment are Lake Corpus Christi, Guadalupe River at Port Lavaca, and Lake Livingston on the Trinity River. All of these areas are nonmoving waters and are finalized by saltwater barriers or dams. The Applicant will conduct the herbicide applications under contract with the U.S. Corps of Engineers, Galveston District.

The Applicant alleged that annual economic benefits in the interest of recreation, restoration of waterfront land values, and restoration of lost water caused by transpiration of the weeds is approximately \$194,000.

The personnel performing the field work under contract to the U.S. Corps of Engineers have been highly trained in aquatic plant control work. No short-term or long-term irreversible environmental effects are anticipated as a result of this control program, which will commence upon notification of approval by the EPA.

After reviewing the application and other available information, EPA has determined that (a) a pest outbreak of water hyacinths and alligatorweed has occurred; (b) there is no pesticide presently registered and available for use to control water hyacinths and alligatorweed in these areas in Texas; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic, environmental or health problems may result if the pests are not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until December 31, 1975, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following restrictions:

(1) A butoxyethanol ester formulation (4 pounds acid equivalent) of 2,4-D will be applied from boats at the rate of 2.0 to 3.0 pounds acid equivalent per acre;

(2) The treatment areas are limited to those listed in this notice;

(3) Personnel of the Texas Parks and Wildlife Department experienced in aquatic weed control will supervise all control operations;

(4) No waters intended for human drinking supplies may be treated;

(5) Rice grain harvested from paddies irrigated with 2,4-D treated water may be offered in interstate commerce, provided that the interim tolerance of 0.1 ppm for 2,4-D residues is not exceeded; and

(6) A maximum of 2,800 pounds acid equivalent of the butoxyethanol ester of 2,4-D will be used.

It should be noted that if the Administrator determines that the Applicant is not complying with the requirements set forth or if such action is necessary to protect man or the environment, the exemption shall be immediately withdrawn.

Dated: August 26, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

[FR Doc. 75-23080 Filed 8-29-75; 8:45 am]

[OPP-180050; FRL 422-7]

#### WASHINGTON STATE DEPARTMENT OF AGRICULTURE

##### Issuance of Specific Exemption To Control Twospotted Spider Mite

Pursuant to the provisions of section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), notice is hereby given that the Environmental Protection Agency (EPA) has granted a specific exemption to the Washington State Department of Agriculture (hereafter referred to as the "Applicant") to use TEPP (tetraethyl pyrophosphate) for the control of twospotted spider mites which are threatening to destroy the 22,000 acre commercial hop

crop in three (3) counties in Washington State. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, issued December 3, 1973 (38 FR 33303), which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information set forth in the application. For more detailed information, interested parties are referred to the application on file in the Office of the Director, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Room E-347, Washington, D.C. 20460.

According to the Applicant, the twospotted spider mite (*Tetranychus urticae* Koch) is normally present in Washington hop yards. Climatic and growing conditions are ideal for development of a mite infestation. Although several miticides are registered for use on hops, Washington State University entomologists alleged that none of the registered miticides were viable options for one or more of various reasons: (1) the spider mites were resistant to the other miticides; (2) aerial applications were precluded because of ineffectiveness or labeling restrictions; and/or (3) the required pre-harvest interval excluded application at the time required. Ground pesticide applications were not feasible because of damage to hop foliage, lodged hops, and irrigation equipment. TEPP has prevented economic damage to the hop crop by this pest in previous years. The Applicant has requested to treat the 22,000 acre commercial hop crop with two (2) pounds of actual TEPP per acre in a single aerial application to suppress populations of the twospotted spider mite which are threatening to destroy one-third (1/3) of the commercial crop in Benton, Pierce, and Yakima Counties. The pesticide will be applied by licensed aerial applicators under the Applicant's supervision between August 10 and September 30, 1975. The time interval is mandated by variation in maturation periods of the crops. A three-day pre-harvest interval will be maintained.

The State of Washington produces about two-thirds of the national hop crop, which is worth approximately 50 million dollars to the growers. Therefore, the anticipated loss attributable to the mites of one-third of the Washington crop represents an economic loss of ten (10) million dollars, or twenty (20) percent of the value of the U.S. hop crop. The Applicant cited the following factors which contribute to a relatively low probability of exposure of man to harmful residues of TEPP from hops: (1) raw hops are never consumed by humans and hops are kiln-dried following harvest; (2) one-fourth pounds of hops are added to each thirty-one (31) gallons of beer, a 1:1,000 dilution by weight; and (3) fermentation in the brewing vats results in additional breakdown of pesticide resi-

dues. However, TEPP exhibits acute toxicity to fish and wildlife species, especially avian species. Accordingly, the Fish and Wildlife Service, U.S. Department of the Interior (USDI), has suggested that the Applicant establish liaison with the Washington State Departments of Fisheries and Game. Additionally, the Office of Endangered Species, USDI, has reported that the American Peregrine Falcon, *Falco peregrinus anatum*, an endangered species, is endemic within the three counties proposed for treatment.

After reviewing the application and other available information, EPA has determined that (a) a pest outbreak of twospotted spider mites has or is about to occur; (b) there is no pesticide presently registered and available for use to control the twospotted spider mite in Washington State; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant economic problems may result if the twospotted spider mites are not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until September 30, 1975, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following restrictions:

(1) Aerial applications of TEPP are limited to one (1) at the rate of two (2.0) pounds of actual ingredient per acre;

(2) Total acreage treated shall not exceed 22,000 acres;

(3) A maximum of 44,000 pounds of actual TEPP will be applied;

(4) Treatment area is limited to the three counties listed in this notice;

(5) No applications may occur within three (3) days of harvest of the hops;

(6) The Applicant is responsible for supervising all aerial applications;

(7) The Applicant is advised that the American Peregrine Falcon, an endangered species, is endemic to the treatment area and is at risk. Therefore, liaison shall be established among the Applicant and the Washington State Departments of Fisheries and Game to minimize any adverse effects on fish and wildlife resources; and

(8) Hops with residue levels not exceeding 0.1 ppm of TEPP may be offered in interstate commerce.

It should be noted that if the Administrator determines that the Applicant is not complying with the requirements set forth or if such action is necessary to protect man or the environment, the exemption shall be immediately withdrawn.

Dated: August 26, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

[OPP-33000-310; FRL 421-61]

#### RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

##### Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of Section 3(c) (1) (d) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by each applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, S.W., Washington, D.C. 20460.

On or before November 3, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under Section 3(c) (1) (D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street S.W., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after this November 3, 1975.

Dated: August 21, 1975.

JOHN B. RITCH, JR.,  
Director, Registration Division.

#### MONSANTO CO.

##### Issuance of Experimental Use Permit

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to Monsanto Company, St. Louis, Missouri 63166. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 173; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 524-EUP-18) allows the use of 73,950 pounds of glyphosate (N,N-bis(phosphonomethyl)glycine) on sugarcane. A total of 17,620 acres is involved; the program is authorized only in the States of Florida, Hawaii, Louisiana, Puerto Rico, and Texas. The experimental use permit is effective from July 24, 1975, to July 24, 1976. A tolerance has been established for residues of the pesticide chemical on the raw agricultural commodity to be treated.

Interested parties wish to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/735-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: August 27, 1975.

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

#### FEDERAL COMMUNICATIONS COMMISSION

##### RADIO TECHNICAL COMMISSION FOR MARINE SERVICES

##### Notice of Meetings

In accordance with Public Law 92-463, "Federal Advisory Committee Act,"

Radio Technical Commission for Marine Services (RTCM) meetings scheduled for the future are as follows:

Special Committee No. 68  
"Marine Radiotelephone Operator Education"  
Notice of 8th Meeting  
Wednesday, September 17, 1975—9:30 a.m.  
Conference Room 752  
1919 M Street, N.W.  
Washington, D.C.

#### AGENDA

1. Call to Order; Chairman's Report.
2. Adoption of Agenda; Confirmation of Secretary.
3. Acceptance of SC-68 Summary Records.
4. Report on MRT Handbook Work Assignment.
5. Progress reports on Incompleted Work Assignments.
6. Discussion of problem areas.
7. Solicitation of additional Work Assignments.
8. Other business.
9. Establishment of next meeting date.

A. Newell Garden, Chairman, SC-68  
Raytheon Company  
141 Spring Street  
Lexington, Mass. 02173  
Phone: (617) 862-0600 (Ext. 414)

SC-65

SHIP RADAR  
Washington, D.C.

Wednesday, September 17, 1975

Members of Special Committee No. 65  
"SHIP RADAR"

Notice of 40th Meeting  
Wednesday, September 17, 1975—1:30 p.m.  
Conference Room 8210  
2020 M Street, N.W.  
Washington, D.C.

Agenda for SC-65 Committee Meeting appears on reverse side of this sheet.

Formal Meeting Schedule for SC-65 Working Groups to be held at 2025 M Street, N.W., Washington, D.C.

Working Group	Room	Date	Time
Collision avoidance (all day).	8210	Sept. 16	9:30 a.m.
Small boat specifications...	8210	Sept. 17	No.

If other Working Group meetings are scheduled, Group Members will be notified.

#### AGENDA

1. Call to Order; Chairman's Report; Adoption of Agenda
2. Acceptance of SC-65 Summary Records; Appointment of Rapporteur, 16 July 1975—Paper 114-75/SC 65-195
3. Progress Reports of Working Groups on:
  - a. Collision Avoidance Systems
  - b. Small Boat Specifications
4. Status Reports on Other Working Groups
5. Other business
6. Establishment of next meeting date (Proposed November 19, 1975)
7. Transponder Specifications—Paper 109-74/SC 65-168, Rev. E. Irvin Hurwitz, Chairman, SC-65, Federal Communications Commission, Washington, D.C. 20554. Phone: (202) 632-7197

#### EXECUTIVE COMMITTEE MEETING

Thursday, September 18, 1975

The next Executive Committee Meeting will be on Thursday, September 18, 1975, at 1:45 p.m. in Conference Room 847, 1919 M Street, N.W., Washington, D.C.

#### AGENDA

1. Call to Order; Chairman's Report.
2. Introduction of Attendees; Adoption of Agenda.
3. Approval of the Minutes of Executive Committee Meetings.
4. Progress Reports on Currently Active Committees.
5. Administrative Action Items.
6. Summary Reports and Announcements.
7. New business.
8. Establishment of next meeting date.

To comply with the advance notice requirements of Public Law 92-463, a comparatively long interval of time occurs between publication of this notice and the actual meeting. Consequently, there is no absolute certainty that the listed meeting room will be available on the day of the meeting. Those planning to attend the meeting should report to the room listed in the notice. If a room substitution has been made, the new meeting room location will be posted at the room listed in this notice.

Agendas, working papers, and other appropriate documentation for the meeting is available at that meeting. Those desiring more specific information may contact either the designated Chairman or the RTCM Secretariat. (Phone (202) 632-6490).

The RTCM has acted as a coordinator for maritime telecommunications since its establishment in 1947. Problems are studied by Special Committees and the final report is approved by the RTCM Executive Committee. All RTCM meetings are open to the public. Written statements are preferred but by previous arrangement, oral presentations will be permitted within time and space limitations.

#### FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] VINCENT J. MULLINS,

Secretary.

[Docket No. 20570, File No. BPH-8721, etc.]

#### SHERWOOD BROADCASTING, INC., ET AL. Applications for Construction Permits; Consolidated Hearing

In re applications of Sherwood Broadcasting, Inc., Flint, Michigan, Docket No. 20570, File No. BPH-8721; requests: 92.7 MHz; Channel No. 224; 3 kW (H&V); 300 feet; WAMM, Inc., Flint, Michigan, Docket No. 20571, File No. BPH-8789; requests: 92.7 MHz; Channel No. 224; 3 kW (H&V); 300 feet; Flint Family Radio, Inc., Flint, Michigan, Docket No. 20572, File No. BPH-8855; requests: 92.7 MHz; Channel No. 224; 3 kW (H&V); 300 feet; Fuqua Communications, Inc., Flint, Michigan, Docket No. 20573, File No. BPH-9063; requests: 92.7 MHz; Channel No. 224; 3 kW (H&V); 300 feet; Flint Metro Mass Media, Inc., Flint, Michigan, Docket No. 20574, File No. BPH-9174; requests: 92.7 MHz; Channel No. 224; 3 kW (H&V); 300 feet, for construction permits.

1. The Commission, by the Chief of the Broadcast Bureau, acting pursuant to

delegated authority, has before it the above-captioned applications for construction permits for a new FM radio station in Flint, Michigan. Also before the Commission are an informal objection to the application of Flint Family Radio, Inc. (Family), filed by Reverend Donald L. Eder, and an informal objection to the same application, filed by the Task Force on FM Applicants of the Interfaith Metropolitan Agency for Planning (Interfaith). Family has filed responsive comments to both objections.

2. Both informal objections to the Family application challenge that application on the basis of Family's religious nature. Reverend Eder, citing a newspaper article concerning the Family application, suggests that the applicant would discriminate against Catholics and Jews in the station's programming. This, Reverend Eder asserts, raises "serious questions" about the application. In response, Family states that the newspaper report "does not represent the presently proposed religious programming policies" of the applicant. Further, personnel changes within the applicant's board of trustees have resulted in amendments to the proposal which emphasize that "religious programs will be designed to serve all religious faiths" and that "representatives of (the Catholic and Jewish) faiths will be sought for panel discussions on religious topics so as to have a broad representation of viewpoints." It appears, therefore, that Reverend Eder's questions have been satisfactorily answered. Interfaith's objection is similar to Reverend Eder's although more general. In brief, it asserts that Family's operation will be dominated by a "sectarian viewpoint of Christianity to the exclusion of views other than its own." No supporting facts are cited in support of this claim. In response, Family reaffirms its policy of diversified religious programming and specifically states that "no one particular church or denomination shall be permitted to monopolize existing radio time."

In addition, Family indicates that it will rely on an Advisory Council of area residents "with diversity of communities, church affiliations and occupations" to provide input with respect to programming. Thus, it appears that Interfaith's objections have also been answered and no purpose would be served by further inquiry into the matter. Accordingly, both informal objections will be denied.

3. With respect to the application of Sherwood Broadcasting, Inc. (Sherwood), the applicant indicates that its general public survey was conducted by individuals who "were paid by the applicant." It appears from this statement that the interviewers were hired exclusively for the purpose of conducting the survey. Such a practice has been determined to be invalid. *Voice of Dixie, Inc.* 47 F.C.C. 2d 526 (1974); see also question and answer 11(b). *Primer on the Ascertainment of Community Problems by Broadcast Applicants*, 27 FCC 2d 650 (1971). Thus, an issue against Sherwood

will be added to permit inquiry into the extent of Sherwood's compliance with the Commission's ascertainment policy.

4. With respect to the application of WAMM, Inc. (WAMM), the list of community leaders interviewed includes only one labor leader, one industrial leader, and no students.<sup>1</sup> WAMM's demographic showing indicates that these are significant groups in the Flint area. Although no fixed number or formula has been established regarding the necessary representation of community groups, it does not appear that WAMM's list of community leaders adequately reflects the composition of Flint. In addition, the applicant has not indicated the specific problems and needs to which its proposed programming will be responsive. Further, the time segment and frequency of one of the two proposed programs are not indicated. This information is required by question and answer 29 of the *Primer*. Accordingly, an appropriate issue will be added.

5. Fuqua Communications, Inc. (Fuqua), proposes to locate its main studio at the site of standard broadcast station WTAC, Flint, Michigan, of which Fuqua is the licensee. The WTAC studio is located approximately 2.5 miles outside the Flint city limits, and thus Fuqua must make a showing of good cause in support of its proposal. See section 73.210(a)(3) of the rules. In its statement regarding its proposed studio location, Fuqua indicates that the WTAC site is readily accessible and serviceable. In addition, it appears that the rule in question generally endorses such co-location of commonly owned AM and FM stations. *Id.*; see also, *FM-TV Main Studio Moves*, 27 F.C.C. 2d 851, 854 (1971). Accordingly, we find that good cause has been demonstrated, pursuant to section 73.210(a)(3), for the location of the studio as proposed by Fuqua.

6. Sherwood proposes a program format of "standard pops," while Fuqua proposes general "contemporary" programming. Metro and WAMM, on the other hand, propose operations which will be "Black-oriented" or "directed primarily toward the Black community." Finally, Family proposes to present religious music and inspirational programming during approximately 70 percent of its broadcast time. The relative need for these different types of programming will be considered under the standard comparative issue. *Ward L. Jones*, FCC 67-82 (1967); *Policy Statement on Comparative Broadcast Hearings*, 1 F.C.C. 2d 393, 397, n.9 (1965).

7. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be dominated

<sup>1</sup> Although an amendment to the application includes several representatives from these groups, the individuals who conducted these interviews are not identified. Since compliance with the requirements of the Commission's *Primer* is thus unclear, the additional interviews cannot be deemed valid. See question and answer 11(a) of the *Primer*.

## NOTICES

for hearing in a consolidated proceeding on the issues specified below.

8. Accordingly, IT IS ORDERED, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications ARE DESIGNATED FOR HEARING IN A CONSOLIDATED PROCEEDING, at a time and place to be specified in a subsequent Order, upon the following issues:

(1) To determine the efforts made by Sherwood Broadcasting, Inc., to ascertain the community problems of the area to be served and the means by which the applicant proposes to meet those problems.

(2) To determine the efforts made by WAMM, Inc., to ascertain the community problems of the area to be served and the means by which the applicant proposes to meet those problems.

(3) To determine which of the proposals would, on a comparative basis, best serve the public interest.

(4) To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

9. IT IS FURTHER ORDERED, That the informal objections of Reverend Donald L. Eder and the Task Force on FM Applicants of the Interfaith Metropolitan Agency for Planning ARE DENIED.

10. IT IS FURTHER ORDERED, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to section 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

11. IT IS FURTHER ORDERED, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and section 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by section 1.594(g) of the rules.

Adopted: August 7, 1975.

Released: August 12, 1975.

FEDERAL COMMUNICATIONS COMMISSION,  
[SEAL] WALLACE E. JOHNSON,  
Chief, Broadcast Bureau.

### TV AND FM TRANSLATOR APPLICATIONS

#### Ready and Available for Processing

Notice is hereby given, pursuant to §§ 1.572(c) and 1.573(d) of the Commission's rules, that on October 16, 1975, the TV and FM translator applications listed in the attached Appendix will be considered as ready and available for processing. Pursuant to § 1.227(b)(1) and

§ 1.591(b) of the Commission's rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on October 15, 1975, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and submitted for filing at the offices of the Commission in Washington, D.C., by the close of business on October 15, 1975.

The attention of any party in interest desiring to file pleadings concerning any pending TV and FM translator applications, pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.580(i) of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

Adopted: August 25, 1975.

Released: August 27, 1975.

FEDERAL COMMUNICATIONS COMMISSION,  
[SEAL] VINCENT J. MULLINS,  
Secretary.

## FEDERAL ELECTION COMMISSION

[Notice 1975-38]

## NEW HAMPSHIRE SENATE ELECTION

Request for Opinion of Counsel;  
Solicitation of Public Comments

The Federal Election Commission today publishes an inquiry from the campaign manager for Mr. Louis Wyman in connection with the September 16, 1975 special Senatorial election in New Hampshire. Because of the imminence of that election, the Commission will respond to this inquiry on September 4, 1975. The Commission wishes to receive as much public response as is possible with regard thereto. Comment may be submitted in writing or by telephone to Mr. Bradley Litchfield, Assistant General Counsel, Federal Election Commission, 1325 K Street, N.W., Washington, D.C. 20463, telephone Area Code (202) 382-5657. The letter follows:

Dear Mr. Murphy:

This letter is our request for the Counsel's opinion on a series of questions. These arise from anticipated circumstances in the campaign to elect Mr. Louis Wyman in the special Senate Election in New Hampshire on September 16, 1975.

President Ford and former Governor Reagan may travel to New Hampshire. While here they may hold rallies, press conferences and attend public meetings. On these occasions they may appear with Louis Wyman and endorse his candidacy. Their expenses will not be paid by the Wyman-For Senate Committee which is the principal campaign committee for him.

## Our questions are:

1. Does this constitute a contribution in kind to the Wyman campaign?
- If so:
2. How is that contribution to be computed?
3. Does their travel to and from New Hampshire count?
4. What does a candidate do to avoid accepting this kind of contribution under the law?

We would appreciate your prompt response since decisions are being made daily which affect the points raised in this letter.

GEORGE YOUNG,  
Campaign Manager.

Source: Wyman for Senate, by George Young, Campaign Manager, P.O. Box 1457, Concord, New Hampshire 03301 (August 12, 1975).

Dated: August 28, 1975.

THOMAS E. CURTIS,  
Chairman, for the  
Federal Election Commission.

[Notice 1975-39]

## NEW HAMPSHIRE

10-Day Pre-Election Report; Extended  
Office Hours

The Federal Election Commission announces extended office hours for assist-

ance to the public on Saturday, September 6, 1975. This is the filing date for the 10-Day Pre-Election Report in the special election being held on September 16, 1975 to fill the vacancy in the United States Senate for the State of New Hampshire.

The Federal Election Commission, located at 1325 K Street, N.W., Washington, D.C. (202-382-5162 or Public Records Division 202-382-7012) will be open on September 6, 1975 from 10 a.m. to 4:00 p.m. These extended hours are provided in order that statements and reports may be filed with the Commission and be made available to the public as soon as practicable after receipt.

NEIL STAEBLER,  
Vice Chairman,  
Federal Election Commission.

FEDERAL ENERGY  
ADMINISTRATIONTRANSPORTATION ADVISORY  
COMMITTEE

## Notice of Establishment

This notice is published in accordance with the provisions of Section 9(a)(2) of the Federal Advisory Committee Act (PL 92-463). Following consultation with the Office of Management and Budget, notice is hereby given that it is in the public interest, in connection with the performance of the duties imposed on the Federal Energy Administration by law, to establish the Transportation Advisory Committee.

A description of the nature and purpose of this Committee is contained in its Charter which is published below.

Dated: August 25, 1975.

FRANK G. ZARR,  
Administrator.

[FR Doc.75-23232 Filed 8-28-75, 10:56 am]

TRANSPORTATION ADVISORY  
COMMITTEE

## Charter

## A. ESTABLISHMENT

The Administrator, Federal Energy Administration (FEA), having determined after consultation with the Director, Office of Management and Budget, that the establishment of an advisory committee to provide FEA with advice on energy use in the national transportation sector is in the public interest in connection with the duties imposed on the FEA by law, hereby establishes the Transportation Advisory Committee pursuant to the Federal Advisory Committee Act (PL 92-463).

B. DUTIES, FUNCTIONS, AND  
ADMINISTRATIVE PROVISIONS

1. *Objectives and Scope.* The objectives of the Transportation Advisory Committee is to advise the Administrator, FEA, with respect to general transportation aspects of interests and problems related

to the policy and implementation of programs to meet the continuing energy crisis.

2. *Committee Tenure.* In view of the goals and purposes of the Committee, it will be expected to continue for the duration of FEA.

3. *Official to Whom Committee Reports.* The Committee will report to the Administrator, FEA.

4. *Support Services.* Necessary support for the Committee will be furnished by the FEA.

5. *Committee Duties.* The duties of the Committee are solely advisory as stated in Paragraph 1 above.

6. *Estimated Annual Operating Costs.* The estimated annual operating costs for the Committee are \$45,000.00 and involve approximately one-half man-year of staff support.

7. *Meetings.* The Committee will meet approximately four times a year.

8. *Termination Date.* The Committee will terminate on June 30, 1976, or if the Federal Energy Administration Act of 1974 is amended to extend the duration of FEA beyond that date, the Committee will terminate on such later date or one year from the date of this Charter, whichever occurs earlier.

Dated: August 25, 1975.

FRANK G. ZARR,  
Administrator.

## FEDERAL MARITIME COMMISSION

ATLANTIC AND GULF-INDONESIA  
CONFERENCE ET AL

## Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before September 22, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

stitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

## Notice of Agreement Filed by:

Wade S. Hooker, Jr., Esquire  
Casey, Lane & Mittendorf  
26 Broadway  
New York, New York 10004

The member lines of the Atlantic and Gulf-Indonesia Conference and the Atlantic and Gulf-Singapore, Malaya and Thailand Conference have filed identical amendments to their Conference agreements. These amendments, Agreements Nos. 8080-14 and 8240-11, respectively, modify each of the approved conference agreements by adding a new Article 11, which shall read as follows:

11. Subject to all applicable provisions of law and of this Agreement, the Conference or the members as a group may enter into arrangements or agreements with carriers, other conferences of carriers, or other persons.

By order of the Federal Maritime Commission.

Dated: August 27, 1975.

JOSEPH C. POLKING,  
Assistant Secretary.

## PORT OF ASTORIA AND WATERWAY TERMINALS CO.

## Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before September 22, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

## Notice of agreement filed by:

Norman E. Sutherland, Esq., White, Sutherland, Parks & Allen, 1200 Jackson Tower, Portland, Oregon 97205.

Agreement No. T-2675-1, between the Port of Astoria (Port) and Waterway Terminals Company (Waterway), modifies the parties' basic agreement which provides for the lease of certain property at Astoria, Oregon, which Waterway will operate as a marine terminal. The purpose of the modification is to

discontinue the lease of House 4 and 5 of Pier 3, Astoria, Oregon, and to reduce the rental payments by approximately \$1,800 per month.

By Order of the Federal Maritime Commission.

Dated: August 26, 1975.

JOSEPH C. POLKING,  
Assistant Secretary

[No. 75-34]

## CSC INTERNATIONAL, INC. AND ROYAL NETHERLANDS STEAMSHIP COMPANY

## Notice of Filing of Complaint

AUGUST 27, 1975.

Notice is hereby given that a complaint filed by CSC International, Inc. against Royal Netherlands Steamship Company was served August 27, 1975. The complaint alleges that complainant has been subjected to payment of ocean freight rates which are unjust and unreasonable and in violation of section 18(b) (3) of the Shipping Act, 1916.

Hearing in this matter shall commence on or before February 27, 1976.

JOSEPH C. POLKING,  
Assistant Secretary

## FEDERAL POWER COMMISSION

[Docket No. CP74-324]

## CITIES SERVICE GAS CO.

## Notice of Application

AUGUST 22, 1975.

Take notice that on August 11, 1975, Cities Service Gas Company (Petitioner), P.O. Box 25128, Oklahoma City, Oklahoma 73125, filed in Docket No. CP74-324 a petition to amend the order of the Commission of April 1, 1975, issued in said docket permitting and approving abandonment of facilities and granting a certificate of public convenience and necessity authorizing the construction of replacement facilities. Petitioner in the instant amendment requests permission and approval to abandon without replacement certain facilities that were previously authorized to be abandoned and replaced, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that subsequent to the filing of the application in the instant docket on June 17, 1974, Petitioner received letters from the two direct sales customers served from the DeMalorie 5-inch pipeline in Greenwood County, Kansas, advising that gas service was no longer required and requesting that their service be discontinued. As a result of these requests, Petitioner states, service was discontinued and the DeMalorie 5-inch pipeline is no longer required to

<sup>1</sup> Notice published on March 25, 1974 (39 FR 11139).

render any gas service. Petitioner was authorized to replace approximately 3.70 miles of 5-inch pipeline with approximately 3.70 miles of 2-inch pipeline, but because of the discontinuances of service requests the Commission to amend the authorization to allow the abandonment in place of the 5-inch DeMalorie pipeline without replacement. Petitioner states that the bare pipe employed in the construction of the pipeline was placed in service in 1937 and is now deteriorated.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before September 17, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

[Docket No. RP76-5]

## COLORADO INTERSTATE GAS CO.

## Proposed Changes in FPC Gas Tariff

AUGUST 22, 1975.

Take notice that Colorado Interstate Gas Company, a division of Colorado Interstate Corporation (CIG), on August 4, 1975, tendered for filing Third Revised Volume No. 2, which supersedes and cancels Second Revised Volume No. 2, of its FPC Gas Tariff.

CIG states that the purpose of this filing is to update and reduce the size of Volume No. 2 of CIG's FPC Gas Tariff. The proposed changes include the deletion of reference to all canceled and unissued rate schedules and the repagination of all current rate schedules. It is emphasized that the content of the current rate schedules will remain unchanged and that no substantive changes are proposed. An effective date of September 8, 1975, is requested for the Third Revised Volume No. 2 of CIG's FPC Gas Tariff.

Copies of the filing were served upon the Company's jurisdictional customers and certain public bodies.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 5, 1975. Protests will be

considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

## COLUMBIA GAS TRANSMISSION CORP. AND COLUMBIA GULF TRANSMISSION CO.

## Further Extension of Procedural Dates

AUGUST 22, 1975.

On August 15, 1975, Columbia Gas Transmission Corporation and Columbia Gulf Transmission Company filed a motion to extend the procedural dates fixed by order issued August 1, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Company Supplemental Evidence, October 17, 1975.  
Service of Staff Testimony, December 19, 1975.  
Service of Intervenor Testimony, January 2, 1976.  
Service of Company Rebuttal, January 16, 1976.  
Hearing, February 2, 1976 (10 a.m., e.s.t.).

Jeffrey D. Goltz for Congressman Jim Weaver.  
Norman A. Stoll for Public Power Council.  
Daniel C. Lamke and Glen Ortmann for the Federal Power Commission.

*Per Curiam:* On August 19, 1974, the Office of the Secretary of the Interior submitted seven wholesale rate schedules together with general rate schedule provisions and other data to the Federal Power Commission (Commission) on behalf of the Bonneville Power Administration (BPA) for confirmation and approval pursuant to Sections 5 and 6 of the Bonneville Project Act, 16 U.S.C. 832d and 832e, and Section 5 of the Flood Control Act of 1944, 16 U.S.C. 825s. The new schedules applicable to the five year period commencing December 20, 1974, would increase BPA's rates by 27%, or about \$60,000,000 per year. After notice, the Commission, by order issued December 19, 1974, conditionally<sup>1</sup> confirmed and approved those rate schedules, as well as the general rate schedule provisions and two special applications of BPA's general rate schedule provisions which had previously been confirmed and approved in Docket Nos. E-7242 and E-8033, for the period commencing December 20, 1974, and ending not later than December 20, 1975, or such shorter period within which the Commission may take final action herein.

In addition, the Commission, on December 19, 1974, ordered a public administrative hearing to assist it in the discharge of its statutory duties and responsibilities. BPA objected to the hearing and, although it participated in the initial conferences, it refused to submit any evidence to support its proposed rate schedules and general rate schedule provisions and eventually declined to participate further. This Commission, on the

<sup>1</sup> The Commission imposed a condition that BPA agree "to refund or credit to its customers such portions of the proposed rates and charges as may result from Commission disapproval in any action of the Commission finally confirming and approving the rates and charges for BPA." BPA thereupon notified its customers that "any adjustments or credits which might be determined to be lawfully owing to either party will be reflected in future billings", and the Commission construed such notification as acceptance of its condition.

other hand, believes that it is appropriate and in the public interest to discharge its duties and responsibilities under the Bonneville Project Act and the Flood Control Act of 1944 on the basis of evidentiary records which are developed during the course of public hearings in which BPA would carry the burden of supporting its rate proposals and the Commission staff, among others, would test those proposals. Accordingly, this Commission proposes to follow such a procedure in connection with future rate submissions by the Office of the Secretary of the Interior on behalf of BPA and other power administrations.

Although, as indicated above, BPA eventually declined to participate further, it promptly provided all information which was reasonably available; and the Commission staff at the hearing on May 15, 1975, presented the testimony of four witnesses and the documentary evidence which they sponsored. While numerous questions and issues had been raised as set forth in the Commission's order of December 19, 1974, the questions and issues were largely answered or resolved by the conclusion of the hearing. Accordingly, the parties other than the staff prepared and spread upon the record (Tr. 217-254, 256-261) a so-called "Settlement Proposal" consisting of a proposed form of opinion and order which the Commission might adopt in confirming BPA's rate schedules and general rate schedule provisions. On June 11, 1975, presiding Administrative Law Judge Ernst Lieberman certified that "Settlement Proposal" to the Commission together with the transcript of the proceedings and the various filings and other documents comprising the record in this matter.

In Opinion No. 482 (*United States Department of the Interior, Bonneville Power Administration*, Docket Nos. E-6611, E-6905 and E-7242), issued December 14, 1965, 34 FPC 1465, the Commission elaborated upon the standards to be applied to its confirmation and approval of rates and charges under the Bonneville Project Act and the Flood Control Act of 1944 and concluded,

"Our role is to review the Secretary's proposal and confirm and approve it if we conclude, on the basis of our independent judgment, that it comports with the dual statutory standard of providing consumers with the benefits of power at the lowest possible price consistent with good business practices as well as protecting the interests of the United States in amortizing its investment in the projects within a reasonable period."

In applying that standard to the matter which is now before us, we conclude, from the staff's unrefuted evidence, that while BPA must increase its revenues by 24% to continue to meet its obligations to the United States Treasury for the government's costs of generating, purchasing and transmitting electric energy in the Federal Columbia River Power System, the additional 3% proposed by BPA for unforeseen contingencies is consonant with the "good business practices" standard of the statute. In con-

sidering the propriety of this allowance we are mindful of the fact that the rates proposed by BPA seem to be on the low side rather than too high in relation to current costs for reasons set forth at length in staff witness Cackowski's testimony. For example, the 3 1/8% interest rate currently being utilized for construction of the third power plant at Grand Coulee Dam, although specified by statute, is obviously far less than the current cost of new money to the Federal government.

In Opinion No. 482, supra, the Commission concluded that 40 years represented a reasonable period for amortizing the government's investment in transmission facilities and that 50 years represented a reasonable period, consistent with Congressional suggestion, for amortizing its investment in other facilities. On the basis of the record which is before us, we see no reason for departing from those amortization periods which appear reasonable at this time.

The Federal Columbia River Power System consists of 31 Federal multipurpose dams, of which four were under construction as of June 30, 1974, which will have a total nameplate rating of 18,813 megawatts. BPA markets the power generated at those dams through a 12,000 circuit-mile high-voltage transmission grid covering 300,000 square miles in Oregon, Washington and Idaho and portions of Montana, California, Wyoming, Utah and Nevada. To meet its growing power requirements that Pacific Northwest region is beginning to shift from an almost entire reliance on hydro-electric generation to both hydro and thermal-electric generation under a cooperative plan known as the Hydro-Thermal Power Program which was developed jointly by 104 public and four private utilities and BPA. In view of the changed conditions in that region and BPA's anticipated role in that program the seven rate schedules involved herein represent a major redesign and not just a modification of prior schedules.

BPA's new rate schedules eliminate promotional features associated with its prior abundance of power, such as irrigation and developmental discounts. They tend to move from "postage stamp" rates<sup>2</sup> which are authorized by the Bonneville Project Act, first, by identifying and assigning certain costs to customers,<sup>3</sup> and second, by instituting a seasonal

<sup>2</sup> At Tr. 29:

PRESIDING JUDGE. You say a postage stamp rate, what do you mean?

Mr. RATCLIFFE (Counsel for BPA). We charge a group of customers the same cost for power regardless of whether they are one mile, 10 miles or 15 miles of whatever the distance is from the source of generation. We charge all those customers in the same class the same power rates.

PRESIDING JUDGE. The transmission charges are averaged in the rate?

Mr. RATCLIFFE. That is right.

<sup>3</sup> For example, the new rate schedules for firm power and firm capacity to utility customers include separate charges to recover costs associated with transformation and other substation services provided by BPA.

rate differential.<sup>4</sup> BPA's new rate schedule EC-6 establishes a uniform demand-energy rate for firm power for all of its nonindustrial customers, superseding its C-5 demand-only rate (with no associated energy limit) and its E-5 demand-energy rate. Its new rate schedule MF-1 covers BPA's C-5 industrial customers who choose to purchase the same grade of power at a higher rate, while its new rate schedule IF-1 covers those C-5 industrial customers who choose to purchase a new lower grade of power subject to certain restrictions and credits. BPA's other new rate schedules are: EC-7, which permits its utility customers to purchase limited amounts of firm power at a significantly higher cost to meet unanticipated load growth; F-6, which provides firm capacity without energy for utility customers on an annual or seasonal basis; H-5, which provides nonfirm energy for thermal displacement, reservoir filling and emergency use; and J-1, which provides firm energy for utility customers for thermal plant startup and reservoir filling.

In the course of his testimony in this proceeding staff witness Uhler stated in response to a question involving peak load pricing that he understood that while BPA plans to work with the Special Retail Rate Committee of the Northwest Public Power Association to examine the concept of time of day pricing, BPA considers such a change in rate design as being effective only if implemented at the retail level. Mr. Uhler recommended that BPA be urged to examine on an expedited basis time of day pricing as an adjunct to the rate design changes already adopted, and we endorse his recommendation. Careful consideration of rate designs directed toward bringing rates more closely into alignment with costs by agencies such as BPA with its considerable expertise and resources would clearly be in the public interest.

Congressman Jim Weaver, an intervenor herein from the Fourth Congressional District in Oregon, asks the Commission to reject BPA's new rate schedule IF-1 or, if it is not possible to reject that one alone, to reject all seven rate schedules. Otherwise, he takes no position with respect to the other rate schedules. Congressman Weaver calls attention to the preferential status granted to "public bodies and cooperatives" by Section 4 of the Bonneville Project Act and to the twenty-year limitation on contracts, including renewal and extension periods, imposed by Section 5 of that Act. He also calls attention to BPA's forecasts of power deficits beginning in the late 1970's and ending in the mid 1980's when thermal plants begin to come on line; and he asserts that many of BPA's C-5 contracts which would have expired in the 1980's will be replaced by IF-1 contracts which

<sup>4</sup> The new rate schedules for firm power and nonfirm energy contain higher charges for the winter peak period than for the summer off-peak period which are presumably related to the costs of supplying electricity during those respective periods.

will not expire until the 1990's, and the effect of such replacement will be to commit BPA power to its industrial customers for periods in excess of twenty years and to the exclusion of potential preferential customers. Furthermore, he contends, while twenty-year contracts are permissible under the Bonneville Project Act, they are not required and are not currently consistent with the statutory goals of "sound business principles" under the Flood Control Act of 1944 and attainment of "the greatest benefit to the general public from this hydro-electric power". While BPA's rates to public agencies under rate schedule EC-6 and to industrial firms under rate schedule IF-1 will be approximately the same during periods of 100% availability, Congressman Weaver asserts, and lower for industrial firms under rate schedule IF-1 during periods of lesser availability, it would be a sound business principle to encourage the conservation of electric energy by causing energy-intensive industries to pay higher rates, even for lower grade power.

Intervenor Industrial Customers Committee,<sup>5</sup> Pacific Power & Light Company, The Montana Power Company, Puget Sound Power & Light Company, The Washington Water Power Company and Public Power Council<sup>6</sup> respond collectively that Congressman Weaver's argument that the IF-1 contracts might collide with the preference provision and his assertion that BPA should not enter into twenty-year contracts go to administration of the Bonneville Project Act and have nothing to do with BPA's rate structure. They assert, additionally, that if rate schedule IF-1 is adjusted upward BPA would realize overall rates in excess of the statutory level. (Of course, this assumes that there are no offsetting changes in other schedules.)

This Commission agrees with the foregoing intervenors that Congressman Weaver's apprehension goes to the administration of the Bonneville Project Act as distinguished from the schedules of rates and charges which we are being asked to confirm and approve. In addition, this Commission believes that there is no merit to Congressman Weaver's approach since BPA's former rate schedule C-5 industrial customers may now continue to receive under existing contracts the same grade or essentially the same grade of power at an increased rate under BPA's new rate schedule MF-1. In any event, there is no actual case or controversy before the Commission contest-

<sup>5</sup> Aluminum Company of America, Anaconda Aluminum Company, Carborundum Co., Cominco American Inc., Crown Zellerbach Corporation, Georgia-Pacific Corporation, Hanna Nickel Smelting Co., Intalco Aluminum Co., IIT Rayonier, Inc., Kaiser Aluminum and Chemical Corporation, Martin Marietta Aluminum Corporation, Oregon Metallurgical Corporation, Pacific Carbide & Alloys, Pennwalt Corporation, Reynolds Metals Company, Stauffer Chemical Works and Union Carbide Corporation.

<sup>6</sup> Consisting of 108 utilities comprising municipalities, public utility districts and rural electric cooperatives served by BPA.

ing a collision between the preferential status and contractual limitation provisions of the Bonneville Project Act.

The Commission has been asked to pass upon BPA's seven rate schedules which have been admitted into the record as Exhibit I of its submission of August 19, 1974, as well as its general rate schedule provision which have been so admitted as Exhibit II of that submission, and the Commission concludes that the foregoing rate schedules and rate schedule provisions should be confirmed and approved for the period requested by BPA.

Additionally, BPA requests Commission approval of the continuation of special contractual rates and rate schedule provisions as previously approved (1) in Docket No. E-8033 on May 15, 1973, providing a special rate to the Bureau of Reclamation for exchange energy delivered to its Mead Substation in Nevada by the City of Los Angeles, California, or by Southern California Edison Company in lieu of obligations to deliver exchange energy to BPA, and (2) in Docket No. E-7242 (order of December 5, 1969, in Docket No. E-7508) modifying Section 7.1 of BPA's new general rate schedule provisions with respect to its contracts with the Cities of Los Angeles, Burbank, Glendale, Pasadena and Sacramento, California, the State of California, Pacific Gas & Electric Company, San Diego Gas & Electric Company and Southern California Edison Company, for the sale of power and energy over the Pacific Northwest-Pacific Southwest Intertie to change the method of measuring the grace period for the payment of bills under specified conditions and eliminate BPA's right to cancel a contract resulting from a delinquency in the payment of a power bill.

The staff would recommend Commission approval of BPA's rate schedules and general rate schedule provisions and the foregoing special applications if, as we understand, we are satisfied with the fact that the information provided by BPA and, consequently, the evidence which is before us does not include fully distributed cost studies such as are filed in ratemaking proceedings under the Federal Power Act. The answer is that we are not considering rates under the mandates of the Federal Power Act. We are, on the other hand, considering rates under a different combination of Congressional mandates set out in the Bonneville Project Act and the Flood Control Act of 1944, including the requirement that the power and energy be sold in such a manner "as to encourage the most widespread use thereof at the lowest possible rates to consumers consistent with sound business principles". Although we share the staff's discomfort in not having before us all of the usual studies under the Federal Power Act which attempt to identify costs and assign them to different classes of customers, we do not need all of these studies to confirm and approve rates under the standards of the Bonneville Project Act and the Flood Control Act

of 1944, where rates such as those which are before us are designed essentially on the "postage stamp" principle as authorized by Section 6 of the Bonneville Project Act which states that "rate schedules may provide for uniform rates or rates uniform throughout prescribed transmission areas in order to extend the benefits of an integrated transmission system and encourage the equitable distribution of the electric energy developed at the Bonneville project".

Nevertheless, in order to utilize more fully our ratemaking expertise in the discharge of our statutory duties and responsibilities to review rate schedules which are proposed on behalf of BPA and other agencies of the Department of the Interior for our "confirmation and approval", we shall in the future require complete cost studies in support of such proposed rate schedules. It is our intention to promulgate as promptly as possible proposed regulations prescribing the nature and form of the cost studies to be provided for these purposes.

On October 18, 1974, the President signed into law the Federal Columbia River Transmission System Act (Public Law 93-454) which authorizes BPA to finance future construction through the sale of revenue bonds to the United States Treasury at interest rates to be determined by the Treasury. While BPA cannot as yet determine the extent to which that new law will affect the interest rates which it projected in its revenue requirements studies, BPA expects that it will not have to sell long-term revenue bonds to the Treasury until fiscal 1977, and further, that the amounts so sold during the remaining effective period of the rate schedules confirmed and approved herein will not be material in relation to its total investment.

Public Law 93-454 authorizes this Commission to confirm and approve schedules of rates and charges "for the transmission of non-Federal electric power over the Federal transmission system". Pacific Power & Light Company, Puget Sound Power & Light Company, The Montana Power Company, The Washington Water Power Company and BPA have stipulated in connection therewith, and the staff recommends Commission approval of the stipulation, that confirmation and approval of the rate schedules herein would

"... in no way adversely affect or cause prejudice to any party in a later proceeding with respect to wheeling rates. In such later proceeding, the total costs of the Federal transmission system and the portion of the transmission system costs that should be equitably allocated to and borne by the users of such system shall be determined pursuant to the principles discussed in this stipulation. In such determination, the costs of the transmission system will be established, the equitable allocation between Federal and non-Federal users of the system will be determined and that determination will govern the non-Federal wheeling charges. The power rates established in

this docket will be assumed to include the entire transmission costs such allocation assigns to Federal power utilizing the system and thereafter BPA shall account for revenues from wheeling on that basis, including the amortization of the investment in the transmission system."

*The Commission further finds.* (1) In view of Ordering Paragraph (A), the motions filed by Southern California Edison Company on February 18, 1975, and by the Department of Water and Power of the City of Los Angeles, California, on March 3, 1975, for leave to withdraw their interventions herein, have become moot.

(2) It is appropriate for the purposes of the Bonneville Project Act and the Flood Control Act of 1944 that the Bonneville Power Administration's wholesale rate schedules EC-6, EC-7, F-6, H-5, J-1, MF-1 and IF-1 be confirmed and approved together with its general rate schedule provisions for the period which began on December 20, 1974, and will end on December 20, 1979.

(3) It is appropriate for the purposes of the Bonneville Project Act and the Flood Control Act of 1944 that the special applications of the Bonneville Power Administration's rates and charges embodied in Docket Nos. E-8033 and E-7242 be likewise confirmed and approved for the additional period to end on December 20, 1979.

(4) It is appropriate for the purposes of the Bonneville Project Act, the Flood Control Act of 1944 and the Federal Columbia River Transmission System Act to accept without confirmation and approval the stipulated procedures herein to be followed with respect to allocating transmission costs equitably in connection with a filing of wheeling rates by the Office of the Secretary of the Interior on behalf of the Bonneville Power Administration under the Federal Columbia River Transmission System Act.

*The Commission orders.* (A) The wholesale rate schedules, general rate schedule provisions and special applications of rates and charges specified in Finding Paragraphs (2) and (3) are confirmed and approved for the period which began on December 20, 1974, and will end on December 20, 1979.

(B) The stipulated procedures herein to be followed with respect to allocating transmission costs equitably in connection with a filing of wheeling rates by the Office of the Secretary of the Interior on behalf of the Bonneville Power Administration under the Federal Columbia River Transmission System Act is accepted without confirmation and approval.

(C) The Secretary of this Commission shall cause prompt publication of this opinion and order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[Docket Nos. CP75-76, etc.]

**EL PASO ALASKA CO., ET AL.**  
Applications and Consolidation

August 22, 1975.

In the matter of El Paso Alaska Co., et al. Docket No. CP75-96, et al.; Columbia Gas Transmission Corp., Docket No. CP76-42; Michigan Wisconsin Pipe Line Co., Docket No. CP76-43; Natural Gas Pipeline Co. of America, Docket No. CP76-44; Northern Natural Gas Co., Docket No. CP76-45; Texas Eastern Transmission Corp., Docket No. CP76-48; Panhandle Eastern Pipe Line Co., Docket No. CP76-54.

Take notice that on August 7, 1975, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue, S.E., Charleston, West Virginia 25314, Michigan Wisconsin Pipe Line Company (Michigan Wisconsin), One Woodward Avenue, Detroit, Michigan 48226, Natural Gas Pipeline Company of America (Natural), 122 South Michigan Avenue, Chicago, Illinois 60603, and Northern Natural Gas Company (Northern), 2223 Dodge Street, Omaha, Nebraska 68102, that on August 8, 1975, Texas Eastern Transmission Corporation (Texas Eastern), P.O. Box 2521, Houston, Texas 77001, and that on August 11, 1975, Panhandle Eastern Pipe Line Company (Panhandle Eastern), P.O. Box 1642, Houston, Texas 77001, jointly Applicants, filed in Docket Nos. CP76-42, CP76-43, CP76-44, CP76-45, CP76-48, and CP76-54, respectively, applications pursuant to Section 7(c) of the Natural Gas Act for certificates of public convenience and necessity authorizing the construction and operation of facilities to connect their interstate natural gas pipeline systems with the proposed facilities of Northern Border Pipeline Company (Northern Border), certificate applicant in Docket No. CP74-290, all as more fully set forth in the applications on file with the Commission and open to public inspection.

Natural in its application in Docket No. CP76-44, requests certification for the construction of two taps and appurtenant facilities in Kankakee and LaSalle Counties, Illinois. Natural states that the proposed tap in Kankakee County, would be installed on Natural's existing 36-inch Herscher-Dyer Road pipelines; and the LaSalle County delivery point, proposed as a point for alternate deliveries of natural gas, would be located in LaSalle County on Natural's 36-inch pipeline. The estimated cost of the proposed facilities is stated to be approximately \$63,800.

The application of Natural indicates that the initial deliveries of gas from the Arctic by Northern Border would commence in 1980, and that estimated deliveries would be 28,336,000 Mcf of gas at 14.73 psia in 1980, out of a total system gas supply in 1980 of 737,835,000 Mcf. Natural states that its gas supply data for delivery through the proposed, delivery points are more fully set forth in its FPC Form No. 15 that was filed with

the Commission on March 31, 1975, and is incorporated by reference herein. Natural further states that it has received the sole and exclusive right to negotiate for a long-term contract for the purchase of the natural gas production attributable to twenty percent of Exxon Corporation's (Exxon) interest in the Prudhoe Oil Pool and that the agreement between Exxon and Natural has been filed in Docket No. CP75-257.

Northern requests in its application in Docket No. CP76-45, the certification for the construction and operation of three delivery points, including tees, side valves, blow off valves and tieovers between Northern Border and Northern in Brown County, South Dakota, Martin County, Minnesota, Hancock County, Iowa, and Buchanan County, Iowa. The first three proposed delivery points are stated to be primary delivery points, and the fourth delivery point is stated to be an emergency interconnection. The estimated cost of the proposed facilities is stated to be \$630,000.

Northern states that it has entered into agreements with BP-Alaska, Inc. (BP-Alaska), and Exxon dated January 1, 1972, and January 30, 1975, respectively. Northern states further that all gas up to 3 billion Mcf that is available to BP-Alaska is dedicated to Northern. Northern estimates that by its agreement with Exxon, up to 2.0 billion Mcf of gas will become available to it. Northern further estimates that from 100,000 to 450,000 Mcf of natural gas per day would become available to it from its agreement with BP-Alaska, and 198,000 Mcf of gas per day would become available to it from its agreement with Exxon. The application indicates that the estimated deliveries of Alaskan gas in 1980 would be 166,625,000 Mcf.

Columbia in its application in Docket No. CP76-42, requests the certification of three points of interconnection with Northern Border to accept the delivery of natural gas. The proposed facilities would be located at Treat in Licking County, Ohio, and at Tannehill located in Washington and at Delmont located in Westmoreland Counties, Pennsylvania. The estimated cost of the proposed facilities is stated to be approximately \$796,800.

Columbia's application indicates that it would receive approximately 78,800,000 Mcf of natural gas from the Alaskan sources in 1980. Columbia states further that it signed an agreement with B.P. Oil Corporation (now Sohio Petroleum Corporation) dated August 3, 1971.

Michigan Wisconsin in its application in Docket No. CP76-43 requests the certification of one delivery point for Alaskan natural gas in Bureau County, Illinois. The estimated cost of the proposed 24-inch lateral pipeline and meter station would be approximately \$215,960.

Michigan Wisconsin states that it expects to receive from the Prudhoe Bay, Alaska, sources, approximately 190,000 Mcf of natural gas per day. The application further indicates that in 1980, Michigan Wisconsin projects the delivery of 34,960,000 Mcf of natural gas at

14.73 psia from Alaskan sources, and that additional gas may become available from Alaska or Canada.

Michigan Wisconsin's application indicates that it has received the sole right to negotiate for the gas production attributable to an undivided 25 percent interest in Exxon's interest in the gas reserves in the Prudhoe Oil Pool. Michigan Wisconsin further indicates in its application that it has entered into a contract with Imperial Oil Limited and Imperial Oil Enterprises Ltd., for gas from the Northwest and Yukon Territories of Canada, subject to authorizations by Canada and the United States to export and import the natural gas produced.

Texas Eastern in its application in Docket No. CP76-48, requests certification of construction and operation of a tap and valve in Westmoreland County, Pennsylvania, to interconnect its 24-inch Line No. 12 loop with Northern Border. The estimated cost of the proposed facility is stated to be approximately 197,700.

Texas Eastern further states that it has entered into an advance payment agreement with Atlantic Richfield Company (ARCO) dated June 30, 1975, and that such agreement gives Texas Eastern the exclusive right to purchase an undivided 20 percent of ARCO's working interest in the gas produced in the Prudhoe Oil Pool. Texas Eastern further states that it has assigned 25 percent of its interest in the advance payment agreement to its subsidiary, Transwestern Pipeline Company. Texas Eastern states that based on current estimates it expects to receive about 114,000 Mcf of gas per day from its remaining interest in ARCO's Prudhoe Bay production.

Panhandle Eastern in its application in Docket No. CP76-54, requests authorization for the construction and operation of one interconnection with Northern Border near Bluffton, Indiana. The estimated cost of the proposed facility is stated to be \$84,000, to be financed from funds on hand.

Panhandle Eastern also states that it has entered into an agreement with ARCO covering 20 percent of ARCO's gas reserves in the Prudhoe Bay Field. It is stated that Panhandle Eastern believes that approximately 150,000 Mcf of natural gas per day will become available under this agreement.

The instant applications may involve common questions of law or fact with those pending in the proceeding in Docket No. CP75-96, et al. Therefore, they are consolidated for hearing in said proceeding.

Any person desiring to be heard or to make any protest with reference to said applications should on or before September 15, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate ac-

tion to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,  
Secretary

[FR Doc. 75-23088 Filed 8-29-75; 8:45 am]

[Docket No. RP72-155; PGA 76-1]

**EL PASO NATURAL GAS CO.**  
Proposed Change in Rate Pursuant to  
Purchased Gas Cost Adjustments

August 21, 1975.

Take notice that El Paso Natural Gas Company (El Paso) on August 15, 1975, tendered for filing a notice of a change in rates for jurisdictional gas service rendered to customers served by its interstate gas system. Such service is rendered under rate schedules affected by and subject to Article 19, Purchased Gas Cost Adjustment Provision (PGAC), contained in the General Terms and Conditions applicable to El Paso's FPC Gas Tariff, Original Volume No. 1, Third Revised Volume No. 2 and Original Volume No. 2A, and under rate schedules affected by and subject to the PGAC—Clean High Pressure Gas Provision (PGAC-CHPG) contained in El Paso's FPC Gas Tariff, Original Volume No. 2A.

El Paso states the instant notice of change in rates is occasioned solely by, and will compensate El Paso only for, increases in the cost of purchased gas (including gas produced from leases acquired after October 7, 1969) which will become effective on or before September 30, 1975, applied to volumes purchased for the twelve (12) month period ending June 30, 1975.

The annualized increase in purchased gas costs as to the PGAC adjustments purchased gas volumes for the twelve (12) month period ending June 30, 1975. When applied to El Paso's interstate system total volumes for the same period, the purchased gas cost increase equates to 0.73¢ per Mcf.

In addition, El Paso states that its Account 191, Unrecovered Purchased Gas Cost, contains a balance of \$23,703,511, applicable to increases in purchased gas cost, as of June 30, 1975. Such costs, when applied to El Paso's jurisdictional sales volumes for the same period, produce an additional adjustment in rates of 4.22¢ per Mcf to be applied as a sur-

<sup>1</sup> The special rate schedules subject as to this PGAC adjustment are Rates Schedules X-7, X-14, X-25, X-30 and X-35 of El Paso's FPC Gas Tariff, Third Revised Volume No. 2, and Rate Schedules FS-25, FS-26, FS-27, FS-28, FS-30, FS-35 and FS-45 of El Paso's FPC Gas Tariff, Original Volume No. 2A.

XUM

large to all rate schedules affected by such PGAC. However, El Paso states that as a result of eliminating its currently effective surcharge rate, the net adjustment to its currently effective rates attributable to this instant PGAC notice of rate is a decrease of 3.92¢ per Mcf.

El Paso states that the Account 191 balance includes excess amounts attributable to small producer and emergency purchases made during the six month period ending June 30, 1975 at rate levels above the Commission's Opinion No. 699-H national rate level in the amount of \$1,925,995. Further, El Paso states that the portion of small producer and emergency purchases above such rate level included in El Paso's PGAC adjustment is \$1,424,575.

El Paso states further that by Commission orders issued February 24, 1975, at Docket Nos. RP74-104, et al., and March 31, 1975, at Docket Nos. RP72-155, et al., El Paso was granted permission to collect an amortization charge of 1.39¢ per Mcf during the period April 2, 1975, through September 30, 1975, for the recovery of increased special overriding royalty costs incurred during the period July 10, 1974, through December 1, 1974. In compliance with the provisions of said February 24, 1975, order, El Paso states that the 1.39¢ per Mcf amortization charge has been eliminated from the rates proposed to be made effective on October 1, 1975. El Paso states that the elimination of said amortization charge, together with the aforementioned net decrease under the PGAC will result in a total decrease of 5.31¢ per Mcf in El Paso's currently effective rates.

El Paso states the current adjustment applicable to those Original Volume No. 2A special rate schedules affected by the PGAC-CHPG is an increase of 3.3065¢ per Mcf. Such current adjustment is comprised of a decrease in the weighted average purchased cost of clean, high-pressure gas equating to 1.0055¢ per Mcf and a surcharge adjustment of 4.3140¢ per Mcf, representing the unrecovered purchase gas cost balance contained in Account 191 as of June 30, 1975. Based upon sales volumes under such special rates schedules for the twelve months ended June 30, 1975, said decrease of 1.0055¢ per Mcf will reduce revenues by \$12,577 and based upon the gas sales volumes under the special rates schedules subject to the PGAC-CHPG for the six months period ending June 30, 1975, the surcharge adjustment of 4.3140¢ per Mcf will recover during the six month period subsequent to October 1, 1975, \$24,930 of the unrecovered purchased gas cost recorded in Account 191. El Paso states that the net adjustment to the currently effective rates applicable to the affected special rate schedules is an increase of 1.1663¢ per Mcf.

El Paso states copies of the filing and attachments have been served upon all parties of record in Docket Nos. RP72-155

\* The special rate schedules subject to PGAC-CHPG are Rate Schedules FS-3, FS-6, FS-7, FS-10 and FS-32.

and RP75-39 and, otherwise, upon all affected customers and interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 9, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc 75-23093 Filed 8-29-75; 8:45 am]

**ELIO ARGENTATI**  
Notice of Initial Application

August 21, 1975.

Take notice that on July 18, 1975, Elio Argentati (Applicant) filed an initial application with the Federal Power Commission, Pursuant to Section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following positions:

Vice President-Operations Upper Peninsula Power Company, Public Utility.  
Vice President and Director, Upper Peninsula Generating Company, Public Utility.

Upper Peninsula Power Company, 616 Sheldon Avenue, Houghton, Michigan, is engaged in the electric utility business in the upper peninsula of Michigan. In addition to its own generating facilities, Upper Peninsula Power Company owns 19% of the outstanding Common (Voting) stock of Upper Peninsula Generating Company with Cliffs Electric Service Company owning the other 81%. Upper Peninsula Power Company employees operate Upper Peninsula Generating Company's generating units.

Upper Peninsula Generating Company, 616 Sheldon Avenue, Houghton, Michigan, is engaged in the generation of electric energy for sale to its two owners, Cliffs Electric Service Company having the right to purchase 50% and Upper Peninsula Power Company 50% of the energy generated from Units 1 through 4 with Cliffs Electric Service Company having the right to purchase all energy

generated from Units 5 and 6. All the facilities of Upper Peninsula Generating Company are located at Marquette, Michigan.

Any person desiring to be heard or to make any protests with reference to said application should on or before September 4, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Rate Schedule Nos. 3, et al.]

**R & G DRILLING CO., ET AL.**

Rate Change Filings Pursuant to Commission's Opinion No. 699-H

August 22, 1975.

Take notice that the producers listed in the Appendix attached hereto have filed proposed increased rates to the applicable new gas national ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 699-H, issued December 4, 1974. Pursuant to Opinion No. 699-H the rates, if accepted, will become effective as of the date of filing.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filings should on or before September 2, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). A protest will not serve to make the protestant a party to the proceeding. Any party wishing to become a party to a proceeding must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RI75-6]

**SUN OIL CO.**

Notice of Settlement Proposal

August 21, 1975.

Take notice that on August 11, 1975, Sun Oil Company (Petitioner), Southland Center, Post Office Box 2880, Dallas, Texas 75221, filed a Settlement Proposal in Docket No. RI75-6, pursuant to Section 1.18 of the Commission's Rules of Practice and Procedure (18 CFR Chapter I, Subchapter A, Part I).

Petitioner states that an informal Settlement Conference was convened to discuss a settlement of the price which would be acceptable to Petitioner with respect to sales of natural gas produced from eight wells in the Bradshaw Field, Hamilton County, Kansas, to the purchaser, Kansas-Nebraska Natural Gas Company, Based on these discussions, the Commission Staff's review of Petitioner's workpapers and records in its offices at Tulsa, Oklahoma, and the filing of certain additional data and information, Petitioner proposes and would agree to accept as settlement of the special relief sought for the sale of Petitioner's share of gas from the aforesaid units, a price of 19.5 cents per Mcf for the Stanley, Eddy, Jerry Webb, 2631, 2431, 2230 and 2930 units operated by Ladd Petroleum Company, and a price of 35 cents per Mcf for the Kincheoloe "B" unit operated by Texaco, Inc., which would become effective upon a proper order issued by the Commission accepting this offer of settlement.

Any person desiring to comment on the proposed settlement should submit the comment to the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before September 4, 1975. Comments will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the person commenting a party to this proceeding.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP73-35, PGA75-1]

**TRUNKLINE GAS CO. AND SOHIO PETROLEUM CORP.**

Order Granting Motion To Dismiss and Substituting New Respondent

August 22, 1975.

By order dated July 7, 1975, we set a date for hearing in this proceeding to determine whether the increased costs claimed by Trunkline Gas Company (Trunkline) in its rate increase filings in the instant docket relating to 180-day emergency gas purchases at rates in excess of Opinion No. 699-H levels are justified. In so doing we also made those selling to Trunkline respondents so that they could present cost evidence to demonstrate that the rates charged by them are in the public interest. Among the respondents listed in the Appendix to the July 7 order was Sun Oil Company (Sun).

On July 21, 1975, Sun petitioned the Commission to dismiss it from this proceeding. In its motion to dismiss, Sun avers that it has erroneously been made a respondent to this proceeding inasmuch as it has not made a 180-day sale to Trunkline covering its interest. Sun states that the sale in question was made by Sohio Petroleum Corporation (Sohio) and that in this transaction Sun simply acted as agent to receive monies from Trunkline.

Since Sun was not the party whose interest was covered by the 180-day emergency sale to Trunkline, we shall dismiss it as a respondent to this proceeding and substitute in its place Sohio.

The Commission orders:

(A) Sun's motion to dismiss filed herein on July 21, 1975, is granted.

(B) The Appendix to the July 7 order issued in this proceeding is hereby amended by removing Sun as a respondent and substituting in its place Sohio.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc.75-23089 Filed 8-29-75; 8:45 am]

**TRUNKLINE GAS CO.**

Order Accepting for Filing and Suspending Alternate Tariff Sheets, Rejecting Substitute Revised Tariff Sheets Providing for Hearing and Establishing Procedures

August 22, 1975.

On July 18, 1975, Trunkline Gas Company (Trunkline) tendered for filing revised tariff sheets<sup>1</sup> which it claims reflect rates approved by the Commission's July 9, 1975, order Approving Settlement and Determining Reserved Issue in Trunkline's Docket No. RP74-89 rate proceeding, adjusted for the following items:

1. Adjustments to the PGA Filing of June 13, 1975 (Docket No. RP73-35, PGA 75-3), filed to reflect provisions included as a part of the Agreement as to Rates and Related Matters, dated April 14, 1975.

2. Advance Payment Tracker, filed pursuant to Article V of the Agreement as to Rates and Related Matters, dated April 14, 1975.

3. Purchased Gas Transmission and Compression Tracker, filed pursuant to Article VI of the Agreement as to Rates and Related Matters, dated April 14, 1975.

Trunkline proposes that the rates be made effective August 1, 1975, and requests waiver of Section 154.22 to permit such sheets to become effective on August 1, 1975.

Trunkline has included in the Advance Payment Section of the filing the cost effect to Trunkline of advances to Exxon Company, U.S.A. for offshore Louisiana and Texas.

<sup>1</sup>Substitute Thirteenth Revised Sheet No. 3-A and Third Revised Sheet No. 21-F to its FPC Gas Tariff, Original Volume No. 1.

isiana and Texas. Trunkline requests that such advance payments be included under Article V of the Agreement as to Rates and Related Matters dated April 14, 1975, as approved by the Commission's July 9, 1975, order in Docket No. RP74-89. In recognition that prior like advances to Exxon have not received Commission approval, Trunkline tendered for filing Alternate Substitute Thirteenth Revised Sheet No. 3-A, which Trunkline states includes the Advance Payment Tracker exclusive of such payment to Exxon.

As we have stated in the past, we do not believe that the proposed payments to Exxon are consistent with the purpose and intent of the advance payment program.<sup>2</sup> Therefore we shall reject that sheet reflecting such payments and accept Trunkline's alternate filing.

Notice of the filing was issued on July 24, 1975. No comments or petitions to intervene have been received.

Our review of Trunkline's filing indicates that certain issues have been raised which may require development in an evidentiary proceeding. Specifically, eleven of the new advances have not been shown to be reasonable and appropriate within the meaning of Order Nos. 465 and 449.<sup>3</sup> Accordingly, we shall accept for filing Alternate Substitute Thirteenth Revised Sheet No. 3-A, suspend its use for one day and permit it to become effective, subject to refund, on August 2, 1975. Our review of the costs reflected in the rates in Trunkline's Alternate Substitute Thirteenth Revised Sheet No. 3-A and Third Revised Sheet No. 21-F other than those costs associated with the advance payment agreements tested in Footnote 3 in this order indicates that they are just and reasonable. Accordingly, we shall permit Trunkline to file substitute tariff sheets to become effective August 1, 1975, which reflect costs other than those costs associated with the eleven advance payments listed in Footnote 3 in this order.

The Commission finds.

(1) It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that Trunkline's Alternate Substitute Thirteenth Revised Sheet No. 3-A and Third Revised Sheet No. 21-F be accepted for filing, and made effective subject to refund as of August 2, 1975, and that the Commission enter upon a hearing con-

<sup>2</sup>See Michigan Wisconsin Pipe Line Company, Docket No. RP75-96, order issued July 11, 1975; Natural Gas Pipe Line Company of America, Docket No. RP75-90, order issued July 11, 1975; Northern Natural Gas Company, Docket Nos. RP75-87 and RP 75-89, order issued July 11, 1975; and Southern Natural Gas Company, Docket No. RP75-84, order issued July 11, 1975.

<sup>3</sup>Anadarko Production Company (\$82,109 + \$6,702,084), Diamond Shamrock Corporation (\$82,019 + \$2,898,491), Mobil Oil Company (\$1,295,000 + \$3,190,000), Ocean Production Company (\$291,667), Oil and Gas Futures, Inc., of Texas (\$1,108,333), Sun Oil Company (\$273,397 + \$8,904,000), and Texas Pacific Oil Company (\$78,981).

cerning the lawfulness of the proposed changes in Trunkline's rate filing, as hereinafter ordered and conditioned.

(2) Trunkline's Substitute Thirteenth Revised Sheet No. 3-A should be rejected. The Commission orders.

(A) Pursuant to the authority of the Natural Gas Act, particularly Sections 4, 5, 8 and 15 thereof, and the Commission's Rules and Regulations, a public hearing shall be held on December 10, 1975, in a hearing room of the Federal Power Commission, Washington, D.C. 20426, concerning the justness and reasonableness of the rates proposed in this proceeding by Trunkline insofar as they reflect costs related to the eleven advance payments listed in Footnote 3 above.

(B) Pending such hearing and a decision thereon, Trunkline's Alternate Substitute Thirteenth Revised Sheet No. 3-A and Third Revised Sheet No. 21-F to its FPC Gas Tariff, Original Volume No. 1 are accepted for filing, and suspended for one day until August 2, 1975, subject to refund.

(C) Within 15 days of the date of issuance of this order, Trunkline may file revised rates to become effective on August 1, 1975, which include costs other than costs associated with the Exxon interest payments and costs relating to the eleven advance payments listed in Footnote 3 above.

(D) On or before October 14, 1975, Trunkline shall serve its prepared testimony and exhibits.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 35(d)), shall preside at the hearing in this proceeding, shall prescribe necessary procedures not provided for by this order, and shall otherwise conduct the hearing in accordance with the terms of this order and the Commission's Rules and Regulations.

(F) Trunkline's Substitute Thirteenth Revised Sheet No. 3-A is rejected.

(G) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission,

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc 75-23099 Filed 8-29-75; 8:45 am]

[Docket Nos. RP71-29, et al., Phase III, RP75-71, RP75-69]

UNITED GAS PIPE LINE CO., ET AL.

Order Partially Granting Petition for Declaratory Order and Motion To Consolidate

AUGUST 20, 1975.

The U.S. Court of Appeals for the Fifth Circuit, *inter alia*, vacated those portions of Opinion Nos. 647 and 647-A which interpreted United Gas Pipe Line Company's ("United") contracts and assessed potential liability, *State of Louisiana, et al. v. F.P.C.*, 503 F.2d 844, 868 (5th Cir. 1974). The Court viewed these portions of our opinions as "an arguably premature determination of United's contract

liability via the doctrine of collateral estoppel" (503 F.2d at 867). In framing the proper inquiry on remand the court said that the Commission "should evaluate Section 12.3 (a tariff provision purporting to remove contractual liability) on the assumption that United faces possible liability—not on the assumption it is immune" (503 F.2d at 867-868).

Our orders issued March 7, April 2 and May 2, 1975, separated into a Phase III of the remanded proceeding the issues raised in the court's analysis with regard to United's contracts and liability and consolidated these issues with a consideration of Section 12.3 of United's proposed tariff filed on March 3, 1975, in Docket No. RP75-71.<sup>1</sup>

On March 3, 1975, United filed a petition requesting that we issue declaratory orders directed to the issues contained in the following items:

"1. Whether, in view of the present dimensions of the natural gas shortage and the corresponding level of Commission-directed curtailments, the payment of damages or compensation to some of United's customers as a result of United's inability to meet its customers' delivery requirements would create undue preferences and discriminations among customers, would impair United's ability to meet its obligations under the Natural Gas Act, would otherwise be contrary to the public interest, and, accordingly, should be prohibited?

2. Whether Section 12.1 of United's currently-effective tariff, which provides that curtailments by United during a gas shortage are to be made "without liability to its customers," precludes damage claims by United's direct sale customers based on curtailments effectuated in response to the present natural gas shortage?

3. Whether the shortage necessitating United's curtailments was caused by negligent or willful misconduct on United's part, taking into account, among other factors, United's obligations under the Natural Gas Act and the Commission's regulations and orders, Commission and other federal action affecting natural gas supply and demand, and industry practice with respect to acquisition, storage and sale of natural gas?

4. Whether the rights of United's customers whose service was at one time in whole or in part intrastate are also fixed by United's curtailment tariffs and Commission orders and whether the payment of curtailment damages or compensation to such customers would create undue preferences and discriminations?"

United requests that we assert primary jurisdiction to decide the foregoing issues and publish declaratory orders which would be determinative for purposes of suits, brought in state and federal courts by United's customers seeking damages based on curtailment.

<sup>1</sup> Amended and redesignated 12.4 in new tariff sheets, as indicated in our order issued April 2, 1975.

On May 20, 1975, United filed a motion to consolidate the petition for declaratory order with the proceedings in Phase III of Docket Nos. RP71-29, et al.

At this point, we do not believe our responsibility to act in Phase III extends further than to respond to the issues raised by the court and to determine whether it is necessary and proper to approve Section 12.3 as proposed in Docket No. RP75-71. Our response to United's petition must be within this framework.

The court asked us to consider the effect of Section 12.3 on United's possible contractual liability. United, however, might be found liable for damages arising out of curtailment under two distinct bases. It might be liable under a general breach of contract theory ("general liability"). Even if not generally liable, it might still be liable for breach of its special obligations created by substitute fuel clause with certain customers ("special liability"). Liability arising from curtailment and the need to burn substitute fuels could arise under either of these bases (503 F.2d at 864). Section 12.3, if it has any effect on possible contractual liability, could affect either form of liability. In addition to Section 12.3, Section 12.1 purports to limit United's general contract liability. Whether Section 12.1 does limit general liability would, therefore, appear to be an appropriate corollary issue to be addressed in Phase III. In this regard we note that, in addition to asking the Commission to evaluate Section 12.3, the court posed the more general question: "Can a tariff provision remove general contractual liability?" (503 F.2d at 867).

The court postulated a second central question regarding general liability which should be considered in Phase III: "If the [tariff] provision would remove liability, would the unavailability of damages subject United's curtailed customers to 'any undue prejudice or disadvantage?' " (503 F.2d at 867). In items 1 and 4, above, United requests a declaratory order addressed to the issue of whether the payment of damages or compensation to its customers, including formerly intrastate customers, would create undue preferences and discriminations among customers? Although the questions raised by the court and United are phrased in terms of "undue prejudice or disadvantage," the questions posed are quite different. It may be appropriate for this Commission to speak to United's questions as to preference and discrimination arising out of satisfaction of a judgment for curtailment-produced damages, but the question is premature since it can only arise in the event that Sections 12.1 and 12.3 do not limit United's liability.

By requesting a declaratory order as to item 3, above, United seeks reaffirmation of our finding in Opinion Nos. 647 and 647-A that its curtailments did not result from improvidence or willful misconduct. The basis for the allegation of improvidence or willful misconduct is the contention that United engaged in enlargement of existing service and assumption of new service at a time when it knew or should have known that it would soon experience systemwide shortages. This issue of United's improvidence or willful misconduct has a dual relevance: (1) It may affect United's contractual liability and (2) it may affect any permanent curtailment plan to the extent that "United's past curtailment actions have created undue preferences which are perpetuated by that plan" (503 F.2d at 877). With respect to this latter effect, an opportunity to review evidence, if any, heretofore not presented concerning United's alleged wrongful expansion of service will be afforded in Phase II in the context of the structuring of a permanent plan free from undue preferences and discriminations. In light of the court's statement that we should not further speak to the issue of United's liability in this proceeding,<sup>2</sup> we believe that the issue of wrongful expansion of service should not be further reexamined in Phase III.

In the first part of item 4, above, United poses an issue which is too broad for us to fully answer in the context of the present proceeding: Whether the rights of United's customers whose service was at one time in whole or in part intrastate are also fixed by United's curtailment tariff and Commission orders? In its petition, United indicates that those formerly intrastate customers are served by United's "Green" and "Purple" systems over which we have been determined to have jurisdiction,<sup>3</sup> and which we certificated in Opinion No. 661.<sup>4</sup>

The "fixing" of "rights" of individual customers, formerly served from non-jurisdictional facilities, subsequent to the change in service to an interstate character may depend on a number of factors. Prior to the change from intrastate character of service, the rights between United and the customers in question were "fixed" variously by service agreements, tariff provisions filed with state, or local regulatory authorities, and state law and regulations. When the character of service changed and interstate jurisdiction attached, these provisions were supplanted to the extent they conflicted with the provisions of United's FPC tariff provisions prescribing curtailment procedures. *F.P.C. v. Louisiana Power & Light Co.*, 406 U.S. 621 (1972); *Pennsylvania v. West Virginia*, 262 U.S. 553 (1923). Such result stemmed from our action pursuant to our jurisdiction over transportation, and not from a unilateral contract modification by United. *F.P.C. v. Louisiana Power & Light Co.*, 406 U.S. 621, 646 (1972). United's effective FPC general tariff determined curtailment procedures for both direct sales and re-

sale sales. *Id.* at 647. Any exculpatory provisions contained in United's tariff are an integral part of the curtailment program which we have approved as just and reasonable conditions applicable to the transportation of natural gas by United subject to our jurisdiction (503 F.2d at 867). When service to formerly intrastate customers became interstate, exculpatory language contained in United's then effective tariff became fully applicable to such customers.

We decline to opine further as to the "fixing" of "rights" by United's tariffs since, first, a determination of rights does not appear necessary to resolve the issues raised by the court on remand or by United's filing in Docket No. RP75-71. Secondly, without expressing our views concerning under what conditions jurisdictional companies' rights provided by their FPC tariffs may be altered by pre-judicial contracts, we note that United might have attempted to contract away defenses which could otherwise be applicable. Whether such an attempt was made is unknown at this point. Lastly, until a determination is reached concerning the necessity and propriety of making Section 12.3, as originally proposed, retroactively applicable, the extent of the "fixing" of "rights" of formerly intrastate customers by United's tariff remain contingent.

The Commission finds and orders. Good cause has not been shown for granting United's petition for declaratory order and motion to consolidate, except as to the consolidation of the issue of the effect of United's tariff Section 12.1 on its general liability to curtailed direct sales customers. Such issue shall be consolidated for consideration in Phase III.

By the Commission,

[SEAL] KENNETH F. PLUMB,  
Secretary.

[Docket No. E-9145]

UTAH POWER AND LIGHT CO.

Extension of Procedural Dates

AUGUST 21, 1975.

On August 14, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued April 29, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff Testimony, October 7, 1975.  
Service of Intervenor Testimony, October 21, 1975.

Service of Company Rebuttal, November 4, 1975.  
Hearing, November 18, 1975 (10:00 a.m. 1st).

KENNETH F. PLUMB,  
Secretary.

# FEDERAL RESERVE SYSTEM

## AMERIBANC, INC.

### Order Granting Request for Reconsideration

Ameribanc, Inc., St. Joseph, Missouri, has requested reconsideration of the Order of December 31, 1974 (40 FEDERAL REGISTER 1568), whereby the Board of Governors denied the application of Ameribanc, Inc., for prior approval to merge with First American Bancshares, Inc., St. Joseph, Missouri, pursuant to section 3(a)(5) of the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1842(a)(5)).

The request for reconsideration is filed pursuant to section 262.3(g)(5) of the Board's Rules of Procedure, which provides that the Board will not grant any request for reconsideration "unless the request presents relevant facts that, for good cause shown, were not previously presented to the Board, or unless it otherwise appears to the Board that reconsideration would be appropriate." The Board finds that the request for reconsideration presents relevant new facts that were not previously presented to the Board and, therefore, that it would be appropriate for the Board to reconsider the application. Accordingly, the request for reconsideration is hereby granted.

In order to facilitate such consideration, comments and views regarding the proposal may be filed with the Board not later than September 23, 1975. Communications should be addressed to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. The application, as supplemented by Applicant's request for reconsideration, may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

By order of the Board of Governors, effective August 25, 1975.

[SEAL] THEODORE E. ALLISON,  
Secretary of the Board.

[FR Doc 75-23179 Filed 8-29-75; 8:45 am]

## D. H. BALDWIN CO.

### Order Approving Acquisition of Bank

D. H. Baldwin Company, Cincinnati, Ohio, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under § 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of First National Bank in Craig, Craig, Colorado ("Bank"), a proposed new bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The

<sup>1</sup> Voting for this action: Vice Chairman Mitchell and Governors Bucher, Coldwell, and Jackson. Voting against this action: Governor Wallich. Absent and not voting: Chairman Burns and Governor Holland.

## NOTICES

time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls eleven banks with aggregate deposits of approximately \$577 million, representing 8.1 per cent of the total deposits in commercial banks in Colorado, and ranks as the fourth largest banking organization in the State.<sup>1</sup> All banking data are as of December 31, 1974, and reflect holding company formations and acquisitions approved by the Board through July 31, 1975.<sup>2</sup> Since Bank is a proposed new bank, consummation of the proposed acquisition would not immediately increase Applicant's share of commercial bank deposits in the State nor increase the concentration of banking resources in Colorado.

Applicant is seeking to make its initial entry into the Craig banking market,<sup>3</sup> which at present has only one commercial bank with total deposits of approximately \$20 million. Applicant's closest subsidiary bank is located about 116 miles southeast of Craig in a separate banking market. It appears that Applicant's acquisition of Bank would not eliminate any existing competition; nor would consummation of the transaction have any adverse effect on future competition between any of Applicant's banking subsidiaries and Bank in view of the distances involved and the Colorado branching laws. Furthermore, approval of the proposal should have a favorable effect on competition by introducing an alternate source of banking services to the town of Craig. On the basis of the facts of record, the Board concludes that competitive considerations of the transaction are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant, its subsidiaries, and Bank are regarded as satisfactory and consistent with approval of the application. The introduction of a new banking alternative to the Craig area should provide greater banking convenience for the residents of the area. In addition, the recent economic growth experienced by the Craig area has produced a strong demand for all types of loans and Bank, with Applicant's assistance, would be in a position to help satisfy the increased banking demands of the area. Therefore, considerations relating to the convenience and needs of the community to be served lend some weight toward approval of the application. It is the Board's judgment that

<sup>1</sup> In addition to its banking activities, Applicant is a diversified corporation engaged in the manufacture and sale of musical instruments and the provision of financial services. For a further discussion of Applicant's nonbanking activities, see the Board's determination of June 14, 1973, with respect to Applicant's "grandfather" activities under § 4(a)(2) of the Act. (59 Federal Reserve Bulletin 536 (1973)).

<sup>2</sup> The Craig banking market is approximated by the eastern two-thirds of Moffat County in Colorado and a small portion of southern Carbon County in Wyoming.

the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order, or (b) later than three months after that date, and (c) First National Bank in Craig, Craig, Colorado, shall be opened for business not later than six months after the effective date of this Order. Each of the periods described in (b) and (c) may be extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors, effective August 25, 1975.

[SEAL] THEODORE E. ALLISON,  
Secretary of the Board.

[FR Doc. 75-23180 Filed 8-29-75; 8:45 am]

## MIDLAND BANCORP, INC.

## Formation of Bank Holding Company.

Midland Bancorp, Inc., Chicago, Illinois, has applied for the Board's approval under § 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Sears Bank and Trust Company, Chicago, Illinois. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. § 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than September 29, 1975.

Board of Governors of the Federal Reserve System, August 25, 1975.

GENERAL SERVICES  
ADMINISTRATION

[FEDERAL PROPERTY MANAGEMENT  
REGULATIONS TEMPORARY REGULATION F-352]

## SECRETARY OF DEFENSE

## Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in an intrastate rate proceeding.

2. *Effective date.* This regulation is effective July 29, 1975.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the California Public Utilities Commission involving the application of the Pacific Gas and Electric Company for changes in its purchased gas adjustment clause (Application No. 55687).

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ARTHUR F. SAMPSON,  
Administrator of General Services.

REGIONAL PUBLIC ADVISORY PANEL ON  
ARCHITECTURAL AND ENGINEERING  
SERVICES

## Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of a meeting of the Regional Public Advisory Panel on Architectural and Engineering Services, Region 2, September 24, 1975, from 9 a.m. to 4:30 p.m., Room 2408, Federal Office Building, 26 Federal Plaza, New York, New York. The meeting will be devoted to the initial step of the procedures for screening and evaluating the qualifications of architect-engineers under consideration for selection to furnish professional services for the proposed fixed price, one year term contract for A/E services to be furnished as required at Government locations within a 50 mile radius of New York City, New York. Frank and open discussion of the professional qualifications of the firms being considered is essential to insure selection of the best qualified firms. Accordingly, pursuant to a determination that it will be concerned with a matter listed in 5 U.S.C. 552(b)(5) the meeting will not be open to the public.

Dated: August 20, 1975.

GERALD J. TURETSKY,  
Regional Administrator.  
[FR Doc. 75-23121 Filed 8-29-75; 8:45 am]

[Temporary Reg. G-22]  
FEDERAL PROPERTY MANAGEMENT  
REGULATIONSChange in Motor Vehicle Reporting  
Requirements

1. *Purpose.* This regulation prescribes the use of Standard Form 82-D, Agency Report of Sedan Data, for reporting additional data pertaining to Government-held sedans.

2. *Effective date.* This regulation is effective upon publication in the FEDERAL REGISTER.

3. *Expiration date.* This regulation expires March 31, 1976. Before the expiration date, this regulation will be codified in the permanent regulations of the General Services Administration (GSA) appearing in Title 41, CFR, Public Contracts and Property Management.

4. *Applicability.* The provisions of this regulation apply to all executive agencies holding or using commercially designed motor vehicles.

5. *Background.* It is incumbent upon Federal agencies to provide leadership in the conservation of energy and to compile and maintain significant data in support of this function. The Government has recently intensified the procurement of small sized sedans instead of the larger types in order to reduce motor fuel consumption by the Federal fleet. As a result, the present Standard Form 82, Agency Report of Motor Vehicle Data, is inadequate for the compilation of meaningful data on the new and more varied sedan types. Since it is necessary to collect statistical data covering each specific type of sedan so that suitable vehicle energy conservation guidelines and optimum procurement and replacement policies can be developed, the use of new Standard Form 82-D is essential for the collection of that data.

6. *Agency action.* Each Federal agency, as holding agency, using agency, or both, submitting Standard Form 82, Agency Report of Motor Vehicle Data, under the provisions of FPMR 101-38.1, shall submit Standard Form 82-D, Agency Report of Sedan Data (see attachment A), in duplicate, to GSA with Standard Form 82. Notwithstanding the September 15 date specified in FPMR 101-38.102-1 for submission of such agency reports, Standard Forms 82 and 82-D

for fiscal year 1975 shall be submitted to the General Services Administration (FZM), Washington, D.C. 20406, no later than October 31, 1975.

7. *Assistance.* Agencies may obtain additional information or assistance concerning the provisions of this regulation by contacting the General Services Administration (FZM), Washington, D.C. 20406, telephone (703) 557-8565.

8. *Reports.* The reports required by this regulation have been cleared in accordance with FPMR 101-11.11 and assigned Interagency Report Control Number 1102-GSA-AN.

9. *Agency comments.* Comments concerning the effect or impact of this regulation on agency operations should be submitted to the General Services Administration (FF), Washington, D.C. 20406, no later than December 1, 1975, for possible incorporation into the permanent regulation.

10. *Availability of Standard Form 82-D.* Supplies of Standard Form 82-D may be obtained by submitting a requisition in FEDSTRIP/MILSTRIP format to the GSA regional office providing support to the requesting activity. The temporary national stock number is 7540-01-034-0011.

11. *Effect on other issuances.* This regulation augments the policy in FPMR 101-38.102-1 as it pertains to agency submission of motor vehicle data to GSA.

Note: Standard Form 82-D, Agency Report of Sedan Data, referred to in paragraph 6, is filed as part of the original document.

Dated: August 28, 1975.

ARTHUR F. SAMPSON,  
Administrator of General Services.  
[FR Doc. 75-23344 Filed 8-29-75; 10:21 am]

NUCLEAR REGULATORY  
COMMISSION

[Docket No. 50-255]

## CONSUMERS POWER CO.

Notice of Proposed Issuance of Amendment  
to Provisional Operating License

The Nuclear Regulatory Commission (the Commission) is considering the issuance of an amendment to Provisional Operating License No. DPR-20 issued to Consumers Power Company (the licensee) for operation of the Pallsades Plant (the facility), a pressurized-water reactor located in Van Buren County, Michigan, and currently authorized for operation at power levels up to 2100 MWt.

In accordance with the licensee's application for a license amendment and supplement dated July 9, 1975, the amendment would modify operating limits in the Technical Specifications based upon an evaluation of ECCS performance calculated in accordance with an acceptable evaluation model that conforms to the requirements of the Commission's regulations in 10 CFR 50.46. The amendment would modify various limits established in accordance with the Commission's Interim Acceptance Criteria, and would, with respect to the Pallsades

Plant terminate the further restrictions imposed by the Commission's December 27, 1974 Order for Modification of License, and would impose instead, limitations established in accordance with the Commission's Acceptance Criteria for Emergency Core Cooling Systems for Light Water Nuclear Power Reactors, 10 CFR 50.46.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By October 2, 1975, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject provisional operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petition must be filed in accordance with the provisions of this Federal Register notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and to M. I. Miller, Esquire, Isham, Lincoln & Beale, Suite 4200, One First National Plaza, Chicago, Illinois 60670 and J. L. Bacon, Esquire, Consumers Power Company, 212 West Michigan Avenue, Jackson, Michigan 49201, the attorneys for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he

may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see (1) the application for amendment and supplement dated July 9, 1975, and (2) the Commission's Order for Modification of License and the documents referred to in the Order dated December 27, 1974 published in the FEDERAL REGISTER on January 9, 1975 (40 FR 1786), which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Kalamazoo Public Library, 315 South Rose Street, Kalamazoo, Michigan 49006. The license amendment and the Safety Evaluation, when issued, may be inspected at the above locations, and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 22nd day of August 1975.

For the Nuclear Regulatory Commission.

ALFRED BURGER,  
Acting Chief, Operating Reactor Branch No. 1, Division of Reactor Licensing.

[FR Doc.75-23021 Filed 8-29-75; 8:45 am]

#### PRIVACY PROTECTION STUDY COMMISSION MEETING

The Privacy Protection Study Commission will hold a meeting open to the public on September 8, 1975 at Room 2168, Rayburn House Office Building, Washington, D.C. between 9 a.m. and 5 p.m. with a break for lunch and on September 9, 1975 at Room 2358 Rayburn House Office Building, Washington, D.C. between 9 a.m. and 5 p.m. with a break for lunch.

The matters to be discussed include organizational matters and a discussion of the activities to be undertaken by the Commission. Presentations presently planned to be made in addition to those of the Commission's staff will be made by Mitre Corporation; Dr. Alan Westin; Office of Management and Budget; Stanford Research Institute; and Purdue University Graduate School of Industrial Administration.

For further questions, call Barbara Bailey (202) 225-2436.

CAROLE PARSONS,  
Executive Director, Privacy Protection Study Commission.

#### RAILROAD RETIREMENT BOARD EXTENSION OF UNEMPLOYMENT BENEFITS

Determination under section 2(h)(4) of the Railroad Unemployment Insurance Act of the beginning of a "period of high unemployment," as defined in section 2(h)(2) of that Act.

In accordance with the provisions of section 2(h)(4) of the Railroad Unemployment Insurance Act (45 U.S.C. § 352(h)(4)) as amended by section 1(e) of Public Law 94-92, the Railroad Retirement Board has determined that a "period of high unemployment" (as defined in section 2(h)(2) of that Act, as amended) began on July 1, 1975. Consequently, extended unemployment benefits under the second proviso of section 2(c) of that Act, as amended by section 1(d)(2) of Public Law 94-92, will be payable in registration periods beginning on and after that date.

By Authority of the Board.

Dated: August 22, 1975.

[SEAL] R. F. BUTLER,  
Secretary of the Board.

[FR Doc.75-23148 Filed 8-29-75; 8:45 am]

#### RAILROAD RETIREMENT SUPPLEMENTAL ANNUITY PROGRAM

##### Determination of Quarterly Rate of Excise Tax

In accordance with directions in section 3221(c) of the Railroad Retirement Tax Act (26 U.S.C. § 3221(c)), the Railroad Retirement Board has determined that the excise tax imposed by such section 3221(c) on every employer, with respect to having individuals in his employ, for each man-hour for which compensation is paid by such employer for services rendered to him during the quarter beginning October 1, 1975, shall be at the rate of eight and one-half cents.

In accordance with directions in section 15(a) of the Railroad Retirement Act of 1974, the Railroad Retirement Board has determined that for the quarter beginning October 1, 1975, 7.5 percent of the taxes collected under sections 3211(b) and 3221(c) of the Railroad Retirement Tax Act shall be credited to the Railroad Retirement Account and 92.5 percent of the taxes collected under such sections 3211(b) and 3221(c) plus one hundred percent of the taxes collected under section 3221(d) of the Railroad Retirement Tax Act shall be credited to the Railroad Retirement Supplemental Account.

By Authority of the Board.

Dated: August 25, 1975.

[SEAL] R. F. BUTLER,  
Secretary of the Board.

#### SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 19139; 70-5724]

##### METROPOLITAN EDISON CO.

Proposed Issue and Sale of First Mortgage Bonds at Competitive Bidding

August 22, 1975.

NOTICE IS HEREBY GIVEN that Metropolitan Edison Company ("Met-Ed"), 2800 Pottsville Pike, Muhlenberg Township, Berks County, Pennsylvania

19605, an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Met-Ed proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, up to \$45,000,000 principal amount of First Mortgage Bonds, due not later than October 1, 2005 ("Bonds"). The interest rate (which will be a multiple of  $\frac{1}{8}$  of 1%) and the price (which will be not less than 98% and not more than 101% of the principal amount of the Bonds, plus accrued interest from October 1, 1975, to the date of delivery) will be determined by competitive bidding. The bidding procedure will not establish a minimum or maximum interest rate within which bids may be submitted. The Bonds will be issued under the Indenture, dated as of November 1, 1944 between Met-Ed and Guaranty Trust Company of New York (now Morgan Guaranty Trust Company of New York), Trustee, as heretofore supplemented and amended, and as to be further supplemented and amended by a Supplemental Indenture to be dated as of September 25, 1975. None of the Bonds may be redeemed at the option of Met-Ed prior to October 1, 1980, if the funds for such redemption are obtained at an interest cost lower than the yield of the Bonds, except under certain circumstances.

The entire proceeds (exclusive of any premium or discount and accrued interest) from the sale of the Bonds will be applied to the payment at or before maturity of all or a portion of Met-Ed's \$40,000,000 of short-term bank loans expected to be outstanding at the date of the sale of the Bonds and/or retirement before maturity of Met-Ed's \$11,000,000 principal amount of First Mortgage Bonds due 1976-1978 and/or to reimburse Met-Ed's treasury for funds previously expended therefrom for construction purposes. The estimated cost of Met-Ed's 1975 construction program is approximately \$65,000,000 (including allowance for funds used during construction). At August 5, 1975, Met-Ed had short-term bank loans outstanding of \$30,725,000.

The fees and expenses to be incurred by Met-Ed in connection with the proposed transaction are estimated at \$140,000, including legal fees of \$37,500. Printing and engraving expenses are estimated at \$55,000. Fees of counsel for the underwriters, to be paid by the successful bidder, will be supplied by amendment. It is stated that the Pennsylvania Public Utility Commission has jurisdiction over the proposed transaction and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

NOTICE IS FURTHER GIVEN that any interested person may, not later than September 16, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

[FR Doc.75-23131 Filed 8-29-75; 8:45 am]

#### SMALL BUSINESS ADMINISTRATION

[Delegation of Authority No. 30; Rev. 15, Amdt. 3]

##### PROGRAM ACTIVITIES IN FIELD OFFICES

###### Delegation of Authority

Delegation of Authority No. 30, Revision 15 (40 FR 1165), as amended (40 FR 20691 and 40 FR 26317) is further amended to delegate to certain field officials authorities necessary to effectively carry out programs in field offices. This amendment also adds paragraph 2 to Part IX, Section B concerning size determinations for government procurement and sales activities and paragraph 4 to Part XI concerning temporary withholding of authorities.

Actions taken during the period of March 14, 1975, to the effective date of this document are hereby ratified to the extent they would have been authorized had this delegation been in effect.

Delegation of Authority No. 30, Revision 15, now reads as follows:

##### PART II—DISASTER PROGRAM

###### Section A—Disaster Loan Authority

###### 1. Direct and Immediate Participation

- (b) (1) Physical Disaster Loans (SBAct).

a. . . . .

(1) Home Loans: . . . . .

(h) Branch Manager . . . . .

(2) Business Loans: . . . . .

- (h) Branch Manager, \$500,000.  
2. Guaranteed Physical Disaster Loans  
(b) (1) (SBAct). . . . .

# PART IX—ELIGIBILITY AND SIZE DETERMINATIONS

## Section A—Eligibility Determinations

### Section B—Size Determinations

1. *Size Determination Authority.* In accordance with Small Business Administration Small Business Size Standards Regulations, to make initial size determinations of applicants for assistance under any program of the Agency:

- Regional Director
- All other officials having authority and assigned responsibility to take final action on the assistance requested, EXCEPT the SBIC program and government procurement and sales activities.

2. *Size Determinations for Government Procurement and Sales.* In accordance with Small Business Administration Small Business Size Standards Regulations, to make size determinations for government procurement and sales activities.

- Regional Director
- Assistant Regional Director for PA
- District Director

## PART XI—REDELEGATION AUTHORITY

4. Regional directors, district directors, and branch managers may withhold or limit authorities delegated to those positions prescribed in this document for a period not to exceed six months. Information relating to these temporary exceptions will be maintained and available for examination in their respective field offices.

Effective date: September 2, 1975.

Dated: August 22, 1975.

THOMAS S. KLEPPE,  
Administrator.

## DEPARTMENT OF LABOR

### Office of Employee Benefits Security ADVISORY COUNCIL ON EMPLOYEE WELFARE AND PENSION BENEFIT PLANS

#### Notice of Meeting

Pursuant to Section 512 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1142) a meeting of the Advisory Council on Employee Welfare and Pension Benefit Plans will be held on Tuesday and Wednesday, September 16 and 17, 1975, at 10 a.m., in Conference Room B, Departmental Auditorium, 12th and Constitution Avenue, N.W., Washington, D.C.

The meeting will be open to the public. The purpose of the meeting is to discuss the items listed in the following agenda:

- Investment Work Group Report.
- Recordkeeping Work Group Report.
- Seasonal Industries Work Group Report.
- Prohibited Transactions Work Group Report.
- Union Dues-Financed Plans.
- PBGC Presentation: Treatment of Basic Benefits.

- Discussion of Participation, Vesting and Accrual Regulations.
- Liability of Individuals Employed by Named Fiduciaries.
- Role of Internal Revenue Service and Joint Administration of ERISA.
- Agenda for November Meeting.

Any member of the public may file a written statement concerning the topics under this agenda by submitting 30 copies to James D. Hutchinson, Administrator of Pension and Welfare Benefit Programs, New Department of Labor Building, 200 Constitution Avenue, N.W., Room N4629, Washington, D.C. 20210.

Persons desiring to attend should notify Mr. Edward F. Lysczek, Executive Secretary of the Advisory Council, New Department of Labor Building, 200 Constitution Avenue, N.W., Room N4700, Washington, D.C. 20210, or may call Area Code 202/523-8753.

Signed at Washington, D.C., this 26th day of August 1975.

JAMES D. HUTCHINSON,  
Administrator of Pension  
and Welfare Benefit Programs.

[FR Doc 75-23115 Filed 8-29-75; 8:45 am]

## Office of the Secretary

### ADVISORY COUNCIL ON EMPLOYEE WELFARE AND PENSION BENEFIT PLANS

Section 512 of the Employee Retirement Income Security Act of 1974 (88 Stat. 895, 29 U.S.C. 1142) provides for the establishment of an "Advisory Council on Employee Welfare and Pension Benefit Plans" which is to consist of 15 members to be appointed by the Secretary as follows: three shall be representatives of employee organizations (at least one of whom shall be representative of any organization whose members are participants in a multiemployer plan); three shall be representatives of employers (at least one of whom shall be representative of employers maintaining or contributing to multiemployer plans); one representative each from the fields of insurance, corporate trust, actuarial counseling, investment counseling, investment management, and the accounting field. Three additional representatives shall be appointed from the general public, one of whom shall be a person representing those receiving benefits from a pension plan. Not more than eight members of the Council shall be members of the same political party. The prescribed duties of the Council are to advise the Secretary with respect to the carrying out of his functions under the Employee Retirement Income Security Act, and to submit to the Secretary recommendations with respect thereto. The Council will meet at least four times each year, and recommendations of the Council to the Secretary will be included in the Secretary's annual report to the Congress on the Employee Retirement Income Security Act.

Members shall be persons qualified to appraise the programs instituted under the Employee Retirement Income Security Act. They shall be appointed for

terms of three years except that, with respect to those members appointed initially, five were appointed for terms of one year, five were appointed for terms of two years, and five were appointed for terms of three years. Appointments were for terms beginning November 15, 1974.

The terms of five members appointed initially for one year expire on November 14, 1975. The groups or fields represented are as follows: employee organizations, employers (representative of employers maintaining or contributing to multiemployer plans), corporate trust field, investment management field and the general public. Appointments or reappointments to fill the vacancies will be for terms of three years beginning November 15, 1975.

Accordingly, notice is hereby given that any person or organization desiring to recommend one or more individuals for appointment to the "Advisory Council on Employee Welfare and Pension Benefit Plans" to represent any of the five groups or fields specified in the preceding paragraph may submit recommendations to the Secretary of Labor, New Department of Labor Building, 200 Constitution Avenue, N.W., Washington, D.C. 20210, on or before October 2, 1975. The recommendation may be in the form of a letter, resolution, or petition, signed by the person or, in the case of a recommendation by an organization, by an authorized official of the organization. Each recommendation shall identify the candidate by name, occupation or position, and address. It shall include a brief description of the candidate's qualifications and shall specify the group or field which the candidate would represent for purposes of section 512 of the Act, the candidate's political party affiliation, and whether the candidate is available and would accept.

Signed at Washington, D.C., this 26th day of August 1975.

JAMES D. HUTCHINSON,  
Administrator of Pension  
and Welfare Benefit Programs.

[FR Doc 75-23116 Filed 8-29-75; 8:45 am]

### AIRCO ELECTRONICS BRADFORD, PENNSYLVANIA

#### Notice of Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-64; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on July 1, 1975 in response to a worker petition received on June 26, 1975 which was filed by the International Union of Radio and Electrical Workers, AFL-CIO on behalf of workers formerly producing carbon composition resistors, coils and capacitors at the Airco Electronics Division, St. Marys, Pennsylvania, a di-

vision of Airco Incorporated of Montvale, New Jersey.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 28689) on July 8, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Airco Electronics, its customers, the U.S. International Trade Commission, U.S. Department of Commerce, Electronic Industries Association, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements to section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated.

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

*Significant total or partial separations.* Total employment at the Bradford plant of Airco Electronics declined 43 percent from December 1972 to June 1975. Further, there will be continued layoffs throughout the remainder of 1975 as coil and capacitor production transfers to Nogales, Mexico.

*Sales or production, or both, have decreased absolutely.* Production of carbon composition resistors and capacitors at the Bradford plant declined 32 percent and 38 percent, respectively from 1973 to 1974.

*Sales of carbon composition resistors, capacitors and coils declined 27 percent, 45 percent and 11 percent, respectively, from 1973 to 1974.*

*Increased imports contributed importantly.* Imports of carbon composition resistors increased from about 424 million units in 1972 to about 1.4 billion units in 1974. The import/consumption and import/production ratios increased from about 11.5 percent and 12.6 percent, respectively in 1972 to 30.0 percent and 39.6 percent in 1974.

Imports of capacitors increased from about 265 million units in 1971 to about 1.1 billion units in 1974. The ratios of imports to domestic consumption and production increased significantly from 13.2 percent and 15.0 percent, respectively in 1971 to 34.5 percent and 50.9 percent, respectively in 1974.

Airco imports of shielded coils from Nogales, Mexico have increased 13 fold from 1970 to 1974.

Airco Electronics' imports of resistors, capacitors, and shielded coils have constituted an increasing share of Bradford's sales in recent months and will account for total sales by the end of 1975.

*Conclusion.* After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with resistors, capacitors and coils produced by the Bradford, Pennsylvania plant of Airco Electronics contributed importantly to the total or partial separation of the workers of that plant. Section 223(b)(2) of the Trade Act of 1974 provides that a certification of eligibility to apply for worker adjustment assistance may not apply to any worker last separated from the firm or subdivision more than six months before April 3, 1975 the effective date of the new program. In accordance with this provision of the act I make the following certification:

All hourly, piecework, and salaried workers employed at the Bradford, Pennsylvania plant of Airco Electronics who become totally or partially separated from employment on or after October 3, 1974, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 25th day of August 1975.

HERBERT N. BLACKMAN,  
Associate Deputy Under Secretary for Trade and Adjustment Policy.

[FR Doc 75-23159 Filed 8-29-75; 8:45 am]

## [TA-W-62]

### CONTROL DATA CORP., CASPER, WYOMING

#### Notice of Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-62; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on June 26, 1975 in response to a worker petition received on June 24, 1975 which was filed by workers formerly producing and repairing computer memory components at the Casper, Wyoming plant of the Control Data Corporation, Computer Memory Manufacturing Division, St. Louis Park, Minnesota.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 28530) on July 7, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Control Data Corp., industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

*Significant total or partial separations.* Employment of production workers at Casper declined 41.2 percent from 1973 to 1974 and 28.2 percent from the first quarter of 1974 to the first quarter of 1975.

Employment ceased at Casper by July 1975.

*Sales or production, or both, have decreased absolutely.* Production at the Casper plant declined 29.3 percent from 1973 to 1974 and 7.3 percent from the first quarter of 1974 to the first quarter of 1975.

Production at Casper ceased during June 1975.

*Increased imports contributed importantly.* In recent years, more than 80 percent of all employment at the Casper plant was related to the repair of computer memory stacks. Evidence developed during the course of the investigation indicates that declines in production and employment at the Casper plant prior to March 1, 1975 were due to reduced repair requirements brought about by improved technology in the computer memory industry, and a reduced demand by Control Data for memory stacks produced at Casper. As operations at the Casper plant became increasingly unprofitable, Control Data decided to close the Casper plant. With the closure of the Casper plant Control Data transferred all repair operations formerly conducted at Casper to a Control Data facility in Korea, where such operations could be conducted at a more profitable level. Company imports from Korea of products formerly manufactured at Casper began in April 1975. These imports represent approximately 80 percent of Casper production on March 1, 1975. Manufacturing operations of the Casper plant, which comprised less than 20 percent of plant employment, were transferred to Control Data's St. Louis Park, Minnesota facility. All employment and production at the

Casper plant were terminated by late July 1975.

**Conclusion.** After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with articles produced at the Casper, Wyoming plant contributed importantly to the total or partial separation of the workers of that plant. Total or partial separations resulting from the transfer by Control Data of repair operations from the Casper plant to an offshore facility began in March 1975 and were concluded by late July 1975. After due consideration I make the following certification:

All hourly, piecework, and salaried workers employed at the Casper Wyoming plant of the Computer Memory Manufacturing Division, Control Data Corporation who became totally or partially separated from employment on or after March 2, 1975 and before July 30, 1975, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 25th day of August 1975.

HERBERT N. BLACKMAN,  
Associate Deputy Under Secretary for Trade and Adjustment Policy.

[FR Doc 75-23160 Filed 8-29-75; 8:45 am]

#### MID-AMERICA DAIRYMEN, INC. SPRINGFIELD, MISSOURI

#### Notice of Negative Determination Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-63: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on June 27, 1975 in response to a worker petition filed on June 24, 1975 by corporate employees of Mid-America Dairymen, Inc. on behalf of employees formerly employed at corporate headquarters in Springfield, Missouri.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 28531) on July 7, 1975. No public hearing was requested and none was held.

The information upon which the determination is based was obtained principally from officials of Mid-America Dairymen, Inc., customers of the firm, the U.S. Department of Agriculture, the U.S. Department of Commerce and staff industry analysts.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated.

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

**Significant total or partial separations.** Employment of corporate salaried employees decreased by 14 percent from 1973 to 1974 and 6.1 percent for the first half of 1975 compared with the first half of 1974. The 30 corporate employees were laid off beginning in May 1975.

**Sales or production, or both, have decreased absolutely.** Mid-America's total sales increased during 1973 and 1974. Total sales for the first 5 months of 1975 were 6.3 percent below the first five months of 1974. Production of butter and NFDM decreased during 1974 by 18.5 percent and 5.0 percent respectively and decreased in the first quarter of 1975 by 10.8 percent and 15.4 percent respectively. Sales of butter and NFDM also decreased during 1974 by 9.9 percent and 14.2 percent respectively but increased in the first quarter of 1975 over the first quarter of 1974 by 4.4 percent for butter and 16.3 percent for NFDM. Production and sales of cheese increased during 1973 by 69.2 percent and 102.2 percent respectively and increased in 1974 by 18.5 percent and 12.8 percent respectively. Production of cheese continued to increase during the first quarter of 1975 by 5.5 percent from the first quarter of 1974 but sales decreased by 1.9 percent from the first quarter of 1974.

**Increased imports contributed importantly.** Imports of cheese, butter and NFDM are controlled by quotas. Imports of these dairy items increased for certain periods during 1973 and 1974 due to Presidential proclamations raising import quotas. Quota increases for butter were terminated on December 31, 1974. Imports of butter were .2 percent of U.S. production and consumption in 1974 and .3 percent in the first five months of 1975. Quota increases for NFDM were terminated June 30, 1974. Imports of NFDM were 2.2 percent of U.S. production and 1.6 percent of consumption during the last seven months of 1974 and .22 percent of U.S. production and .27 percent of consumption during the first five months of 1975. Quota increases for cheese were terminated March 31, 1974. Imports of cheese were 1.2 percent of U.S. production and consumption for the last seven months of 1974 and .3 of U.S. production and consumption for the first five months of 1975.

The layoffs at corporate headquarters resulted from a complete corporate reorganization in May 1975 after the selection of a new president for Mid-America

Dairymen because of operating losses in 1974 and the first quarter of 1975.

**Conclusion.** After careful review of the facts obtained in the investigation I conclude that increases of imports like or directly competitive with cheese, butter and NFDM produced at Mid-America Dairymen did not contribute importantly to the total or partial separation of workers or to the absolute decline in sales or production at Mid-America Dairymen.

Signed at Washington, D.C. this 25th day of August 1975.

HERBERT N. BLACKMAN,  
Associate Deputy Under Secretary for Trade and Adjustment Policy.

[TA-W-65]

#### SHELLER GLOBE CORPORATION PORTLAND, INDIANA

#### Notice of Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-65: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on July 1, 1975 in response to a worker petition received on June 27, 1975 which was filed by the Allied Industrial Workers, AFL-CIO on behalf of workers formerly producing steering wheels and other automotive parts at the Portland, Indiana plant of the Sheller Globe Corporation, Toledo, Ohio.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 28690) on July 8, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Sheller Globe Corporation, its customers, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated.

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

For purpose of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

**Significant total or partial separations.** A significant number or proportion of the workers at the Portland plant became totally or partially separated in the last quarter of 1974 and first six months of 1975. Employment declined 22.9 percent from October 1974 to June 1975.

**Sales or production, or both, have decreased absolutely.** Production and sales of steering wheels at the Portland plant declined 24.0 percent and 17.9 percent respectively in the first half of 1975 compared to the first half of 1974.

**Increased imports contributed importantly.** Imports of articles like or directly competitive with those produced at the Portland plant increased from 548,000 units in 1972 to 609,000 units in 1974. Imports increased 8.6 percent in the first quarter of 1975 compared to the first quarter of 1974. The ratios of imports to domestic consumption and production increased from 6.1 percent and 6.0 percent, respectively in 1973 to 8.3 percent and 8.0 percent in 1974 and increased further to 9.1 percent and 9.8 percent in the first quarter of 1975.

The evidence developed in the Department's investigation indicates that the separation of workers engaged in employment related to the production of steering wheels was caused by the increase of competitive imports from the company's foreign production facilities.

Company imports of steering wheels increased 7.0 percent from 1973 to 1974 and increased 13.3 percent in the first 4 months of 1975 compared to the same period of 1974.

**Conclusion.** After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with steering wheels produced at Sheller Globe's Portland plant contributed importantly to the total or partial separation of the workers of that plant. Section 223(b)(2) of the Trade Act of 1974 provides that a certification of eligibility to apply for worker adjustment assistance may not apply to any worker last separated from the firm or subdivision more than six months before April 3, 1975, the effective date of the new program. In accordance with this provision of the Act, I make the following certification:

All hourly and salaried workers engaged in employment related to the production of steering wheels at the Portland, Indiana plant of Sheller Globe Corporation who became totally or partially separated from employment on or after October 3, 1974, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 25th day of August 1975.

HERBERT N. BLACKMAN,  
Associate Deputy Under Secretary for Trade and Adjustment Policy.

#### INTERSTATE COMMERCE COMMISSION IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

##### Elimination of Gateway Letter Notices

AUGUST 27, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before September 12, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 504 (Sub-No. E3), filed May 12, 1974. Applicant: HARPER MOTOR LINES, INC., P.O. Box 460, Elberton, Ga. Applicant's representative: B. K. McClain, P.O. Box 6985, Atlanta, Ga. 30315. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *General commodities*, (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment). (a) between Chicago and Peoria, Ill., on the one hand, and, on the other, points in North Carolina within the boundaries of U.S. Highway 1 from the North Carolina-South Carolina State line to junction North Carolina Highway 211, thence along North Carolina Highway 211 to junction North Carolina 41, thence along North Carolina Highway 41 to the North Carolina-South Carolina State line, including points on above-named highways; and (b) between points in Ohio, on the one hand, and, on the other, points in South Carolina on and east of a line beginning at the Georgia-South Carolina State line extending along U.S. Highway 378 to McCormick, thence along U.S. Highway 221 to Greenwood, thence along South Carolina Highway 34 to Winnsboro, thence along U.S. Highway 321 to Chester, thence along South Carolina Highway 9 to Lancaster, thence along South Carolina Highway 200 to the South Carolina-North Carolina State line. The purpose of this filing is to eliminate the gateway of Columbia, S.C.

No. MC 1824 (Sub-No. E2), filed May 15, 1974. Applicant: PRESTON TRUCKING COMPANY, INC., 151 Easton Blvd., Preston, Md. 21655. Applicant's representative: Frank V. Klein (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs* (a) from points on and within 10 miles of U.S. Highway 1 and U.S. Highway 40 between Baltimore, Md., and Junction Maryland Highway 24, to points in New York on and west of U.S. Highway

219, points in Pennsylvania on and west of U.S. Highway 219 and points in Ohio, Virginia, and West Virginia (Landover or Chesapeake City, Md.); (b) from points on and within 10 miles of U.S. Highway 2 and U.S. Highway 40 from Baltimore, Md., to junction Maryland Highway 24, to points in New York on, east and north of a line beginning at Buffalo extending along U.S. Highway 219 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 16, thence along New York Highway 16 to junction New York Highway 70, thence along New York Highway 70 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction New York Highway 54, thence along New York Highway 54 to Hammondsport, thence along unnumbered highway to junction New York Highway 14 at Watkins Glen, thence along New York Highway 14 to junction New York Highway 224, thence along New York Highway 224 to junction New York Highway 34, thence along New York Highway 34 to the New York-Pennsylvania State line;

(c) From points on or within 10 miles of U.S. Highway 1 between the intersection of Maryland Highway 24 and Pennsylvania Highway 62, and U.S. Highway 40 between intersection of Maryland Highway 24 and Delaware Highway 41, to points in Ohio, points in Pennsylvania on and west of a line beginning at the Pennsylvania-New York State line extending along U.S. Highway 219 to junction Pennsylvania Highway 770, thence along Pennsylvania Highway 770 to junction Pennsylvania Highway 59, thence along Pennsylvania Highway 59 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction Pennsylvania Highway 8, thence along Pennsylvania Highway 8 to junction Interstate Highway 76, thence along Interstate Highway 76 to junction U.S. Highway 119, thence along U.S. Highway 119 to the Pennsylvania-Maryland State line, points in Virginia on and south of a line beginning at the Virginia-West Virginia State line extending along Virginia Highway 55 to junction U.S. Highway 17, thence along U.S. Highway 17 to junction U.S. Highway 360, thence along U.S. Highway 360 to the Chesapeake Bay, points in West Virginia on and west of a line beginning at the West Virginia-Virginia State line extending along West Virginia Highway 55 to junction U.S. Highway 220, thence along U.S. Highway 220 to the West Virginia-Maryland State line; (d) from points on and within 10 miles of (1) U.S. Highway 1 between junction Pennsylvania Highway 52 and New York, (2) U.S. Highway 40 to U.S. Highway 130, thence along U.S. Highway 130 to junction U.S. Highway 1, and thence as in (1) above (also U.S. Highway 13 to Trenton, N.J., thence along U.S. Highway 1 to New York, also from Trenton over New Jersey Highway 27 to Elizabeth, N.J., and thence along U.S. Highway 1 to New York, N.Y.) between junction U.S. Highway 40 and Delaware Highway 41 at State Road, Delaware, and New York, N.Y., to points in Virginia, West Virginia and Ohio;

(e) From (1) points on and within 10 miles of U.S. Highway 1 between junction Pennsylvania Highway 52 and Trenton, N.J., and (2) points on and within 10 miles of U.S. Highway 40 to junction U.S. Highway 130, thence along U.S. Highway 130 to Trenton (also U.S. Highway 40 to junction U.S. Highway 13, thence along U.S. Highway 13 to Trenton) between the junction of U.S. Highway 40 and Delaware Highway 41 at State Road, Del., and Trenton, N.J., to points in Pennsylvania on and west of a line beginning at the New York-Pennsylvania State line extending along U.S. Highway 62 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-Maryland State line; (f) from points on or within 1-miles of the highways specified in (1), (2) and (3) below between the junction of Maryland Highway 24 and Philadelphia, Pa., (1) U.S. Highway 1, (2) U.S. Highway 40 to junction U.S. Highway 130, thence along U.S. Highway 130 to Philadelphia, (3) U.S. Highway 40 to junction U.S. Highway 13, thence along U.S. Highway 13 to Philadelphia, to points in New York on and west of a line beginning at Rochester extending along U.S. Highway 15 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction New York Highway 39, thence along New York Highway 39 to junction New York Highway 16, thence along New York Highway 16 to the New York-Pennsylvania State line;

(g) From points on and within 10 miles of U.S. Highway 1 between Trenton, N.J., and New York, N.Y., to points in Pennsylvania on and west of a line beginning at the Pennsylvania-New York State line extending along U.S. Highway 62 to junction Pennsylvania Highway 8, thence along Pennsylvania Highway 8 to junction Interstate Highway 76, thence along Interstate Highway 76 to junction U.S. Highway 119, thence along U.S. Highway 119 to the Pennsylvania-Maryland State line; and (h) from points on or within 10 miles of (1) U.S. Highway 1 between the junction of New Jersey Highway 18 and New York, (2) New Jersey Highway 27 between the junction of New Jersey Highway 18 to Elizabeth, N.J., and thence along U.S. Highway 1 to New York, N.Y., to points in New York on and west of a line beginning at Barcelona, N.Y., extending along New York Highway 17 to junction U.S. Highway 62, thence along U.S. Highway 62 to the New York-Pennsylvania State line. The purpose of this filing is to eliminate the gateway of Chesapeake City, Md.

No. MC 1824 (Sub-No. E3), filed May 15, 1974. Applicant: PRESTON TRUCKING COMPANY, INC., 151 Easton Blvd., Preston, Md. 21655. Applicant's representative: Frank V. Klein (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Frozen foodstuffs, (1) from points on or within 10 miles of U.S. Highway 1 from New York, N.Y., to Boston, Mass.; U.S. High-

way 5 from New Haven, Conn., to Springfield, Mass., U.S. Highway 20 from Springfield, Mass., to Boston, Mass., to points in Virginia, West Virginia, points in that part of Ohio west of U.S. Highway 322, points in that part of Pennsylvania south and west of U.S. Highway 322 from the Ohio-Pennsylvania State line to junction Pennsylvania Highway 36, thence along Pennsylvania Highway 36 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Pennsylvania-Maryland State line, (b) from points on or within 10 miles of U.S. Highway 1 from New York, N.Y., to Boston, Mass., and from points on U.S. Highway 5 from New Haven to Hartford, Conn., to points in Ohio north of U.S. Highway 322; (c) from points on or within 10 miles of U.S. Highway 1 from New York, N.Y., to New London, Conn., to points in that part of Pennsylvania on, north and west of a line beginning at the Pennsylvania-New York State line extending along U.S. Highway 62 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Pennsylvania Highway 66, thence along Pennsylvania Highway 66 to junction Pennsylvania Highway 899, thence along Pennsylvania Highway 899 to junction Pennsylvania Highway 36, thence along Pennsylvania Highway 36 to junction U.S. 322, thence along U.S. Highway 322 to the Pennsylvania-Ohio State line;

(d) From points on and within 10 miles of U.S. Highway 1 from New Haven, Conn., to Boston, Mass., and U.S. Highway 20 from Worcester to Boston, Mass., to points in Pennsylvania within an area bounded by a line beginning at the junction of U.S. Highway 322 and Pennsylvania Highway 36, extending along U.S. Highway 322 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction Pennsylvania Highway 36, thence along Pennsylvania Highway 36 to point of beginning, including points on the above-specified highways; and (e) from points on and within 10 miles of U.S. Highway 1 from New York, N.Y., to Bridgeport, Conn., to points in New York on and west of a line beginning at Barcelona extending along New York Highway 17 to junction U.S. Highway 62, thence along U.S. Highway 62 to the New York-Pennsylvania State line. The purpose of this filing is to eliminate the gateway of Chesapeake City, Md.

No. MC 31600 (Sub-No. E10), filed June 4, 1974. Applicant: P. B. MUTRIE MOTOR TRANSPORTATION, INC., Calvary Street, Waltham, Mass. 02154. Applicant's representative: Marshall Kragen, 666 Eleventh Street, NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Liquid chemicals*, in bulk, in tank vehicles, from points in New Hampshire to points in California (Boston, Mass.); (2) *liquid commodities*, in bulk, in tank vehicles, except petroleum and petroleum products, asphalt, bituminous materials and bituminous products milk and milk products and blackstrap molasses, from points in New Hampshire

on and east of a line beginning at the New Hampshire-Vermont State line and extending along New Hampshire Highway 103 to junction U.S. Highway 202, thence along U.S. Highway 202 to junction U.S. Highway 3, thence along U.S. Highway 3 to the New Hampshire-Massachusetts State line, to points in Rhode Island (Boston, Mass.); (3) *formaldehyde*, in bulk, in tank vehicles, from points in New Hampshire, to points in Delaware and Pennsylvania within 250 miles of Garfield, N.J. (Garfield or Perth Amboy, N.J.); (4) *liquid plasticizers*, in bulk, in tank vehicles, (a) from points in New Hampshire to Wilmington, Del., and Lancaster, Philadelphia, Doylestown, Neville Island, and Pittsburgh Pa., (b) from points in New Hampshire on and south of New Hampshire Highway 101 to Lockport, N.Y. (Cambridge, Mass.); (5) *liquid container cement*, in bulk, in tank vehicles, (a) from points in New Hampshire to New Castle and Dover, Del., and Philadelphia, Lancaster, Glassport, Oil City, Pittsburg, Conneville, and Mifflinborough, Pa., and (b) from points in Hillsborough and Merrimack Counties, N.H., to Lockport, Niagara Falls, Buffalo, Fairport, Syracuse, and Randolph, N.Y. (Cambridge, Mass.);

(6) *Aluminum chloride, aluminum sulphate, aqua-ammonia, lacquers, lacquer thinning compound, muriatic acid, nitric acid, oleum, sodium by-sulphate, proprietary alcohol solvents, sodium hypochloride and sulphuric acid*, restricted to liquid commodities and against petroleum products, in bulk, in tank vehicles, (a) from points in New Hampshire to Rockford, Del., Buffalo, Niagara Falls, Greenwich and Thompson, N.Y., and Conshohocken, Seiple, Philadelphia, Bridgeville, Carnegie, Reading and Springfield, Pa. (Everett, Mass.); and (b) from points in New Hampshire to points in Pennsylvania on and east of U.S. Highway 15 (Sayreville, N.J.); (7) *cotton softener and sizing*, in bulk, in tank vehicles, from points in New Hampshire to Rockford, Del., Buffalo, Niagara Falls, Greenwich, and Thompson, N.Y., and Conshohocken, Seiple, Philadelphia, Bridgeville, Carnegie, Reading and Springfield, Pa.; (8) *formic acid*, in bulk, in tank vehicles, from points in New Hampshire to Albany, Ga., and Orangeburg, S.C. (Fords or Garfield, N.J.); (9) *salicylatehyde*, in bulk, in tank vehicles, from points in New Hampshire to Chicago, Ill. (Fords, N.J.); (10) *animal vegetable and fish oils*, (except fatty acids and refined coconut oils), and *liquid chocolate, liquid chocolate products, and cocoa butter*, in bulk, in tank vehicles, from points in New Hampshire to Chicago, Ill. (Boston, Mass.); (11) *chlorosulfonic acid*, in bulk, in tank vehicles, from points in New Hampshire to Baltimore, Md., and Lock Haven, and Philadelphia, Pa. (Kearny, N.J.); (12) *fluorinated hydrocarbon (compressed gas), trichloromono-fluoromethane, trichlorotrifluoroethane and dichlorotetrafluoroethane and mixtures of the aforementioned commodities*, in bulk, in tank vehicles, from points in New Hampshire to Baltimore,

Md., Cleveland, Minerva, Portsmouth, and Waverly, Ohio, and Lancaster, Norristown, and Tylersport, Pa. (Edgewater or Elizabethport, N.J.); (13) *grain alcohol*, in bulk, in tank vehicles, from points in New Hampshire to Cockeysville, Md. (Boston, Mass., and Hartford, Conn.); (14) *liquid paint*, in bulk, in tank vehicles from points in New Hampshire to New Kensington, Pa. (Chelsea, Mass.); (15) *liquid cleaning compound*, in bulk, in tank vehicles, (restricted against petroleum products), from points in Merrimack and Hillsborough Counties, N.H., to Lititz, Pa. (Boston, Mass., and Cranston, R.I.); (16) *denatured rum*, in bulk, in tank vehicles, from points in New Hampshire to Richmond, Va. (Boston, Mass.); and (17) *liquid colloidal silicate*, in bulk, in tank vehicles, from points in New Hampshire to Racine, Wisc. (Everett, Mass.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 31600 (Sub-No. E11), filed June 4, 1974. Applicant: P. B. MUTRIE MOTOR TRANSPORTATION, INC., Calvary Street, Waltham, Mass. 02154. Applicant's representative: Marshall Kragen, 666 Eleventh Street, NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, (1) between points in Windham County, Conn., on the one hand, and, on the other, points in New York on, south and west of a line beginning at the East River and extending along Interstate Highway 87 to junction New York Highway 17, thence along New York Highway 17 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction New York Highway 63, thence along New York Highway 63 to Lake Ontario; (2) between points in New London and Middlesex Counties, Conn., on the one hand, and, on the other, points in New York on, south and west of a line beginning at the Connecticut-New York State line and extending along U.S. Highway 6 to junction New York Highway 17, thence along New York Highway 17 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction New York Highway 41, thence along New York Highway 41 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction New York Highway 34, thence along New York Highway 34 to junction U.S. Highway 104, thence along U.S. Highway 104 to junction New York Highway 18, thence along New York Highway 18 to Lake Ontario; (3) between points in Fairfield County, Conn., on the one hand, and, on the other, points in New York on and west of New York Highway 14;

(4) Between points in Hartford County, Conn., on the one hand, and, on the other, points in New York on, south and west of a line beginning at the East River and extending along Interstate Highway 87 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 36,

thence along New York Highway 36 to junction New York Highway 63, thence along New York Highway 63, to junction New York Highway 98, thence along New York Highway 98 to Lake Ontario; (5) between points in New Haven County, Conn., on the one hand, and, on the other, points in New York on, south and west of a line beginning at the East River and extending along Interstate Highway 87 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 8, thence along New York Highway 8 to junction New York Highway 80, thence along New York Highway 80 to junction New York Highway 13, thence along New York Highway 13 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction New York Highway 481, thence along New York Highway 481 to Lake Ontario; (6) between points in Litchfield County, Conn., on the one hand, and, on the other, points in New York on and west of a line beginning at the New York-Pennsylvania State line and extending along New York Highway 14 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 36, thence along New York Highway 36 to junction New York Highway 63, thence along New York Highway 63 to junction New York Highway 18, thence along New York Highway 18 to Lake Ontario, restricted in (1) through (6) above against the transportation to points in the New York, N.Y., Commercial Zone (points in Essex, Hudson, and Union Counties, N.J., points in Bergen County, N.J., south of New Jersey Highway 4 and points in Middlesex County, N.J., north of the Raritan River (except points in New Jersey in the New York, N.Y., Commercial Zone)). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 31600 (Sub-No. E14), filed June 4, 1974. Applicant: P. B. MUTRIE MOTOR TRANSPORTATION, INC., Calvary Street, Waltham, Mass. 02154. Applicant's representative: Marshall Kragen, 666 Eleventh Street, NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Liquid chemicals* (except petroleum products and bituminous products), in bulk, in tank vehicles, from points in Massachusetts to points in California (Boston, Mass.); (2) *formaldehyde*, in bulk, in tank vehicles, from points in Massachusetts to points in Delaware and Pennsylvania which are within 250 miles of Garfield, N.J. (Garfield or Perth Amboy, N.J.); (3) *liquid plasticizers* (except petroleum products), and *liquid container cement*, in bulk, in tank vehicles, (a) from points in Massachusetts to Wilmington, Del., and (b) from points in Massachusetts on and east of Massachusetts Highway 32 to Lockport, N.Y., and Lancaster, Philadelphia, Doylestown, Neville Island and Pittsburgh, Pa. (Cambridge, Mass.); (4) *aluminum chloride, aluminum sulphate, aqua-ammonia, lacquers, lacquer thin-*

ning compound, muriatic acid, nitric acid, oleum, phthalic anhydride, resins, plasticizers, sodium by-sulphate, proprietary alcohol solvent, sodium hypochloride and sulphuric acid (restricted to liquid commodities and against petroleum products), in bulk, in tank vehicles, (a) from points in Massachusetts to Rockford, Dela. (Everett, Mass.); (b) from points in Massachusetts on and east of Massachusetts Highway 32 to Glens Falls, Buffalo, Amsterdam, Niagara Falls, Beaver Falls, Brownsville, Carthage, Corinth, Dexter, Ft. Edwards, Fulton, Gouverneur, Greenwich, Harrisville, Little Falls, Lyons Falls, Newton Falls, Norfolk, Ogdensburg, Phoenix, Plattsburg, Potsdam, Thompson, Utica, Schenectady, Lawville, and Watertown, N.Y., and Conshohocken, Seiple, Smethport, Philadelphia, Carnegie, Coudersport, Reading and Springfield, Pa. (Everett, Mass.); and (c) from points in Massachusetts on and east of Massachusetts Highway 32 to points in Pennsylvania on and east of U.S. Highway 15 (Sayreville, N.J.).

(5) *Cotton softener and sizing*, in bulk, in tank vehicles, (a) from points in Massachusetts to Rockford, Dela., and (b) from points in Massachusetts on and east of Massachusetts Highway 32 to Glens Falls, Buffalo, Amsterdam, Niagara Falls, Beaver Falls, Brownsville, Carthage, Corinth, Dexter, Ft. Edwards, Fulton, Gouverneur, Greenwich, Harrisville, Little Falls, Lyons Falls, Newton Falls, Norfolk, Ogdensburg, Phoenix, Plattsburg, Potsdam, Thompson, Utica, Schenectady, Lawville, and Watertown, N.Y., and Conshohocken, Seiple, Smethport, Philadelphia, Carnegie, Coudersport, Reading and Springfield, Pa. (Everett, Mass.); (6) *formic acid*, in bulk, in tank vehicles, from points in Massachusetts to Albany, Ga., and Orangeburg, S.C. (Fords, N.J., or Garfield, N.J.); (7) *sulcylaldehyde*, in bulk, in tank vehicles, from points in Massachusetts to Chicago, Ill. (Fords, N.J.); (8) *animal, vegetable and fish oils*, (except fatty acids and refined coconut oils), and *liquid chocolate, liquid chocolate products, and cocoa butter*, in bulk, in tank vehicles, from points in Massachusetts to Chicago, Ill. (Boston, Mass.); (9) *chlorosulfonic acid*, in bulk, in tank vehicles, from points in Massachusetts to Baltimore, Md., and Lock Haven and Philadelphia, Pa. (Kearny, N.J.); (10) *fluorinated hydrocarbon* (compressed gas), *trichloromonofluoromethane*, *trichlorotrifluoroethane*, *trichlorotetrafluoroethane*, and *mixtures of the aforementioned commodities*, in bulk, in tank vehicles, (a) from points in Massachusetts to Baltimore, Md., and Cleveland, Minerva, Portsmouth or Elizabethport, N.J.; and (b) from points in Massachusetts on and east of Massachusetts Highway 32 to Lancaster, Norrisown and Tylersport, Pa. (Edgewater, N.J.); (11) *grain alcohol*, in bulk, in tank vehicles, from points in Massachusetts to Cockeyville, Md. (Hartford, Conn.); (12) *liquid*

*synthetic resin*, in bulk, in tank vehicles, from points in Massachusetts to Oden-ton, Md. (Ballardvale, Mass.);

(13) *Liquid glycerine*, in bulk, in tank vehicles, from points in Massachusetts on and east of Massachusetts Highway 128 to Schenectady, N.Y. (Cambridge, Mass.); (14) *liquid paint*, in bulk, in tank vehicles, from points in Massachusetts to New Kensington, Pa. (Chelsea, Mass.); (15) *liquid cleaning compound*, (restricted against petroleum products), in bulk, in tank vehicles, from points in Massachusetts to Lititz, Pa. (Boston, Mass., and Cranston, R.I.); (16) *animal, vegetable and fish oils*, from points in Massachusetts to Elkland, Pa. (Boston, Mass.); (17) *denatured rum*, in bulk, in tank vehicles, from points in Massachusetts to Richmond, Va. (Boston, Mass.); and (18) *liquid colloidal silicate*, in bulk, in tank vehicles, from points in Massachusetts to Racine, Wisc. (Everett, Mass.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 41406 (Sub-No. E1), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (except commodities requiring special equipment), (a) from points in Illinois on and north of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 30 to Sugar Grove, thence along Interstate Highway 90 to the Illinois-Indiana State line, to points in Indiana on and north of a line beginning at the Indiana-Illinois State line extending along Indiana Highway 10 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction Indiana Highway 43, thence along Indiana Highway 43 to Lafayette, thence along Indiana Highway 26 to the Indiana-Ohio State line; (b) between points in Kankakee and Will Counties, Ill., on the one hand, and, on the other, points in Steuben, LaGrange, Elkhart, St. Joseph, LaPorte, DeKalb, Noble, Kosciusko, Whitley and Allen Counties, Ind.; (c) from points in Illinois on and north of Interstate Highway 80, to points in Indiana on, north and east of a line beginning at the Illinois-Indiana State line extending along Interstate Highway 80 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction Indiana Highway 26, thence along Indiana Highway 26 to the Indiana-Ohio State line;

(d) From points in Illinois on and south of a line beginning at the Iowa-Illinois State line extending along Illinois Highway 9 to Bloomington, thence along U.S. Highway 66 to junction Illinois

Highway 17, thence along Illinois Highway 17 to the Illinois-Indiana State line, to points in Indiana on and north of U.S. Highway 30; and (e) from points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 6 to Galesburg, thence to junction U.S. Highway 6, thence along U.S. Highway 6 to Joliet, thence along U.S. Highway 30 to the Illinois-Indiana State line, to points in Indiana on north and east of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 6 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction U.S. Highway 31 through Kokomo, to junction Indiana Highway 26, thence along Indiana Highway 26 to the Indiana-Ohio State line. The purpose of this filing is to eliminate the gateway of Gary, Ind.

No. MC 41406 (Sub-No. E2), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (a) from points in Kankakee, Iroquois, Vermilion, Edgar, Douglas, Champaign, and Ford Counties, Ill., to points in Columbia, Dane, Dodge, Grant, Iowa, Fond du Lac, Kenosha, Jefferson, Ozaukee, Racine, Rock, Sauk, Sheboygan, Walworth, Washington, and Waukesha Counties, Wisc. (except those parts of Kenosha and Racine Counties on and east of U.S. Highway 41); (b) from points in Livingston County, Ill., to points in Columbia, Racine, Kenosha, Walworth, Waukesha, Jefferson, Ozaukee, Washington, Sheboygan and Fond du Lac Counties, Wisc. (except those parts of Kenosha and Racine Counties on and east of U.S. Highway 41); (c) from points in Livingston County, Ill., on and east of U.S. Highway 66, to points in Crawford, Dane, Dodge, Green, Iowa, Lafayette, Richland, Rock, and Sauk Counties, Wisc.; (d) from points in Grundy County, Ill., on and east of U.S. Highway 66, to points in Kenosha, Racine, Waukesha, Washington, Ozaukee and Fond du Lac Counties, Wisc. (except those parts of Racine and Kenosha Counties, on and east of U.S. Highway 41);

(e) From points in that part of Cook County, Ill., south and east of a line beginning at the Lake Michigan at Wilmette, Ill., extending along Lake Avenue to Euclid Avenue, thence to junction Illinois Highway 53, thence to the Cook-DuPage County lines, to points in Columbia, Crawford, Dane, Dodge, Fond du Lac, Grant, Green, Iowa, Jefferson, Lafayette, Kenosha, Ozaukee, Racine, Richland, Rock, Sauk, Sheboygan, Walworth, Washington, and Waukesha Counties, Wisc. (except those parts of

Kenosha and Racine Counties on and east of U.S. Highway 41); (f) from that part of DuPage County, Ill., on and east of Illinois Highway 53, to points in Columbia, Crawford, Dane, Dodge, Fond du Lac, Grant, Green, Iowa, Jefferson, Lafayette, Kenosha, Ozaukee, Racine, Richland, Rock, Sauk, Sheboygan, Walworth, Washington, and Waukesha Counties, Wisc. (except those parts of Kenosha and Racine Counties on and east of U.S. Highway 41); and (g) from points in that part of Will County, Ill., on, south and east of U.S. Highway 66 to points in Columbia, Crawford, Dane, Dodge, Fond du Lac, Grant, Green, Iowa, Jefferson, Lafayette, Kenosha, Ozaukee, Racine, Richland, Rock, Sauk, Sheboygan, Walworth, Washington, and Waukesha Counties, Wisc. (except those parts of Kenosha and Racine Counties on and east of U.S. Highway 41). The purpose of this filing is to eliminate the gateway of Chicago, Ill., or a point in its commercial zone.

No. MC 41406 (Sub-No. E3), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (a) from points in Illinois on and south of Illinois Highway 16 (except points in Jersey and Macoupin Counties), to points in Sauk, Columbia, Dane, Dodge, Fond du Lac, Jefferson, Kenosha, Ozaukee, Racine, Richland, Rock, Sheboygan, Walworth, Washington, Waukesha Counties, Wisc., on and east of a line beginning at the Wisconsin Dells on U.S. Highway 12 to junction U.S. Highway 51, thence south to the Wisconsin-Illinois State line; and (b) from points in Cumberland, Clark, Jasper, Crawford, Richland, Lawrence, Edwards, Wabash, White, Saline, Gallatin, Hardin, Pope, Johnson, Massac, Pulaski, and Alexander Counties, Ill., to points in Columbia, Crawford, Dane, Dodge, Fond du Lac, Grant, Green, Iowa, Jefferson, Lafayette, Kenosha, Ozaukee, Racine, Richland, Rock, Sauk, Sauk, Sheboygan, Walworth, Washington, and Waukesha Counties, Wisc. (except those parts of Kenosha and Racine Counties on and east of U.S. Highway 41). The purpose of this filing is to eliminate the gateway of Chicago, Ill., or a point in its commercial zone.

No. MC 41406 (Sub-No. E4), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from points in Indiana to points in Wisconsin (except those parts

of Kenosha and Racine Counties on and east of U.S. Highway 41), south of the southern boundaries of Vernon, Juneau, Adams, Marquette, Green Lake, Winnebago, Calumet and Manitowoc Counties. The purpose of this filing is to eliminate the gateway of Chicago, Ill., or points in its commercial zone.

No. MC 41406 (Sub-No. E5), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except commodities in bulk), from Middletown, Ohio, to points in Iowa. The purpose of this filing is to eliminate the gateway of the plant site of the Jones & Laughlin Steel Corporation located in Putnam County, Ill.

No. MC 41406 (Sub-No. E6), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from Middletown, Ohio, to points in Columbia, Crawford, Dane, Grant, Dodge, Fond du Lac, Green, Iowa, Jefferson, Lafayette, Kenosha, Ozaukee, Racine, Richland, Rock, Sauk, Sheboygan, Walworth, Washington, and Waukesha Counties, Wisc. (except those parts of Kenosha and Racine Counties on and east of U.S. Highway 41). The purpose of this filing is to eliminate the gateway of Chicago, Ill., or a point in its commercial zone.

No. MC 41406 (Sub-No. E7), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except commodities in bulk), from Middletown, Ohio, to points in Wisconsin west and north of Vernon, Juneau, Adams, Marquette, Waushara, Waupara, Shawano, Oconto, and Marlette Counties, including points within these counties. The purpose of this filing is to eliminate the gateway of the plant site of Jones & Laughlin Steel Corporation located in Putnam County, Ill.

No. MC 41406 (Sub-No. E8), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Ap-

plicant's representative: William J. Walsh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (a) from points in the Lower Peninsula of Michigan, to points in Illinois (except Edgar, Clark, Crawford, Edward, White, Gallatin, Lawrence, Hardin, and Wabash Counties), and (b) from points in the Lower Peninsula of Michigan (except points in Branch, Hillsdale, Lenawee, and Monroe Counties), to points in Illinois. The purpose of this filing is to eliminate the gateway of points in the Chicago, Ill., commercial zone which are in the Portage, Ind., commercial zone.

No. MC 41406 (Sub-No. E9), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (a) from points in that part of Michigan on and north of a line beginning at Lake Michigan near Ludington extending along U.S. Highway 31 to junction Michigan Highway 55, thence along Michigan Highway 55 to Roscommon-Ogemaw County line, thence along the Roscommon-Ogemaw County lines to the northern borders of Ogemaw and Iosco Counties to Lake Huron, to Kokomo, Ind.; (b) from points in that part of Michigan on and north of U.S. Highway 12 to Evansville, Ind.; (c) from those points in Michigan on, north and east of a line beginning at Lake Michigan near Holland, extending along Michigan Highway 40 to junction Michigan Highway 89, thence along Michigan Highway 89 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Michigan-Indiana State line, to points in Lake County, Ind., and that part of Porter County, Ind., on, south and west of a line beginning at Lake Michigan near Dune Acres extending along Indiana Highway 49 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Porter-La Porte County line; (d) from points in that part of Michigan on and north of a line beginning at Lake Michigan near Benton Harbor extending along U.S. Highway 31-33 to junction Interstate Highway 94, thence along Interstate Highway 94 to Detroit, Mich., to points in Tippecanoe County, Ind., on and west of Interstate Highway 65;

(e) From points in Michigan (except points in Berrien, Cass, St. Joseph, Branch, Hillsdale, Lenawee, and Monroe Counties, Mich.), to points in Montgomery County, Ind., on, south and west of a line extending from the Fountain-Montgomery County line along Interstate Highway 74 to junction U.S. Highway 231, thence along U.S. Highway 231

to the Montgomery-Putnam County line; and (f) from points in Michigan (except points in Branch, Hillsdale, Lenawee, and Monroe Counties, and that part of St. Joseph County south of U.S. Highway 12), to points in that part of Indiana on, south and west of a line beginning at the Illinois-Indiana State line extending along Indiana Highway 114 to junction Indiana Highway 55, thence along Indiana Highway 55 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Indiana Highway 59, thence along Indiana Highway 59 to junction Indiana Highway 58, thence along Indiana Highway 58 to junction Indiana Highway 57, thence along Indiana Highway 57 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Ohio River. The purpose of this filing is to eliminate the gateway of points in the Chicago Ill. commercial zone, and Portage, Ind.

No. MC 41406 (Sub-No. E10), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from points in the Lower Peninsula of Michigan, to points in that part of Iowa on and east of a line beginning at the Iowa-Illinois State line at Keokuk extending along U.S. Highway 218 to Cedar Rapids, thence along U.S. Highway 451 to junction Iowa Highway 13, thence along Iowa Highway 13 to Marquette, at the Iowa-Wisconsin State line. The purpose of this filing is to eliminate the gateway of Chicago, Ill., or a point in its commercial zone.

No. MC 41406 (Sub-No. E12), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such iron and steel articles* as are building and construction materials (except commodities in bulk), from points in the Lower Peninsula of Michigan, to points in Missouri (except points in Dunklin, Pemiscot, New Madrid, Scott, Stoddard, Mississippi, Cape Girardeau, Bollinger, St. Genevieve, Butler, Wayne, Madison, St. Francois, and Perry Counties). The purpose of this filing is to eliminate the gateways of (1) Chicago, Ill., or a point in its commercial zone, and (2) the plant sites of Jones & Laughlin Steel Corporation located in Putnam County, Ill., (Hennepin).

No. MC 41406 (Sub-No. E13), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought

to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from points in the Lower Peninsula of Michigan on and south of Michigan Highway 55, to Columbia, Crawford, Dane, Dodge, Fond du Lac, Grant, Green, Iowa, Jefferson, Lafayette, Kenosha, Ozaukee, Racine, Richland, Rock, Sauk, Sheboygan, Walworth, Washington, and Waukesha Counties, Wis. (except those parts of Kenosha and Racine Counties on and east of U.S. Highway 41). The purpose of this filing is to eliminate the gateway of Chicago, Ill., or a point in its commercial zone.

No. MC 41406 (Sub-No. E17), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought

to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except commodities requiring special equipment), (a) from Kokomo, Ind., to points in that part of Michigan on and north of a line beginning at Lake Michigan near Ludington extending along U.S. Highway 31 to junction Michigan Highway 55, thence along Michigan Highway 55 to the Rosecommon-Ogemaw County line, thence north along the Rosecommon-Ogemaw County line to the Ogemaw-Oscoda Counties line, thence along the northern borders of Ogemaw and Iosco Counties to Lake Huron; (b) from Evansville, Ind., to points in that part of Michigan on and north of U.S. Highway 12; (c) from points in Lake County, Ind., and that part of Porter County, Ind., on, south and west of a line beginning at Lake Michigan near Dune Acres extending along Indiana Highway 49 to junction U.S. Highway 30, thence along U.S. Highway 30 to the La Porte-Porter County line, to those points in Michigan on, north, and east of a line beginning at Lake Michigan near Holland extending along Michigan Highway 40 to junction Michigan Highway 89, thence along Michigan Highway 89 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Michigan-Indiana State line;

(d) From points in Tippecanoe County, Ind., on and west of Interstate Highway 65, to points in that part of Michigan on and north of a line beginning at Lake Michigan near Benton Harbor extending along U.S. Highway 31-33 to junction Interstate Highway 94, thence along Interstate Highway 94 to Detroit; (e) from points in Montgomery County, Ind., on, south and west of a line beginning at the Fountain-Montgomery County line extending along Interstate Highway 74 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Montgomery-Putnam County line, to points in Michigan (except

points in Berrie, Cass, St. Joseph, Branch, Hillsdale, Lenawee and Monroe Counties, Mich.); (f) from points in that part of Indiana on, south and west of a line beginning at the Illinois-Indiana State line extending along Indiana Highway 114 to junction Indiana Highway 55, thence along Indiana Highway 55 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Indiana Highway 59, thence along Indiana Highway 59 to junction Indiana Highway 58, thence along Indiana Highway 58 to junction Indiana Highway 57, thence along Indiana Highway 57 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Ohio River, to points in Michigan (except points in Branch, Hillsdale, Lenawee, and Monroe Counties, and that part of St. Joseph County south of U.S. Highway 12). The purpose of this filing is to eliminate the gateway of Gary, Ind., (Chicago, commercial zone, and Portage, Ind.).

No. MC 41406 (Sub-No. E18), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such iron and steel articles* as are building and construction materials, from points in Illinois in Boone, Bureau, Cook, DeKalb, DuPage, Kane, Kendall, Lake, Lee, McHenry, Ogle, Putnam, Stephenson, and Winnebago Counties, and points in La Salle County on, north and east of Illinois Highway 18 and points in Will County on and north of a line beginning at the Will-Grundy County line extending along U.S. Highway 6 to Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Will-Cook County line, and points in Grundy County on and north of U.S. Highway 6, to points in Missouri. The purpose of this filing is to eliminate the gateway of the plant site of Jones & Laughlin Steel Corporation located in Putnam County, Ill. (Hennepin).

No. MC 41406 (Sub-No. E19), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* which are building and construction materials, from points in Lake, Porter, Starke, La Porte, and Marshall Counties, Ind., on and north of U.S. Highway 30, and points in St. Joseph County, Ind., to points in Missouri. The purpose of this filing is to eliminate the gateway of the plant site of Jones & Laughlin Steel Corporation, located in Putnam County, Ill.

No. MC 41406 (Sub-No. E20), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box

2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (a) from points in Jo, Daviess, Stephenson, Winnebago, Boone, McHenry, Lake, Cook, DuPage, Kane Counties, Ill., and points in Ogle County, Ill., on and north of Illinois Highway 64; and points in Will and DeKalb Counties, Ill., on and north of U.S. Highway 30, to Henderson, Louisville and Owensboro, Ky.; and (b) from points in Winnebago, Boone, McHenry, Lake, Cook, DuPage, Kane, DeKalb, and Ogle Counties, Ill., and that part of Will County, Ill., on and north of U.S. Highway 30, to Paducah, Ky. The purpose of this filing is to eliminate the gateway of Chicago, Ill., or a point in its commercial zone.

No. MC 41406 (Sub-No. E22), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (a) from points in the Lower Peninsula of Michigan on, west and north of a line beginning at the Indiana-Michigan State line at Lake Michigan extending along U.S. Highway 12 to junction Michigan Highway 50, thence along Michigan Highway 50 to Monroe, thence along unnumbered highway to Trenton, to Henderson and Paducah, Ky.; and (b) from points in the Lower Peninsula of Michigan on and north of a line beginning at the Indiana-Michigan State line at Lake Michigan extending along U.S. Highway 12 to junction Interstate Highway 94, thence along Interstate Highway 94 (through and including Detroit) to Port Huron, to Owensboro, Ky. The purpose of this filing is to eliminate the gateway of Chicago, Ill., or a point in its commercial zone.

No. MC 41406 (Sub-No. E23), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, (a) from points in Bond, Christian, Fayette, Macon, Morgan, Macoupin, Madison, Monroe, Montgomery, St. Clair, Sangamon and Shelby Counties, Ill., to points in Williams, Fulton, Lucas, Wood, Henry and Defiance Counties, Ohio; and (b) from points in Morgan, Macon, Sangamon, Christian, Macon, Montgomery, Macoupin, and Madison Counties, Ill., and that part of St. Clair County, Ill., on and north of Illi-

nois Highway 162 (including East St. Louis, Ill.), to points in Defiance, Fulton, Hancock, Henry, Lucas, Paulding, Putnam, Williams, and Wood Counties, Ohio. The purpose of this filing is to eliminate the gateway of Chicago, Ill., or a point in its commercial zone.

No. MC 41406 (Sub-No. E24), filed May 15, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: William J. Walsh (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209; (a) from points in Illinois on and north of Illinois Highway 17 (except points in Kankakee County) to points in Ohio on and west of a line beginning at the Ohio-Michigan State line at Toledo extending along U.S. Highway 23 to Columbus, thence along U.S. Highway 62 to Washington Court House, thence along U.S. Highway 22 to Cincinnati, Ohio, including points in the Cincinnati, Ohio, commercial zone, as defined by the Commission; and (b) from points in Illinois on and north of Illinois Highway 17, to points in Ohio on, north and west of a line beginning at the Ohio-Michigan State line at Toledo extending along U.S. Highway 23 to Columbus, thence along U.S. Highway 62 to Washington Court House, thence along U.S. Highway 35 to Dayton, thence along Ohio Highway 49, to Greenville, thence along Ohio Highway 571 to the Indiana-Ohio State line. The purpose of this filing is to eliminate the gateway of Chicago, Ill., or a point in its commercial zone.

No. MC 50069 (Sub-No. E14), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in Illinois and points in Indiana south of U.S. Highway 40 (South Bend, Ind., and Niles, Mich.); (2) *Petroleum chemicals* (except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride, in bulk, in tank vehicles), from Kalamazoo, Mich., and points within five miles thereof to points in Illinois and points in Indiana south of U.S. Highway 40 (South Bend, Ind., and Niles, Mich.); (3) *Petroleum products*, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in Illinois and points in Indiana south of U.S. Highway 40 (South Bend, Ind., and Niles, Mich.); (4) *Petroleum products*, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in Missouri within 135 miles of East St. Louis, Ill., restricted against the transportation of acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride (South Bend, Ind., Niles, Mich., and East St. Louis, Ill.); (5) *Petroleum chemicals*, except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations, and choline chloride, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in Missouri (South Bend, Ind., Niles, Mich., and Terre Haute, Ind.); (6) *Petroleum products*, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof, (a) to points in Ohio on and south of U.S. Highway 40 (South Bend, Ind., and Niles, Mich.); and (b) to points in Ohio bounded by a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 224 to junction U.S. Highway 42, thence north to Cleveland, Ohio, thence along the Lake Erie shore line to the Pennsylvania-Ohio State line, thence along the Ohio-Pennsylvania State line to junction U.S. Highway 40, thence along U.S. Highway 40 to the Ohio-Indiana State line, thence along the Ohio-Indiana State line to the point of beginning at junction U.S. Highway 224 and the Ohio-Indiana State line (Ft. Wayne, Ind.); (7) *Petroleum products*, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in Pennsylvania on and north of a line beginning at the Ohio-Pennsylvania State line, and extending along U.S. Highway 22 to Blairsville, Pa., thence north of the Pennsylvania-New York State line (Toledo, Ohio); (8) *Petroleum products*, except petrochemicals, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof, to points in Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey, North Carolina, Rhode Island, Vermont, and points in that part of Virginia east of a line beginning at the West Virginia-Virginia State line and extending along U.S. Highway 39 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line (Toledo, Ohio, Midland, Pa., and Congo, W. Va.); and (9) *Petroleum products*, except petrochemicals, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in New York (Toledo, Ohio, and Petrolia, Pa.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

hicles, from Kalamazoo, Mich., and points within five miles thereof to points in Kentucky south of Interstate Highway 64 (South Bend, Ind., Niles, Mich., and Seymour, Ind.); (4) *Petroleum products*, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in Missouri within 135 miles of East St. Louis, Ill., restricted against the transportation of acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride (South Bend, Ind., Niles, Mich., and East St. Louis, Ill.); (5) *Petroleum chemicals*, except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations, and choline chloride, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in Missouri (South Bend, Ind., Niles, Mich., and Terre Haute, Ind.); (6) *Petroleum products*, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof, (a) to points in Ohio on and south of U.S. Highway 40 (South Bend, Ind., and Niles, Mich.); and (b) to points in Ohio bounded by a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 224 to junction U.S. Highway 42, thence north to Cleveland, Ohio, thence along the Lake Erie shore line to the Pennsylvania-Ohio State line, thence along the Ohio-Pennsylvania State line to junction U.S. Highway 40, thence along U.S. Highway 40 to the Ohio-Indiana State line, thence along the Ohio-Indiana State line to the point of beginning at junction U.S. Highway 224 and the Ohio-Indiana State line (Ft. Wayne, Ind.); (7) *Petroleum products*, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in Pennsylvania on and north of a line beginning at the Ohio-Pennsylvania State line, and extending along U.S. Highway 22 to Blairsville, Pa., thence north of the Pennsylvania-New York State line (Toledo, Ohio); (8) *Petroleum products*, except petrochemicals, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof, to points in Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey, North Carolina, Rhode Island, Vermont, and points in that part of Virginia east of a line beginning at the West Virginia-Virginia State line and extending along U.S. Highway 39 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line (Toledo, Ohio, Midland, Pa., and Congo, W. Va.); and (9) *Petroleum products*, except petrochemicals, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in New York (Toledo, Ohio, and Petrolia, Pa.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 50069 (Sub-No. E17), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in Illinois and points in Indiana south of U.S. Highway 40 (South Bend, Ind., and Niles, Mich.); (2) *Petroleum chemicals* (except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride, in bulk, in tank vehicles), from Kalamazoo, Mich., and points within five miles thereof to points in Illinois and points in Indiana south of U.S. Highway 40 (South Bend, Ind., and Niles, Mich.); (3) *Petroleum products*, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in Missouri within 135 miles of East St. Louis, Ill., restricted against the transportation of acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride (South Bend, Ind., Niles, Mich., and East St. Louis, Ill.); (4) *Petroleum products*, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in Missouri within 135 miles of East St. Louis, Ill., restricted against the transportation of acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride (South Bend, Ind., Niles, Mich., and East St. Louis, Ill.); (5) *Petroleum chemicals*, except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations, and choline chloride, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in Missouri (South Bend, Ind., Niles, Mich., and Terre Haute, Ind.); (6) *Petroleum products*, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof, (a) to points in Ohio on and south of U.S. Highway 40 (South Bend, Ind., and Niles, Mich.); and (b) to points in Ohio bounded by a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 224 to junction U.S. Highway 42, thence north to Cleveland, Ohio, thence along the Lake Erie shore line to the Pennsylvania-Ohio State line, thence along the Ohio-Pennsylvania State line to junction U.S. Highway 40, thence along U.S. Highway 40 to the Ohio-Indiana State line, thence along the Ohio-Indiana State line to the point of beginning at junction U.S. Highway 224 and the Ohio-Indiana State line (Ft. Wayne, Ind.); (7) *Petroleum products*, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in Pennsylvania on and north of a line beginning at the Ohio-Pennsylvania State line, and extending along U.S. Highway 22 to Blairsville, Pa., thence north of the Pennsylvania-New York State line (Toledo, Ohio); (8) *Petroleum products*, except petrochemicals, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof, to points in Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey, North Carolina, Rhode Island, Vermont, and points in that part of Virginia east of a line beginning at the West Virginia-Virginia State line and extending along U.S. Highway 39 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line (Toledo, Ohio, Midland, Pa., and Congo, W. Va.); and (9) *Petroleum products*, except petrochemicals, in bulk, in tank vehicles, from Kalamazoo, Mich., and points within five miles thereof to points in New York (Toledo, Ohio, and Petrolia, Pa.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

per, by motor vehicle, over irregular routes, transporting: *Liquid petroleum gases* in bulk, in tank vehicles, (1) from St. Clair, Mich., to points in Illinois; (2) from St. Clair, Mich., to points in Kentucky west of Interstate Highway 65; (3) from St. Clair, Mich., to points in Missouri within 135 miles of East St. Louis, Ill.; (4) from St. Clair, Mich., to points in Pennsylvania on and west of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to Blairsville, Pa., thence along to the Pennsylvania-New York State line; (5) from St. Clair, Mich., to points in West Virginia on and west of a line beginning at Sistersville, W. Va., and extending along West Virginia Highway 18 to Troy, W. Va., thence along West Virginia Highway 47 to Linn, W. Va., thence along U.S. Highway 119 to Glennville, W. Va., thence along West Virginia Highway 5 to Napier, W. Va., thence along U.S. Highway 19 to Summersville, W. Va., thence along West Virginia Highway 41 to junction U.S. Highway 19, thence along U.S. Highway 19 to Bluefield, W. Va., thence along to the West Virginia-Virginia State line; (6) from St. Clair, Mich., to points in Maryland, Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey, Rhode Island, Vermont and points in Virginia on and east of a line beginning at the West Virginia-Virginia State line and extending along Virginia Highway 39 to U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line; and (7) from St. Clair, Mich., to points in New York west of a line beginning at the New York-Pennsylvania State line and extending north to Deposit, N.Y., thence along New York Highway 8 to Utica, N.Y., thence along New York Highway 49 to Rome, N.Y., thence along New York Highway 69 to Camden, N.Y., thence along New York Highway 13 to Port Ontario, N.Y. The purpose of this filing is to eliminate the gateways of (1) South Bend, Ind., and Miles, Mich.; (2) Seymour, Ind.; (3) Huntington County, Ind., and East St. Louis, Ill.; (4) Toledo, Ohio; (5) Ironton, Ohio; (6) East Liverpool, Ohio, Midland, Pa., and Congo, W. Va.; and (7) Toledo, Ohio and Titusville, Pa.

No. MC 50069 (Sub-No. E18), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lubricating oils and greases*, in bulk, in tank vehicles, from Woodhaven, Mich., to points in West Virginia on and west of a line beginning at Sistersville, W. Va., and extending along West Virginia Highway 18 to Troy, W. Va., thence along West Virginia Highway 47 to Linn, W. Va., thence along U.S. Highway 119 to Glennville, W. Va., thence along West Virginia Highway 5 to Napier, W. Va., thence along U.S. Highway 19 to Summersville, W. Va., thence along West Virginia Highway 41

to junction U.S. Highway 19, thence along U.S. Highway 19 to Bluefield, W. Va., thence to the West Virginia-Virginia State line; (2) *Lubricating oils and greases*, in bulk, in tank vehicles, from Woodhaven, Mich., to points in Maryland, Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey, Rhode Island, Vermont and points in Virginia east of a line beginning at the West Virginia-Virginia State line at Virginia Highway 39, thence along Virginia Highway 39 to U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line; and (3) *Lubricating oils and greases*, in bulk, in tank vehicles, from Woodhaven, Mich., to points in New York west of a line beginning at the New York-Pennsylvania State line and extending north to Deposit, N.Y., thence along New York Highway 8 to Utica, N.Y., thence along U.S. Highway 49 to Linn, N.Y., thence along U.S. Highway 69 to Camden, N.Y., thence along New York Highway 13 to Port Ontario, N.Y. The purpose of this filing is to eliminate the gateways of (1) Ashland, Ky.; (2) Midland, Pa., and Congo, W. Va.; and (3) Titusville, Pa.

No. MC 50069 (Sub-E19), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum and petroleum products* as described in Appendix XIII to the report in Descriptions in Motor Carrier Certificates 61 M.C.C. 209, in bulk, in tank vehicles, from Fort Wayne, Indiana (A) to points in Wayne, Oakland and McComb Counties, Michigan. (B) to points in Pennsylvania north and west of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to Blairsville, Pennsylvania, thence due north to the Pennsylvania-New York State line. (C) to points in West Virginia, on and west of a line beginning at Sistersville, West Virginia and extending in a southerly direction along West Virginia Highway 18 to Troy, West Virginia, thence in an easterly direction along West Virginia Highway 47 to Linn, West Virginia, thence in a southwesterly direction along U.S. Highway 119 to Glennville, West Virginia, thence in a southeasterly direction along West Virginia Highway 5 to Napier, West Virginia, thence in a southerly direction along U.S. Highway 19 to Summersville, West Virginia, thence in a southerly direction along West Virginia Highway 41 to junction U.S. Highway 19, thence in a southerly direction along U.S. Highway 19 to Bluefield, West Virginia, thence to the West Virginia-Virginia State line. (2) *Petroleum and petroleum products*, except petrochemicals, in bulk, in tank vehicles, from Fort Wayne, Ind., (A) to points in Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey, Rhode Island, Vermont and points in Virginia on and east of a line beginning at the West

Virginia-Virginia State line and extending south along Virginia Highway 39, to U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line. (B) to points in New York west of a line beginning at the New York-Pennsylvania State line and extending along north to Deposit, New York, thence along N.Y. Highway 8 to Utica, New York, thence along N.Y. Highway 49 to Rome, New York, thence along N.Y. Highway 69 to Camden, New York, thence along N.Y. Highway 13 to Port Ontario, New York. The purpose of this filing is to eliminate the gateway of Bryan, Ohio in (1A) above; Defiance, Ohio in (1B) above; Ironton, Ohio in (1C) above; Lima, Ohio, Midland, Pennsylvania and Congo, West Virginia in (2A) above; and Lima, Ohio and Titusville, Pennsylvania in (2B) above.

No. MC 50069 (Sub-E20), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Ave., Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid chemicals*, in bulk, in tank vehicles, from Muskegon, Michigan and points within 5 miles thereof, to points in Alabama. (2) *Liquid chemicals*, except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride, in bulk, in tank vehicles, from Muskegon, Michigan and points within 5 miles thereof, to points in Missouri. (3) *Petroleum chemicals*, in bulk, in tank vehicles, from Muskegon, Michigan and points within 5 miles thereof, to points in Pennsylvania north and west of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to Blairsville, Pennsylvania, thence due north to the Pennsylvania-New York State line. (4) *Petroleum chemicals*, in bulk, in tank vehicles, from Muskegon, Michigan and points within 5 miles thereof, to points in West Virginia on and west of a line beginning at Sistersville, West Virginia and extending along West Virginia Highway 18 to Troy, West Virginia, thence along West Virginia Highway 47 to Linn, West Virginia, thence along U.S. Highway 119 to Glennville, West Virginia, thence along West Virginia Highway 5 to Napier, West Virginia, thence along U.S. Highway 19 to Summersville, West Virginia, thence along West Virginia Highway 41 to junction U.S. Highway 19, thence along U.S. Highway 19 to Bluefield, West Virginia, thence to the West Virginia-Virginia State line. The purpose of this filing is to eliminate the gateways of Swanton, Ohio in (1) above; Peoria, Illinois in (2) above; Toledo, Ohio in (3) above; and Ironton, Ohio in (4) above.

No. MC 50069 (Sub-E22), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Ave., Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought

to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid petroleum gas*, in bulk, in tank vehicles, from Alma, Michigan to points in Illinois. (2) *Liquid petroleum gas*, in bulk, in tank vehicles, from Alma, Michigan to points in Kentucky on and west of a line beginning at the Indiana-Kentucky State line and extending along U.S. Highway 421 to Lexington, Kentucky, thence along U.S. Highway 25 to the Kentucky-Tennessee State line. (3) *Liquid petroleum gas*, in bulk, in tank vehicles, from Alma, Michigan to points in Missouri within 135 miles of East St. Louis, Illinois. The purpose of this filing is to eliminate the gateways of South Bend, Indiana and Niles, Michigan in (1) above; Seymour, Indiana in (2) above; and South Bend, Indiana, Niles, Michigan and East St. Louis, Illinois in (3) above;

No. MC 50069 (Sub-E24), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Ave., Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petroleum asphalt, asphaltic cement, cut back asphalt, and asphalt emulsions*, in bulk, in tank vehicles, from points in Miami Township, Hamilton County, Ohio to points in Illinois. (2) *Liquid petroleum asphalt, asphaltic cement, cut back asphalt, and asphalt emulsions*, in bulk, in tank vehicles, from points in Miami Township, Hamilton County, Ohio to points in Missouri within 135 miles of East St. Louis, Illinois. The purpose of this filing is to eliminate the gateways of New Goshen, Ind., in (1) above; and Princeton, Indiana and East St. Louis, Illinois in (2) above.

No. MC 50069 (Sub-E35), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Ave., Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum and petroleum products* in bulk, in tank vehicles, from Louisville, Kentucky and points and places in Kentucky within 10 miles of Louisville, (A) to points in that part of Michigan on and south of a line beginning at Muskegon, Michigan and extending along Michigan Highway 46 to Saginaw, Michigan, thence along U.S. Highway 10 to Flint, Michigan, and thence along Michigan Highway 21 to Port Huron, Michigan and east of a line beginning at Sturgis, Michigan extending along Michigan Highway 66 to Battle Creek, Michigan, thence along U.S. Highway 89 to U.S. Highway 31, thence along U.S. Highway 31 to Muskegon, Michigan. (B) To points in the Lower Peninsula of Michigan on and east of a line beginning at the Michigan-Ohio State line and extending along U.S. Highway 127 to Lansing, Michigan, thence along Michigan Highway 27 to Clare, Michigan, thence along Michigan Highway 115 to

Cadillac, Michigan, thence along U.S. Highway 115 to U.S. Highway 37 to Traverse City, Michigan. (C) To points in Pennsylvania north and west of a line along U.S. Highway 22 on the south from the Ohio-Pennsylvania State line to Blairsville, Pennsylvania, thence due north to the Pennsylvania-New York State line. (2) *Petroleum products*, except petrochemicals, in bulk, in tank vehicles, from Louisville, Kentucky and points within 10 miles of Louisville to points in Connecticut, Massachusetts, New Hampshire, Rhode Island and Vermont. (3) *Petroleum products*, as described in Appendix XIII to the report in Descriptions in Motor Carrier Certificates, 61, M.C.C. 209 (except petrochemicals as described in Appendix XV to the same report in the Descriptions case), in bulk, in tank vehicles, from Louisville, Kentucky and points within 10 miles of Louisville to points in New Jersey and New York. The purpose of this filing is to eliminate the gateways of Bryan, Ohio in (1A) above; Toledo, Ohio in (1B) above; Cincinnati, Ohio in (1C) above; Cincinnati, Ohio, Midland, Pennsylvania and Congo, West Virginia in (2) above; and Cincinnati, Ohio and Petrolia, Pennsylvania in (3) above.

No. MC 50069 (Sub-No. E37), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORP., 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, in bulk, in tank vehicles, from Detroit, Mich., and points within 20 miles thereof, (a) to points in Pennsylvania on and north of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to Blairsville, Pa., thence along to the Pennsylvania-New York State line (Toledo, Ohio)\*, (b) to points in Missouri within 135 miles of East St. Louis, Ill., restricted against the transportation of acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride (Toledo, Ohio, Huntington County, Ind., and East St. Louis, Ill.)\*, (c) to points in Indiana north of U.S. Highway 40 (Bryan, Ohio)\*, (d) to points in Illinois (Toledo, Ohio and Niles, Mich.)\*, and (e) to points in New York on and west of a line beginning at the New York-Pennsylvania State line and extending to Deposit, N.Y., thence along New York Highway 8 to Utica, N.Y., thence along New York Highway 49 to Rome, N.Y., thence along New York Highway 69 to Camden, N.Y., thence along New York Highway 13 to Port Ontario, N.Y. (Toledo, Ohio, and Titusville, Pa.)\*; (2) *Petroleum products* (except petroleum chemicals, in bulk, in tank vehicles), from Detroit, Mich., and points within 20 miles thereof, (a) to points in Delaware, Massachusetts, New Hampshire, Rhode Island, Vermont, Maryland, District of Columbia and points in Virginia on and east of a line beginning at the West Virginia-Virginia State line

and extending along U.S. Highway 39 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line (Toledo, Ohio, Midland, Pa., and Congo, W. Va.)\*, and (b) to points in New Jersey (Toledo, Ohio, and Petrolia, Pa.)\*; and (3) *Petroleum chemicals* (except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations, and choline chloride, in bulk, in tank vehicles), from Detroit, Mich., and points within 20 miles thereof, to points in Iowa east and south of a line beginning at the Iowa-South Dakota State line and extending along U.S. Highway 52 to the Iowa-Wisconsin State line, restricted against the transportation of acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride (Toledo, Ohio, Huntington County, Ind., and Peoria, Ill.)\*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 50069 (Sub-No. E38), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORP., 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum and petroleum products*, in bulk, in tank vehicles, from St. Elmo, Ill., to points in Indiana north and west of a line beginning at the Kentucky-Indiana State line and extending along U.S. Highway 231 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Illinois-Indiana State line (Vincennes, Ind., and Lawrenceville, Ill.)\*; and (2) *Petroleum chemicals* (except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations, and choline chloride, in bulk, in tank vehicles), from St. Elmo, Ill., to points in the Lower Peninsula of Michigan, restricted against the transportation of acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride (Terre Haute, Ind.)\*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 50069 (Sub-No. E40), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORP., 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, in bulk, in tank vehicles, from East St. Louis, Ill., (a) to points in Ohio and Kentucky on and east of U.S. Highway 127 (Princeton, Ind., Lawrenceville, Ill., and Seymour, Ind.)\*, (b) to points in Pennsylvania north and west of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to Blairsville, Pa., thence along to the Pennsylvania-New York State line (Princeton, Ind., Lawrenceville, Ill., Seymour, Ind., and Cincinnati, Ohio)\*, and (c) to points in West Vir-

ginia on and west of a line beginning at Sistersville, W. Va., and extending along West Virginia Highway 18 to Troy, W. Va., thence along West Virginia Highway 47 to Linn, W. Va., thence along U.S. Highway 119 to Glenville, W. Va., thence along West Virginia Highway 5 to Napier, W. Va., thence along U.S. Highway 19 to Summersville, W. Va., thence along West Virginia Highway 41 to junction U.S. Highway 19, thence along U.S. Highway 19 to Bluefield, W. Va., thence to the West Virginia-Virginia State line (Princeton, Ind., Lawrenceville, Ill., Seymour, Ind., and Ashland, Ky.); and (2) *Petroleum products* (except petroleum chemicals, in bulk, in tank vehicles), from East St. Louis, Ill., (a) to points in Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey, Rhode Island, Vermont, Maryland, District of Columbia and points in Virginia on and east of a line beginning at the West Virginia-Virginia State line and extending along U.S. Highway 250 to Richmond, thence along Interstate Highway 96 to the Virginia-North Carolina State line (Princeton, Ind., Lawrenceville, Ill., Seymour, Ind., Cincinnati, Ohio, Midland, Pa., and Congo, W. Va.); and (b) to points in New York (Princeton, Ind., Lawrenceville, Ill., Seymour, Ind., Cincinnati, Ohio, and Petrolia, Pa.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 50069 (Sub-No. E41), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, in bulk, in tank vehicles, from Cincinnati, Ohio, and points within ten miles thereof, (a) to points in Illinois (Seymour, Ind.), and (b) to points in Missouri within 135 miles of East St. Louis, Ill. (Seymour, Ind., and East St. Louis, Ill.); and (2) *Petroleum chemicals* (except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and chlorine chloride, in bulk, in tank vehicles), from Cincinnati, Ohio, and points within ten miles thereof to points in Iowa and Minnesota (Seymour, Ind., and Peoria, Ill.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 50069 (Sub-No. E44), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORP., 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Ferric chloride, anhydrous ammonia, esters, alcohols, liquid caustic soda, ethylene glycol, ethylene dichloride, and liquid resins*, in bulk, in tank vehicles, from Detroit, Mich., (a) to points in Mississippi, Kansas, Nebraska, South Dakota, and Oregon (Swanton, Ohio); (b) to points in Pennsylvania

north and west of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to Blairsville, Pa., thence north to the Pennsylvania-New York State line (Toledo, Ohio); (c) to points in West Virginia on and west of a line beginning at Sistersville, W. Va., and extending along West Virginia Highway 18 to Troy, W. Va., thence along West Virginia Highway 47 to Linn, W. Va., thence along U.S. Highway 119 to Glenville, W. Va., thence along West Virginia Highway 5 to Napier, W. Va., thence along U.S. Highway 19 to Summersville, W. Va., thence along West Virginia Highway 41 to junction U.S. Highway 19, thence along U.S. Highway 19 to Bluefield, W. Va., thence to the West Virginia-Virginia State line (Ashland, Ky.); and (d) to points in New York on and west of a line beginning at Deposit, N.Y., and extending along New York Highway 8 to Utica, N.Y., thence along New York Highway 49 to Rome, N.Y., thence along New York Highway 69 to Camden, N.Y., thence along New York Highway 13 to Port Ontario, N.Y. (Toledo, Ohio, and Titusville, Pa.); and (2) *Liquid petroleum resins*, in bulk, in tank vehicles, from Detroit, Mich., to points in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, Rhode Island, and Vermont (Toledo, Ohio). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 50069 (Sub-No. E45), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORP., 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid foundry core compound*, in bulk, in tank vehicles, from Cleveland, Ohio, to points in Alabama, Massachusetts, New Hampshire, New Jersey, North Carolina, Rhode Island, Vermont, Georgia, Maryland, South Carolina, and points in Virginia on and east of a line beginning at the West Virginia-Virginia State line and extending along Virginia Highway 39 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate the gateways of Midland, Pa., and Congo, W. Va.

No. MC 50069 (Sub-No. E46), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Ave., Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, in bulk, in tank vehicles, from Canton, Ohio, (a) to points in Illinois on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 24 to Peoria, thence along Interstate Highway 74 to Galesburg, thence along U.S. Highway 34 to the Iowa-Illinois State line (Huntington County, Ind.); and (b) to points in Mis-

souri within 135 miles of East St. Louis, Ill. (Huntington County, Ind., and East St. Louis, Ill.); and (2) *Petroleum chemicals*, except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations, and choline chloride, in bulk, in tank vehicles, from Canton, Ohio, (a) to points in Missouri (Huntington County, Ind., and Peoria, Ill.) and (b) to points in Iowa (Huntington County, Ind., and Peoria, Ill.). The purpose of this filing is to eliminate the gateways indicated by the asterisks above.

No. MC 50069 (Sub-No. E47), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, in bulk, in tank vehicles, from Findlay, Ohio, to points in Illinois on and north of a line beginning at the Indiana-Illinois State line and extending along U.S. Highway 24 to Peoria, Ill., thence along Interstate Highway 74 to Galesburg, Ill., thence along U.S. Highway 34 to the Iowa-Illinois State line; and to points in Indiana north and west of a line beginning at the Illinois-Indiana State line and extending along U.S. Highway 30 to the junction of U.S. Highway 31, thence along U.S. Highway 31 to the Michigan-Indiana State line; and (2) *petroleum chemicals*, except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride, in bulk, in tank vehicles, from Findlay, Ohio to points in Iowa west and south of a line beginning at the South Dakota-Iowa State line and extending along U.S. Highway 65 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa Highway 14, thence along Iowa Highway 14 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Iowa-Illinois State line. The purpose of this filing is to eliminate the gateways of (1) Niles, Mich.; and (2) Niles, Mich., and Peoria, Ill.

No. MC 50069 (Sub-No. E48), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, in bulk, in tank vehicles, from Toledo, Ohio; (A) to points in Illinois and Indiana north and east of a line beginning at the Illinois-Indiana State line and extending along U.S. Highway 30 to junction U.S. Highway 31, thence along U.S. Highway 31 to the Michigan-Indiana State line; (B) to points in Missouri within 135 miles of East St. Louis, Ill.; and (2) *liquid petroleum chemicals*, except acetone, ethyl acetate alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride, in bulk, in tank vehicles, from Toledo, Ohio, to points in Iowa south and west of a line beginning at the Iowa-

South Dakota State line and extending along U.S. Highway 65 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Iowa-Illinois State line, and points in Missouri. The purpose of this filing is to eliminate the gateways of (1) Niles, Mich., and East St. Louis, Ill.; and (2) Niles, Mich., and Peoria, Ill.

No. MC 50069 (Sub-No. E49), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, in bulk, in tank vehicles, from Midland, Mich., and points within five miles thereof; (A) to points in Missouri within 135 miles of East St. Louis, Ill.; (B) to points in Pennsylvania bounded by a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to Blairsville, Pa., thence along the Pennsylvania-New York State line; (C) to points in Kentucky on and west of Interstate Highway 65; (D) to points in Indiana on and north of a line beginning at the Indiana-Illinois State line and extending along U.S. Highway 52 to Indianapolis, thence along U.S. Highway 40 to the Indiana-Ohio State line; (E) to points in Illinois south of a line beginning at the Illinois-Indiana State line and extending along Interstate Highway 74 to Champaign, Ill., thence along Illinois Highway 47 to Decatur, Ill., thence along U.S. Highway 36 to the Illinois-Missouri State line; and (2) *petroleum products*, except petroleum chemicals, in bulk, in tank vehicles, from Midland, Mich., and points within five miles thereof, to points in Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey, Rhode Island, Vermont and points in Virginia on and east of a line beginning at the Virginia-West Virginia State line and extending along Virginia Highway 39 to U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate the gateways of (1) Bryan, Ohio, Huntington County, Ind., East St. Louis, Ill., Toledo, Ohio, Lebanon, Ohio, Seymour, Ind., Bryan, Ohio, and Huntington County, Ind.; and (2) East Liverpool, Ohio, Midland, Pa., and Congo, W. Va.

No. MC 50069 (Sub-No. E54), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Aviation fuels*, in bulk, in tank vehicles, from Clermont, Ind., (1) to points in Illinois north of Interstate Highway 80; (2) to points in Pennsylvania on and north of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to Blairsville, Pa., thence along to the

Pennsylvania-New York State line; (3) to points in West Virginia on and west of a line beginning at Sistersville, W. Va., and extending along West Virginia Highway 18 to Troy, W. Va., thence along West Virginia Highway 47 to Linn, W. Va., thence along U.S. Highway 119 to Glenville, W. Va., thence along West Virginia Highway 5 to Napier, W. Va., thence along U.S. Highway 19 to Summersville, W. Va., thence along West Virginia Highway 41 to junction U.S. Highway 19, thence along U.S. Highway 19 to Bluefield, W. Va., thence along the West Virginia-Virginia State line; and (4) to points in Maryland, Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont and points in Virginia on and east of a line beginning at the West Virginia-Virginia State line and extending along U.S. Highway 250 to Charlottesville, Va., thence along Virginia Highway 20 to junction U.S. Highway 360, thence along U.S. Highway 360 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate the gateways of (1) Niles, Mich.; (2) Dayton, Ohio; (3) Ironton, Ohio; and (4) Dayton, Ohio, Midland, Pa., and Congo, W. Va.

No. MC 50069 (Sub-No. E55), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORP., 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Liquid chemicals*, in bulk, in tank vehicles, from Waukegon, Ill., and points within five miles thereof, to points in Kentucky, restricted against the transportation of acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride (Terre Haute, Ind.); and (2) *Liquid petroleum chemicals*, in bulk, in tank vehicles, from Waukegon, Ill., and points within five miles thereof; (a) to points in Pennsylvania north and west of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to Blairsville, Pa., thence north of the Pennsylvania-New York State line; and (b) to points in New York on and west of a line beginning at the New York-Pennsylvania State line and extending along to Deposit, N.Y., thence along New York Highway 8 to Utica, N.Y., thence along New York Highway 49 to Rome, N.Y., thence along New York Highway 69 to Camden, N.Y., thence along New York Highway 13 to Port Ontario, N.Y. (Toledo, Ohio, and Titusville, Pa.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 50069 (Sub-No. E60), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, except liquid hydrogen, oxygen, and nitrogen, in bulk, in tank vehicles,

from the terminal of LaGloria Oil and Gas Company near Seymour, Ind., (a) to points in Missouri within 135 miles of East St. Louis, Ill., restricted against the transportation of acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride (East St. Louis, Ill.); (b) to points in Pennsylvania north and west of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to Blairsville, Pa., thence north to the New York-Pennsylvania State line (Cincinnati, Ohio); (c) to points in West Virginia bounded by a line beginning at Sistersville, W. Va., and extending along West Virginia Highway 18 to Troy, W. Va., thence along West Virginia Highway 47 to Linn, W. Va., thence along U.S. Highway 119 to Glenville, W. Va., thence along West Virginia Highway 5 to Napier, W. Va., thence along U.S. Highway 19 to Summersville, W. Va., thence along West Virginia Highway 51 to junction U.S. Highway 19, thence along U.S. Highway 19 to Bluefield, W. Va., thence to the West Virginia-Virginia State line (Ironton, Ohio); (d) to points in Michigan east of a line beginning at the Ohio-Michigan State line and extending along U.S. Highway 127 to Lansing, Mich., thence along U.S. Highway 27 to Mackinaw City, Mich. (Toledo, Ohio); (2) *Petroleum chemicals*, except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations, and choline chloride, in bulk, in tank vehicles, from the plant site of the LaGloria Oil and Gas Company at Seymour, Ind., to points in Iowa, Minnesota, and Missouri (Peoria, Ill.); and (3) *Petroleum products*, except petroleum chemicals, in bulk, in tank vehicles, from the plant site of the LaGloria Oil and Gas Company at Seymour, Ind., to points in Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, and Vermont (Cincinnati, Ohio, Midland, Pa., and Congo, W. Va.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 50069 (Sub-E86), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum chemicals*, except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride, in bulk, in tank vehicles, from Cleves, Ohio to points in Iowa and Wisconsin. The purpose of this filing is to eliminate the gateway of Terre Haute, Indiana.

No. MC 50069 (Sub-E87), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, in bulk in tank vehicles, from points in

Pennsylvania north and west of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to junction Pennsylvania Highway 60, thence along Pennsylvania Highway 60 to Pittsburgh, Pennsylvania, thence along U.S. Highway 22 to Blairsville, Pennsylvania, thence due north to the Pennsylvania-New York State line, (A) to points in Illinois north of Interstate Highway 80; (B) to points in Illinois on and south of a line beginning at the Indiana-Illinois State line and extending along U.S. Highway 136 to junction U.S. Highway 150, thence along U.S. Highway 150 to Galesburg, Illinois, thence along U.S. Highway 34 to the Iowa-Illinois State line; (C) to points in Kentucky on and west of Interstate Highway 65; (D) to points in the Lower Peninsula of Michigan; (E) to points in Missouri within 135 miles of East St. Louis, Illinois; (F) to points in West Virginia bounded by a line beginning at the West Virginia-Ohio State line and extending along U.S. Highway 50 to Parkersburg, W. Va., thence along West Virginia Highway 14 to Spencer, West Virginia, thence along U.S. Highway 119 on the West Virginia-Pennsylvania State line, thence along the West Virginia-Pennsylvania State line to the Pennsylvania-Ohio State line.

(2) *Petroleum chemicals*, except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations and choline chloride, in bulk, in tank vehicles, from points in Pennsylvania north and west of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to junction Pa. Highway 60, thence along Pa. Highway 60 to Pittsburgh, Pennsylvania, thence along U.S. Highway 22 to Blairsville, Pennsylvania, thence due north to the Pennsylvania-New York State line, to points in Iowa, and Minnesota; (3) *Petroleum products*, except petroleum chemicals, in bulk, in tank vehicles, from points in Pennsylvania north and west of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to junction Pa. Highway 60, thence along Pa. Highway 60 to Pittsburgh, Pennsylvania, thence along U.S. Highway 22 to Blairsville, Pennsylvania, thence due north to the Pennsylvania-New York State line, to points in Wisconsin, Georgia, Alabama, Tennessee, points in Virginia west of a line beginning at the West Virginia-Virginia State line and extending along Virginia Highway 39 to U.S. Highway 220, thence along U.S. Highway 220 to the North Carolina-Virginia State line, and South Carolina. The purpose of this filing is to eliminate the gateways of Toledo, Ohio and Niles, Michigan in (1A) above; Canton, Ohio and Huntington County, Indiana in (1B) above; Lebanon, Ohio in (1C) above; Toledo, Ohio in (1E) above; East Liverpool, Ohio and Midland, Pennsylvania in (1F) above; Canton, Ohio, Huntington County, Indiana and Peoria, Illinois in (2) above; and East Liverpool, Ohio, Midland, Pennsylvania and Congo, West Virginia in (3) above.

No. MC 50069 (Sub-No. E90), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORP., 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products* (except petroleum chemicals), in bulk, in tank vehicles, from Akron, Ohio, to points in Alabama, Connecticut, Delaware, District of Columbia, Massachusetts, New Hampshire, New Jersey, points in New York east of U.S. Highway 15, Rhode Island, Vermont, Georgia, Maryland, points in North Carolina east of U.S. Highway 220, Tennessee, South Carolina, and points in Virginia on and east of a line beginning at the Virginia-West Virginia State line and extending along Virginia Highway 39 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate the gateway of Congo, W. Va.

No. MC 50069 (Sub-No. E91), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORP., 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products* (except petroleum chemicals), in bulk, in tank vehicles, from Heath, Ohio, to points in Pennsylvania, Connecticut, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont, Maryland, the District of Columbia, and points in North Carolina east of U.S. Highway 501 and U.S. Highway 70. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 50069 (Sub-92), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, except petroleum chemicals, in bulk, in tank vehicles, from points in Ohio to points in Connecticut, Delaware, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont, Maryland, District of Columbia and Pennsylvania. The purpose of this filing is to eliminate the gateways of Midland, Pennsylvania and Congo, West Virginia.

No. MC 50069 (Sub-No. E100), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORP., 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, in bulk, in tank vehicles, from Oil City, Pa.; (a) to points in Illinois on and south of a line beginning at the Indiana-Illinois State line and extending along Interstate

Highway 74 to junction U.S. Highway 150, thence along U.S. Highway 150 to Galesburg, Ill., thence along U.S. Highway 34 to the Iowa-Illinois State line (Canton, Ohio, and New Goshen, Ind.) \*; (b) to points in Illinois on and north of Interstate Highway 80 (Toledo, Ohio, and Niles, Mich.) \*; (c) to points in Indiana (Canton, Ohio) \*; (d) to points in the Lower Peninsula of Michigan (Toledo, Ohio) \*; and (e) to points in Missouri within 135 miles of East St. Louis, Ill. (Canton, Ohio, Huntington County, Ind., and East St. Louis, Ill.) \*; (2) *petroleum chemicals* (except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations, and choline chloride), in bulk, in tank vehicles, from Oil City, Pa.; (a) to points in Iowa (Canton, Ohio, Huntington County, Ind., and Peoria, Ill.) \*; and (b) to points in Missouri (Canton, Ohio, and Terre Haute, Ind.) \*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 50069 (Sub-No. E101), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORP., 445 Earlwood Drive, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, in bulk, in tank vehicles, from Franklin, Pa.; (a) to points in Illinois south of a line beginning at the Indiana-Illinois State line and extending along Interstate Highway 74 to junction U.S. Highway 150, thence along U.S. Highway 150 to Galesburg, Ill., thence along U.S. Highway 34 to the Iowa-Illinois State line (Canton, Ohio, and New Goshen, Ind.) \*; (b) to points in Illinois north of Interstate Highway 80 (Toledo, Ohio, and Niles, Mich.) \*; (c) to points in Indiana (Canton, Ohio) \*; (d) to points in the Lower Peninsula of Michigan (Toledo, Ohio) \*; and (e) to points in Missouri within 135 miles of East St. Louis, Ill. (Canton, Ohio, Huntington County, Ind., and East St. Louis, Ill.) \*; (2) *petroleum chemicals* (except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations, and choline chloride), in bulk, in tank vehicles, from Franklin, Pa.; (a) to points in Iowa (Canton, Ohio, Huntington County, Ind., and Peoria, Ill.) \*; and (b) to points in Missouri (Canton, Ohio, and Terre Haute, Ind.) \*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 50069 (Sub-No. E102), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORP., 445 Earlwood Drive, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum and petroleum products* (except liquefied petroleum gas), in bulk, in tank vehicles, from Butler County, Pa.; (a) to points in Illinois south of a line beginning at the Indiana-Illinois State line and extending along

Interstate Highway 74 to junction U.S. Highway 150, thence along U.S. Highway 150 to Galesburg, Ill., thence along U.S. Highway 34 to the Iowa-Illinois State line (Canton, Ohio, and Huntington County, Ind.) \*; (b) to points in Illinois north of Interstate Highway 80 (Toledo, Ohio, and Niles, Mich.) \*; (c) to points in Indiana (Canton, Ohio) \*; (d) to points in the Lower Peninsula of Michigan (Toledo, Ohio) \*; and (e) to points in Missouri within 135 miles of East St. Louis, Ill. (Canton, Ohio, New Goshen, Ind., and East St. Louis, Ill.) \*; (2) *petroleum products* (except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations, and choline chloride), in bulk, in tank vehicles, from Butler County, Pa.; (a) to points in Missouri (Canton, Ohio, and Terre Haute, Ind.) \*; (b) to points in Iowa (Canton, Ohio, Huntington County, Ind., and Peoria, Ill.) \*; and (3) *petroleum products* (except petroleum chemicals), in bulk, in tank vehicles, from Butler County, Pa., to points in Kentucky, Wisconsin, Alabama, and Tennessee (East Liverpool, Ohio, Midland, Pa., and Congo, W. Va.) \*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 50069 (Sub-E105), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, except liquefied petroleum gases, in bulk, in tank vehicles, from Olean, New York; (A) to points in Illinois north of Interstate Highway 80; (B) to points in Illinois south of a line beginning at the Indiana-Illinois State line and extending along Interstate Highway 74 to junction U.S. Highway 150, thence along U.S. Highway 150 to Galesburg, Illinois, thence along U.S. Highway 34 to the Iowa-Illinois State line; (C) to points in Indiana; (D) to points in Kentucky on and west of Interstate Highway 75; (E) to points in the Lower Peninsula of Michigan; (F) to points in Missouri within 135 miles of East St. Louis, Illinois; (G) to points in Ohio; (2) *petroleum chemicals*, except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations, and choline chloride, in bulk, in tank vehicles, from Olean, N.Y.; (A) to points in Iowa; (B) to points in Missouri; (3) *petroleum products*, except petroleum chemicals, in bulk, in tank vehicles, from Olean, N.Y., to points in Alabama and Tennessee. The purpose of this filing is to eliminate the gateways of Starbrick, Pennsylvania, Toledo, Ohio, and Niles, Michigan, in (1A) above; Starbrick, Pennsylvania, Canton, Ohio, and New Goshen, Indiana, in (1B) above; Starbrick, Pennsylvania, and Canton, Ohio, in (1C) above; Starbrick, Pennsylvania, and Lebanon, Ohio, in (1D) above; Starbrick, Pennsylvania, and Toledo, Ohio, in (1E) above; Starbrick, Pennsylvania, Starbrick, Pennsylvania, Canton, Ohio, New

Goshen, Indiana, and East St. Louis, Illinois, in (1F) above; Starbrick, Pennsylvania, in (1G) above; Starbrick, Pennsylvania, Canton, Ohio, Huntington County, Indiana, and Peoria, Illinois, in (2A) above; Starbrick, Pennsylvania, Canton, Ohio, and Terre Haute, Indiana, in (2B) above; and Starbrick, Pennsylvania, East Liverpool, Ohio, Midland, Pennsylvania, and Congo, West Virginia in (3) above.

No. MC 50069 (Sub-E109), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, except liquefied petroleum gases, in bulk, in tank vehicles, from points in that part of Pennsylvania on and west of a line beginning at the New York-Pennsylvania State line and extending along Pennsylvania Highway 446 to junction U.S. Highway 6, thence along U.S. Highway 6 (formerly U.S. Highway 219) to junction U.S. Highway 219, thence along U.S. Highway 219 to junction Pennsylvania Highway 31, thence along Pennsylvania Highway 31 to junction unnumbered highway (formerly portion U.S. Highway 219) near Brotherton, Pa., thence along unnumbered Highway to junction U.S. Highway 219, near Berlin, Pa., thence along U.S. Highway 219 to the Pennsylvania-Maryland State line; (A) to points in Illinois north of Interstate Highway 80; (B) to points in Illinois on and south of a line beginning at the Illinois-Indiana State line and extending along U.S. Highway 136 to junction U.S. Highway 150, thence along U.S. Highway 150 to Galesburg, Illinois, thence along U.S. Highway 34 to the Iowa-Illinois State line; (C) to points in Indiana; (D) to points in the lower Peninsula of Michigan; (E) to points in Missouri within 135 miles of East St. Louis;

(F) to points in Ohio; (2) *petroleum chemicals*, except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations, and choline chloride, in bulk, in tank vehicles, from points in that part of Pennsylvania on and west of a line beginning at the New York-Pennsylvania State line and extending along Pennsylvania Highway 446, to junction U.S. Highway 6, thence along U.S. Highway 6 (portion formerly U.S. Highway 219) to junction Pennsylvania Highway 321, thence along Pennsylvania Highway 31, thence along Pennsylvania Highway 31 to junction unnumbered highway (formerly portion U.S. Highway 219) near Brotherton, Pa., thence along unnumbered highway to junction U.S. Highway 219, near Berlin, Pa., thence along U.S. Highway 219 to the Pennsylvania-Maryland State line; (A) to points in Iowa and Minnesota; (B) to points in Missouri; (3) *petroleum products*, except petroleum chemicals, in bulk, in

tank vehicles, from points in that part of Pennsylvania on and west of a line beginning at the New York-Pennsylvania State line and extending along Pennsylvania Highway 446 to junction U.S. Highway 6, thence along U.S. Highway 6 (formerly U.S. Highway 219) to junction Pennsylvania Highway 321, thence along Pennsylvania Highway 321 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction Pennsylvania Highway 31, thence along Pennsylvania Highway 31 to junction unnumbered highway (formerly portion U.S. Highway 219) near Brotherton, Pa., thence along unnumbered highway to junction U.S. Highway 219, near Berlin, Pa., thence along U.S. Highway 219 to the Pennsylvania-Maryland State line, to points in Wisconsin, Georgia, and Alabama. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pennsylvania, Toledo, Ohio, and Niles, Michigan, in (1A) above; Pittsburgh, Pa., Canton, Ohio, and New Goshen, Indiana, in (1B) above; Pittsburgh, Pennsylvania, and Canton, Ohio, in (1C) above; Pittsburgh, Pennsylvania, and Toledo, Ohio, in (1D) above; Pittsburgh, Pa., Canton, Ohio, New Goshen, Indiana, and East St. Louis, Illinois, in (1E) above; Pittsburgh, Pa., in (1F) above; Pittsburgh, Pennsylvania, Canton, Ohio, Huntington County, Indiana, and Peoria, Illinois, in (2A) above; Pittsburgh, Pennsylvania, Canton, Ohio, and Terre Haute, Indiana, in (2B) above; Midland, Pa., and Congo, W. Va. in (3) above.

No. MC 50069 (Sub-E110), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, except liquefied petroleum gases, in bulk, in tank vehicles, from points in New York, west of a line beginning at Port Ontario, New York, and extending along N.Y. Highway 13 to junction N.Y. Highway 316, thence along N.Y. Highway 316 to junction N.Y. Highway 46, thence along N.Y. Highway 46 to junction N.Y. Highway 12B, thence along N.Y. Highway 12B to junction N.Y. Highway 12, thence along N.Y. Highway 12 to junction U.S. Highway 11, thence along U.S. Highway 11 to the New York-Pennsylvania State line; (A) to points in Illinois north of Interstate Highway 80; (B) to points in Illinois on and South of a line beginning at the Indiana-Illinois State line and extending along U.S. Highway 136 to junction U.S. Highway 150, thence along U.S. Highway 150 to Galesburg, Illinois, thence along U.S. Highway 34 to the Iowa-Illinois State line; (C) to points in Indiana; (D) to points in the Lower Peninsula of Michigan; (E) to points in Missouri within 135 miles of East St. Louis, Illinois; (F) to points in Ohio; (G) to points in Wisconsin; (2) *petroleum products*, except petroleum chemicals, in bulk, in tank vehicles, from points in New York west of a line beginning at Port Ontario, New

York, and extending along N.Y. Highway 13 to junction N.Y. Highway 316, thence along N.Y. Highway 316 to junction N.Y. Highway 46, thence along N.Y. Highway 46 to junction N.Y. Highway 12B, thence along N.Y. Highway 12B to junction N.Y. Highway 12, thence along N.Y. Highway 12 to junction U.S. Highway 11, thence along U.S. Highway 11 to the New York-Pennsylvania State line; (A) to points in Kentucky; (B) to points in Alabama. The purpose of this filing is to eliminate the gateways of Bradford, Pennsylvania, and Niles, Michigan, in (1A) above; Bradford, Pennsylvania, Canton, Ohio, and New Goshen, Indiana, in (1B) above; Bradford, Pa., and Canton, Ohio, in (1C) above; Bradford, Pa., and Toledo, Ohio, in (1D) above; Bradford, Pa., Canton, Ohio, New Goshen, Indiana, and East St. Louis, Illinois, in (1E) above; Bradford, Pa., in (1F) above; Bradford, Pa., Canton, Ohio, and Delphi, Indiana, in (1G) above; Bradford, Pa., East Liverpool, Ohio, Midland, Pa., and Congo, West Virginia, in (2A) above; and Bradford, Pa., East Liverpool, Ohio, Midland, Pa., and Congo, West Virginia, in (2B) above.

No. MC 50069 (Sub-E111), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, except liquefied petroleum gases, in bulk, in tank vehicles, from points in Pennsylvania on and west of a line beginning at the New York-Pennsylvania State line and extending along Pennsylvania Highway 446 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Pennsylvania Highway 321, thence along Pennsylvania Highway 321 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction Pennsylvania Highway 31, thence along Pennsylvania Highway 31 to junction unnumbered highway, formerly U.S. Highway 219 near Brotherton, Pennsylvania, thence along unnumbered highway to junction U.S. Highway 219, near Berlin, Pennsylvania, thence along U.S. Highway 219 to the Maryland-Pennsylvania State line; (A) to points in Illinois north of Interstate Highway 80; (B) to points in Illinois on and south of a line beginning at the Indiana-Illinois State line and extending along U.S. Highway 136 to junction U.S. Highway 50, thence along U.S. Highway 150 to Galesburg, Illinois, thence along U.S. Highway 34 to the Iowa-Illinois State line; (C) to points in Indiana; (D) to points in the Lower Peninsula of Michigan; (E) to points in Missouri within 135 miles of East St. Louis, Illinois;

(F) To points in Ohio; (G) to points in West Virginia bounded by a line beginning at the Ohio-West Virginia State line and extending along U.S. Highway 50 to Parkersburg, W. Va., thence along U.S. Highway 21 to Mineralwells, W. Va., thence along W. Va. Highway 14 to Spencer, W. Va., thence along U.S. High-

way 119 on the West Virginia-Pennsylvania State line, thence along the West Virginia-Pennsylvania State line to the Pennsylvania-Ohio State line; (2) *petroleum chemicals*, except acetone, ethyl acetate, alcohol, vodka, gin, proprietary antifreeze preparations, and choline chloride, in bulk, in tank vehicles, from points in Pennsylvania on and west of a line beginning at the New York-Pennsylvania State line and extending along Pennsylvania Highway 446 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Pa. Highway 321, thence along Pa. Highway 321 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction Pa. Highway 31, thence along Pa. Highway 31 to junction unnumbered Highway, formerly U.S. Highway 219 near Brotherton, Pa., thence along unnumbered highway to junction U.S. Highway 219 near Berlin, Pa., thence along U.S. Highway 219 to the Maryland-Pennsylvania State line; (A) to points in Iowa; (B) to points in Missouri;

(3) *Petroleum products*, except petroleum chemicals, in bulk, in tank vehicles, from points in Pennsylvania on and west of a line beginning at the New York-Pennsylvania State line and extending along Pennsylvania Highway 446 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Pa. Highway 321, thence along Pa. Highway 321 to junction U.S. Highway 219, thence along U.S. Highway 319 to junction Pa. Highway 31, thence along Pa. Highway 31 to junction unnumbered highway, formerly U.S. Highway 219 near Brotherton, Pa., thence along unnumbered highway to junction U.S. Highway 219 near Berlin, Pa., thence along U.S. Highway 319 to the Maryland-Pennsylvania State line, to points in Kentucky, Wisconsin, Georgia, and Alabama. The purpose of this filing is to eliminate the gateways of Emlenton, Pennsylvania, Toledo, Ohio, and Niles, Michigan, in (1A) above; Rochester, Pennsylvania, Canton, Ohio, and New Goshen, Indiana, in (1B) above; Rochester, Pennsylvania, and Canton, Ohio, in (1C) above; Emlenton, Pennsylvania, and Toledo, Ohio, in (1D) above; Rochester, Pennsylvania, Canton, Ohio, New Goshen, Indiana, and East St. Louis, Illinois, in (1E) above; Rochester, Pa., in (1F) above; Midland, Pa., in (1G) above; Rochester, Pa., Canton, Ohio, Huntington County, Indiana, and Peoria, Illinois in (2A) above; Rochester, Pa., Canton, Ohio, and Terre Haute, Indiana, in (2B) above; and Midland, Pa., and Congo, West Virginia, in (3) above.

No. MC 50069 (Sub-No. E112), filed May 15, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORP., 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products*, in bulk, in tank vehicles, from Benton Harbor and St. Joseph, Mich., and points within

five miles thereof; (a) to points in Illinois south of U.S. Highway 36, Indiana and Ohio (South Bend, Ind., and Niles, Mich.) \*; (b) to points in Kentucky on and east of Interstate Highway 75 (South Bend, Ind., Niles, Mich., and Lebanon, Ohio) \*; (c) to points in Kentucky on and west of Interstate Highway 75 (South Bend, Ind., Niles, Mich., and Seymour, Ind.) \*; (d) to points in Missouri within 135 miles of East St. Louis, Ill. (South Bend, Ind., Niles, Mich., and East St. Louis, Ill.) \*; (e) to points in Pennsylvania bounded by a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to Blairsville, Pa., thence to the Pennsylvania-New York State line (South Bend, Ind., Niles, Mich., and Toledo, Ohio) \*; and (f) to points in West Virginia west of a line beginning at Point Pleasant, W. Va., and extending along West Virginia west of a line beginning at Point Pleasant, W. Va., and extending along West Virginia Highway 62 to Charleston, W. Va., thence along U.S. Highway 60 to junction U.S. Highway 19, thence along U.S. Highway 19 to the West Virginia-Virginia State line (South Bend, Ind., Niles, Mich., and Ironton, Ohio) \*.

(2) *Petroleum chemicals* (except acetone, ethyl acetate, alcohol, vodka, gin, proprietary anti-freeze preparations, and choline chloride), in bulk, in tank vehicles, from Benton Harbor and St. Joseph, Mich., and points within five miles thereof; (a) to points in Connecticut, Delaware, Maryland, Massachusetts, New Hampshire, New Jersey, District of Columbia, Rhode Island, and Vermont (South Bend, Ind., Niles, Mich., Canton, Ohio, Midland, Pa., and Congo, W. Va.) \*; (b) to points in New York west of a line beginning at the New York-Pennsylvania State line and extending north to Deposit, N.Y., thence along New York Highway 8 to Utica, N.Y., thence along New York Highway 49 to Rome, N.Y., thence along New York Highway 69 to Camden, N.Y., thence along New York Highway 13 to Port Ontario, N.Y. (South Bend, Ind., Niles, Mich., Toledo, Ohio, and Titusville, Pa.) \*; (c) to points in Virginia east of a line beginning at the Virginia-West Virginia State line and extending along Virginia Highway 39 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line to points in South Carolina and to points in North Carolina east of U.S. Highway 220 (South Bend, Ind., Niles, Mich., East Liverpool, Ohio, Midland, Pa., and Congo, W. Va.) \*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 52022 (Sub-No. E3), filed March 16, 1975. Applicant: THE SANTINI BROS. INTERNATIONAL MOVERS, 1405 Jerome Ave., New York, N.Y. 10452. Applicant's representative: Robert J. Gallagher, 1776 Broadway, New

York, N.Y. 10019. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in North Carolina, those in Virginia on and south of a line beginning at the Kentucky-Virginia State line and extending along U.S. Highway 460 to junction Virginia Highway 46, thence along Virginia Highway 46 to the North Carolina-Virginia State line (points in New York or New Jersey) \*, and those in Kentucky on and west of U.S. Highway 45 (points within ten miles of Chicago, Ill., and points in New York or New Jersey) \*, on the one hand, and, on the other, points in Pennsylvania on and north of a line beginning at Lake Erie and extending along U.S. Highway 19 to junction U.S. Highway 6, thence along U.S. Highway 6 to Scranton, Pa., or on and east of a line beginning at Scranton, Pa., and extending along Pennsylvania Highway 9 to junction Pennsylvania Highway 100, thence along Pennsylvania Highway 100 to the Pennsylvania-Delaware State line. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 52022 (Sub-No. E4), filed March 16, 1975. Applicant: THE SANTINI BROS. INTERNATIONAL MOVERS, 1405 Jerome Avenue, New York, N.Y. Applicant's representative: Robert J. Gallagher, 1776 Broadway, New York, N.Y. 10019. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Tennessee, on the one hand, and, on the other, points in Pennsylvania on and north or east of a line beginning at the Ohio-Pennsylvania State line and extending along Pennsylvania Highway 358 to junction Pennsylvania Highway 58, thence along Pennsylvania Highway 58 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Pennsylvania Highway 255, thence along Pennsylvania Highway 255 to junction Pennsylvania Highway 120, thence along Pennsylvania Highway 120 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction Pennsylvania Highway 118, thence along Pennsylvania Highway 118 to junction Pennsylvania Highway 239, thence along Pennsylvania Highway 239 to junction Pennsylvania Highway 93, thence along Pennsylvania Highway 93 to junction Interstate Highway 81, thence along Interstate Highway 81 to junction Pennsylvania Highway 61, thence along Pennsylvania Highway 61 to junction Pennsylvania Highway 10, thence along Pennsylvania Highway 10 to the Pennsylvania-Maryland State line. The purpose of this filing is to eliminate the gateway of points in New York or New Jersey.

No. MC 60014 (Sub-No. E10), filed June 4, 1974. Applicant: AERO TRUCKING, INC., P.O. Box 308, Monroeville, Pa. 15146. Applicant's representative: A. Charles Tell, 100 East Broad Street, Co-

lumbus, Ohio 43215. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, by reason of their size or weight, require the use of special equipment, between points in Illinois north of Interstate Highway 80, on the one hand, and, on the other, those points in West Virginia north and east of a line beginning at the Ohio-West Virginia State line and extending along U.S. Alternate Highway 50 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 250, thence along U.S. Highway 250 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction U.S. Highway 60, thence along U.S. Highway 60 to the West Virginia-Virginia State line. The purpose of this filing is to eliminate the gateways of Columbiana, Cuyahoga, Mahoning, Summit, and Trumbull Counties, Ohio; and Brooke, Hancock, Marshall, and Ohio Counties, W. Va.

No. MC 60014 (Sub-No. E14), filed June 4, 1974. Applicant: AERO TRUCKING, INC., P.O. Box 308, Monroeville, Pa. 15146. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, requiring special equipment, restricted so that, or provided that, the loading or unloading, which necessitate the special equipment, is performed by the consignor or consignee, or both, between those points in Illinois north of Interstate Highway 70, on the one hand, and, on the other, those points in West Virginia east of a line beginning at the Ohio-West Virginia State line and extending along U.S. Highway 35 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction West Virginia Turnpike, thence along the West Virginia Turnpike to junction U.S. Highway 460, thence along U.S. Highway 460 to the West Virginia-Virginia State line. The purpose of this filing is to eliminate the gateways of Cambridge and Zanesville, Ohio.

No. MC 60014 (Sub-No. E61), filed June 4, 1974. Applicant: AERO TRUCKING, INC., P.O. Box 308, Monroeville, Pa. 15146. Applicant's representative: William J. Rorison (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, requiring special equipment, restricted so that or provided that, the loading or unloading, which necessitate the special equipment, is performed by the consignor or consignee or both, between points in Michigan, on the one hand, and, on the other, those points in Virginia on and east of U.S. Highway 23. The purpose of this filing is to eliminate the gateways of Cambridge and Zanesville, Ohio, and West Virginia.

No. MC 60014 (Sub-No. E72), filed June 4, 1974. Applicant: AERO TRUCKING, INC., P.O. Box 308, Monroeville,

Pa. 15146. Applicant's representative: William J. Rorison (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* which by reason of size or weight require the use of special equipment; (1) between those points in Virginia on and north of a line beginning at the West Virginia-Virginia State line and extending along Virginia Highway 259 to junction Virginia Highway 42, thence along Virginia Highway 42 to junction Virginia Highway 260, thence along Virginia Highway 260 to junction U.S. Highway 211, thence along U.S. Highway 211 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction Virginia Highway 3, thence along Virginia Highway 3 to junction U.S. Highway 17, thence along U.S. Highway 17 to junction U.S. Highway 360, thence along U.S. Highway 360 to the Chesapeake Bay, on the one hand, and, on the other, those points in Mississippi on and west of a line beginning at the Mississippi-Tennessee State line and extending along U.S. Highway 45 to junction Natchez Trace Parkway, thence along Natchez Trace Parkway to junction Interstate Highway 55, thence along Interstate Highway 55 to the Mississippi-Louisiana State line, and those in Tennessee on and west of a line beginning at the Kentucky-Tennessee State line and extending along U.S. Highway 79 to junction Tennessee Highway 13, thence along Tennessee Highway 13 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 45, thence along U.S. Highway 45 to the Tennessee-Mississippi State line; and

(2) Between those points in Virginia on and north of a line beginning at the West Virginia-Virginia State line and extending along U.S. Highway 50 to junction Virginia Highway 7, thence along Virginia Highway 7 to the Potomac River, on the one hand, and, on the other, those points in Alabama on and west of a line beginning at the Alabama-Tennessee State line and extending along U.S. Highway 231/431 to the junction of U.S. Alternate Highway 72, thence along U.S. Alternate Highway 72 to junction Alabama Highway 24, thence along Alabama Highway 24 to junction Alabama Highway 33, thence along Alabama Highway 33 to junction U.S. Highway 278, thence along U.S. Highway 278 to junction Alabama Highway 13, thence along Alabama Highway 13 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction Alabama Highway 96, thence along Alabama Highway 96 to the Alabama-Mississippi State line. The purpose of this filing is to eliminate the gateways of Wheeling and Beechbottom, W. Va.

No. MC 60014 (Sub-No. E77), filed June 4, 1974. Applicant: AERO TRUCKING, INC., P.O. Box 308, Monroeville, Pa. 15146. Applicant's representative: William J. Rorison (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular

routes, transporting: *Commodities*, requiring special equipment, restricted so that, or provided that, the loading or unloading, which necessitate the special equipment, is performed by the consignor or consignee or both: (A) between points in West Virginia, on the one hand, and, on the other, those points in Indiana on and north of a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 6 to junction Indiana-Highway 9, thence along Indiana Highway 9 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 241, thence along U.S. Highway 421 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Indiana-Illinois State line; and (B) between those points in West Virginia on and north of a line beginning at the Ohio-West Virginia State line and extending along West Virginia Highway 14 to junction West Virginia Highway 5, thence along West Virginia Highway 5 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction West Virginia Highway 39, thence along West Virginia Highway 39 to the West Virginia-Virginia State line, on the one hand, and, on the other, those points in Indiana on and north of a line beginning at the Indiana-Ohio State line and extending along Interstate Highway 74 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Indiana-Illinois State line. The purpose of this filing is to eliminate the gateways of Zanesville, Ohio, and points in that part of Ohio on and east of a line extending from Mansfield to Pomeroy, Ohio, along Ohio Highway 13 to junction thereof with U.S. Highway 33, thence along U.S. Highway 33 to Pomeroy, and on and south of U.S. Highway 30 extending from Mansfield to the Ohio-West Virginia State line.

No. MC 61396 (Sub-No. E36), filed May 10, 1974. Applicant: HERMAN BROS., INC., 2565 St. Marys Ave., P.O. Box 189, Omaha, Nebr. 68101. Applicant's representative: John E. Smith II (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum-based dry fertilizer*, in bulk and in bags, *herbicides*, and *insecticides*, in containers, in mixed loads with dry fertilizers, from points in that part of Iowa on and east of a line beginning at the Iowa-Minnesota State line extending along U.S. Highway 63 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Iowa Highway 149, thence along Iowa Highway 149 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction U.S. Highway 218, thence along U.S. Highway 218 to the Iowa-Missouri State line, to points in that part of Nebraska on, north, and west of a line beginning at the South Dakota-Nebraska State line extending along U.S. Highway 183 to junction Nebraska Highway 91, thence along Nebraska Highway 91 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction

Nebraska Highway 92, thence along Nebraska Highway 92 to the Nebraska-Wyoming State line. The purpose of this filing is to eliminate the gateway of Mason City, Iowa.

No. MC 61396 (Sub-No. E37), filed May 10, 1974. Applicant: HERMAN BROS., INC., 2565 St. Marys Ave., P.O. Box 189, Omaha, Nebr. 68101. Applicant's representative: John E. Smith II (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum-based liquid fertilizer*, in bulk, in tank vehicles, from points in Iowa east of a line beginning at the Missouri-Iowa State line extending along Iowa Highway 5 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Iowa Highway 17, thence along Iowa Highway 17 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Iowa-Minnesota State line, to points in Nebraska on and west of U.S. Highway 81 and north of Interstate Highway 80. The purpose of this filing is to eliminate the gateway of Denison, Iowa.

No. MC 61396 (Sub-No. E42), filed May 10, 1974. Applicant: HERMAN BROS., INC., 2565 St. Marys Ave., P.O. Box 189, Omaha, Nebr. 68101. Applicant's representative: John E. Smith II (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum-based liquid fertilizer*, in bulk, in tank vehicles, from points in that part of Iowa on and east of a line beginning at the Illinois-Iowa State line extending along Iowa Highway 38 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 218, thence along U.S. Highway 218 to junction Iowa Highway 1, thence along Iowa Highway 1 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Iowa Highway 150, thence along Iowa Highway 150 to junction U.S. Highway 52, thence along U.S. Highway 52 to the Minnesota-Iowa State line, to points in Nebraska on, north, and west of a line beginning at the South Dakota-Nebraska State line extending along U.S. Highway 77 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Wyoming-Nebraska State line. The purpose of this filing is to eliminate the gateway of Belmond, Iowa.

No. MC 61396 (Sub-No. E44), filed May 10, 1974. Applicant: HERMAN BROS., INC., 2565 St. Marys Ave., P.O. Box 189, Omaha, Nebr. 68101. Applicant's representative: John E. Smith II (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum-based fertilizer solutions*, in bulk, in tank vehicles, from points in Iowa on and north of U.S. Highway 34 to points in Kansas on and west of a line beginning at the Oklahoma-Kansas State line extending along U.S. Highway 81 to junction Kansas Highway 96,

thence along Kansas Highway 96 to junction Kansas Highway 14, thence along Kansas Highway 14 to the Nebraska-Kansas State line. The purpose of this filing is to eliminate the gateway of the plant site of Phillips Petroleum Co., at or near Audubon, Iowa.

No. MC 67646 (Sub-No. E2), filed May 15, 1974. Applicant: HALL'S MOTOR TRANSIT CO., 6060 Carlisle Pike, Mechanicsburg, Pa. 17055. Applicant's representative: Daniel W. Rohrbaugh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between Frederick, Md., and points in Maryland within ten miles of Frederick, on the one hand, and, on the other, those points in Harford County, Md. (except points on U.S. Highways 1 and 40 and except Edgewood Arsenal and Aberdeen Proving Grounds, Md.) (Baltimore, Md., a point within 50 miles of Frederick, Md.) \*.

(2) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between Frederick, Md., and points in Maryland within ten miles of Frederick, on the one hand, and, on the other, those points in the Washington, D.C., commercial zone (Rockville, Md.) \*.

(3) *General commodities* (except those of unusual value, commodities in bulk, classes A and B explosives, sand, gravel, earth, stone, household goods as defined by the Commission, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between Frederick, Md., and points in Maryland within ten miles of Frederick, on the one hand, and, on the other, points in Pennsylvania within 60 miles of Bel Air, Md., which are on and east of Pennsylvania Highway 10 and north and west of U.S. Highway 1 (Taylor, Md.) \*.

(4) *General commodities* (except those of unusual value, commodities in bulk, classes A and B explosives, sand, gravel, earth, stone, household goods as defined by the Commission, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between Frederick, Md., and points in Maryland within ten miles of Frederick, on the one hand, and, on the other, those points in New Jersey on and south of New Jersey Highway 94 (Taylor, Md., a point at Harford County, Md., and within 50 miles of Frederick, Md., and Lancaster, Coatesville, or Russellville, Pa.) \*.

(5) *General commodities* (except those of unusual value, commodities in bulk, classes A and B explosives, sand, gravel, earth, stone, household goods as defined by the Commission, livestock, commodi-

ties requiring special equipment, and those injurious or contaminating to other lading), between Frederick, Md., and points in Maryland within ten miles of Frederick, on the one hand, and, on the other, those points in Nassau, Suffolk, and Westchester Counties, N.Y., and those in New York, N.Y. (Taylor, Md., and Lancaster, Coatesville, or Russellville, Pa.) \*.

(6) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Maryland within 50 miles of Frederick, Md., which are on and east of a line beginning at the Washington, D.C.-Maryland State line and extending along Interstate Highway 70S to Frederick and those along U.S. Highway 15 from Frederick to the Maryland-Pennsylvania State line, and points in the Washington, D.C., commercial zone, on the one hand, and, on the other, those points in Maryland on and west of U.S. Highway 11 (Rockville, Md., Frederick, Md., and Hagerstown, Md.) \*.

(7) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Maryland within 50 miles of Frederick, Md., which are on and east of a line beginning at the Washington, D.C.-Maryland border line and extending along Interstate Highway 70S to Frederick, and thence from Frederick along U.S. Highway 15 to the Maryland-Pennsylvania State line, and points in the Washington, D.C., commercial zone, on the one hand, and, on the other, points in West Virginia which are on, west, and north of a line extending from the Maryland-West Virginia State line extending along U.S. Highway 220 to junction West Virginia-Virginia State line, and thence along the West Virginia-Virginia State line to the West Virginia-Kentucky State line (Rockville, Frederick, and Hagerstown, Md.) \*.

(8) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Maryland within 50 miles of Frederick, Md., which are on, east, and south of a line beginning at the Maryland-Pennsylvania State line, thence along U.S. Highway 15 to Frederick, thence along U.S. Highway 340 to the Maryland-Virginia State line, and points in the Washington, D.C., commercial zone, on the one hand, and, on the other, points in Pennsylvania on and west of a line beginning at the New York-Pennsylvania State line, thence along Pennsylvania Highway 44 to junction Pennsylvania Highway 144, thence along Pennsylvania Highway 144 to junction

Pennsylvania Highway 53, thence along Pennsylvania Highway 53 to Phillipsburg, thence from Phillipsburg along Pennsylvania Highway 350 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Pennsylvania-Maryland State line (Rockville, Frederick, and Hagerstown, Md.) \*.

(9) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Maryland within 50 miles of Frederick, Md., which are on, east, and south of a line beginning at the Maryland - Pennsylvania State line, thence along U.S. Highway 15 to Frederick, thence along U.S. Highway 340 to the Maryland-Virginia State line, and points in the Washington, D.C., commercial zone, on the one hand, and, on the other, points in New York on and west of a line beginning at the Pennsylvania-New York State line, thence along New York Highway 19 to junction New York Highway 39, thence along New York Highway 39 to junction Alternate U.S. Highway 20, thence along Alternate U.S. Highway 20 to junction U.S. Highway 15, thence along U.S. Highway 15 to Rochester, N.Y. (Rockville, Frederick, and Hagerstown, Md.) \*.

(10) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Maryland within 50 miles of Frederick, Md., which are on and west of a line beginning at the Washington, D.C.-Maryland border line, thence along Interstate Highway 70S to Frederick, and which are on and south of a line beginning at Frederick, thence along U.S. Highway 340 to the Maryland-West Virginia State line, and points in the Washington, D.C., commercial zone, on the one hand, and, on the other, points in Pennsylvania on and west of Interstate Highway 81 (Rockville, Frederick, and Hagerstown, Md.) \*.

(11) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Maryland within 50 miles of Frederick, Md., which are on and west of a line beginning at the Washington, D.C.-Maryland State line, thence along Interstate Highway 70S to Frederick, and which are on and south of a line beginning at Frederick, thence along U.S. Highway 340 to the Maryland-West Virginia State line, and points in the Washington, D.C., commercial zone, on the one hand, and, on the other, points in New York north and west of Rockland and Westchester Counties, N.Y. (Rockville, Frederick, Md., and Hagerstown, Md.) \*.

(12) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Pennsylvania within 50 miles of Frederick, Md., which are on and west of U.S. Highway 15, on the one hand, and, on the other, points in West Virginia (except those in Berkeley and Jefferson Counties) (Frederick and Hagerstown, Md.) \*.

(13) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Pennsylvania within 50 miles of Frederick, Md., which are on and west of U.S. Highway 15, on the one hand, and, on the other, those points in Virginia on and south of a line beginning at the West Virginia-Virginia State line, thence along U.S. Highway 250 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction U.S. Highway 360, thence along U.S. Highway 360 to junction Virginia Highway 10, thence along Virginia Highway 10 to junction Virginia Highway 31, thence along Virginia Highway 31 to junction U.S. Highway 60, thence along U.S. Highway 60 to Norfolk, Va. (Frederick and Hagerstown, Md.) \*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 67646 (Sub-No. E5), filed May 16, 1974. Applicant: HALL'S MOTOR TRANSIT COMPANY, 6060 Carlisle Pike, Mechanicsburg, Pa. 17055. Applicant's representative: Daniel W. Rohrbaugh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Ohio within 80 miles of Greenville, Pa., which are on and north of a line beginning at the Pennsylvania-Ohio State line, thence along Ohio Highway 14 to junction Ohio Highway 14A, thence along Ohio Highway 14A to junction U.S. Highway 62, thence along U.S. Highway 62 to junction U.S. Highway 30, thence along U.S. Highway 30, on the one hand, and, on the other, those points within 50 miles of Fairview, Md., in Washington (on and east of Interstate Highway 81) and Frederick Counties, Md., and in Cumberland and Franklin (on and east of Interstate Highway 81), and Adams County, Pa. (Greenville, Pa., and Hagerstown, Md., a point within 3 miles of Fairview, Md.) \*.

(2) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk,

commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Ohio within 80 miles of Greenville, Pa., which are on and north of a line beginning at the Pennsylvania-Ohio State line, thence along Ohio Highway 14 to junction Ohio Highway 14A, thence along Ohio Highway 14A to junction U.S. Highway 62, thence along U.S. Highway 62 to junction U.S. Highway 30, thence along U.S. Highway 30, on the one hand, and, on the other, those points within 50 miles of Frederick, Md., in Anne Arundel, Baltimore, Carroll, Frederick, Harford, Howard, Montgomery, and Prince Georges Counties, and Baltimore City, Md., and in Washington, D.C., commercial zone (Greenville, Pa., and Hagerstown, Md., a point within 8 miles of Fairview, Md.).

(3) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Ohio within 80 miles of Greenville, Pa., which are on and north of a line beginning at the Pennsylvania-Ohio State line, thence along Ohio Highway 14 to junction Ohio Highway 14A, thence along Ohio Highway 14A to junction U.S. Highway 62, thence along U.S. Highway 62 to junction U.S. Highway 30, thence along U.S. Highway 30, on the one hand, and, on the other, those points in Anne Arundel, Prince Georges, Charles, St. Mary's, and Calvert Counties, Md., and in Fairfax and Prince William Counties, Va. (Greenville, Pa., Hagerstown, Frederick, and Rockville, Md.).

(4) *General commodities* (except those of unusual value, sand, gravel, earth, stone, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Ohio within 80 miles of Greenville, Pa., which are on and north of a line beginning at the Pennsylvania-Ohio State line, thence along Ohio Highway 14 to junction Ohio Highway 14A, thence along Ohio Highway 14A to junction U.S. Highway 62, thence along U.S. Highway 62 to junction U.S. Highway 30, thence along U.S. Highway 30 (except points in Ashtabula County), on the one hand, and, on the other, points in New York, N.Y., and Nassau and Suffolk Counties, N.Y., and those points in New Jersey which are on and east of a line beginning at the Pennsylvania-New Jersey State line, thence along U.S. Highway 202 to junction U.S. Highway 46, thence along U.S. Highway 46 to the New Jersey-New York State line (Greenville, Pa., Hagerstown, Frederick, and Taylor, Md., and Lancaster, Coatesville, or Russellville, Pa.).

(5) *General commodities* (except those of unusual value, sand, earth, gravel, stone, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, com-

modities requiring special equipment, and those injurious or contaminating to other lading), between points in Ashtabula County, Ohio, on the one hand, and, on the other, points in New York, N.Y., and Nassau and Suffolk Counties, N.Y., and those points in New Jersey which are on and south of U.S. Highway 1 (Greenville, Pa., Hagerstown, Frederick, and Taylor, Md., and Lancaster, Coatesville, or Russellville, Pa.).

(6) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in Ohio which are on and south of U.S. Highway 30 and on and east of Ohio Highway 13, on the one hand, and, on the other, those points within 50 miles of Fairview, Md., in Adams, Cumberland, and Franklin Counties, Pa., and in Washington (on and east of Interstate Highway 81), and Frederick Counties, Md. (Unlontown, Pa., and Fairview, Md., and points within 8 miles thereof).

(7) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Ohio which are on and south of U.S. Highway 30 and on and east of U.S. Highway 13, on the one hand, and, on the other, those points within 50 miles of Frederick, Md., which are in Anne Arundel, Baltimore, Carroll, Frederick, Harford, Howard, Montgomery, and Prince Georges Counties, and Baltimore City, Md., in Adams and York Counties, Pa., and in Washington, D.C., commercial zone (Unlontown, Pa., and Hagerstown and Frederick, Md.).

(8) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Ohio which are on and south of U.S. Highway 30 and on and east of Ohio Highway 13, on the one hand, and, on the other, points in Anne Arundel, Prince Georges, Charles, St. Mary's, and Calvert Counties, Md., and in Fairfax and Prince William (on and east of Virginia Highway 123) Counties, Va. (Unlontown, Pa., Hagerstown and Frederick, Md.).

(9) *General commodities* (except those of unusual value, sand, earth, gravel, stone, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Ohio which are on and south of U.S. Highway 30 and on and east of Ohio Highway 13, on the one hand, and, on the other, points in Harford County, Md., and those points within 60 miles of Bel Air, Md., which

are on and east of a line beginning at the Maryland-Pennsylvania State line, thence along Interstate Highway 83 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Pennsylvania Highway 72, thence along Pennsylvania Highway 72 to junction U.S. Highway 422, thence along U.S. Highway 422 to Reading, Pa., except points on and east of U.S. Highway 1 (Unlontown, Pa., Hagerstown, Frederick, and Taylor, Md.).

(10) *General commodities* (except those of unusual value, sand, earth, gravel, stone, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, livestock, commodities requiring special equipment, and those injurious or contaminating to other lading), between those points in Ohio which are on and south of U.S. Highway 30 and on and east of Ohio Highway 13, on the one hand, and, on the other, points in New Jersey, and those points in New York, N.Y., and Nassau, Suffolk, and Westchester Counties, N.Y. (Unlontown, Pa., Hagerstown, Frederick, and Taylor, Md., and Lancaster, Coatesville, or Russellville, Pa.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 72758 (Sub-No. E1) (Correction), filed May 2, 1974, published in the FEDERAL REGISTER July 31, 1975. Applicant: NORTHWAYS INCORPORATED, P.O. Box 521, Greenfield, Mass. 01301. Applicant's representative: Frederick J. Harris (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Paper, paper products, and materials, supplies, and equipment*. The purpose of this filing is to eliminate the gateway of Monroe Bridge, Mass. The purpose of this partial correction is to correct the MC number, previously published as No. MC 7258. The remainder of this letter-notice remains as previously published.

No. MC 78228 (Sub-No. E20) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER June 25, 1975. Applicant: J. MILLER EXPRESS, INC., 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: John M. Rumin, Wiek, Vuono, & Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Pig iron and coke, in dump vehicles, from points in Brooke, Ohio, Hancock and Marshall Counties, W. Va., to points in that part of Michigan on, north, and west of a line beginning at Bay City, Mich., and extending along Michigan Highway 10 to junction Michigan Highway 20, thence along Michigan Highway 20 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Michigan Highway 46, thence along Michigan Highway 46 to junction U.S. Highway 131, thence along U.S. Highway 131 to junction Michigan Highway 21, thence along Michigan Highway 21 to junction U.S. Highway 31, thence along*

U.S. Highway 31 to junction Interstate Highway 94, thence along Interstate Highway 94 to Lake Michigan at or near Stevensville, Mich. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa. The purpose of this correction is to add Ohio County, W. Va.

No. MC 88368 (Sub-No. E33), filed May 15, 1974. Applicant: CARTWRIGHT VAN LINES, INC., 1109 Cartwright Ave., Grandview, Mo. 64030. Applicant's representative: Theodore Polydoroff, Suite 600, 1250 Connecticut Ave. NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission; (1) from points in Virginia on, north, and east of a line beginning at Bristol, Va., and extending along U.S. Highway 11 to Roanoke, Va., thence along U.S. Highway 460 to Lynchburg, Va., thence along U.S. Highway 29 to Amherst, Va., thence along U.S. Highway 60 to Richmond, Va., thence along U.S. Highway 360 to its end at Chesapeake Bay to points in Alabama; (2) from points in Virginia to points in Alabama on, north, and east of a line beginning at the Alabama-Georgia State line near Palestine, Ala., and extending along U.S. Highway 278 to Piedmont, Ala., thence along Alabama Highway 21 to Sylacauga, Ala., thence along U.S. Highway 231 to Montgomery, Ala., thence along U.S. Highway 331 to the Alabama-Florida State line; (3) from points in Virginia on and south of a line beginning at the Virginia-West Virginia State line near Mountain Grove, Va., and extending along Virginia Highway 30 to Goshen, Va., thence along Virginia Highway 42 to Churchville, Va., thence along U.S. Highway 250 to Charlottesville, Va., thence along Virginia Highway 20 to Fredericksburg, Va., thence along Virginia Highway 218 to junction U.S. Highway 301, thence along U.S. Highway 301 to the Virginia-Maryland State line to points in California in, north, and west of Humboldt, Trinity, Shasta, and Siskiyou Counties;

(4) From points in Virginia to points in Colorado on and west of U.S. Highway 85; (5) from points in Virginia on and south of a line beginning at the Virginia-West Virginia State line near Mountain Grove, Va., and extending along Virginia Highway 39 to Goshen, Va., thence along Virginia Highway 42 to Churchville, Va., thence along U.S. Highway 250 to Charlottesville, Va., thence along U.S. Highway 29 to the Culpeper-Fauquier County line, thence along the northern county line of Culpeper and Stafford Counties to the Virginia-Maryland State line to points in Idaho on, north, and west of a line beginning at the Idaho-Nevada State line near Idavada, Idaho, along U.S. Highway 93 to Twin Falls, Idaho, thence along U.S. Highway 30 and 30N to Pocatello, Idaho, thence along U.S. Highway 191 to the Idaho-Montana State line; (6) from points in Virginia in and south of Bath, Augusta, Albemarle, Greene, Madison,

Culpeper, and Stafford Counties to Bloomington, Ill., and points within 25 miles thereof; (7) from points in Virginia in and east of Henry, Franklin, Roanoke, and Craig Counties to points in Missouri in, west, and north of Butler, Wayne, Madison, St. Francis, and Jefferson Counties; (8) from points in Virginia on, east, and south of a line beginning at the Virginia-Tennessee State line at Bristol, Va., and extending along U.S. Highway 11 to Lexington, Va., thence along U.S. Highway 60 to Richmond, Va., thence along Virginia Highway 33 to its end, to points in Montana on, south, and west of a line beginning at the Montana-Wyoming State line near Wyola, Mont., and extending along U.S. Highway 87 to Billings, Mont., thence along U.S. Highway 10 to Livingston, Mont., thence along U.S. Highway 89 to Great Falls, Mont., thence along U.S. Highway 91 to the United States-Canada International Boundary line; (9) from points in Virginia on and south of a line beginning at the Virginia-West Virginia State line near Covington, Va., and extending along U.S. Highway 60 to Lexington, Va., thence along U.S. Highway 11 to Staunton, Va., thence along U.S. Highway 250 to Charlottesville, Va., thence along Virginia Highway 218 to junction U.S. Highway 301, thence along U.S. Highway 301 to the Virginia-Maryland State line to points in Nebraska on, south, and west of a line beginning at the Nebraska-Kansas State line near Arapahoe, Nebr., and extending along U.S. Highway 283 to Lexington, Nebr., thence along U.S. Highway 30 to junction U.S. Highway 26, thence along U.S. Highway 26 to the Nebraska-Wyoming State line;

(10) From points in Virginia to points in Oklahoma on, north, and west of a line beginning at the Oklahoma-Kansas State line and extending along Interstate Highway 44 to Stroud, Okla., thence along Oklahoma Highway 99 to Ada, Okla., thence along Oklahoma Highway 1 to junction Oklahoma Highway 7, thence along Oklahoma Highway 7 to Duncan, Okla., thence along U.S. Highway 81 to the Oklahoma-Texas State line; (11) from points in Virginia on and east of a line beginning at the Virginia-West Virginia State line near Paint Bank, Va., and extending along Virginia Highway 311 to Roanoke, Va., thence along U.S. Highway 220 to the Virginia-North Carolina State line to points in Oklahoma; (12) from points in Virginia to points in Oregon in, north, and west of Wallowa, Union, Umatilla, Marrow, Wheeler, Crook, Deschutes, and Klamath Counties; (13) from points in Virginia on and east of a line beginning at the Virginia-West Virginia State line near Mountain Grove, Va., and extending along Virginia Highway 39 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line to points in Tennessee on and west of U.S. Highway 45 and 45E; (14) from points in Virginia in and east of Henry, Franklin, Roanoke, and Craig

Counties to points in Texas on, north, and west of a line beginning at the Texas-Oklahoma State line near Denison, Tex., and extending along U.S. Highway 75 to Dallas, Tex., thence along U.S. Highway 80 to the Texas-New Mexico State line and points within 200 miles of Detroit, Tex., east of U.S. Highway 77; (15) from points in Virginia to points in Cherokee County, Tex.; (16) from points in Virginia to points in Washington in and west of Okanogan, Chelan, Kittitas, Yakima, Benton, Franklin, and Walla Walla Counties; (17) from points in Virginia in and south of Highland, Augusta, Albemarle, Greene, Madison, Culpeper, and points south of U.S. Highway 211 to Fauquier, Prince William, and Fairfax Counties, to points in Washington; (18) from points in Virginia in, east, and south of Giles, Montgomery, Roanoke, Botetourt, Rockbridge, Augusta, Albemarle, Loudsa, Hanover, King Williams, New Kent, Toano, and York Counties to points in Wyoming; and (19) from points in Virginia to points in Wyoming in and west of Carbon, Fremont, Hot Springs, and Park Counties.

The purpose of this filing is to eliminate the gateways of: in (1) above, Harlan County, Ky., and Bledsoe, Ky.; in (2) above, Harlan County, Ky.; in (3) above, Cumberland, Ky., Clinton, Ill., Newton, Kans., Sterling, Colo., Dallesport, Washington, and Harlan, Ky.; in (4) above, Cumberland, Ky., Clinton, Ill., Goessel, Ky., Newton, Kans., and Harlan, Ky.; in (5) above, Harlan, Ky., Clinton, Ill., Newton, Kans., Sterling, Colo., Monida, Mont., Sidney, Nebr., Cheyenne, Wyo.; in (6) above, Harlan, Ky.; in (7) above, Lynch, Ky., Clinton, Ill., Crummites, Ky., Florence, Ala., Jackson, Tenn., Cumberland, Ky., Harlan, Ky., and Bloomington, Ill.; in (8) above, Harlan, Ky., Clinton, Ill., Newton, Kans., Sidney, Nebr., and Casper, Wyo.; in (9) above, Harlan, Ky., Clinton, Ill., Goessel, Kans., and Newton, Kans.; in (10) above, Harlan County, Ky., Florence, Ala., Corinth, Miss., Joplin, Mo., Noel, Mo., and Cooter, Mo.; in (11) above, Harlan County, Ky., Florence, Ala., Corinth, Miss., Joplin, Mo., and Cooter, Mo.; in (12) above, Harlan County, Ky., Clinton, Ill., Newton, Kans., Sterling, Colo., and Dallesport, Wash.; in (13) above, Harlan County, Ky., Florence, Ala., and Ardmore, Ala.; in (14) above, Harlan, Ky., Florence, Ala., Corinth, Miss., Holland, Mo., Broken Bow, Okla., and Lawton, Okla.; in (15) above, Harlan, Ky., Florence, Ala., Pontotoc, Miss., and Shreveport, La.; in (16) above, Harlan, Ky., Clinton, Ill., Newton, Kans., and Sterling, Colo.; in (17) above, Harlan, Ky., Clinton, Ill., Newton, Kans., and Sterling, Colo.; in (18) above, Harlan, Ky., Clinton, Ill., Newton, Kans., and Sidney, Nebr.; and in (19) above, Harlan, Ky., Clinton, Ill., Newton, Kans., and Sidney, Nebr.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

**MOTOR CARRIER BOARD TRANSFER PROCEEDINGS**

SEPTEMBER 2, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to Sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before September 23, 1975. Pursuant to Section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75900. By order of August 22, 1975, the Motor Carrier Board approved the transfer to William Daniel Dipert, doing business as Dan Dipert's Travel Service, Arlington, Tex., of License No. MC 12831 issued January 9, 1963, to Robert L. Hoyt, doing business as Executive Tours, Fort Worth, Tex., authorizing the holder thereof to engage in operations as a broker in arranging for the transportation of passengers and their baggage between points in Texas, on the one hand, and, on the other, points in the United States including Alaska but excluding Hawaii, limited to transportation beginning and terminating at points in Texas. S. Harrison Kahn, Esq., Suite 733, Investment Building, Washington, D.C. 20003.

No. MC-FC-76041. By order of August 25, 1975, the Motor Carrier Board approved the transfer to Hipke Trucking, Inc., Atkinson, Nebr., of the operating rights in Certificates Nos. MC 86539 and MC 86539 (Sub-No. 1) issued March 28, 1949, and January 16, 1971, to Leo C. Perry, Atkinson, Nebr., and acquired by Frank J. Thiel, doing business as Trans-Western Express System, Atkinson, Nebr., pursuant to approval and consummation in No. MC-FC-74819, authorizing the transportation of hay and livestock, from points within 25 miles of Atkinson, Nebr., including Atkinson, to Sioux City, Iowa; corn, oats, mixed feeds, and general merchandise, from Sioux City, Iowa, to Atkinson, Nebr., and points within 25 miles thereof; and mixed feeds, fertilizer (except liquid), building materials, farm machinery parts, and seeds, from Sioux City, Iowa, to points in a specified portion of Nebraska. Arlen D. Magnuson, P.O. Box 875, 111 North 5th Street, O'Neill, Nebr. 68762, attorney for applicants.

No. MC-FC-76042. By order of August 25, 1975, the Motor Carrier Board approved the transfer to Huntsville Van & Storage Company, Inc., Huntsville, Ala., of the operating rights in Certificate No. MC 135820 issued June 28, 1962, to Williams Moving & Storage Company, a corporation, Huntsville, Ala., authorizing the transportation of used household goods, between Huntsville, Ala., on the one hand, and, on the other, points in Calhoun, Colbert, Cullman, Etowah, Franklin, Jackson, Lauderdale, Lawrence, Limestone, Madison, and Marshall Counties, Ala., and Coffee, Franklin, Giles, Lawrence, and Lincoln Counties, Tenn., and between Mobile, Ala., on the one hand, and, on the other, points in Baldwin, Clarke, Conecuh, Escambia, Mobile, Monroe, and Washington Counties, Ala., and points in Greene, Jackson, and Wayne Counties, Miss. Edward L. Hopper, 715 St. Clair Avenue, Huntsville, Ala. 35801, attorney for applicants.

No. MC-FC-76047. By order entered August 25, 1975, the Motor Carrier Board approved the transfer to William Simpson Moving & Storage, Inc., New York, N.Y., of the operating rights set forth in Certificate No. MC 52999, issued November 14, 1950, to William Simpson, New York, N.Y., authorizing the transportation of household goods as defined in Practices of Motor Common Carriers of Household Goods, 17 M.C.C. 467, between New York, N.Y., on the one hand, and, on the other, points in Connecticut and New Jersey. Alvin Altman, 1776 Broadway, New York, N.Y. 10019, attorney for applicants.

[Notice No. 98]

**MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS**

AUGUST 26, 1975.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the Federal Register publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the Federal Register. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with

the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

**MOTOR CARRIERS OF PROPERTY**

No. MC 112617 (Sub-No. 332TA), filed August 20, 1975. Applicant: LIQUID TRANSPORTERS, INC., P.O. Box 21395, Louisville, Ky. 40221. Applicant's representative: Leonard A. Jaskiewicz, Suite 501, 1730 M St. NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Chemicals, in bulk, in tank vehicles, from Danville, Ill., to Hawesville, Ky., for 180 days. Supporting shipper: Kenneth O. Petrie, Jr., Scheduling & Traffic Coordinator, Western Kraft Corp., P.O. Box J, Hawesville, Ky. 42348. Send protests to: Elbert Brown, Jr., District Supervisor, Bureau of Operations, Interstate Commerce Commission, 426 P.O. Bldg., Louisville, Ky. 40202.

No. MC 114604 (Sub-No. 36TA), filed August 19, 1975. Applicant: CAUDELL TRANSPORT, INC., State Farmers Market, P.O. Box I, Forest Park, Ga. 30050. Applicant's representative: Frank D. Hall, Suite 713, 3384 Peachtree Rd. NE, Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Malt beverages, related advertising material, and empty malt beverage containers, between Winston-Salem, N.C., and the facilities of Thomas Beverage Company, located in Carroll, Clayton, Cobb, De Kalb, Douglas, Fulton, Haralson, and Rockdale Counties, Ga., for 180 days. Supporting shipper: Thomas Beverage Company, 2235 Defoor Hills Rd., N.W., Atlanta, Ga. Send protests to: William L. Scroggs, District Supervisor, 1252 W. Peachtree St., N.W., Room 546, Atlanta, Ga. 30309.

No. MC 123048 (Sub-No. 327TA), filed August 19, 1975. Applicant: DIAMOND TRANSPORTATION SYSTEM, INC., 5021 21st St., Racine, Wis. 53406. Applicant's representative: Paul C. Gartzke, 121 W. Doty St., Madison, Wis. 53703. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Brick and Carolina and South Carolina, to points in Michigan, for 180 days. Supporting shipper: Lincoln Brick Company, 1420 Lake Drive, S.E., Grand Rapids, Mich. 49506. Send protests to: John E. Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells St., Room 807, Milwaukee, Wis. 53203.

## NOTICES

No. MC 123407 (Sub-No. 259TA), filed August 19, 1975. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Stephen H. Loeb (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Lumber and lumber products (except in bulk), from points in Idaho to points in Arizona and New Mexico, for 180 days. Supporting shipper: Southwest Forest Industries, General Traffic Manager, 3443 North General Ave., P.O. Box 7548, Phoenix, Ariz. 85011. Send protests to: J.H. Gray, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 345 West Wayne St., Room 204, Fort Wayne, Ind. 46802.

No. MC 126276 (Sub-No. 132TA) (Partial correction), filed July 31, 1975, published in the Federal Register issue of August 12, 1975, and republished as corrected this issue. Applicant: FAST MOTOR SERVICE, INC., 9100 Plainfield Road, Brookfield, Ill. 60513. Applicant's representative: James C. Hardman, 33 North LaSalle St., Chicago, Ill. 60602. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Paper and paper. The purpose of this republication is to change the destination point Millville (Cumberland County) N.J., in lieu of Millville (Cumberland County) N.Y. The rest of the application remains the same.

No. MC 134400 (Sub-No. 18TA) (Correction), filed July 31, 1975, published in the Federal Register issue of August 12, 1975, and republished as corrected in this issue. Applicant: MILLER'S TRUCKING AND RENTAL, INC., 200 Southern Ave., Dubuque, Iowa 52001. Applicant's representative: Carl E. Munson, 469 Fischer Bldg., Dubuque, Iowa 52001. Authority sought to operate as a contract carrier, by motor vehicle over irregular routes, transporting: Aluminum building products and related accessories, in shipper-owned trailers, from Dubuque and Osage, Iowa, and Minneapolis, Minn., to Adams, Brown, Bureau, Carroll, Fulton, Hancock, Henderson, Henry, Joe, Daviess, Knox, LaSalle, Lee, McDonough, Marshall, Mercer, Ogle, Peoria, Putnam, Rock, Island, Schuyler, Stark, Stephenson, Warren, and Whiteside Counties, Ill.; all points in Iowa; Adair, Clark, Knox, Lewis, Marion, Schuyler, Scotland, and Shelby Counties, Mo.; and Crawford, Grant, Iowa, Lafayette, and Richland Counties, Wis., under a continuing contract with Zephyr Aluminum Products, Inc., for 180 days. Supporting shipper: Zephyr Aluminum Products, Inc., P.O. Box 936, Dubuque, Iowa 52001. Send protests to: Herbert W. Allen, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 875 Federal Bldg., Des Moines, Iowa 52001. The purpose of this republication is to correct the territorial description.

No. MC 138530 (Sub-No. 18TA), filed August 19, 1975. Applicant: C. O. P.

TRANSPORT, INC., 307 South High St., Cortland, Ohio 44410. Applicant's representative: Warren R. Keck III, 28 South Second St., Greenville, Pa. 16125. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Copper and copper alloys viz other than perforated or silver plated sheet, plate and strip, scrap and scrap copper alloy loose or in containers, coils, bars drawn, rolled or extruded, between the plantsite of Hussey Metals Division/Copper Range Co., Eminence, Ky., on the one hand, and, on the other, points in the Cleveland, Ohio, Commercial Zone, under a continuing contract with Hussey Metals Division Copper Range Co., for 180 days. Supporting shipper: Hussey Metals Division Copper Range Co., Eminence, Ky. Send protests to: James Johnson, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 181 Federal Office Bldg., 1240 East Ninth St., Cleveland, Ohio 44199.

No. MC 141135 (Sub-No. 1TA), filed August 13, 1975. Applicant: VARRA ENTERPRISES, INC., Rte. 2, Box 640, Broomfield, Colo. 80002. Applicant's representative: Pasquale Varra (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Silica sand (Fracturing sand), in bulk, in dump trucks, and Fractor Props (Fracturing sand), in dump trucks, from Denver, Pueblo, and Brighton, Colo., to points in Campbell, Fremont, Laramie, Natrona Park, Sweetwater, and Washoe Counties Wyoming, and Uintah County, Utah, for 180 days. Supporting shippers: Dowell Division of Dowell Chemical Co., 5400 N. Colorado Blvd., Denver, Colo. 80601. Send protests to: Roger L. Buchanan, District Supervisor, Interstate Commerce Commission, 1961 Stout St., 2022 Federal Bldg., Denver, Colo. 80202.

No. MC 141159 TA (Partial correction), filed June 6, 1975, published in the Federal Register issue of July 29, 1975, and republished as corrected this issue. Applicant: TRANSCON LINES, 101 Continental Blvd., El Segundo, Calif. 90245. Applicant's representative: Jerome Biniasz, P.O. Box 92220, Los Angeles, Calif. 90009. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, and commodities in bulk). The purpose of this republication is to indicate that this application is common carrier in lieu of the contract carrier which was previously published in error. The rest of the application remains the same.

No. MC 141161 (Sub-No. 1TA) (Correction), filed July 17, 1975, published in the Federal Register issue of August 1, 1975, and republished as corrected this issue. Applicant: CHARLES W. BOWMAN, R.R. #2, West Branch, Iowa 53358. Applicant's representative: Kenneth F. Dudley, P.O. Box 279, Ot-

tumwa, Iowa 52501. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Refined corn products, in packages and containers, and powdered milk, when moving in the same vehicle and at the same time as refined corn products, (1) from Decatur, Ill., to Iowa City, and (2) from Iowa City, Iowa to points in Arkansas, Illinois, Kansas, Kentucky, Louisiana, Minnesota, Missouri, Nebraska, Oklahoma, Tennessee, and Texas, under continuing contract with J. M. Swank Co., Inc., for 180 days. Supporting shipper: J. M. Swank Co., Inc., 615 Highway 6 By Pass, Iowa City, Iowa 52244. Send protests to: Herbert W. Allen, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 875 Federal Bldg., Des Moines, Iowa 50309. The purpose of this republication is to change the docket number to MC 141161 Sub-1TA, in lieu of MC 141165 TA.

No. MC 141166 TA (Correction), filed July 17, 1975, published in the Federal Register issue of August 1, 1975, and republished as corrected this issue. Applicant: A. O. G. SERVICES INC., 177-25 Rockaway Boulevard, Jamaica, N.Y. 11434. Applicant's representative: Matthew Devine, 313 E. Garden City St., Islip Terrace, N.Y. 11752. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Aircraft parts, aircraft documents, and commissary equipment to be used on aircraft restricted to 500 pounds in special messenger service, between JFK International Airport, Jamaica, N.Y., and the Airports located within a radius of 400 air miles of JFK International Airport located in the following States: New York, New Jersey, Pennsylvania, Maryland, Connecticut, Delaware, Massachusetts, Maine, Virginia, Rhode Island, the District of Columbia, and Vermont, for 180 days. Supporting shippers: Capitol International Airways, P.O. Box 220, JFK International Airport, Jamaica, N.Y. 11430; Saturn Airways, Inc., P.O. Box 269, JFK International Airport, Jamaica, N.Y. 11430; Overseas National Airways Inc., 147-27 175th St., Jamaica, N.Y. 11430. Send protests to: Paul W. Assenza, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 26 Federal Plaza, New York, N.Y. 10007. The purpose of the republication is to change the docket number to 141166 TA, in lieu of MC 141161 Sub-1TA.

By the Commission.

[Notice No. 99]

**MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS**

AUGUST 26, 1975.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules

provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

#### MOTOR CARRIERS OF PROPERTY

No. MC 30867 (Sub-No. 221TA), filed August 20, 1975. Applicant: SHIPLEY TRANSFER, INC., 1550 E. Patapasco Ave., Baltimore, Md. 21225. Applicant's representative: William B. Eckels (same address as applicant). ## FOURTH SECTION APPLICATION FOR RELIEF

August 27, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 43038—*Iron and Steel Articles to Points in Texas*. Filed by Southwestern Freight Bureau, Agent (No. B-554), for interested rail carriers. Rates on iron and steel articles, in carloads, as described in the application, from specified points in Delaware, Maryland, and Pennsylvania, to specified points in Texas. Grounds for relief—Market and water competition. Tariff—Supplement 137 to Southwestern Freight Bureau, Agent, tariff 301-F, I.C.C. No. 5093. Rates are published to become effective on September 25, 1975.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Ex Parte No. 314]

## GENERAL FREIGHT RATES

Special Procedures for Increases; Notice of Oral Argument

August 26, 1975.

The Interstate Commerce Commission, will hold oral argument in the above entitled proceeding in order to provide the parties with a further opportunity to make their views known to the Commission. Oral argument is scheduled to commence at the office of the Commission in Washington, D.C. at 9:30 a.m. on Wednesday, October 1, 1975.

The October 1st date has been selected to afford the parties an advance opportunity to consider the views expressed by the other parties to this proceeding and based on that review to determine whether there is a possibility of consolidating their presentation at oral argument with other parties expressing the same or similar views. Further, the October 1, 1975, date will enable the parties to evaluate the Commission's statement delivered by Chairman Stafford on July 16, 1975. This statement attached as Appendix I hereto entitled "Statement of

George M. Stafford, Chairman of the Interstate Commerce Commission, Before the Subcommittee on Transportation and Commerce of the House Committee on Interstate and Foreign Commerce on H.R. 6351 and H.R. 7681, "together with a summary, places the proposed special procedures in context and provides the parties to this proceeding with an insight as to why the Commission prefers to consider changes through the administrative process.

In response to the notice of proposed rulemaking entered in this proceeding on June 10, 1975, served June 12, 1975, 75 parties submitted written statements of verified facts, views, and arguments regarding the proposed procedures. Attached hereto as Appendix II is a service list of the parties submitting representations. Ten days from date of service of this notice the parties listed on Appendix II are to serve the other parties on the list with copies of their statements previously filed with the Commission. Ten days prior to oral argument the parties desiring to participate therein shall by letter advise the Commission (1) that they have complied with the service requirement; (2) the name of their representative who will appear at the oral argument on their behalf and/or representing other parties having similar positions; and (3) the approximate amount of time needed to present their position at oral argument.

Although the Commission has made no determination on the merits on whether or not to adopt the proposed regulations with or without modification, it would be helpful to the Commission if the parties at oral argument would address the following issues, which are not to be construed as all inclusive, but rather as focal points for informed discussion:

1. Is there a need for special procedures of the type contemplated by the notice of proposed rulemaking for all modes or for any one mode?

2. Has the entry of the Commission's decision in Ex Parte No. 311, *Expedited Procedures for Recovery of Fuel Costs*, 350 I.C.C. 563, rendered unnecessary or undesirable the promulgation of another expedited procedure?

3. If the procedures set forth in the notice of proposed rulemaking were to be adopted on an experimental basis for one mode, several modes or all modes, should the increases be based solely on increased labor cost as was originally contemplated in Ex Parte No. 296, *Procedures for Partial Recoupment of Increased Carrier Labor Costs*?

4. If it were possible to fashion an expedited procedure that would clearly spell out that the Commission retains the right to suspend a general revenue

proposal (or portion thereof, i.e., increases pertaining to individual commodities or weight brackets) filed under the special procedure for potential undue preference, prejudice or discrimination, would this be acceptable to the carriers and shippers alike? How do you view this proposal as compared with the rate provisions set forth in the Rail Revitalization Act of 1975 and discussed in Appendix I hereto?

5. If the special procedures were to be adopted, should the carriers utilizing the procedures be limited to one other general increase per year and should the special procedures be limited to increases timed to become effective on a specified date as for example January 1 of each calendar year?

6. If special procedures are adopted on an experimental basis, what are your views as to the reasonableness of the proposed 5-percent figure? Would some other figure be more appropriate?

7. Does the Commission's practice of allowing interim increases pending formal investigation of rail general increases offer a viable alternative to the special procedures set forth in the notice of proposed rulemaking and should such a procedure be available to other modes absent a statutory refund provision?

Notice of oral arguments shall be given to the general public by depositing a copy of this notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. for public inspection and by delivering a copy of the notice, without attachments, to the Director, Office of the Federal Register for publication therein as notice to interested persons.

## MOBILE HOMES

Federal Construction and  
Safety Standards

federal register

**Title 24—Housing and Urban Development**

**CHAPTER II—OFFICE OF THE ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT—FEDERAL HOUSING COMMISSIONER (FEDERAL HOUSING ADMINISTRATION), DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**

[Docket No. R75-340]

**PART 280—MOBILE HOME CONSTRUCTION AND SAFETY STANDARDS**

On June 25, 1975, the Department of Housing and Urban Development proposed Federal mobile home construction and safety standards (40 FR 26930) pursuant to the requirements of the National Mobile Home Construction and Safety Standards Act of 1974 (Title VI of Pub. L. 93-383, 42 U.S.C. 5401 et seq.).

The Notice of Proposed Rulemaking described the requirements of the Act for promulgation of the standards. In addition, the research work that was carried out and planned in order to support the Federal mobile home standards, and the various other sources used to develop the proposed standards were described. The notice solicited public comment on the proposal and allowed 30 days for comments to be submitted. Comments received are available for inspection and copying in accordance with HUD regulations (24 CFR 15.14) in room 10245, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410 during regular business hours.

**PUBLIC COMMENTS**

More than 1,000 comments were received in response to the Notice of Proposed Rulemaking. Of these, approximately 100 discussed specific requirements of the proposed standards. Some of the comments were very detailed; several were over fifty pages in length. Nine mobile home manufacturers submitted comments along with two manufacturers trade associations. One of the trade associations developed its comments through a consensus process among its member companies. Suppliers to the industry and other service industries submitted 36 comments. Twenty comments were received from state and other government agencies. The remaining comments on the standards came from private individuals, companies not directly involved in the mobile home industry, and from consumer and community groups. Many comments provided useful criticism and information that resulted in clarifications, corrections, amendments, and other changes in the standard as published herein.

Approximately 900 comments addressed the issue of adoption by reference of the "Standard for Mobile Homes," NFPA 501B/ANSI A119.1, as the Federal mobile home standard. Approximately 825 comments urged such adoption. A majority of the comments supporting adoption by reference were sent in by members of the National Fire Protection Association (NFPA), particularly its Fire Marshals Section, and by in-

**RULES AND REGULATIONS**

40261

dividuals who are members of other component organizations within NFPA.

Approximately 75 letters and mailgrams were received urging that the NFPA/ANSI standard not be adopted. Most of the comments supporting HUD's action not to adopt the standard came from organizations representing mobile home owners and dwellers, from individual consumers, from consumer and community groups, as well as from a variety of other organizations.

HUD has considered all of the various arguments raised in the comments and elsewhere for and against adoption by reference of the ANSI/NFPA standard. The Department has also again very carefully reviewed the Act and its legislative history. HUD has concluded that adoption by reference of all or part of the present ANSI/NFPA mobile home standard would be inappropriate because it implies that future amendments to the NFPA 501B standard will automatically be adopted as the Federal standards or will be given special consideration by HUD. Adoption of the NFPA mobile home standard thus commits HUD to a de facto delegation of its authority to develop standards for promulgation. Such a course of action is neither envisioned nor authorized by the Act.

**RECOMMENDATIONS OF THE NATIONAL MOBILE HOME ADVISORY COUNCIL**

The National Mobile Home Advisory Council held a series of meetings on July 29-31, 1975. One of the issues discussed was adoption of the ANSI/NFPA standard by reference. The Council unanimously passed a resolution supporting "HUD's course of action in establishing Federal mobile home construction and safety standards . . . without specifically referencing the ANSI A119.1/NFPA 501B standards . . ." with the provision that HUD and the NFPA establish a cooperative committee program "so as to preserve and continue to utilize the expertise of the present NFPA mobile home committee." HUD is attempting to work out such a cooperative program with the NFPA. HUD believes that the two organizations share a common interest in mobile home safety, and hopes that a basis for cooperation can be found.

Prior to the issuance of the proposed Federal mobile home standards, the Advisory Council met on May 5 and 6, 1975, to discuss a draft of the standards. As published, the proposed standards reflected some of the concerns and recommendations of the Council and of individual members of the Council. Comments of members of the public submitted to the Advisory Council and HUD following the meeting were also considered.

After publication of the proposed standards, the Executive Committee of the Council met and appointed a Fire Safety Task Force and a Structural Task Force to consider specific questions in these areas related to the Federal standards. These task forces met on July 29, 1975, and reported draft recommendations to the Advisory Council Executive Committee on July 30 and to the full

Council during its meeting on July 31, 1975. The Council accepted essentially all of the majority recommendations of the Task Forces. These recommendations are as follows:

**Fire Safety.** The Advisory Council determined that there was not sufficient test data or other information on the subject of flame spread classification and recommended retaining the HUD recommended values until additional research and test data were available. The Council also recommended minor changes in the methods of testing flame spread for interior surface materials. The Council made specific recommendations for carrying out such research and tests. HUD is currently planning and beginning to implement an extensive fire safety research program for both mobile and conventional housing that will contribute to the further development of the mobile home standards. Finally, it was recommended that the flammability test for carpeting be deleted from the standard as redundant since other Federal law already requires that all carpeting be so tested.

A minority report from the Task Force recommended adoption of the more stringent Class A flame spread requirement for interior walls and ceilings throughout the mobile home. The Council did not adopt the minority recommendation.

The Council recommended a number of clarifications of the egress window and door requirements. It was also recommended that in order to shut off furnace burners and blowers in the event of a furnace compartment fire, electric thermal cut off devices be required where practical. (There was no such requirement in the proposed standard.) The Council suggested that HUD prepare a list of materials that do not need to be tested, listed, or labeled to be accepted as being in compliance with the requirements of the standard. In order to identify a mobile home destroyed or seriously damaged by fire, the Council recommended that the serial number be marked permanently on the frame.

**Structure.** To enhance both compliance and enforcement of the standards, the Council made a number of detailed recommendations concerning the clarity of the standards. It also made a number of recommendations on structural component testing.

A minority view was given that the structural wind resistance requirements of the proposed standard were too stringent for Zone II. The Council did not accept this recommendation.

The Council also recommended that (1) HUD and the industry investigate corrosion resistant materials for exterior finish metal fasteners; (2) the space requirements for laundry equipment (when not factory installed) be reduced from 30" to 27" and (3) the tire and rim standard (Motor Vehicle Safety Standard 120) be deleted because the standard has not yet been made effective by the Department of Transportation, and because if the standard was in effect it would be applicable to mobile homes

without a specific reference in the HUD regulations.

Finally, the Council recommended an extensive research program to determine the response of mobile homes to wind loadings, including gusting and other dynamic effects. (HUD's planned program on wind research was described in the preamble to the Notice of Proposed Rule-making published June 25, 1975, 40 FR 26935.)

#### THE STANDARD

As published herein, the Federal Mobile Home Construction and Safety Standards have been revised in a number of respects from the proposed standards. There were a number of significant amendments of the proposal. Most of the changes, however, were editorial clarifications and detail changes in the requirements. These changes reflect consideration of the comments received on the standards, recommendations of the National Mobile Home Advisory Council, comments and discussions with other Federal and state agencies, and discussions and reevaluations within HUD.

The numbering of the standards was changed to conform to the style of the Code of Federal Regulations. Subpart designations have been dropped and the sections have been moved from parts 1420-1427 to parts 2520-2529. The decimal numbering has been simplified.

The following is a discussion of the significant specific changes from the proposed standard.

**Introduction.** An introduction has been added in which it is stated that the standards are in substantial measure based on the "Standard for Mobile Homes" NFPA 51B-1974/ANSI A119.1-1975, and particularly on Sections B, C, D, and E of that standard. In addition, it is noted that parts of the standards are derived from state standards, enforcement agency standards, interpretative manuals and trade association standards. Acknowledgement of contributions from the standards and codes of public and private organizations had appeared in the preamble to the proposed standard. In the final standards, however, it was deemed appropriate that such acknowledgement appear in the standards themselves rather than in the preamble which will not become a permanent part of the Code of Federal Regulations.

**A. General.** The following significant changes were made in this section:

1. The definition of "length of a mobile home" has been modified because of objections raised by the Federal Trade Commission in its proposed Trade Regulation Rule on Mobile Home Sales and Service (40 FR 13334). The FTC believes that it may be a deceptive trade practice to include drawbar assemblies or other appendages that are not a part of the living space, in the definition. The length as now defined includes only the basic mobile home structure plus any fold-out or other room extensions, bay windows, porches, extensions of walls and roofs, drawbars, and other attachments are not included.

2. A definition of the "width of a mobile home" has been added to the standards in order to provide criteria to determine whether a particular unit is subject to the requirements of these regulations. The "width" definition is consistent with the definition of length. (280.2(a)(13)).

3. The serial or identification number of a mobile home will now have to be stamped on a forward frame member. This Permanent identification should provide greater assurance that a severely damaged or burned mobile home can be traced to its manufacturer. The Advisory Council recommended that a requirement of this kind be added to the standards (280.6(a)).

**B. Planning Considerations.** The following changes from the proposed standard are being made:

1. The ceiling height requirements for habitable rooms have been amended so that the ceiling need not be sloping in an area where it is less than 7 feet high. This will allow a ceiling to be uniformly dropped (or the floor raised) for up to 50 percent of the room's floor area to a height of between 5 and 7 feet. (280.104(a)). This change is in recognition of industry practices in which portions of ceilings are dropped uniformly to less than 7 feet (or floors are raised so that the ceiling height is less than 7 feet). The proposed standard would have made the arbitrary requirement that the dropped ceiling be sloping.

2. The requirements for egress doors in § 280.105(a) have been revised to clarify their intent. Specifically, the egress doors must now be at least 12 feet apart, must be separated by a wall or partition, and must be placed so that no bedroom door is more than 35 feet from the nearest exterior door.

3. The requirement that exterior doors have a minimum clear opening height of 74 inches has been retained except for sliding doors which may have 72 inches clear opening height. In a report prepared for HUD on household hazards, it was found that adequate height of doorways was an important safety factor for doors opening to stairways. Most mobile home exterior swinging doors open to stairways. The report noted "any abrupt or very low overhead which causes an individual to instinctively duck or make a quick movement can result in a misstep and a fall." HUD selected 74" as the minimum required door height because it provided the maximum door height opening without requiring structural redesign of most homes built today. Also, a significant number of the mobile home production today meet this minimum. (§ 280.105(6)). An exception has been made for sliding doors because such doors generally do not open to steps and because a clear opening of greater than 72 inches in height for such doors would require redesign of the structure around the door of many mobile homes.

4. The requirement that privacy locks be provided for primary bedrooms has been dropped because HUD could not justify requiring such locks on grounds of life safety or durability.

5. The room size requirements of §§ 280.111, 280.112, and 280.113, have been modified and clarified as follows: The requirement that at least one habitable room be not less than 150 square feet in gross floor area has been modified so that this minimum dimension applies to a "living area" (such as a combined living and dining area) rather than to a single room. HUD considered, but did not adopt a requirement that there be at least one bedroom suitable for two people (minimum floor area of 70 square feet).

Census data indicates that approximately one fifth of all mobile homes are occupied by single individuals who might have no need for such a bedroom. HUD believes that consumer information can be used to alert purchasers to the need for adequate space in bedrooms. The requirement that a bedroom intended for use by two people must have a minimum area of 70 square feet, is continued.

6. The requirement that the minimum horizontal dimension of a habitable room be five feet has been modified to allow smaller dimensions. However, spaces with smaller dimensions may not be counted in the gross floor area used to determine the minimum allowed room size (§ 280.110). This change was made because HUD had inadvertently disallowed entries and alcoves having any horizontal dimension less than five feet.

7. The minimum depth of laundry equipment spaces that open to hallways has been reduced from 30" to 27" where no equipment is installed by the manufacturer. This minimum dimension must still be provided in addition to the minimum width of 28" for the hallway itself. HUD will require that a notice be placed in this space by the manufacturer specifying the clearance available for laundry equipment. This change was recommended by the Advisory Council and by a number of manufacturers' comments.

8. Safety glazing will be required in all glass doors, glass storm doors, sidelights within 12 inches of an exterior door, in glass mirrored doors unless backed by a material capable of acting as a door in the absence of the mirror, and in doors and windows in shower and tub areas. It should be noted, however, that a manufacturer is not required to provide glass in any of these areas, so that this requirement poses no cost penalties except where a manufacturer decides to use a design calling for glazing in the affected areas (280.114(6)).

These requirements are identical to provisions of a proposed standard under consideration by the Consumer Product Safety Commission. The Commission recommended in a written submission to the Department that "HUD's mobile home safety glazing standard should be at least as comprehensive as the Consumer Safety Glazing Committee's proposed standard which is presently being considered by the Commission." Other comments were received supporting requirements for safety glazing in window and mirror areas that are likely to be subject to impact by mobile home occupants in their daily activities.

HUD's decision to upgrade safety glazing requirements was reached after consultations with the CPSC staff and the Consumer Safety Glazing Committee which developed the "Proposed Safety Standard for Glazing Materials used in Certain Architectural Products."

**C. Fire Safety.** HUD considered the various comments concerning the fire safety section of the standards, including the specific comments regarding the five alternative proposals for flame spread limitations for interior walls and ceilings. HUD concluded that no information or data was submitted that would justify a significant modification of the proposed standards. However, HUD recognizes that fire is the major cause of personal and property loss in mobile home accidents. Thus, HUD expects that as supporting research data and other information become available, the fire safety requirements of the standard may be revised and upgraded.

The following editorial and detail changes were made in this section of the standards:

1. Section 280.203(a)(1) was amended to limit the amount of total area of trim, certain decorative materials, windows, and certain sizes of doors excluded from the flame spread requirements to no more than 10 per cent of the aggregate wall surface in any room or space or no more than 32 square feet of surface area, whichever is less.

The standard generally used in the industry today does not contain any specific limitation on the amount of excluded material although some enforcement agencies used the above requirements in interpreting the standard. HUD has included this limit to insure that excessive amounts of higher flame spread materials will not be used.

Bookcases, planters, and other similar items are considered furnishings for purposes of this standard even though they might be permanently attached to the mobile home. Thus, they are not covered under the flame spread limitations. Bars located in the kitchen area are considered to be kitchen cabinets and are thus required to comply with § 280.203(a)(4). Accent panels on the living area side of a bar may be excluded from the flame spread requirements but only to the extent provided in § 280.203(a)(1).

2. The flame spread requirements for kitchen cabinets have been modified to indicate that they do not apply if the cabinets are non-combustible (as would be the case with metal cabinets, for example). (280.203(a)(4)). The fire problems HUD found with certain cabinets currently in use in the industry do not occur with metal kitchen cabinets.

3. Section 280.203(a)(5) has been changed to allow a flame spread of up to 50 on surfaces adjacent to the cooking range. This change will allow the use of vinyl surfaces in the cooking range area which, when applied to gypsum wall-board, have a flame spread rating of 30 to 45. Although this is a partial relaxation from the proposed standard, HUD does not believe that the protection spec-

ified in the proposal standard will be compromised. The requirements in the proposed standard were intended to provide containment of any range fire—that is, to reduce the possibility of the fire burning through an adjacent wall and to increase the time before overhead kitchen cabinets might ignite.

The standard continues to require limited combustible materials in this area plus a hood under kitchen cabinets over the range. Thus, the protection intended to be provided in the proposed standard is still required. Making an allowance for vinyl or other surfacing materials may enhance liveability by allowing a manufacturer to use surface materials that can easily be cleaned.

4. A new § 280.207, "Requirements for Foam Plastic Thermal Insulation Materials" has been added as a result of the concerns expressed by the Federal Trade Commission and by some commentators that standard fire tests are not accurate indicators of the performance of the tested materials under actual fire conditions. The FTC considers that plastic foam insulating materials will, under some circumstances, burn with a rapid flame spread, quick flashover, emission of toxic or flammable gases, dense smoke, and intense heat. Thus, these materials may present a serious hazard when exposed to flame or heat.

HUD currently has a special panel of experts studying the question of fire risks and hazards posed by the architectural use of foam plastics. The findings and recommendations of this panel are expected in 4 months. These findings and recommendations should provide guidance for the promulgation of standards for the use of these materials in mobile homes. It is expected that HUD will propose such standards during 1976.

In the meantime, before an assembly incorporating foam plastic insulation within wall cavities may be used by a manufacturer, evidence of the extent of fire risk must be presented to HUD for evaluation in the form of test data including data from full scale room fire testing.

5. Section 280.207(b) limits the flame spread and thickness of plastic foam used as sheathing material applied to the exterior of a mobile home. This material must be separated from the interior of the mobile home by a minimum of 2 inches of mineral wool insulation or its equivalent in fire protective material, which shall be placed in the wall or roof cavity. Establishment of this new requirement was recommended by the Society of the Plastics Industry. Test data has been submitted to HUD that indicates plastic foam sheathing does not present a fire hazard when used in accordance with these requirements.

6. Plastic materials are increasingly being used in mobile homes for finish materials, for plumbing, for sheathing and insulation materials, and for other applications because of their relatively low cost and the flexibility they offer the mobile home designer and manufac-

turer. Certain of these uses of plastics may present a hazard.

A further hazard may be present in mobile homes because a significant amount of mobile home furniture is constructed of plastic materials. While HUD does not have authority over the construction or safety of mobile home furniture, the Department has expressed its concerns about the possibility of such furniture contributing to the fire hazard in mobile homes to the Consumer Product Safety Commission.

HUD is interested in obtaining any relevant research or other information and data relating to the hazard or lack of hazard presented by plastics when used in mobile homes. HUD will conduct research on flammability and other fire characteristics of mobile homes with special consideration of the role played by plastics during the current and subsequent fiscal years.

When sufficient data is available on these characteristics of plastics, HUD will, if necessary, revise the standards to reflect such additional data through the issuance of a Notice of Proposed Rule-making on that subject.

7. Section 280.208(c) has been changed to reference Underwriters Laboratories Standards No. 167 for ionization chamber and 168 for photoelectric type smoke detectors. HUD intends to reference U.L.'s proposed Standard 217 at such time as the standard becomes final and after manufacturers have had their equipment tested and labeled under the new standard.

HUD has received a number of comments from manufacturers of gas detectors urging that such detectors be permitted in § 280.208(c) in lieu of smoke detectors. HUD has studied this issue over a period of years in connection with conventional housing standards. The National Bureau of Standards has also tested gas detectors to determine their efficacy for warning of fires, for the Consumer Product Safety Commission and for HUD.

On the basis of the available data, HUD has determined that gas detectors are not suited for the rapid detection of the fires commonly encountered in residential structures and that they are too sensitive to a variety of gases that might be found in a house (such as aerosol sprays and fumes from paint or glue). Until HUD receives data demonstrating that these operating characteristics are corrected, HUD will only permit detectors that meet the requirements of U.L. Standards 167 and 168.

8. Several heat detector manufacturers and the Fire Equipment Manufacturers Association have requested that the level of fire detection protection in mobile homes be at least equivalent to level 3 of the National Fire Protection Association's Standard for Household Fire Warning Equipment. Level 3 protection recommends the installation of one or more basic smoke detectors plus additional heat or smoke detectors as follows: (a) A basic smoke detector shall

V  
4  
0  
1  
7  
0  
  
S  
E  
P  
2  
  
7  
5  
  
XUM

be installed to protect each separate sleeping area that is adjacent to bedrooms opening on a common hall, (as the Federal mobile home standard requires), and (b) heat or smoke detectors shall be installed in each living room, kitchen, furnace (utility) room, and basement.

Under the Federal mobile home standard promulgated herein, the fire detection requirements are equivalent to level 4 protection under the NFPA Standard for Household Fire Warning Equipment. This level of protection has been shown to be effective in full scale fire tests in mobile homes both with smoldering fires and with fast burning fires. With fast burning fires, the smoke detector was activated within 30 seconds of ignition, while with smoldering fires the smoke detector was activated before there was a dangerous accumulation of smoke and hazardous combustion products.

In addition, HUD's experience with smoke detectors in hallways adjacent to sleeping areas of HUD-owned disaster relief mobile homes (which were not equipped with other fire detection equipment) indicates that this level of fire protection is adequate.

The Federal mobile home standards permit the installation of any additional fire protection equipment that a manufacturer or a customer deems to be desirable above the minimum requirements of the standard. It should also be noted that the standards do not permit the substitution of a heat detector for a smoke detector as the primary fire warning system.

9. HUD has received a comment requesting that dry type fire extinguishing systems be considered as an acceptable substitute for fire protection measures specified in the kitchen range area (HUD standards require low flame spread and limited combustion materials on the walls adjacent to the range and a hood and asbestos layer under cabinets over the range). The cost of such devices when installed was estimated by the commenter to be \$50.

HUD will consider amending the standard to permit the installation of such a system if it can be conclusively demonstrated that the system will provide protection equivalent to or superior to that presently provided by the standard and if adequate testing and inspection procedures of such devices can be developed and implemented.

D. *Body and Frame Construction Requirements.* In the preamble to the proposed standards HUD requested specific comments on two alternative proposals on wind zones: one for a single, nationwide zone; and a second for a two zone system. The standards published herein have essentially adopted the second alternative. Provision is made in the standard, however, for upgrading requirements in areas in the hurricane zone subject to wind loadings in excess of those provided for use in the hurricane zone. Also the design load requirements for tie downs have been upgraded in each of the two zones.

HUD has combined the proposed Zones I and II into a single zone (now designated Zone I) to which the originally proposed Zone I structural requirements will apply for several reasons: Mobile home wind resistance to high winds is to a significant extent dependent upon proper tie down. If a mobile home is properly tied down, the home need not have the capability to resist loads beyond those which are required to maintain structural integrity. If a mobile home is not anchored or is ineffectively anchored, no reasonable amount of structural integrity can prevent the home from being blown off its foundation or overturned.

In the Notice of Proposed Rulemaking, HUD noted that it was reviewing the Act to determine if authority exists for HUD to promulgate installation standards. Since that time, HUD's General Counsel has determined that such authority is not contained in the Act. HUD continues to believe that it would be in the public interest to require the tie-down of new mobile homes in accordance with manufacturers' instructions in at least some areas of the country. Therefore, it is HUD's policy to encourage promulgation of installation and tie-down standards in state and local areas where it can be justified. HUD may develop suggested criteria for such requirements and recommend standards for mobile home tie-down and installation.

HUD is reluctant to set overly stringent requirements for strength and tie-down straps unless it is reasonably assured that a significant number of mobile homes will be tied with adequately strong anchors. On the other hand, HUD wants to ensure that for those who choose, or are required by state or local law, to tie-down a mobile home, that the home and its tie-down straps will perform adequately for wind loadings likely to occur. The requirements set in § 280.305 and § 280.306 are believed to be a reasonable compromise.

Reconsideration by HUD and various comments have shown that a mobile home constructed in conformance with the requirements of these standards will be adequate to prevent serious damage or personal injury in winds expected in any of the non-hurricane zones if the home is tied down in accordance with accepted engineering practice. HUD is upgrading the requirements for tie down straps in Zone I (which now includes the proposed Zone II) so that these straps will be adequate to withstand the maximum expected loading with a safety factor of 50% (§ 280.306).

Within the hurricane zone, the strength requirements of the home are being retained, but the requirement for straps has been upgraded to ensure a 50% safety factor at the highest expected wind loads. The higher strength requirements for straps might be met in any one of several ways, for example: (a) more straps might be used either by using two straps in one location attached to an anchor of appropriate holding power or by using straps at more frequent intervals along the length of the home; or (b)

straps with greater strength might be used (such as straps of stronger alloys, wider straps, or thicker straps) (§ 280.306). Because of the changes in the tie down strap requirements, the table giving the number of ties has been deleted. Engineering calculations will have to show that sufficient ties of sufficient strength have been provided.

HUD recognizes that the level of protection provided by the wind loading requirements in the new Zone II may not be adequate in specific locations where winds in excess of 125 miles per hour are encountered with a frequency of more than once in 50 years. HUD, therefore, will consider well-documented submissions from affected jurisdictions in Zone II requesting classification as special zones subject to requirements in excess of those for the new Zone II, i.e., winds in excess of 125 m.p.h. Such submissions must be based on actual, documented weather data showing the need for increased requirements. If the submission is accepted by HUD, all new homes known to be destined for such areas must meet the higher performance levels. Criteria for the enforcement of the requirements for such zones, and for appropriate consumer information will be set forth in regulations for the enforcement of the standards which will be issued shortly by the Department. (§ 280.305(c)(2)(ii) and 280.305(c)(3)(ii)).

HUD received a number of comments requesting that specific geographical areas be included in zones with more stringent requirements than were proposed. Members of Congress, local elected officials, and others in the Corpus Christi area submitted persuasive evidence that this area should be included in the hurricane zone. This change has been made.

In addition to the comments received on the general subject of wind zones, several other comments on the body and frame requirements were received. The points raised in the comments and their disposition follow:

1. Particular objection was raised concerning the assumption that wind loadings experienced by mobile homes would be the same as the wind loading at 30 feet above the surface of the earth. HUD has consulted with experts in the field and has received confirmation that this assumption is valid given the data available at this time. Unless definitive data to the contrary is made available to HUD, wind load requirements will continue to be determined by measured wind speeds at an altitude of 30 feet.

Little engineering data is available today as to the effects of wind on mobile homes. HUD, therefore, solicits information on the effects of wind on mobile homes, and intends to carry out research and collect data in the following areas: (a) the frequency and speed of high winds occurring in various parts of the country; (b) the effect of other nearby structures (other mobile homes, fences, trees, and so on) on the wind forces applied to a mobile home for a given wind speed at 30 feet above the surface of the earth; (c) the forces which can be with-

stood by the various types of mobile home anchors as a function of their installation in various types of soils; (d) the failure modes of mobile homes and anchors under high winds; (e) new State or local laws or regulations on tie-down requirements for new mobile homes; and, (f) wind loss data available for existing mobile homes.

2. HUD has removed the specific factor for determining roof snow loads by ground snow loadings since the 0.6 factor specified in the proposed standards is not applicable in all instances. Generally, HUD will consider the 0.6 factor to be appropriate for homes exposed to wind, and a factor of 0.8 to be appropriate in sheltered areas.

3. Because present practice is permissive, it was requested that the length of time for the application of design loads for wind and snow be dependent upon the materials of construction being considered. The request was granted and § 280.305(b)(iii) was revised to include such provision provided that the determinations are based on engineering analysis and calculations. Physical testing in lieu of engineering analysis is not acceptable under § 280.305(b)(iii).

4. Numerous comments objected to the requirement, implied in § 280.304, that listing or labelling was necessary to show compliance with the material standards contained in this section. Comments also questioned whether the listed standards were applicable in their entirety, even though parts of the standards may not be relevant to mobile homes. Finally, some comments questioned whether listing or labelling would be sufficient to show compliance with the applicable standards.

5. The wording of this section has been amended so that it is clear that only applicable portions of the standards listed must be met. In addition, the language now allows compliance with the referenced standards to be demonstrated by means other than listing or labelling. However, listing and labelling will generally be accepted as evidence of compliance with the applicable standard unless there is obvious or substantial evidence of non-compliance.

E. *Testing.* This part has been separated from Subpart D on "Body and Frame Construction Requirements," and renumbered Subpart E. Within Subpart E there were a number of editorial revisions resulting from comments requesting clarification. In addition, the following amendments were made to the proposed standard:

1. Rather than requiring both ultimate and proof load tests on structural components, either of these tests will now be accepted for structural components in the various paragraphs of this part. This change was accepted because HUD was convinced that parts of the required tests for determining compliance were redundant.

2. Rather than having a special section on roof truss testing, roof trusses are now considered to be a particular case of the general load testing requirements for all structural components.

(§ 280.402). The requirements themselves are unchanged except as indicated above.

3. The requirements for an uplift test on roof trusses has been qualified to indicate that such tests are required only where the trusses are actually subjected to upward forces because of the design of the roof and roofing membrane and their connection to the rest of the structure of the home.

4. Instead of testing structural components to failure, the ultimate load test now has a stopping point that is defined as 1.5 times the factor of safety for the component times the design load of the component. This change was made because of concern expressed in comments for the safety of personnel engaged in testing to the point of failure.

5. Numerous clarification and changes to the window and glass sliding door section of the proposed standard have been made. The non-editorial changes follow:

a. The part covers only prime windows and sliding glass doors and is not applicable to storm doors or windows.

b. The requirements for plywood and particle board used in window units has been revised. Compliance with standards for plywood and particle board, rather than for the adhesive and preservative materials used in them, is now required.

c. The requirements that annealed glass meet Federal specifications has been deleted. Federal specifications (DD-G-451) do not apply to 18 and 24 oz. glass. (18 oz. glass is generally used in the mobile home industry). The table included in the standard has been revised to permit the use of 18 oz. glass within specified limits.

d. The size of the test window has been specified to be the largest window in a particular design in both length and width separately, rather than in the sum of these two dimensions.

e. The standards will permit compliance with the requirements for window air and water infiltration and structural strength to be demonstrated on a prototype model with certification that production windows are manufactured to the same design using the same materials. This practice is currently permitted in the mobile home and other window certification programs. As a result of questions that have recently been raised concerning the efficacy of such a certification program, HUD will closely monitor the window certification program, and may, in the future, propose amendments to the present certification procedures and requirements should it prove necessary (§ 280.403(c)).

f. In the structural performance test, the internal pressure test was inadvertently omitted from the proposed standards and has now been added (§ 280.403(c)(2)(iii)).

g. Tests for windows have been identified with wind zones for which they are applicable. There also has been a clarification to indicate that screens are not required for windows. (§ 280.403(e)).

h. Certification agencies and manufacturers commented that they cannot certify that each window joint or identification label is permanent. The standards have been revised to accept joints and labels of a permanent type. HUD believes that this modification eliminates the problems raised in the comments (§§ 280.403(f) and 280.403(h)(2)).

i. The scope and purpose of § 280.404, "Egress Windows" have been expanded to include knock-out panels as egress devices along with egress windows. Another change made by HUD was to require operating instructions for egress devices to be labelled to indicate that the instruction labels themselves should not be removed. The Advisory Council recommended such a change. In addition, the labels must provide instructions that shipping clips be removed.

j. All glazing requirements in § 280.405, "Swinging Doors", have been deleted since all glass used in swinging doors must be safety glazed.

F. A new Subpart F on thermal protection has been added (material in this part was previously included in Subpart D). Following are the revisions made to the thermal protection requirements and the disposition of comments received on that subject:

1. The condensation control requirements have been restated to clarify their intent.

2. Ventilation requirements have been relocated from this part to the Part H on Heating, Cooling and Fuel Burning System (§ 280.710).

3. Several comments were received on the air infiltration requirements of the standard. The standards are not being changed at this time. However, HUD recognizes that the improvements in the state of the art in this area may require amendment of the standard as written.

4. A number of comments were received on use of minimum R-values and the overall limits on the heat loss from the mobile home. Some comments suggested that there was no need for the minimum R-values when the total thermal performance of the mobile home was defined by the standard. HUD included both requirements because of the need for total energy conservation as well as for comfort in all parts of the mobile home. Eliminating the minimum R-values could allow a manufacturer to totally eliminate or reduce the amount of insulation provided in particular parts of the mobile home. This could result in cold areas in the home.

G. *Plumbing.* The following changes have been made to this section of the standard from the proposed standards:

1. The prohibition on the use of anti-siphon trap vents has been removed. (§§ 280.602(a)(3) and 280.611(a)). As noted in the Notice of Proposed Rulemaking, anti-siphon trap vents were not permitted because of a lack of standards for such devices. A materials standard for anti-siphon trap vents (which, after review and analysis, HUD considers adequate) was submitted during the comment period. HUD also received many comments from states indicating no ad-

verse experience with anti-siphon trap vents in the field.

2. The requirement for gravity drainage of the plumbing system has been retained for all supply piping and drainage piping. Trap drainage is not required, however.

3. Comments were received recommending safety hand-rails and other devices in bathrooms for the use of the handicapped. HUD has not accepted this recommendation. HUD has decided to defer consideration of this recommendation since the Department is currently conducting research to determine what requirements are necessary or desirable for handicapped persons living in mobile homes. When this research has been completed, HUD will determine its position regarding standards for mobile homes to be used by handicapped persons.

4. A requirement has been added that standpipes for washers have removable, tight-fitting caps or plugs when no washing machine is installed. This is because if no washer is in place, traps on such pipes will be likely to dry out, and may allow sewer gases to enter the home. (§ 280.607(b)(5)).

5. In response to several comments, the cold water shut-off valve on the main feeder line will not have to be provided by the manufacturer since such a device is generally included in the water supply system at the time of installation. However, manufacturers will have to provide instructions making it clear that a cold water shut-off valve is required in the water supply in order for the unit to be properly installed. (§ 280.609(b)(i)).

6. Requirements for relief piping from the hot water heater have been clarified to allow the termination of the pipe to be inside the bottom board so long as the pipe is installed in such a way that it will drain outside the bottom board, and the end of the drain can be visually inspected. The proposed standard had required that this pipe project through the bottom board. (§ 280.609(c)(i)(iii)).

7. The hot water heater relief valve pressure requirement has been raised from 125 psi or the rated pressure of the tank, whichever is lower to 150 psi or the rated pressure of the tank, whichever is lower. This change is in response to a number of comments pointing out that the new requirement of 150 psi is common industry practice and does not result in any loss of safety or durability. (§ 280.609(c)(i)(i)).

H. Heating, Cooling, and Fuel Burning Systems. This Part was renumbered as Part 2527. The revisions made to this renumbered part and the disposition of the comments received are discussed below.

1. Comments were received asking for greater detail in the L.P. gas container requirements. At this time, HUD is not convinced that there is a need for such additional information.

2. HUD has included both minimum and maximum pressure requirements to ensure that the appliances operating on systems using natural gas will operate properly (§ 280.705(a)).

3. The requirement that crossover lines for gas or oil lines in double wide homes

be located within 18 inches of either end has been eliminated because it was considered arbitrary. However, the requirement that such lines be accessible was retained.

4. Some comments indicated that the table of gas pipe sizes was confusing. HUD believes this table is clear without further explanation (§ 280.705(d)).

5. Section 2527.5 calls for an accessible gas shut-off valve for each gas appliance. A comment pointed out that the furnace compartment access doors to some types of furnaces are a part of the furnaces themselves, making it difficult to locate valves outside the furnaces. Locating the valve inside the furnace access panel is now permitted if this does not interfere with servicing or replacing equipment.

6. A comment requested that HUD require that all mobile homes using natural gas, be supplied with a flexible, 6 foot long pipe or hose to be used to connect the home with the gas supply system. HUD has determined that such a connector cannot be used in all installations, and has, therefore, not included this requirement.

7. Several comments from appliance manufacturers suggested a one-year delay in the application of the requirements for energy efficiency ratios and coefficients of performance. Since HUD continues to believe that the need for energy conservation is compelling and since no documentation was given to show a need for such a delay, the effective date remains January 1, 1977. Thus, 16 months lead time to meet this requirement is provided.

8. HUD has added a requirement that a thermal cut-off valve be installed on oil furnaces to cut-off the oil supply to the furnace, the air circulating fan, the burner, and any other pumps and fans. This requirement has been added to ensure that, in the event of a fire in the furnace compartment, the fire will not be fed by continued flow of oil to the furnace nor will the smoke and other combustion products from the furnace be spread throughout the home by the air circulating fan. Two states currently require such a thermal cut-off valve on oil furnaces. Also, the Advisory Council voted to recommend that HUD establish a requirement for cut-off devices where practicable.

9. A requirement that electrical clothes dryer vents not terminate beneath the mobile home has been added (§ 280.708(c)). This change makes the requirements for electrical and gas clothes dryers identical. This change was made because HUD believes that there is no justification for specifying different requirements for dryer vent terminations.

10. HUD has amended the requirements on fireplace dampers so that such dampers may be used on solid fuel fireplaces. However, dampers may not be used on oil, gas, or electric heated fireplaces (§ 280.709(g)(1)(i)). Several comments pointed out that a damper is the only practical way to control solid fuel burning rates in such fireplaces.

I. Electrical Systems. The following changes have been made on the electrical system requirements of the standards:

1. The language of the requirements covering electrical panels has been revised to make clear that circuit breakers may be used in electrical panels if used subject to the same limitations, which apply to fuses.

2. The permissible locations of electrical distribution panels have been limited to accessible places (except bathrooms) to permit ease and safety of maintenance, fuse replacement, or circuit breaker resetting. Electrical distribution panels may not be used in bathrooms in order to minimize shock hazards during maintenance and potential moisture damage. (§ 280.804(f)).

3. A requirement for an electrical receptacle outlet adjacent to the lavatory has been added. This requirement is contained in the National Electric Code and was inadvertently left out of the proposed standard. (§ 280.206(d)(9)).

4. Comments were received indicating that hot water heater elements have burned out because the electric system of a mobile home was energized before the plumbing supply was connected and the water heater filled with water. These comments requested a requirement that would prevent this type of situation. HUD suggests that this problem can best be taken care of by the manufacturer. The switch to the water heater simply could be taped or wired in the off position, with an attached notice that the tape or wire should not be removed until the home has been connected to a water supply system and the water heater has been filled.

5. A requirement for a polarity test in addition to the continuity and other tests of the electrical system has been added in response to several comments suggesting the need for such a test. (§ 280.810(b)(iii)).

6. On August 7, 1975, the Consumer Product Safety Commission (CPSC), after an intensive inquiry into the safety of aluminum wiring, announced its finding that the use of number 10 AWG size and smaller aluminum wiring and the termination devices used with such wiring (hereafter referred to as "currently available aluminum wiring systems") present an unreasonable risk of injury to occupants of housing in which such systems are installed. Section 604 of Title VI (42 U.S.C. 5403) requires that HUD consult with the CPSC prior to promulgation of the Federal mobile home standards. Pursuant to this requirement, HUD staff met with technical and legal staff members of the CPSC to discuss the Commission's findings and the possible implications of those findings on mobile homes.

At the meeting, the technical staff expressed its view that on the basis of data available to the CPSC, HUD should not permit the use of currently available aluminum wiring systems in mobile homes. The staff cautioned HUD that its views did not necessarily represent those of the Commission.

On August 13, 1975, the Department formally requested the advice of the CPSC on whether aluminum wiring

should be permitted in mobile homes constructed under the Federal mobile home standards.

In an August 15, 1975, letter the Commission responded to the Department's request and explained its findings in greater detail. The Commission indicated that certain sizes of aluminum wiring and/or termination devices used with them which are currently in use presented an unreasonable risk of injury. The Commission noted, however, that currently available aluminum wiring systems had not been banned for future use because the Commission had been unable to make the finding required under Section 8 of the Consumer Product Safety Act (15 U.S.C. 2057) that no feasible standard which would adequately protect the public from the unreasonable risk presented by the product could be developed. The Commission also noted that:

The Commission's data would appear to substantiate a conclusion that the hazard presented by the use of aluminum wire in mobile homes is greater than in buildings of conventional construction.

Under the National Mobile Home Construction and Safety Standards Act, HUD has a broad mandate to assure adequate safety in mobile homes. Moreover, Title VI, unlike the CPSA, does not require that a finding be made that no acceptable standard exists or can be developed for a hazardous product or system in order to restrict or ban the use of such product or system in the manufacture of mobile homes. HUD, on the basis of the CPSC finding that currently available aluminum wiring systems used to carry electrical current present an "unreasonable risk of injury," has determined that the use of such systems shall be prohibited in mobile homes constructed in accordance with the Federal mobile home standards unless HUD has fully reviewed (in advance of its use) the system and its application and has concluded that the system will not constitute a safety hazard under any likely circumstance.

Since HUD is not satisfied that any generally acceptable standards for aluminum wiring materials or applications are available today, HUD can provide little specific guidance to manufacturers who want to use aluminum wiring. However, HUD will review and consider proposals to use aluminum wiring systems that a manufacturer believes do not present the hazards cited by the CPSC. In particular, HUD will consider, for example, systems with in-line crimped "pigtail" connectors of copper or using copper-clad aluminum conductors with appropriate receptacles. Such proposals will have to show not only the inherent safety of the materials and system to be used, but will also have to show that the level of quality assurance and control will be sufficient to ensure that the wiring will be properly installed, and that problems will not arise with the wiring system due to maintenance or alteration work.

The decision not to permit the use of currently available aluminum wiring systems should have little impact on the industry because HUD has been informed that few, if any, of the manufacturer members of the three major mobile home manufacturers trade associations (representing about 90 percent of all U.S. production of mobile homes) are presently using aluminum wiring. However, HUD has been informed that a small number of manufacturers are using copper clad aluminum wiring, which as noted above may be found acceptable in the future if adequate supporting data can be presented demonstrating that problems will not arise with the wiring system.

J. Transportation. The following significant changes were made in the transportation section of the standard:

K. Compliance with the requirements for transportation damage resistance in this section can now be shown by actual transportation experience, as opposed to engineering analysis, at the option of the manufacturer. (§ 280.903(c)). This change was requested in comments submitted by the California Highway Patrol (which is working on a research program on the transportability of mobile homes) and by several manufacturers.

2. A definition of "length" for purposes of transportation, has been included in this section. This definition includes the drawbar and coupling. Generally, a similar definition appears in other regulations relating to the transportation of mobile homes. It should be noted that this definition is different from the definition for the "length of a mobile home" contained in Subpart A, which does not include the drawbar and coupling or other appurtenances. (§ 280.902(h)).

3. The requirement that tires and rims on mobile homes conform to the requirements of Federal Motor Vehicle Safety Standard 120 has been deleted. The effective date of standard 120 has been delayed by the National Highway Traffic Safety Administration. When standard 120 does become effective, mobile home tires and rims will be subject to its requirements, regardless of its omission from these mobile home standards, therefore, no specific reference to the tire and rim standards is necessary.

#### APPLICABILITY OF THE STANDARDS

The initial Federal mobile home construction and safety standards shall be applicable to all mobile homes meeting the definitions contained in §§ 280.1(a)(16) as modified by 280.2(a)(13) on or after June 15, 1976. This date has been selected rather than the earlier date set forth in the Preamble to the proposed standards because HUD, after consulting with state and private enforcement agencies, and with manufacturers, determined that additional time was necessary in order to assure that adequate enforcement of the standard pursuant to Title VI could be provided. Also, this later date will, in HUD's judgment, provide manufacturers with ample lead time

to meet the new requirements in the standards. HUD has also determined that by providing a reasonable phase-in period for the Title VI Program, rather than a compressed time period, which might result in standards being promulgated without reasonable assurance of effective enforcement and compliance, the public interest is served and consumers provided with protection under Title VI at the earliest reasonable date. The June 15 date is within the period provided by the Act to make the standards effective. (The Act provides that the standards become effective not less than 180 days and not later than one year after issuance.)

#### FUTURE AMENDMENTS TO THE STANDARD

HUD believes that the proportion of mobile and other manufactured housing in the total housing inventory will continue to increase. HUD also expects that future innovation in design, materials, construction methods, equipment components, subsystems, and also new methods of testing and evaluation may make some aspects of the initial Federal mobile home standards obsolete or inadequate.

Recognizing these factors, HUD expects and plans that the standards will evolve in an orderly fashion to meet changing needs and conditions, as have voluntary and state standards in the past.

The Office of Mobile Home Standards will have an engineering staff to work on amendments to the standards and to propose and utilize research to support such amendments.

HUD invites comment or other communication at any time from any member of the public or any organization regarding the Federal mobile home standards and possible amendments to those standards. To the extent feasible, suggestions or recommendations for amendment will be considered and evaluated on the basis of any supporting information submitted.

In consideration of the comments received and pursuant to the authority contained in Sections 604 and 625 of the National Mobile Home Construction and Safety Standards Act of 1974 (42 U.S.C. 5403 and 5425) 88 Stat. 701 and 714, 24 CFR is amended as follows, effective March 15, 1976.

Issued at Washington, D.C., on August 22, 1975.

DAVID S. COOK,  
Assistant Secretary-Commissioner for Housing Production and Mortgage Credit.

Introduction. The following regulations are in substantial measure based on the Standard for Mobile Homes NFPA 501B-1974/ANSI A119.1-1975 and particularly on sections B, C, D, and E of that standard. In addition, parts of these regulations are derived from state standards, enforcing agency standards, interpretation manuals and trade association standards.

Subpart A—General		Sec.	
280.1	Scope.	280.703	Minimum standards.
280.2	Definitions.	280.704	Fuel supply systems.
280.3	Acceptance of plans.	280.705	Gas piping systems.
280.4	Incorporation by reference.	280.706	Oil piping systems.
280.5	Data plate.	280.707	Heat producing appliances.
280.6	Serial number.	280.708	Clothes dryers.
		280.709	Installation of appliances.
		280.710	Ventilating, ventilation and combustion air.
Subpart B—Planning Considerations		280.711	Instructions.
280.101	Scope.	280.712	Marking.
280.102	Definitions.	280.713	Accessibility.
280.103	Light and ventilation.	280.714	Appliances, cooling.
280.104	Ceiling heights.	280.715	Circulating air systems.
280.105	Exit facilities; exterior doors.		
280.106	Exit facilities; egress windows.		
280.107	Interior privacy.		
280.108	Interior passage.		
280.109	Space planning.		
280.110	Room requirements.		
280.111	Minimum room dimensions.		
280.112	Toilet compartments.		
280.113	Hallways.		
280.114	Glass and glazed openings.		
Subpart C—Fire Safety			
280.201	Scope.		
280.202	Definitions.		
280.203	Flame spread limitations and combustibility.		
280.204	Kitchen cabinet protection.		
280.205	Carpeting.		
280.206	Firestopping.		
280.207	Foam plastic insulation.		
280.208	Fire detection equipment.		
Subpart D—Body and Frame Construction Requirements			
280.301	Scope.		
280.302	Definitions.		
280.303	General requirements.		
280.304	Materials.		
280.305	Structural design requirements.		
280.306	Windstorm protection.		
280.307	Resistance to elements and use.		
280.308	Condensation control.		
Subpart E—Testing			
280.401	Structural load tests.		
280.402	Test procedures for roof trusses.		
280.403	Criteria for windows.		
280.404	Criteria for egress windows.		
280.405	Criteria for exterior passage doors.		
Subpart F—Thermal Protection			
280.501	Scope.		
280.502	Definitions.		
280.503	Materials.		
280.504	Condensation control (Vapor barriers).		
280.505	Air infiltration.		
280.506	Heat loss.		
280.507	Comfort heat gain.		
280.508	Heat loss, heat gain and cooling load calculations.		
280.509	Criteria in absence of specific criteria.		
280.510	Heat loss certificate.		
280.511	Comfort cooling certificate and information.		
Subpart G—Plumbing Systems			
280.601	Scope.		
280.602	Definitions.		
280.603	General requirements.		
280.604	Materials.		
280.605	Joints and connections.		
280.606	Traps and cleanouts.		
280.607	Plumbing fixtures.		
280.608	Hangers and supports.		
280.609	Water distribution systems.		
280.610	Drainage systems.		
280.611	Vents and venting.		
280.612	Tests and inspection.		
Subpart H—Heating, Cooling and Fuel Burning Systems			
280.701	Scope.		
280.702	Definitions.		

(1) "Approved," when used in connection with any material, appliance or construction, means complying with the requirements of the Department of Housing and Urban Development.

(2) "Center" means the midline between the right and left side of a mobile home.

(3) "Certified." See "Listed."

(4) "Combustible Material" means materials made of, or surfaced with, wood, compressed paper, plant fibers, or other material that will ignite and burn. Such materials shall be considered as combustible even though flameproofed, fire-retardant treated, or plastered.

(5) "Defect" includes any defect in the performance, construction, components, or material of a mobile home that renders the home or any part thereof not fit for the ordinary use for which it was intended.

(6) "Department" means the Department of Housing and Urban Development.

(7) "Dwelling Unit" means one or more habitable rooms which are designed to be occupied by one family with facilities for living, sleeping, cooking and eating.

(8) "Equipment" includes materials, appliances, devices, fixtures, fittings or accessories both in the construction of, and in the fire safety, plumbing, heat-producing and electrical systems of mobile homes.

(9) "Federal mobile home construction and safety standard" means a reasonable standard for the construction, design, and performance of a mobile home which meets the needs of the public including the need for quality, durability, and safety.

(10) "Imminent safety hazard" means a hazard that presents an imminent and unreasonable risk of death or severe personal injury.

(11) "Installations" means all arrangements and methods of construction, as well as fire safety, plumbing, heat-producing and electrical systems used in mobile homes.

(12) "Labeled" means a label, symbol or other identifying mark of a nationally recognized testing laboratory, inspection agency, or other organization concerned with product evaluation that maintains periodic inspection of production of labeled equipment or materials, and by whose labeling is indicated compliance with nationally recognized standards or tests to determine suitable usage in a specified manner.

(13) "Length of a Mobile Home" means the distance from the exterior of the front wall (nearest to the drawbar and coupling mechanism) to the exterior of the rear wall (at the opposite end of the home) where such walls enclose living or other interior space and such distance includes expandable rooms but not bay windows, porches, drawbars, couplings, hitches, wall and roof extensions, or other attachments.

(14) "Listed or Certified" means included in a list published by a nationally recognized testing laboratory, inspection agency, or other organization concerned with product evaluation that maintains

periodic inspection of production of listed equipment or materials, and whose listing states either that the equipment or material meets nationally recognized standards or has been tested and found suitable for use in a specified manner.

(15) "Manufacturer" means any person engaged in manufacturing or assembling mobile homes, including any person engaged in importing mobile homes for resale.

(16) "Mobile Home" means a structure, transportable in one or more sections, which is eight body feet or more in width and is thirty-two body feet or more in length, and which is built on a permanent chassis, and designed to be used as a dwelling with or without permanent foundation, when connected to the required utilities, and includes the plumbing, heating, air-conditioning, and electrical systems contained therein.

(17) "Mobile Home Construction" means all activities relating to the assembly and manufacture of a mobile home including, but not limited to, those relating to durability, quality and safety.

(18) "Mobile Home Safety" means the performance of a mobile home in such a manner that the public is protected against any unreasonable risk of the occurrence of accidents due to the design or construction of such mobile home, or any unreasonable risk of death or injury to the user or to the public if such accidents do occur.

(19) "Registered Engineer or Architect" means a person licensed to practice engineering or architecture in a state and subject to all laws and limitations imposed by the state's Board of Engineering and Architecture Examiners and who is engaged in the professional practice of rendering service or creative work requiring education, training and experience in engineering sciences and the application of special knowledge of the mathematical, physical and engineering sciences in such professional or creative work as consultation, investigation, evaluation, planning or design and supervision of construction for the purpose of securing compliance with specifications and design for any such work.

(20) "Secretary" means the Secretary of Housing and Urban Development, or an official of the Department delegated the authority of the Secretary with respect to Title VI of Public Law 93-383.

(21) "State" includes each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, the Canal Zone, and American Samoa.

(22) "Width of a Mobile Home" means the distance from the exterior of one side wall to the exterior of the opposite side wall where such walls enclose living or other interior space and such distance includes expandable rooms but not bay windows, porches, wall and roof extensions, or other attachments.

(23) "Acceptance of plans." (a) Each manufacturer of mobile homes shall submit the building plans for every model of such mobile home to the Secretary, or Secretary's designee,

for the purpose of inspection for conformance to this standard.

(b) The manufacturer shall certify that each such building plan meets the Federal construction and safety standard in force at that time before the mobile home involved is produced.

(c) Regulations pertaining to enforcement of these standards and to labeling of mobile homes shall be as prescribed by the Secretary.

#### § 280.4 Incorporation by reference.

(a) The specifications, standards and codes of agencies of the U.S. Government, to the extent they are incorporated by reference in this standard, have the same force and effect as this standard. Wherever reference standards and this standard are inconsistent, the requirements of this standard prevail to the extent of the inconsistency.

(b) The abbreviations and sources of these referenced standards, specifications and codes appear below:

AA—The Aluminum Association, 750 Third Avenue, New York, N.Y. 10017.

ABPA—Acoustical and Board Products Association, 205 West Touhy Avenue, Chicago, Illinois 60668.

AGA—American Gas Association Laboratories, 8501 East Pleasant Valley Road, Cleveland, Ohio 44131.

AISC—American Institute of Steel Construction, 1221 Avenue of the Americas, New York, New York 10020.

AISI—American Iron and Steel Institute, 1000 16th Street, N.W., Washington, D.C. 20036.

AITC—American Institute of Timber Construction, 333 W. Hampden Avenue, Englewood, Colorado 80110.

ANSI—American National Standards Institute, 1430 Broadway, New York, New York 10017.

APA—American Plywood Association, 1119 A Street, Tacoma, Wash. 98401.

ASHRAE—American Society of Heating Refrigeration and Air-conditioning Engineers, 345 East 47th Street, New York, New York 10017.

ASME—American Society of Mechanical Engineers, 345 East 47th Street, New York, New York 10017.

ASTM—American Society for Testing and Materials, 1916 Race Street, Philadelphia, Pennsylvania 19103.

CMI—Cultured Marble Institute, 230 North Michigan Avenue, Chicago, Illinois 60601.

CS—Commercial Standards—Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

DOC—Department of Commerce, Washington, D.C. 20230.

DOT—Department of Transportation, Washington, D.C. 20590.

FHDA—Fir and Hemlock Door Association, Yeon Building, Portland, Oregon 97204.

FS—Federal Specification—Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

GAL—Gas Appliance Laboratory, 3138 East Olympic Boulevard, Los Angeles, California 90023.

HPMA—Hardwood Plywood Manufacturers Association, P.O. Box 6246, Arlington, Virginia 22206.

HVI—Home Ventilating Institute, 230 North Michigan Avenue, Chicago, Illinois 60601.

IAPMO—International Association of Plumbing and Mechanical Officials, 5032 Alhambra Avenue, Los Angeles, California 90032.

I-SANTA—Industrial Staple and Nail Technical Association, P.O. Box 3072, City of Industry, California 91744.

NFPA—National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts.

(N)FPA—National Forest Products Association (formerly National Lumber Manufacturers Association), 1619 Massachusetts Ave., Wash., D.C. 20036.

NPA—National Particleboard Association, 2306 Perkins Place, Silver Spring, Maryland 20910.

NSF—National Sanitation Foundation, 3475 Plymouth Road, Ann Arbor, Michigan 48105.

NWMA—National Woodwork Manufacturers Association, 400 West Madison Street, Chicago, Illinois 60606.

PS—Product Standard—Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

SJI—Steel Joist Institute, 2001 Jefferson Davis Highway, Arlington, Virginia 22202.

TPI—Truss Plate Institute, Suite 200, 7100 Baltimore Avenue, College Park, Maryland 20740.

UL—Underwriters' Laboratories, Inc., 207 East Ohio Street, Chicago, Illinois 60611.

#### § 280.5 Data plate.

(a) Each mobile home shall bear a data plate affixed in a permanent manner near the main electrical panel or other readily accessible and visible location. Data plates shall bear not less than the following information:

(1) The manufacturer's name and address.

(2) The serial number and the model number of the unit and date the unit was manufactured.

(3) The statement, "The mobile home is designed to comply with the Federal mobile home construction and safety standard in force at the time of manufacture."

(4) Factory installed equipment, the manufacturer's name and the model designation of major factory-installed appliances.

(5) Reference to the structural zone and wind zone for which the home is designed and duplicates of the maps as set forth in § 280.305(c) (4). This information may be combined with the heating/cooling certificate and insulation zone maps required by §§ 280.510 and 280.511.

#### § 280.6 Serial number.

(a) A mobile home serial number which will identify the manufacturer and the state in which the mobile home is manufactured, must be stamped into the foremost cross member. Letters and numbers must be 1/2 inch minimum in height. Numbers must not be stamped into hitch assembly or drawbar.

#### Subpart B—Planning Considerations

##### § 280.101 Scope.

Subpart B states the planning requirements in mobile homes. The intent of this subpart is to assure the adequacy of architectural planning considerations which assist in determining a safe and healthful environment.

##### § 280.102 Definitions.

(a) "Gross Floor Area" means all space, wall to wall, including recessed entries (see § 280.111) and areas under built-in vanities and similar furniture. Where the ceiling height is less than that specified in § 280.104, the floor area

V

P  
2  
7  
5  
XUM

under such ceilings shall not be included. Floor area of closets shall not be included in the gross floor area.

(b) "Habitable Room" means a room or enclosed floor space arranged for living, eating, food preparation, or sleeping purposes not including bathrooms, foyers, hallways, and other accessory floor space.

(c) "Laundry Area" means an area containing or designed to contain a laundry tray, clothes washer and or clothes dryer.

#### § 280.103 Light and ventilation.

Provisions shall be made for adequate light and ventilation in accordance with the following:

(a) Each habitable room shall be provided with exterior windows and/or doors having a total glazed area of not less than 8 percent of the gross floor area. An area equivalent to not less than 4 percent of the gross floor area shall be available for unobstructed ventilation. Glazed areas need not be openable where a mechanical ventilation system is provided and is capable of producing a change of air in the room(s) every 30 minutes with not less than one-fifth of the air supply taken from outside the mobile home. Windows and doors used for light or ventilation shall open directly to the outside of the home.

(b) In lieu of the requirements in § 280.103.3(a), kitchens may be provided with artificial light and mechanical ventilation capable of producing a change of air in the room every 30 minutes. (See § 280.710).

(c) Bathroom and toilet compartments. Each bathroom and toilet compartment shall be provided with artificial light and, in addition, be provided with external windows or doors having not less than 1½ sq. ft. of fully openable glazed area, except where a mechanical ventilation system is provided capable of producing a change of air every 12 minutes. Any mechanical ventilation system shall exhaust directly to the outside of the mobile home.

#### § 280.104 Ceiling heights.

(a) Every habitable room and bathroom shall have a minimum ceiling height of not less than 7 feet, 0 inches for a minimum of 50 percent of the room's floor area. The remaining area may have a ceiling with a minimum height of 5 feet, 0 inches. Minimum height under dropped ducts, beams, etc., shall be 6 feet, 4 inches.

(b) Hallways and foyers shall have a minimum ceiling height of 6 feet, 6 inches.

#### § 280.105 Exit facilities; exterior doors.

(a) Number and location of exterior doors. Mobile homes shall have a minimum of two exterior doors located remote from each other.

(1) Required egress doors shall not be located in rooms where a lockable interior door must be used in order to exit.

(2) In order for exit doors to be considered "remote" from each other, they must comply with all of the following:

(A) Both of the required doors must not

be in the same room or in a group of rooms which are not defined by fixed walls. (ii) Single wide units. Doors may not be less than 12 ft. c-c from each other as measured in any straight line direction regardless of the length of path of travel between doors. (iii) Double wide units. Doors may not be less than 20 ft. c-c from each other as measured in any straight line direction regardless of the length of path of travel between doors. (iv) One of the required exit doors must be accessible from the doorway of each bedroom without traveling more than 35 ft.

(b) Door design and construction. (1) Exterior swinging doors shall be constructed in accordance with § 280.405 the "Standard for Swinging Exterior Passage Doors for Use in Mobile Homes". Exterior sliding glass doors shall be constructed in accordance with § 280.403 the "Standard for Windows and Sliding Glass Doors Used in Mobile Homes".

(2) All exterior swinging doors shall provide a minimum 28 inch wide by 74 inch high clear opening.

(3) Each swinging exterior door other than screen or storm doors shall have a key-operated lock that has a deadlocking latch or a key-operated dead bolt with a passage latch. Locks shall not require the use of a key for operation from the inside.

(4) All exterior doors, including storm and screen doors, opening outward shall be provided with a safety door check.

#### § 280.106 Exit facilities; egress windows.

(a) Every room designed expressly for sleeping purposes, unless it has an exit door (See § 280.105), shall have at least one outside window which meets the requirements of § 280.404 the "Standard for Egress Windows for Use in Mobile Homes".

(b) The bottom of the window opening shall not be more than 36 inches above the floor.

(c) Locks, latches, operating handles, tabs and any other window, screen or storm window devices which need to be operated in order to permit exiting shall not be located in excess of 60 inches from the finished floor.

#### § 280.107 Interior privacy.

Bathroom and toilet compartment doors shall be equipped with a privacy lock.

#### § 280.108 Interior passage.

(a) Interior doors having passage hardware without a privacy lock, or with a privacy lock not engaged, shall open from either side by a single movement of the hardware mechanism in any direction.

(b) Each mobile home interior door, when provided with a privacy lock, shall have a privacy lock that has an emergency release on the outside to permit entry when the lock has been locked by a locking knob, lever, button, or other locking device on the inside.

#### § 280.109 Space planning.

The dimensions set forth in §§ 280.110 through 280.113 are intended to assure that space and a functional arrangement

of this space are provided to accommodate the normal activities of living in the mobile home.

#### § 280.110 Room requirements.

(a) Every mobile home shall have at least one living area with not less than 150 sq. ft. of gross floor area.

(b) Rooms designed for sleeping purposes shall have a minimum gross square foot floor area as follows:

(1) All bedrooms shall have at least 50 sq. ft. of floor area.

(2) Bedrooms designed for two or more people shall have 70 sq. ft. of floor area plus 50 sq. ft. for each person in excess of two.

(c) Every room designed for sleeping purposes shall have accessible clothes hanging space with a minimum inside depth of 22 inches and shall be equipped with a rod and shelf.

#### § 280.111 Minimum room dimension.

No area in a habitable room, except a kitchen, shall have less than 5 feet in any clear horizontal dimension and be counted in the required gross floor area.

#### § 280.112 Toilet compartments.

Each toilet compartment shall be a minimum of 30 inches in width, except, when the toilet is located adjacent to the short dimension of the tub, the distance from the tub to the center line of the toilet shall not be less than 12 inches. At least 21 inches of clear space shall be provided in front of each toilet.

#### § 280.113 Hallways.

Hallways shall have a minimum horizontal dimension of 28 inches measured from the interior finished surface to the interior finished surface of the opposite wall. When appliances are installed in a laundry area, the measurement shall be from the front of the appliance to the opposite finished interior surface. When appliances are not installed and a laundry area is provided, the area shall have a minimum clear depth of 27 inches in addition to the 28 inches required for passage. In addition, a notice of the available clearance for washer/dryer units shall be posted in the laundry area. Minor protrusions into the minimum hallway width by doorknobs, trim, smoke detectors or light fixtures are permitted.

#### § 280.114 Glass and glazed openings.

(a) Windows and sliding glass doors. All windows and sliding glass doors shall meet the requirements of § 280.403 the "Standard for Windows and Sliding Glass Doors Used in Mobile Homes".

(b) Safety glazing. Glazing in all entrance or exit doors, sliding glass door units (fixed or moving sections), unframed glass doors, unbacked mirrored wardrobe doors (i.e. mirrors not secured to a backing capable of being the door itself), shower and bathtub enclosures and surrounds to a height of 6 feet above the shower or tub floor, storm doors or combination doors, and in panels located within 12 inches on either side of exit or entrance doors shall be of a safety glazing material. Safety glazing material is considered to be any glazing material

capable of passing the requirements of ANSI Z97.1-72.

#### Subpart C—Fire Safety

##### § 280.201 Scope.

The purpose of Subpart C of this standard is to specify measures which will provide a reasonable degree of safety from fire for the occupants. It is the intent of this Part that mobile homes shall be constructed so as to reduce fire hazards and provide detection of a fire for safe egress.

##### § 280.202 Definitions.

(a) The following definitions are applicable to Subpart C only:

(1) "Flame Spread" means the propagation of flame over a surface.

(2) "Smoke Detector" means wall mounted detector of the ionization chamber or photoelectric type which detects visible or invisible particles of combustion and operates from the 120 V AC source of electrical power supply.

(3) "Single Station Alarm Device" means an assembly incorporating the smoke detector sensor, the electrical control equipment requirement, and the alarm-sounding device in one unit.

##### § 280.203 Flame spread limitations and combustibility.

(a) Flame spread limitations. The surface flame spread rating of interior finish materials shall not exceed the following when tested by Standard Method of Test for Surface Burning Characteristics of Building Materials, ASTM E84. The surface flame spread rating of interior finish materials required by § 280.203(a) (4) and (6) may be established using the Surface Flammability of Materials Using a Radiant Heat Energy Source, ASTM E162. Testing shall be by laboratories acceptable to the Secretary.

(1) The interior finish of all walls and partitions shall not have a flame spread rating exceeding 200 except as otherwise specified herein. The flame spread limitation shall not apply to: molding, trim, windows, doors or series of doors not exceeding 4 feet in width, and permanently attached decorative items such as pictures or accent panels constituting not more than 10 percent of the aggregate wall surface in any room or space nor more than 32 square feet in surface area whichever is less.

(2) All ceiling interior finish shall not have a flame spread rating exceeding 200, excluding molding and trim 2 inches or less in width.

(3) Furnace and water heater spaces shall be enclosed by walls, ceiling and doors having an interior finish with a flame spread rating not exceeding 25.

(4) Combustible kitchen cabinet doors, countertops, exposed bottoms and end panels shall not exceed a flame spread rating of 200. Cabinet rails, stiles, mullions and toe strips are exempted.

(5) Exposed interior finishes adjacent to the cooking range shall not have a flame spread rating exceeding 50. Adjacent surfaces are the exposed vertical surfaces between the range top height and the overhead cabinets and/or ceiling

and within 6 horizontal inches of the cooking range.

(6) Finish surfaces of plastic bath tubs, shower units and tub or shower doors shall not exceed a flame spread rating of 200.

(b) Combustibility. The interior walls and ceiling encasing furnace and water heater enclosures (including doors) and the exposed wall adjacent to the cooking range as defined in § 280.203(a) (5) shall be surfaces with ½ inch gypsum board or material having equivalent fire protective properties. At furnace and water heater spaces all openings for pipes and vents shall be tight-fitted or firestopped.

##### § 280.204 Kitchen cabinet protection.

(a) The bottom and sides of combustible kitchen cabinets over cooking ranges including a space of 6 inches from the side of the cooking range shall be protected with at least ¼ inch thick asbestos millboard covered with not less than 26 gage sheet metal (.017 stainless steel, .024 aluminum, or .020 copper) or equivalent protection. The protective metal over the range shall form a hood with not less than a 3 inch eyebrow (measuring horizontally from face of cabinet). The hood shall be centered over and at least as wide as the cooking range.

##### § 280.205 Carpeting.

(a) Carpeting shall not be used under a fuel-fired furnace or water heater.

##### § 280.206 Firestopping.

(a) Firestopping shall be provided to cut off all concealed draft openings in all stud walls and partitions, including furred spaces, so placed that the maximum vertical dimension of any concealed space is not over eight feet.

##### § 280.207 Requirements for foam plastic thermal insulating materials.

(a) General. Foam plastic thermal insulating materials shall not be used within the cavity of walls or ceiling or exposed to the interior of the mobile home, unless otherwise specifically approved by HUD, based on accepted tests including full scale room fire testing.

(b) Specific requirements. Foam plastic having a flame spread rating of 75 or less may be used as siding backer board or sheathing with a maximum of ¾ inch thickness when separated from the interior of the mobile home by a minimum of 2-inches of mineral insulation or equivalent fire protective material.

##### § 280.208 Mobile home fire detection equipment.

(a) General. At least one smoke detector (which may be a single-station alarm device) shall be installed in each mobile home to protect each separate bedroom area.

(b) Smoke detector location. A smoke detector shall be installed in the hallway or space communicating with the bedroom area. The specific location shall be in the hallway between the living area and the first bedroom door. Mobile homes having bedrooms separated by any one

or combination of common use areas such as kitchen, dining room, living room, or family room (but not a bathroom or utility room), shall have at least two smoke detectors, one detector protecting each bedroom area.

(c) Smoke detectors. Smoke detectors shall be either the ionization chamber or the photoelectric wall mounted type and shall comply with all the requirements of Underwriters' Laboratories Standard No. 167 for ionization and 168 for photoelectric type detectors. Detectors shall bear the label of a testing and approval laboratory that indicates the smoke detectors have been tested and approved under the requirements of UL 167 or 168. The testing and approved laboratory shall be one which maintains a periodic follow-up service of the labeled devices to ensure compliance with the original approval.

(d) Installation. Smoke detectors shall be installed on an interior wall of the mobile home. The top of the detector shall be 5- to 7-inches from the ceiling. The detector mounting shall be permanently attached to an electrical outlet box and the detector wired into a general electrical circuit. There shall be no switches in the circuit to the detector other than the overcurrent protective device protecting the branch circuit.

#### Subpart D—Body and Frame Construction Requirements

##### § 280.301 Scope.

This Subpart covers the minimum requirements for materials, products, equipment and workmanship needed to assure that the mobile home will provide (a) structural strength and rigidity, (b) protection against corrosion, decay, insects and other similar destructive forces, (c) protection against hazards of windstorm, (d) resistance to the elements, and (e) durability and economy of maintenance.

##### § 280.302 Definitions.

(a) The following definitions are applicable to Subpart D only:

(1) "Anchoring Equipment" means straps, cables, turnbuckles, and chains, including tensioning devices, which are used with ties to secure a mobile home to ground anchors.

(2) "Anchoring System" means a combination of ties, anchoring equipment, and ground anchors that will, when properly designed and installed, resist overturning and lateral movement of the mobile home from wind forces.

(3) "Tie" means strap, cable, or securing device used to connect the mobile home to ground anchors.

(4) "Diagonal Tie" means a tie intended to resist horizontal forces.

(5) "Vertical Tie" means a tie intended to resist the uplifting or overturning forces.

(6) "Footings" means that portion of the support system that transmits loads directly to the soil.

(7) "Ground Anchor" means any device at the mobile home stand designed to transfer mobile home anchoring loads to the ground.

(8) "Hurricane Resistant Mobile Home" means a mobile home which meets the wind design load requirements for Zone II in § 2523.5(c) (2).

(9) "Interior Finish" means the surface material of walls, fixed or movable partitions, ceilings and other exposed interior surfaces affixed to the mobile home structure including any material such as paint or wallpaper and the substrate to which they are applied. Interior finish does not include windows and doors or their frames, skylights, trim, moldings, decorations or furnishings which are not affixed to the mobile home structure.

(10) "Loads" (i) "Dead Loads" means the weight of all permanent construction including walls, floors, roof, partition, and fixed service equipment. (ii) "Live Load" means the weight superimposed by the use and occupancy of the mobile home, including wind load and snow load, but not including dead load. (iii) "Wind Load" means the lateral or vertical pressure or uplift on the mobile home due to wind blowing in any direction.

(11) "Main Frame" means the structural component on which is mounted the body of the mobile home.

(12) "Pier" means that portion of the support system between the footing and the mobile home exclusive of caps and shims.

(13) "Sheathing" means material which is applied on the exterior side of a building frame under the exterior weather resistant covering.

(14) "Stabilizing Devices" means all components of the anchoring and support systems such as piers, footings, ties, anchoring equipment, ground anchors, and any other equipment which supports the mobile home and secures it to the ground.

(15) "Support System" means a combination of footings, piers, caps, and shims that will, when properly installed, support the mobile home.

#### § 280.303 General requirements.

(a) **Minimum requirements.** The design and construction of a mobile home shall conform with the provisions of this standard. Requirements for any size, weight, or quality of material modified by the terms of "minimum," "not less than," "at least," and similar expressions are minimum standards. The manufacturer or installer may exceed these standards provided such deviation does not result in any inferior installation or defeat the purpose and intent of this standard.

(b) **Construction.** All construction methods shall be in conformance with accepted engineering practices to insure durable, livable, and safe housing and shall demonstrate acceptable workmanship reflecting journeyman quality of work of the various trades.

(c) **Structural analysis.** The strength and rigidity of the component parts and/or the integrated structure shall be determined by engineering analysis or by suitable load tests to simulate the actual loads and conditions of application that occur. (See Subparts E and J.)

(d) **Hurricane resistive design.** Only mobile homes which meet the applicable requirements of § 280.305(c) may be designated "Designed for Hurricane Zone." No similar designation which would imply hurricane resistance shall be used when the mobile home does not meet these requirements.

(e) **New materials and methods.** (1) Any new material or method of construction not provided for in this standard and any material or method of questioned suitability proposed for use in the manufacture of the structure shall nevertheless conform in performance to the requirements of this standard.

(2) Unless based on accepted engineering design for the use indicated, all new mobile home materials, equipment, systems or methods of construction not provided for in this standard shall be subjected to the tests specified in paragraph (g) of this section. All testing shall be done by a recognized independent testing agency.

(f) **Allowable design stress.** The design stresses of all materials shall conform to accepted engineering practice. The use of materials not identified as to strength or stress grade shall be limited to the minimum allowable stresses under accepted engineering practice.

(g) **Alternate test procedures.** In the absence of listed and prescribed standards, the manufacturer shall develop or cause to be developed necessary tests to demonstrate the structural properties

and the significant characteristics of the method employed. Such tests shall be witnessed by an independent licensed professional engineer or architect or by a recognized testing organization. Copies of the test results shall be kept on file by the mobile home manufacturer.

#### § 280.304 Materials.

(a) Dimension and board lumber shall not exceed 19 percent moisture content at time of installation. Wood products shall be identified as complying with the appropriate standards.

(b) (1) Standards for some of the generally used materials and methods of construction are listed in the following table. (2) Materials and methods of construction utilized in the design and construction of mobile homes which are covered by the standards in the following table, or any applicable portion thereof shall comply with these requirements.

(3) Engineering analysis and testing methods contained in these references shall be utilized to judge conformance with accepted engineering practices required in § 280.303(c). (4) Materials and methods of installation conforming to these standards shall be considered acceptable when installed in conformance with the requirements of this Part. (5) Materials meeting the standards (or the applicable portion thereof) are considered acceptable unless otherwise specified herein or unless substantial doubt exists as to conformance.

#### § 280.305 Structural design requirements.

(a) Each mobile home shall be designed and constructed as a completely integrated structure capable of sustaining the design load requirements of this standard and shall be capable of transmitting these loads to stabilizing devices without exceeding the allowable loads stresses or deflections. Roof framing shall be securely fastened to wall framing, walls to floor structure, and floor structure to chassis to secure and maintain continuity between the floor and chassis, so as to resist wind overturning and sliding as imposed by design loads in this Part. Floor finish shall not extend beneath load bearing walls which are fastened to the floor structure.

(b) **Design Loads.** (1) **Design dead loads.** Design dead loads shall be the actual dead load supported by the structural assembly under consideration. (2) **Design live loads.** The design live loads and wind and snow loads shall be as specified in this Section and shall be considered to be uniformly distributed. The roof live load or snow load shall not be

considered as acting simultaneously with the wind load and the roof live or snow load and floor live loads shall not be considered as resisting the overturning moment due to wind. (3) When engineering calculations are performed, allowable unit stresses may be increased as provided in the documents referenced in § 280.304 except as shown otherwise in § 280.306(a).

(c) **Wind, Snow and Roof Loads.** (1) **Standard Wind (Zone I).** When a mobile home is not designated as "Hurricane-Resistive," the mobile home and each wind resisting part and portion thereof shall be designed for horizontal wind loads not less than 15 psf and a net uplift load of not less than 9 psf.

(2) **Hurricane Resistive (Zone II).** (i) When a mobile home is designated as "Hurricane Resistive," the home and each wind resisting part and portion thereof shall be designed for horizontal wind loads not less than 25 psf and a net uplift not less than 15 psf. (ii) For exposures in coastal and other areas where wind records indicate significant differences, 125 mph or greater, from the wind

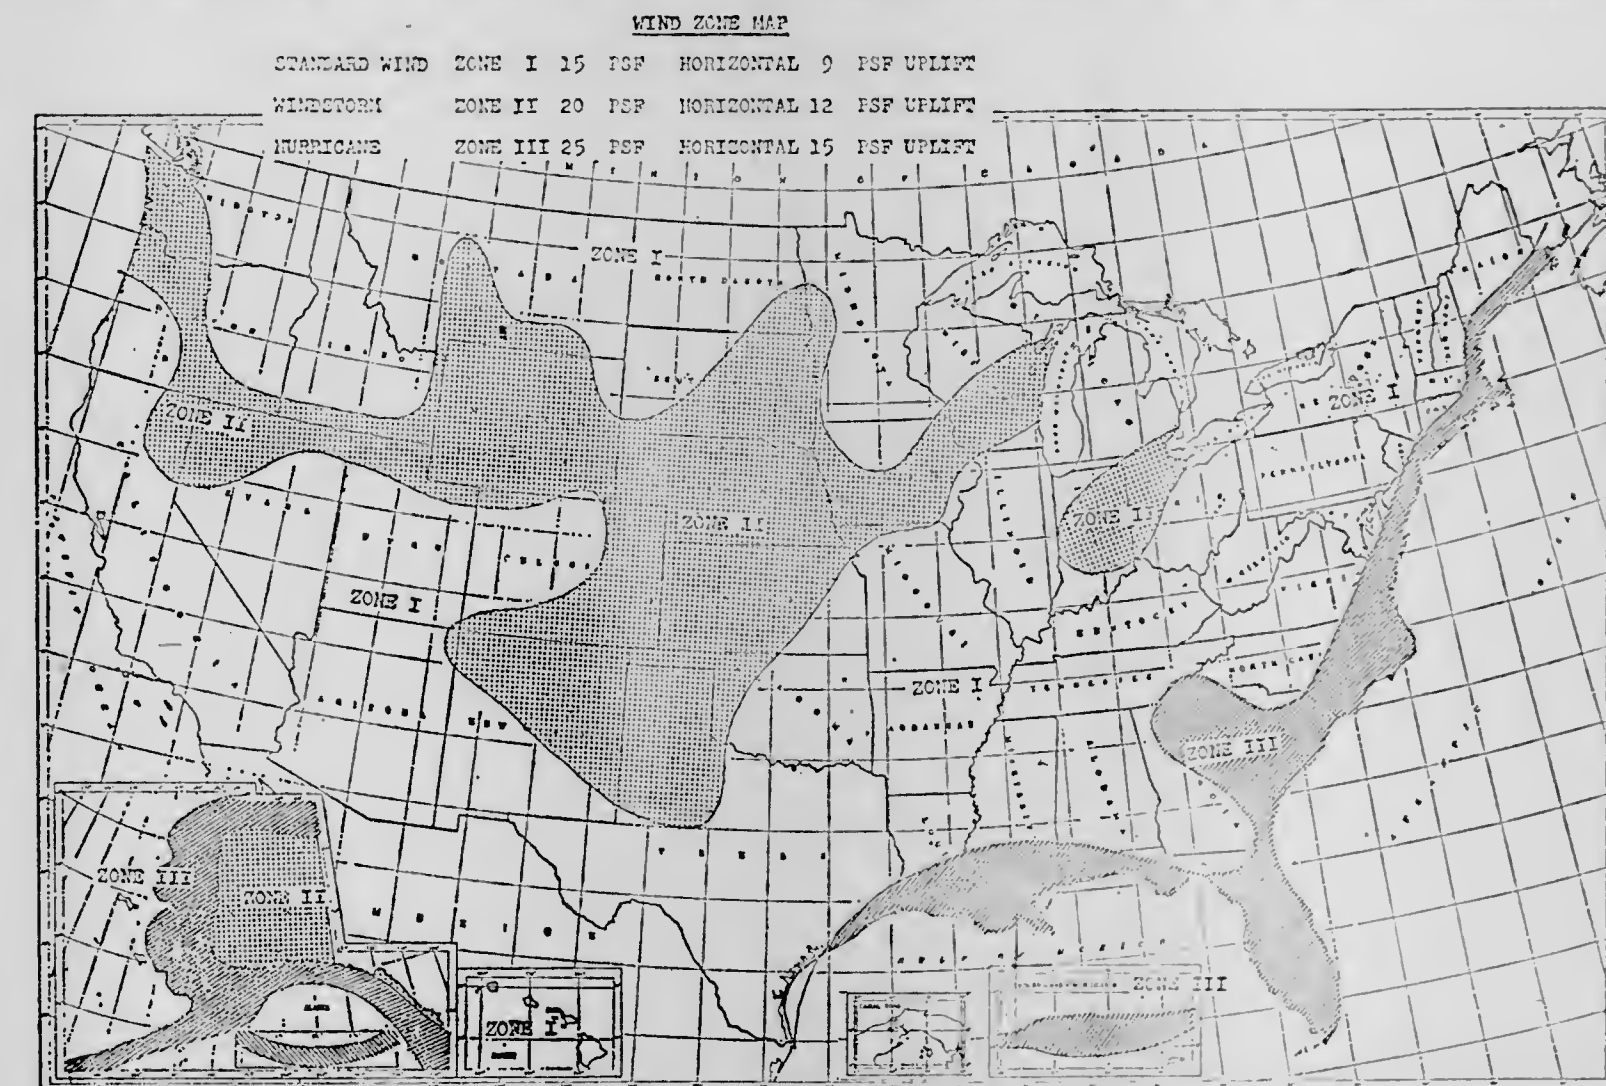

loads stated above, the Department may establish more stringent requirements for homes known to be destined for such areas.

(3) **Roof Loads.** (i) Flat, curved and pitched roofs shall be designed to resist the following live loads, applied downward on the horizontal projection as appropriate for the design zone marked on the mobile home:

	Pounds per square foot
North Zone	40
Middle Zone	30
South Zone	20

(ii) For exposures in areas (mountainous or other) where snow records or experience indicate significant differences from the snow loads stated above, the Department may establish more stringent requirements for homes known to be destined for such areas. Such requirements are to be based on a roof snow load of 0.6 of the ground snow load for areas exposed to wind and a roof snow load of 0.8 of the ground snow load for sheltered areas. (iii) Eaves and cornices shall be designed for a net uplift pressure of 2.5 times the design wind pressure cited in § 280.305(c) (1) and (2).

(4) The Data Plate posted in the mobile home (See § 280.5) shall show for which structural zone(s) of the USA the mobile home has been designed and the actual design external snow and/or wind live loads. The Data plate shall include reproduction of the Load Zone Maps shown in this Section and related information. The Load Zone Maps shall be not less than one-half the size illustrated.

## RULES AND REGULATIONS

ROOF LOAD ZONE MAP

North	40 PSF (Snow)
Middle	30 PSF (Snow)
South	20 PSF (Minimum)

(d) **Design Load Deflection.** When a structural assembly is subjected to total design live loads, the deflection for structural framing members shall not exceed the following:

Floor	L/240
Roof and ceiling	L/180
Headers, beams, and girders (vertical load)	L/180
Walls and partitions	L/180

Where L equals the clear span between supports or two times the length of a cantilever.

(e) **Fastening of Structural Systems.** Roof framing shall be securely fastened to wall framing, walls to floor structure, and floor structure to chassis to secure and maintain continuity between the floor and chassis, so as to resist wind overturning and sliding as imposed by design loads in this Part.

(f) **Walls.** The walls shall be of sufficient strength to withstand the load requirements as defined in § 280.305(c) of this part, without exceeding the deflections as specified in § 280.305(d). The connections between the bearing walls, floor, and roof framework members shall be fabricated in such a manner as to provide support for the material used to enclose the mobile home and to provide for transfer of all lateral and vertical loads to the floor and chassis.

(1) Except where substantiated by engineering analysis or tests, studs shall

not be notched or drilled in the middle one-third of their length.

(2) Interior walls and partitions shall be constructed with structural capacity adequate for the intended purpose and shall be capable of resisting a horizontal load of not less than five pounds per square foot. Finish of walls and partitions shall be securely fastened to wall framing.

(g) **Floors.** (1) Floor assemblies shall be designed in accordance with accepted engineering practice standards to support a minimum uniform live load of 40 lb/ft<sup>2</sup> plus the dead load of the materials. In addition (but not simultaneously), floors shall be able to support a 200-pound concentrated load on a one-inch diameter disc at the most critical location with a maximum deflection not to exceed one-eighth inch relative to floor framing. Perimeter wood joists of more than six inches depth shall be stabilized against overturning from superimposed loads as follows: at ends by solid blocking not less than two-inch thickness by full depth of joist, or by connecting to a continuous header not less than two-inch thickness and not less than the depth of the joist with connecting devices; at eight-foot maximum intermediate spacing by solid blocking or by wood cross-bridging of not less than one inch by three inches, metal cross-

bridging of equal strength, or by other approved methods.

(2) Wood, wood fibre or plywood floors or subfloors in kitchens, bathrooms (including toilet compartments), laundry rooms, water heater compartments, and any other areas subject to excessive moisture shall be moisture resistant or shall be made moisture resistant by sealing or by an overlay of nonabsorbent material applied with water-resistant adhesive. Carpets and/or carpet pads shall not be installed in concealed spaces subject to excessive moisture such as plumbing fixture spaces.

(3) Except where substantiated by engineering analysis or tests, notches on the ends of joists shall not exceed one-fourth the joist depth. Holes bored in joists shall not be within 2 inches of the top or bottom of the joist, and the diameter of any such hole shall not exceed one-third the depth of the joist. Notches in the top or bottom of the joists shall not exceed one-sixth the depth and shall not be located in the middle third of the span.

(4) Bottom board material (with or without patches) shall meet or exceed the level of 48 inch-pounds of puncture resistance as tested by the Beach Puncture Test in accordance with ASTM D-781-68. The material shall be suitable for patches and the patch life shall be

equivalent to the material life. Patch installation instruction shall be included in the mobile home manufacturer's instructions.

(h) **Roofs.** (1) Roofs shall be of sufficient strength to withstand the load requirements as defined in § 280.305 (b) and (c) without exceeding the deflections specified in § 280.305(d). The connections between roof framework members and bearing walls shall be fabricated in such a manner to provide for the transfer of design vertical and horizontal loads to the bearing walls and to resist uplift forces.

(2) Roofing membranes shall be of sufficient rigidity to prevent deflection which would permit ponding of water or separation of seams due to wind, snow, ice, erection or transportation forces.

(3) Cutting of roof framework members for passage of electrical, plumbing or mechanical systems shall not be allowed except where substantiated by engineering analysis.

(4) All roof penetrations for electrical, plumbing or mechanical systems shall be properly flashed and sealed. In addition, where a metal roof membrane is penetrated, a wood backer shall be installed. The backer plate shall be not less than 1/4 inch plywood, with exterior glues, secured to the roof framing system beneath the metal roof, and shall be of a size to assure that all screws securing the flashing are held by the backer plate.

## § 280.306 Wind-storm protection.

(a) **Provisions for support and anchoring systems.** Each mobile home shall have provisions for support and anchoring systems, which, when properly designed and installed, will resist overturning and lateral movement (sliding) of the mobile home as imposed by the respective design loads. The design wind loads to be utilized for calculating resistance to overturning and lateral movement shall be the wind loads indicated in § 280.305(c) (1) and (2) increased by a factor of safety of 1.5. The basic allowable stresses of materials required to resist overturning and lateral movement shall not be increased in the design and proportioning of these members.

(1) The provisions of this section shall be followed and the support and anchoring systems shall be designed by a Registered Professional Engineer or Architect.

(2) The manufacturer of each mobile home is required to make provision for the support and anchoring systems but is not required to provide the anchoring equipment or stabilizing devices. When the manufacturer's installation instructions provide for the main frame structure to be used as the points for connection of diagonal ties, no specific connecting devices need be provided on the main frame structure.

(b) The manufacturer shall provide printed instructions with each mobile home specifying the location and required capacity of stabilizing devices on

which the design is based. The manufacturer shall provide drawings and specifications certified by a registered professional engineer indicating at least one acceptable system of anchorage including the details of required straps or cables, their end connections and all other devices needed to transfer the wind loads from the mobile home to the ground anchors.

(c) The provisions made for anchoring systems shall be based on the following design criteria for mobile homes.

(1) The minimum number of ties required per side shall be as required to resist the design loads stated in § 280.305 (c) (1) and (2).

(2) Ties shall be as evenly spaced as practicable along the length of the mobile home with not more than 8 feet open-end spacing on each end.

(3) When continuous straps are provided as vertical ties, such ties shall be positioned at rafters and studs. Where a vertical tie and diagonal tie are located at the same place, both ties may be connected to a single ground anchor, provided that the anchor used is capable of carrying both loadings.

(4) Add-on sections of expandable mobile homes shall have provisions for vertical ties at the exposed ends.

(d) Double-wide mobile homes require only diagonal ties. These shall be placed along the main frame and below the outer side walls.

(e) Protection shall be provided at sharp corners where the anchoring system requires the use of external cables or straps. Protection shall also be provided to minimize damage to roofing or siding by the cable or strap.

(f) Anchoring equipment shall be capable of resisting an allowable working load equal to or exceeding 3,150 pounds and shall be capable of withstanding a 50 percent overload (4,725 pounds total) without failure of either the anchoring equipment or the attachment point on the mobile home.

(g) Anchoring equipment exposed to weathering shall have a resistance to weather deterioration at least equivalent to that provided by a coating of zinc on steel of not less than 0.30 ounces per square foot of surface coated.

(1) Slit or cut edges of zinc-coated steel strapping do not need to be zinc coated.

(2) Type 1, Finish B, Grade 1 steel strapping, 1 1/4 inches wide and 0.035 inch thick, conforming with Federal Specification QQ-S-781-H, is judged to conform with the provisions of this section and paragraph (f) above.

## § 280.307 Resistance to elements and use.

(a) Exterior coverings shall be of moisture and weather resistive materials attached with corrosion resistant fasteners to resist wind, snow and rain. Metal coverings and exposed metal structural members shall be of corrosion resistant materials or shall be protected to resist corrosion. All joints between portions of the exterior covering shall be designed, and assembled to protect

against the infiltration of air and water, except for any designed ventilation of wall or roof cavity.

(b) Joints between dissimilar materials and joints between exterior coverings and frames of openings shall be protected with a compatible sealant suitable to resist infiltration of air or water.

(c) Where adjoining materials or assemblies of materials are of such nature that separation can occur due to expansion, contraction, wind loads or other loads induced by erection or transportation, sealants shall be of a type that maintains protection against infiltration or penetration by air, moisture or vermin.

(d) Exterior surfaces shall be sealed to resist the entrance of rodents.

## Subpart E—Testing

## § 280.101 Structural load tests.

Every structural assembly tested shall be capable of meeting the Proof Load Test or the Ultimate Load Test as follows:

(a) **Proof load tests.** Every structural assembly tested shall be capable of sustaining its dead load plus superimposed live loads equal to 1.75 times the required live loads for a period of 12 hours without failure. Tests shall be conducted with loads applied and deflections recorded in 1/4 design live load increments at 10-minute intervals until 1.25 times design live load plus dead load has been reached. Additional load shall then be applied continuously until 1.75 times design live load plus dead load has been reached. Assembly failure shall be considered as design live load deflection (or residual deflection measured 12 hours after live load removal) which is greater than the limits set in § 280.305(d), rupture, fracture, or excessive yielding. An assembly to be tested shall be of the minimum quality of materials and workmanship of the production. Each test assembly, component or subassembly shall be identified as to type and quality or grade of material. All assemblies, components or subassemblies qualifying under this section shall be subject to a continuing qualification testing program acceptable to the Department.

(b) **Ultimate load tests.** Ultimate load tests shall be performed on a minimum of three assemblies to generally evaluate the structural design. Every structural assembly tested shall be capable of sustaining its total dead load plus live loads increased by a factor of safety consistent with the material being tested. Factors of safety shall be based on nationally recognized standards and approved by the Department. Tests shall be conducted with loads applied and deflections recorded in 1/4 design live load increments at 10-minute intervals until 1.25 times design live load plus dead load has been reached. Additional loading shall then be applied continuously until failure occurs or 1.50 times the factor of safety times the design live load plus the dead load is reached. Assembly failure shall be considered as design live load deflection greater than the

limits set in § 208.405(d) rupture, fracture, or excessive yielding. Assemblies to be tested shall be representative of average quality or materials and workmanship of the production. Each test assembly, component, or subassembly shall be identified as to type and quality or grade of material. All assemblies, components, or subassemblies qualifying under this section shall be subject to a periodic qualification testing program acceptable to the Department.

#### § 280.402 Test procedure for roof trusses.

(a) *Roof load tests.* The following is an acceptable test procedure, consistent with the provisions of § 280.401, for roof trusses that are supported at the ends and support design loads. Where roof trusses act as support for other members, act as cantilevers, or support concentrated loads, they shall be tested accordingly.

(b) *General.* Trusses may be tested in pairs or singly in a suitable test facility. When tested singly, simulated lateral support of the test assembly may be provided, but in no case shall this lateral support exceed that which is specified for the completed mobile home. When tested in pairs, the trusses shall be spaced at the design spacing and shall be mounted on solid support accurately positioned to give the required clear span distance (L) as specified in the design. The top and bottom chords shall be braced and covered with the material, with connections or method of attachment, as specified by the completed mobile home.

(1) As an alternate test procedure, the top chord may be sheathed with 1/4 inch by 24 inch by 12 inch plywood strips. Adjacent plywood strips must be separated by at least 1/8 inch. The plywood strip shall be nailed with 4d nails or equivalent staples not closer than 8 inches on center along the top chord of one truss only. The bottom chords shall be unbraced or covered with the material, with connections or methods of attachment, as specified for the completed mobile home.

(2) Truss deflections will be measured relative to a taut wire running over the support and weighted at the end to insure constant tension or other approved methods. Deflections will be measured at the two quarter points and at midspan. Loading shall be applied to the top chord through a suitable hydraulic, pneumatic, or mechanical system, masonry units, or weights to simulate design loads. Load units for uniformly distributed loads shall be separated so that arch action does not occur, and shall be spaced not greater than 12 inches on center so as to simulate uniform loading.

(c) *Nondestructive test procedure.*—(1) *Dead load plus live load.* (i) Noting figure A, measure and record initial elevation of the truss in test position at no load. (ii) Apply load units to the top chord of the truss equal to the full dead load of roof and ceiling. Measure and record deflection. (iii) Maintaining the dead load, add live load in approximate 1/4 design live load increments. Measure

the deflections after each loading increment. Apply incremental loads at a uniform rate such that approximately one-half hour is required to establish the total design load condition. Measure and record the deflections five minutes after loads have been applied. The maximum deflection due to design live load (deflection measured in step (iii) minus step (ii)) shall not exceed L/180, where L is a clear span measured in the same units. (iv) Continue to load truss to dead load plus 1.75 times the design live load. Maintain this loading for 12 hours and inspect the truss for failure. (v) Remove the total superimposed live load. Trusses not recovering to at least the L/180 position within 12 hours shall be considered as failing.

(2) *Uplift loads.* This test shall only be required for truss designs which may be critical under uplift load conditions. (i) Measure and record initial elevation of the truss in an inverted test position at no load. Bottom chord of the truss shall be mounted in the horizontal position. (ii) Apply the uplift load as stated in § 280.305(c) to the bottom chord of the truss. Measure and record the deflections 5 minutes after the load has been applied. (iii) Continue to load the truss to 1.75 times the design uplift load. Maintain this load for 3 hours and inspect the truss for failure. (iv) Remove applied loads and within three hours the truss must recover to at least L/180 position.

(e) Trusses qualifying under the non-destructive test procedure, Tests §§ 208.402(c) (1) and (2) (when required), shall be subject to a continuing qualification testing program acceptable to the Department. Trusses qualifying under the destructive test procedures, Tests § 280.402 (c) (2) (when required), and (d), shall be subject to periodic tests only.

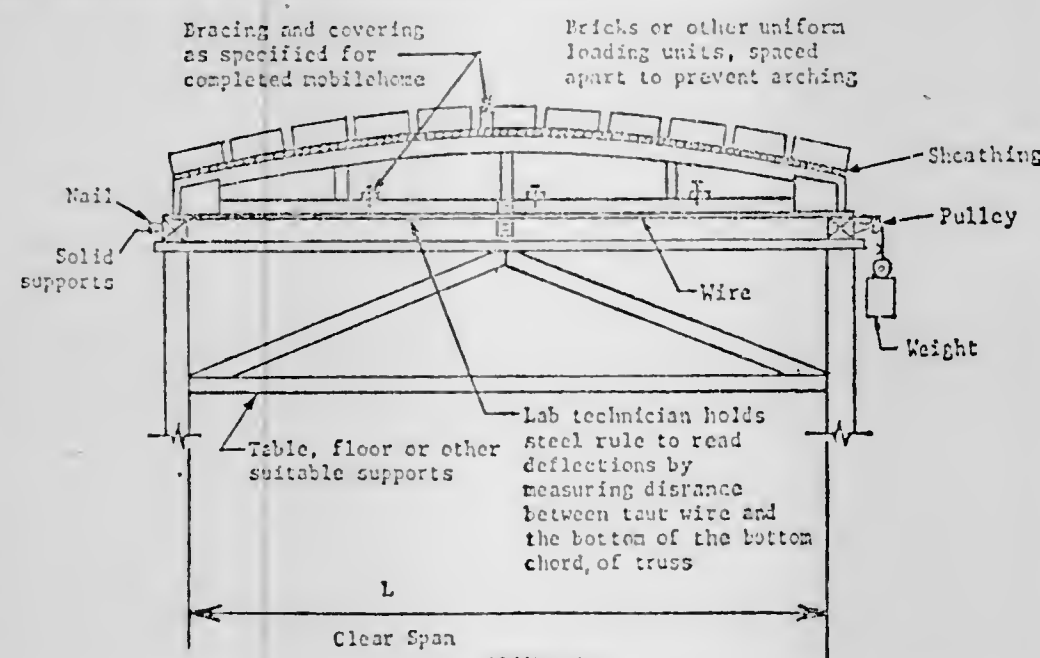

FIGURE A-1

Test Procedure for Roof Trusses

#### § 280.403 Standard for windows and sliding glass doors used in mobile homes.

(a) *Scope.* This section sets the requirements for prime windows and sliding glass doors used in mobile homes except for windows used in entry doors. Windows so mounted are components of the door and thus are excluded from this standard.

(b) *Materials and methods.* Any material or method of construction, whether or not provided for in this standard, and any material or method of ques-

tioned suitability, proposed for use in manufacture, shall nevertheless conform in performance as outlined in paragraph (c) of this Section and proof of capability of structural integrity shall be presented. If applicable, units shall comply with the following:

(1) *Wood and wood based products.* (i) *Wood.* Wood parts including plywood and particleboard parts of window units shall have a moisture content of 6 to 12 percent at the time of fabrication. Wood parts, except inside stops and trim shall be manufactured utilizing wet-use adhesive requirements as defined in ASTM D-3110 and preservative treated in accordance with NWMA IS-4. (ii) *Plywood.* Plywood parts except for inside stops and trim shall be exterior type plywood and preservative treated in accordance with NWMA IS-4. (iii) *Particleboard.* Particleboard parts except for inside stops and trim shall be type-2 particleboard and preservative treated in accordance with NWMA IS-4. (2) *Aluminum.* (i) *Alloys.* Aluminum shall be of a commercial quality and of proper alloy for window construction, free from defects impairing strength and/or durability, as follows:

Wrought aluminum alloys shall be those in which the alloying elements do not exceed the following maximum limits:

	Percent
Silicone	7.0
Magnesium	1.0
Manganese	6.0
Chromium	1.0
Iron	1.0
Copper	0.4
Zinc	1.0
Other	1.5
Aluminum	Balance

These limits apply to both bare products and to the core clad products. The cladding of clad products shall be within the same limits except that the maximum zinc limit may be 3.0 percent in order to assure that the cladding is anodic to the core. Where aluminum extrusions are used for the main frame and sash or ventilator sections, they shall have a minimum ultimate tensile strength of 22,000 psi and a yield of 16,000 psi.

(ii) *Finish.* The exposed surface of all aluminum members shall be clean and free from serious surface blemishes. If exposed welded joints are used, they shall be dressed and finished.

(3) *Glass.* (i) Safety glazing materials, where used, shall meet ANSI Z97.1-1972. Tempered glass, where used, shall also meet FS DD-G-1403A. (ii) Insulated glass, when used, shall meet or exceed the requirements of Sealed Insulating Glass Manufacturers Association (SIGMA) and shall be permanently identified with the name of the insulating glass manufacturer. (iii) Glass tolerances and areas shall meet or exceed the values shown in the Glass Table below.

Glass dimensional tolerances and maximum allowable areas—sheet glass

Nominal thickness (inches)	Minimum thickness (inches)	Maximum area (square feet) at 15 lb/ft <sup>2</sup>	Maximum area (square feet) at 25 lb/ft <sup>2</sup>
18 oz.	0.078	11	10
22 oz.	.085	13	11
24 oz.	.108	18	14
28 oz.	.115	20	15
316	.182	49	30
322	.206	58	37
34	.236	72	43

\* For other types of glass see Federal Specification DD-G-451e, dated Jan. 15, 1968.

† Maximum areas shown are based on minimum glass thicknesses set forth. Maximum areas shown apply for rectangular lite of annealed glass firmly supported on all 4 sides in a vertical position.

Tabulated areas may be increased as noted for use of tempered, heat strength-

ened or sealed insulating glass and shall be decreased as noted for use of sandblasted, wire or laminated glass. Glass louvers installed in shutters shall be not less than 3/4" thick nor longer than 36" and exposed edges shall be seamed, ground or polished.

#### ADJUSTMENT FACTORS RELATIVE RESISTANCE TO WIND LOADS<sup>1</sup>

Glass type:	Approximate relationship
Regular plate	1.0
Laminated	0.6
Wire	0.5
Heat strengthened	2.0
Fully tempered	4.0
Factory fabricated insulating glass <sup>2</sup>	1.5
Rough rolled or patterned surface	1.0
Sand blasted annealed glass	0.4

<sup>1</sup> To determine the maximum allowable area for the glass types listed multiply the allowable area established by the appropriate adjustment factor.

<sup>2</sup> Use thickness of thinner of the two lights, not thickness of unit.

(4) *Glazing.* Any method of glazing conforming to the Performance Requirements (paragraph c of this section) and Material and Methods Requirements (paragraph b of this section) shall be acceptable.

(5) *Hardware and Fasteners.* All hardware components and fasteners when considered as individual components, whether commercially available, or proprietary, must be capable of performing to the criteria stipulated in Performance Requirements, paragraph (c) of this Section.

(c) *Performance requirements.* All tests performed and all criteria herein are applicable to preproduction prototype units of prime windows and sliding glass doors. Production line units shall be equivalent in design and materials to the tested and passed prototype units.

(1) *Size of test specimen.* Production line units shall have width and height dimensions equal to or less than the corresponding dimensions of the prototype unit tested and passed. No inference of compliance to these requirements is to be made for products exceeding the size of the tested and passed prototype.

(2) *Structural performance test.*—(i) *Zone I.* There shall be no glass breakage, permanent deflection or any other condition which would cause the specimen to be inoperable after being subjected to an exterior pressure, 15 pounds per square foot. The test method applicable to this requirement shall be ASTM E-330. (ii) *Zone II and Zone III.* There shall be no glass breakage, permanent deflection or any other condition which would cause the specimen to be inoperable after being subjected to exterior pressure of 25 pounds per square foot. The test method applicable to this requirement shall be ASTM E-330. (iii) *Interior pressure.* There shall be no glass breakage, permanent deflection or any other condition which would cause the specimen to be inoperable after being subjected to an interior pressure equal to 1/2 the requirements in either paragraphs (c) (2) (i) or (c) (2) (ii). The test method applicable to this requirement shall be ASTM E-330

except that no artificial means of containing pressure shall be allowed. Should pressure not be obtainable due to lack of air the testing agency will report the pressure achieved, the theoretical air flow supplied to the unit, and certify that no additional flow from the equipment in use was available. Laboratory equipment used for this test must be capable of developing 10 x air flow determined in § 280.403(c) (3).

(3) *Air infiltration test.* Air infiltration shall not exceed 0.50 CFM per square foot of window area when tested in accordance with ASTM E-283 at an exterior pressure differential of 1.567 pounds per square foot (0.30" of water pressure).

(4) *Water resistance test.* No leakage shall pass the interior face of the test specimen at a test pressure of 2.86 psi (0.55" water pressure) when tested in accordance with ASTM E-331 except that the test period shall consist of four cycles, each cycle consisting of five minutes with pressure applied and one minute with pressure released, during which the water spray will be continuously applied.

(5) For the purpose of compliance with paragraph (c) (4), all units which may have exterior screens, shall be tested first with screens in place and thereafter with screens removed. (ii) For the purpose of compliance with paragraph (c) (4), penetration, as referenced in ASTM E-331-70, paragraph 4.3, shall not include drops passing the interior face by energy developed in the bursting of sill drain system bubbles created by a pressure differential applied to the exterior face of the specimen.

(d) *Test sequence.* The sequence of tests shall be performed as they are listed above except that Structural Performance Test to Zone I (15 PSF) exterior pressure may be followed by Zone I interior pressure (7.5 PSF), which may be followed by the Air Infiltration Test, which may be followed by the Water Resistance Test, which may be followed by the Structural Performance Test to Zone II and Zone III (25 PSF) exterior pressure, which may be followed by the Zone II and Zone III interior pressures (12.5 PSF), which may be followed by the Air Infiltration Test, which may be followed by the Water Resistance Test providing all sealed areas are thoroughly dried.

(e) *Screens.* (1) Screen, when specified, shall be provided with fastening devices, suited particularly for application to the specific window for which they are intended, and be of sufficient strength to perform satisfactorily.

(2) Insect screening shall be of a material compatible with aluminum and shall meet CS 138-55, "Insect Wire Screening," FS RR-W-365, "Screening, Wire, Insect," CS 248-64, "Vinyl Coated Glass Fibre Insect Screening and Louver Cloth," or FS L-S-125a "Screening, Non Metallic Insect."

(f) *Assembly.* Windows shall be assembled in a secure and workmanlike manner to perform as hereinafter specified and to assure neat and weather tight

V

5  
XUM

construction. A permanent-type watertight joint shall be made at the junction of the sill and side frame members.

(g) *Shipping.* Units may be shipped either as a subassembly unit or as a completely assembled unit but not as a KD or open unit. A KD unit is a unit that is complete in its entirety with the exception of glass, glazing material, or screen, which is shipped in a disassembled condition and later assembled and glazed according to the instructions of the manufacturer and utilizing all of the components supplied or specified by the manufacturer.

(1) An open unit is a unit that is complete in its entirety with the exception of glass, glazing materials, or screen, which is shipped in an assembled condition and later glazed according to the instruction of the manufacturer, utilizing all of the components supplied by the manufacturer.

(2) A subassembly unit is a unit that is complete in its entirety including the glazing of glass or other glazing panels into their respective fixed or moving sash frames, which is shipped with such glazed panels separate from each other or from any master frame, which master frame may be either disassembled or assembled. The connection of such master frame to glazed, fixed, or moving panels is to take place later according to the instructions of the manufacturer utilizing all of the components supplied by the manufacturer.

(3) A completely assembled unit is one that is complete in its entirety and is shipped with all parts and subassemblies in complete connection with each other and no separate pieces.

(h) *Permanent identification.* (1) As identification, each unit shall bear a certification label containing a code number traceable to the manufacturer through the certifying agency or the name of the manufacturer or brand name together with the city and state location of the manufacturer or main office of the manufacturer.

(2) The label shall be of a permanent-type designed to discourage easy removal, shall be legible and shall remain legible under normal operating conditions for a period of not less than five years from date of product installation.

(3) Acceptable means of identification are, but are not limited to, the following: Embossed, stamped, cast or molded characters becoming an integral part of the material on which they are located; flexible color-fast and durable labels, decals, stickers, etc., affixed with a permanent-type adhesive; or rigid metal or plastic name plates affixed mechanically or with a permanent-type adhesive.

(4) Location of the label shall be such that it is accessible for normal direct viewing purposes from the interior side of the product, after the unit is installed, without the necessity of product disassembly. Identification located only on the glass or screen shall not be acceptable.

(i) *Certification.* The manufacturer shall show evidence of continued compliance by affixing a quality certification

label to the product in accordance with ANSI Z34.1, "American National Standard Practice for Certification Procedures." In determining certifiability under this section, compliance shall consist of preproduction specimen testing in accordance with each and every requirement of this section followed by an in-plant inspection system consisting of a minimum of two such inspections per year by an independent quality assurance agency.

#### § 230.404 Standard for egress windows for use in mobile homes.

(a) *Scope and purpose.* The purpose of this section is to establish the requirements for the design, construction, and installation of windows and approved devices intended to be used as an emergency exit during conditions encountered in a fire or similar disaster.

(b) *Requirements—(1) Installation.* Window manufacturers shall provide the home manufacturer with written installation instructions.

(2) *Performance.* The egress window including auxiliary frame and seals, if any, shall meet the requirements of § 280.403 "Standard for Windows and Sliding Glass Doors Used in Mobile Homes."

(3) *Dimensions.* (i) All egress windows shall have a minimum clear dimension of 22 inches when determined in accordance with Test A paragraph (d) (1) of this section. (ii) All egress windows shall have a minimum clear opening of 5 square feet when determined in accordance with Test B, paragraph (d) (2) of this section.

(4) *Operational.* (i) Operating instructions shall be applied to each egress window and carry the legend "Do Not Remove." In addition, the instructions should include a reminder to remove all shipping clips on screens, storm windows, and other appurtenances for exiting purposes. (ii) The number of locks and latches shall not exceed 2, not including the 4 appurtenance attachment mechanisms permitted by paragraph (c) (2) (i) of this section. (iii) Locks, latches, lifting and sliding operational forces shall not exceed a force of 20 pounds when tested in accordance with Test C, paragraph (d) (3) of this section. (iv) Any handle or latch required to operate the emergency egress provisions of the window shall be attached in the factory by either a permanent method or a mechanical method which requires a tool not commonly available in the home, unless removal of the latch or handle will in no way limit the effectiveness of the egress provision. (v) Any window whose egress provisions are dependent on the operation of a rotary operator is unacceptable.

*Example:* Awning windows utilizing a single vent for egress and requiring a rotary operator for activation is unacceptable, whereas an awning window set in a separate frame whose activation requires only a 180° twist of the lock to allow egress is acceptable even though a rotary operator is present for normal operation.

(c) *Appurtenances.* (1) The addition or inclusion of screens, storm windows,

or other appurtenances shall not encroach upon the dimensional requirements set forth in paragraph (b) (3).

(2) Any mechanism used to attach an appurtenance such as a screen or storm window to the window shall meet the following requirements unless the appurtenance meets the requirements of paragraph (c) (3): (i) The number of mechanisms shall not exceed 4 and; (ii) The operating force of the mechanisms shall not exceed 5 pounds tested in accordance with Test D paragraph (d) (4) and; (iii) The mechanisms shall be designed so that that cannot be misapplied utilizing normal household tools such as screwdrivers, pliers and wrenches exceeding the aforementioned forces; and (iv) The surface to which the operating force is applied shall have a minimum cross-sectional area of 0.25 square inches.

(3) If an appurtenance such as a screen or storm window is attached to the window in such a manner that it need not be removed or disengaged in any way in order to effect a fully opened exit, the requirements of paragraph (c) (2) need not be met.

(4) The operating instructions detailed in paragraph (b) (4) (i) shall include instructions on the required removal and replacement of any screen and/or storm sash appurtenance.

(d) *Test methods—(1) Test Method A—Minimum Dimensions.* The minimum dimension of 22 in. required by paragraph (b) (3) (i) shall be tested as follows: When the window is in the final position for egress, a 22 in. dowel shall be passed through the opening at the point of its least dimension while contacting only one point of the window frame, at either the horizontal or vertical orientation of the dowel. (i) Example: In a horizontally opening window (sliding or rolling); the minimum dimension requirement may be met as follows: When the window is in the final position for egress, place one end of the dowel perpendicularly against the portion of the main frame side (bottom) projecting furthest towards the center of the opening, and pass the dowel through the opening in a horizontal (vertical) plane without touching any portion of the device except the main frame side (bottom) on which it is pivoted. (ii) Example: Any type of window may be mounted in a side, bottom, or top hinged or pop-out egress frame which in the fully opened position meets the minimum dimension and area requirements.

(2) *Test Method B—Minimum Area.* The minimum area requirement of 5 square feet contained in paragraph (b) (3) (ii) shall be determined by multiplying the minimum dimension (which may exceed 22 in.) by the clear dimension measured perpendicularly to the minimum dimension and in the plane of the window main frame. (i) Example: In a vertically operating window whose minimum dimension is from the main frame bottom to that portion of the operating vent projecting furthest toward the horizontal center line of the egress opening when in the fully opened position, the

minimum area shall be determined by multiplying the minimum dimension by the inside side-to-side dimension.

(3) *Test Method C—Operating Forces.* (i) For horizontal or vertical moving windows, a force gage shall be attached to the manual pull bar at its center-point. After opening the latch or lock, a force not to exceed 20 pounds shall be exerted in a direct pull parallel to the window in order to obtain movement in the opening direction. The window shall be in the closed and latched position prior to the test and shall have been subjected to 5 opening and closing cycles prior to the test. (ii) Locks and latches shall be tested as noted in section (d) (3) (i) except that the force gage shall be located in the center of the latch or lock handle.

(4) *Test Method D—Mechanical Device Operating Force (Appurtenances).* (i) A force gage of sufficient capacity using a point contact and having the ability to retain the maximum reading (Chatillon DPP-50 or similar) shall be used. The force gage point shall be applied to the mechanism at the center of the normal force application area and sufficient force applied to disengage the appurtenance. The maximum reading shall be retained by the force gage and may be read directly.

(e) *Test Report.* (1) The test report shall include all requirements of this standard listed in their order shown in this standard. Where certain provisions of the standard do not apply, the notation "N.A." (Not applicable) shall so denote these items. Where certain appurtenances are not supplied, such as storm windows or screen, the notation "N.S." (Not supplied) shall so denote those items.

(2) The test report shall be complete with manufacturers assembly drawing, extrusion drawings, parts list, weather-strip description, glazing method, description including backbedding and glazing method, installation and operating instructions. Where the unit tested is not in its actual installation, a clause stating the following shall be included in the test report: "This unit tested as submitted. Actual installation must be in accordance with the instructions included with this report or this report is not valid."

(3) The test report on all units submitted for test not having appurtenances listed in paragraph (c) shall include a statement as follows: "This unit tested without storm windows (or screen). The installation of these items with this product invalidates this test report."

(4) For any test on component parts, such as balances, friction positioners, etc., certification by an independent testing agency shall be acceptable for evidence of compliance. If such certification is used, the test report shall so state, and give the name of the agency.

(5) Test reports used to demonstrate compliance with this standard to any governmental body shall be made available to the public upon request.

#### § 280.405 Standard for swinging exterior passage doors for use in mobile homes.

(a) *Introduction.* This standard applies to all exterior passage door units, excluding sliding doors and doors used for access to utilities and compartments. This standard applies only to the door frame consisting of jambs, head and sill and the attached door or doors.

(b) *Purpose.* It is the purpose of this standard to establish the requirements for exterior passage door units irrespective of the type of material used in the manufacture of these products.

(c) *General requirements and materials of construction.* (1) The design and construction of the exterior passage door units shall conform with the provisions of this standard. Requirements for any size, weight, or quality of material modified by the terms of "minimum," "not less than," "at least," and similar expressions are minimum standards. The manufacturer may exceed these standards provided such deviation does not result in an inferior product or defeat the purpose and intent of this standard. Units may be shipped as a completely assembled unit, but not as KD or open unit. A KD unit is a unit that is complete in its entirety, which is shipped in a disassembled condition and later assembled and glazed according to the instructions of the manufacturer. An open unit is a unit that is complete in its entirety with the exception of a window insert, which is shipped in an assembled condition and later glazed according to the instructions of the manufacturer. A completely assembled unit is one that is complete in its entirety and is shipped with all parts and subassemblies in complete connection with each other and no separate pieces, except for: Lock-knobs only and keys, door chain and attachments, storm door latch, chain and attachments, threshold extension, screw cover, drip cap.

(2) *Workmanship.* All construction methods, materials and workmanship shall be in conformance with accepted engineering practices to insure durable, livable, and safe housing.

(d) *Materials and methods.* Any material or method of construction, whether or not provided for in this standard, and any material or method of questioned suitability, proposed for use in manufacture, shall nevertheless conform in performance as outlined in paragraph (e) of this standard and proof of capability of structural integrity shall be presented. If applicable, units shall comply with the following:

(1) *Wood and wood based products—(i) Wood.* Wood door frame parts shall be manufactured of suitable lumber having a moisture content of 6 to 12 percent at time of fabrication. Wood parts except interior trim shall be manufactured utilizing wet-use adhesive requirements as defined in ASTM D-3110 and Preservative Treated in accordance with NWMA IS-4 standard. Doors shall conform to the Type 1 requirements of NWMA IS-1-73, NWMA IS-5-73 or FHDA 4-72. (ii) Plywood. Plywood shall be exterior type and preservative treated in accordance with NWMA IS-4. (iii) Hardboard parts shall meet or exceed the requirements for 1/8 inch tempered hardboard in accordance with the latest edition of PS 58.

(2) *Hardware and fasteners.* All hardware components and fasteners when considered as individual components, whether commercially available, or proprietary, must be capable of performing to the criteria stipulated in this section and in the Performance Requirements Section, Paragraph (e) of these specifications.

(3) *Glass.* All glazing in doors shall be safety glazing material meeting ANSI Z97.1-72. Glass in jalousies shall also be at least 1/2 in. in thickness and not longer than 36 inches. Exposed edges shall be seamed, ground or polished to prevent injury.

(4) *Weatherstripping.* A tight threshold and weatherstripping to reduce air infiltration and improve water resistance shall be provided capable of conforming to the criteria stipulated in the Performance Requirements Section, Paragraph (e) of this standard.

(e) *Performance requirements—(1) Size of test specimen.* All tests shall be performed on exterior passage door units with all operable portions closed and all criteria herein are applicable to exterior passage doors of the largest type that the producer desires to qualify under this specification. No inference of compliance to these requirements is to be made for products exceeding the size of the test specimen submitted. Largest unit size is determined by the maximum width and height dimensions of production units that are equal to or less than corresponding dimensions in that unit tested and passed.

(2) *Structural performance test—(i) Wind pressure resistivity.* There shall be no glass breakage or permanent deflection or any other condition which would cause the specimen to be inoperable after being subjected to exterior pressures of 25 pounds per square foot. The test method applicable to this requirement shall be ASTM E-330. (ii) *Interior pressure.* There shall be no glass breakage or permanent deflection or any other condition which would cause the specimen to be inoperable after being subjected to an interior pressure equal to 1/2 the requirements in paragraph (e) (2) (i). The test method applicable to this requirement shall be ASTM E-330 except that no artificial means of containing pressure shall be allowed. Should pressure not be obtainable due to lack of air, the testing agency will report the pressure achieved, the theoretical air flow supplied to the unit, and certify that no additional flow from the equipment in use was available. Laboratory equipment used for this test must be capable of developing 10 x air flow determined in paragraph (e) (2) (iii) of this

manent shading provided. Information concerning the calculation of cooling loads at various locations, window exposures and shadings are provided in Chapter 22 of the 1972 edition of the ASHRAE Handbook of Fundamentals.

Information necessary to calculate cooling loads at various locations and orientations is provided in the special comfort cooling information provided with this mobile home.

(2) *Alternative 2.* For each mobile home suitable for a central air cooling system, the manufacturer shall provide the following statement: "This air distribution system of this home is suitable for the installation of a central air conditioning system."

#### Example Alternate 2

##### COMFORT COOLING CERTIFICATE

Mobile Home Manufacturer.....  
Plant Location.....  
Mobile Home Model.....

This air distribution system of this home is suitable for the installation of central air conditioning.

The supply air distribution system installed in this home is sized for Air Conditioning and Refrigeration Institute Certified Mobile Home Central Air Conditioning Systems of up to — BTU/Hr rated capacity when the air circulators of such air conditioners are rated at 0.3 inch water column static pressure or greater for the cooling air delivered to the mobile home supply air duct system.

Information necessary to calculate cooling loads at various locations and orientations is provided in the special comfort cooling information provided with this mobile home.

(3) *Alternative 3.* If the mobile home is not equipped with an air supply duct system, or if the manufacturer elects not to designate the home as being suitable for the installation of a central air conditioning system, the manufacturer shall provide the following statement: "This air distribution system of this home has not been designed in anticipation of its use with a central air conditioning system."

#### Example Alternate 3

##### COMFORT COOLING CERTIFICATE

Mobile Home Mfg.....  
Plant Location.....  
Mobile Home Model.....

The air distribution system of this home has not been designed in anticipation of its use with a central air conditioning system.

(b) For each home designated as suitable for central air conditioning the manufacturer shall provide the maximum ARI certified central mobile home air conditioning capacity in accordance with § 280.715(a) (3). If the capacity information provided is based on entrances to the air supply duct at other than the furnace plenum, the manufacturer shall indicate the correct supply air entrance and return air exit locations.

(c) *Comfort cooling information.* For each mobile home designated, either "suitable for" or "provided with" a central air conditioning system, the manufacturer shall provide comfort cooling information specific to the mobile home necessary to complete the cooling load calculations. The comfort cooling information shall include a statement to read as follows:

To determine the required capacity of equipment to cool a home efficiently and

economically, a cooling load (heat gain) calculation is required. The cooling load is dependent on the orientation, location and structure of the home. Central air conditioners operate most efficiently and provide the greatest comfort when their capacity closely approximates the calculated cooling load. Each home's air conditioner should be sized in accordance with Chapter 22 of the American Society of Heating, Refrigerating and Air Conditioning Engineers (ASHRAE) Handbook of Fundamentals, once the location and orientation are known.

##### INFORMATION PROVIDED BY THE MANUFACTURER NECESSARY TO CALCULATE SENSIBLE HEAT GAIN

#### Subpart G—Plumbing Systems

##### § 280.601 Scope.

Subpart G of this Standard covers the plumbing materials, fixtures, and equipment installed within or on mobile homes. It is the intent of this subpart to assure water supply, drain, waste and vent systems which permit satisfactory functioning and provide for health and safety under all conditions of normal use.

##### § 280.602 Definitions.

(a) The following definitions are applicable to Subpart G only:

(1) "Accessible," when applied to a fixture, connection, appliance or equipment, means having access thereto, but which may require removal of an access panel or opening of a door.

(2) "Air Gap (Water Distribution System)" means the unobstructed vertical distance through the free atmosphere between the lowest opening from any pipe or faucet supplying water to a tank, plumbing fixture, water supplied appliances, or other device and the flood level rim of the receptacle.

(3) "Anti-Siphon Trap Vent Device" means a device which automatically opens to admit air to a fixture drain above the connection of the trap arm so as to prevent siphonage, and closes tightly when the pressure within the drainage system is equal to or greater than atmospheric pressure so as to prevent the escape of gases from the drainage system into the mobile home.

(4) "Backflow" means the flow of water or other liquids, mixtures, or substances into the distributing pipes of a potable supply of water from any source or sources other than its intended sources.

(5) "Backflow Connection" means any arrangement whereby backflow can occur.

(6) "Backflow Preventer" means a device or means to prevent backflow.

(7) "Branch" means any part of the piping system other than a riser, main or stack.

(8) "Common Vent" means a vent connecting at the junction of fixture drains

and serving as a vent for more than one fixture.

(9) "Continuous Vent" means a vertical vent that is a continuation of the drain to which it connects.

(10) "Continuous Waste" means a drain from two or more fixtures connected to a single trap.

(11) "Critical Level" means a point established by the testing laboratory (usually stamped on the device by the manufacturer) which determines the minimum elevation above the flood level rim of the fixture or receptacle served on which the device may be installed. When a backflow prevention device does not bear a critical level marking, the bottom of the vacuum breaker, combination valve, or of any such approved or listed device shall constitute the critical level.

(12) "Cross Connection" means any physical connection or arrangement between two otherwise separate systems or sources, one of which contains potable water and the other either water, steam, gas or chemical of unknown or questionable safety whereby there may be a flow from one system or source to the other, the direction of flow depending on the pressure differential between the two systems.

(13) "Developed Length" means that length of pipe measured along the center line of the pipe and fittings.

(14) "Diameter," unless otherwise specifically stated, means the nominal (inside) diameter designated commercially.

(15) "Drain" means a pipe that carries waste, water, or water-borne waste in a drainage system.

(16) "Drain Connector" means the removable extension, consisting of all pipes, fittings and appurtenances, from the drain outlet to the drain inlet serving the mobile home.

(17) "Drain Outlet" means the lowest end of the main or secondary drain to which a sewer connection is made.

(18) "Drainage System" means all piping within or attached to the structure that conveys sewage or other liquid waste to the drain outlet, not including the drain connector.

(19) "Fixture Drain" means the drain from the trap of a fixture to the junction of that drain with any other drain pipe.

(20) "Fixture Supply" means the water supply pipe connecting a fixture to a branch water supply pipe or directly to a main water supply pipe.

(21) "Flood-Level" means the level in the receptacle over which water would overflow to the outside of the receptacle.

(22) "Flooded" means the condition which results when the liquid in a container or receptacle rises to the flood-level.

(23) "Flush Tank" means that portion of a toilet that is designed to contain sufficient water to adequately flush the fixture.

(24) "Flush Valve" means a device located at the bottom of a flush tank for flushing a toilet.

(25) "Flushometer Valve" means a device which discharges a predetermined quantity of water to a fixture for flushing purposes and is closed by direct water pressure.

(26) "Grade" means the fall (slope) of a pipe in reference to a horizontal plane expressed in inches per foot length.

(27) "Horizontal Branch" means any pipe extending laterally, which receives the discharge from one or more fixture drains and connects to the main drain.

(28) "Horizontal Pipe" means any pipe or fitting which makes an angle of not more than 45 degrees with the horizontal.

(29) "Individual Vent" means a pipe installed to vent a fixture drain.

(30) "Inlet Coupling" means the terminal end of the water system to which the water service connection is attached. It may be a swivel fitting or threaded pipe end.

(31) "Main" means the principal artery of the system to which branches may be connected.

(32) "Main Drain" means the lowest pipe of a drainage system which receives sewage from all the fixtures within a mobile home and conducts these wastes to the drain outlet.

(33) "Main Vent" means the principal artery of the venting system to which vent branches may be connected.

(34) "Offset" means a combination of pipe and/or fittings that brings one section of the pipe out of line but into a line parallel with the other section.

(35) "Pitch." See Grade.

(36) "Plumbing Fixtures" means receptacles, devices, or appliances which are supplied with water or which receive liquid or liquid-borne wastes for discharge into the drainage system.

(37) "Plumbing System" means the water supply and distribution pipes; plumbing fixtures, faucets and traps; soil, waste and vent pipes; and water-treating or water-using equipment.

(38) "Primary Vent." See Main Vent.

(39) "Relief Vent" means an auxiliary vent which permits additional circulation of air in or between drainage and vent systems.

(40) "Secondary Vent" means any vent other than the main vent or those serving each toilet.

(41) "Sewage" means any liquid waste containing animal or vegetable matter in suspension or solution, and may include liquids containing chemicals in solution.

(42) "Siphonage" means the loss of water seal from fixture traps resulting from partial vacuum in the drainage system which may be of either of the following two types, or a combination of the two: (a.) Self-siphonage resulting from vacuum in a fixture drain generated solely by the discharge of the fixture served by that drain, or, (b.) Induced siphonage resulting from vacuum in the drainage system generated by the discharge of one or more fixtures other than the one under observation.

(43) "Toilet Drain" means that part of the drainage piping which receives the discharge from each individual toilet.

(44) "Trap" means a fitting or device designed and constructed to provide a liquid seal that will prevent the back passage of air without materially affecting the flow of liquid waste through it.

(45) "Trap Arm" means the portion of a fixture drain between a trap and its vent.

(46) "Trap Seal" means the vertical depth of liquid that a trap will retain.

(47) "Vacuum Breaker." See Backflow Preventer.

(48) "Vent Cap" means the device or fitting which protects the vent pipe from foreign substance with an opening to the atmosphere equal to the area of the vent it serves.

(49) "Vent System" means that part of a piping installation which provides circulation of air within a drainage system.

(50) "Vertical Pipe" means any pipe or fitting which makes an angle of not more than 45 degrees or less with the vertical.

(51) "Water Connection" means the fitting or point of connection for the mobile home water distribution system designed for connection to a water supply.

(52) "Water Connector" means the removable extension connecting the mobile home water distribution system to the water supply.

(53) "Water Distribution System" means potable water piping within or permanently attached to the mobile home.

(54) "Wet Vent" means a vent which also serves as a drain for one or more fixtures.

(55) "Wet Vented Drainage System" means the specially designed system of drain piping that also vents one or more plumbing fixtures by means of a common waste and vent pipe.

##### § 280.603 General requirements.

(a) *Minimum requirements.* Any plumbing system installed in a mobile home shall conform, at least, with the provisions of this subpart.

(1) *General.* The plumbing system shall be of durable material, free from defective workmanship, and so designed and constructed as to give satisfactory service for a reasonable life expectancy.

(2) *Conservation.* Water closets shall be selected and adjusted to use the minimum quantity of water consistent with proper performance and cleaning.

(3) *Connection to drainage system.* All plumbing, fixtures, drains, appurtenances, and appliances designed or used to receive or discharge liquid waste or sewage shall be connected to the mobile home drainage system in a manner provided by this standard.

(4) *Workmanship.* All design, construction, and workmanship shall be in conformance with accepted engineering practices and shall be of such character as to secure the results sought to be obtained by this standard.

(5) *Components.* Plumbing materials, devices, fixtures, fittings, equipment, appliances, and accessories intended for use in or attached to a mobile home, and not shown in the Table in § 280.604, shall be listed or certified by an approved listing agency, or be specifically approved by the Department when listing by an approved listing agency is not available.

(6) *Prohibited fittings and practices.*

(i) Drainage or vent piping shall not be

drilled and tapped for the purpose of making connections. (ii) Except as specifically provided elsewhere in this standard, vent pipes shall not be used as waste or drain pipes. (iii) Fittings, connections, devices, or methods of installation that obstruct or retard the flow of sewage, or air in the drainage or venting systems in an amount greater than the normal frictional resistance to flow shall not be used unless their use is acceptable in this standard or their use is accepted as having a desirable and acceptable function of ultimate benefit to the proper and continued functioning of the plumbing system. (iv) Cracks, holes, or other imperfections in materials shall not be concealed by welding, brazing, or soldering or by paint, wax, tar, or other leak-sealing or repairing agents. (v) Piping, fixtures or equipment shall be located so as not to interfere with the normal use or with the normal operation and use of windows, doors or other required facilities. (vi) Galvanized pipe shall not be bent or welded.

(7) *Alignment of fittings.* All valves, pipes, and fittings shall be installed in correct relationship to the direction of flow.

(b) *Protective requirements.*

(1) *Cutting structural members.* Structural members shall not be unnecessarily or carelessly weakened by cutting or notching.

(2) *Exposed piping.* All piping, pipe threads, hangers, and support exposed to the weather, water, mud, and road hazard, and subject to damage therefrom, shall be painted, coated, wrapped, or otherwise protected from deterioration.

(3) *Road damage.* Pipes, supports, drains, outlets, or drain hoses shall not extend or protrude in a manner where they could be unduly subjected to damage during transit.

(4) *Freezing.* All piping and fixtures subject to freezing temperatures shall be insulated or protected to prevent freezing, under normal occupancy. All piping, except the fixture trap, shall be designed to allow complete gravity drainage.

(5) *Rodent resistance.* All exterior openings around piping and equipment shall be sealed to resist the entrance of rodents.

(6) *Piping and electrical wiring* shall not pass through the same holes in walls, floors or roofs. Plastic piping shall not be exposed to heat in excess of manufacturers recommendation or radiation from heat producing appliances.

##### § 280.604 Materials.

(a) *Minimum standards.* Materials, fixtures, or devices used or entering into the construction of plumbing systems in any mobile home shall be free from defects and shall conform to approved standards or to applicable standards in the following Table.

(b) *Specific usage.* Each of the sections following the Table indicates specifically the type of material presently permitted for use in the various parts of the plumbing system.

<sup>1</sup> With addenda.

#### § 280.605 Joints and connections.

(a) *Tightness.* Joints and connections in the plumbing system shall be gastight and watertight for the pressures required under testing procedures.

(1) *Assembling of pipe.* All joints and connections shall be correctly assembled for tightness. Pipe threads shall be fully engaged with the threads of the fitting. Plastic pipe and copper tubing shall be inserted to the full depth of the solder cup or welding sockets of each fitting. Pipe threads and slip joints shall not be wrapped with string, paper, putty, or similar fillers.

(2) *Threaded joints.* Threads for screw pipe and fittings shall conform to the approved or listed standard. Pipe ends shall be reamed out to size of bore. All burrs, chips, cutting oil and foreign matter shall be removed. Pipe joint cement or thread lubricant shall be of approved type and applied to male threads only.

(3) *Solder joints.* Solder joints for tubing shall be made with approved or listed solder type fittings. Surfaces to be soldered shall be cleaned bright. The joints shall be properly fluxed with non-corrosive paste type flux and made with approved or listed 50-50 solder or an approved solder having a higher melting temperature.

(4) *Plastic pipe, fittings and joints.* Plastic pipe and fittings shall be joined by installation methods recommended by the manufacturer or in accordance with the provisions of a recognized, approved, or listed standard.

(5) *Union joints.* Metal unions in water piping shall have metal-to-metal ground seats.

(6) *Flared joints.* Flared joints for soft-copper water tubing shall be made with approved or listed fittings. The tubing shall be expanded with a proper flaring tool.

(7) *Cast iron soil pipe joints.* Approved or listed cast iron pipe may be joined as follows: (i) Approved or listed hubless pipe as per the manufacturer's recommendation. (ii) Hub and plain-end soil pipe may be joined by compression fittings per the manufacturer's recommendation.

#### § 280.606 Traps and cleanouts.

(a) *Traps.* (1) *Traps required.* Each plumbing fixture, except listed toilets, shall be separately trapped by approved water seal "P" traps. All traps shall be effectively vented.

(2) *Dual fixtures.* A two-compartment sink, two single sinks, two lavatories, or a single sink and a single lavatory with waste outlets not more than 30 inches apart and in the same room and flood level rims at the same level may be connected to one "P" trap and may be considered as a single fixture for the purpose of drainage and vent requirements.

(3) *Prohibited traps.* A trap which depends for its seal upon concealed interior partitions shall not be used. Full

"S" traps, bell traps, drum traps, crown-vented traps, and running traps are prohibited. Fixtures shall not be double-trapped.

(4) *Material and design.* Each trap shall be self-cleaning with a smooth and uniform interior waterway. Traps shall be manufactured of cast iron, cast brass, or drawn brass tubing of not less than No. 20 Brown and Sharpe gage, or approved or listed plastic, or other approved or listed material. Union joints for a trap shall be beaded to provide a shoulder for the union nut. Each trap shall have the manufacturer's name stamped or cast in the body of the trap, and each tubing trap shall show the gage of the tubing.

(5) *Trap seal.* Each "P" trap shall have a water seal of not less than 2 inches and not more than 4 inches and shall be set true to its seal.

(6) *Size.* Traps shall be not less than 1½ inches in diameter. A trap shall not be larger than the waste pipe to which it is connected.

(7) *Location.* Each trap shall be located as close to its vent and to its fixture outlet as structural conditions will permit.

(8) *Length of tailpiece.* The vertical distance from a trap to the fixture outlet shall not exceed 24 inches.

(9) *Installation.* (i) *Grade of trap arm.* The piping between a "P" trap and the fixture tee or the vented waste line shall be graded ¼ inch per foot towards the vent and in no event shall have a slope greater than its diameter. The vent opening at fixture tees shall not be below the weir of the "P" trap outlet. (ii) *Trap arm offset.* The piping between the "P" trap and vent may change direction or be offset horizontally with the equivalent of no more than 180 degrees total change in direction with a maximum of 90 degrees by any one fitting. (iii) *Concealed traps.* Traps with mechanical joints shall be accessible for repair and inspection. (iv) *Removability of Traps, Etc.* Traps shall be designed and installed so the "U" bend is removable without removing the strainers from the fixture. Continuous waste and tail pieces which are permanently attached to the "U" bend shall also be removable without removing the strainer from the fixture.

(b) *Cleanout openings.* (1) *Location of cleanout fittings.* (i) Cleanouts shall be installed if the drainage system cannot be cleaned through fixtures, drains, or vents. Cleanouts shall also be provided when fittings of more than 45 degrees are used to affect an offset, except where long turn elbows are used which provide sufficient "sweep" for cleaning. (ii) A full size cleanout shall be installed at the upper end of any section of drain piping which does not have the required minimum slope of ¼ inch per foot grade. (iii) A cleaning tool shall not be required to pass through more than 360 degrees of fittings, excluding removable "P" traps, to reach any part of the drainage system.

(2) *Access to cleanouts.* Cleanouts shall be accessible through an unobstructed minimum clearance of 12 inches directly in front of the opening. Each cleanout fitting shall open in a direction

#### RULES AND REGULATIONS

opposite to the flow or at right angles to the pipe. Concealed cleanouts that are not provided with access covers shall be extended to a point above the floor or outside of the mobile home, with pipe and fittings installed, as required, for drainage piping without sags and pockets.

(3) *Material.* Plugs and caps shall be brass or approved or listed plastic, with screw pipe threads.

(4) *Design.* Cleanout plugs shall have raised heads except that plugs at floor level shall have counter-sunk slots.

#### § 280.607 Plumbing fixtures.

(a) *General requirements.* (1) *Quality of fixtures.* Plumbing fixtures shall have smooth impervious surfaces, be free from defects and concealed fouling surfaces, be capable of resisting road shock and vibration, and shall conform in quality and design to listed standards. Fixtures shall be permanently marked with the manufacturer's name.

(2) *Strainers.* The waste outlet of all plumbing fixtures, other than toilets, shall be equipped with a drain fitting that will provide an adequate unobstructed waterway.

(3) *Fixture connections.* Fixture tailpieces and continuous wastes in exposed or accessible locations shall be not less than No. 20 Brown and Sharpe gage seamless drawn-brass tubing or other approved pipe or tubing materials. In accessible fixture connections shall be constructed according to the requirements for drainage piping. Each fixture tailpiece, continuous waste, or waste and overflow shall be not less than 1½ inches for sinks of two or more compartments, dishwashers, clothes washing machines, laundry tubs, bath tubs, and not less than 1¼ inches for lavatories and single compartment sinks having a 2 inch maximum drain opening.

(4) *Concealed connections.* Concealed slip joint connections shall be provided with adequately sized unobstructed access panels and shall be accessible for inspection and repair.

(5) *Directional fitting.* An approved or listed "Y" or other directional-type branch fitting shall be installed in every tailpiece or continuous waste that receives the discharge from food waste disposal units, dishwashing, or other forced-discharge fixture or appliance. (See also § 280.607(b)(4)(ii).)

(b) *Fixtures.* (1) *Spacing.* All plumbing fixtures shall be so installed with regard to spacing as to be reasonably accessible for their intended use.

(2) *Toilets.* (i) Toilets shall be designed and manufactured according to approved or listed standards and shall be equipped with a water flushing device capable of adequately flushing and cleaning the bowl at each operation of the flushing mechanism. (ii) Toilet flushing devices shall be designed to replace the water seal in the bowl after each operation. Flush valves, flushometer valves, and ball cocks shall operate automatically to shut off at the end of each flush or when the tank is filled to operating capacity. (iii) Flush tanks shall be fitted with an overflow pipe

large enough to prevent flooding at the maximum flow rate of the ball cock. Overflow pipes shall discharge into the toilet, through the tank. (iv) Toilets that have fouling surfaces that are not thoroughly washed at each discharge shall be prohibited. Any toilet that might permit the contents of the bowl to be siphoned back into the water system shall be prohibited. (v) Floor connection. Toilets shall be securely bolted to an approved flange or other approved fitting which is secured to the floor by means of corrosion-resistant screws. The bolts shall be of solid brass or other corrosion-resistant material and shall be not less than ¼ inch in diameter. A watertight seal shall be made between the toilet and flange or other approved fitting by use of a gasket or sealing compound.

(3) *Shower compartment.* (i) Each compartment stall shall be provided with an approved watertight receptor with sides and back extending at least 1 inch above the finished dam or threshold. In no case shall the depth of a shower receptor be less than 2 inches or more than 9 inches measured from the top of the finished dam or threshold to the top of the drain. The wall area shall be constructed of smooth, noncorrosive, and nonabsorbent waterproof materials to a height not less than 6 feet above the floor level. Such walls shall form a watertight joint with each other and with the bathtub, receptor or shower floor. The floor of the compartment shall slope uniformly to the drain at not less than one-fourth nor more than one-half inch per foot. (ii) The joint around the drain connection shall be made watertight by a flange, clamping ring, or other approved listed means. (iii) Shower doors and tub and shower enclosures shall be constructed so as to be waterproof and, if glazed, glazing shall comply with the Standard for Transparent Safety Glazing Material used in Buildings (ANSI Z97.1-1972). (iv) Prefabricated plumbing fixtures shall be approved or listed.

(4) *Dishwashing machines.* (i) Dishwashing machine shall not be directly connected to any waste piping, but shall discharge its waste through a fixed air gap installed above the machine. The drain connection from the air gap may connect to an individual trap, to a directional fitting installed in the sink tailpiece, or to the opening provided on the inlet side of a food waste disposal unit. (ii) Drain from a dishwashing machine shall not be connected to a sink tailpiece, continuous waste line, or trap on the discharge side of a food waste disposal unit. (5) *Clothes washing machines.* (i) Clothes washing machines shall drain either into a properly vented trap, into a laundry tub tailpiece with watertight connections, into an open standpipe receptor, or over the rim of a laundry tub. (ii) Standpipes shall be 1½ inches minimum nominal iron pipe size, 1½ inches diameter nominal brass tubing not less than No. 20 Brown and Sharpe gage, or 1½ inches approved plastic materials. Receptors shall discharge into a vented trap or shall be connected to a laundry tub tailpiece by means of an approved

XUM

or listed directional fitting. Each standpipe shall extend not less than 18 inches or more than 30 inches above its trap and shall terminate in an accessible location no lower than the top of clothes washing machine. A removable tightfitting cap or plug shall be installed on the standpipe when clothes washer is not provided. (iii) Clothes washing machine drain shall not be connected to the tailpiece, continuous waste, or trap of any sink or dishwashing machine.

(c) *Installation.* (1) *Access.* Each plumbing fixture and standpipe receptor shall be located and installed in a manner to be accessible for usage, cleaning, repair and replacement.

(2) *Alignment.* Fixtures shall be set level and in true alignment with adjacent walls. Where practical, piping from fixtures shall extend to nearest wall.

(3) *Brackets.* Wall-hung fixtures shall be rigidly attached to walls by metal brackets or supports without any strain being transmitted to the piping connections. Flush tanks shall be securely fastened to toilets or to the wall with corrosion-resistant materials.

(4) *Tub supports.* Bathtub rims at wall shall be supported on metal hangers or on end-grain wood blocking attached to the wall unless otherwise recommended by the manufacturer of the tub.

#### § 280.608 Hangers and supports.

(a) *Strains and stresses.* Piping in a plumbing system shall be installed without undue strains and stresses, and provision shall be made for expansion, contraction, and structural settlement.

(b) *Piping supports.* Piping shall be secured at sufficiently close intervals to keep the pipe in alignment and carry the weight of the pipe and contents. Unless otherwise stated in the appendix the standards for specific materials shown in the Table in § 208.604(a), or unless specified by the pipe manufacturer, plastic drainage piping shall be supported at intervals not to exceed 4 feet and plastic water piping shall be supported at intervals not to exceed 3 feet.

(c) *Hangers and anchors.* (1) Hangers and anchors shall be of sufficient strength to support their proportional share of the pipe alignment and prevent rattling.

(2) Piping shall be securely attached to the structure by hangers, clamps, or brackets which provide protection against motion, vibration, road shock, or torque in the chassis.

(3) Hangers and straps supporting plastic pipe shall not compress, distort, cut or abrade the piping and shall allow free movement of the pipe.

#### § 280.609 Water distribution system.

(a) *Water supply.* (1) *Supply piping.* Piping systems shall be sized to provide an adequate quantity of water to each plumbing fixture at a flow rate sufficient to keep the fixture in a clean and sanitary condition without any danger of backflow or siphonage (See Table in 1424.090(f)).

(2) *Hot water supply.* Each mobile home equipped with a kitchen sink, and

bathtub and/or shower shall be provided with a hot water supply system including a listed water heater.

(b) *Water outlets and supply connections.* (1) *Water connection.* Each mobile home with a water distribution system shall be equipped with a ¾-inch threaded inlet connection located within the rear half of the length of the mobile home. This connection shall be tagged or marked "Fresh Water Connection" (or "Fresh Water Fill"). A matching cap or plug shall be provided to seal the water inlet when it is not in use, and shall be permanently attached to the mobile home or water supply piping. When a master cold water shutoff full flow valve is not installed on the main feeder line in an accessible location, the manufacturer's installation instructions shall indicate that such a valve is to be installed in the water supply line adjacent to the home. When a mobile home includes expandable rooms or is composed of two or more units, fittings or connectors designed for such purpose shall be provided to connect any water piping. When not connected, the water piping shall be protected by means of matching threaded caps or plugs.

(2) *Prohibited connections.* (i) The installation of potable water supply piping or fixture or appliance connections shall be made in a manner to preclude the possibility of backflow. (ii) No part of the water system shall be connected to any drainage or vent piping.

(3) *Rim outlets.* The outlets of faucets, spouts, and similar devices shall be spaced at least 1 inch above the flood level of the fixture.

(4) *Appliance connections.* Water supplies connected to clothes washing or dishwashing machines shall be protected by an approved or listed fixed air gap provided within the appliance by the manufacturer.

(5) *Flushometer valves or manually operated flush valves.* An approved or listed vacuum breaker shall be installed and maintained in the water supply line on the discharge side of a toilet flushometer valve or manually operated flush valve. Vacuum breakers shall have a minimum clearance of 6 inches above the flood level of the fixture to the critical level mark unless otherwise permitted in their approval.

(6) *Flush tanks.* Toilet flush tanks shall be equipped with an approved or listed anti-siphon ball cock which shall be installed and maintained with its outlet or critical level mark not less than 1 inch above the full opening of the overflow pipe.

(c) *Water heater safety devices.* (1) *Relief valves.* (i) All water heaters shall be installed with approved and listed fully automatic valve or valves designed to provide temperature and pressure relief. (ii) Any temperature relief valve or combined pressure and temperature relief valve installed for this purpose shall have the temperature sensing element immersed in the hottest water within the upper 6 inches of the tank. It shall be set to start relieving at a pressure of 150 psi

or the rated working pressure of the tank whichever is lower and at or below a water temperature of 210° F. (iii) Relief valves shall be provided with full-sized drains, with cross sectional areas equivalent to that of the relief valve outlet, which shall be directed downward and discharge beneath the mobile home. Drain lines shall be of a material listed for hot water distribution and shall drain fully by gravity, shall not be trapped, and shall not have their outlets threaded, and the end of the drain shall be visible for inspection.

(d) *Materials.* (1) *Piping material.* Water pipe shall be of standard weight brass, galvanized wrought iron, galvanized steel, Type K, L or M copper tubing, approved or listed plastic or other approved or listed material. (i) Plastic Piping. All plastic water piping and fittings in mobile homes must be approved or listed for use with hot water.

(2) *Fittings.* Appropriate fittings shall be used for all changes in size and where pipes are joined. The material and design of fittings shall conform to the type of piping used. Special consideration shall be given to prevent corrosion when dissimilar metals are joined. (i) Fittings for screw piping shall be standard weight galvanized iron for galvanized iron and steel pipe, and of brass for brass piping. They shall be installed where required for change in direction, reduction of size, or where pipes are joined together. (ii) Fittings for copper tubing shall be cast brass or drawn copper (sweat-soldered) or shall be approved or listed fittings for the purpose intended.

(3) *Prohibited material.* Used piping materials shall not be permitted. Those pipe dopes, solder fluxes, oils, solvents, chemicals, or other substances that are toxic, corrosive, or otherwise detrimental to the water system shall not be used. (e) *Installation of piping.* (1) *Minimum requirement.* All piping equipment, appurtenances, and devices shall be installed in workmanlike manner and shall conform with the provisions and intent of this standard.

(2) *Screw pipe.* Iron pipe-size brass or galvanized iron or steel pipe fittings shall be joined with approved or listed standard pipe threads fully engaged in the fittings. Pipe ends shall be reamed to the full bore of the pipe. Pipe-joint compound shall be insoluble in water, shall be nontoxic and shall be applied to male threads only.

(3) *Solder fittings.* Joints in copper water tube shall be made by the appropriate use of approved cast brass or wrought copper fittings, properly soldered together. The surface to be soldered shall be thoroughly cleaned bright mechanically. The joints shall be properly fluxed and made with approved solder.

(4) *Flared fittings.* A flaring tool shall be used to shape the ends of flared tubing to match the flare of fittings. (5) *Plastic pipe and fittings.* Plastic pipe and fittings shall be joined by installation methods recommended by the manufacturer or in accordance with provisions of a listed standard.

(f) *Size of water supply piping—(1) Minimum size.* The size of water supply piping and branch lines shall not be less than sizes shown in the following Table:

Number of fixtures	Tubing (nominal)		Pipe iron (4" size) (inches)
	Diameter (inches)	Outer diameter (inches)	
1	1 1/4	1 1/2	1 1/2
2	1 1/2	1 3/4	1 3/4
3	1 3/4	2	2
4	2	2 1/4	2 1/4
5 or more	2 1/4	2 1/2	2 1/2

1 6 ft maximum length.

*Exceptions to table:* ¾ inch nominal diameter or ½ inch OD minimum size for clothes washing or dishwashing machines, unless larger size is recommended by the fixture manufacturer. ½ inch nominal diameter or ¾ inch OD minimum size for flushometer or metering type valves unless otherwise specified in their listing. No galvanized screw piping shall be less than ½ inch iron pipe size.

(2) *Sizing procedure.* Both hot and cold water piping systems shall be computed by the following method: (i) *Size of branch.* Start at the most remote outlet on any branch of the hot or cold water piping and progressively count towards the water service connection, computing the total number of fixtures supplied along each section of piping. Where branches are joined together, the number of fixtures on each branch shall be tallied so that no fixture is counted twice. Following down the left-hand column of the preceding Table a corresponding number of fixtures will be found. The required pipe or tubing size is indicated in the other columns on the same line. (ii) A water heater, food waste disposal unit, evaporative cooler or ice maker shall not be counted as a water-using fixture when computing pipe sizes.

(g) *Line valves.* Valves, when installed in the water supply distribution system (except those immediately controlling one fixture supply) and when fully opened, shall have a cross-sectional area of the smallest orifice or opening, through which the water flows, at least equal to the cross-sectional area of the nominal size of the pipe in which the valve is installed.

(h) *Line valves.* Valves, when installed in the water supply distribution system (except those immediately controlling one fixture supply) and when fully opened, shall have a cross-sectional area of the smallest orifice or opening, through which the water flows, at least equal to the cross-sectional area of the nominal size of the pipe in which the valve is installed.

#### § 280.610 Drainage systems.

(a) *General.* (1) Each fixture directly connected to the drainage system shall be installed with a water seal trap (§ 208.606(a)).

(2) The drainage system shall be designed to provide an adequate circulation of air in all piping with no danger of siphonage, aspiration, or forcing of trap seals under conditions of ordinary use.

(b) *Materials—(1) Pipe.* Drainage piping shall be standard weight steel, wrought iron, brass, copper tube DWV, listed plastic, cast iron, or other listed or approved materials.

(2) *Fittings.* Drainage fittings shall be recessed drainage pattern with smooth interior waterways of the same diameter as the piping and shall be of a material conforming to the type of piping used. Drainage fittings shall be designed to provide for a ¼ inch per foot grade in horizontal piping. (i) Fittings for screw pipe shall be cast iron, malleable iron, brass, or listed plastic with standard pipe threads. (ii) Fittings for copper tubing shall be cast brass or wrought copper. (iii) Socket-type fittings for plastic piping shall comply with listed standards. (iv) Brass or bronze adaptor or wrought copper fittings shall be used to join copper tubing to threaded pipe.

(c) *Drain outlets—(1) Location of drain.* Each mobile home shall have only one drain outlet which shall terminate in the rear half section. A permanent marker, stating "Drain Outlet", shall be visibly located near the drain outlet.

(2) *Clearance from drain outlet.* The drain outlet shall be provided with a minimum clearance of 3 inches in any direction from all parts of the structure or appurtenances and with not less than 18 inches unrestricted clearance directly in front of the drain outlet.

(3) *Drain connector.* The drain connector shall not be smaller than the piping to which it is connected and shall be equipped with a water-tight cap or plug matching the drain outlet. The cap or plug shall be permanently attached to the mobile home or drain outlet.

(4) The drain outlet and drain connector shall not be less than 3 inches inside diameter.

(5) *Preassembly of drain lines.* Drain lines, provided by the manufacturer, located under the mobile home, designed to bring the drain system to one distribution point and which may be damaged in transit, must be designed for proper site assembly.

(d) *Fixture connections.* Drainage piping shall be provided with approved or listed inlet fittings for fixture connections, correctly located according to the size and type of fixture to be connected.

(1) *Toilet connection.* The drain connection for each toilet shall be 3 inches minimum inside diameter and shall be fitted with an iron, brass, or listed plastic floor flange adaptor ring securely screwed, soldered or otherwise permanently attached to the drain piping, in an approved manner and securely fastened to the floor.

(e) *Size of drainage piping—(1) Fixture load.* Except as provided by § 208.611 (d) (2), drain pipe sizes shall be determined by the type of fixture and the total number connected to each drain. (i) A 1½ inch minimum diameter piping shall be required for one and not more than three individually vented fixtures. (ii) A 2-inch minimum diameter piping shall be required for four or more fixtures individually vented. (iii) A 3-inch minimum diameter piping shall be required for toilets.

(f) *Wet-vented drainage system.* Plumbing fixture traps may connect into a wet-vented drainage system which shall be designed and installed to accom-

modate the passage of air and waste in the same pipe.

(1) *Horizontal piping.* All parts of a wet-vented drainage system, including the connected fixture drains, shall be horizontal except for wet-vented vertical risers which shall terminate with a 1½ inch minimum diameter continuous vent. Where required by structural design, wet-vented drain piping may be offset vertically when other vented fixture drains or relief vents are connected to the drain piping at or below the vertical offsets.

(2) *Size.* A wet-vented drain pipe shall be 2 inches minimum diameter and at least one pipe size larger than the largest connected trap or fixture drain. Not more than three fixtures may connect to a 2-inch diameter wet-vented drain system.

(3) *Length of trap arm.* Fixture traps shall be located within the distance given in § 208.611(c) (5). Not more than one trap shall connect to a trap arm.

(g) *Offsets and branch fittings—(1) Changes in direction.* Changes in direction of drainage piping shall be made by the appropriate use of approved or listed fittings, and shall be of the following angles: 11¼, 22½, 45, 60, or 90 degrees; or other approved or listed fittings or combination of fittings with equivalent radius or sweep.

(2) *Horizontal to vertical.* Horizontal drainage lines, connecting with a vertical pipe shall enter through 45-degree "Y" branches, 60-degree "Y" branches, long-turn "TY" branches, sanitary "T" branches, or other approved or listed fittings or combination of fittings having equivalent sweep. Fittings having more than one branch at the same level shall not be used, unless the fitting is constructed so that the discharge from any one branch cannot readily enter any other branch. However, a double sanitary "T" may be used when the drain line is increased not less than two pipe sizes.

(3) *Horizontal to horizontal and vertical to horizontal.* Horizontal drainage lines connecting with other horizontal drainage lines or vertical drainage lines shall enter through 45-degree "Y" branches, long-turn "TY" branches, or other approved or listed fittings or combination of fittings having equivalent sweep.

(h) *Grade of Horizontal Drainage Piping.* Except for fixture connections on the inlet side of the trap, horizontal drainage piping shall be run in practical alignment and have a uniform grade of not less than ¼ inch per foot toward the mobile home drain outlet. Where it is impractical, due to the structural features or arrangement of any mobile home, to obtain a grade of ¼ inch per foot, the pipe or piping may have a grade of not less than ⅛ inch per foot, when a full size cleanout is installed at the upper end.

#### § 280.611 Vents and venting.

(a) *General.* Each plumbing fixture trap shall be protected against siphonage and back pressure, and air circula-

XUM

tion shall be ensured throughout all parts of the drainage system by means of vents installed in accordance with the requirements of this section and as otherwise required by this standard.

(b) **Materials.**—(1) *Pipe.* Vent piping shall be standard weight steel, wrought iron, brass, copper tube DWV, listed plastic, cast iron or other approved or listed materials.

(2) *Fittings.* Appropriate fittings shall be used for all changes in direction or size and where pipes are joined. The material and design of vent fittings shall conform to the type of piping used. (i) Fittings for screw pipe shall be cast iron, malleable iron, plastic, or brass, with standard pipe threads. (ii) Fittings for copper tubing shall be cast brass or wrought copper. (iii) Fittings for plastic piping shall be made to approved applicable standards. (iv) Brass adaptor fittings or wrought copper shall be used to join copper tubing to threaded pipe. (v) Listed rectangular tubing may be used for vent piping only providing it has an open cross section at least equal to the circular vent pipe required. Listed transition fittings shall be used.

(c) *Size of vent piping.*—(1) *Main vent.* The drain piping for each toilet shall be vented by a 1½ inch minimum diameter vent or rectangular vent of venting cross section equivalent to or greater than the venting cross section of a 1½ inch diameter vent, connected to the main drain by one of the following methods: (i) A 1½ inch diameter (min.) individual vent pipe or equivalent directly connected to the toilet drain within the distance allowed in § 208.611(c)(5), for 3-inch trap arms diminished in size through the roof. (ii) A 1½ inch diameter (min.) continuous vent, or equivalent, indirectly connected to the toilet drain piping through a 2-inch wet-vented drain that carries the waste of not more than one fixture, or, (iii) Two or more vented drains when at least one is wet-vented, or 2-inch diameter (minimum), and each drain is separately connected to the main drain. At least one of the drains shall connect downstream from the toilet within the distance allowed in § 208.611(c)(5) for 3-inch trap arms.

(d) *Anti-siphon trap vent.* An anti-siphon trap vent may be used as a secondary vent system for plumbing fixtures protected by traps not larger than 1½ inches, when installed in accordance with the manufacturers' recommendations and the following conditions: (i) Not more than two fixtures individually protected by the device shall be drained by a common 1½ inch drain. (ii) Minimum drain size for three or more fixtures individually protected by the device shall be 2 inches. (iii) A primary vent stack must be installed to vent the main drain at the point of heaviest drainage fixture unit loading. (iv) The device shall be installed in a location that permits a free flow of air and shall be accessible for inspection, maintenance, and replacement and the sealing function shall be at least 6 inches above the top of the trap arm.

(v) Materials for the anti-siphon trap vent shall be as follows: cap and housing shall be listed acrylonitrile-butadiene styrene, DWV grade; stem shall be DWV grade nylon or acetal; spring shall be stainless steel wire, type 302; sealing disc shall be neoprene, conforming to ASTM C 564-70, or, silicone rubber, low and high temperature and tear resistant, conforming to F.S. ZZ-R-765B and MIL-L-10547.

(e) *Grade and connections.*—(1) *Horizontal vents.* Each vent shall extend vertically from its fixture "T" or point of connection with the waste piping to a point not less than 6 inches above the extreme flood level of the fixture it is venting before offsetting horizontally or being connected with any other vent pipe. Vents for horizontal drains shall connect above the centerline of the drain piping ahead (downstream) of the trap. Where required by structural conditions, vent piping may offset below the rim of the fixture at the maximum angle or height possible.

(f) *Vent terminal.*—(1) *Roof extension.* Each vent pipe shall extend through its flashing and terminate vertically, undiminished in size, not less than 2 inches above the roof. Vent openings shall not be less than 3 feet away from any motor-driven air intake that opens into habitable areas.

(2) *Flashing.* The opening around each vent pipe shall be made watertight by an adequate flashing or flashing material. (g) *Vent caps.* Vent caps, if provided, shall be of the removable type (without removing the flashing from the roof). When vent caps are used for roof space ventilation and the caps are identical to vent caps used for the plumbing system, plumbing system caps shall be identified with permanent markings.

#### § 280.612 Test and inspection.

(a) *Water system.* All water piping in the water distribution system shall be subjected to a pressure test. The test shall be made by subjecting the system to air or water at 100 psi for 15 minutes without loss of pressure.

(b) *Drainage and vent system and plumbing fixtures.* The waste and vent system shall be tested by one of the three following alternate methods for evidence or indication of leakage:

(1) *Water test.* Before plumbing fixtures are connected, all of the openings into the piping shall be plugged and the entire piping system subjected to a static water test for 15 minutes by filling it with water to the top of the highest vent opening. There shall be no evidence of leakage.

(2) *Air test.* After all fixtures have been installed, the traps filled with water, and the remaining openings securely plugged, the entire system shall be subjected to a 2-inch (manometer) water column air pressure test. If the system loses pressure, leaks may be located with soap suds spread on the exterior of the piping (Bubble test).

(3) *Flood level test.* The mobile home shall be in a level position, all fixtures

shall be connected, and the entire system shall be filled with water to the rim of the toilet bowl. (Tub and shower drains shall be plugged). After all trapped air has been released, the test shall be sustained for not less than 15 minutes without evidence of leaks. Then the system shall be unplugged and emptied. The waste piping above the level of the toilet bowl shall then be tested and show no indication of leakage when the high fixtures are filled with water and emptied simultaneously to obtain the maximum possible flow in the drain piping.

(c) *Fixture test.* The plumbing fixtures and connections shall be subjected to a flow test by filling them with water and checking for leaks and retarded flow while they are being emptied.

(d) *Shower compartments.* Shower compartments and receptors shall be tested for leaks prior to being covered by finish material. Each pan shall be filled with water to the top of the dam for not less than 15 minutes.

#### Subpart H—Heating, Cooling and Fuel Burning Systems

##### § 280.701 Scope.

Subpart H of this standard covers the heating, cooling and fuel burning equipment installed within, on, or external to a mobile home.

##### § 280.702 Definitions.

(a) The definitions in this subpart apply to Subpart H only.

(1) "Accessible," when applied to a fixture, connection, appliance or equipment, means having access thereto, but which may require the removal of an access panel, door or similar obstruction.

(2) "Air Conditioner Blower Coil System" means a comfort cooling appliance where the condenser section is placed external to the mobile home and evaporator section with circulating blower attached to the mobile home air supply duct system. Provision must be made for a return air system to the evaporator/blower section. Refrigerant connection between the two parts of the system is accomplished by tubing.

(3) "Air Conditioner Split System" means a comfort cooling appliance where the condenser section is placed external to the mobile home and the evaporator section incorporated into the heating appliance or with a separate blower/coil section within the mobile home. Refrigerant connection between the two parts of the system is accomplished by tubing.

(4) "Air Conditioning Condenser Section" means that portion of a refrigerated air cooling or (in the case of a heat pump) heating system which includes the refrigerant pump (compressor) and the external heat exchanger.

(5) "Air Conditioning Evaporator Section" means a heat exchanger used to cool or (in the case of a heat pump) heat air for use in comfort cooling (or heating) the living space.

(6) "Air Conditioning Self Contained System" means a comfort cooling appliance combining the condenser section, evaporator and air circulating blower

into one unit with connecting ducts for the supply and return air systems.

(7) "Air Duct" means conduits or passageways for conveying air to or from heating, cooling, air conditioning or ventilation equipment, but not including the plenum.

(8) "Automatic Pump (Oil Lifter)" means a pump, not an integral part of the oil-burning appliance, that automatically pumps oil from the supply tank and delivers the oil under a constant head to an oil-burning appliance.

(9) "Btu, British Thermal Units" means the quantity of heat required to raise the temperature of one pound of water one degree Fahrenheit.

(10) "Btuh" means British thermal units per hour.

(11) "Burner" means a device for the final conveyance of fuel or a mixture of fuel and air to the combustion zone.

(12) "Central Air Conditioning System" means either an air conditioning split system or an external combination heating/cooling system.

(13) "Class 0 Air Ducts" means ducts of materials and connectors having a fire-hazard classification of zero.

(14) "Class 1 Air Ducts" means ducts of materials and connectors having a flame-spread rating of not over 25 without evidence of continued progressive combustion and a smoke-developed rating of not over 50.

(15) "Class 2 Air Ducts" means ducts of materials and connectors having a flame-spread rating of not over 50 without evidence of continued progressive combustion and a smoke-developed rating of not over 50 for the inside surface and not over 100 for the outside surface.

(16) "Clearance" means the distance between the appliance, chimney, vent, chimney or vent connector or plenum and the nearest surface.

(17) "Connector—Gas Appliance" means a flexible or semi-rigid connector listed as conforming to ANSI Standard Z21.24, Metal Connectors for Gas Appliance, used to convey fuel gas, three feet or less in length (six feet or less for gas ranges), between a gas outlet and a gas appliance in the same room with the outlet.

(18) "Energy Efficiency Ratio (EER)" means the ratio of the cooling capacity output of an air conditioner for each unit of power input.

$$EER = \frac{\text{Capacity (Btuh)}}{\text{Power input (watts)}}$$

(19) "External Combination Heating/Cooling System" means a comfort conditioning system placed external to the mobile home with connecting ducts to the mobile home for the supply and return air systems.

(20) "Factory-Built Fireplace" means a hearth, fire chamber and chimney assembly composed of listed factory-built components assembled in accordance with the terms of listing to form a complete fireplace.

(21) "Fireplace Stove" means a chimney connected solid fuel-burning stove having part of its fire chamber open to the room.

(22) "Fuel Gas Piping System" means the arrangement of piping, tubing, fittings, connectors, valves and devices designed and intended to supply or control the flow of fuel gas to the appliance(s).

(23) "Fuel Oil Piping System" means the arrangement of piping, tubing, fittings, connectors, valves and devices designed and intended to supply or control the flow of fuel oil to the appliance(s).

(24) "Gas Clothes Dryer" means a device used to dry wet laundry by means of heat derived from the combustion of fuel gases.

(25) "Gas Refrigerator" means a gas-burning appliance which is designed to extract heat from a suitable chamber.

(26) "Gas Supply Connection" means the terminal end or connection to which a gas supply connector is attached.

(27) "Gas Supply Connector, Mobile Home" means a listed flexible connector designed for connecting the mobile home to the gas supply source.

(28) "Gas Vents" means factory-built vent piping and vent fittings listed by an approved testing agency, that are assembled and used in accordance with the terms of their listings, for conveying flue gases to the outside atmosphere. (i) "Type B Gas Vent" means a gas vent for venting gas appliances with draft hoods and other gas appliances listed for use with Type B Gas Vents. (ii) "Type BW Gas Vent" means a gas vent for venting listed gas-fired vented wall furnaces.

(29) "Heat Producing Appliance" means all heating and cooking appliances and fuel burning appliances.

(30) "Heating Appliance" means an appliance for comfort heating or for domestic water heating.

(31) *Liquefied Petroleum Gases.* The terms "Liquefied petroleum gases," "LPG" and "LP-Gas" as used in this standard shall mean and include any material which is composed predominantly of any of the following hydrocar-

bons, or mixtures of them: propane, propylene butanes (normal butane or isobutane), and butylenes.

(32) "Plenum" means an air compartment which is part of an air-distributing system, to which one or more ducts or outlets are connected. (i) Furnace supply plenum is a plenum attached directly to, or an integral part of, the air supply outlet of the furnace. (ii) Furnace return plenum is a plenum attached directly to, or an integral part of, the return inlet of the furnace.

(33) "Quick-Disconnect Device" means a hand-operated device which provides a means for connecting and disconnecting a gas supply or connecting gas systems and which is equipped with an automatic means to shut off the gas supply when the device is disconnected.

(34) "Readily Accessible" means direct access without the necessity of removing any panel, door, or similar obstruction.

(35) "Roof Jack" means that portion of a mobile home heater flue or vent assembly, including the cap, insulating means, flashing, and ceiling plate, located in and above the roof of a mobile home.

(36) "Sealed Combustion System Appliance" means an appliance which by its inherent design is constructed so that all air supplied for combustion, the combustion system of the appliance, and all products of combustion are completely isolated from the atmosphere of the space in which it is installed.

(37) "Water Heater" means an appliance for heating water for domestic purposes other than for space heating.

#### § 280.703 Minimum standards.

Heating, cooling and fuel burning appliances and systems in mobile homes shall be free of defects and shall conform to applicable standards in the following table unless otherwise specified in this standard. (See § 280.4).

#### § 280.704 Fuel supply systems.

(a) **LP-Gas system design and service line pressure.**—(1) Systems shall be of the vapor-withdrawal type.

(2) Gas, at a pressure not over 14 inches water column ( $\frac{1}{2}$  psi), shall be delivered from the system into the gas supply connection.

(b) **LP-Gas Containers.**—(1) **Maximum capacity.** No more than two containers having an individual water capacity of not more than 105 pounds (approximately 45 pounds LP-Gas capacity), shall be installed on or in a compartment of any mobile home.

(2) **Construction of containers.** Containers shall be constructed and marked in accordance with the specifications for LP-Gas Containers of the U.S. Department of Transportation (DOT) or the Rules for Construction of Unfired Pressure Vessels, Section VIII, Division 1, ASME Boiler and Pressure Vessel Code. ASME Containers shall have a design pressure of at least 312.5 psig. (i) Container supply systems shall be arranged for vapor withdrawal only. (ii) Container openings for vapor withdrawal shall be located in the vapor space when the container is in service or shall be provided with a suitable internal withdrawal tube which communicates with the vapor space in or near the highest point in the container when it is mounted in service position, with the vehicle on a level surface. Containers shall be permanently and legibly marked in a conspicuous manner on the outside to show the correct mounting position and the position of the service outlet connection. The method of mounting in place shall be such as to minimize the possibility of an incorrect positioning of the container.

(3) **Location of LP-Gas Containers and Systems.** (i) LP-Gas Containers shall not be installed, nor shall provisions be made for installing or storing any LP-Gas container, even temporarily, inside any mobile home except for listed, completely self-contained hand torches, lanterns, or similar equipment with containers having a maximum water capacity of not more than  $2\frac{1}{2}$  pounds (approximately one pound LP-Gas capacity). (ii) Containers, control valves, and regulating equipment, when installed, shall be mounted on the "A" frame of the mobile home, or installed in a compartment that is vaportight to the inside of the mobile home and accessible only from the outside. The compartment shall be ventilated at top and bottom to facilitate diffusion of vapors. The compartment shall be ventilated with two vents having an aggregate area of not less than two percent of the floor area of the compartment and shall open unrestricted to the outside atmosphere. The required vents shall be equally distributed between the floor and ceiling of the compartment. If the lower vent is located in the access door or wall, the bottom edge of the vent shall be flush with the floor level of the compartment. The top vent shall be located in the access door or wall with the bottom of the vent not more than 12 inches below the ceiling level of the compartment. All vents shall have an unrestricted discharge to the outside atmosphere. Access doors or panels of compartments shall not be equipped with locks or require special tools or knowledge to open. (iii) Permanent and removable fuel containers shall be securely mounted to prevent jarring loose, slipping or rotating and the fastenings shall be designed and constructed to

withstand static loading in any direction equal to twice the weight of the tank and attachments when filled with fuel, using a safety factor of not less than four based on the ultimate strength of the material to be used.

(4) **LP-Gas Container Valves and Accessories.** (i) Valves in the assembly of a two-cylinder system shall be arranged so that replacement of containers can be made without shutting off the flow of gas to the appliance(s). This provision is not to be construed as requiring an automatic change-over device. (ii) Shutoff valves on the containers shall be protected as follows, in transit, in storage, and while being moved into final utilization by setting into a recess of the container to prevent possibility of their being struck if container is dropped upon a flat surface, or by ventilated cap or collar, fastened to the container, capable of withstanding a blow from any direction equivalent to that of a 30-pound weight dropped 4 feet. Construction shall be such that the blow will not be transmitted to the valve. (iv) Regulators shall be connected directly to the container shutoff valve outlets or mounted securely by means of a support bracket and connected to the container shutoff valve or valves with listed high pressure connections. If the container is permanently mounted the connector shall be as required above or with a listed semi-rigid tubing connector.

(5) **LP-Gas Safety Devices.** (i) DOT containers shall be provided with safety relief devices as required by the regulations of the U.S. Department of Transportation. ASME containers shall be provided with relief valves in accordance with Subsection 221 of the Standard for the Storage and Handling of Liquefied Petroleum Gases (NFPA No. 58-1974; ANSI Z106.1-1974). Safety relief valves shall have direct communication with the vapor space of the vessel. (ii) The delivery side of the gas pressure regulator shall be equipped with a safety relief device set to discharge at a pressure not less than two times and not more than three times the delivery pressure of the regulator. (iii) Systems mounted on the "A" frame assembly shall be so located that the discharge from the safety relief devices shall be into the open air and not less than three feet horizontally from any opening into the mobile home below the level of such discharge. (iv) Safety relief valves located within liquefied petroleum gas container compartments may be less than three feet from openings provided the bottom vent of the compartment is at the same level or lower than the bottom of any opening into the vehicle, or the compartment is not located on the same wall plane as the opening(s) and is at least two feet horizontally from such openings.

(6) **LP-Gas System Enclosure and Mounting.** (i) Housings and enclosures shall be designed to provide proper ventilation at least equivalent to that specified in § 280.704(b)(3)(ii). (ii) Doors, hoods, domes, or portions of housings and enclosures required to be removed or

opened for replacement of containers shall incorporate means for clamping them firmly in place and preventing them from working loose during transit. (iii) Provisions shall be incorporated in the assembly to hold the containers firmly in position and prevent their movement during transit. (iv) Containers shall be mounted on a substantial support or a base secured firmly to the vehicle chassis. Neither the container nor its support shall extend below the mobile home frame.

(c) **Oil Tanks.**—(1) **Installation.** Oil tanks and listed automatic pumps (oil lifters) installed for gravity flow of oil to heating equipment shall be installed so that the top of the tank is no higher than 8 feet above the appliance oil control and the bottom of the tank is not less than 18 inches above the appliance oil control.

(2) **Auxiliary Oil Storage Tank.** Oil supply tanks affixed to a mobile home shall be so located as to require filling and draining from the outside and shall be in a place readily available for inspection. If the fuel supply tank is located in a compartment of a mobile home, the compartment shall be ventilated at the bottom to permit diffusion of vapors and shall be insulated from the structural members of the body. Tanks so installed shall be provided with an outside fill and vent pipe and an approved liquid level gage.

(3) **Shutoff Valve.** A readily accessible, approved manual shutoff valve shall be installed at the outlet of an oil supply tank. The valve shall be installed to close against the supply.

(4) **Fuel Oil Filters.** All oil tanks shall be equipped with an approved oil filter or strainer located downstream from the tank shutoff valve. The fuel oil filter or strainer shall contain a sump with a drain for the entrapment of water.

#### § 280.705 Gas piping systems.

(a) **General.** The requirements of this Section shall govern the installation of all fuel gas piping attached to any mobile home. Gas delivered into the gas supply system shall be at a pressure not exceeding 14 inch water column ( $\frac{1}{2}$  psi)

and not less than 7 inch water column ( $\frac{1}{4}$  psi). None of the requirements listed in this Section shall apply to the piping supplied as a part of an appliance. All exterior openings around piping, ducts, plenums or vents shall be sealed to resist the entrance of rodents.

(b) **Materials.** All materials used for the installation, extension, alteration, or repair of any gas piping system shall be new and free from defects or internal obstructions. It shall not be permissible to repair defects in gas piping or fittings. Inferior or defective materials shall be removed and replaced with acceptable material. The system shall be made of materials having a melting point of not less than 1,450° F, except as provided in § 280.705(c). They shall consist of one or more of the materials described in § 280.705(b) (1) through (4).

(1) Steel or wrought-iron pipe shall comply with ANSI Standard B36.10-1970 for Wrought-Steel and Wrought-Iron Pipe. Threaded brass pipe in iron pipe sizes may be used. Threaded brass pipe shall comply with Standard Sizes and Specifications for Seamless Red Brass Pipe (ASTM B43-66).

(2) Fittings for gas piping shall be wrought iron, malleable iron, steel, or brass (containing not more than 75 percent copper).

(3) Copper tubing shall be annealed type, Grade K or L, conforming to the Specifications for Seamless Copper Water Tube (ASTM B88-72), or shall comply with the Specifications for Seamless Copper Tube for Air Conditioning and Refrigeration Field Service, ASTM B280-73. When used on systems designed for natural gas, such tubing shall be internally tinned.

(4) Steel tubing shall have a minimum wall thickness of 0.032 inch for tubing of  $\frac{1}{2}$  inch diameter and smaller and 0.049 inch for diameters  $\frac{1}{2}$  inch and larger. Steel tubing shall be constructed in accordance with ASTM Specification for Electric-Resistance-Welded Coiled Steel Tubing for Gas and Fuel Oil Lines (ASTM A539-73), and shall be externally corrosion protected.

(c) **Piping design.** Each mobile home requiring fuel gas for any purpose shall

be equipped with a fuel gas piping system that is designed for LP-Gas only or with a natural gas piping system acceptable for LP-Gas.

(1) Where fuel gas piping is to be installed in both portions of an expandable or dual mobile home, the design and construction of the crossover shall be as follows: (i) There shall be only one point of crossover which shall be readily accessible from the exterior of the mobile home. (ii) The connector between units shall be a listed type for exterior use, sized in accordance with § 280.705(d). (iii) The connection shall be made by a listed "quick disconnect" device which shall be designed to provide a positive seal of the supply side of the gas system when such device is separated. (iv) The flexible connector and "quick disconnect" device shall be provided with protection from mechanical and impact damage and located to minimize the possibility of tampering. (v) Suitable protective coverings for the "quick disconnect" device, when separated, shall be permanently attached to the device or flexible connector. (vi) A 3 inch by  $1\frac{1}{4}$  inch minimum size tag made of etched, metal-stamped or embossed brass, stainless steel, anodized or clad aluminum not less than 0.020 inch thick, or other approved material (e.g., 0.005 inch plastic laminates) shall be permanently attached on the exterior wall adjacent to the access to the "quick disconnect" device. Each tag shall be legibly inscribed with the following information using letters no smaller than  $\frac{1}{4}$  inch high:

Do Not Use Tools to Separate the "Quick-Disconnect" Device.

(d) **Gas Pipe Sizing.** Gas piping systems shall be sized so that the pressure drop to any appliance inlet connection from any gas supply connection, when all appliances are in operation at maximum capacity, is not more than 0.5 inch water column as determined on the basis of test, or in accordance with the following Table. The natural gas supply connection(s) shall be not less than the size of the gas piping but shall be not smaller than  $\frac{3}{4}$  inch nominal pipe size.

(e) *Joints for Gas Pipe.* All pipe joints in the piping system, unless welded or brazed, shall be threaded joints that comply with ANSI Standard Pipe Threads (Except Dryseal) B2.1—1968. Right and left nipples or couplings shall not be used. Unions, if used, shall be of ground joint type. The material used for welding or brazing pipe connections shall have a melting temperature in excess of 1,000 F.

(f) *Joints for Tubing.* (1) Tubing joints shall be made with either a single or a double flare of 45 degrees in accordance with SAE Standard J 533A or with other listed vibration-resistant fittings, or joints may be brazed with material having a melting point exceeding 1,000 F. Metallic ball sleeve compression-type tubing fittings shall not be used.

(2) Steel tubing joints shall be made with a double-flare in accordance with SAE Standard J 533A.

(g) *Pipe Joint Compound.* Screw joints shall be made up tight with listed pipe joint compound, insoluble in liquefied petroleum gas, and shall be applied to the male threads only.

(h) *Concealed Tubing.* Tubing shall not be run inside walls, floors, partitions, or roofs. Where tubing passes through walls, floors, partitions, roofs, or similar installations, such tubing shall be protected by the use of weather resistant grommets that shall snugly fit both the tubing and the hole through which the tubing passes.

(i) *Concealed Joints.* Piping or tubing joints shall not be located in any floor, wall partition, or similar concealed construction space.

(j) *Location of gas supply connection.* (1) For LP-Gas-only systems the supply connection shall be located at the "A" frame, container recess, or in the rear half of the total length of the mobile home and within 18 inches from the left (road) side wall, and should be as close as possible to a point 30 feet from the front of the mobile home.

(2) For combination LP-Gas and natural gas systems, the natural gas supply connection shall be located under the rear half of the total length of the mobile home and within 24 inches of the left

(road) side wall and be located as close as possible to a point 30 feet from the front of the mobile home. The natural gas supply connection shall not be located beneath any exit door. An additional connection, if used, shall be located at the "A" frame. The system shall be sized to provide adequate capacity from either supply connection for natural gas.

(k) *Identification of gas supply connections.* Each mobile home shall have permanently affixed to the exterior skin at or near each gas supply connection or the end of the pipe, a tag of 3 inches by 1 3/4 inches minimum size, made of etched, metal-stamped or embossed brass, stainless steel, anodized or alclad aluminum not less than 0.020 inch thick, or other approved material (e.g., 0.005 inch plastic laminates), which reads (as appropriate) in accordance with one of the following label designs depending upon the fuel used. The connector capacity indicated on this tag shall be equal to or greater than the total Btuh rating of all intended gas appliances.

## LP-Gas System

This gas piping system is designed for use of liquefied petroleum gas only.

DO NOT CONNECT NATURAL GAS TO THIS SYSTEM.

CONTAINER SHUTOFF VALVES SHALL BE CLOSED DURING TRANSIT.

When connecting to lot outlet, use a listed gas supply connector

for mobile homes rated at ☐ 100,000 Btuh or more,  
☐ 250,000 Btuh

Before turning on gas, make certain all gas connections have been made tight, all appliance valves are turned off, and any unconnected outlets are capped.

After turning on gas, test gas piping and connections to appliances for leakage with soapy water or bubble solution, and light all pilots.

## Combination LP-Gas and Natural Gas System

This gas piping system is designed for use of either liquefied petroleum gas or natural gas.

NOTICE: BEFORE TURNING ON GAS BE CERTAIN APPLIANCES ARE DESIGNED FOR THE GAS CONNECTED AND ARE EQUIPPED WITH CORRECT ORIFICES. SECURELY CAP THIS INLET WHEN NOT CONNECTED FOR USE.

When connecting to lot outlet, use a listed gas supply connector

for mobile homes rated at ☐ 100,000 Btuh or more,  
☐ 250,000 Btuh

Before turning on gas, make certain all gas connections have been made tight, all appliance valves are turned off, and any unconnected outlets are capped.

After turning on gas, test gas piping and connections to appliances for leakage with soapy water or bubble solution, and light all pilots.

(1) *Gas supply connectors.*—(1) *LP-Gas.* A listed LP-Gas flexible connector conforming to the UL Standard for Pig-tails, Expansion Coils and Flexible Hose Connectors for LP-Gas (UL 569—1973) or equal shall be supplied when the fuel gas piping system is designed for the use of LP-Gas and cylinder(s) and regulator(s) are supplied.

(2) *Appliance connections.* All gas burning appliances shall be connected to the fuel piping. Materials as provided in § 1425.051(b) or listed appliance connectors shall be used. Listed appliance connectors when used shall not run through walls, floors, ceilings or partitions. Connectors of aluminum shall not be used outdoors. A mobile home containing an LPG or combination LP-natural-gas-system may be provided with a gas outlet to supply exterior appliances when installed in accordance with the following: (i) No portion of the completed in-

stallation shall project beyond the wall of the mobile home. (ii) The outlet shall be provided with an approved "quick-disconnect" device, which shall be designed to provide a positive seal on the supply side of the gas system when the appliance is disconnected. A shutoff valve shall be installed immediately upstream of the quick-disconnect device. The complete device shall be provided as part of the original installation. (iii) Protective caps or plugs for the "quick-disconnect" device, when disconnected, shall be permanently attached to the mobile home adjacent to the device. (iv) A tag shall be permanently attached to the outside of the exterior wall of the mobile home as close as possible to the gas supply connection. The tag shall indicate the type of gas and the Btuh capacity of the outlet and shall be legibly inscribed as follows:

THIS OUTLET IS DESIGNED FOR USE WITH GAS PORTABLE APPLIANCES WHOSE TOTAL INPUT DO NOT EXCEED \_\_\_\_\_ BTUH. REPLACE PROTECTIVE COVERING OVER CONNECTOR WHEN NOT IN USE.

(3) *Valves.* A shutoff valve shall be installed in the fuel piping at each gas appliance inside the mobile home structure, upstream of the union or connector in addition to any valve on the appliance and so arranged and located to permit removal and servicing of the appliance. The shutoff valve shall be located within 6 feet of a cooking appliance and within 3 feet of any other appliance. A shutoff valve may serve more than one appliance if located as required above. Shutoff valves used in connection with gas piping shall be of a type designed and listed for use on LP-Gas.

(4) *Gas Piping System Openings.* All openings in the gas piping system shall be closed gas-tight with threaded pipe plugs or pipe caps.

(5) *Electrical Ground.* Gas piping shall not be used for an electrical ground.

(6) *Couplings.* Pipe couplings and unions shall be used to join sections of threaded piping. Right and left nipples or couplings shall not be used.

(7) *Hangers and Supports.* All gas piping shall be adequately supported by galvanized or equivalently protected metal straps or hangers at intervals of not more than 4 feet, except where adequate support and protection is provided by structural members. Solid-iron-pipe gas supply connection(s) shall be rigidly anchored to a structural member within 6 inches of the supply connection(s).

(8) *Testing for Leakage.* (i) Before appliances are connected, piping systems shall stand a pressure of at least six inches mercury or three PSI gage for a period of not less than ten minutes without showing any drop in pressure. Pressure shall be measured with a mercury manometer or slope gage calibrated so as to be read in increments of not greater than one-tenth pound, or an equivalent device. The source of normal operating pressure shall be isolated before the pressure tests are made. Before a test is begun, the temperature of the ambient air and of the piping shall be approximately the same, and constant air temperature be maintained throughout the test. (ii) After appliances are connected, the piping system shall be pressurized to not less than 10 inches nor more than 14 inches water column and the appliance connections tested for leakage with soapy water or bubble solution.

## § 230.706 Oil Piping Systems.

(a) *General.* The requirements of this Section shall govern the installation of all liquid fuel piping attached to any mobile home. None of the requirements listed in this Section shall apply to the piping in the appliance(s).

(b) *Materials.* All materials used for the installation extension, alteration, or repair, of any oil piping systems shall be new and free from defects or internal obstructions. The system shall be made of materials having a melting point of not

less than 1,450 F. except as provided in § 280.506(d). They shall consist of one or more of the materials described in § 280.706(b) (i) through (iv). (i) Steel or wrought-iron pipe shall comply with American National Standard for Wrought-Steel or Wrought-Iron Pipe, B36.10-1970. Threaded copper or brass pipe in iron pipe sizes may be used. (ii) Fittings for oil piping shall be wrought iron, malleable iron, steel, or brass (containing not more than 75 percent copper). (iii) Copper tubing shall be annealed type, Grade K or L conforming to the Specifications for Seamless Copper Water Tube (ASTM B88-72), or shall comply with the specifications for Seamless Copper Tube for Air Conditioning and Refrigeration Field Service, ASTM B280-73. (iv) Steel tubing shall have a minimum wall thickness of 0.032 inch for diameters up to  $\frac{1}{2}$  inch and 0.049 inch for diameters  $\frac{1}{2}$  inch and larger. Steel tubing shall be constructed in accordance with the Specification for Electric-Resistance Welded Coiled Steel Tubing for Gas and Fuel Oil Lines (ASTM A539-73) and shall be externally corrosion protected.

(c) *Size of Oil Piping.* The minimum size of all fuel oil tank piping connecting outside tanks to the appliance shall be no smaller than  $\frac{3}{8}$  inch OD copper tubing or  $\frac{1}{4}$  inch IPS. If No. 1 fuel oil is used with a listed automatic pump (fuel lifter), copper tubing shall be sized as specified by the pump manufacturer.

(d) *Joints for Oil Piping.* All pipe joints in the piping system, unless welded or brazed, shall be threaded joints which comply with American National Standard for Pipe Threads (Except Dryseal), B2.1-1963. The material used for brazing pipe connection shall have a melting temperature in excess of 1,000 F.

(e) *Joints for Tubing.* Joints in tubing shall be made with either a single or double flare of the proper degree, as recommended by the tubing manufacturer, by means of listed tubing fittings, or brazed with materials having a melting point in excess of 1,000 F.

(f) *Pipe joint compound.* Threaded joints shall be made up tight with listed pipe joint compound which shall be applied to the male threads only.

(g) *Couplings.* Pipe couplings and unions shall be used to join sections of threaded pipe. Right and left nipples or couplings shall not be used.

(h) *Grade of piping.* Fuel oil piping installed in conjunction with gravity feed systems to oil heating equipment shall slope in a gradual rise upward from a central location to both the oil tank and the appliance in order to eliminate air locks.

(i) *Strap hangers.* All oil piping shall be adequately supported by galvanized or equivalently protected metal straps or hangers at intervals of not more than 4 feet, except where adequate support and protection is provided by structural members. Solid-iron-pipe oil supply connection(s) shall be rigidly anchored to a structural member within 6 inches of the supply connection(s).

(j) *Testing for leakage.* Before setting the system in operation, tank installations and piping shall be checked for oil leaks with fuel oil of the same grade that will be burned in the appliance. No other material shall be used for testing fuel oil tanks and piping. Tanks shall be filled to maximum capacity for the final check for oil leakage.

#### § 280.707 Heat-producing appliances.

(a) Heat-producing appliances and vents, roof jacks and chimneys necessary for their installation in mobile homes shall be listed or certified by a nationally recognized testing agency for use in mobile homes.

(1) A mobile home shall be provided with a comfort heating system. (i) When a mobile home is manufactured to contain a heating appliance, the heating appliance shall be installed by the manufacturer of the mobile home in compliance with applicable sections of this subpart. (ii) When a mobile home is manufactured for field application of an external heating or combination heating/cooling appliance, preparation of the mobile home for this external application shall comply with the applicable sections of this part.

(2) After the effective date specified herein gas and oil burning comfort heating appliances shall have a flue loss of not more than that specified below, and a thermal efficiency of not less than that specified in nationally recognized standards. (See 2527.3)

Effective date:	Maximum allowable flue loss—
Jan. 1, 1977.....	25 percent
Jan. 1, 1978.....	30 percent

(b) Fuel-burning heat-producing appliances and refrigeration appliances except ranges and ovens, shall be of the vented type and vented to the outside.

(c) Fuel-burning appliances shall not be converted from one fuel to another fuel unless converted in accordance with the terms of their listing and the appliance manufacturer's instructions.

(d) *Performance Efficiency.* (1) All automatic electric storage water heaters shall have a standby loss not exceeding 43 watts/meter<sup>2</sup> (4 watts/FT<sup>2</sup>) of tank surface area effective January 1, 1977. The method of test for standby loss shall be as described in Section 4.3.1 of ANSI C72.1-72.

(2) All gas and oil-fired automatic storage water heaters shall have a recovery efficiency, E<sub>r</sub>, and a standby loss, S, as described below, effective January 1, 1977. The method of test of E<sub>r</sub> and S shall be as described in Section 2.7 of ANSI Z21.10.1-1974, except that for oil-fired units, CF=1.0, Q=total gallons of oil consumed and H=total heating value of oil in Btu/gallon.

Storage capacity in gallons	Recovery efficiency	Standby loss
Less than 25.....	At least 75 percent.	Not more than 7.5 percent.
25 up to 35.....	do.....	Not more than 7 percent.
35 or more.....	do.....	Not more than 6 percent.

(e) Each space heating, cooling or combination heating and cooling system shall be provided with at least one readily adjustable automatic control for regulation of living space temperature. The control shall be placed a minimum of 3 feet from the vertical edge of the appliance compartment door. It shall not be located on an exterior wall or on a wall separating the appliance compartment from a habitable room.

(f) *Oil safety controls.* (1) A thermal cut-off switch shall be wired into burner circuit to shut off burner in event of fire at unit. This switch shall be placed overhead near oil burner and shall be wired to shut-off burner, circulating fan, forced or induced draft fan and remote oil pump not an integral part of the burner.

(2) An emergency disconnect switch shall be located near the entrance to the space containing the oil burner. This switch shall shut off the oil burner, furnace circulating fan, forced or induced draft fan and oil pump when not integral with the burner.

#### § 280.708 Clothes dryers.

(a) *Clothes dryers.* (1) Clothes dryers shall be exhausted to the outside by a moisture-lint exhaust duct and termination fitting listed or certified as components of the dryer.

(2) A clothes dryer moisture-lint exhaust duct shall not be connected to any other duct, vent or chimney.

(3) The exhaust duct shall not terminate beneath the mobile home.

(4) Moisture-lint exhaust ducts shall not be connected with sheet metal screws or other fastening devices which extend into the interior of the duct.

(b) *Gas clothes dryer.* A mobile home may be provided with "stubbed in" equipment at the factory to supply a gas clothes dryer for future installation by the owner provided it complies with the following provisions: (1) The "stubbed in" gas outlet shall be provided with a shutoff valve, the outlet of which is closed by threaded pipe plug or cap. (2) The "stubbed in" gas outlet shall be permanently labeled to identify it for use only as the supply connection for a gas clothes dryer. (3) A moisture-lint exhaust duct system shall be roughed in by the manufacturer at the time of original installation. The moisture-lint exhaust system shall comply with provisions of § 280.708(a) (1) through (4).

(c) *Electric clothes dryers.* Electric clothes dryers shall be exhausted to the outside in accordance with the appliance manufacturer's instructions. When a receptacle is installed to supply an electric clothes dryer for future installation by the owner, the moisture-lint exhaust system required by § 280.708(a) (4) shall be roughed in by the manufacturer. The moisture-lint exhaust system shall comply with provisions of § 280.708(a) (1) through (4).

#### § 280.709 Installation of appliances.

(a) The installation of each appliance shall conform to the terms of its listing and the manufacturer's instructions. The installer shall leave the manufacturer's

instructions attached to the appliance. Every appliance shall be secured in place to avoid displacement.

(b) Heat-producing appliances shall be so located that no doors, drapes, or other such material can be placed or swing closer to the front of the appliance than the clearances specified on the labeled appliances.

(c) Clearances between heat-producing appliances and adjacent surfaces shall not be less than specified in the terms of their listing. Clearance spaces shall be framed in or guarded to prevent creation of storage space within the clearance specified.

(d) All fuel-burning appliances, except ranges, ovens, illuminating appliances, clothes dryers, solid fuel-burning fireplaces and solid fuel-burning fireplace stoves, shall be installed to provide for the complete separation of the combustion system from the interior atmosphere of the mobile home. Combustion air inlets and flue gas outlets shall be listed or certified as components of the appliance. The required separation may be obtained by:

(1) The installation of direct vent system (sealed combustion system) appliances, or

(2) The installation of appliances within enclosures so as to separate the appliance combustion system and venting system from the interior atmosphere of the mobile home. There shall not be any door, removable access panel, or other opening into the enclosure from the inside of the mobile home. Any opening for ducts, piping, wiring, etc., shall be sealed.

(e) A forced air appliance and its return-air system shall be designed and installed so that negative pressure created by the air-circulating fan cannot affect its or another appliance's combustion air supply or act to mix products of combustion with circulating air.

(1) The air circulating fan of a furnace installed in an enclosure with another fuel-burning appliance shall be operable only when any door or panel covering an opening in the furnace fan compartment or in a return air plenum or duct is in the closed position. This does not apply if both appliances are direct vent system (sealed combustion system) appliances.

(2) If a warm air appliance is installed within an enclosure to conform to § 280.709(d) (2), each warm-air outlet and each return air inlet shall extend to the exterior of the enclosure. Ducts, if used for that purpose, shall not have any opening within the enclosure and shall terminate at a location exterior to the enclosure.

(3) Cooling coils installed as a portion of, or in connection with, any forced-air furnace shall be installed on the downstream side unless the furnace is specifically otherwise listed.

(4) An air conditioner evaporator section shall not be located in the air discharge duct or plenum of any forced-air furnace unless the mobile home manufacturer has complied with certification required in § 280.511.

(5) If a cooling coil is installed with a forced-air furnace, the coil shall be in accordance with its listing.

(6) When an external heating appliance or combination cooling/heating appliance is to be applied to a mobile home, the manufacturer shall make provision for proper location of the connection to the mobile home supply system and return air system of the external ducts connected to the appliance.

(7) The installation of a self contained air conditioner comfort cooling appliance shall meet the following requirements:

(i) The installation on a duct common with an installed heating appliance shall require the installation of an automatic damper or other means to prevent the cooled air from passing through the heating appliance unless the heating appliance is certified or listed for such application and the supply system is intended for such an application. (ii) The installation shall prevent the flow of heated air into the external cooling appliance and its connecting ducts to the mobile home supply and return air system during the operation of the heating appliance installed in the mobile home. (iii) The installation shall prevent simultaneous operation of the heating and cooling appliances.

(f) *Vertical clearance above cooking top.* Ranges shall have a vertical clearance above the cooking top of not less than 24 inches. (See § 280.204).

(g) Solid fuel-burning factory-built fireplaces and fireplace stoves listed for use in mobile homes may be installed in mobile homes provided they and their installation conform to the following paragraphs. A fireplace or fireplace stove shall not be considered as a heating facility for determining compliance with Subpart F.

(1) A solid fuel-burning fireplace or fireplace stove shall be equipped with integral door(s) or shutter(s) designed to close the fireplace or fireplace stove fire chamber opening and shall include complete means for venting through the roof, a combustion air inlet, a hearth extension, and means to securely attach the fireplace or the fireplace stove to the mobile home structure. The installation shall conform to the following paragraphs (g) (1) (i) to (viii) inclusive: (i) A listed factory-built chimney designed to be attached directly to the fireplace or fireplace stove shall be used. (ii) A fireplace or fireplace stove, air intake assembly, hearth extension and the chimney shall be installed in accordance with the terms of their listings and their manufacturer's instructions. (iii) The combustion air inlet shall conduct the air directly into the fire chamber and shall be designed to prevent material from the hearth dropping onto the area beneath the mobile home. (iv) The fireplace or fireplace stove shall not be installed in a sleeping room. (v) Hearth extension shall be of noncombustible material not less than  $\frac{3}{4}$ -inch thick. The hearth shall extend at least 16 inches in front of and at least 8 inches beyond each side of the fireplace or fireplace stove opening. Furthermore the hearth shall extend over the entire

surface beneath a fireplace stove and beneath an elevated or overhanging fireplace. (vi) The label on each solid fuel-burning fireplace and solid fuel-burning fireplace stove shall include the following wording: For use with solid fuel only. (vii) The chimney shall be provided with a spark arrester securely attached to the chimney. The net free area of the arrester shall be not less than four times the net area of the chimney outlet and the vertical height of the arrester shall be not less than 1.3 times the diameter of the chimney flue. Openings shall not permit the passage of a sphere having a diameter larger than  $\frac{1}{2}$  inch, nor block the passage of a sphere having a diameter of less than  $\frac{3}{4}$  inch. (viii) The chimney shall extend at least three feet above the part of the roof through which it passes and at least two feet above the highest elevation of any part of the mobile home within 10 feet of the chimney. Portions of the chimney and termination that exceed an elevation of 13½ ft. above ground level may be designed to be removed for transporting the mobile home.

#### § 280.710 Venting, ventilation and combustion air.

(a) The venting as required by § 280.707 (b) shall be accomplished by one or more of the methods given in (1) and (2) below:

(1) An integral vent system listed or certified as part of the appliance.

(2) A venting system consisting entirely of listed components, including roof jack, installed in accordance with the terms of the appliance listing and the appliance manufacturer's instructions.

(b) Venting and combustion air systems shall be installed in accordance with the following:

(1) Components shall be securely assembled and properly aligned using the method shown in the appliance manufacturer's instructions.

(2) Draft hood connectors shall be firmly attached to draft hood outlets or flue collars by sheet metal screws or by equivalent effective mechanical fasteners.

(3) Every joint of a vent, vent connector, exhaust duct and combustion air intake shall be secure and in alignment.

(c) Venting systems shall not terminate underneath a mobile home.

(d) Venting system terminations shall be not less than three feet from any motor-driven air intake discharging into habitable areas.

(e) The area in which cooking appliances are located shall be ventilated by a metal duct which may be single wall, not less than 12.5 square inches in cross-sectional area (minimum dimension shall be two inches) located above the appliance(s) and terminating outside the mobile home, or by listed mechanical ventilating equipment discharging outside the home, that is installed in accordance with the terms of listing and the manufacturer's instructions. Gravity or mechanical ventilation shall be installed within a horizontal distance of not more than ten feet from the vertical front of the appliance(s).

(f) Mechanical ventilation which exhausts directly to the outside atmosphere from the living space of a home shall be equipped with an automatic or manual damper. Operating controls shall be provided such that mechanical ventilation can be separately operated without directly energizing other energy consuming devices.

#### § 280.711 Instructions.

Operating instructions shall be provided with each appliance. These instructions shall include directions and information covering the proper use and efficient operation of the appliance and its proper maintenance.

#### § 280.712 Marking.

(a) Information on clearances, input rating, lighting and shutdown shall be attached to the appliances with the same permanence as the nameplate, and so located that it is easily readable when the appliance is properly installed or shutdown for transporting of mobile home.

(b) Each fuel-burning appliance shall bear permanent marking designating the type(s) of fuel for which it is listed.

#### § 280.713 Accessibility.

Every appliance shall be accessible for inspection, service, repair, and replacement without removing permanent construction. Sufficient room shall be available to enable the operator to observe the burner, control, and ignition means while starting the appliance.

#### § 280.714 Appliances, cooling.

(a) Every air conditioning unit or a combination air conditioning and heating unit shall be listed or certified by a nationally recognized testing agency for the application for which the unit is intended and installed in accordance with the terms of its listing.

(1) Mechanical air conditioners shall be rated in accordance with the Standard for Unitary Air-Conditioning Equipment (ARI Standard 210-74) and certified by ARI or other nationally recognized testing agency capable of providing follow-up service. (i) Electric motor-driven unitary cooling systems with rated capacity less than 65,000 Btu/hr manufactured after the times indicated in the following table, when rated at ARI Standard rating conditions as listed in ARI Standard 210-74, shall show energy efficiency ratio (EER) values less than as shown below:

Date:	Energy efficiency ratio
Jan. 1, 1977.....	6.5
Jan. 1, 1980.....	7.2

(ii) Direct refrigerating systems serving any air conditioning or comfort-cooling system installed that ranks no lower than Group 5 in the Underwriters' Laboratories, Inc. "Classification of Comparative Life Hazard of Various Chemicals." (iii) Heat pumps shall be listed in the ARI Directory of Certified Unitary Heat Pumps or certified to comply with all the requirements of the Standard for

Unitary Heat Pumps 240-74. Electric motor-driven vapor compression heat pumps with supplemental electrical resistance heat shall be sized to provide by compression at least 60 percent of the calculated annual heating requirement for the mobile home being served. A control shall be provided and set to prevent operation of supplemental electrical resistance heat at outdoor temperatures above 40 F, except for defrost operation. (iv) Electric motor-driven vapor compression heat pumps with supplemental electric resistance heat conforming to ARI Standard 240-74 manufactured after the dates indicated in the table shall show coefficient of performance ratios not less than shown below:

Date	COP	
	45 F	26 F
Jan. 1, 1977.....	2.2	1.4
Jan. 1, 1980.....	2.5	1.7

(2) Gas fired absorption air conditioners shall be listed or certified in accordance with ANSI Standard Z21.40.1-1973 and certified by AGA or another nationally recognized testing agency capable of providing follow-up service.

(3) Direct refrigerating systems serving any air conditioning or comfort-cooling system installed in a mobile home shall employ a type of refrigerant that ranks no lower than Group 5 in the Underwriters' Laboratories, Inc. "Classification of Comparative Life Hazard of Various Chemicals."

#### (b) Installation and instructions.

(1) The installation of each appliance shall conform to the terms of its listing as specified on the appliance and in the manufacturer's instructions. The installer shall include the manufacturer's installation instructions in the mobile home. Appliances shall be secured in place to avoid displacement and movement from vibration and road shock.

(2) Operating instructions shall be provided with the appliance.

(c) Fuel-burning air conditioners shall also comply with § 280.707.

(d) The appliance rating plate shall be so located that it is easily readable when the appliance is properly installed.

(e) Every installed appliance shall be accessible for inspection, service, repair and replacement without removing permanent construction.

#### § 280.715 Circulating air system.

(a) Supply system. (i) Supply ducts and any dampers contained therein shall be made from galvanized steel, tin-plated steel, or aluminum, or shall be listed Class 0, Class 1, or Class 2 air ducts. Class 2 air ducts shall be located at least 3 feet from the furnace bonnet or plenum. A duct system integral with the structure shall be of durable construction that can be demonstrated to be equally resistant to fire and deterioration. Ducts constructed from sheet metal shall be in accordance with the following table:

Minimum metal thickness for ducts<sup>1</sup>

Duct type	Diameter or width	
	14 in. or less	over 14 in.
Round.....	0.013	0.016
Enclosed rectangular.....	.013	.016
Exposed rectangular.....	.016	.016

<sup>1</sup>When "nominal" thicknesses are specified, 0.003 in. shall be added to these "minimum" metal thicknesses.

(2) Sizing of ducts for heating. (i) Ducts shall be so designed that when a labeled forced-air furnace is installed and operated continuously at its normal heating air circulating rate in the mobile home, with all registers in the full open position, the static pressure measured in the casing shall not exceed 90% of that shown on the label of the appliance. For upflow furnaces the static pressure shall be taken in the duct plenum. For external heating or combination heating/cooling appliances the static pressure shall be taken at the point used by the agency listing or certifying the appliance. (ii) When an evaporator-coil specifically designed for the particular furnace is installed between the furnace and the duct plenum, the total static pressure shall be measured downstream of the coil in accordance with the appliance label and shall not exceed 90 percent of that shown on the label of the appliance. (iii) When any other listed air-cooler coil is installed between the furnace and the duct plenum, the total static pressure shall be measured between the furnace and the coil and it shall not exceed 90 percent of that shown on the label of the furnace. (iv) The minimum dimension of any branch duct shall be at least 1½ inches, and of any main duct, 2½ inches.

(3) Sizing of ducts for air cooling. (i) The mobile home manufacturer shall certify the capacity of the air cooling supply duct system for the maximum allowable output of ARI certified central air conditioning systems. The certification shall be at operating static pressure of 0.3 inches of water or greater. (See § 280.511). (ii) The refrigerated air cooling supply duct system including registers must be capable of handling at least 300 cfm per 10,000 btuh with a static pressure no greater than 0.3 inches of water when measured at room temperature. In the case of application of external self contained comfort cooling appliances or the cooling mode of combination heating/cooling appliances, either the external ducts between the appliance and the mobile home supply system shall be considered part of, and shall comply with the requirements for the refrigerated air cooling supply duct system, or the connecting duct between the external appliance and the mobile supply duct system shall be a part of the listed appliance. The minimum dimension of any branch duct shall be at least 1½ inches, and of any main duct, 2½ inches.

(4) Airtightness of supply duct systems. A supply duct system shall be considered substantially airtight when the

static pressure in the duct system, with all registers sealed and with the furnace air circulator at high speed, is at least 80 percent of the static pressure measured in the furnace casing, with its outlets sealed and the furnace air circulator operating at high speed. For the purpose of this paragraph and § 280.715(b) pressures shall be measured with a water manometer or equivalent device calibrated to read in increments not greater than ½ inch water column.

(5) Expandable or multiple mobile home connections. (i) An expandable or multiple mobile home may have ducts of the heating system installed in the various units. The points of connection must be so designed and constructed that when the mobile home is fully expanded or coupled, the resulting duct joint will conform to the requirements of this Part. (ii) Installation instructions for supporting the crossover duct from the mobile home shall be provided for onsite installation. The duct shall not be in contact with the ground.

(6) Air supply ducts shall be insulated with material having an effective thermal resistance (R) of not less than 4.0 unless they are within mobile home insulation having a minimum effective value of R-4.0 for floors or R-6.0 for ceilings.

(7) Supply and return ducts exposed directly to outside air, such as under chassis crossover ducts or ducts connecting external heating, cooling or combination heating/cooling appliances shall be insulated with material having a minimum thermal resistance of R-4.0, with a continuous vapor barrier having a perm rating of not more than 1 perm. Where exposed underneath the mobile home, all such ducts shall comply with § 280.715 (a) (4) (ii).

(b) Return air systems. (1) Return air openings. Provisions shall be made, to permit the return of circulating air from all rooms and living spaces, except toilet room(s), to the circulating air supply inlet of the furnace.

(2) Duct Material. Return ducts and any diverting dampers contained therein shall be in accordance with the following: (i) Portions of return ducts directly above the heating surfaces, or closer than 2 feet from the outer jacket or casing of the furnace shall be constructed of metal in accordance with § 280.715(a) (1) or shall be listed Class 0 or Class 1 air ducts.

(ii) Return ducts, except as required by (a) above, shall be constructed of one-inch (nominal) wood boards (flame spread classification of not more than 200), other suitable material no more flammable than one-inch board or in accordance with § 280.715(a) (1). (iii) The interior of combustible ducts shall be lined with noncombustible material at points where there might be danger from incandescent particles dropped through the register or furnace such as directly under floor registers and the bottom return. (iv) Factory made air ducts used for connecting external heating, cooling or combination heating/cooling appliances to the supply system and return air system of a mobile home shall be listed

by a nationally recognized testing agency. Ducts applied to external heating appliances or combination heating/cooling appliances supply system outlets shall be constructed of metal in accordance with § 280.715(a) (1) or shall be listed Class 0 or Class 1 air ducts for those portions of the duct closer than 2 feet from the outer casing of the appliance. (v) Ducts applied to external appliances shall be resistant to deteriorating environmental effects, including but not limited to ultra violet rays, cold weather, or moisture and shall be resistant to insects and rodents.

of Plastic Materials for Parts in Devices and Appliances. UL94-1974.

(2) Floor register or grilles shall resist without structural failure a 200 lb. concentrated load on a 2-inch diameter disc applied to the most critical area of the exposed face of the register or grille. For this test the register or grille is to be at a temperature of not less than 165° F and is to be supported in accordance with the manufacturer's instructions.

#### Subpart I—Electrical Systems

##### § 280.801 Scope.

(a) Subpart I of this Standard and Part A of Article 550 of the National Electrical Code (NFPA No. 70-1975) cover the electrical conductors and equipment installed within or on mobile homes and the conductors that connect mobile homes to a supply of electricity.

(b) In addition to the requirements of this Standard and Article 550 of the National Electrical Code (NFPA No. 70-1975), the applicable portions of other Articles of the National Electrical Code shall be followed covering electrical installations in mobile homes. Wherever the requirements of this Standard differ from the National Electrical Code, this Standard shall apply.

(c) The provisions of this Standard apply to mobile homes intended for connection to a wiring system nominally rated 115/230 volts, 3-wire AC, with grounded neutral.

(d) All electrical materials, devices, appliances, fittings and other equipment shall be listed or labeled by a nationally recognized testing agency and shall be connected in an approved manner when in service.

(e) Aluminum conductors are not acceptable in branch circuit wiring in mobile homes except as specifically approved by the Department after examination of proposed systems for individual cases.

##### § 280.802 Definitions.

(a) The following definitions are applicable to Subpart I only.

(1) "Accessible (i) (As Applied to Equipment)" means admitting close approach because not guarded by locked doors, elevation, or other effective means. (See "Readily Accessible.") (ii) "As Applied to Wiring Methods" means capable of being removed or exposed without damaging the mobile home structure or finish, or not permanently closed-in by the structure or finish of the mobile home (see "Concealed" and "Exposed").

(2) "Air Conditioning or Comfort Cooling Equipment" means all of that equipment intended or installed for the purpose of processing the treatment of air so as to control simultaneously its temperature, humidity, cleanliness, and distribution to meet the requirements of the conditioned space.

(3) (i) "Appliance" means utilization equipment, generally other than industrial, normally built in standardized sizes or types, which is installed or connected as a unit to perform one or more functions, such as clothes washing, air conditioning, food mixing, deep frying,

etc. (ii) "Appliance, Fixed" means an appliance which is fastened or otherwise secured at a specific location. (iii) "Appliance, Portable" means an appliance which is actually moved or can easily be moved from one place to another in normal use. For the purpose of this Standard, the following major appliances are considered portable if cord-connected: refrigerators, clothes washers, dishwashers without booster heaters, or other similar appliances. (iv) "Appliance, Stationary" means an appliance which is not easily moved from one place to another in normal use.

(4) "Attachment Plug (Plug Cap)" means a device which, by insertion in a receptacle, establishes connection between the conductors of the attached flexible cord and the conductors connected permanently to the receptacle.

(5) "Bonding" means the permanent joining of metallic parts to form an electrically conductive path which will assure electrical continuity and the capacity to conduct safely any current likely to be imposed.

(6) "Branch Circuit" (i) means the circuit conductors between the final overcurrent device protecting the circuit and the outlet(s). A device not approved for branch circuit protection, such as a thermal cutoff or motor overload protective device, is not considered as the overcurrent device protecting the circuit. (ii) "Branch Circuit—Appliance" means a branch circuit supplying energy to one or more outlets to which appliances are to be connected; such circuits to have no permanently connected lighting fixtures not a part of an appliance. (iii) "Branch Circuit—General Purpose" means a circuit that supplies a number of outlets for lighting and appliances. (iv) "Branch Circuit—Individual" means a branch circuit that supplies only one utilization equipment.

(7) "Cabinet" means an enclosure designed either for surface or flush mounting, and provided with a frame, mat, or trim in which swinging doors are hung.

(8) "Circuit Breaker" means a device designed to open and close a circuit by nonautomatic means, and to open the circuit automatically on a predetermined overload of current without injury to itself when properly applied within its rating.

(9) "Concealed" means rendered inaccessible by the structure or finish of the mobile home. Wires in concealed raceways are considered concealed, even though they may become accessible by withdrawing them. (See "Accessible (As Applied to Wiring Methods)".)

(10) "Connector, Pressure (Solderless)" means a device that establishes a connection between two or more conductors or between one or more conductors and a terminal by means of mechanical pressure and without the use of solder.

(11) "Dead Front (As Applied to Switches, Circuit-Breakers, Switchboards, and Distribution Panelboard)" means so designed, constructed, and installed that no current-carrying parts are normally exposed on the front.

(12) "Demand Factor" means the ratio of the maximum demand of a system, or part of a system, to the total connected load of a system or the part of the system under consideration.

(13) "Device" means a unit of an electrical system that is intended to carry but not utilize electrical energy.

(14) "Disconnecting Means" means a device, or group of devices, or other means by which the conductors of a circuit can be disconnected from their source of supply.

(15) "Distribution Panelboard" means a single panel or a group of panel units designed for assembly in the form of a single panel, including buses, and with or without switches or automatic overcurrent protective devices or both, for the control of light, heat, or power circuits of small individual as well as aggregate capacity; designed to be placed in a cabinet placed in or against a wall or partition and accessible only from the front.

(16) "Enclosed" means surrounded by a case that will prevent a person from accidentally contacting live parts.

(17) "Equipment" means a general term, including material, fittings, devices, appliances, fixtures, apparatus, and the like used as a part of, or in connection with, an electrical installation.

(18) "Exposed" (i) (As Applied to Live Parts) means capable of being inadvertently touched or approached nearer than a safe distance by a person. It is applied to parts not suitably guarded, isolated, or insulated. (See "Accessible" and "Concealed.") (ii) (As Applied to "Wiring Method") means on or attached to the surface or behind panels designed to allow access. (See "Accessible (As Applied to Wiring Methods)".)

(19) "Externally Operable" means capable of being operated without exposing the operator to contact with live parts.

(20) "Feeder Assembly" means the overhead or under-chassis feeder conductors, including the grounding conductor, together with the necessary fittings and equipment, or a power supply cord approved for mobile home use, designed for the purpose of delivering energy from the source of electrical supply to the distribution panelboard within the mobile home.

(21) "Fitting" means an accessory, such as a locknut, bushing, or other part of a wiring system, that is intended primarily to perform a mechanical rather than an electrical function.

(22) "Ground" means a conducting connection, whether intentional or accidental, between an electrical circuit or equipment and earth, or to some conducting body that serves in place of the earth.

(23) "Grounded" means connected to earth or to some conducting body that serves in place of the earth.

(24) "Grounded Conductor" means a system or circuit conductor that is intentionally grounded.

(25) "Grounding Conductor" means a conductor used to connect equipment or the grounded circuit of a wiring sys-

tem to a grounding electrode or electrodes.

(26) "Guarded" means covered, shielded, fenced, enclosed, or otherwise protected by means of suitable covers, casings, barriers, rails, screens, mats or platforms to remove the likelihood of approach or contact by persons or objects to a point of danger.

(27) "Isolated" means not readily accessible to persons unless special means for access are used.

(28) "Laundry Area" means an area containing or designed to contain either a laundry tray, clothes washer and/or clothes dryer.

(29) "Lighting Outlet" means an outlet intended for the direct connection of a lampholder, a lighting fixture, or a pendant cord terminating in a lampholder.

(30) "Mobile Home Accessory Building or Structure" means any awning, cabana, ramada, storage cabinet, carport, fence, windbreak or porch established for the use of the occupant of the mobile home upon a mobile home lot.

(31) "Mobile Home Service Equipment" means the equipment containing the disconnecting means, overcurrent protective devices, and receptacles or other means for connecting a mobile home feeder assembly.

(32) "Outlet" means a point on the wiring system at which current is taken to supply utilization equipment.

(33) "Panelboard" means a single panel or group of panel units designed for assembly in the form of a single panel; including buses, automatic overcurrent protective devices, and with or without switches for the control of light, heat, or power circuits; designed to be placed in a cabinet or cutout box placed in or against a wall or partition and accessible only from the front.

(34) "Raceway" means any channel for holding wires, cables, or busbars that is designed expressly for, and used solely for, this purpose. Raceways may be of metal or insulating material, and the term includes rigid metal conduit, rigid nonmetallic conduit, flexible metal conduit, electrical metallic tubing, under-floor raceways, cellular concrete floor raceways, cellular metal floor raceways, surface raceways, structural raceways, wireways, and busways.

(35) "Raintight" means so constructed or protected that exposure to a beating rain will not result in the entrance of water.

(36) "Readily Accessible" means capable of being reached quickly for operation, renewal, or inspection, without requiring those to whom ready access is requisite to climb over or remove obstacles or to resort to portable ladders, chairs, etc. (See "Accessible".)

(37) "Receptacle" means a contact device installed at an outlet for the connection of a single attachment plug. A single receptacle is a single contact device with no other contact device on the same yoke. A multiple receptacle is a single device containing two or more receptacles.

(38) "Receptacle Outlet" means an outlet where one or more receptacles are installed.

(39) "Utilization Equipment" means equipment which utilizes electric energy for mechanical, chemical, heating, lighting, or similar purposes.

(40) "Voltage (of a Circuit)" means the greatest root-mean-square (effective) difference of potential between any two conductors of the circuit concerned. Some systems, such as 3-phase 4-wire, single-phase 3-wire, and 3-wire direct-current may have various circuits of various voltages.

(41) "Weatherproof" means so constructed or protected that exposure to the weather will not interfere with successful operation. Raintight, raintight, or watertight equipment can fulfill the requirements for weatherproof where varying weather conditions other than wetness, such as snow, ice, dust, or temperature extremes, are not a factor.

#### § 280.803 Power supply.

(a) The power supply to the mobile home shall be a feeder assembly consisting of not more than one listed 50 ampere mobile home power-supply cords, or a permanently installed circuit. A mobile home that is factory-equipped with gas or oil-fired central heating equipment and cooking appliances shall be permitted to be provided with a listed mobile home power-supply cord rated 40 amperes.

(b) If the mobile home has a power-supply cord, it shall be permanently attached to the distribution panelboard or to a junction box permanently connected to the distribution panelboard, with the free end terminating in an attachment plug cap.

(c) Cords with adapters and pigtail ends, extension cords, and similar items shall not be attached to, or shipped with, a mobile home.

(d) A listed clamp or the equivalent shall be provided at the distribution panelboard knockout to afford strain relief for the cord to prevent strain from being transmitted to the terminals when the power-supply cord is handled in its intended manner.

(e) The cord shall be of an approved type with four conductors, one of which shall be identified by a continuous green color or a continuous green color with one or more yellow stripes for use as the grounding conductor.

(f) The attachment plug cap shall be a 3-pole, 4-wire grounding type, rated 50 amperes, 125/250 volts with a configuration as shown herein and intended for use with the 50-ampere, 125/250 receptacle configuration shown. It shall be molded of butyl rubber, neoprene, or other approved materials which have been found suitable for the purpose, and shall be molded to the flexible cord so that it adheres tightly to the cord at the point where the cord enters the attachment-plug cap. If a right-angle cap is used, the configuration shall be so oriented that the grounding member is farthest from the cord.

(g) The overall length of a power-supply cord, measured from the end of the cord, including bared leads, to the face of the attachment-plug cap shall not be less than 21 feet and shall not exceed 36½ feet. The length of cord from the face of the attachment-plug cap to the point where the cord enters the mobile home shall not be less than 20 feet.

ented that the grounding member is farthest from the cord.

(g) The overall length of a power-supply cord, measured from the end of the cord, including bared leads, to the face of the attachment-plug cap shall not be less than 21 feet and shall not exceed 36½ feet. The length of cord from the face of the attachment-plug cap to the point where the cord enters the mobile home shall not be less than 20 feet.

50-ampere 125/250 volt receptacle and attachment-plug-cap configurations, 3 pole, 4-wire grounding types used for mobile home supply cords and mobile home parks. Complete details of the 50-ampere cap and receptacle can be found in the American National Standard Dimensions of Caps, Plugs and Receptacles, Grounding Type (ANSI C73.17—1972).

(h) The power-supply cord shall bear the following marking: "For use with mobile homes—40 amperes" or "For use with mobile homes—50 amperes."

(i) The point of entrance of the feeder assembly to the mobile home shall be in the exterior wall, floor, or roof, in the rear third section (away from the coupler), of the mobile home.

(j) Where the cord passes through walls or floors, it shall be protected by means of conduit and bushings or equivalent. The cord may be installed within the mobile home walls, provided a continuous raceway is installed from the branch-circuit panelboard to the underside of the mobile home floor. The raceway may be rigid conduit, electrical metallic tubing or polyethylene (PE), polyvinylchloride (PVC) or acrylonitrile-butadiene-styrene (ABS) plastic tubing having a minimum wall thickness of nominal 1/8 inch.

(k) Permanent provisions shall be made for the protection of the attachment-plug cap of the power supply cord and any connector cord assembly or receptacle against corrosion and mechanical damage if such devices are in an exterior location while the mobile home is in transit.

(l) Where the calculated load exceeds 50 amperes or where a permanent feeder is used, the supply shall be by means of:

(1) One mast weatherhead installation installed in accordance with Article 230 of the National Electrical Code NFPA No. 70—1975 containing four continuous insulated, color-coded, feeder conductors, one of which shall be an equipment grounding conductor; or, (2) An approved raceway from the disconnecting means in the mobile home to the underside of the mobile home with provisions for the attachment of a suitable junction box or fitting to the raceway on the underside of the mobile home (with or without conductors as in § 280.803 (1) and (2)).

§ 280.804 Disconnecting means and branch-circuit protective equipment.

(a) The branch-circuit equipment shall be permitted to be combined with the disconnecting means as a single assembly. Such a combination shall be permitted to be designated as a distribution panelboard. If a fused distribution panelboard is used, the maximum fuse size of the mains shall be plainly marked with lettering at least 1/4-inch high and visible when fuses are changed. See Section 110-22 of the National Electrical Code (NFPA No. 70—1975) concerning identification of each disconnecting means and each service, feeder, or branch circuit at the point where it originated and the type marking needed.

(b) Plug fuses and fuseholders shall be tamper-resistant, Type "S," enclosed in dead-front fuse panelboards. Electrical distribution panels containing circuit breakers shall also be dead-front type.

(c) Disconnecting means. A single disconnecting means shall be provided in each mobile home consisting of a circuit breaker, or a switch and fuses and their accessories installed in a readily accessible location near the point of entrance of the supply cord or conductors into the mobile home. The main circuit breakers or fuses shall be plainly marked "Main." This equipment shall contain a solderless type of grounding connector or bar for the purposes of grounding with sufficient terminals for all grounding conductors. The neutral bar termination of the grounded circuit conductors shall be insulated.

(d) The disconnecting equipment shall have a rating suitable for the connected load. The distribution equipment, either circuit breaker or fused type, shall be located a minimum of 24 inches from the bottom of such equipment to the floor level of the mobile home. There shall be a label attached to the panelboard stating: This Panelboard shall be connected by a Feeder Assembly having Overcurrent Protection rated at not more than ----- Amperes. The correct ampere rating shall be marked in the blank space.

(e) A distribution panelboard main circuit breaker shall be rated 50 amperes and employ a 2-pole circuit breaker rated 40 amperes for a 40-ampere supply cord, or 50 amperes for a 50-ampere supply cord. A distribution panelboard employing a disconnect switch and fuses shall be rated 60 amperes and shall employ a single 2-pole, 60-ampere fuseholder with 40- or 50-ampere main fuses for 40- or 50-ampere supply cords, respectively. The outside of the distribution panelboard shall be plainly marked with the fuse size.

(f) The distribution panelboard shall not be located in a bathroom, or in any other inaccessible location, but shall be permitted just inside a closet entry if the location is such that a clear space of 6 inches to easily ignitable materials is maintained in front of the distribution panelboard, and the distribution panelboard door can be extended to its full open position (at least 90 degrees). A

clear working space at least 30 inches wide and 30 inches in front of the distribution panelboard shall be provided. This space shall extend from floor to the top of the distribution panelboard.

(g) Branch-circuit distribution equipment shall be installed in each mobile home and shall include overcurrent protection for each branch circuit consisting of either circuit breakers or fuses.

(1) The branch circuit overcurrent devices shall be rated: (i) not more than the circuit conductors; and (ii) not more than 150 percent of the rating of a single appliance rated 10 amperes or more which is supplied by an individual branch circuit; but (iii) not more than the fuse size marked on the air conditioner or other motor-operated appliance.

(h) A 15-ampere multiple receptacle shall be acceptable when connected to a 20-ampere laundry circuit.

Length x Width No. of 15 (or 20) ampere circuits  
115-15 (or 20)

(2) *Portable appliances.* For the small appliance load in kitchen, pantry, family room, dining room and breakfast rooms of mobile homes, two or more 20-ampere appliance branch circuits, in addition to the branch circuit specified in § 280.805 (a) (1), shall be provided for all receptacle outlets in these rooms, and such circuits shall have no other outlets. Receptacle outlets supplied by at least two appliance receptacle branch circuits shall be installed in the kitchen.

(3) *General appliances.* Including furnace, water heater, range, and central or room air conditioner, etc.). There shall be one or more circuits of adequate rating in accordance with the following: (i) Ampere ratings of fixed appliances not over 50 percent of circuit rating if lighting outlets (receptacles, other than kitchen, dining area, and laundry, considered as lighting outlets) are on same circuit; (ii) For fixed appliances on a circuit without lighting outlets, the sum of rated amperes shall not exceed the branch-circuit rating for other than motor loads or 80 percent of the branch-circuit rating for air conditioning or other motor loads; (iii) The rating of a single portable appliance on a circuit having no other outlets shall not exceed 80 percent of the circuit rating; (iv) The rating of range branch circuit shall be based on the range demand as specified for ranges in § 280.811, Item B(5) of Method 1. For central air conditioning, see Article 440 of the National Electrical Code (NECA No. 70-1975). (v) Where laundry facilities are provided in a mobile home, a 20-ampere branch circuit shall be provided within 6 feet of the intended location of the appliance. See 228.4(j).

#### § 280.806 Receptacle Outlets.

- All receptacle outlets shall be:
  - Of grounding type;
  - Installed according to Section 210-7 of the National Electrical Code (NECA No. 70-1975) and
  - Except when supplying specific appliances, be parallel-blade, 15-ampere, 125-volt, either single or duplex.

(1) When circuit breakers are provided for branch-circuit protection, 230-volt circuits shall be protected by 2-pole common or companion trip, or handle-tied paired circuit breakers.

(j) A metal nameplate on the outside adjacent to the feeder assembly entrance shall read: This Connection for 120/240 Volt, 3-Pole, 4-Wire, 60 Hertz Ampere Supply. The correct ampere rating shall be marked in the blank space.

#### § 280.805 Branch circuits required.

(a) The number of branch circuits required shall be determined in accordance with the following:

(1) *Lighting.* Based on 3 watts per square foot times outside dimensions of the mobile home (coupler excluded) divided by 115 volts to determine number of 15- or 20-ampere lighting area circuits, e.g.,

(b) All 120 volt single phase, 15 and 20 ampere receptacle outlets, including receptacles in light fixtures, installed outdoors and in bathrooms shall have ground-fault circuit protection for personnel. Feeders supplying branch circuits may be protected by a ground-fault circuit-interrupter in lieu of the provision for such interrupters specified above.

(c) There shall be an individual outlet of the grounding type for each cord-connected fixed appliance installed.

(d) Receptacle outlets required. Except in the bath and hall areas, receptacle outlets shall be installed at wall spaces 2 feet wide or more, so that no point along the floor line is more than 6 feet, measured horizontally, from an outlet in that space. In addition, a receptacle outlet shall be installed:

(1) Over or adjacent to counter tops in the kitchen (at least one on each side of the sink if counter tops are on each side and 12 inches or over in width).

(2) Adjacent to the refrigerator and free-standing gas-range space.

(3) At counter top spaces for built-in vanities.

(4) At counter top spaces under wall-mounted cabinets.

(5) In the wall, at the nearest point where a bar type counter attaches to the wall.

(6) In the wall at the nearest point where a fixed room divider attaches to the wall.

(7) In laundry area.

(8) At least one receptacle outlet shall be installed outdoors. Receptacle outlets located in compartments accessible from outdoors shall be considered outdoor receptacles and shall be protected as required in § 280.806(b).

(9) Adjacent to bathroom basins.

(10) Receptacle outlets are not required in the following locations: (i) wall space occupied by built-in kitchen or wardrobe cabinets, (ii) wall space behind doors which may be opened fully against a wall surface, (iii) room dividers of the lattice type, less than 8 feet long, not

solid within 6 inches of the floor, (iv) wall space afforded by bar type counters.

(e) Receptacle outlets shall not be installed in or within reach (30 inches) of a shower or bathtub space.

(f) Receptacle outlets shall not be installed above electric baseboard heaters.

#### § 280.807 Fixtures and appliances.

(a) Electrical materials, devices, appliances, fittings, and other equipment installed, intended for use in, or attached to the mobile home shall be approved for the application and shall be connected in an approved manner when in service. Facilities shall be provided to securely fasten appliances when the mobile home is in transit. (See § 280.809.)

(b) Specifically listed pendant-type fixtures or pendant cords shall be permitted in mobile homes.

(c) If a lighting fixture is provided over a bathtub or in a shower stall, it shall be of the enclosed and gasketed type, listed for wet locations.

(d) The switch for shower lighting fixtures and exhaust fans located over a tub or in a shower stall shall be located outside the tub shower space. (See § 280.806(e).)

(e) Any combustible wall or ceiling finish exposed between the edge of a fixture, canopy, or pan and an outlet box shall be covered with noncombustible material.

(f) Every appliance shall be accessible for inspection, service, repair, or replacement without removal of permanent construction.

#### § 280.808 Wiring methods and materials.

(a) Except as specifically limited in this Part, the wiring methods and materials specified in the National Electrical Code (NECA No. 70-1975) shall be used in mobile homes.

(b) Nonmetallic outlet boxes shall be acceptable only with nonmetallic cable.

(c) Nonmetallic cable located 15 inches or less above the floor, if exposed, shall be protected from physical damage by covering boards, guard strips, or conduit. Cable likely to be damaged by stowage shall be so protected in all cases.

(d) Nonmetallic sheathed cable shall be secured by staples, straps, or similar fittings so designed and installed as not to injure any cable. Cable shall be secured in place at intervals not exceeding 4½ feet and within 12 inches from every cabinet, box or fitting.

(e) Metal-clad and nonmetallic cables shall be permitted to pass through the centers of the wide side of 2-inch by 4-inch studs. However, they shall be protected where they pass through 2-inch by 2-inch studs or at other studs or frames where the cable or armor would be less than 1½ inches from the inside or outside surface of the studs when the wall covering materials are in contact with the studs. Steel plates on each side of the cable, or a tube, with not less than No. 16 MSG wall thickness shall be required to protect the cable. These plates or tubes shall be securely held in place.

(f) Where metallic faceplates are used they shall be effectively grounded.

(g) If the range, clothes dryer, or similar appliance is connected by metal-clad cable or flexible conduit, a length of not less than three feet of free cable or conduit shall be provided to permit moving the appliance. Type NM or Type SE cable shall not be used to connect a range or a dryer. This shall not prohibit the use of Type NM or Type SE cable between the branch circuit overcurrent protective device and a junction box or range or dryer receptacle.

(h) Threaded rigid metal conduit shall be provided with a locknut inside and outside the box, and a conduit bushing shall be used on the inside. Rigid nonmetallic conduit shall be permitted. Inside ends of the conduit shall be reamed.

(i) Switches shall be rated as follows: (1) For lighting circuits, switches shall have a 10-ampere, 120-125 volt rating; or higher if needed for the connected load.

(2) For motors or other loads, switches shall have ampere or horsepower ratings, or both, adequate for loads controlled. (An "AC general-use" snap switch shall be permitted to control a motor 2 horsepower or less with full-load current not over 80 percent of the switch ampere rating).

(j) At least 4 inches of free conductor shall be left at each outlet box except where conductors are intended to loop without joints.

(k) When outdoor or under-chassis line-voltage wiring is exposed to moisture or physical damage, it shall be protected by rigid metal conduit. The conductors shall be suitable for wet locations. Electrical metallic tubing may be used when closely routed against frames and equipment enclosures.

(l) The cables or conductors shall be Type NMC, TW, or equivalent.

(m) Outlet boxes of dimensions less than those required in Table 370-6(a) of the National Electrical Code (NECA No. 70-1975), shall be permitted provided the box has been tested and approved for the purpose.

(n) Boxes, fittings and cabinets shall be securely fastened in place, and shall be supported from a structural member of the home, either directly or by using a substantial brace. Snap-in type boxes provided with special wall or ceiling brackets that securely fasten boxes in walls or ceilings shall be permitted.

(o) Outlet boxes shall fit closely to openings in combustible walls and ceilings, and they shall be flush with such surfaces.

(p) Appliances having branch-circuit terminal connections which operate at temperatures higher than 60°C (140°F) shall have circuit conductors as described in paragraph (p) (1) and (2) of this section:

(1) Branch-circuit conductors having an insulation suitable for the temperature encountered shall be permitted to run directly to the appliance.

(2) Conductors having an insulation suitable for the temperature encountered shall be run from the appliance terminal connections to a readily accessible

outlet box placed at least one foot from the appliance. These conductors shall be in a suitable raceway which shall extend for at least 4 feet.

#### § 280.809 Grounding.

(a) *General.* Grounding of both electrical and nonelectrical metal parts in a mobile home shall be through connection to a grounding bus in the mobile home distribution panelboard. The grounding bus shall be grounded through the green-colored conductor in the supply cord or the feeder wiring to the service ground in the service-entrance equipment located adjacent to the mobile home location. Neither the frame of the mobile home nor the frame of any appliance shall be connected to the neutral conductor in the mobile home.

(b) *Insulated neutral.* (1) The grounded circuit conductor (neutral) shall be insulated from the grounding conductors and from equipment enclosures and other grounded parts. The grounded (neutral) circuit terminals in the distribution panelboard and in ranges, clothes dryers, counter-mounted cooking units, and wall-mounted ovens shall be insulated from the equipment enclosure. Bonding screws, straps, or buses in the distribution panelboard or in appliances shall be removed and discarded.

(2) Connection of ranges and clothes dryers with 115/230-volt, 3-wire ratings shall be made with 4-conductor cord and 3-pole, 4-wire grounding type plugs, or by Type AC metal-clad cable or conductors enclosed in flexible metal conduit. For 115-volt rated devices, a 3-conductor cord and a 2-pole, 3-wire grounding-type plug shall be permitted.

(c) *Equipment grounding means.* (1) The green-colored grounding wire in the supply cord or permanent feeder wiring shall be connected to the grounding bus in the distribution panelboard or disconnecting means.

(2) In the electrical system, all exposed metal parts, enclosures, frames, lamp fixture canopies, etc., shall be effectively bonded to the grounding terminal or enclosure of the distribution panelboard.

(3) Cord-connected appliances, such as washing machines, clothes dryers, refrigerators, and the electrical system of gas ranges, etc., shall be grounded by means of an approved cord with grounding conductor and grounding-type attachment plug.

(d) *Bonding of noncurrent-carrying metal parts.* (1) All exposed noncurrent-carrying metal parts that may become energized shall be effectively bonded to the grounding terminal or enclosure of the distribution panelboard. A bonding conductor shall be connected between each distribution panelboard and an accessible terminal on the chassis.

(2) Grounding terminals shall be of the solderless type and approved as pressure-terminal connectors recognized for the wire size used. Star washers or other approved paint-penetrating fitting shall be used to bond terminals to chassis or other coated areas. The bonding conductor shall be solid or stranded, insulated

or bare and shall be No. 8 copper minimum, or equal. The bonding conductor shall be routed so as not to be exposed to physical damage. Protection can be afforded by the configuration of the chassis.

(3) Metallic gas, water and waste pipes and metallic air-circulating ducts shall be considered bonded if they are connected to the terminal on the chassis (see 2528.9) by clamps, solderless connectors, or by suitable grounding-type straps.

(4) Any metallic roof and exterior covering shall be considered bonded if (i) the metal panels overlap one another and are securely attached to the wood or metal frame parts by metallic fasteners, and (ii) if the lower panel of the metallic exterior covering is secured by metallic fasteners at a cross member of the chassis by two metal straps per mobile home unit or section at opposite ends. The bonding strap material shall be a minimum of 4 inches in width of material equivalent to the skin or a material of equal or better electrical conductivity. The straps shall be fastened with paint-penetrating fittings (such as screws and star washers or equivalent).

#### § 280.810 Electrical testing.

(a) Dielectric Strength Test. The wiring of each mobile home shall be subjected to a 1-minute, 900-volt dielectric strength test (with all switches closed) between live parts (including neutral) and the mobile home ground. Alternatively, the test may be performed at 1,080 volts for 1 second. This test shall be performed after branch circuits are complete and after fixtures or appliances are installed. Fixtures or appliances which are listed shall not be required to withstand the dielectric strength test.

(b) Each mobile home shall be subjected to: (1) A continuity test to assure that metallic parts are properly bonded. (2) Operational test to demonstrate that all equipment is connected and in working order and (3) Polarity checks to determine that connections have been properly made.

#### § 280.811 Calculations.

(a) The following method shall be employed in computing the supply-cord and distribution-panelboard load for each feeder assembly for each mobile home and shall be based on a 3-wire, 115/230-volt supply with 115-volt loads balanced between the two legs of the 3-wire system.

##### METHOD NO. 1

A. Lighting and Small Appliance Load. Lighting Watts: Length times width of mobile home (outside dimensions, exclusive of coupler) times 3 watts per square foot; e.g., Length x width x 3 = lighting watts.

Small Appliance Watts: Number of circuits times 1,500 watts for each 20-ampere appliance receptacle circuit (see definition of "Appliance, Portable" with note); e.g., Number of circuits x 1,500 = small appliance watts.

Total Watts: Lighting watts plus small appliance = total watts.

First, 3,000 total watts at 100 percent plus remainder at 35 percent = watts to be divided by 230 volts to obtain current (amperes) per leg.

B. Total load for determining power supply is the summation of: (1) Lighting and small appliance load as calculated above

Lighting and small appliance load: 1,000 W (1000 VA)  
 1,000 W (1000 VA)  
 1,000 W (1000 VA)

the method previously specified. Feeder conductors whose demand load is determined by this optional calculation shall be permitted to have the neutral load determined by Section 220.22 of the National Electrical Code. The loads identified in the Table as "other load" and as "Remainder of other load" shall include the following:

(1) 1500 watts for each 2-wire, 20-ampere

sm-41 appliance branch circuit and each

laundry branch circuit specified.

(2) 3 watts per square foot for general

lighting and general-use receptacles.

(3) The nameplate rating of all fixed

appliances, ranges, wall-mounted ovens, counter-mounted cooking units, and including 4

or more separately controlled space heating

units.

(4) The nameplate ampere or kVA rating

of all motors and of all low-power-factor

loads.

(5) The largest of the following: (i) air

conditioning load; (ii) the 65 percent diversified

demand of the central electric space

heating load; (iii) the 65 percent diversified

demand of the load of less than four separately

controlled electric space heating

units; (iv) the connected load of four or more

separately-controlled electric space heating

units.

OPTIONAL CALCULATION FOR MOBILE HOMES

WITH 100-AMPERE OR LARGER SERVICE

Load (in kW or kVA)

Air conditioning and cooling, in-

cluding heat pump compressors... 100

Central electric space heating... 65

Less than 4 separately controlled

electric space heating units... 65

First 10kW of all other load... 100

Remainder of other load... 40

§ 220.812 Wiring of expandable units

and dual units.

(a) Expandable or dual unit mobile

homes shall use fixed-type wiring meth-

ods and materials for connecting such

units to each other.

(b) Expandable or dual unit mobile

homes not having permanently installed

feeders and which are to be moved from

one location to another, shall be per-

mitted to have disconnecting means with

branch circuit protective equipment in

each unit when so located that after as-

sembly or joining together of units the

requirements of § 280.803 will be met.

§ 280.813 Outdoor outlets, fixtures, air-

conditioning equipment, etc.

(a) Outdoor fixtures and equipment

shall be listed or approved for outdoor

use. Outdoor receptacles or convenience

outlets shall be of a gasketed-cover type.

(b) A mobile home provided with an

outlet designed to energize heating and/

or air conditioning equipment located

outside the mobile home, shall have per-

manently affixed, adjacent to the outlet,

a metal tag which reads:

This Connection Is for Air Conditioning

Equipment Rated at Not More Than

#### § 280.811 Painting of wiring.

During painting or staining of the mobile home, it shall be permitted to paint metal raceways (except where grounding continuity would be reduced) or the sheath of the nonmetallic cable. Some arrangement, however, shall be made so that no paint shall be applied to the individual wires, as the color coding may be obliterated by the paint.

#### § 280.815 Polarization.

(a) The identified (white) conductor shall be employed for grounding circuit conductors only and shall be connected to the identified (white) terminal or lead on receptacle outlets and fixtures. It shall be the unswitched wire in switched circuits, except that a cable containing an identified conductor (white) shall be permitted for single-pole three-way or four-way switch loops where the connections are made so that the unidentified conductor is the return conductor from the switch to the outlet. Painting of the terminal end of the wire shall not be required.

(b) If the identified (white) conductor of a cable is used for other than grounded conductors or for other than switch loops as explained above (for a 230-volt circuit, for example), the conductor shall be finished in a color other than white at each outlet where the conductors are visible and accessible.

(c) Green-colored wires or green with yellow stripe shall be used for grounding conductors only.

#### § 280.816 Examination of equipment for safety.

The examination or inspection of equipment for safety, according to this standard, shall be conducted under uniform conditions and by organizations properly equipped and qualified for experimental testing, inspections of the run of goods at factories, and service-value determinations through field examinations.

#### Subpart J—Transportation

##### § 280.901 Scope.

Subpart J of this Standard covers the general requirement for designing the structure of the mobile home to fully withstand the adverse effects of transportation shock and vibration without degradation of the integrated structure or of its component parts and the specific requirements pertaining to the transportation system and its relationship to the structure.

##### § 280.902 Definitions.

(a) "Chassis" means the entire transportation system comprising the following subsystems: drawbar and coupling mechanism, frame, running gear assembly, and lights.

(b) "Drawbar and Coupling Mechanism" means the rigid assembly, (usually an "A" frame) upon which is mounted a coupling mechanism, which connects the mobile home's frame to the towing vehicle.

(c) "Frame" means the fabricated rigid substructure which provides con-

siderable support to the affixed mobile home structure both during transport and on-site; and also provides a platform for securing of the running gear assembly, the drawbar and coupling mechanism.

(d) "Running Gear Assembly" means the subsystem consisting of suspension springs, axles, bearings, wheels, hubs, tires, and brakes, with their related hardware.

(e) "Lights" means those safety lights and associated wiring required by applicable U.S. Department of Transportation regulations.

(f) "Transportation System." (Same as Chassis, above).

(g) "Highway," includes all roads and streets to be legally used in transporting the mobile home.

(h) "Length," for purposes of transportation only, means the distance from the extreme front of the mobile home to the extreme rear, including the drawbar and coupling mechanism, but not including expandable features that do not project from the body during transportation.

#### § 280.903 General requirements for designing the structure to withstand transportation shock and vibration.

(a) The cumulative effect of highway transportation shock and vibration upon a mobile home structure may result in incremental degradation of its designed performance in terms of providing a safe healthy and durable dwelling. Therefore, the mobile home shall be designed, in terms of its structural, plumbing, mechanical and electrical systems, to fully withstand such transportation forces during its intended life. (See §§ 280.303 (c) and 280.305 (a)).

(b) Particular attention shall be given to maintaining watertight integrity and conserving energy by assuring that structural components in the roof and walls (and their interfaces with vents, windows, doors, etc.) are capable of resisting highway shock and vibration forces during primary and subsequent secondary transportation moves.

(c) In place of an engineering analysis, either of the following may be accepted: (1) Documented technical data of suitable highway tests which were conducted to simulate transportation loads and conditions; or (2) acceptable documented evidence of actual transportation experience which meets the intent of this subpart.

#### § 280.904 Specific requirements for designing the transportation system.

(a) General. The entire system (frame, drawbar and coupling mechanism, running gear assembly, and lights) shall be designed and constructed as an integrated, balanced and durable unit which is safe and suitable for its specified use during the intended life of the mobile home. In operation, the transportation system (supporting the mobile home structure and its contents) shall effectively respond to the control of the

towing vehicle in terms of tracking and braking, while traveling at applicable highway speeds and in normal highway traffic conditions.

Note: While the majority of mobile homes utilize a fabricated steel frame assembly, upon which the mobile home structure is constructed, it is not the intent of this standard to limit innovation. Therefore, other concepts, such as integrating the frame function into the mobile home structure, are acceptable provided that such design meets the intent and requirements of this part.

(b) Specific requirements—(1) Drawbar. The drawbar shall be constructed of sufficient strength, rigidity and durability to safely withstand those dynamic forces experienced during highway transportation. It shall be securely fastened to the mobile home frame by either a continuous weld or by bolting.

(2) Coupling mechanism. The coupling mechanism (which is usually of the socket type) shall be securely fastened to the drawbar in such a manner as to assure safe and effective transfer of the maximum loads, including dynamic loads, between the mobile home structure and the hitch-assembly of the towing vehicle. The coupling shall be equipped with a manually operated mechanism so adapted as to prevent disengagement of the unit while in operation. The coupling shall be so designed that it can be disconnected regardless of the angle of the mobile home to the towing vehicle. With the mobile home parked on level ground, the center of the socket of the coupler shall not be less than 20 inches nor more than 26 inches from ground level.

(3) Chassis. The chassis, in conjunction with the mobile home structure, shall be designed and constructed to effectively sustain the designed loads consisting of the dead load plus a minimum of 3 pounds per square foot floor load (example: free-standing range, refrigerator, and loose furniture) and the superimposed dynamic load resulting from highway movement but shall not be required to exceed twice the dead load. The integrated design shall be capable of insuring rigidity and structural integrity of the complete mobile home structure and to insure against deformation of structural or finish members during the intended life of the home.

(4) Running gear assembly. (i) The running gear assembly, as part of the chassis, shall be designed to perform, as a balanced system, in order to effectively sustain the designed loads set forth in § 280.904(b)(3) and to provide for durable dependable safe mobility of the mobile home. It shall be designed to accept shock and vibration, both from the highway and the towing vehicle and effectively dampen these forces so as to protect the mobile home structure from damage and fatigue. Its components shall be designed to facilitate routine maintenance, inspection and replacement.

(ii) Location of the running gear assembly shall be determined by docu-

mented engineering analysis, taking into account the gross weight (including all contents), total length of the mobile home, the necessary coupling hitch weight, span distance, and turning radius. The coupling weight shall be not less than 12 percent nor more than 25 percent of the gross weight.

(5) Spring assemblies. Spring assemblies (springs, hangers, shackles, bushings and mounting bolts) shall be capable of withstanding all the design loads as outlined in 280.904(b)(3) without exceeding maximum allowable stresses specified in the current Society of Automotive Engineers (SAE) Handbook. The capacity of the spring system shall assure, that under maximum operating load conditions, sufficient clearance shall be maintained between the tire and mobile home frame or structure to permit unimpeded wheel movement and for changing tires.

(6) Axles. Axles, and their connecting hardware, shall be capable of withstanding all of the design loads outlined in § 280.904(b)(3) without exceeding maximum allowable stresses for design axle life as recommended by the axle manufacturer. The number of axles required to provide a safe tow and good ride characteristics shall be determined and documented by engineering analysis. Those alternatives listed in § 280.903(c) may be accepted in place of such an analysis.

(7) Hubs and bearings. Hubs and bearings shall meet the requirements of § 280.904(b)(3) and good engineering practice. Both of these components shall be accessible for inspection, routine maintenance and replacement of parts.

(8) Tires, wheels and rims. Tires, wheels and rims shall meet the requirements of § 280.904(b)(3). Tires shall be selected for anticipated usage.

(9) Brake assemblies. (i) The number, type, size and design of brake assemblies required to assist the towing vehicle in providing effective control and stopping of the mobile home shall be determined and documented by engineering analysis. Those alternatives listed in paragraph 280.903(c) may be accepted in place of such an analysis.

(ii) Brakes on the towing vehicle and the mobile home shall be capable of assuring that the maximum stopping distance from an initial velocity of 20 miles per hour does not exceed 40 feet (U.S. Department of Transportation Regulations).

(10) Lights and associated wiring. Highway safety electrical lights and associated wiring shall conform to applicable federal requirements in terms of location and performance. The manufacturer shall have the option of meeting this requirement by utilizing a temporary light/wiring harness provided by the mobile home transportation carrier.

(Section 7(d) of the Department of Housing and Urban Development Act, 42 USC3535(d), and Title VI of the Housing and Community Development Act of 1974, 42 USC5401)

Office of the Secretary

## HEALTH RESOURCES ADMINISTRATION

## Designation of Health Service Areas

Section 1511 of the Public Health Service Act, as added by the National Health Planning and Resources Development Act of 1974 (Pub. L. 93-641, January 4, 1975), requires that there shall be established by the Secretary of Health, Education, and Welfare, in accordance with the requirements of that section, health service areas throughout the United States. With respect to each such area there will be designated at a later date, in accordance with section 1515 of the Public Health Service Act, a health systems agency whose primary responsibility will be the provision of effective health planning for its health service area and the promotion of the development within the area of health services, manpower, and facilities which meet identified needs, reduce documented inefficiencies, and implement the health plans of the agency.

In accordance with section 1511(b)(1) of the Act, the Governors of the fifty States and the Commonwealth of Puerto Rico and the Mayor of the District of Columbia were notified by letter dated January 21, 1975, of the initiation of proceedings to establish health service areas and of the criteria and procedures to be utilized in such designation, and were requested to submit health service area designations for their respective States to the Department of Health, Education, and Welfare by May 3, 1975. A copy of that letter was published in the FEDERAL REGISTER of January 28, 1975 (40 FR 4173). No letters were sent to the Governors or other Chief Executive Officers of the Virgin Islands, Guam, the Trust Territory of the Pacific Islands and American Samoa since section 1536 of the Act provides that no health service areas shall be established within them.

Subsequent to such notification, the Governors and the Mayor were provided copies of *Guidelines for Designation Health Service Areas*, February 1975, which provided the Governors and the Mayor with (1) an elaboration of the area designation requirements set forth in the Act; (2) the instructions and format to be followed in developing and submitting health service area designations; and (3) a description of the Federal review and approval process with respect to area designation.

In response to the request of January 21, 1975, 47 Governors submitted area designation plans. Four States—Delaware, Vermont, Rhode Island, and Hawaii—and the District of Columbia have formally claimed exemption from designating health service areas under section 1536 of the Act. Final determinations have yet to be made with respect to these claims. Therefore, this notice does not designate health service areas for such States and the District of Columbia. A notice designating health service areas for such jurisdictions, if any, will be published in the FEDERAL REGISTER as soon

as practicable after such final determinations have been made.

Under section 1511(b)(3) of the Act the boundaries submitted by the Governors shall, upon publication in the FEDERAL REGISTER, constitute the boundaries of the health service areas; except that, if the Secretary determines that a boundary submitted to him does not meet the requirements of the Act, section 1511(b)(3)(B) requires the Secretary, after consultation with the Governor who submitted such boundary, to make such revision of such boundaries as may be necessary to meet the requirements of the Act. A boundary so revised shall, upon publication in the FEDERAL REGISTER, constitute the boundary for such health service area.

All health service area boundaries submitted by the Governors have been reviewed by the Secretary in accordance with the requirements of section 1511 of the Act, and any revisions so required have been made.

Accordingly, pursuant to the requirement of section 1511(b)(3) of the Act, the following areas shall constitute, upon their publication in the FEDERAL REGISTER, the health service areas for the States listed below:

Dated: August 7, 1975.

THEODORE COOPER,  
Assistant Secretary for Health.

Approved: August 21, 1975.

DAVID MATHEWS,  
Secretary.

## ALABAMA

Health Service Area numbered 1 is the geographic area comprised of the counties of:

Colbert Limestone  
Cullman Madison  
Franklin Marion  
Jackson Marshall  
Lauderdale Morgan  
Lawrence Winston

## AREA 2

Bibb Lamar  
Greene Pickens  
Hale Tuscaloosa  
Fayette

## AREA 3

Blount St. Clair  
Chilton Shelby  
Jefferson Walker

## AREA 4

Calhoun De Kalb  
Chambers Etowah  
Cherokee Randolph  
Clay Talladega  
Cleburne Tallapoosa  
Coosa

## AREA 5

Autauga Geneva  
Barbour Henry  
Bullock Houston  
Butler Lee  
Coffee Lowndes  
Covington Macon  
Crenshaw Montgomery  
Dale Pike  
Elmore

## AREA 6

Baldwin Mobile  
Choctaw Monroe  
Clarke Perry  
Conecuh Sumter  
Dallas Washington  
Escambia Wilcox  
Marengo

## AREA 7

Russell

## GEORGIA

Russell Peach  
Bibb Pulaski  
Bleckley Putnam  
Chattahoochee Quitman  
Clay Randolph  
Crawford Schley  
Dodge Stewart  
Hancock Sharp  
Houston Talbot  
Lee Taylor  
Jasper Telfair  
Johnson Treutlen  
Jones Twiggs  
Laurens Washington  
Macon Webster  
Marion Wheeler  
Monroe Wilcox  
Montgomery Wilkinson  
Muscogee

## ALASKA

Health Service Area numbered 1 is the geographic area consisting of:  
Panhandle of Alaska, bounded on the north by a continuation of the Alaska-Yukon border and on the South by the Alaska State boundary; coterminous with the SEALASKA National Regional Corporation and encompasses the State Health Plan Districts of Juneau, Ketchikan and Sitka.

## AREA 2

Southcentral Alaska, Kodiak, the Aleutian Chain, and extends along the western coast to a point just north of the Seward Peninsula. Encompasses the Native Regional Corporations of Chugach, Koniag, Cook Inlet, Calista, Bristol Bay, Berling Straits, Aleut and ANTNA and encompasses the State Health Plan Districts of Barrow, Kotzebue, Bettles, Anchorage, Bethel, Glenallen, Dillingham, Kodiak, Cold Bay, Kenai, Seward and Valdez.

## AREA 3

Extends north of the Alaska range, eastward to the Canadian Border, and north to the Arctic Ocean, encompasses the Native Regional Corporations of DOYON, NANA and Arctic Slope, and includes the State Health Plan Districts of Nome, a portion of Aniak, Fort Yukon, Galena, Fairbanks, Tok, McGrath, and a portion of the Aniak District.

## ARIZONA

Health Service Area numbered 1 is the geographic area comprised of the counties of:

Maricopa Gila  
Pinal Graham

## AREA 2

Cochise Pima  
Graham Santa Cruz  
Greenlee

## AREA 3

Apache (parts of) Yavapai  
Navajo (parts of) Mohave  
Coconino (parts of) Yuma

Area 4 is the geographic area comprised of a portion of the Navajo Nation:

Arizona New Mexico

Apache (parts of) San Juan (parts of)  
Coconino (parts of) McKinley (parts of)  
Navajo (parts of)

## UTAH

San Juan (parts of)

## ARKANSAS

Health Service Area numbered 1 is the geographic area comprised of the counties of:

Baxter Montgomery  
Benton Newton  
Boone Logan  
Carroll Perry  
Clark Pike  
Conway Polk  
Crawford Pope  
Franklin Scott  
Garland Searcy  
Hot Spring Sebastian  
Johnson Washington  
Madison Yell  
Marion

## ARKANSAS—Continued

## AREA 2

Clay Cross  
Cleburne Fulton  
Craighead Greene  
Crittenden Independence  
Izard Randolph  
Jackson Sharp  
Lawrence St. Francis  
Lee Stone  
Mississippi Van Buren  
Phillips White  
Poinsett Woodruff

## AREA 3

Prairie Faulkner  
Pulaski Lonoke  
Saline Monroe

## AREA 4

Arkansas Hempstead  
Ashley Howard  
Bradley Jefferson  
Calhoun Lafayette  
Chicot Lincoln  
Cleveland Little River  
Columbia Miller  
Dallas Nevada  
Desha Ouachita  
Drew Sevier  
Grant Union

## CALIFORNIA

Health Service Area numbered 1 is the geographic area comprised of the counties of:

Del Norte Plumas  
Siskiyou Butte  
Modoc Mendocino  
Humboldt Glenn  
Trinity Tehama  
Shasta Lake  
Lassen Colusa

## AREA 2

Yolo Nevada  
Sutter Placer  
Yuba El Dorado  
Sierra Sacramento

## AREA 3

Sonoma Napa  
Solano

## AREA 4

Marin San Mateo  
San Francisco

## AREA 5

Contra Costa Alameda  
Merced  
Tuolumne  
Alpine

## AREA 6

San Joaquin  
Amador  
Calaveras  
Stanislaus

## AREA 7

The single county of Santa Clara

## AREA 8

San Benito Monterey  
San Luis Obispo Santa Cruz

## AREA 9

Fresno Kings  
Mariposa Tulare  
Madera Kern

## AREA 10

[FR Doc.75-22664 Filed 8-29-75; 8:45 am]

Office of the Secretary

HEALTH MAINTENANCE ORGANIZATIONS

Designation of Medically Underserved Areas and Population Groups

Section 1302(7) of the Public Health Service Act, as enacted by the Health Maintenance Organization Act of 1973 (Pub. L. 93-222) provides that the Secretary of Health, Education, and Welfare may designate as medically underserved those areas or population groups, both urban and rural, with a shortage of personal health services. Such designation may be made by the Secretary only after consideration of the comments (if any) of each section 314(a) State comprehensive health planning agency<sup>1</sup> whose section 314(a) plan covers (in whole or in part) such urban or rural area or the area in which such population group resides, and each section 314(b) areawide comprehensive health planning agency<sup>1</sup> whose section 314(b) plan covers (in whole or in part) such urban or rural

<sup>1</sup> Section 5 of the National Health Planning and Resource Development Act of 1974 (Pub. L. 93-641, 88 Stat. 2225) states that any reference in law or regulation to a section 314 (a) agency shall be considered a reference to the State health planning and development agency, as may be designated under section 1521 of the Public Health Service Act (PHS Act), and that references to section 314(b) agencies shall be considered references to health systems agencies, as may be designated under section 1515 of the PHS Act, for all or part of an area served by a section 314(b) agency.

area or the area in which such population group resides.

Section 110.203(g) of the health maintenance organization (HMO) regulations (42 CFR 110.203(g)) states that, in designating the medically underserved areas, the Secretary will take into consideration the following factors, among others:

(a) Available health resources in relation to size of the area and its population, including appropriate ratios of primary care physicians (both doctors of medicine and doctors of osteopathy) in general or family practice, internal medicine, pediatrics, obstetrics and gynecology, or general surgery, to population;

(b) Health indices for the population of the area, such as infant mortality rate;

(c) Economic factors affecting the population's access to health services, such as percentage of the population with incomes below the poverty level; and

(d) Demographic factors affecting the population's need/demand for health services, such as percentage of the population age 65 or over.

The statute encourages health maintenance organization applicants to enroll members from medically underserved areas (MUAs) and population groups by providing priority ranking and up to 100-percent funding for HMOs that will draw not less than 30 percent of their membership from medically underserved populations. There is a limitation, however, that not more than 75 percent of the membership be from a medically underserved population unless that area is also rural (see sections 1301(c)(3), 1303(b)(2), and 1304(b)(6) of the PHS Act).

The purpose of this notice is to:

(a) Describe how a methodology for identifying MUAs was developed;

(b) Show how the methodology was applied to specific data to produce a list of MUAs;

(c) Summarize the comments of comprehensive health planning (CHP) agencies on the methodology and its application;

(d) Set forth the procedure for ongoing revisions of the list of MUAs; and

(e) Publish the current MUA list, as revised following receipt of the CHP agency comments and recommendations.

#### BACKGROUND AND COMPUTATION OF THE INDEX OF MEDICAL UNDERSERVICE

The technique used to identify medically underserved areas and population groups resulted from a developmental effort carried out over a number of years. Even before passage of the HMO Act in 1973, efforts were underway to develop criteria for measuring adequate primary care; with passage of the Act, this effort was reoriented toward development of criteria for defining medically underserved areas. It was decided that the development of an index of medical underservice (IMU) would be the best means to identify medically underserved areas, and the development of an index was begun.

The purpose of using an index approach, rather than individually examining a number of separate indicators

against criteria for each indicator, is to allow for simultaneous consideration of all the criteria used. The chosen indicators of medical underservice are weighted according to their importance in identifying medical underservice. Because of the interdependence of the indicators, it is unlikely that any single indicator can show that an area of population group is or is not underserved. Furthermore, an index approach allows for later inclusion of any additional criteria which can be shown to make the index more predictive of underservice. Finally, an index can be used to identify gradations of underservice and, with appropriate changes in the criteria or their relative weights, a similar index can be used for other health service programs.

Initially, dimensions of medical underservice were delineated by an interdisciplinary group of experts in the fields of health care delivery, health care administration, health status and health services measurement. The dimensions studied included availability of health manpower and health facilities; physical and economic access to and effective utilization of health resources by segments of the population; health status of the population; and appropriateness and quality of health care. Seventy-two indicators of these dimensions were identified and circulated to other experts who were requested to select those which would enable health care experts to compare areas on the overall level of medical underservice. Through a combination of mail exchanges and panel discussions, the list of 72 was reduced to 20 indicators which were ranked by the experts according to their relative importance. The 20 were reduced to 9 indicators by rejecting those with low relative weights as well as those for which data were considered unavailable or difficult to collect.

Conferences were convened at which panels of experts were asked to weight the nine indicators against each other with respect to their importance for determining the relative medical underservice of various areas. The nine remaining indicators were: ratio of practicing physician equivalents to population, infant mortality rate, preventable death rate, percent of population with family incomes below the poverty level, percent of population aged 65 or over, average travel time of area residents to regular sources of primary care, per capita expenditures for health care, average travel time to emergency care, and ratio of (acute) hospital beds to population. The experts were asked to establish "utility" transformation curves for each indicator, relating possible values of each indicator to a common scale ranging from 0 (grossly underserved) to 100 (adequately served). This transformation to a common scale allowed for the summing-up of the indicator values into a single index score. Then, using a multi-attribute utility estimation approach,<sup>2</sup>

<sup>2</sup>Huber, George, "Multi-Attribute Utility Models: A Review of Field and Field-like Studies," Management Sciences, June 1974, Vol. 20, No. 10.

the weights and utility curves were combined into a 9-variable index of medical underservice.

Further analysis was carried out on subsets of the nine indicators. In addition to the 9-variable model, an 8-variable, a 6-variable, and a 4-variable model were analyzed. Because of data collection problems with some of the indicators in the 8- and 9-variable models and the fact that the 4-variable model's predicting ability appeared superior to the 6-variable model, the 4-variable model was selected for further study. It was found, after validation tests using sites from a wide range of geographic areas and from an extensive urban/rural mix of areas, that the chosen subset of four indicators predicted expert judgment of medical underservice almost as well as larger subsets. Also, data on the four indicators selected were considered to be the most accessible to both national and local health planners.

The indicators of medical underservice selected as the basis for the IMU are as follows:

(a) Ratio of primary care physicians to population;

(b) Infant mortality rate;

(c) Percentage of the population which is age 65 or over; and

(d) Percentage of the population with family incomes below the poverty level.

The IMU is computed using data on the four indicators, for a given area, in the following manner:

(a) The measured value for each indicator is converted to a value on a common scale of 0 to 100, using a "utility curve" established for each indicator. The curves thus relate the indicators to criteria for optimal values of the indicators in adequately served areas; the actual values can then be applied to the curves to carry out the conversion to utility values.

(b) The IMU for a given area is computed as the sum of the weighted utility values for the four indicators.

The list of medically underserved areas was produced by use of this methodology applied to national data.

#### APPLICATION OF THE INDEX

An initial list of MUAs was developed by applying the IMU described above to national data on the four indicators. Specifically, county-level data were used for the physician ratio and infant mortality rate. For the two census indicators (percent of the population below poverty and percent of the population age 65 or over), county and/or Minor Civil Division (MCD) or Census County Division (CCD) data were used in nonmetropolitan areas, and census tract data were used in metropolitan areas.

When the IMU was computed for all U.S. counties, it was found that the median county score was 62, therefore 62 was chosen as the cut-off point between underserved and adequately served areas. Areas with scores of 62 or less were considered underserved.

In nonmetropolitan areas the index value was computed for each county, and all counties with index values of 62 or

below were included on the list. In nonmetropolitan counties with index values above 62, the IMU was then recomputed for each MCD and CCD; those with scores of 62 or below were added to the list.

In metropolitan areas, defined here as census tracts which lie within standard metropolitan statistical areas (SMSA), the IMU was computed for each census tract. All census tracts with IMU values of 62 or below were included on the list.

Areas with a population of less than 500 (whether counties, census tracts, or MCDs) were not included in the evaluation in an effort to eliminate the listing of areas such as parks and airports.

In order to comply with the HMO Act, before a national list could be prepared, applicants for Federal assistance were encouraged to identify medically underserved areas themselves, using an index methodology described to them in draft guidelines. Proposed areas were submitted to CHP agencies for review as part of the HMO application process, and were considered for designation as underserved on an individual basis. Several HMO applicants whose projects involve service to underserved areas designated in this manner have been approved and funded. Such areas (if not also included in the national list of designated areas) will continue to be designated only until their current grants expire. Future funding under the underserved-area provisions of the HMO Act will be available only to applicants planning to serve areas on the list, or areas subsequently added to this list via the procedures described herein.

The list of areas produced by application of the IMU, plus the areas identified by HMO applicants, were submitted to CHP agencies for their review. The list incorporates revisions resulting from that review process.

#### SUMMARY OF COMMENTS FROM AGENCIES

On January 15, 1975, all State and areawide comprehensive health planning agencies were sent a draft list of medically underserved areas within their jurisdictions, and a complete description of the index of medical underservice methodology and the technique used to apply the IMU to their areas. CHP agencies were asked to submit their comments and recommendations within 60 days as follows: (a) comment on the IMU method and the technique used for its application, (b) recommend additions to the list based on a recomputation of the IMU using better data available to the agency at the local level, and (c) recommend deletions from the list based on the agencies' knowledge of the area(s) or based on a recomputation of the IMU using better data available to the agencies at the local level. The CHP agencies were informed that they should also include a description of the method used for local public review of their recommendations. In reply, numerous telephone calls and 39 written comments were received.

The areas of various types on the draft list, and on the list after CHP review, are as follows:

	Number on draft list of MUAs	Number on list after CHP review (table A)	Changes
Counties	1,495	1,492	-3
Minor civil divisions/census county divisions	1,454	1,516	+62
Census tracts identified individually	5,394	5,228	-166
Census tracts identified as part of neighborhood groups	0	42	+42

Approximately 25 percent of the total population of the United States resides in the listed MUAs. The increase in the number of MCDs and CCDs after CHP comments on the list, and the decrease in the number of counties listed, represent an attempt by the CHP agencies to identify pockets of underservice within counties. The addition of the category, "Census Tracts Identified as Part of Neighborhood Groups," reflects the decision to allow local agencies to include all census tracts which are part of a natural neighborhood if the entire neighborhood MUA Index score meets the cut-off level chosen as indicating medical underservice.

#### SUMMARY OF CHP COMMENTS ON THE INDICATORS, THE IMU, AND THE TECHNIQUE USED FOR ITS APPLICATION, WITH RESPONSES TO THE COMMENTS

The CHP critiques of the IMU and suggestions for its improvement were divided into comments on the four indicators which make up the IMU, and comments about their application. (In this summary, the Public Health Service response follows the comment and is indented.)

**A. Comments on the Indicators.** 1. It was suggested that neither of the census-related indicators (i.e., percentage of population with family incomes below the poverty level, percentage of population age 65 or over) is a measure of medical underservice.

While none of the indicators actually measures medical underservice directly, each indicator correlates with or predicts a dimension of underservice, and evaluations of the IMU method indicate that the combination of indicators does effectively parallel the experts' judgments about the medically underserved areas.

2. Some CHP agencies noted that the 1970 census poverty data used in the IMU do not reflect the extent of poverty in 1975 and that the definition of poverty used makes it difficult to obtain more recent comparable data.

The 1970 census is the most recent nationally available source of small-area poverty data. Standard census definitions of poverty are used in computing the IMU for the various areas throughout the Nation. CHP agencies were encouraged to use any other more recent official data on any of the indicators to support suggested additions to or deletions from the MUA list.

3. The percentage of "preventable deaths" was suggested as a better indicator of medical underservice than the "infant mortality rate" used in the IMU.

The indicators used were chosen by panels of health administrators, planners, providers, and consumers from lists of indicators which included percentage of "preventable deaths." In choosing the indicators it was necessary to consider availability of the data, and the ability to arrive at agreed-upon operational definitions for each indicator.

4. County-wide infant mortality rates were used to arrive at the IMU for all areas including sub-county areas. The adequacy of county-wide data for evaluating urban sub-county areas was questioned by the agencies.

The Department could not use sub-county infant mortality data in developing the initial list as such data were not available on a national basis. CHP agencies, however, will be allowed in the future to submit infant mortality data for sub-county areas having at least 4,000 births over a 5-year period. This level of births has been chosen to ensure the reliability of the infant mortality rate. Such areas must be defined in census units and the new rate must be used for all units comprising such sub-county areas.

5. There were four types of comments relating to the use of the physician-to-population ratio as one indicator in the IMU: the presence of physicians in an area does not necessarily represent an available service to the total population of that area; physician full-time equivalents should be computed or estimated by excluding physicians over 65 years of age and those in ill health who are in active practice; county physician-to-population ratios are not meaningful in assessing sub-county areas; and Public Health Service physicians in the National Health Service Corps (NHSC) and the Indian Health Service (IHS) should not be included as primary care physicians.

It is recognized that availability does not assure accessibility of medical care, but measurement of accessibility is not feasible at this time. Indices of accessibility are being studied, however, for possible use in the future.

Accurate measurements of "physician full-time equivalents," if available, would be more useful than the simple number of physicians spending at least 50 percent of their time in primary care, which is now used to count physicians for this indicator. Standardized measures of "physician full-time equivalents" are now being discussed and will be used if and when such data become available and can be gathered uniformly for all areas.

The use of sub-county physician ratios is being studied by the Health Resources Administration and the Health Services Administration. A uniform definition of medical service areas (primary-care service areas) is being developed for programs delivering primary medical care. County physician-to-population ratios will be used in the IMU until a medical service area definition is established.

The use of NHSC and IHS physicians in rural areas is supported on the basis

P  
2  
  
7  
5  
  
XUM

that they are a resource available to supply medical care to their particular local communities. Consideration will be given to accepting CHP agency recommendations for excluding IHS physicians, if native Americans are also excluded.

6. The use of additional indicators for the IMU was proposed, such as: population ages 16-64 who are disabled; percent of mothers receiving prenatal care in the first trimester; number of health facilities in an area; and unemployment rate.

As noted, many variables, including some of the above, have been considered. Additional indicators will be studied in future evaluations of the IMU variables.

B. *Comments on the Application of the IMU.* The principal concern expressed (and noted above in comments on the indicators) was that county data often obscure problems of maldistribution of services within counties, and that local agencies should have the option of defining natural geographic areas needing primary care service and of providing the data on all four indicators for such areas. Another concern was that the IMU did not address problems of accessibility of primary care. The agencies recommended that, in revising the IMU, consideration be given to time and distance in relation to obtaining primary care, including such things as geographic barriers or inclement weather.

Some agencies raised questions about special problems in their areas. For example, one agency recommended that special consideration be given to areas with heavy seasonal influxes of vacationers.

All but the last of these general comments were discussed under the section on *Comments on the Indicators*.

Although the IMU does not fully reflect special local problems such as seasonal influxes, local agencies can recommend deletion of any area, or an area can be added if the locally computed IMU for that area is below the designated cut-off level. Efforts are being made to evaluate various means of refining the IMU so that it will accurately reflect local conditions and concerns. In its present state, the IMU represents a beginning in the effort to accurately assess medical underservice and identify underserved areas and population groups and, as refinements are made, they will be reflected in updated lists. Such lists will be coordinated with local planning agencies, and published periodically in the *FEDERAL REGISTER*.

#### ONGOING REVISIONS IN THE MUA LIST

The MUA list will be continuously revised using national updates including changes recommended by official CHP agencies. National updates will be based on changes in the actual value or weights of the indicators, additions or deletions of indicators, or adjustments in the cut-off level. CHP agency recommendations will be considered according to the procedure described below.

It is expected that official CHP agencies will, on a continuous basis, recom-

mend additions to and deletions from the MUA list. (Only recommendations from official CHP agencies will be considered.) The material submitted should include a description of the method used for public involvement in the recommendation. The description may include, for example, documentation of relevant public meetings, copies of the agency's published notice of intent to review its area to identify pockets of medical underservice, or satisfactory demonstration that the Agency Advisory Board, as representative of the community, has had adequate review opportunity and has approved the agency recommendations.

If recommendations for additions and deletions are based on a recomputation of the index of medical underservice, all computations, as well as data sources and dates, must be submitted with the recommendations.

HMO applicants who intend to seek priority funding based on an intent to enroll members from MUAs should consult with the official CHP agency in the area and obtain information on the latest published MUA list. Medically underserved areas which were identified by HMO applicants prior to this Notice will be considered to be MUAs only through the term of any existing HMO grant award to the applicant, unless the area is or becomes part of the list according to the procedure described below.

*Deletions.* Recommendations for deletion of any area from the list must be accompanied by the reasons for the recommendation, the demonstration of public involvement in the decision and, if the recommendation is based on a recomputation of the IMU, the computations with data sources and dates. The method for computing the IMU is described in paragraph (c) below, "Computation of the Index of Medical Underservice."

*Additions.* The following information is required when CHP agencies recommend addition of areas to the MUA list:

- Geographic identification of the area. An area proposed for designation as medically underserved must be either:
  - A county (in nonmetropolitan areas),
  - A Minor Civil Division (MCD) or Census County Division (CCD) (in nonmetropolitan areas),
  - A census tract (in metropolitan areas), or
  - A group of census tracts, MCDs, or CCDs which constitute a "natural neighborhood" for MUA designation.

(CHP agencies may aggregate individual census tracts, MCDs or CCDs with contiguous tracts, MCDs or CCDs, and recommend that they be listed as underserved if the IMU for the combined area scores 62 or below. Such groupings may constitute more "natural" areas for designation as medically underserved than units such as census tracts, MCDs and CCDs because of the homogeneity of the neighborhood.)

(b) Data on the four indicators of underservice. The following data must be provided for any area recommended for designation as a medically underserved area:

(1) Ratio of primary care physicians-to-population in the county which contains the MUA. This ratio should be computed by taking the number of primary care physicians in the county containing the identified area, dividing this number by the resident population minus the resident members of the Armed Forces and inmates of institutions, and multiplying the result by 1,000. Figures used here (number of primary care physicians, resident population, resident members of the Armed Forces, and inmates of institutions) and their sources, should be stated. For the purpose of these computations, primary care physicians are defined to include the total number of active doctors of medicine (M.D.) and doctors of osteopathy (D.O.) who spend at least 50 percent of their time engaged in direct patient care in the fields of general or family practice, internal medicine, pediatrics, or obstetrics and gynecology. In metropolitan areas the computations should include all non-Federal physicians meeting the above definition. In nonmetropolitan areas the computation should include Public Health Service physicians in addition to non-Federal physicians.

(2) Infant mortality rate. This rate should be computed as an aggregate rate for the 5-year period 1966 through 1970, or more recent period of five consecutive years, as follows: Total number of infant deaths (deaths between birth and age 1 year) during the 5-year period in the county containing the identified area should be divided by the total number of live births in the county during the same period and the result multiplied by 1,000. For counties with fewer than 100 births over the 5-year period, the IMU may be computed using the State infant mortality rate instead of the county rate. The infant mortality rate for subcounty areas including the identified area and having at least 4,000 births over the 5-year period will be accepted in lieu of the county rate. The number of infant deaths and live births for the area and the sources of data used must be stated, together with the infant mortality rate computed from them. Data on infant deaths and live births may be obtained from official State agencies or the annual editions of the U.S. Public Health Service publication entitled "Vital Statistics of the United States." Unpublished data, for years later than those for which data have been published, can be obtained for specific areas from the Mortality Statistics Branch, National Center for Health Statistics, Department of Health, Education, and Welfare, Washington, D.C. 20852.

(3) Percentage of population aged 65 or over. This should be computed from 1970 U.S. census data or more recent update thereof, if any, as follows: the number of persons age 65 and over in the identified area should be divided by the resident population of that area, and the result multiplied by 100.

The figures used to compute this percentage (number of persons age 65 and over and the resident population) must be stated. These data can be obtained

from U.S. Census Bureau documents or tapes. If data are obtained from some other more recent source, that source must be identified.

(4) Percentage of population with family incomes below the poverty level. The definition of poverty used is the 1964 Social Security Administration version adopted by the Federal Inter-agency Committee in 1969 and revised annually to account for changes in the cost of living. This should be computed from 1970 census data or more recent update thereof, if any, as follows: the number of persons in families with incomes below the poverty level in the identified area should be added to the number of unrelated individuals with incomes below the poverty level; this total should be divided by the resident population minus members of the Armed Forces living in barracks, college students in dormitories, and inmates of institutions, and the result multiplied by 100.

The figures used to compute these percentages (the resident population, the Armed Forces living in barracks, the inmates of institutions, students in dormitories, and the number of persons with income below poverty level) must be stated. They may be obtained from the U.S. Census Bureau documents or tapes. If the data are obtained from a more recent source, the data and source should be identified.

(c) Computation of the Index of Medical Underservice. The IMU must be computed as follows to determine whether an area can be designated as medically underserved.

(1) For nonmetropolitan areas (those outside of the SMSAs) identified as an entire county, compute the IMU using county-level data for each indicator (except that for counties having fewer than 100 births over a 5-year period, the State-level infant mortality rate may be used).

(2) For nonmetropolitan areas identified as MCDs or CCDs, or groups thereof, compute the IMU using MCD/CCD-level data for the poverty and age indicators, and county-level data for the physician ratio and infant mortality rate for the county containing the areas. Sub-county infant mortality rate may be used in areas which have 4,000 or more births during the 5-year period.

(3) For metropolitan areas (SMSAs) identified as census tracts or groups of census tracts, compute the IMU using census tract-level data for the poverty and age indicators, and county-level data for the physician ratio and infant mortality rate for the county containing the census tracts. Sub-county infant mortality rate may be used in areas with 4,000 or more births during the 5-year period.

The IMU is computed by using the values from the tables set out below, in the following formula:

$$IMU = V_1 + V_2 + V_3 + V_4$$

where

$V_1$  = weighted value for percent of population below poverty level (see table  $V_1$ );

$V_2$  = weighted value for percent of population age 65 or over (see table  $V_2$ );

$V_3$  = weighted value for infant mortality rate (see table  $V_3$ ); and

$V_4$  = weighted value for primary care physicians per 1,000 population (see table  $V_4$ ).

If the IMU score is 62 or below, the area may be recommended for designation as an MUA.

1.101-1.150	28.3
1.151-1.200	28.6
Over 1.200	28.7

## SUMMARY

The list of MUAs was developed by using an index approach to aggregate indicators which predict medical underservice and applying the Index of Medical Underservice to defined areas. The list was then modified according to recommendations submitted by CHP agencies.

Continuous modifications will be made and a revised list will be published periodically. Official CHP agencies should send their recommendations for changes on the list to Director, Bureau of Community Health Services, Department of Health, Education, and Welfare, Room 6A-14, 5600 Fishers Lane, Rockville,

Maryland 20852. These recommendations must follow the procedures previously described. Recommendations will be reviewed, and CHP agencies will be notified of any action.

The areas identified as MUAs will not necessarily receive Federal resources. The areas listed may be used by HMO applicants seeking priority funding due to their intent to enroll members from MUAs. Severity of medical underservice is considered to be related to the IMU score. Therefore, if all other funding factors are equal, applicants who intend to serve listed areas with lower IMUs will be considered first. HMO applicants are encouraged to contact the CHP agencies in their areas for up-to-date information on the MUA list as well as for assistance in determining whether areas not already on the list may be eligible for designation.

THE LIST OF MEDICALLY  
UNDERSERVED AREAS

The list is structured with the States in alphabetical order. There are four headings which identify total counties, Minor Civil Divisions/Census County

Divisions within counties, census tracts within counties, and groups of census tracts. The MCD/CCDs are identified by name; the census tracts are identified by number. Areas in each of the sections are listed alphabetically by county.

Groups of census tracts are listed only when the local CHP agency has certified that particular groupings form natural areas for designation. Census tracts which individually qualify for designation but have been combined with other tracts in groups have been marked with double asterisks in the group listings. Census tracts in those groups not marked with asterisks qualify as an MUA only insofar as they are part of the group. In establishing or proposing service areas, HMO applicants for priority funding may choose either the areas marked by the asterisks or the entire group of census tracts, but may not select any census tract without asterisks within the group unless they are choosing the entire group.

The following areas are designated as medically underserved areas under the HMO Act of 1973:
